

MEMORANDUM

OCAAT Agenda
Item No. IV. O
8/22/2024

TO: Trustees, Oklahoma City Airport Trust

FROM: Jeff Mulder, Director of Airports

Resolution authorizing the purchase of airport runway equipment and related supplies and services, utilizing Sourcewell Cooperative Agreement with TYMCO, Inc., Contract #111522-TYM, through February 3, 2027; not to exceed \$750,000 per fiscal year; and Resolution authorizing the purchase of a Model 600 runway sweeper truck and other necessary items from United Engines, utilizing the Sourcewell Co-Op Agreement with TYMCO, Inc., Contract #111522-TYM, estimated cost \$376,136.

Location:

Will Rogers World Airport

Background:

The Trust has a continuing need to buy airport runway equipment and related supplies and services that will assist in the maintenance and preservation of the Trust's Airports. Sourcewell benefits public agencies by providing a contract alliance for nationally competitive bid contracts. Sourcewell has entered a cooperative agreement with TYMCO, Inc., Contract #111522-TYM ("Sourcewell Agreement") to provide airport runway equipment, products, or services to Sourcewell and participating public entities that access Sourcewell's cooperative purchasing contract. This contract adoption will allow the Trust to purchase needed equipment at a discounted price.

Will Rogers World Airport is in need of an airport runway sweeper truck that utilizes the Regenerative Air System to clean airport runways, ramps, aprons, and taxiways to effectively remove foreign objects and debris from paved surfaces where the airplanes travel. The current 2013 runway sweeper truck has reached the end of its life expectancy and no longer operates as efficiently as required.

The Sourcewell Agreement provides for a runway sweeper truck of equal make and model of the Trust's current runway sweeper truck. The estimated contract price for the runway sweeper truck is \$376,136.

Recommendation: Resolutions be adopted.
