WHEREAS, the work above was authorized under the auspices of **Amendment No. 1**; and

WHEREAS, subsequent to the execution of the original contract as previously amended, and a result of programmatic needs discussion with the Police Department, the Architect evaluated the scope of the project and the associated construction cost and it has been determined to be in the best interest of the City to direct the Architect to prepare a base bid for the driving track, and bid alternates for ESS Turns/Off-Camber, an inner loop, skills pad, driver training building and parking lots and drives; and

WHEREAS, the original contract must be amended to incorporate the Architect's increased scope of work related to these services and associated fees; and

WHEREAS, the total compensation to be paid to the Architect for this Contract and Amendment shall be as follows:

For the original contract:

Not to exceed \$508,560 for Architectural services

For Amendment No. 1:

Not to exceed \$4,500 for Architectural services

For Amendment No. 2:

Not to exceed \$380,528 for Architectural services

Total Amended Contract:

Not to exceed \$893,588 for all services (an increase of \$380,528); and

WHEREAS, both parties agree to amend said contract.

NOW, THEREFORE, the parties agree as follows:

I. Amend **Paragraph 2. Architectural Services.** to read as follows:

Architectural Services. The Architect is hereby engaged and employed by the City to perform in accordance with good architectural practices and in the best interest of the City in accordance with the professional standard of care all of the work as set out herein (including **Amendment No. 1** work related to landscaping services required for the project site; and **Amendment No. 2** work related to preparation of a base bid for the driving track, and bid alternates for ESS Turns/Off-Camber, an inner loop, skills pad, driver training building and parking lots and drives); including Exhibit A, and including but not limited to the following:

II. Amend **Paragraph 5. Compensation** to read as follows:

Compensation. The aggregate total compensation for all architectural services under this Contract shall not exceed a total fee of \$893,588 (an increase of \$380,528), which includes: for Basic Services an amount not to exceed \$808,588 (an increase of \$380,528), and for Reimbursable Expenses an amount not to exceed \$25,000, as specifically set forth in Exhibit B, attached hereto and incorporated herein; and, for Additional Services an amount not to exceed \$60,000, as specifically set forth in Exhibit E attached hereto and incorporated herein.

III. Amend **EXHIBIT A – SCOPE OF WORK** by addition of the following “**Exhibit A – Scope of Work (added by Amendment No. 2)**”:

**Exhibit A – Scope of Work
(Added by Amendment No. 2)**

As a result of several meetings with the Police Department, the following programmatic requirements were established:

- o Site Improvements
 - Grade the site, bring site utilities onto the property, landscaping, inclusion of perimeter site fencing and controlled access entry gates.
- o Driver Training Building (DTB)
 - The DTB has increased from 1,600 SF to 5,047 SF.
- o Skills Pad
 - The size of the Skills Pad has now been determined to have a footprint of 300 feet x 300 feet. The Skills Pad concrete paving shall be a heavy-duty section, such as 8 to 10-inches thick 4,000 psi concrete reinforced with No. 4 rebar at 18-inches on center each way.
- o Driving Track
 - The Driving Track needs to have the following features:

- The track includes a high-speed section capable of allowing the drivers to hit up to 60 mph. The main track corners are superelevated to allow drivers to carry speed into and out of the corners. The track also includes an ESS curve section, two reverse camber turns, an accident-avoidance section, a CLEET training area, street scape, low water crossing, and a cul-de-sac. Also connected to the track is a gravel – off road path that connects the street scape with the Skills Pad.
- Due to the function of the track, the concrete will likely be a heavy-duty section such as 6 to 7-inches thick 4,000 psi concrete reinforced with No. 4 rebar at 18-inches on center each way.

The Preliminary Report Submittal dated May 7, 2024 includes more in-depth information regarding the items noted above and below.

The Total Estimated Construction Cost noted in the Preliminary Report came to **\$8,973,695** which exceeds the original Fixed Limit of Construction Cost by **\$4,348,895**.

- o Based upon the realization that the estimated construction costs for the actual project scope items far exceeded the Original Fixed Limit of Construction Cost, the following list of Base Bid and Add Alternate Items was developed in conjunction with OKC Public Works and the OKC Police and Fire Departments:

<u>Driving Facility Base Bid and Add Alternates</u>		<u>Estimated Construction Cost</u>
Base Bid	Driving Track	\$4,245,437
Add Alternate 1	ESS Turns/Off-Camber	\$ 265,891
Add Alternate 2	Inner Loop	\$ 188,687
Add Alternate 3	Skills Pad	\$1,774,563
Add Alternate 4	Driver Training Building	\$2,195,334
Add Alternate 5	Parking Lot and Drives	\$ 303,781
