

# MEMORANDUM

Council Agenda  
Item No. IX. E  
5/23/2023

## The City of OKLAHOMA CITY

TO: Mayor and City Council

FROM: Craig Freeman, City Manager

Resolution authorizing the sole source purchase of hardware, software maintenance, licenses, training, update services, and application support for the Axon Evidence Data Management System, Axon Enterprises, Inc. (SS24-C241024), estimated cost \$95,000, June 7, 2023 through June 6, 2024.

### **Background:**

On September 14, 2021, the City Council (Item No. IX. BW) approved a Master Services and Purchasing Agreement with Axon Enterprise, Inc. to provide an Integrated Police Data Management System that includes hardware such as body worn cameras, conductive electrical weapons, fleet vehicle cameras, software and update services. As part of the Police Headquarters building project, Axon Evidence Data Management System was implemented. The Axon System allows the Police Department to stream interviews from anywhere on the City's network, bookmark, annotate and comment on interviews in real time.

The holding and interview rooms at Criminal Interdiction Team of Central Oklahoma (C.I.T.C.O) and at Will Rogers World Airport (Airport) has audio and video equipment from another system that is outdated and no longer being supported. This has resulted in recordings being lost and evidence being un-submittable. The upgrade to the Axon System will bring both the C.I.T.C.O and the Airport rooms up to date with the current software, creating compatibility across all interview and evidence systems used by the Department.

Hardware, software maintenance, licenses, training, update services, and application support for the Axon System is proprietary to Axon Enterprises, Inc. These services are essential to recording and storing digital evidence.

Staff requests Council authorization the sole source purchase of hardware, software maintenance, licenses, training, update services, and application support for the Axon Evidence Data Management System, Axon Enterprises, Inc. (SS24-C241024), estimated cost \$95,000, June 7, 2023 through June 6, 2024.

### **Estimated Cost:**

\$95,000
