

MEMORANDUM

Council Agenda
Item No. IX. I
2/25/2025

The City of OKLAHOMA CITY

TO: Mayor and City Council

FROM: Craig Freeman, City Manager

Resolution authorizing the purchase of truck mounted equipment from State Contract (COKC01464), estimated cost \$2,500,000, February 27, 2025 through February 26, 2026.

Background:

City Departments and Trusts have a continuing need to purchase truck mounted equipment, which is available through a state contract. This contract consists of mounted truck body equipment, such as platforms, sign trucks, aerial lifts, haul trucks, flatbeds, grapple/loaders, and many other types of truck mounted equipment.

When more than one unit is needed, multiple unit discounts are available from some of the contracted vendors. Purchases made from this contract will only be approved when it has been determined the established contract price offers the greatest cost savings to the City. When cost savings cannot be obtained through the State's contract, Departments will be required to develop specifications and follow the City's formal competitive bidding process.

Procurement staff continues to work with the State by providing input into the development of the specifications, including the types of materials required to operate City equipment, and recommending potential vendors needed for City operations. This is a joint effort to receive volume discounts provided through State of Oklahoma contracts.

The estimated cost for this State contract is based on previous expenditures and equipment identified to be purchased during this contract period. The City is under no obligation to purchase from this contract. All purchases are subject to future appropriations and the availability of funds.
