

MEMORANDUM

Council Agenda
Item No. IX. Q
4/22/2025

The City of OKLAHOMA CITY

TO: Mayor and City Council

FROM: Craig Freeman, City Manager

Resolution authorizing the purchase of road right of way maintenance equipment from Sourcewell Cooperative Purchasing Contract (COKC00007), estimated cost \$100,000, April 25, 2025 through April 24, 2026.

Purpose:

To provide the Public Works Department a resource to purchase road right of way maintenance equipment items necessary for the implementation of an Alternative Speed Abatement Program (ASAP).

Background:

The Alternative Speed Abatement Program (ASAP), initiated in 2017, is the work of the Traffic and Transportation Commission and staff with support from the Municipal Counselor's Office. The goal of the program is to reduce the frequency and magnitude of speeding within neighborhoods. The program provides Oklahoma City's organized neighborhood associations, neighborhood groups, schools, and residents the ability to be active participants in helping to maintain safe and reasonable travel speeds on the streets where they live by requesting matching funds for installation of speed abatement items as described below. On January 17, 2023 (Item No. XI. N) City Council approved an amendment to ASAP. The program changes included the following:

- a reduction in eligibility requirements
- four additional program features were approved (painted markings and messages), speed humps, speed cushions, and mini roundabouts
- program funding was changed from being entirely user-funded to a cost sharing model

Program funding is cost shared between program applicants and the City, as funds are available. The City reserves the right to remove program features should they become inoperative, damaged, destroyed, or for cause at any time. Costs will be split equally between the City and the applicant with the City performing the installation of road-right-of-way equipment. The City share is currently budgeted at \$50,000, funded by GOB funds; along with a \$50,000 match, funded by Special Purpose funds.

Sourcewell is a cooperative purchasing organization that provides government entities access to competitively solicited purchasing plans. Through Sourcewell, the City will procure goods and services using an established government contract, which adheres to bidding procedures that substantially comply with the City's requirements. The approval process for this contract mirrors the procedures followed when purchasing from State contracts.

Estimated Cost:

\$100,000

Source of Funds:

50% City Match
