Sourcewell retains the right to consider additional extensions beyond seven years as required under exceptional circumstances.

Upon Contract execution and throughout the Contract term, Supplier must provide to Sourcewell a current means to validate or authenticate Supplier's authorized dealers, distributors, or resellers relative to the Equipment, Products, and Services offered under this Contract, which will be incorporated into this Contract by reference. It is the Supplier's responsibility to ensure Sourcewell receives the most current information.

### **3. PRICING**

All Equipment, Products, or Services under this Contract will be priced at or below the price stated in Supplier's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

A. SHIPPING AND SHIPPING COSTS. All delivered Equipment and Products must be adequately packaged. Damaged items may be refused upon receipt. If the damage is not easily identifiable at the time of delivery, Supplier must permit the Equipment and Products to be returned within a reasonable time at no cost to Sourcewell or its Participating Entities. Participating Entities reserve the right to inspect the Equipment and Products at a reasonable time after delivery where circumstances or conditions prevent effective inspection of the Equipment and Products at the time of delivery; in such instances, Supplier shall grant Participating Entities a 14-day window for proper inspection before order is confirmed as being received and accepted. In cases where, through circumstances beyond the control of the Participating Entities, the Equipment and Products need to be returned, the Supplier must facilitate this return at no cost to Sourcewell or its Participating Entities. If the return of damaged Equipment and Products is deemed necessary, Participating Entities are expected to adhere to the Suppliers Returns and Exchange Policy, accessible online at <https://www.bendpak.com/support/orders/returns/>. The Supplier will replace nonconforming or freight-damaged Equipment and Products with conforming items that meet the Participating Entity's approval.

When Supplier determines it will offer Hot List Pricing, it must be submitted electronically to Sourcewell in a line-item format. Equipment, Products, or Services may be added or removed from the Hot List at any time through a Sourcewell Price and Product Change Form as defined in Article 4 below.

Hot List program and pricing may also be used to discount and liquidate close-out and discontinued Equipment and Products as long as those close-out and discontinued items are clearly identified as such. Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

#### **4. PRODUCT AND PRICING CHANGE REQUESTS**

Supplier may request Equipment, Product, or Service changes, additions, or deletions at any time. All requests must be made in writing by submitting a signed Sourcewell Price and Product

Some Participating Entities may require the use of a Participating Addendum, the terms of which will be negotiated directly between the Participating Entity and the Supplier or its authorized dealers, distributors, or resellers, as applicable. Any negotiated additional terms and conditions must never be less favorable to the Participating Entity than what is contained in this Contract.

**Table 13: Audit and Administrative Fee**

Line Item	Question	Response *	
66	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell. Provide sufficient detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template.	This is a very common work flow for BendPak due to similar requirements with some of our bigger national accounts. We have specific dialog boxes within our system to identify and track Sourcewell contracts. There is a dedicated team that will be auditing our systems to verify proper pricing, ensure all sales are reported and administrative fees are paid. These will all be flagged in our accounting software, automatically consolidated and our dedicated team will also complete a manual audit to ensure everything is captured.	*
67	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	The same system feature we leverage to tag and report Sourcewell sales and ensure proper pricing is offered, will also be leveraged to measure our success. This will be analyzed on a weekly and monthly basis to identify trends, progress, and results tied to marketing campaigns helping us refine our messaging and marketing efforts. We are a very agile company, our Marketing Department can pivot on a moment's notice to optimize our approach to spread the word out about awards and products. Like any other sales initiatives, BendPak will examine ratios of "conversations to closing" to ensure our presentations are optimized. This data will be reviewed on a regular basis to ensure we are fully realizing the opportunity provided by the Sourcewell award.	*
68	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	BendPak will pay 2% of net purchases from registered Sourcewell Members over the length of the contract period once awarded.	*

**Table 14A: Depth and Breadth of Offered Equipment Products and Services**

### PROPOSER AFFIDAVIT AND ASSURANCE OF COMPLIANCE

I certify that I am the authorized representative of the Proposer submitting the foregoing Proposal with the legal authority to bind the Proposer to this Affidavit and Assurance of Compliance:

1. The Proposer is submitting this Proposal under its full and complete legal name, and the Proposer legally exists in good standing in the jurisdiction of its residence.
2. The Proposer warrants that the information provided in this Proposal is true, correct, and reliable for purposes of evaluation for contract award.
3. The Proposer, including any person assisting with the creation of this Proposal, has arrived at this Proposal independently and the Proposal has been created without colluding with any other person, company, or parties that have or will submit a proposal under this solicitation; and the Proposal has in all respects been created fairly without any fraud or dishonesty. **1. TERM OF CONTRACT**

A. **EFFECTIVE DATE.** This Contract is effective upon the date of the final signature below.

**EXPIRATION DATE AND EXTENSION.** This Contract expires February 12, 2028, unless it is cancelled sooner pursuant to Article 22. This Contract allows up to three additional one-year extensions upon the request of Sourcewell and written agreement by Supplier. Sourcewell retains the right to consider additional extensions beyond seven years as required under exceptional circumstances.

B. **SURVIVAL OF TERMS.** Notwithstanding any expiration or termination of this Contract, all payment obligations incurred prior to expiration or termination will survive, as will the following: Articles 11 through 14 survive the expiration or cancellation of this Contract. All other rights will cease upon expiration or termination of this Contract.

**2. EQUIPMENT, PRODUCTS, OR SERVICES**

A. **EQUIPMENT, PRODUCTS, OR SERVICES.** Supplier will provide the Equipment, Products, or Services as stated in its Proposal submitted under the Solicitation Number listed above. Supplier's Equipment, Products, or Services Proposal (Proposal) is attached and incorporated into this Contract.

All Equipment and Products provided under this Contract must be new and the current model. Supplier may offer close-out or refurbished Equipment or Products if they are clearly indicated in Supplier's product and pricing list. Unless agreed to by the Participating Entities in advance, Equipment or Products must be delivered as operational to the Participating Entity's site.

This Contract offers an indefinite quantity of sales, and while substantial volume is anticipated, sales and sales volume are not guaranteed.

B. **WARRANTY.** Supplier warrants that all Equipment, Products, and Services furnished are free from liens and encumbrances, and are free from defects in design, materials, and workmanship. In addition, Supplier warrants the Equipment, Products, and Services are suitable for and will perform in accordance with the ordinary use for which they are intended. Supplier's dealers and distributors must agree to assist the Participating Entity in reaching a resolution in any dispute over warranty terms with the manufacturer. Any manufacturer's warranty that extends beyond the expiration of the Supplier's warranty will be passed on to the Participating Entity.

C. **DEALERS, DISTRIBUTORS, AND/OR RESELLERS.** Upon Contract execution and throughout the Contract term, Supplier must provide to Sourcwell a current means to validate or authenticate Supplier's authorized dealers, distributors, or resellers relative to the Equipment, Products, and Services offered under this Contract, which will be incorporated into this Contract by reference. It is the Supplier's responsibility to ensure Sourcwell receives the most current information.

### **3. PRICING**

All Equipment, Products, or Services under this Contract will be priced at or below the price stated in Supplier's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

A. **SHIPPING AND SHIPPING COSTS.** All delivered Equipment and Products must be properly packaged. Damaged Equipment and Products may be rejected. If the damage is not readily apparent at the time of delivery, Supplier must permit the Equipment and Products to be returned within a reasonable time at no cost to Sourcewell or its Participating Entities. Participating Entities reserve the right to inspect the Equipment and Products at a reasonable time after delivery where circumstances or conditions prevent effective inspection of the Equipment and Products at the time of delivery. In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Supplier as soon as possible and the Supplier will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

Supplier must arrange for and pay for the return shipment on Equipment and Products that arrive in a defective or inoperable condition.

Sourcewell may declare the Supplier in breach of this Contract if the Supplier intentionally delivers substandard or inferior Equipment or Products.

B. **SALES TAX.** Each Participating Entity is responsible for supplying the Supplier with valid tax-exemption certification(s). When ordering, a Participating Entity must indicate if it is a tax-exempt entity.

C. **HOT LIST PRICING.** At any time during this Contract, Supplier may offer a specific selection of Equipment, Products, or Services at discounts greater than those listed in the Contract. When Supplier determines it will offer Hot List Pricing, it must be submitted electronically to Sourcewell in a line-item format. Equipment, Products, or Services may be added or removed from the Hot List at any time through a Sourcewell Price and Product Change Form as defined in Article 4 below.

Hot List program and pricing may also be used to discount and liquidate close-out and discontinued Equipment and Products as long as those close-out and discontinued items are clearly identified as such. Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

#### **4. PRODUCT AND PRICING CHANGE REQUESTS**

Supplier may request Equipment, Product, or Service changes, additions, or deletions at any time. All requests must be made in writing by submitting a signed Sourcewell Price and Product Change Request Form to the assigned Sourcewell Supplier Development Administrator. This approved form is available from the assigned Sourcewell Supplier Development Administrator. At a minimum, the request must:

- Identify the applicable Sourcewell contract number;

- Clearly specify the requested change;
- Provide sufficient detail to justify the requested change;
- Individually list all Equipment, Products, or Services affected by the requested change, along with the requested change (e.g., addition, deletion, price change); and
- Include a complete restatement of pricing documentation in Microsoft Excel with the effective date of the modified pricing, or product addition or deletion. The new pricing restatement must include all Equipment, Products, and Services offered, even for those items where pricing remains unchanged.

A fully executed Sourcewell Price and Product Change Request Form will become an amendment to this Contract and will be incorporated by reference.

## **5. PARTICIPATION, CONTRACT ACCESS, AND PARTICIPATING ENTITY REQUIREMENTS**

A. PARTICIPATION. Sourcewell's cooperative contracts are available and open to public and nonprofit entities across the United States and Canada; such as federal, state/province, municipal, K-12 and higher education, tribal government, and other public entities.

The benefits of this Contract should be available to all Participating Entities that can legally access the Equipment, Products, or Services under this Contract. A Participating Entity's authority to access this Contract is determined through its cooperative purchasing, interlocal, or joint powers laws. Any entity accessing benefits of this Contract will be considered a Service Member of Sourcewell during such time of access. Supplier understands that a Participating Entity's use of this Contract is at the Participating Entity's sole convenience and Participating Entities reserve the right to obtain like Equipment, Products, or Services from any other source.

Supplier is responsible for familiarizing its sales and service forces with Sourcewell contract use eligibility requirements and documentation and will encourage potential participating entities to join Sourcewell. Sourcewell reserves the right to add and remove Participating Entities to its roster during the term of this Contract.

B. PUBLIC FACILITIES. Supplier's employees may be required to perform work at government-owned facilities, including schools. Supplier's employees and agents must conduct themselves in a professional manner while on the premises, and in accordance with Participating Entity policies and procedures, and all applicable laws.

## **6. PARTICIPATING ENTITY USE AND PURCHASING**

A. ORDERS AND PAYMENT. To access the contracted Equipment, Products, or Services under this Contract, a Participating Entity must clearly indicate to Supplier that it intends to access this Contract; however, order flow and procedure will be developed jointly between Sourcewell and Supplier. Typically, a Participating Entity will issue an order directly to Supplier or its authorized

subsidiary, distributor, dealer, or reseller. If a Participating Entity issues a purchase order, it may use its own forms, but the purchase order should clearly note the applicable Sourcewell contract number. All Participating Entity orders under this Contract must be issued prior to expiration or cancellation of this Contract; however, Supplier performance, Participating Entity payment obligations, and any applicable warranty periods or other Supplier or Participating Entity obligations may extend beyond the term of this Contract.

Supplier's acceptable forms of payment are included in its attached Proposal. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

B. **ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM.** Additional terms and conditions to a purchase order, or other required transaction documentation, may be negotiated between a Participating Entity and Supplier, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entities may require the use of a Participating Addendum, the terms of which will be negotiated directly between the Participating Entity and the Supplier or its authorized dealers, distributors, or resellers, as applicable. Any negotiated additional terms and conditions must never be less favorable to the Participating Entity than what is contained in this Contract.

C. **SPECIALIZED SERVICE REQUIREMENTS.** In the event that the Participating Entity requires service or specialized performance requirements not addressed in this Contract (such as e-commerce specifications, specialized delivery requirements, or other specifications and requirements), the Participating Entity and the Supplier may enter into a separate, standalone agreement, apart from this Contract. Sourcewell, including its agents and employees, will not be made a party to a claim for breach of such agreement.

D. **TERMINATION OF ORDERS.** Participating Entities may terminate an order, in whole or in part, immediately upon notice to Supplier in the event of any of the following events:

1. The Participating Entity fails to receive funding or appropriation from its governing body at levels sufficient to pay for the equipment, products, or services to be purchased; or
2. Federal, state, or provincial laws or regulations prohibit the purchase or change the Participating Entity's requirements.

E. **GOVERNING LAW AND VENUE.** The governing law and venue for any action related to a Participating Entity's order will be determined by the Participating Entity making the purchase.

B. ADMINISTRATIVE FEE. In consideration for the support and services provided by Sourcewell, the Supplier will pay an administrative fee to Sourcewell on all Equipment, Products, and Services provided to Participating Entities. The Administrative Fee must be included in, and not added to, the pricing. Supplier may not charge Participating Entities more than the contracted

price to offset the Administrative Fee.

The Supplier will submit payment to Sourcewell for the percentage of administrative fee stated in the Proposal multiplied by the total sales of all Equipment, Products, and Services purchased by Participating Entities under this Contract during each calendar quarter. Payments should note the Supplier's name and Sourcewell-assigned contract number in the memo; and must be mailed to the address above "Attn: Accounts Receivable" or remitted electronically to Sourcewell's banking institution per Sourcewell's Finance department instructions. Payments must be received no later than 45 calendar days after the end of each calendar quarter.

Supplier agrees to cooperate with Sourcewell in auditing transactions under this Contract to ensure that the administrative fee is paid on all items purchased under this Contract.

In the event the Supplier is delinquent in any undisputed administrative fees, Sourcewell reserves the right to cancel this Contract and reject any proposal submitted by the Supplier in any subsequent solicitation. In the event this Contract is cancelled by either party prior to the Contract's expiration date, the administrative fee payment will be due no more than 30 days from the cancellation date.

## **9. AUTHORIZED REPRESENTATIVE**

Sourcewell's Authorized Representative is its Chief Procurement Officer.

Supplier's Authorized Representative is the person named in the Supplier's Proposal. If Supplier's Authorized Representative changes at any time during this Contract, Supplier must promptly notify Sourcewell in writing.

## **10. AUDIT, ASSIGNMENT, AMENDMENTS, WAIVER, AND CONTRACT COMPLETE**

Liftnow is a privately-held corporation and can proudly state that it has no shareholders or parent companies, and does not think by quarter – Liftnow thinks by year and by decade.</p> <p>In 2020, Liftnow was successfully awarded the first of its larger cooperative purchasing contracts (Sourcewell Contract #013020-LFT) and subsequently has been awarded dozens of other contracts on national, state and local levels to serve public sector entities from the smallest of garages to the largest of transit authorities in the United States. This includes a NASPO ValuePoint Contract CW7256, which has now been adopted by 13 States in its first 8 months of contract adoption as of November 2023. This contract is now good through March 31st, 2028 and can be found here:  <a href="https://www.naspovaluepoint.org/portfolio/vehicle-lifts-and-garage-associated-equipment-2023-2028/liftnow-automotive-equipment-corp/">https://www.naspovaluepoint.org/portfolio/vehicle-lifts-and-garage-associated-equipment-2023-2028/liftnow-automotive-equipment-corp/</a>.</p> <p>We scored 1st in the Vehicle Lifts Category – Schedule A and scored 2nd in the Garage Equipment Category – Schedule B. We have attached the master agreement and evaluation tabulations of both our Sourcewell and NASPO Contracts.</p> <p>Liftnow has grown its business considerably in the past 5 years, due in large part to its original Sourcewell award, which has allowed it to scale and reinvest into becoming a platform for Sourcewell Members to purchase the widest variety of equipment and services in the Vehicle Lifts and Garage Equipment segment available on any contract. This has also grown to include numerous state and subdivision adoptions under our first contract award – most notably, New York State, New Jersey State, Ohio State, Missouri State, and Texas Multiple Award Schedule (TxMAS).</p> <p>Liftnow's mission is to enable agencies to easily procure, install and maintain their vehicle lifts and garage equipment. Liftnow meticulously chooses among various industry-leading manufacturers to offer the most comprehensive, highest-quality solution for the modern fleet maintenance manager. This includes the widest variety of products that meet applicable product certifications (for instance, ALI/ALCTV, ETL, UL, and ISO Standards to name a few) and applicable statutory or funding level requirements (for instance, Buy America, Buy American, etc.).</p> <p>In many cases Liftnow actually carries multiple products to serve the customer – guiding but not pressuring the customer to choose what's best for them, instead of what may be best for a specific manufacturer.</p> <p>Another of Liftnow's main philosophies is that a service facility's needs continue beyond purchase. Providing installation, training, inspection, and subsequent maintenance creates an all-encompassing solution that a facility and its employees can rely on for maximum efficiency, safety, and lowest total cost of ownership.</p> <p>Other principles that we live by and train into our sales force:</p> <ol style="list-style-type: none"> <li>1. We do the right thing – always.</li> <li>2. The agency is a partner.</li> <li>3. Nobody outworks us.</li> </ol> <p>Please read our cover letter, entitled "Letter to Sourcewell".</p>
11	What are your company's expectations in the event of an award?	<p>In the event of an award, we expect to work closely with Sourcewell for the life of the new contract to both increase Sourcewell's membership base through constant program promotion and continue to increase current sales under this contract for our entire scope of products and services. Additionally, we expect that the new award is communicated across Sourcewell's marketing and client relations channels to not only local subdivisions, but also to various State-level agencies as it relates specifically to the renewal/adoption of State-level piggybacks that Liftnow has secured during our tenure with our first Sourcewell Contract. With our increased staffing and investment, we expect to continue growing our already fantastic relationship with Sourcewell. This includes exploring any additional advertising or supplier council opportunities as they become available to Liftnow.</p>

12	Demonstrate your financial strength and stability with meaningful data. This could include such items as financial statements, SEC filings, credit and bond ratings, letters of credit, and detailed reference letters. Upload supporting documents (as applicable) in the document upload section of your response.	<p>Liftnow Automotive Equipment Corp. is a closely held New York State S-Corporation owned 100% by the Stern Family. Liftnow has sold over \$50 million of various vehicle lifts and garage equipment to its thousands with a nearly 100% customer satisfaction rating and virtually no returns or chargebacks.</p> <p>Liftnow's financial stability is second-to-none. The corporation has no outstanding debts or notes, including no long-term debt or interest payments. This also includes no outstanding or otherwise delinquent balances to our vendors – we're known for prompt and early payments and capture any and all early payment discounts as they are furnished to us, even while customers may take 60, 90, 120 days or more to pay. With no outstanding liabilities or debts, all ratios used to measure financial health (current ratio, cash ratio, operating cash flow ratio, debt ratio, etc.) are perfect.</p> <p>Liftnow's growth has been explosive thanks to its pivot toward government contracting and namely its Sourcewell Contract and this is reflected in its increasingly strong financial statements. Liftnow has been able to navigate this growth all without taking any outside money from equity or debt partners. Our ownership structure is notably beneficial versus other companies – we have no outside shareholders, no parent companies or subsidiaries, and no venture capital or investment partners. This is not only a strategic benefit, but a financial one – no one lays additional claim to the cash flows and financial distributions of the business, which effectively reduce cash flow of a business. The same cannot be said of any of our competitors.</p> <p>If copies of financial statements are needed or requested for evaluation purposes, we can release these with the request that these are for Sourcewell in-house use only and will not be shared under any freedom of information requests from other government agencies, competitors, or any associated companies.</p> <p>Bonding is always available to Sourcewell or other government agencies on an ad-hoc basis with Liftnow. Liftnow has successfully bonded for projects in the mid-high six figure range and has never been rejected a bid, payment, or performance bond. Please see attached redacted invoice for a recently bonded project. Information has been redacted to protect parties involved.</p> <p>Please see also attached bank references which further substantiate Liftnow's financial longevity and strength.</p>	*
13	What is your US market share for the solutions that you are proposing? 15	Has your business ever petitioned for bankruptcy protection? If so, explain in detail.	N/A - Liftnow has never petitioned for bankruptcy protection.	*

16	<p>How is your organization best described: is it a manufacturer, a distributor/dealer/reseller, or a service provider? Answer whichever question (either a) or b) just below) best applies to your organization.</p> <p>a) If your company is best described as a distributor/dealer/reseller (or similar entity), provide your written authorization to act as a distributor/dealer/reseller for the manufacturer of the products proposed in this RFP. If applicable, is your dealer network independent or company owned?</p> <p>b) If your company is best described as a manufacturer or service provider, describe your relationship with your sales and service force and with your dealer network in delivering the products and services proposed in this RFP. Are these individuals your employees, or the employees of a third party?</p>	<p>Liftnow is a full service distributor/dealer/reseller providing installation, training, expertise and full range of value-adds through our Sourcewell Service Program.</p> <p>As a value-added distributor, Liftnow pursues deep and strategic relationships among its supplier partners. Unlike other companies that may simply hold an account or be authorized to distribute product, Liftnow partners with a vendor's entire organization (including various departments including sales, service, marketing, operations, upper management, etc.) to act as their government sales arm, providing training, expertise and marketing to our vendors to successfully capture public sector sales through dynamic contracting vehicles such as Sourcewell. This includes engaging both employees of our vendors as well as their distribution forces, who are generally independent companies also tasked with the installation, service and maintenance of such equipment as discussed below. Please see our attached Authorized Distributor and Reference Letters. Please also see the document entitled "Liftnow - Value Added Distributor Benefit".</p> <p>As a service provider, Liftnow coordinates on a regular basis with manufacturer-authorized service centers for all activities through the Sourcewell Service Program, which has seen tremendous success and adoption since we pioneered it in 2020 on our original Sourcewell Contract. Our service network is comprised of over 1300 full-time, independently owned companies that install, service and maintain all equipment outlined in this RFP. We maintain close relationships with many of these companies to provide local service to customers, and many of these relationships are nurtured on a daily and weekly basis to drive sales and operational efficiency for public sector customers. Please see the "Service and Installer Network Map" to see our service provider database.</p> <p>Increasingly, all stakeholders as mentioned above in Liftnow's ecosystem (with Sourcewell being Liftnow's largest volume contract to-date) have become familiar with and embraced Liftnow's Sourcewell Contract and value proposition. Liftnow has successfully positioned itself as the leader in government sales for its partner brands and customers alike. Liftnow's ongoing success is due to its approach in educating and fostering these long-tailed partnerships.</p>

17	If applicable, provide a detailed explanation outlining the licenses and certifications that are both required to be held, and actually held, by your organization (including third parties and subcontractors that you use) in pursuit of the business contemplated by this RFP.	<p>There are no formal and legal licenses legally required to sell, install, or maintain vehicle lifting equipment or associated garage equipment.</p> <p>Liftnow is legally incorporated in the State of New York as a Subchapter-S Corporation and is in good standing with the State of New York.</p> <p>All third parties and subcontractors that we use for installations must be properly licensed in their jurisdiction to install and maintain the equipment they are being contracted to install and maintain. This includes general business licensing. We also enforce strict insurance guidelines on our third parties and subcontractors as a condition of doing business, whereby anyone involved in the project must be appropriately insured. Additionally, these companies must be approved by the Manufacturer to install and maintain the specific vehicle lift or garage equipment.</p> <p>At times, certain projects or jurisdictions require a Public Works or other special project license. Liftnow in the past has and can secure any and all necessary licenses as requested and required.</p> <p>Paul Stern is also personally an ALI-Certified Lift Inspector under an Associate Member of the Automotive Lift Institute. Liftnow is factory trained on all equipment it sells. Additionally, Liftnow is known to be among the most knowledgeable master distributors in the entire industry.</p> <p>As a part of our Sourcewell Service Program, we offer as a service Inspections from ALI-Certified Inspectors, who have committed to following ANSI-ALOIM and ANSI-ALIS (the only automotive lift standards created by ALI under the American National Standards Institute) to successfully inspect the lifts, where available. To receive this accolade, members of the company must go through a rigorous testing and practical experience process to be certified to grant ALI-Certified Inspections. We coordinate with the 300+ companies certified by ALI to perform inspections in the United States and Canada. This is not to be confused with the ANSI-ALCTV standards, which are the standards that govern lift manufacturing. Roughly 90% of the lifts that we offer as a part of this proposal are certified by the Automotive Lift Institute based on this standard above, which is a higher percentage than the 75% generally required of lift manufacturers, including manufacturers that tout ALI Certification of many models. Every vehicle lift manufacturer today that manufactures ALI-Certified Models also manufactures non-ALI certified models. Other equipment that we carry as a part of this proposal that falls under "Garage Equipment" carries certifications wherever applicable including UL, ETL, NEMA, etc.</p> <p>Liftnow also meets the requirements for a small business enterprise through the SBA's size standards and designations.</p> <p>When projects require or prefer supplier diversity (VBE, M/WBE) Liftnow makes a good-faith effort to reach out to those companies that may be able to satisfy those requirements. There may be situations in the vehicle lift industry (both sales of equipment and maintenance) where there are no companies that meet these requirements. However, there are a select number of companies that meet the above supplier diversity designations, and we make attempts to contract with them.</p>	*
18	Provide all "Suspension or Debarment" information that has applied to your organization during the past ten years.	N/A - Liftnow has never been suspended or debarred from doing business with any government agency.	*

19	Describe any relevant industry awards or recognition that your company has received in the past five years	<p>Liftnow receives ongoing industry awards and recognition not only in the vehicle lift and garage equipment industry, but the government procurement industry as well.</p> <p>We have received press coverage in Collision, Independent, New Car Dealers, Tire Dealers, Education Customer Segment publications (print and digital). We have also received press coverage in magazines, newsletters, and trade journals. In 2021 we were also a highlighted speaker at the NIGP Forum's Construction Track where we gave a well-attended presentation entitled "The True Cost of Procuring Capital Equipment and Services". This presentation discussed capital equipment, the overview of how capital equipment is procured in the context of construction projects, the soft costs of capital equipment procurement, and a proposed procurement plan. This proposed procurement plan featured our Sourcewell Contract as the premier way that users should "owner-furnish, owner-install" equipment, and the savings that one can receive from a Sourcewell Contract. This presentation was heavily promoted by NIGP both before and after the presentation. Please see attached NIGP Presentation and Fleet Safety Presentation as samples.

Additionally, we are a member of the following groups where we regularly receive coverage and attention: APTA (American Public Transportation Association), APWA (American Public Works Association), Government Fleet, NAFA (North American Fleet Association), NCSFA (National Conference of State Fleet Administrators), NIGP (National Institute for Governmental Purchasing), NYS Towns and Highways, New York State School Facilities Association, NY SAMPO (State Association of Municipal Purchasing Officials). On the automotive side we maintain our relationships with GNYADA (Greater New York Auto Dealer's Association), NYCARA (New York City Auto Repair Association), CARA (Connecticut Automotive Retailer's Association), AASP (Alliance of Automotive Service Providers), ACA (Automotive Care Association), NETSA (New England Tire and Service Association) and Auto Body Association of Connecticut (ABAC).

Finally, Liftnow has the pleasure of having placed its equipment not only in public sector entities around the country, but also to high-powered clients, including Verizon, Tesla, Walmart and Costco for equipment procurement, new facility assistance, and ongoing maintenance.

20	What percentage of your sales are to the governmental sector in the past three years	<p>Over the last three years, Liftnow has made a strong and concerted effort toward cementing itself as a fixture in the governmental sector, as illustrated through its increase of sales:</p> <p>2020: Approximately 11% of Revenue to Public Sector Entities  2021: Approximately 60% of Revenue to Public Sector Entities  2022: Approximately 60% of Revenue to Public Sector Entities</p> <p>Additionally, Liftnow's overall top-line volume continues to grow exponentially across segments - while 2021 and 2022 look similar in terms of percentage to government entities, 2022 saw an increase of almost 100% in total volume. 2023 again saw a large increase of approximately 70-80% in volume over 2022.</p>	*
21	What percentage of your sales are to the education sector in the past three years	<p>Over the last three years, Liftnow has also tried to attract sectors within the governmental sector - one major sector is education. 22	List any state, provincial, or cooperative purchasing contracts that you hold. What is the annual sales volume for each of these contracts over the past three years?	<p>Liftnow holds many state and cooperative purchasing contracts.</p> <p>Notably, Liftnow holds a Sourcewell Contract (#013020-LFT) that has been adopted by: New York, New Jersey, Texas (TxMAS), Ohio, and Missouri.</p> <p>Liftnow also holds a NASPO Contract (CW7256) that has been adopted by: Alaska, Arizona, California, Iowa, Mississippi, Montana, New Mexico, Oregon, Rhode Island, South Carolina, South Dakota, Virginia, and Washington currently.</p> <p>Liftnow's largest cooperative purchasing Contract is Sourcewell, with below sales totals (rounded to the nearest \$1,000):  2020: \$5,000  2021: \$923,000  2022: \$806,000</p> <p>This year, Liftnow will easily exceed \$2,000,000 in sales for its Sourcewell Contract for 2023 and we encourage the evaluation team to independently verify this. Liftnow believes that with a new award for another contract, Liftnow will continue to experience explosive growth.</p> <p>Other major contracts include:</p> <p>New Jersey State Contract – (Sourcewell Adoption – valid through 2024 currently)</p> <p>2021 - \$0.00 (New Contract)  2022 - Approximately \$237,000  2023 - Approximately \$110,000 YTD</p> <p>New York State Contract (OGS) (Sourcewell Adoption – valid through 2024 currently)</p> <p>2021 - \$0.00 (new Contract)  2022 - Approximately \$353,000  2023 - Approximately \$648,000 YTD</p> <p>Texas State Contract (TxMAS) (Sourcewell Adoption – valid through 2024 currently)</p> <p>2022 - \$0.00 New Contract  2023 - \$55,000 YTD</p> <p>Florida Sheriff's Association (valid through 2025)</p> <p>2021 - New Contract  2022 - \$89,000  2023 - \$125,000 YTD</p> <p>Liftnow also holds several contracts that bring it little-to-no volume, including: AEPA, BuyBoard, HGAC, Costars (expired), Choice Partners, GoodBuy, and Omnia Partners. N/A - Liftnow currently holds no GSA contracts or Standing Offers and Supply Arrangements (SOSA). It remains a conscious decision by Liftnow to focus on growing its SLED and cooperative purchasing sales.	*

Line Item	Question	Response *	
26	Sales force.	Liftnow has an in-house sale force that is dedicated solely to Liftnow's cooperative purchasing efforts. This is the largest and to our knowledge ONLY team in the	

industry exclusively dedicated to cooperative purchasing. This team has undergone over 5 weeks of cooperative purchasing and product training, including recent attendance at Sourcewell University in New York as well as Sourcewell webinars like Getting to Know Sourcewell, the upcoming Sourcewell Public Fleet and Public Works Webinar Series, and have even had our Supplier Development Administrator give dedicated training as an important part of our onboarding. This team currently covers the entire country by territory and there are plans to increase this sales force substantially in the coming year.

Liftnow has also had representation at the H2O conference in 2023 and 2022 (COVID interrupted Liftnow's attendance in 2020 and 2021). Liftnow plans on continuing to grow its sales team with the award of a new Sourcewell Contract.

At the helm of the Liftnow Sales Team is Paul Stern, the President and Owner of Liftnow Automotive Equipment Corp. Paul Stern is a 30-year industry veteran of the vehicle lift and garage equipment business having started in 1993 as a regional representative in New York and eventually opening Liftnow in 2003. Paul has received a plethora of awards related to his sales expertise, acumen and business growth over the years.

Additionally, we have successfully mobilized the sales force of our vendors as their government sales arm, totaling approximately 229 sales management, regional management and sales representative staff. Below are estimated sales profiles of our largest-volume suppliers that have fully embraced Liftnow as their government sales go-to-market strategy:

Challenger Lifts: 8 United States Regional Managers, 2 Canadian Regional Managers. Challenger Lifts also has upper management in the form of a National Sales Manager. All of these staff, particularly sales, understand the multistate cooperative and since 2022 have further embraced them as a pivotal point of their public sector sales strategy.

BendPak: BendPak's sales strategy is primarily direct sales, from BendPak to the end user, where they have a large staff of inside sales personnel (approximately 20 employees).

In spite of its direct sales model, BendPak and its national sales management fully support Liftnow as its government sales partner. BendPak has advertised and chosen Liftnow for their government sales efforts.

Omer: Omer has a rich history in the Government Sales arena, having been distributed by Stertil-Koni for several years before that relationship ended and Stertil-Koni began manufacturing more of their own lifts. Omer then underwent ownership changes at the US-Distribution Level, and since approximately 2017 has experienced incredible growth. Liftnow is proud to be a pivotal part of Omer's growth story, and the U.S. General Manager and National Sales Management of Omer has embraced Liftnow and its contracts as its primary channel to sell to public sector entities. Omer currently has approximately half a dozen inside sales and support staff.

Omer has incredibly aggressive and exciting growth plans for the next 5 years which includes product additions, increasing marketing spend, and building out internal and external sales and service. Omer has placed incredible support and faith in these Public Sector channels, and in Liftnow as its partner expert enough to navigate them.

Mahle: 12 Regional Rep Agencies that act as regional managers, with a total of approximately 60 staff (outside personnel), who act as both sales and service representatives for the equipment. Approximately 6 inside sales and service personnel.

Coats: Approximately 6 Regional Managers, 50+ Outside Service Representatives (In most cases direct employees). Approximately 6 inside sales.

NS Corporation: Approximately 3 Regional Managers, 9 Outside Service Representatives. Inside sales and marketing approximately 6 employees.

Champion: Approximately 4 Regional Managers, 21 Sales Reps.

Lincoln: Approximately 4 Regional Managers, 20+ Sales Reps, 4+ Strategic Account Managers (Inside and outside sales).

Information about other brands and distributors can be furnished upon request.

To date, there is NO Member agency where we have not been able to fully employ our sales force as described above. Please see attached Territory Map.

27	Dealer network or other distribution methods.	<p>Liftnow is well-versed in the needs of a multistate cooperative and have the dealer networks and distribution to match.</p> <p>With Liftnow's guidance and leadership, our partner brands continue to successfully inform their internal and external sales and service forces (which number in the hundreds – thousands of people and companies across the entire United States) to increase sales and utilization of Liftnow's contract portfolio. Since Liftnow and its vendor partners have already experienced the years-long learning curve in embracing and increasing utilization of cooperative purchasing contracts - answering both the easy questions "What is cooperative purchasing?" and the more difficult questions about cooperative purchasing "Can I use cooperative purchasing for [insert project here] with [insert funding source here]?" As a result, Liftnow utilizes over 1500 full-time and independently owned distributor companies through the partner brands to drive sales, the estimated breakdown of which is below:</p> <p>Challenger Lifts: Approximately 150-200 Distributors  BendPak: Approximately 100 Distributors  Omer: Approximately 50 Distributors  Mahle: Approximately 400 Distributors.  Coats: Approximately 250 Distributors  NS Corporation: Approximately 25 Distributors  Champion: Approximately 900 Distributors  Lincoln: Approximately 500 Distributors</p> <p>Information about other brands and distributors can be furnished upon request. See attachment Dealer Networks for more information.</p> <p>We have forged incredible partnerships with many of these outfits across the United States both as service providers to facilitate the installation and maintenance provided through the only, best-in-class, Sourcewell Service Program, but also have developed deeper and more involved partnerships with some of these distributor companies, who at times have up to 100-150 employees of their own. We educate these distributor partners on our offerings and offer a small compensation to them for referring an Entity, even if it is not for their specific product offering. This allows us to further multiply our efforts for a national cooperative like Sourcewell.</p> <p>Liftnow has successfully positioned itself as the government sales partner for this entire network above, and we continue to work with our vendors to spread the message to distributor companies to ensure that they fully understand the benefits of cooperative purchasing and Liftnow, their expert partner. This is an ongoing process that is never complete but always progressing. We have made important relationships with some of these larger companies in different locations, leveraging their relationships and decades-long track record to create win-win's for the Entity, Sourcewell, the distributor company, the vendor, and Liftnow, in that order.</p> <p>The dealer network (vendors and distributors) is trained and continue to be trained to pass any public sector inquiries to Liftnow, who is able to bridge the gap between a traditional distributor or vendor's technical prowess and experience with the sometimes complex world of public sector purchasing and contracting. As a result, the Entity gets a product and experience that they value, the referring dealer company and Vendor get their order through cooperative purchasing, usually at a much faster pace than general bidding, and Liftnow continues building its reputation as a leader.</p> <p>To date, there is NO Member agency where we have not been able to fully employ our dealer and distribution network as described above.</p> <p>Liftnow and its partners also hold multiple millions of combined square feet, spanning factories, distribution facilities and retail networks, all of which add to its distribution prowess. See Table 11 - Pricing and Delivery under unique distribution and delivery methods to learn more.</p> <p>To address distribution facilities of distributors and the "retail network", this does not include any of the hundreds of distributor or service provider facilities throughout the country. While we do not maintain this data, this could easily be another 1,000,000+ Square Feet of Distribution Facility space.</p>
----	---	---

28	Service force.	<p>Liftnow's service force is not only the most expansive in the country in terms of geography, with over 1200 service providers in all 50 states, Canada and Territories, but is the most expansive in terms of scope, as Liftnow maintains relationships with service providers that install, service, maintain, remove, diagnose and inspect all categories of equipment available through our proposal, everywhere in the country, wherever a Member may reside. This network dwarfs the service force of any other vendor – and is almost certainly larger than the service forces of all other prospective vendors combined. This service network is largely comprised of independently-owned companies as well as staff employed by our various vendors:</p> <p>Challenger Lifts: Approximately 200-300 Authorized Service Centers. Additional staff dedicated to inside service/warranty calls (Approximately 10).</p> <p>BendPak: BendPak has approximately 400 Authorized Service Centers. BendPak also has a large staff of inside service personnel to field warranty requests and service requests (approximately 20).</p> <p>Omer: Omer currently has approximately half a dozen inside sales and support staff, as well as approximately 50 distributors who handle both sales and service of the lifts. Omer also has 2 full-time employees dedicated to field service assistance and cover the entire United States.</p> <p>Mahle: 12 Regional Rep Agencies that act as regional managers, with a total of approximately 60 staff (outside personnel), who act as both sales and service representatives for the equipment. Approximately 6 inside sales and service personnel.</p> <p>Coats: Coats has 50+ Outside Service Representatives (In most cases direct employees). Approximately 6 inside service professionals. Multiple hundreds of distributors, some of whom additionally service the equipment.</p> <p>NS Corporation: NS has approximately 25 distributors that are tasked with the installation and maintenance of the equipment that they sell. NS also maintains a few staff (approximately 5) in-house to assist with installation assistance.</p> <p>Champion: Champion currently has over 400 service providers nationwide.</p> <p>Lincoln: Lincoln currently has over 200 service providers nationwide.</p> <p>Service forces of our other vendors may be furnished upon request.</p> <p>Not only is Liftnow's service force the largest and deepest in the country, but Liftnow uniquely maintains a service-first philosophy, as opposed to a sales-above-all-else mentality, when it comes to serving Sourcewell's Member Agencies. This philosophy has proved extraordinarily valuable and successful for the Member Agencies, Sourcewell, and Liftnow, in that order. Member Agencies have utilized and adopted the Sourcewell Service Program to not only aid in larger projects, but aid in the smaller ones that become essential to the actual day-to-day operations of a fleet maintenance facility.</p> <p>The service force not only extends to include service providers with whom we maintain ongoing relationships (as discussed above and in line items 26 and 27), but also extends to include our in-house Service Implementation Team that successfully implement the Service Program and deploy this Service Force. Currently we have 2 staff dedicated to this implementation and anticipate with the growth of our contract to continue hiring implementation staff to meet demand. Some of our manufacturers manage service themselves utilizing their own technicians as discussed above. We maintain direct access to all of these technicians in both the United States and Canada through our Sourcewell Service Program.</p> <p>Outside experts and contractors needed on the open-market are located by our implementation team for the United States and Canada pursuant to the terms in Line Item 60.</p> <p>To date, there is NO Member agency where we have not been able to fully employ our service force, including the full scope of our Sourcewell Service Program.</p>

29	<p>Describe the ordering process. If orders will be handled by distributors, dealers or others, explain the respective roles of the Proposer and others.</p>	<p>Through centralization, Liftnow tightly manages a seamless customer experience for members. This centralization also improve's a Member's perception of the Sourcewell experience, where Liftnow controls every aspect of the process, from quoting and ordering through installation and invoicing.</p> <p>While Liftnow itself is an authorized distributor, we disallow other companies, including our Vendor partners, from accepting purchase orders or delivering quotes on our behalf to Sourcewell Member Agencies or members of other cooperative purchasing organizations. While many external companies promote our contracts and sell (including our vendor partners, the Manufacturers), only Liftnow Automotive Equipment Corp. processes orders in connection with this contract.</p> <p>This centralization is done to ensure that every single quote, purchase order and invoice remains contract-compliant pursuant to the terms and conditions of the contract.</p> <p>This centralization is also done to ensure ease of monthly and quarterly reporting as required by our contracts including Sourcewell. Most notably, this method is identical to the last 4 years of our Sourcewell Contract, and is already in place and functioning properly. The execution of this centralized ordering has resulted in our Sourcewell administrative reports being an average of 38 days early. Please see the attachment entitled "Payment History - Sourcewell Contract."</p> <p>To describe the ordering process as it relates to Members specifically, orders must have written approval or acceptance from a Participating Entity, and the approval or acceptance must come in the form of one of the following Order Methods:</p> <ul style="list-style-type: none"> <li>• Written Purchase Order – By Hard Copy/Mail</li> <li>• Written Purchase Order – By Electronic Mail (Email)</li> <li>• Electronic Purchase Order – Using Participating Entity's E-Commerce Solution (For example, many clients of Periscope Holdings send purchase orders via their dedicated portal instead of Print or Email Copies).</li> <li>• For small purchases, specifically service calls and repair authorizations – an email in writing from a contact person authorized to make purchases below the Entity's purchase order threshold, for a purchase below the Entity's purchase order threshold (sometimes called the small purchase or micropurchase threshold).</li> </ul> <p>Tracking orders varies per both manufacturer and type of product, but is generally done via email to the purchasing department and using department on a basis of:</p> <ul style="list-style-type: none"> <li>• Order Placed with Vendor (All orders with vendors are currently placed less than 24 hours after receipt of order by Entity)</li> <li>• Order in Production with Vendor with Estimated Date of Completion</li> <li>• Order Shipping from Vendor (Shipping to Entity)</li> <li>• Freight Company to call Entity with 24 Hours-Notice Prior to Delivery</li> </ul> <p>Liftnow tracks this information studiously for its own purposes as well, to ensure that if installation is requested by the User, that this installation is scheduled as closely as possible to the delivery of the equipment. In cases where the installing company is unloading the equipment (which is common of heavier/custom-built lifts), Liftnow coordinates between the installer company, the freight company and the User to ensure that everyone shows up on time and completes delivery seamlessly.</p> <p>Additionally, all BendPak orders benefit from BendPak's internal tracking system, shown in the attachments "BendPak Shipping" and "Fedex Tracking". This can be sent directly to the user's email address to show shipping status, where "Track Delivery" will directly link to the tracking status of that package. In this example, you'll see that it links directly to FedEx where the Participating Entity can follow along with their package until delivery.</p> <p>All administrative activities as described above are the sole responsibility of Liftnow Automotive Equipment Corp.</p>

30	Describe in detail the process and procedure of your customer service program, if applicable. Include your response-time capabilities and commitments, as well as any incentives that help your providers meet your stated service goals or promises.	<p>Our customer service program is second-to-none. Liftnow becomes the single call and customers service point of contact for dozens of brands across many categories and subcategories. This is instead of making ten calls to ten different vendors or manufacturers if a technical or other service issue arises.</p> <p>Calling LIFTNOW, they will only have to make one call for all of their automotive equipment needs, in a way that no other companies can boast. We are not only open 60 hours/week through our toll-free 800 number that directs to our office in Yorktown Heights, NY, but we've also implemented a live-chat on our website <a href="http://www.liftnow.com">www.liftnow.com</a>, where visitors can get a real-time person (not a robot) to talk to them about their needs. Liftnow can also be reached via webform 24 hours a day, 7 days a week on its website at <a href="http://www.liftnow.com">www.liftnow.com</a>. We have specific webforms for Sales Inquiries, Service Inquiries, and Inspection Inquiries.</p> <p>Additionally, we implemented a dedicated email address specifically to field Sourcewell requests (<a href="mailto:sourcewell@liftnow.com">sourcewell@liftnow.com</a>). This dedicated email address allows us to fast track Sourcewell requests above other request by highlighting in our company email that a Sourcewell Member is specifically requesting assistance. This email is used for both sales and service inquiries. See attached example of the <a href="mailto:sourcewell@liftnow.com">sourcewell@liftnow.com</a> email in action in our attachment "Email Example".</p> <p>We utilize a web-based CRM system for both sales and service tickets, as well as a companywide communication system to keep communication as quick as possible in the digital age. This includes adding vendor partners to our company communication system to make communication between parties as seamless as possible. It is this digital communication and investment in faster and better communication that makes our response times incredible. We currently make same or next day contact on 100% of our inquiries. Almost all customers then get actual contract-compliant Sourcewell quotes in less than 24 hours. Our sales team must respond to inquiries within 4-6 hours and are rewarded for doing so more quickly.</p> <p>Our Customer Service Manager Nicole currently heads up customer service concerns. Nicole is a 30-year veteran in customer service, having directly managed a staff of 50 in retail operations for one of the highest volume branches of the largest clothing retailers in the country, the TJX Companies Inc (NYSE: TJX). Nicole is loved by all of our customers, vendors and installers and has built a national reputation for service. She continues to bring communication innovations and customer service improvement to the forefront for Liftnow.</p> <p>Our Customer Service Associate Sherry joins us from a manager-level role in Human Resources at one of the East Coast's leading benefits providers and has over 35 years of experience in people management, which she brings to the Liftnow team every day. Sherry competed with over 100 candidates to receive the role that she's currently ingrained in.</p> <p>Additionally, our vendor partners brands Dealers and Service Providers for responsiveness to service calls. We will also discuss response-time tracking and Customer Satisfaction Index of our service providers in later questions, both of which help us to strengthen our customer service program.</p>
31	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in the United States.	<p>Since 2020, Liftnow has successfully leveraged its existing Sourcewell Contract in nearly all 50 states. Liftnow has navigated COVID, supply chain and inflation pressures and has experienced explosive growth in spite of these challenges.</p> <p>Liftnow has spent the last 3 years educating and leveraging the power of dozens of brand partners who collectively represent thousands of people across every city, county and state in the country. Liftnow has given dozens of national webinars and gone to dozens of trade shows in promoting our existing contract not just to users, but across the sales and service forces outlined in Line Items 26, 27 and 28.</p> <p>This includes our efforts in NASPO, where we have been awarded 13 State contracts in our first 6 months on that contract. Those contracts are now good through 2028 where we have already made more years-long commitments into successfully serving this National Contract.</p> <p>Liftnow is not only willing and able to serve the entire United States, but Liftnow has been serving the entire United States for years prior to this RFP and is excited to serve the entire United States for years to come. There is no entity in the entire United States that will not be served by another Liftnow Sourcewell Contract.</p>

32	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in Canada.	Liftnow and its partners have multiple regional managers (over 8) and over 20 distributor partners in Canada that are solely focused on Canadian sales and have a strong footing in the Canadian public sector market. This staff is also trained in Sourcewell and cooperative purchasing sales. Liftnow looks to Sourcewell to encourage cross-promotion of its offerings through the new Canoe brand as the vehicle lift business is alive and well in Canada. Liftnow also anticipates hiring a Canadian-focused sales representative within the tenure of the next prospective Sourcewell contract.	*
33	Identify any geographic areas of the United States or Canada that you will NOT be fully serving through the proposed contract.	N/A - There are no geographic areas that we will not be fully serving through the proposed contract.	*
34	Identify any Sourcewell participating entity sectors (i.e., government, education, not-for-profit) that you will NOT be fully serving through the proposed contract. Explain in detail. For example, does your company have only a regional presence, or do other cooperative purchasing contracts limit your ability to promote another contract?	N/A - There are no Sourcewell participating entity sectors that we cannot service fully through the proposed contract. Sourcewell has been and remains the largest volume and best promoted contract for Liftnow. Liftnow already has a years-long track record and has done business in nearly all 50 States as a national outfit utilizing the Sales and Service Networks as outlined in Line Items 26, 27 and 28. Liftnow does not currently have any cooperative purchasing contracts that limit our ability to promote another contract.	*
35	Define any specific contract requirements or restrictions that would apply to our participating entities in Hawaii and Alaska and in US Territories.	N/A - There are no specific contract requirements or restrictions that would apply to participating entities in Hawaii, Alaska or the U.S. Territories. The only exception is the freight policy as outlined in Line Item 63 of the proposal.	*

**Table 7: Marketing Plan**

Line Item	Question	Response *
36	Describe your marketing strategy for promoting this contract opportunity. Upload representative samples of your marketing materials (if applicable) in the document upload section of your response.	<p>Liftnow has and continues to implement an integrated marketing strategy and anticipates spending multiple millions of dollars in marketing over the life of the next contract. Our integrated marketing strategy draws on the usage of available data to continue identifying developing and nurturing opportunities to market the Sourcewell Contract to increase overall utilization of the contract by both total dollars but also by customer segments (see the answer to Line Item 67 on tracking success).</p> <p>Liftnow is the most adept marketer of its peers, as shown by its formal and data-driven strategy and proven by its exponential growth.</p> <p>This is partially due to Liftnow's Head of Marketing, who comes from a Top 2 ranked Business School in the United States, the New York University Stern School of Business. He brings his decade of marketing experience consulting for a wide range of domestic and international businesses, spanning vehicles to home automation to ice cream, and applies it to Liftnow's marketing efforts. He has also received a Harvard Business School Certificate in Business Analytics, Inbound HubSpot Marketing Certification, Google Analytics Advanced Google Analytics Certification, and Google Cloud Machine Learning for Business Professionals.</p> <p>The integrated marketing process is outlined below:</p> <p>After we have defined customer types among Sourcewell Agencies, we will target the following groups:</p> <ol style="list-style-type: none"> <li>1. Agencies who have purchased related products/services through the previous Sourcewell contract</li> <li>2. Agencies who have purchased related products/services, not through the previous Sourcewell contract</li> <li>3. Agencies who have not purchased related products/services, but have purchased through similar vehicles, or agencies who have purchased from similar fleet-related contracts (complementary Sourcewell contracts that may alert us to a Purchasing Agency that has a fleet)</li> <li>4. Are there specific agencies that Sourcewell is looking to target?</li> </ol> <p>Upon award, we will first execute an omnichannel marketing message to relaunch our partnership with Sourcewell, across social media, our website/blog, and various printed marketing materials and upcoming events and emails. See Line Item 38 regarding specific roll-out and integration into our sales process. After we've broadcast that initial announcement and message and identified the core groups as discussed above, we will develop integrated marketing strategies for each. This can include, but is not limited to:</p> <p><b>DIRECT MARKETING</b></p> <p>Postcards/Flyers/Catalogs, Email Marketing, Fax Marketing, Text Message Marketing,</p>

## Phone Marketing

## DIGITAL MARKETING

SEO, SEM, Google AdWords/AdSense, PPC, ACoS, etc. In the last half of 2022, Liftnow contracted with a large web development and digital marketing firm to rebuild our website and execute our ongoing digital marketing strategy. We committed a high six-figure dollar amount to the build and execution of this strategy which was completed in March of 2023. This company has over 500 digital marketers on staff and has worked with numerous Fortune 500 companies to achieve their robust goals. Liftnow spends an ongoing six-figures per year on content generation, backlink generation, and more to this company to continue building its digital identity and lead over other vendors in an increasingly digital world.

A large part of our digital strategy is centered around the Google Analytics platform, which gives us insight into both on-page and off-page statistics across a variety of important digital parameters that ultimately help improve customer behavior and optimize for call-to-action conversion on our quote forms, service forms and contact us forms. These metrics include but are not limited to pageviews, sessions, click-through rate, bounce rate and more. See a more detailed discussion in Line Item 37 below.

## PERSONAL SELLING

Personal selling refers to in-person selling. Liftnow primarily sells through its cooperative-purchasing focused sales team, and a new Sourcwell Contract Award will allow us to keep hiring sales representatives. Liftnow has spent hundreds of thousands of dollars to date on this venture. This is in addition to the over 200 other sales personnel that are personally selling daily to public sector entities on behalf of the Liftnow Sourcwell Contract – see Line Items 26, 27 and 28.

Additionally, personnel from partner is already trained on a continuous basis, as we host periodical webinars discussing sales methods and tools and identify products with greater velocity or greater opportunity (based on our data-driven marketing and engagement approach). In the last 3 years, we have hosted approximately 20 webinars per year to our vendors and other interested stakeholders.

All sales personnel will also receive LIFTNOW and Sourcwell-specific marketing materials, including brochures and multimedia pieces. For example, we've created scale models of products using cardboard, interactive QR-code brochures, virtual reality renderings, and more. We will also leverage this contract into additional marketing cooperative dollars, which is available through many of our manufacturers.

Our service partners will be similarly engaged. Each service partner can be given a flowchart of the sales and service process, along with equipment surveys that are mandatory with every visit. These equipment surveys will be submitted to us to strengthen our continued marketing approach. They will also be armed with periodical service-specific webinars and a suite of marketing materials specific to service, inspection, and maintenance. Finally, each member of our service network receives unlimited digital access to operations and parts manuals that we've compiled over 10 years to help them specifically diagnose and repair certain garage equipment.

## PRINT MARKETING

Paid Media--Advertisement in Trade Journals, Newsletters, Magazines. Advertising can easily be done nationally, with the Sourcwell logo displayed prominently in all advertising materials. Liftnow has also pioneered new print solutions with many partners, including furnishing the Vendor Explainer Letters, Manager Letters, as well as the Liftnow One-Pager which is a wonderful customer facing document that, in one-page, explains Liftnow's Sourcwell Contract.

## MEDIA MARKETING

With Sourcwell's new Media Studio in Staples, we would anticipate that Sourcwell would be looking for new and exciting ways to engage with vendors on co-branded media marketing. Liftnow would like to perhaps start a podcast or video series with Sourcwell, or even featuring as a vendor with expertise on Fleet Equipment, maintenance, repair and more.

## PUBLIC RELATIONS

Community Engagement with Local and Regional "Influencer" Agencies and Bodies: For example, NYC DCAS - Department of City Administrative Services, which helps guide policy and procedure in New York City or ASE, the National Institute for Automotive Service Excellence, which accredits schools and instructors alike on automotive repair. There are many ways to engage key groups of people that fall into one of the core groups identified in Roll Out which we can further explore once we have done more

research into the demographics, habits and behavior of these groups.

Liftnow is currently a member of the following national and local organizations: National: NIGP, NCSFA, APWA, APTA, GFX, AESA, NAFA  
Local: GNYADA, NYCARA, CARA, AASP

#### EVENT MARKETING

There are many events throughout the year that align well with the core groups discussed - including regional and national "reverse trade shows" for procurement professionals. As we define our core groups and strategy over the 1-year, 3-year and 5-year time frame, we will exhibit at these shows and, with the continued and anticipated success of our project, reinvest into increased presence at these events. Some of these events include but are not limited to APTA (American Public Transportation Association), NCSFA (National Conference of State Fleet Administrators), NTEA (National Truck Equipment Association), APWA (American Public Works Association). Please see the attachment IMC2022 for a schedule of which events we attended for the marketing year ending 6/30/2023. Liftnow spent hundreds of thousands of dollars on event marketing alone this last year.

#### CONTENT MARKETING

Content marketing is an important and ever-growing tool in the marketer's toolbox. Content marketing refers to creation of new and thought-provoking content for customers to help them in one of the three main stages of decision making: awareness, consideration, and decision. When the content is original, novel and helpful, a reader is more likely to make their decision with your company in mind. We've used content marketing not only on our own website ("Owned Media") but have used it in a variety of trade journals, newsletters and websites ("Earned Media"). These publications have worked closely with us on a now-regular basis to generate exciting and valuable content for their readers. We plan on replicating this model for the segments to which Sourcewell Agencies belong. This is also a strength of the digital marketing and web development firm we have hired, and they have dozens of content specialists on staff, where we also have a dedicated Content Marketer who is helping us with writing regular blog posts, getting PR, and more.

#### CONSUMER PROMOTION

Consumer promotion refers to incentivizing an increase in purchasing for a certain product or product line during a specified period. While the intention of the RFP is to deliver consistently low and flat-rate prices to the Purchasing Agencies there are occasional brand-sponsored specials. At Sourcewell's instruction, we are willing and able to broadcast these specials to the members on a continuous basis as we receive them. We will pass along the vast majority of the promotion directly to the Members. Due to the nature of consumer promotion/specials, we are unable to predict this promotion as a percentage or dollar amount.

#### PARTNERSHIPS

Partnerships refer to partnering with complementary organizations to help our dual cause of promoting sales on the contract, as well increasing contract utilization as a means of reducing friction for the remainder of nationwide sales of our brand portfolio.

For example, a partnership may be with other Sourcewell Vendors, like Construction vendors or Vehicle vendors, to help fuel one another's efforts. Construction partners may stimulate business for us by letting us know that a municipality wants to construct a new maintenance facility. Likewise, we would find existing customers that want to expand or otherwise modify their facilities, where we would call the Construction partners.

For Agencies not currently utilizing this Sourcewell Contract, this is equally powerful: Sourcewell vendors on different contracts can align as a vertically integrated solution available most economically and productively through Sourcewell, inducing Agency Utilization. As a result of these partnerships (which Sourcewell could be helpful in fostering), we are open to exploring these "edge transactions" and how they could benefit Sourcewell as a whole.

Please also see File Entitled "Marketing Plan and Samples" to see some visual representations of the marketing we have done and continue to do. Notably, within this folder, please see "013020 Marketing Samples", which refers to specific materials that have been created by the Liftnow Marketing Team during our current contract including: Case Study Articles, Fleet Safety Presentation, Lift Lifecycle Cost Analysis and Study, Government Portfolios, Linecards, One-Pagers, and more. It is our viewpoint that Marketing of a contract is a living, breathing organism; thus, marketing approaches and materials must continue to develop.

Importantly, these marketing initiatives as discussed are all assumed by Liftnow specifically. This does not include any of the above marketing initiatives of our respective vendors,

		who all exhibit at other major and minor municipal shows and advertise Liftnow's contracts in their booths, etc. While our vendors do not publicize their marketing budgets, an internal calculation informs us that this combined marketing spend is well into the millions of dollars annually across all categories above.	
37	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	<p>Liftnow harnesses the power of customer analytics and digital data in methods that are unique to the vehicle lift and garage equipment industry, and more closely resemble a digital-first company of the 21st century. Digital data, including metadata, is not the same as mere webpage/social media presence, email marketing or an internal software stack. Instead, Liftnow knows that digital data can actually provide two-way communication between Liftnow and its customer base - actions that customers take on our website, and around the Internet (metadata) can provide us insights into customer behavior, overall market trends or shifts, and in some cases, real-time ad performance. Utilizing this digital data and asking the right questions surrounding that data to create meaningful changes in behavior. For example:</p> <p>"What is the bounce rate?" vs. "What does the bounce rate of this page mean in the context of how the page is organized? What can we do to improve upon it?"</p> <p>Liftnow both combines its rich experience in data analytics (see Line Item 36) with a masterclass partner in the field. Our web and data partner was carefully chosen in mid-2022 among a field of dozens of companies. This company, with over 500 digital marketers on staff, as worked with numerous Fortune 500 companies to achieve their robust goals.</p> <p>Among their huge benefits (including billions in revenue and millions of leads won for their clients), comes their internal client Marketing Portals which are used not only by their Marketing Team (which are specifically assigned to the Liftnow Account), but also available for Liftnow to see. Some of the data available includes:</p> <p>Organic SEO Performance Sessions New Users Form Leads (Quote Form Submissions, Service Requests, Brochure Requests) Phone Calls Pageviews Pages/Session Average Session Duration</p> <p>Top Converting Pages Top Geography of Users</p> <p>Impressions Clicks Site CTR Average Position (Google)</p> <p>Keyword Rankings (Including Keyword, Search Volume Over Time, Position on Page)</p> <p>We look at these types of parameters across Year-over-Year and Month-over-Month. Please see an attached sample of a single page of our 30 page monthly report entitled "Digital Data - Monthly Report Sample."</p> <p>We also splice the data to create customer profiles, across some of the initial parameters set out in the previous question. We also inform our Marketing Partner of our Integrated Marketing Plan, to create additional synergistic opportunities. For example, we inform the Marketing Partner to look for a potential jump in traffic following a trade show. If the traffic wasn't as expected or wasn't from the geography we expected, we ask why and continue to improve our entire marketing plan through our use of digital data.</p> <p>Liftnow anticipates investing more time and money into digital data and marketing than any other channel in its new prospective contract.</p>	*

38	<p>In your view, what is Sourcewell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcewell-awarded contract into your sales process?</p>	<p>Liftnow is proud to continue and develop its partnership with Sourcewell on its existing contract, #013020-LFT, into its next prospective contract. Together, Liftnow and Sourcewell executed the plan set out in our previous RFP in 2020, and this resulted in faster growth than any other contract in this category. As discussed in Line Items 36 and 37, we understand how to promote this contract and drive continued growth, as we have already done it successfully for years.</p> <p>We do ask that Sourcewell provide us the following:</p> <ul style="list-style-type: none"> <li>- Endorsement and promotion of the new Liftnow Contract awarded by this RFP</li> <li>- Preliminary marketing materials and brand-usage guidelines including the new Sourcewell-awarded artwork and any other assets (Member Guides, PDFs, Buy Sourcewell information, etc.)</li> <li>- Review of information as we post it to our industry-leading website, <a href="http://www.liftnow.com">www.liftnow.com</a>.</li> </ul> <p>In order to fully realize our marketing plan, we also ask that Sourcewell share the following:</p> <ul style="list-style-type: none"> <li>- New Registrations of Sourcewell Members as they arrive (this is already being done on a weekly basis by Sourcewell to Liftnow)</li> <li>- Metadata of Sourcewell Members as it relates to the Sourcewell website, and specifically our contract (for example, have members clicked through to our page?)</li> <li>- Endorsement of Liftnow's new Contract to various partners for Event Marketing and Partnerships. In the context of Event Marketing, this may mean helping endorse us to speak at an event, or exhibit, using connections or warm introductions between Sourcewell and another large organization (any of the organizations as outlined in our Marketing Plan above) .</li> </ul> <p>Liftnow already has a robust plan on integrating a new Sourcewell-awarded contract into our sales process:</p> <p>Upon award of the new contract, our entire Liftnow team is notified immediately. Liftnow will have another kickoff to launch the brand new Sourcewell Contract. Since our team is focused solely on cooperative-purchasing, there will be little-to-no onramp and learning curve, we will just change the contract awarded artwork, contract number, and links to our website and our Sourcewell Landing Page. Therefore, since cooperative purchasing was already integrated for years (since 2020), there isn't much incremental integration that is needed.</p> <p>Liftnow will also craft emails to send to our approximately 229 Sales Members, distributor partners, and service partners across our vendor partners to alert them of the good news across the United States and Canada via email. Like our internal sales force, these staff are well aware of how to utilize our Sourcewell Contract and how to drive business. For them, a new contract simply carries a new contract number and new artwork. Our Vendor One-Pagers will be updated to include the contract number. See attachment Sample Vendor One-Pager.</p> <p>For management-level personnel at these companies, we write a more personal letter that describes the benefit of the program. See attachment Sample - Manager Letter.</p> <p>Upon receipt of awarded contract artwork from Sourcewell, Liftnow will revise its print materials, event materials and web materials all to include the new contract, which includes:</p> <p>Trade Show Materials</p> <p>Print PDFs</p> <p>Liftnow Home Page - <a href="https://liftnow.com/">https://liftnow.com/</a></p> <p>Liftnow Public Sector Page <a href="https://liftnow.com/capabilities/public-sector/">https://liftnow.com/capabilities/public-sector/</a></p> <p>Liftnow Sourcewell Dedicated Page <a href="https://liftnow.com/capabilities/sourcewell/">https://liftnow.com/capabilities/sourcewell/</a></p> <p>Finally, once all information is updated, we will begin making further external communication to promote and kickoff the new contract, including social media blasts, press releases, and promotional emails to our 100,000+ database of public sector buyers.</p> <p>Liftnow will also utilize the newly awarded contract to run new digital ads capitalizing on the theme of a "New Sourcewell Contract" for interested buyers.</p>
----	--	--

39	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	<p>Unlike many of our competitors who believe that e-procurement isn't applicable or plausible for Vehicle Lifts and Garage Equipment, Liftnow knows better. Not only is Liftnow the only currently awarded contract #013020-LFT with a Buy Sourcewell Punchout and E-Commerce Store, but is also the only awarded contract with sprawling, full photo catalogs and purchase abilities on a variety of government commerce platforms.</p> <p>Liftnow has worked tightly with EqualLevel, Periscope, TxMAS Internal Team, and more technology partners to create e-catalogs and simplify the path to purchase. Liftnow has successfully driven sales through these channels to facilitate point and click purchase. See attached TXMAS Sample.</p> <p>Governmental and educational customers alike have been able to place orders for most of Liftnow's catalog online without any further action taken. In cases where the transaction needs more information, a member of customer service reaches out ASAP to facilitate those more specific questions. In this way, the government customer gets the best of both worlds: a personal touch from the Liftnow team, while at the same time taking advantage of frictionless purchasing that exists in every other facet of life.</p> <p>Finally, Liftnow 's catalog is the only of its kind, and is fully searchable by part number, which resembles an E-Commerce website and, allows visitors to directly make inquiries about products and express their interest directly to Liftnow. This part number visibility is especially helpful when customers are searching across the Internet for various part numbers and very specific or targeted products.</p> <p>The catalog also allows for product filters, including the types of vehicle lifts (Two Post, Scissor, etc.) as well as capacity, brand, Buy America, etc. to help visitors successfully wade through our many options. This same functionality is available across all product lines, for Vehicle Lifts and Garage Equipment.</p> <p>For Garage Associated Equipment (e.g. compressors), this will include things like:</p> <p>Type of Compressor (Reciprocating, Rotary Screw, Rotary Vane, Rotary Scroll, etc.) Horsepower Range of Compressor Requested Voltage of Compressor CFM of Compressor Base Mount or Tank Mount, etc.</p> <p>This is the only of its kind of any Sourcewell respondent, past or present. This represents a significant investment from Liftnow, as each listing has its own product page with descriptions, key product specifications, brochures and attachments, and full color, high-resolution images. Importantly, this also allows a customer to express interest in a specific product which helps inform a discussion much more quickly and compress time-to-sale. There are plans in the future to continue building out features of this catalog.</p> <p>Please see the vehicle lifts catalog here: <a href="https://liftnow.com/products/vehicle-lifts/">https://liftnow.com/products/vehicle-lifts/</a>. Please also see our attachments Sample Catalog 1 and Sample Catalog 2.</p> <p>Finally, while not a particularly technologically advanced solution, Quickbooks Online has the option of sending invoices directly to a customer's requested email, see attached E-Pay Sample.</p> <p>For customers paying with a P-Card or procurement credit card, there would be a button on this email for a direct payment, whereby they can fill out their credit card information directly with Quickbooks in an encrypted format, and Quickbooks would then mark our invoice as paid, charging the customer's credit card and debiting our account.</p>

40	<p>Describe any product, equipment, maintenance, or operator training programs that you offer to Sourcewell participating entities. Include details, such as whether training is standard or optional, who provides training, and any costs that apply.</p>	<p>Installers and vendor partners for all of our lift brands (Challenger Lifts, BendPak, Omer, Mahle, etc.) provide training for shop technicians as a part of the installation package.</p> <p>Additionally, through the Automotive Lift Institute (ALI), multiple training materials are available, such as the "Lifting it Right" Package, which acts as a handy, single source of safety and training information. This package includes a manual and a DVD. These materials, and other ALI Materials (like the ANSI/ALI ALOIM "Blue Book", which acts as a compendium for lift operation and maintenance knowledge for a variety of lift types, designs and working environments), are uniquely available under the title "Manuals" in our Sourcewell Service Program. Additionally, as a part of this program at no additional charge to Sourcewell Members, Liftnow maintains records and access to operation and parts manuals for many hundreds of types of lifts that are both in-and-out of operation.</p> <p>After sale and initial installation, should a Sourcewell Member require any additional training services, they can utilize our Sourcewell Service Program for predictably priced training for all products as covered by this RFP. Liftnow remains the only Sourcewell Contract in the country where training can be requested for any automotive lift or garage equipment products, anywhere in the country. This includes important ongoing training and retraining in very common scenarios, such as:</p> <p>Employee Turnover: New employees need to learn the equipment</p> <p>Multiple Shifts: Members request training sessions across multiple shifts, days or seasons.</p> <p>Liftnow also pioneered virtual training in 2020 due to the COVID-19 pandemic. This came out of necessity since government agencies still needed to purchase their lifts and equipment (which was deemed essential), but local regulations disallowed contractors from making site visits for a period of time. In response to this, Liftnow worked with multiple manufacturers, including Omer Lifts, to develop a virtual training protocol which was well-received by customers around the United States. This included Teams meetings with live demonstrations, walkthroughs of operating manuals, and more.</p> <p>All Coats products, and mobile columns from Challenger and Mahle include setup/installation and technician training as a part of the sale upon request. Additionally, all AC and fluid machines from Mahle include setup and training.</p> <p>Many products offered by Liftnow through this RFP require little-to-no training and are shipped ready to use. All products also come with product, operating and maintenance manuals standard. These manuals are made available via print and also electronically by request at no additional charge.</p> <p>Training may be requested/scheduled for any brand and product.</p>
41	<p>Describe any technological advances that your proposed products or services offer.</p>	<p>Being a distributor and not a manufacturer, Liftnow curates a suite of solutions that are carefully tailored to customer needs, and continuously improve their offerings. Liftnow also assesses its solutions on a regular basis to ensure that its product portfolio both captures the needs above, and also identifies new overall industry trends as they develop and proliferate. Most notably, this includes the addition and development of a now-robust EV (electric vehicle) repair equipment offering available in #013020-LFT and which will be available in our new prospective contract.</p> <p>While any single brand is inherently limited by its individual ability to innovate, Liftnow remains at the forefront of innovation by offering entities a choice and communicating advancements on a regular basis to those entities as they develop. See below a sample of currently-developing products by our vendor partners in the Vehicle Lift Segment and Garage Equipment Segment:</p> <p>Vehicle Lift Technological Advancements</p> <p>Challenger Lifts – Medium Duty Mobile Column Lifts – These mobile column lifts will be the first of their kind in the lift industry and will be approximately 10,000 lbs. per pair of lifts, which is much lighter than the 24,000 lbs. which is currently the lightest capacity that mobile column lifts are available. The advantages of mobile column lifts (and what makes them the best-selling lift product within the Public Sector Segment) is the lack of site planning that is needed due to their portability, combined with their relatively low price per capacity. They will also be at a lower price point than virtually all of the mobile columns currently in the market, but not sacrifice any functionality (same rise heights, portability, etc.) and still be a Buy America Compliant model like the rest of Challenger's mobile column lifts which are made by Gray Manufacturing.</p> <p>This product offering was formally shown at SEMA 2022. This is a notable product because it is the first medium duty mobile column lifts in the entire market.</p> <p>BendPak – 30,000 Lb. Two Post Lift – The BendPak 30,000-Lb. Capacity Two Post lift is slated to arrive to market in 2024 and will represent BendPak's heaviest two post lift. Much like the rest of BendPak offerings, this lift will be ALI-Certified and represent an incredible savings over the current products in the market.</p>

Omer – Athlon Vertical Rise Lifts – Omer will debut a lighter duty range of their vertical rise lifts (technically scissor lifts per Automotive Lift Institute), in the 20,000-50,000 Lb. Range. This is also exciting because vertical rise popularity has risen in recent years due to their smaller profile than the more traditional parallelogram lifts. The Athlon will occupy an important space in the Vehicle Lift market, as no manufacturer is currently offering this full range of capacities.

The reason that many manufacturers are offering new solutions for the medium and heavy-duty market (of which all of the above innovations would be technically considered) has a lot to do with the increasing average capacity of vehicles over the years, driven mainly by the heavier batteries in hybrid and electric vehicles, the popularity of which has exceeded everyone's expectations, see diagram.

This weight difference is going to be even more dramatic in the medium and heavy-duty vehicle industry because of the changes in battery weight for Class 3 and Class 4 Vehicles. The transit bus, which is a very popular vehicle among fleet departments and transit authorities that might use the Sourcewell contract, is going to be at least 5,000 Lbs. heavier (if not significantly more depending on model and battery configuration, etc.) than previous diesel models.

Sourcewell Service Program

For the Sourcewell Service Program, the Hundred-Hour Program and Inspection Protection Program are innovations in our own Service Program for the vehicle lift industry. When Liftnow debuted the Sourcewell Service Program in 2020, it was the first of its kind for public sector clients and continues to be the only of its kind. Liftnow's commitment to innovation expands to not only its product offerings portfolio, but its service offerings portfolio as well where it can properly serve public sector clients. Additional Considerations on service-level innovations include but are not limited to:

- Virtual Inspections and Site Visits
- Automated Inspection Reminders (approximately 10-11 months after the inspection, 1-2 months before an inspection is due again). Ensures no lapse in inspections.
- Inventory Management Tool for Clients to keep track of lifts, repairs to lifts, in a centralized manner, in an easy-to-use dashboard.
- If the Sourcewell team would like our other innovations on our Product Roadmap, please let us know and we are happy to provide additional details.

Garage Equipment Technological Advancements

Challenger Lifts, BendPak, Omer

- Battery Table - Used to facilitate and safely perform the installation and removal of EV batteries, electric car battery packs, transmissions, gearboxes, clutches, engines and various components of the car chassis.

BendPak

- Combo Packages - These new garage equipment packages offer smartly combined packages for top products. These specialized packages include up to four handpicked pieces of equipment including, alignment lifts, 3D aligners, rolling bridge jacks, and tire changers. These combinations have their own SKUs and represent a significant savings over purchasing individual pieces.

Mahle

- OzonePRO – Mahle debuted a professional-grade ozone generator that safely eliminates odors from the interior of vehicles. In certified lab tests, the OzonePRO demonstrated up to a 99.7% reduction in the number of active coronaviruses after a 35-minute cleaning cycle.

Autel

- ADAS Systems - The MaxiSYS IA900WA Wheel Alignment and ADAS calibration frame enables the performance of four-wheel alignment and ADAS component calibration. Software includes Illustrated alignment instructions, live readings, required tools, and adjustment locations display on included 24" touchscreen screen. Alignment coverage for U.S., Asian and European vehicles, 1996 and newer.

Six high-resolution positioning and tracking cameras in frame automatically monitor vehicle height on shop lift. Robotic frame movement for efficient use and alignment reading accuracy to 0.02 degrees for precise alignments. Includes steering wheel lock and wheel chocks.

- Electric Vehicle Diagnostics - The MaxiSys Ultra EV is a new generation of intelligent diagnostics for electric, hybrid, gas, and diesel vehicles. The Ultra EV provides a comprehensive analysis of electric and hybrid vehicles with expanded topology mapping and battery pack analysis that can be performed via OBD or directly with included specialty cables and jumpers.

Champion

- New D-Series Compressors – Champion expanded their product line by launching the new fixed speed D Series and the energy saving variable speed DRS Series rotary screw compressors. These new, cost effective 5-200 horsepower compressors, offer a flow range of 16 to 926 CFM and working pressure up to 145 psig. D and DRS Series compressors are ideal for continuous-use applications with reduced noise levels as low as 63 dBA for

		<p>maximum customer satisfaction. These easy-to-use compressors feature convenient control solutions to monitor and simplify maintenance for reliable and efficient performance at an affordable price.</p> <p>Coats</p> <p>The new MAXX Series of Tire Changers includes: dual nozzles, standard 220V voltage to accommodate a variety of garages, dual bead loosener controls, and no indexing.</p>	
42	Describe any "green" initiatives that relate to your company or to your products or services, and include a list of the certifying agency for each.	<p>As a distributor and service provider, Liftnow does not itself receive certifications for the equipment or products included in the Proposal related to "green initiatives". As a company, Liftnow has little-to-no negative impact on the environment as we do not manufacture products. Most of our work is done on the computer or over the phone. Liftnow consistently seek ways to reduce its carbon footprint. While there is a brief discussion below, due to the breadth of our product offerings and variety of manufacturers, we believe it to be more expedient to refer you to the "Sourcewell Green Initiatives" Document, where you can find a Per-Brand List of initiatives. Any further information can be requested as needed.</p> <p>Notable stand outs in Green Initiatives by our Vendor Partners include:</p> <p>Challenger Lifts – Inground EV Series lifts have fully-contained and sealed recycled polymer cassette tub eliminates risk of hydraulic fluid seeping into the ground. This is in contrast to many of the "old style" Inground lifts.</p> <p>BendPak - BendPak has an entire webpage devoted to sustainability and green initiatives, some of which are stated here:</p> <ul style="list-style-type: none"> <li>• BendPak facilities utilize the absolute best powder-coating procedures. In addition to being far more durable, powder coating cuts down on harmful emissions created by traditional coating methods.</li> <li>• Our electric-powered blast cabinets employ an extremely advanced and efficient filtration system that produces virtually no emissions. There is currently no better equipment or process available for preparing metal surfaces for coating.</li> <li>• BendPak intentionally uses paints and solvents that have a lower VOC (volatile organic compound) content than mandated by the California Health and Safety Code, known to be one of the strictest codes in the nation.</li> <li>• In an effort to constantly evaluate our processes for potential improvement, BendPak voluntarily underwent a waste evaluation conducted by FGL Environmental in 2008. As a result of our proactive approach to surface coating, the waste products produced by our paint booth were determined to have no negative impact on the environment or local wildlife and no longer qualify as hazardous.</li> <li>• We service all our vehicles at least once a month for optimum efficiency and to eliminate needless waste.</li> <li>• Instead of scrapping a failed product, we salvage and refurbish as much as we can in-house.</li> <li>• We exceed recommended harmful chemical disposal guidelines and closely follow electronic equipment disposal procedures to protect our employees and the environment.</li> <li>• All forklifts and office-to-office transportation vehicles are zero-emission, 100% electric. We plug them in when we're not using them to keep them charged. The investment in this technology pays for itself in gas savings. And, it's nice to not have gas fumes stinking up our facilities.</li> <li>• When we remodeled and expanded our Santa Paula facilities, we put forth special effort to include green space and planters into the design—not only for an enhanced appearance, but to retain and utilize rainwater runoff in order to support the city's local ecosystem.</li> <li>• We continually reduce our paper consumption by making almost all of our company, sales and informational literature available digitally.</li> <li>• Whenever possible, BendPak makes a point to recycle used oils through approved local facilities.</li> </ul> <p>Champion- Variable speed compressors offer significant energy savings over fixed speed compressors. Installing a variable-speed drive machine can save up to 70% of energy consumption in a typical facility. By mitigating wasteful part-load energy consumption, variable speed drive compressors optimize a facility's airflow. Additionally, Champion's oilless and oil-free compressor options use minimal to no oil, presenting an environmentally solution to traditional compressors. Mattei also offers variable speed drive compressors as well. (VSD)</p> <p>Mahle - Both of Mahle's flagship refrigerant recovery machines, the ACX2180 and ACX2280, now have the H series, offering flexibility with the same benefits of the original machines but the added capability of servicing hybrid vehicles.</p> <p>Vidir, Omer, BendPak – Vertical storage solutions and equipment offers numerous environmental benefits for the agencies that choose their products, stemming mainly from the more efficient use of space within a facility, as opposed to the emissions and resource that would otherwise be used in a new construction.</p> <p>NS Wash – NS offers a full range of eco-friendly truck and transit washes, which include clarifier and reclamation systems to maximize water savings.</p>	*

43	Identify any third-party issued eco-labels, ratings or certifications that your company has received for the equipment or products included in your Proposal related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors.	<p>As discussed above, Liftnow does not generally receive certification for the equipment or products included in the Proposal. However, Liftnow has received Platinum Certification with the Green Business Bureau (GBB), which highlights its significant commitment to environmental sustainability. This achievement reflects Liftnow's completion of numerous initiatives with considerable environmental impact, as Platinum Certification is the highest certification that can be achieved by a business with the GBB. Please see attachment entitled "Platinum GBB Certification."</p> <p>The Green Business Bureau Certification includes a full assessment of Liftnow's business practices in its EcoAssessment, which spans across categories such as Transportation, Consumption/Waste, Water Use, Energy/Emissions, Work from Home, and Retailing/Wholesaling/Trading. The GBB also allows Liftnow to continue improving its sustainable business practices through the usage of various initiatives that we can complete.</p> <p>Please also see our attached list of vendor-specific product and manufacturing certifications, which number in the dozens and spans ISO 9001, ALI/ETL, UL, ASME, IRIS, TSSA, ASME and more, and is entitled "Sourcewell Certifications."</p>
44	Describe any Women or Minority Business Entity (WMBE), Small Business Entity (SBE), or veteran owned business certifications that your company or hub partners have obtained. Upload documentation of certification (as applicable) in the document upload section of your response.	<p>Liftnow meets the requirements for a small business enterprise through the SBA's size standards and designations.</p> <p>Liftnow actively participates with a variety of MWBEs, SBEs, SDVOSBs, etc. in a variety of states. This includes purchasing both products as well as services from this vendors. Notable vendors include (names redacted);</p> <p>SDVOSB headquartered in Indiana providing Liftnow with select equipment and consulting services</p> <p>SDVOSB, MBE headquartered in New York. Providing Liftnow with select equipment and consulting services.</p> <p>CADIR, DBE, SBE, MBEs (Multiple) in California. Providing Liftnow with select equipment, installation and a variety of consulting services.</p> <p>Liftnow also makes it a habit of actively soliciting quotes and services from a variety of businesses with such certifications, and has done so in dozens of states for dozens of projects. Even when it is not requested or required, Liftnow makes often makes a Good Faith Effort to request quotes from these entities.</p> <p>As requested or required Liftnow can make good faith efforts and/or meet a wide range of participation goals utilizing the contractors above and more. Please reach out if any additional information is needed.</p>

45	What unique attributes does your company, your products, or your services offer to Sourcewell participating entities? What makes your proposed solutions unique in your industry as it applies to Sourcewell participating entities?	<p>While our vendor partners have innumerable features and products that would be considered "value-add" attributes, Liftnow's largest value add comes from its total solution that has already been tested and successful in the Public Sector. These value-added attributes include more ALI-Certified Models available through Liftnow than any other contract past or present; more Buy-American Compliant products than any other contract past or present; state adoptions in New York, New Jersey, Ohio, Missouri, Texas (TxMas), and pending North Carolina; the world's only fully fledged Service and Maintenance Program through a cooperative purchasing contract.</p> <p>Liftnow's value and uniqueness lies in its breadth in product and service offerings. This breadth allows us to become the true single point of contact and offer an all-encompassing solution to Sourcewell members everywhere. Single-point purchasing has become even more important since the last RFP in 2020 as departments continue to be tasked with buying and doing more with less resources.</p> <p>Liftnow assists and builds relationships in ways that other manufacturers (or manufacturers with 3-4 value added suppliers) simply cannot. We now carry close to 40 brands of equipment across all categories, including categories that were not previously available on Sourcewell and continue to be offered through Liftnow as interest grows; lifts and wheel service equipment is just the tip of the iceberg when it comes to presenting a turnkey solution for Fleet Maintenance Facilities. For example, Liftnow remains the only vendor on the existing Sourcewell Contract #013020 offering:</p> <ul style="list-style-type: none"> <li>• Stationary Air Compressors and Air Treatment</li> <li>• Diagnostic Tablets and Equipment</li> <li>• Tire Carousels</li> <li>• AC Recovery and Recycling Equipment</li> <li>• Fluid Exchange Equipment</li> <li>• Vehicle Exhaust Extraction Equipment</li> <li>• Parking and Storage Lifts</li> <li>• Collision Equipment</li> <li>• Auto Shop Benches and Cabinetry</li> <li>• Sourcewell Service Program</li> </ul> <p>Additionally, our Sourcewell Service Program allows us to create more frequent touchpoints that are not only about sales. This service-first relationship only improves our positioning as the "single-call" for a customer in need. This includes acting as a single point of contact for all warranty dispatch.</p> <p>This approach is also good business - over 90%+ of our transactions through our previous Sourcewell Contract include some intersectionality of products and services offered that are not offered by other vendors.</p> <p>In other words, opportunities, relationships and larger transactions are being created as a result of Liftnow's continued investments into being a turnkey solution.</p> <p>Please see attached Internal PowerPoint Entitled "Case Study 1 – Value Add". This Case Study highlights a Sourcewell customer who has made the most of Liftnow's unique product offerings, and has resulted in a long-term, large relationship. This case study also highlights the alternate scenario if a Member were NOT to use Liftnow, but use another on-contract vendor. In that case, a Member must still separately procure many pieces of equipment and coordinate many contractors. Many of the benefits of cooperative procurement begins to vanish.</p> <p>In other words, Liftnow is THE partner that helps carry out Sourcewell's value proposition of saving Members time, money, and headaches in the most complete way.</p> <p>Finally, Liftnow remains the first and only currently awarded vendor in the Vehicle Lifts and Garage Equipment Category with an e-commerce and punchout store on Buy Sourcewell, which is an e-commerce platform allowing Members to procure products and services than every before. Liftnow currently has over 1,400 products available for direct purchase through Buy Sourcewell and has already begun fielding customer inquiries.</p>

**Table 9: Warranty**

**Describe in detail your manufacturer warranty program, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your warranty materials (if applicable) in the document upload section of your response in addition to responding to the questions below.**

Line Item	Question	Response *
-----------	----------	------------

46	Do your warranties cover all products, parts, and labor?	<p>All of our vendor partners, manufacturers and service providers maintain a warranty program that covers a combination of parts and labor. These partners meet, and in many cases, exceed industry standard warranties.</p> <p>Firstly, regardless of the product purchased, Liftnow offers LIFETIME tech support through its email, sourcewell@liftnow.com or its toll free number 1-800-LIFT-NOW.</p> <p>The longest of our product warranties is a LIFETIME warranty on many of our most popular of our vehicle lifts and shop equipment. This includes both parts (also called materials) AND workmanship. This far exceeds the industry standards for warranties in this product.</p> <p>However, this lifetime warranty is not the only lifetime warranty. Lifetime warranties are also seen across categories including in categories such as Vehicle Exhaust Extraction and Shop Cabinetry and Equipment.</p> <p>Other common warranties include 10 Year Warranties, 7 Year Warranties and 5 Year Warranties.</p> <p>Please refer to the document entitled "Warranty Summaries" to learn more about which warranties cover what from our brand portfolio. Please refer to the folder entitled "Specific Warranties" to learn more about specific warranties by product.</p>	*
47	Do your warranties impose usage restrictions or other limitations that adversely affect coverage?	No, there are no warranties that impose usage restrictions or other limitations that adversely affect coverage.	*
48	Do your warranties cover the expense of technicians' travel time and mileage to perform warranty repairs?	Yes. For repairs within the warranty period, the service network invoices the vendor partner directly for travel time and mileage to perform warranty repairs.	*
49	Are there any geographic regions of the United States or Canada (as applicable) for which you cannot provide a certified technician to perform warranty repairs? How will Sourcewell participating entities in these regions be provided service for warranty repair?	<p>There are no geographic regions in North America (United States, Canada AND Territories) for which we cannot provide certified technicians to perform warranty repairs. All warranty requests can be dispatched either through Liftnow at no cost to the Member or directly to the manufacturer.</p> <p>There is no difference in the process to provide service and warranty repair for a piece of equipment that is in a remote area or a well-covered one. This is because Liftnow and its vendor partners already maintain operations, service partners, and national accounts in these remote areas that necessitate warranty and service work. In other words, there is no incremental effort, money or time needed of a Sourcewell Member Agency to utilize an already-deployed program.</p> <p>Equipment sold by Liftnow and its vendor partners is already being actively serviced in extraordinarily remote areas, most notably:</p> <p>American Samoa Guam Alaska Nunavut (NU) Hawaii</p>	*
50	Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?	<p>As a service-first company, warranties are typically passed on to the original equipment manufacturer (OEM) but we stand ready to assist any Sourcewell Member in procuring warranty service and fulfill all warranty requests directly through Liftnow.</p> <p>Also described in the Sourcewell Service Program, we are pleased to also offer out-of-warranty service for not only our partner brands but brands of other equipment in the same product categories within the scope of this RFP. This includes brands that have since been discontinued or defunct as well as manufacture custom parts for Members.</p> <p>Also as a service-first company, a large part of Liftnow's selection of its brand partners has to do with not only that partner's ability to service customers regardless of location (see line item 49), but also its attitude toward warranty work. The truth is that regardless of the length or terms of a warranty, that warranty is only as strong as the company that supports it. Liftnow experiences firsthand the professionalism and "do the right thing" attitude by its vendor partners in the rare but ultimately inevitable case of warranty work.</p>	*

51	What are your proposed exchange and return programs and policies?	<p>Due to our exhaustive assessment of our customer's needs, Liftnow is proud to report virtually no returns whatsoever. We'd also like to note that like our vendor partnerships are also predicated on the "do the right thing" mentality when it comes to return and exchange policies that are above and beyond what may be required.</p> <p>We must adhere to the return programs and policies of each of our vendor partners including restocking fees as necessary, which are usually expressed as a percentage of the initial purchase price. For the sake of brevity, we have not included all return programs and policies here. We have included BendPak as a sample of a return policy, entitled "BendPak Return Policy", while many others have return policies as a part of their warranties. We can provide any return policy information as requested and necessary to execute this contract.</p> <p>In Liftnow's 20-year history, we maintain a nearly perfect customer satisfaction rating, with virtually no returns or exchanges for our entire line of equipment.</p> <p>We conducted research when writing our Sourcewell Proposal and concluded that this category's total revenue through Sourcewell has included less than 0.025% of returns or exchanges.</p> <p>Furthermore, Liftnow's return ratio currently stands at approximately 0.10% of total volume of orders, and 0% of Sourcewell and cooperative purchasing orders.</p> <p>Liftnow maintains a staggeringly low return and exchange rate due to the measures it takes, including pre-order site visits, measurements, data sheet sign offs, concrete tests, electrical tests and more.</p> <p>We encourage Agencies to fill out a copy of our "Project Management Worksheet" which is attached on their own or with the assistance of a member of the Liftnow team. We encourage this so that supply and installation goes as smoothly as possible. There are multiple versions and special questions for each "major" type of equipment requiring installation and configuration.</p> <p>If these cannot be reliably answered with Entity Input, and in some cases Photos and Videos, Liftnow will arrange for a site visit.</p> <p>After all questions and site conditions are successfully answered and the equipment arrives, the equipment is ready to be installed as long as removal of existing equipment was not needed.</p> <p>It is this process that has allowed us to keep an incredibly low return and exchange rate.</p>
----	---	---

52	Describe any service contract options for the items included in your proposal.	<p>Liftnow has a variety of service contract options through its Sourcewell Service Program.</p> <p>Each vendor partner has its own service contracts that may be available. Most notably, most vehicle lifts and wheel service equipment that we carry have a line item to purchase Extended Warranty Coverage.</p> <p>Additionally, our Sourcewell Service transparently describes a menu of prices for all services related to this RFP regardless of location or quantity throughout North America.</p> <p>Liftnow now has a variety of quantity-based and duration-based service contract options at the previous request of Member Agencies.</p> <p>Notable service contract options include:</p> <p>1. The Hundred Hour Program - . While no agencies are obligated to take advantage of it, the Hundred-Hour Program allows interested states or agencies to guarantee a minimum quantity of labor hours to Liftnow and the Sourcewell Service Program in exchange for a volume-based discount. This program can scale up to 1000 labor hours and can be quoted as a larger agreement on a case-by-case basis.This is essentially a quantity-based discount for the Sourcewell Service Program in Line Item 59 - Quantity or Volume Discounts.</p> <p>2. The Inspection Protection Program - While no agencies are obligated to take advantage of it, the Inspection Protection Program (IPP for short) allows interested states or agencies to set up their vehicle lift or other equipment inspections for multiple years at once. This essentially mirrors a service contract that is typical of agencies today that procure on the open-market: generally a multiple year arrangement for lift inspections to ensure that there is no lapse in vehicle lift inspections. It is of paramount importance from a safety and compliance perspective that agencies do not let their vehicle lift and other equipment inspections lapse. The Inspection Protection Program is available for 2-year, 3-year, 4-year or 5-year time horizons.</p> <p>Liftnow will continue to develop and innovate service contracts, products and services to meet the needs of the modern fleet maintenance facility in ways that no other vendors can perform.</p>

Table 10: Payment Terms and Financing Options

Line Item	Question	Response *
53	Describe your payment terms and accepted payment methods.	<p>Our payment terms are Net 30 Days for all products from the invoice date. That being said, there are a variety of times where the agency wishes to pay via their standard terms - Net 45 Days or Net 60 Days are common. In the case that the Agency can demonstrate that this payment policy is standard for them, we will happily accommodate.</p> <p>Accepted payment methods include Check, ACH/EFT/Direct Deposit, and P-Card or Purchasing Card (described in Line Item 56). This also extends to include leasing or financing options as described in Line Item 54 below.</p>

54	Describe any leasing or financing options available for use by educational or governmental entities.	<p>Liftnow works with a variety of lending partners to successfully lease or finance large projects on a weekly basis. All financing and leasing programs can be extended to Members of Sourcewell in order to make acquisitions under this prospective Contract, as was true of our last Contract. Members can request financing and leasing applications directly on our website.</p> <p>Liftnow is also pleased to work closely and directly with NCL Government Capital, a Sourcewell-awarded vendor that has also been competitively bid and awarded Sourcewell Contract #011620-NCL. Liftnow's sales team and external vendor partners have been trained directly by NCL on the benefits of "tax-exempt municipal leasing" and the value it can bring to government agencies and Liftnow alike. Please see attached sample document for a recent Lease Purchase opportunity from NCL entitled "NCL_Lease Purchase Redacted."</p> <p>Liftnow prominently displays NCL's company biography, value proposition, status as an awarded Sourcewell contract holder and its explainer video directly on its website at: <a href="https://liftnow.com/capabilities/financing/">https://liftnow.com/capabilities/financing/</a>.</p> <p>Liftnow directly manages financing and leasing requests (including those made to fellow awarded contract holder NCL) by customers as a part of its suite of services to continue providing a seamless and friction-free experience.</p>	*
55	Describe any standard transaction documents that you propose to use in connection with an awarded contract (order forms, terms and conditions, service level agreements, etc.). Upload a sample of each (as applicable) in the document upload section of your response.	<p>The only notable document being used in connection with is our Sourcewell-specific quote template which has been uploaded here for review and comment. See attached "Sourcewell Quote Sample 1".</p> <p>This template has thus far been tested and revised multiple times throughout the life of our original Sourcewell contract. We are open to any input by the Sourcewell team on ways to continue strengthening this template.</p>	*
56	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	<p>Yes - Liftnow fully accepts and embraces the P-Card procurement and payment process and successfully processed a variety of transactions under its existing Sourcewell Contract for Members. There continues to be no additional cost for Sourcewell Members to use this process. We particularly see success with accepting P-Cards in our Sourcewell Service Program, where many of the transactions fall under the purchase order threshold and well within the P-Card usage thresholds.</p> <p>For P-Cards and credit cards, we use a payment processor that provides a rate that is "interchange-plus" which is tied to a daily rate. This is instead of the traditional flat rate fee structure charge by many payment processors. We have never and will never raise our prices or place any limits/restrictions on Members for any Products or Services due to higher interchange rates at any time for the duration of this contract as set forth by Sourcewell.</p> <p>However, when the interchange rate becomes sufficiently high, we may provide an additional discount to Members not to use their P-Card to avoid this rate increase, communicating this in our sales process. If a Member chooses to still use their P-Card after being extended such an offer, we will proceed with the purchase and payment processing as normal. Transactions will not be delayed due to this additional step in the payment process.</p>	*

**Table 11: Pricing and Delivery**

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcewell Price and Product Change Request Form.

Line Item	Question	Response *
-----------	----------	------------

57	<p>Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.</p>	<p>Our pricing model can be best described as a per-brand discount. Each brand has a fundamentally different pricing structure and, as such, must have different discount models. All brands are implementing some % off discounts as it relates to either MSRP (Manufacturer's Suggested Retail Price) or MAP (Minimum Advertised Price). The vast majority of our brands include freight prepaid (FOB Destination) to the Continental United States, including automotive lift brands and wheel service brands. However, we do regret that some other brands in this Proposal must charge freight because it is more instrumental to total cost. This is outlined brand-by-brand both on the "Price Summary" tab of our Excel Sheet, as well as on each brand's dedicated tab. This is done versus a discount per category to reap the maximum discounts available based on the unique price structures of each vendor partner.</p> <p>Our brands also qualify for an additional quantity discount based on the number of units ordered, or the total dollar amount. Please see our Sourcewell Master Price Sheet for a SKU-by-SKU breakdown for transparent pricing and discount structures for tens of thousands of SKUs. Please see our answer in Line Item 59 to learn more about Quantity and Volume Discounts.</p> <p>The Sourcewell Service Program follows a different pricing model and is largely expressed as flat rate pricing, although there are times where there are hourly prices, and % off of List Prices. Please see the Excel Sheet entitled "Sourcewell Service Program".</p> <p>All prices in the sheets include net prices based on the discounts. Net Prices include all administrative remittance to Sourcewell.</p>
----	---	--

58	<p>Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.</p>	<p>Liftnow is pleased to offer more brands and discounts than any other vendors, offering discounts on tens of thousands of products, up to 66.1% off of MSRP. We have broken out the discounts by brand:</p> <p>Vehicle Lifts</p> <p>BendPak Family of Brands - BendPak, DannMar, GrandPrix, QuickJack, MaxJax - 17.0% off MSRP  BendPak OE Parts - 10% off MSRP  Challenger Lifts - 33.5% off MSRP  Challenger Lifts OE Parts - 26.0% off MSRP  Coats - 35% off MSRP  Maxima - 39% off MSRP  Mahle - 51.1% off MSRP  Omer - 15.0% off MSRP</p> <p>Garage Equipment</p> <p>Air Cleaning Specialists (Includes a family of Brands for Exhaust Ventilation and Air Quality Improvement Solutions): Blue Ox Air Cleaners, CLARCOR, Clark Filter, Crushproof Hose, Dynamo Dust Collectors, Fume-A-Vent, FumeXtractors, Nederman Fume Removal Experts, Nordfab Ducting Systems, Purolator, ScandMist, Smokeeers) - 15.0% off MSRP</p> <p>Aircom - 10.0% off MSRP  Alemite - 10.0% off MSRP  American Forge &amp; Foundry - 45.0% off MSRP  Autel - 10.1% off MSRP  AutoStacker - 0.00% off MSRP  BendPak Family of Brands - BendPak, DannMar, GrandPrix, QuickJack, MaxJax - 17.0% off MSRP  BendPak OE Parts - 10% off MSRP  Challenger Lifts - 33.5% off MSRP  Challenger Lifts OE Parts - 26.0% off MSRP  Coats - 35% off MSRP  Mahle - 51.1% off MSRP  Omer - 10.0% off MSRP  Champion Compressors - 15.0% - 20.0% off MSRP  Chassisliner - 5.10% off MAP  Compressed Air Systems - 10.00% OFF MSRP  Containment Solutions - 10.00% OFF MSRP  Hein Werner Family of Companies - 20.0% OFF MSRP  JPW Family of Companies (jet, Powermatic, Edwards, Wilston, Baileigh) - 7.21% - 51.17% OFF MSRP  Lincoln Industrial/SKF - 20.0-66.10% OFF MSRP  Mattei Compressors - 25.0% OFF MSRP  NS Incorporated - 12.0% OFF MSR  Omer - 15.00% OFF MSRP  Pro-Cut 24.45%-37.87% OFF MSRP Major Pieces  Shure Manufacturing - 6.5% OFF MSRP  Surewerx Safety Equipment - 13.0% OFF MSRP  SVI (including custom parts) - 15.0% OFF MSRP  Vidir - 5.0% OFF MSRP</p> <p>Sourcewell Service Program - All pricing for the Sourcewell Service Progra is facilitated on a flat-rate and line item basis. Since most of these services are not previously offered on a Sourcewell Contract (but were offered on our Sourcewell Contract #013020-LFT with enormous success), MSRPs are not generally available. That being said, Liftnow publishes MSRPs for its inspection products. Inspection discounts range from 15.6% off of MSRP to 33.4% off MSRP for utilizing the Inspection Protection Program.</p> <p>Please ensure review of the Sourcewell Service Program Document and accompanying price sheets to reach out with any questions. Please also note that we newly revamped our price sheets for 2023 to include full color photos on every tab to create a seamless user experience for government buyers to shop.</p>
59	<p>Describe any quantity or volume discounts or rebate programs that you offer.</p>	<p>Liftnow offers discounts as a way to engage and excite different customer groups, and tailor our approach in a competitive and transparent way over-and-above the pricing terms as laid out in Line Items 57 and 58. Liftnow wants these additional discounts to be rewarding and attainable.</p>

Liftnow's major motivation behind offering quantity discounts is to attract more State Adoptions with its Sourcewell Contract. If a State were to decide to sign a piggybacking agreement utilizing the Sourcewell Contract, Liftnow would like to additionally incentivize that State to participate through customized contract incentives: Liftnow is aware that each State may have different procurement goals and objectives, which may lead to a different variety of contract incentives.

To identify which incentives best align with an Entity's respective goals and objectives, Liftnow will collaborate with each State/purchasing agency during their onboarding process. Depending on multiple factors, such as contract commitments, single award status, and market competition, our incentives may include, but are not limited to, the following options:

#### Member State Administrative Fee Structure

Additional Discounts: There are cases for both specific agencies or projects where additional discounts may best reflect the needs of the agency or project. This may include additional discounts for large projects or projects featuring a mixture of Vehicle Lifts and Garage Associated Equipment.

Liftnow offers quantity and volume-based discounts for a variety of its brands, as it did for its previous contract, and offers volume discounts that range from 0.5% up to 15%. Please see the column in our Price Sheet entitled "Quantity Discounts" on how to qualify, with volume discounts starting as low as a few thousand dollars.

Please also see select columns in the Sourcewell Service Program for Quantity Discounts.

Most notably, Liftnow is offering a brand-new volume discount structure which benefits ALL members utilizing our Sourcewell Contract, regardless of which items they purchase in our vast portfolio, or even how much they purchased. Liftnow will offer an additional tiered incentive to all Entities tied to annual incremental purchase growth. If the annual increase in Total Entity Purchases meets or exceeds annual calendar year incremental purchase growth by more than 20%, 25% or 35%, then Liftnow's discounts identified in this proposal will be increased by 0.25%, 0.5% or 1% respectively for the term of the following calendar year. These growth figures are not unattainable due to our overall growth goals which we have outlined.

Total Entity Purchases is defined as net invoice price of product purchases made by all Entities affiliated with this contract less freight, taxes, returned products and credits made by all Entities affiliated with this contract during the calendar year. Purchases from Entities who affiliate after the start of the calendar year will be included in the following year's baseline. Annually, Liftnow will calculate the Total Member Purchases figure for the preceding calendar year, beginning in the calendar year 2023 as a baseline on our existing contract #013020-LFT. Please consider the following example as outlined in the attachment "Volume Discount Table."

Additionally, as shown and previously discussed in our Sourcewell Service Program, Liftnow has now innovated two important quantity/volume based discounts. These discounts provide an Agency with an additional discount for an additional commitment, but also, in the case of the Inspection Protection Program, price stability for years for inspections:

1. Hundred-Hour Program - The Hundred-Hour Program allows Members to guarantee a minimum quantity of labor hours to Liftnow and the Sourcewell Service Program in exchange for a volume-based discount. This program can scale up to 1000 labor hours and can be quoted as a larger agreement on a case-by-case basis. 200 Hours is a 5% Discount; 500 Hours is a 7.5% Discount; 1000 Hours is a 10% Discount.

2. Inspection Protection Program – The Inspection Protection Program allows Members to pre purchase inspections over 2, 3, 4 and 5 year time horizons in exchange for a discount and price protection.

60	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	In order to provide the best solution for our customers, the process for sourcing open market or non-standard options would be the same as the process for products and services being offered under the contract. This is exemplified through our Sourcewell Service Program, which offers a variety of services previously unavailable on a predictable and stable-price basis. That being said, there are some aspects of this equipment that must be ordered "open market". As a courtesy to the Members, we arrange these services at cost-plus pricing. It is our intention with the continued success of the program to augment our Sourcewell Service Program to include these more complex services in the future and continue developing the most turnkey solutions possible for Sourcewell Members.	*
61	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	Sales of equipment, unless otherwise stated in this RFP by brand, does NOT include any ancillary services such as: Installation, Training, Removal, Receiving, Pre Delivery Inspection, Inspection, Maintenance, Unloading, Liftgate/Forklift Service or Equipment Rentals, Storage, Redelivery. Any and all of these services are available through the Sourcewell Service Program.	*
62	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	<p>Freight is offered prepaid for the majority of our brands within the Continental United States. However, as explained in the previous questions, some of our brands must charge shipping due to the nature of their products. The list of brands for which we must charge additional freight are included in the Price Summary Section of the Sourcewell Price List - Vehicle Lifts and Sourcewell Price List - Garage Equipment, along with a message on each brand's specific page stating that freight is an additional charge. Listed above, some of these brands do qualify for free freight with a certain dollar amount purchased.</p> <p>The freight, shipping and delivery for those brands where it is not already included will consist of "Freight Prepay-and-Add" terms on a quote to the Member. Liftnow guarantees the freight costs on the quote furnished to the customer prior to a purchase order.</p> <p>The customer is then invoiced for the amount that was enumerated on the final version of the accepted quote.</p> <p>On our existing contract #013020-LFT, Liftnow has never charged additional money or charges for freight after-the-fact and has shielded Sourcewell Members from freight price increases it has experienced, particularly during 2020 and 2021. Thus, in 100% of cases, Liftnow's customers have not been charged more than previously approved.</p>	*

63	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	<p>There are no requirements or restrictions that would apply to our Members in Hawaii, Alaska and the US Territories. We ship to all members located off shores. The only difference is our shipping program for the continental United States. We will use the freight program (based on applicable manufacturer, as stated above and in our attached price files) that is applicable to the port of exit and then charge the cost of delivery from the port of exit to the actual/final shipping location. This freight is charged in accordance using the terms and conditions stated in Question 62, above.</p> <p>Liftnow has experience with freight forwarders for Hawaii and Alaska. Liftnow has both an Alaska State Contract and has successfully shipped equipment to Alaska, Hawaii and the Territories.</p> <p>Liftnow drop ships the equipment to the port-of-exit (generally a freight company specializing in offshore deliveries). The freight company then stores the equipment and readies it for the next shipment from the port-of-exit in the United States (for example, on the West Coast this is generally in California for Hawaiian shipments - generally Washington for Alaskan shipments), where it arrives at the relevant port-of-entry to the offshore Purchasing Entity and is then prepared for final delivery onto a truck or flatbed (depending on the equipment). The equipment is then delivered.</p> <p>Liftnow receives container tracking information and a bill-of-lading.</p> <p>Liftnow communicates this journey to the Purchasing Entity as it develops:</p> <ul style="list-style-type: none"> <li>• Shipment from distribution facility to port-of-exit/freight company.</li> <li>• Loading of freight company onto container.</li> <li>• Arrival of container into port-of-entry.</li> <li>• Unloading of container onto final shipping method.</li> <li>• "Last mile" shipping to Entity Destination.</li> </ul> <p>Liftnow currently maintains strong relationships with a quantity of freight companies, specializing in offshore delivery and is happy to furnish any of these companies upon request.</p> <p>It is worth noting that due to the additional transit time, lead times of equipment shipping to offshore destinations of Purchasing Entities are longer than lead times of the same equipment shipping to continental destinations.</p>
64	Describe any unique distribution and/or delivery methods or options offered in your proposal.	<p>Liftnow maintains many unique distribution and delivery methods. Firstly, our brands have warehouses and shipping points all over the United States, and can serve Sourcewell members most expediently after we receive a purchase commitments, sometimes within a couple of days. For many of our smaller products, shipping can be available for an additional cost where offered by the manufacturer. Additionally, receiving, rigging, storing, and unloading are all available through the Sourcewell Service Program. This is particularly helpful in our industry where there are many heavy items, and Sourcewell Members currently value these services highly as a part of Liftnow's overall value proposition.</p> <p>Additionally, as discussed in Line Item 45, Liftnow remains the first and only currently awarded vendor in the Vehicle Lifts and Garage Equipment Category with an e-commerce and punchout store on Buy Sourcewell, which is an e-commerce platform allowing Members to procure products and services than every before. Liftnow currently has over 1,400 products available for direct purchase through Buy Sourcewell and has already begun fielding customer inquiries.</p> <p>As discussed in Line Item 27, Liftnow and its partners also hold multiple millions of combined square feet, spanning factories, distribution facilities and retail networks, all of which add to its distribution prowess. See below:</p> <p>Challenger Lifts  Factory and Distribution Facility in Louisville, KY – Approximately 140,000 Square Foot Facility  Distribution Facility in Louisville, KY – Customer Pick Ups Only  Partner Factory and Distribution Facility in St. Louis, MO - Size Unknown, Approximately 200,000 Square Feet  Partner Factory and Distribution Facility in Fort Worth, TX – Approximately 130,000 Square Foot Facility  Wholly-Owned Snap-On Factories in Asia – X00,000 Square Foot</p>

The above are all manufacturer facilities. To address distribution facilities of distributors and the “retail network”, this does not include any of the hundreds of distributor or service provider facilities throughout the country. While we do not maintain this data, this could easily be another 1,000,000+ Square Feet of Distribution Facility space.

Finally, the Sourcewell Service Program also leverages the existing

	<p>parts inventory of our Service Network. All members of our Service Network are encouraged and at times required by our vendor partners to maintain a parts inventory of commonly-requested parts. We incentivize these installers to use their existing parts inventory whenever possible, paying them an additional percentage over their cost for access to this inventory. This helps compress lead times on commonly requested parts for Members, and leads to a more seamless delivery of any service related to those parts. Otherwise, these parts can take between 24 hours and a few weeks to ship (for custom-built parts).</p> <p>By using inventory analysis of parts available, parts requested and equipment owned by Sourcewell Members, we intend on developing a predictive and preventative maintenance recommendation mechanism which will help members to stave off problems before they occur.</p>

**Table 13: Audit and Administrative Fee**

Line Item	Question	Response *
66	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell. Provide sufficient detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template.	<p>Liftnow has already executed a self-audit program that has resulted in an average of submitted sales reports 38 days early to Sourcewell for the life of its existing contract, #013020-LFT.</p> <p>The self-audit process is largely the responsibility of the Liftnow Contract Administrator for Sourcewell. This self-audit process consists of constant verification of pricing, sale reports and ensuring quarterly remittance of the appropriate administrative fee to Sourcewell.</p> <p>Pricing Verification</p> <p>Constant verification of pricing is already being done through Master spreadsheets which were uploaded for Pricing within this RFP. This Master spreadsheet makes it simple for the Liftnow sales team to utilize this pricing in conjunction with our Sourcewell Quote Template. This Sourcewell Quote Template contains all of the essential information not only for processing orders but for generating sales reports and ultimately remitting fees to Sourcewell to create a bulletproof audit trail. This includes all of the sale report information (see below), and additionally the Sourcewell awarded contract artwork to make it very clear that this is a contract-compliant quote.</p> <p>The sales team currently utilizes these standardized spreadsheets which are always the latest sheets reflecting the most updated Sourcewell pricing. Every quote is then sent to the Vice President of Public Sector Sales prior to being sent out to the customer. This is to ensure compliance. Then, this approved quote is sent out. Sometimes, an agency may have additional questions prior to a purchase order and/or ask about the pricing being current, etc. This is yet another chance prior to purchase order for Liftnow to ensure that the quote is accurate and contract compliant based on the most recent pricing, etc.</p> <p>Once a purchase order is made to Liftnow under the Sourcewell Contract (or any other contract for that matter), Liftnow again checks this information to ensure that it is</p>

		<p>correct and that the agency purchase order matches the final quote supplied. Additionally, Liftnow asks a series of questions including actual shipping address, point of contact information, etc. Liftnow has found that this extra step is crucial to ensure success considering sometimes agency purchase orders do not reflect the actual shipping information.</p> <p>There is yet another opportunity to ensure compliance at the invoicing step, where Liftnow ensures that the invoice matches the purchase order which matches the purchase order and quote. The final opportunity to ensure compliance once payment is received/revenue is recognized by Liftnow. The Liftnow Receivables Department checks this payment to ensure it is identical to the invoice, which matches the purchase order as well as the contract compliant quote, creating a single trail.</p> <p>Sale Reports</p> <p>As mentioned previously in this proposal, all of our reports for existing have not only been on time, but on average payment has been remitted to Sourcewell an average of 38 days early. Additionally, all reports contain the following fields pursuant to the Contract Template:</p> <ul style="list-style-type: none"> <li>• Participating Entity Name (e.g., City of Staples Highway Department);</li> <li>• Participating Entity Physical Street Address;</li> <li>• Participating Entity City;</li> <li>• Participating Entity State/Province;</li> <li>• Participating Entity Zip/Postal Code;</li> <li>• Participating Entity Contact Name;</li> <li>• Participating Entity Contact Email Address;</li> <li>• Participating Entity Contact Telephone Number;</li> <li>• Sourcewell Assigned Entity/Participating Entity Number;</li> <li>• Item Purchased Description;</li> <li>• Item Purchased Price;</li> <li>• Sourcewell Administrative Fee Applied; and</li> <li>• Date Purchase was invoiced/sale was recognized as revenue by Supplier.</li> </ul> <p>Proper Fee Remittance</p> <p>For prompt remittance, we simply calculate the administrative fee on each of the transactions for the quarter, and then we can either write a check to Sourcewell or set up direct deposit/ACH Transfers. Currently Liftnow utilizes direct deposit with Sourcewell. This is all made simple with a standardized Excel sheet with formulas set up. Again, our Vice President of Sales double checks the sales report and actual remittance for any computational errors or discrepancies prior to remitting.</p> <p>To date, Liftnow has had no known deficiencies in its price verification, reporting or remittance as described above.</p>
67	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	<p>The most important metric for Liftnow is customer satisfaction, which drives repeat business and ultimately revenue growth.</p> <p>If awarded another Sourcewell contract, there are many ways to gauge success. In 2020, we set out a blueprint to define KPIs (Key Performance Indicators), measure them and systematically improve upon them. These KPIs touched on quantitative ways to capture not only the obviously important metrics (revenue, conversion, etc.) but also touched on metrics designed to capture the less tangible but equally important— including response times, customer satisfaction, utilization of new products, and more. See below for the KPIs included in determining contract success, and then continue reading for a discussion on the continuous improvement of this method as we enter our second prospective contract.</p> <p>Some original KPIs from 2020 are included below and are</p>

now modified to include our next contract:

- Total Sales – Equipment Revenue
  - o What are total sales?
  - o Are they increasing over the length of the contract?
  - o Do they continue increasing from our first to second contract?
- o What percentage of customers are returning (new vs. existing customers)?
- Category Sales – Equipment Revenue
  - o What are the sales in each category?
  - o Are they increasing over the length of the contract?
  - o Do they continue increasing from our first to second contract?
- o What percentage of customers are returning (new vs. existing customers)?
- Total Sales – Sourcewell Service Program Revenue
  - o What are total sales?
  - o Are they increasing over the length of the contract?
  - o Do they continue increasing from our first to second contract?
- o What percentage of customers are returning (new vs. existing customers)?
- Attachment Rates
  - o What % of service customers are converting into customers of new equipment?
  - o What % of sales customers are fully utilizing the Sourcewell Service Program?
  - o Can these attachment rates increase over time?
- What are the sales of each Brand?
- What are the total state and local adoptions by Liftnow in the Sourcewell Contract?
  - o Are they increasing over time?
- What is our overall customer acquisition cost? (CAC)
  - o Is this different for different geographies, categories of equipment, types/sizes of agencies?
  - o Can we decrease this customer acquisition cost?
- What is the conversion rate of an interested agency via various marketing channels into a new customer?
  - o Is this number increasing over time?
- What is the average response time of Liftnow with a new customer?
  - o Is this time frame decreasing over time?
- What is the overall customer satisfaction rate?
  - o Is this number increasing over time?
- Are we maintaining the appropriate product mix?
  - o Do we need to add or modify our offerings to better serve our customer base?
  - o How is this product mix influencing overall go-to-market strategy as well as our other KPIs (stated above)?

While quality assurance (QA) is generally confused with QC (Quality Control) to describe manufacturing processes, QA can be applied to any processes. As a customer-focused organization, Liftnow successfully implements the tenets of QA (set standards, measure standards, improve standards) across Liftnow's main focus areas, which are currently: customer satisfaction and portfolio assessment. It is our unique viewpoint that these two focus areas are ultimately the drivers behind the ever-important success metrics of increasing sales in this category. In other words, solve for customer satisfaction and our product portfolio and receiving increasing and sustainable sales.

#### Customer Satisfaction

Our primary KPI (Key Performance Indicator) is general customer response rate (100%) and time to first response (<6 hours). We are currently reaching these goals.

Other KPIs to consider include:

Time-to-Quote: 2 Days for "Simple Requests" – 7 Days after site visit for "Complex Requests". Hurdle KPI is 75% for each of these requests.

Currently 100% of "Simple Requests" are being quoted within 2 days from a request for quote by any customer, regardless of product type. Currently, 60% of "Complex Requests" are being quoted within 7 days after a site visit so this is a KPI that we are looking to improve over time. The way that we are going to improve this is through more constant communication with the service provider directly after the site visit to find out what's needed.

Right now we are waiting a few days to make this contact, and many of the installer companies that give quotes are owner-operators, in that it takes them time to do their administrative work. If we can contact them sooner after their site visits we will likely meet this Hurdle KPI.

Time-to-Site-Visit: 7 Days after Request – KPI = 75% of each of these requests. Rural/Remote Areas - 10 Days after Request – KPI = 50% of each of these requests.

Complaint Rate: KPI = <0.50% of \$ orders

This complaint rate is being adhered to, and formal complaints currently stands at 0% of total volume of orders. As we increase order flow we want to monitor this KPI and keep this number below 0.50%.

Return Ratio: KPI = <0.25% of \$ orders

This return ratio is being adhered to, and currently stands at approximately 0.10% of total volume of orders. As we increase order flow we want to monitor this KPI and keep this number below 0.25%.

Overall Customer Satisfaction Rate: KPI = >90%

Overall customer satisfaction rate is not currently being measured as a % and we plan on implementing this in the near future. We have always looked to complaint rates to inform satisfaction rates, which leaves out an entire group of folks in between and we are missing out on improvement.

#### Portfolio Assessment

Portfolio assessment refers to our continuous improvement of managing our portfolio of products and services. While we refer to adding products/services as well as incorporating technological advances in our Scope of Work response, we are consistently working to answer the following questions among our suppliers to ensure that we are bringing forward a high-quality and innovative offering to the public fleets of the United States:

- Is this supplier fulfilling their brand promises of quality?
- Is this supplier at the forefront of innovation? Are they making commitments and investments to the future of vehicle service?
- Is this supplier managing their supply chain well? Is this supplier adapting to an ever-changing supply chain environment?
- Is this supplier fulfilling their duties as the manufacturer of the equipment (warranty, service, customer service, document availability, etc.)?
- Is this supplier maintaining legal and ethical business practices?

If the answer is not a resounding "Yes" to all of the questions above, Liftnow simply does not do business with them since Liftnow has an incredible amount of options to choose from in the marketplace, being the largest public-sector value-add distributor in the country.

68	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	<p>The proposed administrative fee that we will pay to Sourcewell in the event we are awarded will be:</p> <p>2.00% for Equipment Revenue</p> <p>2.50% for Sourcewell Service Program Revenue</p> <p>Administrative fee remittance will be done according to Sourcewell's Contract terms.</p> <p>Please review the document entitled "Alternative Administrative Remittance Structure" to review an optional fee structure for Sourcewell based on a couple of distinct contract scenarios.</p>	*

**Table 14A: Depth and Breadth of Offered Equipment Products and Services**

Line Item	Question	Response *
69	Provide a detailed description of the equipment, products, and services that you are offering in your proposal.	<p>Liftnow offers the most complete line of vehicle lifts, garage equipment and fleet maintenance equipment anywhere in the United States with nearly 100,000 SKUs. This directly opposes the traditional Manufacturer’s business model, some of whom train their networks to falsely condemn old equipment in order to supply new equipment. Manufacturers might also artificially inflate repair estimates to make the difference between repairing and replacing equipment smaller, inducing purchase of a new unit.</p>

Line Item	Question	Response *
10	Provide a brief history of your company, including your company's core values, business philosophy, and industry longevity related to the requested equipment, products or services.	<p>Mohawk Lifts (originally Mohawk Resources Ltd) is a 42-year-old fabrication and manufacturing company of vehicle service lifts and accessories. Mohawk is the second oldest member of the Automotive Lift Institute (<a href="http://www.autolift.org">www.autolift.org</a>). Currently, Mohawk is the only company that offers a full range of lifts (2 post, 4 post, mobiles, heavy duty) that is 100% made in the United States, at our facility in Amsterdam, New York. Mohawk's core value is designing and manufacturing the safest, heaviest duty lift in all categories on the market. We believe you cannot cheaper a design to shortcut safety. Mohawk manufactures and sells lifts in an environment that values Safety, Integrity, Commitment and Teamwork. Mohawk lifts last the longest because of our focus on using domestic steel. Mohawk's lifts have more steel than competitive lifts to ensure safety and durability. Mohawk's average company tenure is 15 years. These values combine to create exceptional value, the highest quality, and the lowest cost of ownership in the industry. (Exhibit #2 and #3)</p> <p>Additionally, Mohawk acts as the government sales arm for several other complimentary equipment companies within the capital garage equipment industry, some with relationships as long as 22 years. Mohawk continues to be the industry leader in heavy duty lift offerings, and routinely has been the top performer on all MAS contracts.</p>

11	What are your company's expectations in the event of an award?	<p>Mohawk's continued expectations as the top Multiple Award Schedule Sourcewell reporting lift vendor to Sourcewell are:</p> <ul style="list-style-type: none"> <li>• A continuation of successful sales and quarterly reporting (Exhibit # 4), with no gaps between award #3 and award #4</li> <li>• Support and promotion of the Sourcewell Multiple award schedule. Mohawk has earned a Sourcewell award for the past 14 years.</li> <li>• Mohawk will continue to attend numerous government orientated trade shows and continue to supply marketing, sales, and installation support to Sourcewell members. Mohawk assists or directs members (often states for statewide adoptions) to communicate directly with Sourcewell members when they have questions that are better answered by a fellow government agency.</li> </ul> <p>For example, Mohawk introduced NJPA (now Sourcewell) to the National Council of State Fleet Administrators (NCSFA) when Tony Glenz was Mohawk's contracting officer. When Mohawk's contracting officer changed to Kelly McAllister, Mohawk made sure Kelly knew all the important people within NCSFA. This tradition continued in 2023 with Andy Campbell. NCSFA members are the advocates to state CPOs to adopt the Sourcewell contract which is why Mohawk leads other vendors in state level adoptions and at H20 was awarded a Sourcewell legendary leader award (Exhibit #5). Likewise, Mohawk has made numerous introductions to Mr. McAllister when he chose to attend the NYC Fleet show (NYC has the world's largest police, fire, sanitation, and transit agencies). See picture Exhibit #6</p> <ul style="list-style-type: none"> <li>• 100% of Mohawk's sales and sales administrative staff have attended Sourcewell U, with full intention of future sales staff attending upcoming sessions.</li> <li>• Continue learning and networking by attending the annual H2O conference. Mohawk will continue learning from other vendors, Sourcewell staff, and sharing positive experiences with others (by example being an H20 panelist on Scott Carr's panel titled "How to Be a Good Sourcewell Vendor").</li> <li>• Hoping that Sourcewell continues to produce short education videos for the sales team such as the video just released "starring" Sourcewell's Nick Trout. This video is now online at <a href="http://www.govlifts.com/sourcewell">www.govlifts.com/sourcewell</a> and has been shared with all Mohawk salespeople and value-added partner supply companies.</li> <li>• Reinforce the consultative relationship developed between Mohawk's staff and the State's Contracting Officers up to and including state adoptions.</li> <li>• Mohawk's continued service as a long-time member of the Sourcewell Vendor Advisory panel.</li> <li>• Mohawk will continue to seek statewide adoptions. Currently 8 states and soon to be 9 (NY, TX, OH, GA, NV, NJ, MD, and MO) have adopted Sourcewell as their State contract as these states equal over 30% of the US population. (Exhibit # 7 and # 8)</li> </ul>
12	Demonstrate your financial strength and stability with meaningful data. This could include such items as financial statements, SEC filings, credit and bond ratings, letters of credit, and detailed reference letters. Upload supporting documents (as applicable) in the document upload section of your response.	<p>A. Please see two attached letters from Mohawk financial institutions. (Exhibit #9)</p> <p>B. Mohawk is a 42-year-old privately held LLC, of which Steve Perlstein, President, and CEO, is the largest equity shareholder and active in the business every day. As a privately held LLC, Mohawk does not share financial data. Yet in 14 years of being an awarded Sourcewell vendor Mohawk has always delivered (including after a \$1.9M fire in the Mohawk factory of which Sourcewell was immediately notified). Financial strength is what made the fire something we were able to deal with as insurance companies are not known for promptly paying claims.</p> <p>C. Financial strength and timely delivery coincide and includes the period through COVID and the supply chain crisis of COVID. Much of the reason why Mohawk Lifts and Mohawk's distribution partners (Hunter, Gray and Westmatic) did not have extended lead times during the pandemic is due to all being US based and financially healthy manufacturers.</p> <p>D. Mohawk has and will continue to reinvest in the business over the next couple of years, spending \$1.6 Million dollars on equipment and infrastructure improvements. Some of these improvements include the purchase of a new plasma steel cutting table with an exhaust extraction system and scrubber, the purchase of a new vertical saw, and future electrical upgrades within the facility. (Exhibit #10)</p> <p>E. In May of 2022/23, Mohawk was awarded a \$300,000 Empire State Development Grant to continue to expand our operations. The news story can be seen at <a href="https://wnyt.com/top-stories/amsterdam-home-to-last-full-line-car-truck-lift-manufacturer-in-us/">https://wnyt.com/top-stories/amsterdam-home-to-last-full-line-car-truck-lift-manufacturer-in-us/</a> (Exhibit #11).</p> <p>F. When member agencies require it, Mohawk has no issues securing bonding to satisfy the purchasing agency. An example is a recent order for Wa-Nee Community Schools located in Nappanee, IN. A \$270,000 bid, surety, and performance bonds were required.</p>

13	What is your US market share for the solutions that you are proposing?	Per the automotive lift institute by-laws, Mohawk is not able to disclose the industry size, or the number of lifts shipped. What we can disclose is Mohawk represents less than 10% of the total North American lift marketplace; However, Mohawk has a dominant presence in the mid-duty/heavy-duty market and the overall government Marketplace. Proof of Mohawk's dominance can be seen on Exhibit #4. These pie charts for the 2017-2022 fiscal years show total vendor spending for the Vehicle Lifts & Garage Related Equipment category on three Multiple award schedule contracts. Mohawk market share of the government marketplace is 37% and the top vendor on the Sourcewell, GSA, and NASPO contracts	*
14	What is your Canadian market share for the solutions that you are proposing?	Mohawks growing marketplace in Canada is 4.4% of Mohawks domestic business.  Mohawk knows the Canadian market is approximately 10% of the US marketplace yet: 1. Cooperative procurement is not yet as widely accepted across Canada. 2. Cooperative procurement doesn't apply to the province of Quebec (22% of the Canadian population) 3. With the introduction of Canoe, Mohawk is growing out our Canadian business presence. 4. Canadian federal government agencies do not have a contracting vehicle such as GSA, yet Mohawk still supplies lifts to all CFB (Canadian Forces Base) coast to coast.	*
15	Has your business ever petitioned for bankruptcy protection? If so, explain in detail.	Mohawk has never petitioned for bankruptcy protection	*
16	How is your organization best described: is it a manufacturer, a distributor/dealer/reseller, or a service provider? Answer whichever question (either a) or b) just below) best applies to your organization. a) If your company is best described as a distributor/dealer/reseller (or similar entity), provide your written authorization to act as a distributor/dealer/reseller for the manufacturer of the products proposed in this RFP. If applicable, is your dealer network independent or company owned? b) If your company is best described as a manufacturer or service provider, describe your relationship with your sales and service force and with your dealer network in delivering the products and services proposed in this RFP. Are these individuals your employees, or the employees of a third party?	Mohawk is both a manufacturer and government distributor of other Lifts and capital equipment for government garages.  First and foremost, Mohawk Lifts is a 42-year-old manufacturer of vehicle lifts. Mohawk is a pioneer in the government contract space for vehicle lifts and related garage equipment.  Mohawk has leveraged our government expertise to bring in other manufacturers under our contract to help support government agencies with the most popular products every garage requires. Mohawk serves as a government reseller of Hunter Engineering, with a national network of 900 independent sales and service representatives (plus 30 regional managers assisting the independent reps). Other manufacturers such as Westmatic and Gray salespeople are factory employed sales reps. For this 2023 RFP Mohawk has vetted five new supply partners companies and with the endorsement of each companies' senior management, if awarded Mohawk will train their sales staff in the use of government contract sales.  For 25 years Mohawk has acted as the government reseller of different types of capital equipment for repair garages (Corgi tire changers was first prior to switching to Hunter). Exhibit #12 are the authorizations from the manufacturers we've presented to assure product supply to Sourcewell members as the government sales channel.  The services provided under this award (installation when desired) are performed by the independent representatives or factory employees of each value-added supply partner.	*
17	If applicable, provide a detailed explanation outlining the licenses and certifications that are both required to be held, and actually held, by your organization (including third parties and subcontractors that you use) in pursuit of the business contemplated by this RFP.	Mohawk Lifts is the second oldest member of the Automotive Lift Institute (ALI or www.autolift.org). To be a member of the ALI Mohawk holds 3rd party lift certifications to the ANSI/ALI-ALCTV safety standard. ANSI is the American National Standards Institute, which is administered and tested by third party NRTL's (Nationally Recognized Testing Laboratories) verifying lifts meet the ALI/ANSI standard. ALI certifications include quarterly unannounced factory visits from the test labs verifying compliance and the factory's quality assurance that no changes in the products that have been certified have occurred without retesting. Once ALI certification has been attained for each specific certified lift, type, capacity and option, Mohawk has never "lost" a certification.  The bylaws of maintaining an ALI membership are the mandate that at least 75% of all lifts sold be ALI certified to meet the ANSI standards for the safe design of vehicle lifts. While no ALI member has 100% of their offered lifts ALI certified, Mohawk always exceeds the 75% minimum. Safety is Mohawk's #1 priority when designing, welding, and selling lifts. Lifts supplied by long term partner resellers Hunter Engineering and Gray manufacturing are also ALI certified to meet this one and only nationally recognized safety standard for vehicle lifts.	*
18	Provide all "Suspension or Debarment" information that has applied to your organization during the past ten years.	In Mohawk's 42 years, Mohawk has never been suspended, disbarred, nor asked to leave a job site.	*

**Table 3: Industry Recognition & Marketplace Success**

Line Item	Question	Response *
19	Describe any relevant industry awards or recognition that your company has received in the past five years	<ul style="list-style-type: none"> <li>Exhibit #4 shows Mohawk as the leading supplier of vehicle lifts and equipment of the Sourcewell award, the GSA award, and the NASPO Value Point award. While none are industry awards, the numbers shown are a statement of fact and show why member agencies want to buy Mohawk.</li> <li>Exhibit #5 shows Mohawk as one of the few Sourcewell Legendary Leaders award recipients presented in 2018 by then contracting officer Tony Glenz.</li> <li>During his tenure as president of WSCA (pre-name change to NASPO), former Nevada Chief Procurement Officer, Greg Smith presented Mohawk with the first and only NASPO Vendor of the year award See Exhibit #13.</li> <li>Motor Magazine has an annual award titled Top Twenty New Tools and Inventions. In 16 years, Mohawk Lifts is the most awarded lift manufacturer and has received this industry award 6 times. (Exhibit #14)</li> <li>Mohawk is the second oldest member of the 77-year-old Automotive Lift Institute (<a href="http://www.autolift.org">www.autolift.org</a>). ALI is a trade association of 20 different lift manufacturers dedicated to vehicle lift safety. Part of being a member of ALI is that 75% of all lifts shipped be ANSI (American National Standards Institute) certified. Mohawk always meets this monthly percentage. ANSI certification is recognition based on a national testing lab verifying the lifts meet the ANSI standard. ALI certification is not an award, but a statement of quality, and lift safety conformance.</li> <li>Supply partner Liftpoint (manufactured by Mohawk Lifts) has just been awarded Product of the year from MaterialHandling247.com. (see announcement Exhibit #15)</li> </ul>
20	What percentage of your sales are to the governmental sector in the past three years	Measured in number of lifts sold, Mohawk Lifts sells 22% to government agencies. If measured in dollars, Mohawk is approximately 50% of dollar volume (large truck lifts cost much more than small car lifts).
21	What percentage of your sales are to the education sector in the past three years	Of Mohawk's 50% of dollar volume sales into the government sector, 37% of those sales are sold to Vo-Tech Schools, High Schools, and Universities.

22	<p>List any state, provincial, or cooperative purchasing contracts that you hold. What is the annual sales volume for each of these contracts over the past three years?</p>	<p>NASPO  2020 \$7,115,778.00  2021 \$9,556,211.00  2022 \$12,857,551.00  2023 (thru 3rd Qtr) \$6,839,389.00</p> <p>Sourcwell (includes state adoptions)  2020 \$7,560,162.00  2021 \$12,04,314.00  2022 \$15,428,886.00  2023 (thru 3rd Qtr) \$18,084,678.00</p> <p>NRECA  2020 \$268,309.00  2021 \$42,850.00  2022 \$0  2023 (thru 3rd Qtr) \$106,674.00</p> <p>Exhibit #4 shows the spending of the 3 largest MAS awards for the past 5 years.</p> <p>All of Mohawk's MAS (Multiple award Schedule) awards ranging from Sourcwell, GSA, NASPO, and NRECA offer the same exact discount off list with the same terms and conditions. Unlike some, Mohawk is not a vendor offering different discounts, different freight, or different terms and conditions on different awards. Mohawk's offer includes prepaid freight. Lifts are a heavy commodity and freight is expensive.</p> <p>Mohawk has been a Sourcwell awarded vendor for 3 contract periods (14 years). Mohawk has eight statewide adoptions of the Sourcwell award (NY, NJ, NV, MO, MD, TX, MD, and GA) with a 9th state in process. With Mohawks best product value, company history, product designs and certifications, Mohawk is always the top vendor in terms of contract usage.</p> <p>As seen from Mohawks offering (Exhibit #16) from a prior NASPO award, Mohawk has never had the largest discount percentage. Discounts are a marketing tactic vs a sales issue. This is the reason that scoring points for the discount percentage offered should not be used for this award.</p> <p>Mohawk is a vendor of the NASPO vehicle lift and related garage equipment contract since first introduced in 2006. Exhibits #17 and #18 are the reported spend of the two NASPO contracts since established in 2006. Please note that regardless of the discount percentage offered, Mohawk is the leader in reported spend on both awards. (Prior to NJPA ever establishing the first vehicle lift award). On no MAS contracts does Mohawk offer the highest discount percentage.</p> <p>Visit Home - NASPO ValuePoint to look at the vehicle lift contract. Mohawk has 27 different state adoptions, with the next closest vendor to Mohawk at 17, while the lowest Vendor has 5 adoptions. Mohawk always seeks statewide adoptions.</p> <p>Sourcwell Statewide adoptions, the 8 states (soon to be 9) make up over 30% of the US population. These statewide adoptions are a "license" that allows our national reps to be successful in the government marketplace and continually finish as the #1 government supplier.</p> <p>Former Minnesota state procurement person and current Sourcwell contract development officer Mike Sutton has told Steve Perlstein, President of Mohawk Lifts, that Mohawk is the most state-centric vendor he has met. Exhibit #4 shows Mohawks leadership within the government marketplace at 37% and sales by Mohawk as a percent of total contract spend.</p> <p>The National Rural Electric Cooperative Association (NRECA) is made up of 700+ North American electrical cooperatives. Most have fleets and fleet repair garages. Mohawk introduced Sourcwell's head of contracts, Tom Pertulla and NRECA to each other to share other contracts given the two organizations are similar. The relationship with NJPA and NRECA didn't last (likely because of former leadership of NRECA), yet many NRECA members remain active Sourcwell members.</p> <p>Mohawk oldest cooperative award is HGAC at 22 years with multiple 2- or 3-year awards. HGAC's award is not inclusive of freight and reports a small fraction of Sourcwell reported sales. The only agencies using HGAC are those committed to using HGAC and not the less expensive Sourcwell award.</p>

23	List any GSA contracts or Standing Offers and Supply Arrangements (SOSA) that you hold. What is the annual sales volume for each of these contracts over the past three years?	<p>GSA  2020 \$1,071,000.00  2021 \$1,139,320.00  2022 \$1,909,294.00  2023 (thru 3rd Qtr) \$1,794,430.00</p> <p>Mohawk has held a GSA award for 30+ years (Exhibit #19).</p> <p>Before either the Sourcewell or NASPO awards were in place, the GSA contract became the basis of award of Mohawks CMAS (California), TXMAS (Texas), LAMAS (Louisiana), New York, New Jersey, Florida (for 10 years), Nevada and Ohio contracts. Today, Mohawk has transitioned NY, NJ, OH, MO, NV, MD, and GA contracts to Sourcewell as the basis of these state contracts. Renewal of these statewide contract adoptions and other are expected upon re-award to Mohawk of the Sourcewell award.</p> <p>Additionally, if Mohawk receives the highest score on this Sourcewell RFP, the state of West Virginia will adopt the Mohawk contract with a Sourcewell participation agreement. This will save procurement funds that have been recently wasted at West Virginia Department of Highways, West Virginia State Police, and other equipment recently sold through an MRO contract</p>	*

Table 6: Ability to Sell and Deliver Service

Describe your company's capability to meet the needs of Sourcewell participating entities across the US and Canada, as applicable. Your response should address in detail at least the following areas: locations of your network of sales and service providers, the number of workers (full-time equivalents) involved in each sector, whether these workers are your direct employees (or employees of a third party), and any overlap between the sales and service functions.

Line Item	Question	Response *
-----------	----------	------------

26	Sales force.	<p>Mohawk maintains our government leadership position based on a combination of factory direct employees spread nationally, with responsibilities across Canada, working hand in hand with Mohawks independent dealers. Mohawk and each supply partner has a various number of sales and service providers across North America. Mohawk has 4 internal sales representatives and a network of 150+ independent distributors and resellers nationwide (Exhibit #21 is a partial list of Mohawk dealers. A complete list available upon request yet disclosing the entire list (as this is a public document) can give competitors a "shopping list" of potential resellers), Hunter Engineering has 900+ representatives, Westmatic (Large Vehicle Washers) has 4 people across the U.S. and Canada while Gray Manufacturing has 4 factory government focused sales representatives.</p> <p>The overlap between companies' sales and service providers is a symbiotic relationship that increases overall business. An example is when an architect contacts Mohawk for lift specs for a new building, Mohawk contacts the area Mohawk reseller and joint partner suppliers to also have the sales representatives offer their specific products through the Sourcewell (often state adopted) contract. Likewise, the partner supplier field reps inform Mohawk if a transit agency needs not only the specific equipment they offer (and Mohawk quotes) but informs Mohawk if this same agency also needs a lift. Of the products offered within Mohawk's Sourcewell Catalog (exhibit #1), none of these companies have competitive products, yet all the products are needed by any garage. Since there are no competitive products there's never an issue with disclosing information. A great example is Pinellas Transit who procured \$65,000 in Hunter equipment, but with info from the Hunter representative also purchased sixteen 50K capacity Mohawk transit bus lifts. The same symbiotic relationship occurs with other supply partners.</p>
27	Dealer network or other distribution methods.	<p>Mohawk has a dealer network of 150+ Distributors and resellers nationwide (Exhibit #21).</p> <p>All Mohawk resellers, distributors and value-added suppliers' sales forces have been and continue to be trained on the successful use of nationwide government to government procurement MAS contracts. Many have attended Sourcewell U's, or Sourcewell sales accelerators to gain further insight into the government marketplace. When visiting a garage, distributors review the entire fleet being serviced and suggest which lift choices (or other equipment) and options are best suited for the agency's needs. See exhibit #22 as a sample member agency proposal that includes the lift, options, and later became a purchase order.</p> <p>Distributors can remove worn out or obsolete lifts, replace them with a current Mohawk model and train the shop technicians in the proper and safe use of the lifts. Hunter equipment is always sold, delivered, installed, and trained, with 500 nationwide dedicated installation and service reps all equipped with a vehicle stocked with the most common repair or replacement parts. These vehicles have an average value of \$40,000 to \$60,000 worth of equipment.</p> <p>As the name implies, distributors and dealers are Mohawks (and other supply partners) representatives in their respective sales areas. All who work with Mohawk have been educated and understand the benefits of Mohawk being the "awarded vendor of record" and how a cooperative procurement contract benefits their sales strategy in their specific geographic sales areas. Mohawk as the named and awarded vendor of record permits timely and correct quarterly reporting as opposed to asking groups of independent resellers if any of their sales of the last quarter went to any government agencies. Mohawk is always sure the proper sales figures and administrative remittance is sent to Sourcewell. As references, please ask our current Supplier Development Specialist, Jill Park, or any prior Sourcewell contracting officer.</p>
28	Service force.	<p>Service calls happen in 1 of 2 ways.</p> <p>The customer (government or private sector) calls the local Mohawk distributor as the two have established a relationship. Parts are available from the distributor. If needed, the service call is taken care of and the distributor invoices Mohawk for any component or time spent on site that was covered under the warranty.</p> <p>Or a lift user may call the Mohawk factory service dept and receive technical diagnosis over the phone. Mohawk's service department stocks dedicated service parts (exhibit #23) and can send out parts to fulfil service requests immediately and dispatch an area service provider.</p> <p>Mohawk's in-house service team is comprised of 4 people, a service manager, a field service manager (who working "hands on" with the reseller's service people), a dedicated parts associate and a person on the plant floor responsible for fulfilling and shipping service orders. Mohawk annual part sales as a percentage of Mohawk's overall business is minimal based on the longevity and design of a Mohawk Lift</p>

29	Describe the ordering process. If orders will be handled by distributors, dealers or others, explain the respective roles of the Proposer and others.	<p>As explained in response #27, all Mohawk distributors and supply partner networks understand the value of cooperative procurement and benefits of Mohawk being the awarded vendor. Mohawk is constantly educating the sales forces to continue to grow our and our value-added partners sales successes while filling the needs of Sourcewell member agencies. It's clear that not all lift manufacturers educate the sales force, which is another reason that Mohawk (not the largest lift manufacturer) continues to lead all vendors in the government marketplace. (Exhibit #4)</p> <p>When an order is received either via mail, fax, or email by Mohawks order management team it is matched with the area distributors/resellers quote and entered into Mohawk's ERP system. If the area distributor has that lift in their warehouse it is promptly delivered to the end customer and installed (if installation was requested). After installation the end customers "signs off" on the training and installation paperwork. This "sign off" states their staff was trained in how to safely operate the lift, and the area distributor sends that paperwork back to Mohawk's order management team. Mohawk then bills the government agency. The same applies to value added supply partners.</p> <p>If the lift ordered is a built-to-order lift, the area distributor and government agency will supply Mohawk's team with the signed data sheet (exhibit #24). This will act as the "build sheet" as the lift(s) are being fabricated. The order will be scheduled, and a delivery date will be communicated to the distributor and agency buyer.</p>
30	Describe in detail the process and procedure of your customer service program, if applicable. Include your response-time capabilities and commitments, as well as any incentives that help your providers meet your stated service goals or promises.	<p>Customer Service is priority #1 at Mohawk. Senior management embraces customer service so that all at Mohawk "take ownership" of the work they do. (See Exhibit #25)</p> <p>Mohawk believes in providing prompt responses to all customer inquiries. Telephones are answered by a live person. If a call is missed, the message is promptly responded to. Mohawk has protocols for gathering customer information and relaying that inquiry to the appropriate internal department or field service representative. Most questions are resolved in the same business day. For those that require additional time or attention, Mohawk has follow-up protocols to ensure the inquiry is completed to full customer satisfaction.</p> <p>As to "incentives" that help Mohawk and our dealers respond to customer service issues. (Exhibit #26)</p> <ul style="list-style-type: none"> <li>Quarterly the entire Mohawk factory gets together for a catered lunch to go over the previous period's performance.</li> <li>Mohawk "celebrates" employee anniversaries by compensating staff on their 1 year, 5, 10 (+++) years of service at Mohawk. Last spring one 40-year employee received a tenure bonus of \$4500.</li> <li>Mohawk manufacturing employee incentives are based on meeting our customer service commitments for on-time delivery.</li> </ul>
31	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in the United States.	<p>Evidenced by the longest established Sourcewell vendor and leading reporting vendor in the lift category, Mohawk is fully able to conduct business and provide products and services to Sourcewell members. Mohawk is always willing and eager to continue the relationship and growth of the Sourcewell award by EARNING the member business. Mohawk has completed transactions with member agencies nationally, requested agencies to become Sourcewell members before accepting orders and has attained 8 state adoptions of the Sourcewell award (soon to be 9 adoptions). State adoptions serve as a statewide contract in these 8 states. Mohawk continues to seek statewide adoptions nationally.</p> <p>Acknowledged from former contracting officer Kelly McAllister is when Mohawk attains a statewide adoption, most other awarded vendors also automatically receive the same statewide adoption although they've done nothing to earn the adoption. Whereas, Mohawk has engaged state central procurement to earn the statewide adoption. The competitive vendors and Sourcewell are the beneficiaries. Mohawk accepts this as a "cost" of Mohawk achieving another statewide adoption.</p> <p>Another example of willingness came about on Friday afternoon (11/17) at approximately 3PM. Steve Perlstein, Mohawk's President, received a call from Sourcewells Mike Domin. Mr. Domin inquired about Mohawk's willingness to extend our NYS state adoption for an additional year. This request came from NYS OGS (Office of General Services) at the request of OGS's Christine Anderson who works with Todd Gardner under Wendy Reitzel, the OGS director for services and commodities (wendy.rietzal@ogs.ny.gov). (Exhibit #7)</p>

32	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in Canada.	<p>Across Canada, Mohawk has several sales/service and installation representatives. Supply partner Hunter Engineering has 90 different reps, Westmatic has two plus independent area service and installation representatives.</p> <p>As previously described, all supply partners have an adequate number of representatives to cover all of Canada.</p> <p>An example of Mohawk's ability to provided products and Services within Canada is every Canadian Department of National defense base from the Maritimes to the western provinces have a Mohawk 50,000lb. capacity four post lift and a 26,000lb. capacity two post lift.</p> <p>From a Canadian federal perspective, while Mohawk has 8 highly coveted National Stock Numbers (NSN's) assigned to Mohawk by the U.S. Dept. of Defense, the Canadian Military has assigned 3 additional NSN's numbers to three different Mohawk lifts. Included, are some examples of recent Canadian orders (Exhibit#27).</p>	*
33	Identify any geographic areas of the United States or Canada that you will NOT be fully serving through the proposed contract.	None – Mohawk can provide all products, installation, and service for all geographic areas. The more remote areas of the continent are not as easily serviced as the more populated areas, yet there is no part of North America that will not be fully served. Examples include lifts sent to Prudhoe Bay, Nome or Kotzebue Alaska or lifts shipped to Cold Lake, Alberta or CFB (Canadian Forces Base) Alert on Ellesmere Island as the world's most northerly, year-round inhabited place on earth (500 miles from the North Pole).	*
34	Identify any Sourcewell participating entity sectors (i.e., government, education, not-for-profit) that you will NOT be fully serving through the proposed contract. Explain in detail. For example, does your company have only a regional presence, or do other cooperative purchasing contracts limit your ability to promote another contract?	<p>All government agencies are served by the Sourcewell award. Mohawk is the longest awarded vendor of the vehicle lift and equipment category. During Mohawk's tenure as a Sourcewell vendor, we have provided Mohawk lifts, Hunter Equipment, Westmatic vehicle washers and Gray portable shop equipment to schools, universities, transit agencies, water/sewer districts, county/city/state agencies, and not for profit agencies.</p> <p>Mohawk has a GSA contract as well as a NASPO Valuepoint award. None of these other contracts limit Mohawk's ability to promote one MAS award over another</p>	*
35	Define any specific contract requirements or restrictions that would apply to our participating entities in Hawaii and Alaska and in US Territories.	Agencies in Hawaii, Alaska, US territories, and some parts of Northern Canada do have freight restrictions. Mohawk only pays the freight to the closest US port and the agencies are required to pay freight charges to their end destinations like Nome, or Kotzebue Alaska (both extremely remote areas). People who live in these remote areas are accustomed to paying more for everything based on the remoteness of their locations.	*

Line Item	Question	Response *
36	Describe your marketing strategy for promoting this contract opportunity. Upload representative samples of your marketing materials (if applicable) in the document upload section of your response.	<p>1. Contract Announcement — Mohawk intends to commence our contract opportunity by announcing the achievement in the following ways:</p> <p>a. Corporate Website MohawkLifts.com — Prominently display the announcement on the home page top hero section of our corporate website that links to a press release describing the award and contract parameters. MohawkLifts.com is visited daily by multiple procurement agencies and end users.</p> <p>b. Social posts — The same press release to be posted to our growing audience of subscribers on Facebook and LinkedIn.</p> <p>2. Print materials —</p> <p>a. Sourcewell logo prominently shown — As with previous awarded contracts, the Sourcewell logo will be prominently displayed on the back page of every product brochure, catalog, and flyer (see Exhibit #28)</p> <p>b. Trifold brochure/print mailer — Mohawk intends to update and distribute cooperative procurement trifold brochures for Mohawk sales reps and partner supply firm's sales reps to utilize as leave-behinds when visiting with agency reps. The compact nature of the trifold also makes for an excellent direct mailer to send at fiscal year-end or the start of new budget years. (see Exhibit #29)</p> <p>3. Trade shows — Mohawk exhibits at many national and regional government-oriented trade shows as well as sponsorship support to a variety of organizations. In both cases, Mohawk intends to prominently display the Sourcewell logo in appropriate trade exhibit and sponsorship materials.</p> <p>a. Trade show list — With a proud history of 30+ years of participation, Mohawk intends to continue exhibiting at the American Public Works Show (now called PWX), APTA (American Public Transit Show), and NTEA Work Truck Show. Additionally, Mohawk will continue to attend several regional trade shows such as the NYC Fleet show (see Mohawk's Steve Perlstein and Sourcewell's Kelly McAllister in Exhibit #6), the New Jersey League of Municipalities, and other regional shows.</p>

b. A true RELATIONSHIP — Mohawk deeply values the relationships formed with Sourcewell over the course of our rich histories together. It would be remiss if we did not share an anecdotal example:

For two years, Sourcewell could not acquire booth space at the NTEA Work Truck Show. Mohawk sold a 10 x 10' exhibit area at the end of our joint Mohawk/Hunter booth. This gave Sourcewell the ability to meet with its member agencies. The third year Sourcewell acquired its own booth. (see Exhibits #30 from the show).

c. Let the Sourcewell flag fly (and magnets) — Mohawk proudly displays Sourcewell flags and magnets at all appropriate trade events (see Exhibit #31).

• One year, Mr. Duhn and Mr. McAllister came to Albany to attend the NYS OGS Gov Buys show only to realize the Sourcewell flags and magnets were left behind at their previous trade show. Mohawk provided Duhn and McAllister with extra Sourcewell flags or magnets for Duhn and McAllister to give other exhibitors.

4. Email — Mohawk intends to send promotional e-mails at key times throughout the year to our growing database of existing customers and prospects. This list consists of government fleet managers, procurement specialists and purchasing agents (see Exhibit #32).

5. Trade Publications — Mohawk advertises regularly and intends to include the Sourcewell logo prominently in several government fleet trade magazines, including Fleet Maintenance, Government Fleet, and School Transportation News. (see Exhibits #33,34 & 35).

6. Association partnerships — Mohawk is a 20-year member, sponsor, and participant in the National Council of State Fleet Administrators (NCSFA).

a. A history of introductions — Years ago, Mohawk encouraged Sourcewell to join the NCSFA. After Sourcewell became an NCSFA member, it was a natural fit for Mohawk to make sure Mr. Tony Glenz was properly introduced within the association. This tradition continued when Mr. Kelly McAllister took over the contract, and in 2023 with Mr. Andy Campbell.

7. Independent pro-cooperative procurement organizations — Mohawk participates with a growing number of independent public procurement advisor organizations that facilitate relationships between buyer and supplier. They are an excellent, neutral, and informative resource for government buyers to better understand cooperative procurement to make informed purchasing decisions. Most recently, Mohawk has been listed with the following organizations:

a. Procurated — Touting over 85,000 verified government, education, and non-profit users, Procurated is a neutral ground for buyers to explore and provide honest supplier reviews for others to see. Mohawk is currently 1 of 3 lift manufacturers ranked with an average rating of 4.9 out of 5 stars based on customer satisfaction and timely responses. (Exhibit #25)

b. Pavillion — Pavillion praises its ease of use for buyers to find the right match in search results, and then explore purchasing options.

Mohawk intends to actively participate in pro-cooperative procurement organizations like these as part of its continued contract marketing strategy.

8. Easy purchasing process — When a prospect receives a Mohawk quote, they are provided with easy-to-understand reference items that include the Sourcewell award or state adoption, their agency member number, and an itemized list of products that includes their discounted and delivered Sourcewell member price (see Exhibit #22).

9. Website (GovLifts.com) — At the epicenter of Mohawk's contract marketing strategy is the use of GovLifts.com featuring Mohawk, Hunter Engineering, Gray and Westmatic products. This site is truly one-of-a-kind and is unrivaled in the vehicle lifts and related garage equipment marketplace. It provides just the right balance of educational materials, ease of use, contract terms, pricing, and product information in order for buyers to make informed purchasing decisions. Some of the features include:

a. Home Page — Map showing various contract types including alternate contracts available to public agencies. Updates are made in near real-time.

b. Easy access to Sourcewell's dedicated page — Your page includes information on Sourcewell Award Number, Terms, Products, Pricing, FAQs, Member List, and more. Nick Trout's Sourcewell Overview video has been recently added and prominently displayed under our suite of product offerings.

c. 1000's of pictures (MohawkLifts.com/pics) — An excellent due diligence resource to visually compare Mohawk offerings to other options for customers to validate purchasing decisions.

10. Mohawk is Sourcewell's #1 advocate for cooperative procurement!

Using the old NJPA (and Sourcewell) saying; There are two questions; What are you going to buy? And how are you going to buy it? Sourcewell and cooperative procurement is the answer.

When a need arises, fleet managers know what they need and the quality they seek. Yet when cooperative procurement isn't used, a bid ensues.

A "bid" is a referendum on who offers the lowest price, or largest discount. Mohawk's sales reps and partner supplier reps have been taught that an invitation to bid is an invitation to lose as well as an invitation to competitors. Too often the results are not the

		equipment the fleet manager wanted. Procurement departments purchasing at the lowest price or largest discount does not serve the needs of their agencies. With this in mind, the last component of Mohawk's contract marketing strategy includes education. Mohawk actively seeks out speaking opportunities to educate agencies on the benefits of Sourcewell and cooperative procurement.	
37	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	<p>1. Website Assets — Mohawk's government marketing activities are primarily centered around the in-house development, maintenance, and monitoring of following websites:</p> <ul style="list-style-type: none"> <li>a. <a href="http://www.govlifts.com">www.govlifts.com</a> — Its purpose is specifically for making the complex decision-making and procurement process easy for everyone who participates in the government buying chain of vehicle lifts and associated garage equipment.</li> <li>b. <a href="http://www.mohawklifts.com">www.mohawklifts.com</a> — For government purchasers, our main corporate website links off GovLifts.com and showcases an expanded view of each specific lift model.</li> <li>c. <a href="http://www.mohawklifts.com/pics">www.mohawklifts.com/pics</a> — Also links off GovLifts.com, this site is an excellent due diligence resource to visually compare Mohawk offerings to other options in order for customers to validate purchasing decisions.</li> </ul> <p>Technology Used: All three sites are built in WordPress and are in accordance with web and search engine best practice standards. Content and images are tagged, keyword-rich, and assigned with optimized metadata to ensure strong page results in all major search engines. Results are monitored regularly in Google's latest business offering, Analytics 4 (GA4). Organic search is currently responsible for 73% of Mohawk's web traffic.</p> <p>2. Marketing Automation — Mohawk utilizes Marketing Automation software for the following tasks and monitoring mechanisms:</p> <ul style="list-style-type: none"> <li>a. List management — We currently segment and manage a whitelist of 30,000+ existing customers and prospects consisting of government fleet managers, procurement specialists and purchasing agents. Updates are regularly contributed by Sales, Customer Support, and Marketing teams.</li> <li>b. Email marketing — Email is used as our primary source for government outreach in product education and promotion. All Mohawk email marketing strictly follows anti-spam hygiene and opt-out protocols. Customer questions and interest levels that result from emails are fed into, then monitored in our CRM system to become part of the customer's record.</li> <li>c. Lead management — When a customer product inquiry is made by web form, the type of information requested triggers specific automated actions performed within our Marketing Automation System and CRM simultaneously. All inquiries initially receive a personalized thank you email equipped with links to relevant brochure information. Concurrently, a local salesperson is notified within their CRM to manage the customer relationship, determine follow up engagements, and update the lead status as the prospect is guided through the sales funnel. Marketing Automation continues to provide additional relevant information at key points throughout the buyer's journey and is activated as the lead status changes. The goal is to provide efficient, personalized service that is rich with information, from inquiry-to-quote-to-sale-invoice-installation and beyond.</li> </ul> <p>3. Inbound Marketing — Used to drive and monitor new web traffic, Mohawk incorporates the following inbound marketing techniques:</p> <ul style="list-style-type: none"> <li>a. Paid media — In addition to targeted monthly ad spend in Google AdWords, Mohawk commits to annual investments in various trade print and digital media. Digital ads are UTM-coded (Urchin Tracking Module) and frequently monitored for their effectiveness.</li> <li>b. Earned media — With decades-long relationships with a variety of trade publications, Mohawk is frequently asked for commentary on fleet safety and lift technology topics, provide contributing articles, as well as issue press releases when noteworthy topics arise. Inbound links from earned media are closely monitored. (Exhibit #34)</li> <li>c. Social media — Mohawk is currently active in growing our networks on YouTube, Facebook, and LinkedIn. Inbound links from social network posts are closely monitored.</li> <li>d. Referrals — Partner websites (Mohawk distributor network and product partners), directories, and representation on independent pro-cooperative sites like Procurated and Pavillion provide an ongoing flow of new inbound traffic referral sources and inquiries that are closely monitored. (New Exhibit #36)</li> </ul> <p>4. Events</p> <ul style="list-style-type: none"> <li>a. Trade Shows — Mohawk exhibits at many trade shows throughout the year. Attendees contact information is captured either by a barcode scanning device service provided by the event host, or by simply collecting business cards. In both cases, the contact information is then added to our growing contact list of government fleet managers, procurement specialists and purchasing agents.</li> <li>b. Webinar Guest Speaker Opportunities — Mohawk is frequently asked to participate as a guest speaker for webinars hosted by a variety of trade publications and associations. Attendee lists are provided and added to our growing customer list of government contacts. A recent example is in September of 2023 at the NCSFA Conference, Sourcewell's Andy Campbell, heard a Mohawk/Hunter session titled "Keeping your fleet on the street – Advances in vehicle lifts and garage equipment technology".</li> </ul>	*

38	In your view, what is Sourcewell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcewell-awarded contract into your sales process?	<p>1. Sourcewell's role in promoting contracts is making an award to the most qualified national vendors.</p> <p>2. After the award, Sourcewell needs to send a few press releases to various media and websites and update the Sourcewell website showing the new award. Sourcewell should assist the 8 states that have adopted this award to again be participants on a statewide level of the previous award's extension, while the states are reviewing the new award.</p> <p>3. Once awarded, Sourcewell should properly show awarded vendors on <a href="http://www.sourcewell-mn.gov">www.sourcewell-mn.gov</a> so member agencies can view the award. Beyond the above few items, sales success in the hands of the vendors to spread the word and market (sell) the products included in the award. Nothing else is expected, as Sourcewell is not expected to be a subject matter expert in lifts and capital repair shop equipment.</p>	*
39	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	<p>1. Mohawk does not have an e-procurement site. Vehicle lifts and equipment shouldn't be sold on a market basket shopping cart as some items can be. Mohawk's government website section dedicated to Sourcewell, (<a href="http://www.govlifts.com/sourcewell">www.govlifts.com/sourcewell</a>) shows everything an agency could want — including the contracts terms and conditions, the product, the discounted, and delivered price.</p> <p>2. Mohawk was one of the early Sourcewell companies involved with Equal-Level. There is no e-procurement as lifts and equipment on this contract have members needing:</p> <ol style="list-style-type: none"> <li>An agency site visit (as a 30' lift never fits a 20' long bay)</li> <li>Verification the ceiling is adequately tall enough.</li> <li>Verification that the concrete floor is adequate to safely install the lift (if the agency desires installation).</li> <li>Visual Verification the members proposed lift(s) fits the vehicles (capacity and length) the member have in their fleet.</li> </ol> <p>3. Mohawk believes that the face-to-face way of doing business is the best way in this marketplace for these types of commodities. Once the face-to-face visit occurs, to eliminate a chance of a mistake for a "built to order" lift, data sheets are filled out and signed off on by both the area Mohawk dealer and co-signed by the fleet director as the customer (see exhibit #24 as a silly example of a completed data sheet).</p> <p>4. Information asked on the data sheet can only be assured of being correct when an experienced sales rep is at the shop location (as a 30' long lift never fits in a 25' garage bay). Everyone has heard the saying, "measure twice, cut once" the lift business is no different.</p>	*

40	<p>Describe any product, equipment, maintenance, or operator training programs that you offer to Sourcewell participating entities. Include details, such as whether training is standard or optional, who provides training, and any costs that apply.</p>	<p>Mohawk Lift users are always trained when the member chooses to have the lift installed. Lift installations are an optional item with extra costs and vary by lift type, length, or capacity. Some members do their own installations as the more popular lifts are easy to install. Mohawks end customers are mechanically inclined and able to follow the simple instructions found in <a href="http://www.mohawklifts.com/ops">www.mohawklifts.com/ops</a> (the website of installation and operations manuals).</p> <p>For lifts where the agency has chosen installation as an option, the installation comes with a "sign-off" sheet that the technicians in the garage have been trained to operate the lift.</p> <p>For Hunter wheel service equipment, installation and training is standard procedure provided by the area Hunter sales or service rep (totaling 900 people across the US and Canada). For Hunter equipment, ONLY when purchased through Mohawk, advanced training vouchers are included (training certificates) to attend high level training classes at one of 31 national training centers (generally vo-tech schools or colleges).</p> <p>Westmatic vehicle wash equipment users are trained at the end of the installation period.</p> <p>Other partner vendors have training available at the end of installation.</p> <p>Other value-added attributes.</p> <p>Mohawk lifts offers more value-added options than any lift company. Industry exclusive examples include:</p> <ol style="list-style-type: none"> <li>1. The ability to make a 2-post automotive lift into a two-post turf maintenance lift.</li> <li>2. A weight gauge option that shows the lift has been lowered onto the mechanical locks.</li> <li>3. The wheel engaging adaptor saves time by not needing to position all four arms of a 2 post.</li> <li>4. Mohawk mobile lifts permit raising a winged snowplow truck without the need of removing the wing plow.</li> <li>5. A tire dolly to remove the heavy tires of a DOT type truck.</li> <li>6. Mobile lifts with larger capacities (up to 240,000 lbs. or 8 columns at 30,000 lbs. each).</li> <li>7. Mobile lift options such as fork-lift adaptors or front to rear adaptors rated at the necessary capacities others don't offer.</li> </ol> <p>Examples of all these options can be seen in exhibit #37,38, &amp; 39 or <a href="http://www.mohawklifts.com/brochures">www.mohawklifts.com/brochures</a>.</p> <p>If a spare part is needed, member agencies can visit <a href="http://www.mohawklifts.com/commonparts">www.mohawklifts.com/commonparts</a>. This site shows the part and pricing of 90% of any component ever needed.</p> <p>After the sale/installation, should a member agency require additional training for a new technician, annual lift inspections, or annual operation training (also required under the ANSI safety regulations), the area Mohawk reseller network provides these services. Per Automotive Lift Institute (ALI) bylaws, inspections are to be performed by third party service providers and not ALI member manufacturers.</p>
----	---	---

41	Describe any technological advances that your proposed products or services offer.	<p>Mohawk's technological advantages relate to added operator safety with multiple redundant safeties, increased shop efficiency/productivity, the ability of Mohawk Lifts to fit into spaces others won't, and the longest (warranty) in the lift industry.</p> <p>Examples include:</p> <ul style="list-style-type: none"> <li>• Weight Gauges (A Motor Magazine top 20 Tool winner). Mohawk is the only two post lift (the most popular lifts made) offering a weight gauge to show the tech has lowered the lifts onto the mechanical locks (per ANSI standards). The gauge is an added safety to #1 show the weight is resting on the mechanical locks and not on the hydraulics (exhibit #40), #2 to aid in diagnosing vehicle performance, and #3 A visual assurance the lift is not being overloaded.</li> <li>• Wireless mobile column lifts: Mohawk offers capacities from 14,000 to 30,000 lbs. per column for the heaviest vehicles (few companies offer columns over an 18,000 lb. capacities). Exhibit #41 shows a list of options with the necessary capacities for the services being performed on mobile lifts. (exhibit #39 &amp; #42)</li> <li>• Mobile lifts Front to Rear Bumper Adapter: This feature gives the technician the ability to leave all 4 wheels hanging free for tire and brake service. Many offer this option in a 12k-15k lb. capacity, Mohawk's capacity is 26,000 for a real truck (not just a pickup). Exhibit #43</li> <li>• Mobile lift Fork-Truck Adapter Kit: rated at 28,000 lbs. where most are just rated at 10,000 and are inadequate for use on anything but small forklifts. Exhibit #44</li> <li>• The only two post lifts (the most common lift type making up most of all lifts sold) offering a clear floor work area, infinitely adjustable overhead hydraulic line, or hydraulic lines routed through the garage floor to leave nothing between the posts with the shop floor or ceiling clear. As opposed to Two post shown with limited lifting height. Exhibit #45</li> <li>• Two post Speedlane option: This option allows a two-post frame engaging lift to become an instant drive-on lift. This saves a technician time, increasing efficiency and shop productivity, by not needing to position the 4 swing arms under every vehicle saving 5-10 minutes per vehicle. Speedlanes have added value in educational setting as they increase lift safety as inexperienced technicians may be less careful in properly positioning the four swing arms to the frames lifting points. Exhibit #46</li> <li>• While not a technological advance, the warranty of a Mohawk two post lift is 25 years structural, with a full 10-year mechanical (moving parts) warranty. The next closest in the lift industry is 2 years if installed by a Rotary Authorized installer. This gives fleet managers peace of mind knowing they're standing under a vehicle that is manufactured to the highest quality standards. Fleet managers know a Mohawk lift won't be "down" for replacement of cables, cable sheaves, plastic slide blocks or leaking/broken rubber hydraulic hoses as Mohawk does not use any of these lesser quality components in the two post lifts. If a manufacturer's goal is to manufacture a lift for less vs. the best quality product, then steel and components aren't sacrificed. As a factual comparative, a 10,000 lb. capacity Mohawk 2 post lift weighs 2500 lbs. when shipped. A Rotary lift weighs less than 1,400 lbs. The Mohawk advantage lies in a lift that lasts and has no down time.</li> </ul> <p>Every, and any model or capacity of Mohawk Lifts offers features that others do not. These range from increasing end user shop throughput speed for efficiency to options and capacities not offered by other lift companies (included all options brochure exhibit #47).</p> <p>A Mohawk advantage is the lift is built to the highest level of safety as safety is not an option. Shown are comparative images of a top-down view of the construction of 2 competitive brands vs a Mohawk Mobile Column lift (Exhibit #48). Additionally, Mohawk mobile lifts come with retractable wheels as standard equipment and some brands are optional. (Exhibit #49). Safety is not an option, nor would anyone go weightlifting wearing roller skates vs. a stable set of shoes on the floor.</p> <p>Mohawks long term joint venture supply relationships with complimentary manufacturers (Hunter, Gray, and Westmatic) bring added value to Sourcewell members and to Sourcewell. The cross relationship of providing a Mohawk Lift to a member agency often leads to the sale of a Gray floor jack, Hunter tire changer or visa-versa increases member usage, increases statewide adoptions and Sourcewell reported spend.</p>
----	--	---

42	Describe any "green" initiatives that relate to your company or to your products or services, and include a list of the certifying agency for each.	<p>Mohawk manufactures lifts that last much longer than other lifts. The Mohawk engineering design reduces the amount of replacement lifts, parts and waste directed into landfills. Mohawk utilizes many green initiatives in the manufacturing and packing process including:</p> <ul style="list-style-type: none"> <li>• #1 Reusing and recycling shipping materials.</li> <li>• #2 Sourcing from local and domestic suppliers with minimized packaging methods.</li> <li>• #3 Mohawk machine shops suppliers ship products in reusable wire baskets vs cardboard boxes piled on a wooden pallet (Exhibit #50)</li> <li>• #4 See Mohawk's Sustainability initiatives that discuss product lifecycle, supply chain management, facility/people, recycling, and waste Exhibit #51.</li> </ul> <p>Examples are:</p> <ul style="list-style-type: none"> <li>• Every product has a cost of ownership. Mohawk Lifts have the lowest cost of ownership as parts found on the most common two post lifts (rubber hydraulic hoses, lifting cables, plastic slide blocks) are not engineered into a Mohawk lift (see Dare to Compare exhibit #52). These lower quality materials (lower cost to manufacture) cost lift users hundreds if not thousands per year. Mohawk is built to last, creating less scrap metal, less waste, and lower maintenance due to the amount of replacement parts not needed.</li> <li>• As a US manufacturer, Mohawk is not using fuel to bring lifts and components from China (also meaning minimal supply chain delays during the few years of Covid) as opposed to most lifts which are "assembled" (or branded) in the US, Mohawk is a true manufacturer (Exhibit #53). Sourcewell's Mr. David Duhn and Kelly McAllister have both been to the Mohawk factory to witness Mohawk is a fabricator vs. an assembly shop of foreign made lifts.</li> <li>• Mohawk Lifts recycles the shipping tubes (meant to protect the lift in transit) again and again as opposed to welding, drilling, cutting, and throwing away shipping tubes. At times, when customers agree to return the shipping tubes vs throw in a dumpster, Mohawk passes on the cost savings of these to the customer (i.e., NYS Canal authority and the 36 shipping tubes that were used again on different lifts). Sourcewell should be assured the shipping tubes mentioned are not part of the lift, just a protector for shipping and not a structurally integral part of the lift. Using the shipping tubes over and over saves steel, labor, welding smoke and passes costs saving to the end users.</li> <li>• Mohawk recycles all steel, electric motors, recyclable trash, and cardboard. The Mohawk factory has two cardboard dumpsters while the office has multiple 90-gallon paper recycling bins. All bottles, plastic or cans go to a recycling bin vs. the trash bin.</li> <li>• Mohawk Lifts are shipped with a minimal amount of packaging materials (which end up in a landfill). Images in Exhibit #54 are comparatives of a Mohawk lift that weighs 2500 lbs. yet only has 4 pieces of recyclable banding, plastic wrap, two 4" wood blocks, recycle OSB wood to protect in shipment and a single cardboard box as waste. The opposite picture is the total amount waste of a standard automotive lift upon unpackaging.</li> </ul>
43	Identify any third-party issued eco-labels, ratings or certifications that your company has received for the equipment or products included in your Proposal related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors.	<p>There are no eco-lab certifications for lifts or any of the offered capital garage equipment.</p> <p>Due to the 25-year warranty and longer lifecycle (with minimal parts to be replaced) the state of WA in 2006 referred to Mohawk as a green manufacturer. This designation allowed Mohawk to exhibit at the Green Truck Summit section of the Work Truck show for years and allowed Mohawk to participate in the Washington Green Fleet Expo (Exhibit #31).</p> <p>The design of a Mohawk lift eliminates the parts needed to be replaced on other lifts. This means less cost, no downtime, and no annual maintenance bill to replace cables, plastic slide blocks, cable rollers and rubber hoses as Mohawk doesn't design lifts with these lesser quality components. The exhibit #55 titled steel bag is a comparative of lifts of Mohawk components vs. other lift brands.</p> <p>Included is the front page of the ANSI recognized Automotive Lift Institute "Lifting it Right booklet". Page 29 shows the maintenance items found on most lifts. The items circled are not found in any Mohawk designs, the cables shown are only warranted for 1 year, while the Mohawk chain is warrantied for 10 years. (Exhibit #56)</p>

44	Describe any Women or Minority Business Entity (WMBE), Small Business Entity (SBE), or veteran owned business certifications that your company or hub partners have obtained. Upload documentation of certification (as applicable) in the document upload section of your response.	<p>Mohawk is no longer a small business, nor a veteran owned, woman owned, or minority owned business. Yet as a manufacturer in NY, who holds a NYS state contract (Sourcewell based) Mohawk is required to do everything possible to direct business to WMBE and SBE companies as required by New York State. Mohawk purchases steel from a federally certified SVDSBE (service veteran disabled small business enterprise). Please see exhibit #57 from steel supplier T&amp;T Materials Inc.</p> <p>Another example of Mohawk's diversity is the email (exhibit #8) from the state of North Carolina leaving the NASPO award after 15 years to adopt the Sourcewell award. Per North Carolina's Mr. Bahaa Jizi this is based on the woman owned status of Mohawks North Carolina based reseller.</p> <p>Mohawk actively seeks woman owned/minority owned resellers, supply companies, lift installation providers and all diverse business entities (printing, cleaning, painting, promotional materials).</p>	*
45	What unique attributes does your company, your products, or your services offer to Sourcewell participating entities? What makes your proposed solutions unique in your industry as it applies to Sourcewell participating entities?	<p>Mohawk offers the following unique industry attributes:</p> <ul style="list-style-type: none"> <li>• Product Quality is heads and shoulders above other lift providers (Exhibit #58)</li> <li>• Product Warranty provides Sourcewell members with the best value for their procurement dollar and the longest warranty in the lift industry.</li> <li>• Product Manufactured within the United States, meeting the FTA (Federal Transit Authority) Buy American requirements (see exhibit #16 a scoring metric from a former NASPO award as to which lift suppliers do and do not meet the FTA Buy America clause).</li> <li>• Mohawk offer features that no other lift manufacturer offers to make a shop more productive and efficient, ex: Speedlane, turf kit, and wheel engaging adaptor for the two post models or (Exhibit #59) mobile lifts options in capacities others do not offer (exhibit #41).</li> <li>• Product reliability and longevity (see letter from NYPD deputy Commissioner Robert Martinez or Mohawks <a href="http://www.procurated.com">www.procurated.com</a> reviews Exhibit #20)</li> </ul> <p>Mohawk offers the largest variety of lifts to service all cars, mid-sized trucks, and larger trucks than any lift manufacturer. Add to this product variety, the industry exclusive options (Speedlane, Wheel Engaging adaptors, and weight gauge for two post lifts), the only US made parallelogram lift, and the heaviest capacity vertical rise, mobile, four post, and two post lifts.</p> <p>Mohawk offers complimentary products ranging from Hunter tire changers, wheel balancers, alignment machines, Gray portable shop equipment and the Westmatic large vehicle washes.</p> <p>For this RFP, Mohawk is adding the following machines as found in every repair garage:</p> <ul style="list-style-type: none"> <li>• Miller welding machines,</li> <li>• Liftpoint material handling service lifts (A two-year-old, unique and patented product)</li> <li>• Worky exhaust evacuation equipment and shop cabinets/benches</li> <li>• CAES refrigerant machines to service a vehicle air condition system.</li> <li>• Legacy Air Compressors</li> </ul> <p>Mohawk has been serving Sourcewell members for the past 14 years. Mohawk is the sales leader in the government marketplace (see exhibit #4) of Sourcewell sales, GSA sales and NASPO sales.</p> <p>Mohawk Lifts and the related complimentary products is why Mohawk is the #1 vendor in the category of spend and statewide adoptions. From senior management down, Mohawk and our supply partners believe in and have embraced cooperative procurement. We teach it, write about it, and make sure our field sales force is ready to use contract sales. Sourcewell's Tom Pertula (Sr. Director of Cooperative Purchasing) believes that despite not being the largest or oldest Sourcewell vendor that Mohawk brings "more" knowledge, experience, and proven ability to the table. Mohawk's President, Steven Perlstein has been a member of the Sourcewell vendor advisory council for the past 8-10 years. Steve shares his knowledge, discussing statewide adoptions, networking, being a panelist at H20, increasing membership for Sourcewell and teaching newer awarded vendors and their field sales staff to make the most of the Sourcewell award with Mohawk as the lead.</p>	*

**Table 9: Warranty**

**Describe in detail your manufacturer warranty program, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your warranty materials (if applicable) in the document upload section of your response in addition to responding to the questions below.**

Line Item	Question	Response *
-----------	----------	------------

46	Do your warranties cover all products, parts, and labor?	<p>Yes, all products are covered. Exhibit #60 is Mohawks warranty. This warranty shown at the ending pages of the list price sheet, which is posted on <a href="http://www.govlifts.com/souurcewwell">www.govlifts.com/souurcewwell</a> (across from the terms and conditions approx. 2/3rds of the way down the page).  <a href="https://mohawklifts.com/library/Mohawk_Warranty_04.05.21.pdf">https://mohawklifts.com/library/Mohawk_Warranty_04.05.21.pdf</a></p> <p>Different lifts have different warranties. As stated, the overwhelming most popular lift is a two-post side by side, which Mohawk offers an industry leading 25-year warranty on the structure, backed by a 10-year warranty on the moving parts (roller bearings, chains, safety release lever, safety release cable, etc.). To best understand the quality and longevity difference of a Mohawk two post lift, please see exhibit #58.</p>	*
47	Do your warranties impose usage restrictions or other limitations that adversely affect coverage?	No. There are no usage restrictions. Examples are several garages that run 2 or 3 shifts per day. NYPD, FDNY, and NYC Sanitation all have 32+ year old Mohawk lifts. These garages operate either 2 or 3 shifts per day. Please see exhibit #20 from NYPD former deputy commissioner Robert Martinez. These lifts have 60+ years of usage and are still going strong every day.	*
48	Do your warranties cover the expense of technicians' travel time and mileage to perform warranty repairs?	<p>Yes, situation and product dependent.</p> <p>If a customer forgets where the "up" (or down) button is after being trained, the local representative might charge the agency if a special trip is needed. This can be handled easily over the phone, via virtual meeting or email. The operator is also able to read the instruction manual that was included with purchase or can be found online at <a href="http://www.mohawklifts.com/ops">www.mohawklifts.com/ops</a>.</p> <p>If the issue is a defective part, Mohawk pays the local installer/service provider, and the user (agencies) don't receive an invoice.</p>	*
49	Are there any geographic regions of the United States or Canada (as applicable) for which you cannot provide a certified technician to perform warranty repairs? How will Sourcewell participating entities in these regions be provided service for warranty repair?	<p>Mohawk can provide 100% coverage in the lower 48 states of the US. Alaska and Hawaii are remote, as our rep in Alaska lives in Anchorage and doesn't travel to Juneau, Nome, or Prudhoe Bay every week. The same applies to parts of Hawaii and areas in Canada.</p> <p>Mohawk is more established in the US than in Canada. We know 90% of the Canadian population lives 100 miles from the US border, yet there are Mohawk lift installations in remote places like Cold Lake Alberta the Yukon or CFB Alert (the northerly most year-round inhabited place on earth). A service call to Cold Lake Alberta or Nome Alaska doesn't happen overnight, yet for 40+ years we've handled most service issues over the phone.</p> <p>In remote areas customers know the reliability of Mohawk. They buy Mohawk recognizing there are not 10 service centers to show up in an hour. Remote agencies buy Mohawk for quality, reliability, and longevity.</p> <p>As a manufacturer, Mohawks factory employed service team handle most service questions over the phone. Customers are also able to email Mohawk at <a href="mailto:service@mohawklifts.com">service@mohawklifts.com</a>. After hours the Mohawk telephones are answered by an outside answering service up until 6PM Pacific time. The answering service will call one of the service staff after hours to return a customer's call.</p>	*
50	Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?	<p>The Mohawk value-added supply partners (Hunter, Gray, Westmatic, etc) each cover service directly with their service departments.</p> <p>Mohawk only partners with the highest quality manufacturers in their respective fields.</p> <p>If not, the marginal quality of other manufacturers' products may reflect on Mohawk and future lift sales.</p>	*

51	What are your proposed exchange and return programs and policies?	<p>Lifts are not generally a returnable item. Precautions are taken in advance of shipping as every 4 post, mobile, parallelogram or large two post is fully set up and made operational prior to leaving the factory.</p> <p>Lifts are big, heavy to move and expensive to re-ship. These are the reasons every lift has detailed specs on the back page of each flyer (emailed and a hard copy is mailed when a customer inquiries). See exhibit #61 for a typical product flyer and the back page for specs and measurements. An example of great customer service (not the fault of Mohawk) is the 50,000 lb. capacity four post lifts Pinellas Transit purchased. After installation Pinellas Transit asked Mohawk to exchange 24" wide runways (which they acknowledged they ordered) for 32" wide runways. Pinellas paid freight in both directions and paid extra fees to exchange the 24 for 32" wide platform.</p> <p>In the lift industry large lifts are built to order. No lift industry manufacturer keeps every model of large 4 post, vertical rise, or parallelogram lift in stock. This is because each lift is different. These built to order lifts require a "data sheet" (a build sheet). Exhibit #24 requires the signature of both the using agency and the Mohawk representative. The data sheet asks certain questions about the lift, the facility, the options, track lengths or widths. In 30+ years of requiring data sheets, only one time did a reseller measure the bay length incorrectly, causing the runways to be returned, welded shorter and resent to the agency. One mistake in thousands of lifts is a very good average</p>	*
52	Describe any service contract options for the items included in your proposal.	None. The ANSI (American National Standards Institute) requires lifts to be inspected annually. Per the ALI (Automotive Lift Institute) independent inspectors must perform these inspections. ALI feels that if lift manufacturers were to perform the annual inspections, it's akin to the fox guarding the hen house. I don't believe any ALI member inspects their own lifts as this has been an ongoing discussion within ALI, and this was a topic at a recent ALI membership meeting.	*

**Table 10: Payment Terms and Financing Options**

Line Item	Question	Response *	
53	Describe your payment terms and accepted payment methods.	<p>Standard payment terms are Net 30 days from invoice date. Mohawk will extend payment terms in cases of statewide adoptions or an agency term being 45 or 60 days. Mohawk accepts checks, wires, ACH payments, and p-cards.</p> <p>Mohawk also allows financing if the member agency is using a finance company such as Sourcewell awarded vendor NCL (National Cooperative Leasing).</p>	*
54	Describe any leasing or financing options available for use by educational or governmental entities.	Mohawk offers financing through National Cooperative Leasing (NCL), a Sourcewell awarded vendor. The NCL Alternative Funding Solution video is displayed at the bottom of Mohawk's Sourcewell webpage ( <a href="https://govlifts.com/sourcewell/">https://govlifts.com/sourcewell/</a> ). Mohawk assists with connecting the agency to the proper person at NCL to start the paperwork process if using financing. NCL is also an awarded Sourcewell Legendary Leader award recipient.	*
55	Describe any standard transaction documents that you propose to use in connection with an awarded contract (order forms, terms and conditions, service level agreements, etc.). Upload a sample of each (as applicable) in the document upload section of your response.	<ul style="list-style-type: none"> <li>Exhibit #22 is the quote proposal we send member agencies (which includes the agencies Sourcewell member ID) a brief set of terms and conditions, and the product the member asked about. Included in this exhibit is the PO that was generated from the proposal. Likewise, the terms and conditions can be found on our website about ¾ of the way down on the page. <a href="http://www.govlifts.com/sourcewell.com">www.govlifts.com/sourcewell.com</a>.</li> </ul>	*
56	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	<p>Yes, Mohawk accepts P-Cards as payments.</p> <p>No, there are no additional costs associated with the use of P-Cards.</p>	*

**Table 11: Pricing and Delivery**

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcewell Price and Product Change Request Form.

Line Item	Question	Response *	
-----------	----------	------------	--

57	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	<p>Mohawk and all supply partners have a published list price.</p> <p>Mohawk and all supply partners offer a discount percentage off MSRP (list price).</p> <p>Over the 14 years of being an awarded Sourcewell vendor, Mohawk's prices have changed but the discount percentage off list price remains consistent. Prior to posting new prices on <a href="http://www.govlifts.com/sourcewell">www.govlifts.com/sourcewell</a>, a Product and Pricing request has been submitted to Sourcewell and only after approved, does Mohawk make the price changes to this website.</p> <p>Mohawk, Gray, and Westmatic have one discount percentage off list. Hunter, discounts vary based on either the product category of A; light duty or B; heavy-duty products.</p> <ul style="list-style-type: none"> <li>All offered prices include delivery to Sourcewell members in the 48 continental states (AK, HI and Canadian customers pay freight from the closest shipping or border crossing).</li> <li>All prices include the proposed 1.4% Sourcewell administrative remittance.</li> <li>Every companies products have a specific part number (SKU), which is included in the uploaded price list of each supplier.</li> <li>The list, discounted prices, and SKU #'s can all be seen on <a href="http://www.govlifts.com/sourcewell">www.govlifts.com/sourcewell</a>.</li> <li>Unlike other vendors who have different prices, don't include freight costs, or have varying freight terms and conditions on other MAS contracts, Mohawk's GSA, Sourcewell, NRECA and NASPO prices are all the same. Mohawks consistency is why states choose to adopt Sourcewell as the basis of award when considering a statewide adoption. All Sourcewell needs to do is visit <a href="http://www.gsaadvantage.gov">www.gsaadvantage.gov</a> or Portfolio Details - NASPO ValuePoint to realize that some Sourcewell lift vendors don't include freight for Sourcewell yet they do with NASPO. Or the pricing on a GSA award, vs a Sourcewell award vs. a NASPO award are all different. With Mohawk the sole difference is the administrative remittance which Sourcewell has lowered to equal NASPO when we seek a statewide adoption.</li> </ul>	*
58	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	<p>Mohawk Lifts – 15.68% off List Price</p> <p>Hunter Engineering – Light Duty Products 21.91% off List, Heavy Duty Products 10.75% off List</p> <p>Gray Manufacturing – 10.77% off List Price</p> <p>Westmatic – 10.77% off List Price</p> <p>Miller Welding - Low Capacity Products 19.37% off List Price, Heavy Capacity Products 10.01% Off List Price</p> <p>Liftpoint USA material handling service lifts – 8.74% Off List Price</p> <p>Legacy air compressors – 10.77% off List Price</p> <p>Worky exhaust evacuations and shop work benches - 10.77% Off List Price</p> <p>CAES air conditioning (AC) freon reclamation - 16.35% off List Price</p>	*
59	Describe any quantity or volume discounts or rebate programs that you offer.	Mohawk does offer volume discounts on the most popular two post lifts and at times with large orders (ie. Delaware DOT) has lowered the pricing to the agency.	*
60	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	In our years as a Sourcewell vendor this has happened very infrequently. If it does occur the calculation for the sourced item is cost +10% + the 1.4% administrative fee.	*
61	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	<p>In keeping with Mohawks best value proposition and unlike most lift manufacturers</p> <p>1. When Mohawk ships a lift, truck adaptors (required to be used when raising a pickup or work truck) are standard equipment vs. optional equipment as charged throughout the lift industry. Truck adaptors are needed if lifting any vehicle beyond a passenger car. (Exhibit #62) This picture taken from under a pick-up shows the silver-colored truck adaptors making the connection between the four swing arms and the truck frame that are included as standard with every Mohawk lift. A few of the extra truck adaptors not in use can be seen mid-height mounted on the columns.</p> <p>2. Mohawk lifts come with an electrical cord attached with a</p>	

male plug pre-wired, and the female plug in each parts box. Most lift manufacturers do not include the wire or both halves of the electrical plugs.

3. Mohawk Lifts are shipped with a special low temperature rated hydraulic fluid already in the power unit. Most lift companies do not include hydraulic oil.

4. Mohawk's DC (battery operated) mobile lifts includes two high quality US made deep cycle, gel filled marine type batteries with the lift, vs. some lift brands that don't include batteries and make the customer provide the batteries (of a good or poor quality).

As stated, some agencies choose to install their own Mohawk lifts, others choose to have it done for them. There are no flat percentage costs of installing a lift. Some lift installations can take a ½ day, some 3 days plus for the largest 48' long lifts. When requested, installation is quoted as a separate line item by Mohawk, yet the service is performed by the local reseller and added to Mohawk's Sourcewell proposal.

Self-installation by a member has no effect on the warranty. The people who use lifts are quite mechanical. The most common lifts sold take just ½ a day to install.

If a member agency chooses to have the lift installed, it is done by the area installation and service provider.

There are occasionally special conditions beyond a "normal" installation and are considered a "nonstandard" Installation. These consist of:

- Permanent electrical wiring to the lift - Mohawk nor our field reps are licensed electricians in every state/city/county and cannot do permanent electrical wiring.
- Concrete work – if a shop floor is not thick enough to safely anchor the lift and a member requests Mohawk to pour a new concrete floor. Mohawk cannot pay to pour a new concrete floor. Concrete requirements are stated on the back page of every brochure yet 99% of the time shop floors are adequate for installation. The local Mohawk representative pre-site visit is what tells us the floor is of good quality or if not are able to assist the customer in sourcing a vendor for concrete work.
- Disassembly of existing Lift - If a lift is ordered and there's another lift already in that garage bay. At times, Mohawk's local representative is required to disassemble and install the existing lift in another bay (disassembly takes as much time as assembling a new lift). In some cases, Mohawks' local service provider is requested to disassemble and dispose of an existing lift.
- Forklift Rental needed for Installation - An option most member agencies avail themselves of to save procurement funds is assigning an agency employee to drive the agency forklift and position the heavy pieces. Most members have a forklift. Mohawks installers do not drive a member's forklift. However, when the member assigns a person to position the parts, then Mohawks local installer can save the agency the cost of renting a forklift (sometimes 2 for the longer vehicle lifts). If the member agency isn't willing to use their forklift, then one (maybe two) must be rented by the local installer.

Installation and Training of Hunter equipment is included in the contract price of Hunter Products.

Installation and training of Westmatic equipment is a separate cost and quoted as a separate line item by the supplier or local dealer as part of the Sourcewell proposal.

Installation of LiftPoint USA lifts is optional.

Installation of Legacy air compressors is optional.

		Miller welders require no installation.  Installation of Worky exhaust evacuation equipment and assembly of Worky cabinets and benches is an available option (site dependent).	
62	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	Mohawks freight policy (and all joint venture supply partners of the award) has always been FOB delivered to anywhere in the lower contiguous 48 states. Freight is not an extra charge, nor are there extra fees to remote areas of the US. For agencies in Alaska, Hawaii US territories or Canada, Mohawk prepays the freight to the ports of Seattle, Long Beach, Miami, or nearest border crossing with the remaining ocean freight and over-land delivery charges borne by the using agency.	*
63	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	As described in response #62, freight to Alaska, Hawaii, US territories or Canada is FOB freight prepaid to the desired port of departure in the 48 continental U.S.  For all of Canada, Mohawk pays the freight to the US/Canada border where the member becomes responsible for additional freight charges to any of the provinces and the destination.	*
64	Describe any unique distribution and/or delivery methods or options offered in your proposal.	The most common two post lifts are often stocked in the warehouses of the area resellers. To expedite delivery for the member agencies, Mohawk often accesses that inventory for immediate delivery. Our resellers generally know a member is about to purchase as it likely they who sold the lift. When Mohawk accesses the inventory of the area resellers, member agencies benefit in the form of faster delivery and resellers benefit from faster inventory turnover. Other lifts are built to order (BTO). For these models, when a purchase order and a member signed data sheet (exhibit #24) is received Mohawk begins fabrication. Upon completion the lift(s) ships to the agency. As the lift was sold by the area reseller, Mohawk keeps the reseller informed so they can schedule installation (if desired by the member) immediately upon arrival	*

66	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcwell. This process includes ensuring that Sourcwell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcwell. Provide sufficient detail to support your ability to report quarterly sales to Sourcwell as described in the Contract template.	<p>While our area reps sell, they do not create the quotes. All MAS awards have Mohawk as the awarded vendor and Mohawk's internal team prepares all the proposals for Mohawk's dealers and supply partners nationally. Mohawk's internal sales team provide the Sourcwell contract details on every Sourcwell member's proposal, the Sourcwell member ID number, and an individual quote number. This ensures proper pricing.</p> <p>Mohawks internal teams are provided with a quote template that automatically imports correct pricing.</p> <p>Sourcwell members also have 24/7 access to current pricing on <a href="http://www.govlifts.com/Sourcwell">www.govlifts.com/Sourcwell</a>. As a requirement of other MAS contracts, this website is kept up to date with current pricing.</p> <p>Mohawk's ERP system allows Mohawks order management team to record received PO's, giving each PO a designated sales order number that continues to be referenced until turned into an invoice. The sales order allows Mohawk to store the Sourcwell member ID, the customer's billing address, shipping address, and all required reporting information. This method of sales/auditing and assigning POs to the proper MAS award is why Mohawk always receives perfect scores (see exhibit #63) from the Federal GSA. This system makes quarterly reporting simple as orders can be segregated into dealer sales, private sector sales, GSA sales, Sourcwell sales, NRECA sales or NASPO sales. All MAS contracts and certain national accounts seek quarterly reporting.</p> <p>To ensure absolute accuracy in reporting, the independent dealer networks have been taught that Mohawk Lifts is always the named vendor of record for every transaction. This method leads to 100% reporting accuracy. Simply stated, dealers sell, and invoice private sector garages while Mohawk always invoices the public sector. This requirement is written in the annual Mohawk dealer contract and dealers must comply with the requirements of the different MAS awards reporting.</p> <p>As references of timely and completed reporting please ask Mohawks current or former Sourcwell's contract development administrators Mike Domin, Kelly McAllister or Tony Glenz. Mohawks original point of contact has retired.</p> <p>As a 14-year experienced Sourcwell vendor, Mohawk understands the importance of being punctual with all obligations as reporting and payment of administrative remittance is the responsibility of being a complaint vendor.</p>
67	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	<ul style="list-style-type: none"> <li>• Mohawk has an internal weekly sales report showing which government sales (by model and amount) went through the Sourcwell award.</li> <li>• Quarterly reporting to Sourcwell (which recently hit an all-time quarterly high).</li> <li>• Mohawk checks our regional sales rep's performance to determine if certain models shipping to government agencies are being sold through any other method besides contract sales. If not, that region is contacted on their performance and if further action is needed, a refresher class of Sourcwell and contract sales happens.</li> </ul>
68	Identify a proposed administrative fee that you will pay to Sourcwell for facilitating, managing, and promoting the Sourcwell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	To keep the contract consistent with Mohawks 3 previously awarded contracts, Mohawk again proposes a 1.4% administrative fee.

**Table 14A: Depth and Breadth of Offered Equipment Products and Services**

Line Item	Question	Response *
69	Provide a detailed description of the equipment, products, and services that you are offering in your proposal.	<p>Mohawk has offered a wide variety of capital equipment for the Sourcewell member agency garages.</p> <p>The below equipment offering is found in the overwhelming majority of automotive (or truck) repair garages. (Exhibit #1)</p> <ul style="list-style-type: none"> <li>• Mohawk light, medium and heavy-duty lifts of various types and capacities (exhibit #71) to raise and service any vehicle.</li> <li>• Hunter Engineering, supply partner of 22 years, offers a complete line of wheel service equipment including tire changers, wheel balancers, brake lathes, alignment racks, ADAS machines and test equipment. Hunter has been a Sourcewell supplier with Mohawk for 14 years and 3 contract periods.</li> <li>• Gray Manufacturing offers a full line of portable shop equipment ranging from floor and transmission jacks to a smaller capacity mobile lift, shop presses and jack stands. Gray has been a Sourcewell supplier with Mohawk since the original NJPA award of 14 years ago.</li> <li>• Westmatic Corporation offers a full range of large vehicle washing equipment. Westmatic was a supplier for the first NJPA award with Mohawk in 2009. Mohawk reports millions in annual agency usage.</li> </ul> <p>New offerings include:</p> <ul style="list-style-type: none"> <li>• Worky brand of exhaust evacuation and garage work benches.</li> <li>• Miller Welding machines</li> <li>• Liftpoint material handling service lifts (for servicing material handling equipment)</li> <li>• CAES vehicle air conditioning service equipment.</li> <li>• Legacy Air Compressors</li> </ul> <p>Sourcewell seeks an award with the breadth and scope to satisfy the needs of member agency garages. The Mohawk Lift offering of capital equipment permits members to access the discounted and delivered prices of the most common pieces equipment found in any garage. The five new suppliers have expressed a keen interest in working with an experienced Sourcewell supplier who is willing to teach these companies and their sales teams how contract sales serve government facilities while also growing their government market share.</p> <p>Acceptance of these new products under the Mohawk award puts Sourcewell at a huge advantage over the NASPO vehicle lift award. NASPO doesn't offer these 5 new categories. This advantage will lead to additional statewide adoptions. Examples include state level adoptions in GA, NV, MO, NY and soon to be NC. These 5 states withdrew from the NASPO vehicle lift contract and established a Sourcewell adoption to better serve their state agencies and political sub-divisions with more choices of equipment.</p> <p>One state wants to adopt the Mohawk award yet cannot based on state procurement statute of only being able to participate with the highest scoring vendor of a cooperative contract. Mohawk did not have the highest score on the prior award. Hopefully, increasing the Mohawk offerings plus Mohawk Lifts safety, quality, best value proposition, and continued sales leadership will allow Mohawk to finish as the top scoring vendor.</p>
70	Within this RFP category there may be subcategories of solutions. List subcategory titles that best describe your products and services.	<p>#1 Mohawk Vehicle lifts and related accessories</p> <p>#2 Wheel service equipment (tire changers, wheel balancers, aligners, brake lathes, test equipment)</p> <p>#3 Westmatic Large vehicle washers</p> <p>#4 Gray Portable shop equipment (floor jacks, jack stands. shop presses, filter crushers, bumper lifts)</p> <p>#5 Miller welding equipment and accessories</p> <p>#6 CAEUSA/Texa freon exchange (AC machines) equipment</p> <p>#7 Legacy Air Compressors</p> <p>#8 LiftpointUSA material handling lifts and accessories.</p> <p>#9 Worky exhaust evacuation equipment and garage work benches and cabinetry.</p>

**EXPIRATION DATE AND EXTENSION.** This Contract expires February 12, 2028, unless it is cancelled sooner pursuant to Article 22. This Contract allows up to three additional one-year extensions upon the request of Sourcewell and written agreement by Supplier. Sourcewell retains the right to consider additional extensions beyond seven years as required under exceptional circumstances.

B. **SURVIVAL OF TERMS.** Notwithstanding any expiration or termination of this Contract, all payment obligations incurred prior to expiration or termination will survive, as will the following: Articles 11 through 14 survive the expiration or cancellation of this Contract. All other rights will cease upon expiration or termination of this Contract.

### **2. EQUIPMENT, PRODUCTS, OR SERVICES**

A. EQUIPMENT, PRODUCTS, OR SERVICES. Supplier will provide the Equipment, Products, or Services as stated in its Proposal submitted under the Solicitation Number listed above. Supplier's Equipment, Products, or Services Proposal (Proposal) is attached and incorporated into this Contract.

All Equipment and Products provided under this Contract must be new and the current model. Supplier may offer close-out or refurbished Equipment or Products if they are clearly indicated in Supplier's product and pricing list. Unless agreed to by the Participating Entities in advance, Equipment or Products must be delivered as operational to the Participating Entity's site.

This Contract offers an indefinite quantity of sales, and while substantial volume is anticipated, sales and sales volume are not guaranteed.

B. WARRANTY. Supplier warrants that all Equipment, Products, and Services furnished are free from liens and encumbrances, and are free from defects in design, materials, and workmanship. In addition, Supplier warrants the Equipment, Products, and Services are suitable for and will perform in accordance with the ordinary use for which they are intended. Supplier's dealers and distributors must agree to assist the Participating Entity in reaching a resolution in any dispute over warranty terms with the manufacturer. Any manufacturer's warranty that extends beyond the expiration of the Supplier's warranty will be passed on to the Participating Entity.

C. DEALERS, DISTRIBUTORS, AND/OR RESELLERS. Upon Contract execution and throughout the Contract term, Supplier must provide to Sourcwell a current means to validate or authenticate Supplier's authorized dealers, distributors, or resellers relative to the Equipment, Products, and Services offered under this Contract, which will be incorporated into this Contract by reference. It is the Supplier's responsibility to ensure Sourcwell receives the most current information.

### **3. PRICING**

All Equipment, Products, or Services under this Contract will be priced at or below the price stated in Supplier's Proposal. If prices for any Equipment, Products, or Services under this Contract falls below Supplier's current price under their General Services Administration (GSA) contract, Supplier shall have the option to remove the Equipment, Products, or Services from Supplier's contract offering or increase the net price to 3% above the current net price under the GSA contract.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

A. **SHIPPING AND SHIPPING COSTS.** All delivered Equipment and Products must be properly packaged. Damaged Equipment and Products may be rejected. If the damage is not readily apparent at the time of delivery, Supplier must permit the Equipment and Products to be returned within a reasonable time at no cost to Sourcewell or its Participating Entities. Participating Entities reserve the right to inspect the Equipment and Products at a reasonable time after delivery where circumstances or conditions prevent effective inspection of the Equipment and Products at the time of delivery. In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Supplier within 2 business days for visible damages and 5 business days for concealed damages or shortages, and the Supplier will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

Supplier must arrange for and pay for the return shipment on Equipment and Products that arrive in a defective or inoperable condition.

Sourcewell may declare the Supplier in breach of this Contract if the Supplier intentionally delivers substandard or inferior Equipment or Products.

B. **SALES TAX.** Each Participating Entity is responsible for supplying the Supplier with valid tax-exemption certification(s). When ordering, a Participating Entity must indicate if it is a tax-exempt entity.

C. **HOT LIST PRICING.** At any time during this Contract, Supplier may offer a specific selection of Equipment, Products, or Services at discounts greater than those listed in the Contract. When Supplier determines it will offer Hot List Pricing, it must be submitted electronically to Sourcewell in a line-item format. Equipment, Products, or Services may be added or removed from the Hot List at any time through a Sourcewell Price and Product Change Form as defined in Article 4 below.

Hot List program and pricing may also be used to discount and liquidate close-out and discontinued Equipment and Products as long as those close-out and discontinued items are clearly identified as such. Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

#### **4. PRODUCT AND PRICING CHANGE REQUESTS**

Supplier may request Equipment, Product, or Service changes, additions, or deletions at any time. All requests must be made in writing by submitting a signed Sourcewell Price and Product Change Request Form to the assigned Sourcewell Supplier Development Administrator. This

approved form is available from the assigned Sourcewell Supplier Development Administrator. At a minimum, the request must:

- Identify the applicable Sourcewell contract number;
- Clearly specify the requested change;
- Provide sufficient detail to justify the requested change;
- Individually list all Equipment, Products, or Services affected by the requested change, along with the requested change (e.g., addition, deletion, price change); and
- Include a complete restatement of pricing documentation in Microsoft Excel with the effective date of the modified pricing, or product addition or deletion. The new pricing restatement must include all Equipment, Products, and Services offered, even for those items where pricing remains unchanged.

A fully executed Sourcewell Price and Product Change Request Form will become an amendment to this Contract and will be incorporated by reference.

## **5. PARTICIPATION, CONTRACT ACCESS, AND PARTICIPATING ENTITY REQUIREMENTS**

A. PARTICIPATION. Sourcewell's cooperative contracts are available and open to public and nonprofit entities across the United States and Canada; such as federal, state/province, municipal, K-12 and higher education, tribal government, and other public entities.

The benefits of this Contract should be available to all Participating Entities that can legally access the Equipment, Products, or Services under this Contract. A Participating Entity's authority to access this Contract is determined through its cooperative purchasing, interlocal, or joint powers laws. Any entity accessing benefits of this Contract will be considered a Service Member of Sourcewell during such time of access. Supplier understands that a Participating Entity's use of this Contract is at the Participating Entity's sole convenience and Participating Entities reserve the right to obtain like Equipment, Products, or Services from any other source.

Supplier is responsible for familiarizing its sales and service forces with Sourcewell contract use eligibility requirements and documentation and will encourage potential participating entities to join Sourcewell. Sourcewell reserves the right to add and remove Participating Entities to its roster during the term of this Contract.

B. PUBLIC FACILITIES. Supplier's employees may be required to perform work at government-owned facilities, including schools. Supplier's employees and agents must conduct themselves in a professional manner while on the premises, and in accordance with Participating Entity policies and procedures, and all applicable laws.

## **6. PARTICIPATING ENTITY USE AND PURCHASING**

A. **ORDERS AND PAYMENT.** To access the contracted Equipment, Products, or Services under this Contract, a Participating Entity must clearly indicate to Supplier that it intends to access this Contract; however, order flow and procedure will be developed jointly between Sourcewell and Supplier. Typically, a Participating Entity will issue an order directly to Supplier or its authorized subsidiary, distributor, dealer, or reseller. If a Participating Entity issues a purchase order, it may use its own forms, but the purchase order should clearly note the applicable Sourcewell contract number. All Participating Entity orders under this Contract must be issued prior to expiration or cancellation of this Contract; however, Supplier performance, Participating Entity payment obligations, and any applicable warranty periods or other Supplier or Participating Entity obligations may extend beyond the term of this Contract.

Supplier's acceptable forms of payment are included in its attached Proposal. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

B. **ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM.** Additional terms and conditions to a purchase order, or other required transaction documentation, may be negotiated between a Participating Entity and Supplier, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entities may require the use of a Participating Addendum, the terms of which will be negotiated directly between the Participating Entity and the Supplier or its authorized dealers, distributors, or resellers, as applicable. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	The only element of total cost of acquisition not included in the pricing submitted are installation charges. This applies primarily, but not exclusively, to vehicle lifts. Installation charges will be quoted to the customer in advance. All such charges will be imposed directly by Snap-on Industrial. No third parties will submit any installation charges under this proposal.	*
62	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	All prices quoted are delivered prices via UPS Ground standard delivery up to the allowed weight limits and LTL for larger shipments. Customers may request expedited shipping at their expense.	*
63	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	All prices quoted are delivered prices for the 50 United States. No sales will be made under this agreement in Canada or any other offshore location.	*
64	Describe any unique distribution and/or delivery methods or options offered in your proposal.	Snap-on Industrial's standard delivery is UPS Ground up to the allowed weight limits and LTL for larger shipments. Customers may request expedited shipping at their expense.	*

**Table 13: Audit and Administrative Fee**

Line Item	Question	Response *	
66	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell. Provide sufficient detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template.	Snap-on Industrial will employ a specific price matrix (7SW) for this contract. Sourcewell member accounts will be linked to this price matrix. The matrix will not allow price deviation or product substitution in our system. Quarterly reporting information is generated by a query of all accounts linked to the 7SW matrix by our Finance Team. This is the same process Snap-on Industrial has used for many years in managing its contracts, including our current Sourcewell contract. We do not anticipate any issues with our ability to report quarterly sales to Sourcewell as described in the Contract template.	*
67	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	Overall sales growth and the number of new Sourcewell customer accounts we create are the primary metrics we measure for contract success. Sales for our current Sourcewell contract, number 013020-SNP, for Vehicle Lifts, with Garage and Fleet Maintenance Equipment are partial year 2020 (May - December); \$1.3M, 2021; \$5.9M for a 348% increase, 2022; \$11.7M for a 94.6% increase, YTD 10/31/2023; \$20.2M, for a 72.5% over the full year of 2022. New accounts created by us for Sourcewell members average per month are, partial year 2020 (May - December); 39 per month, 2021; 67 per month, 2022; 69 per month, YTD 10/31/2023; 81 per month. These metrics prove our experience and success in promoting our current contract to Sourcewell members.	*
68	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	We propose .5% (one-half of one percent) of net sales excluding taxes.	*

**Table 14A: Depth and Breadth of Offered Equipment Products and Services**

69	Provide a detailed description of the equipment, products, and services that you are offering in your proposal.	Products and services offered in this proposal include hand and power tools, tool storage (mobile and stationary), fleet maintenance diagnostic platforms and upgrades, garage equipment, undercar equipment and shop tools. Our standard Industrial catalog, 1600i, and an example of a typical quarterly Industrial Tools and Solutions brochure is attached to our submission.	*
70	Within this RFP category there may be subcategories of solutions. List subcategory titles that best describe your products and services.	Our subcategories include diagnostic tools, hand tools, power tools, cutting tools, shop equipment, tool storage, under car equipment and service and repair for these items.	*

## Addenda, Terms and Conditions

### PROPOSER AFFIDAVIT AND ASSURANCE OF COMPLIANCE

I certify that I am the authorized representative of the Proposer submitting the foregoing Proposal with the legal authority to bind the Proposer to this Affidavit and Assurance of Compliance:

1. The Proposer is submitting this Proposal under its full and complete legal name, and the Proposer legally exists in good standing in the jurisdiction of its residence.
2. The Proposer warrants that the information provided in this Proposal is true, correct, and reliable for purposes of evaluation for contract award.
3. The Proposer, including any person assisting with the creation of this Proposal, has arrived at this Proposal independently and the Proposal has been created without colluding with any other person, company, or parties that have or will submit a proposal under this solicitation; and the Proposal has in all respects been created fairly without any fraud or dishonesty. The Proposer has not directly or indirectly entered into any agreement or arrangement with any person or business in an effort to influence any part of this solicitation or operations of a resulting contract; and the Proposer has not taken any action in restraint of free trade or competitiveness in connection with this solicitation. Additionally, if Proposer has worked with a consultant on the Proposal, the consultant (an individual or a company) has not assisted any other entity that has submitted or will submit a proposal for this solicitation.
4. To the best of its knowledge and belief, and except as otherwise disclosed in the Proposal, there are no relevant facts or circumstances which could give rise to an organizational conflict of interest. An organizational conflict of interest exists when a vendor has an unfair competitive advantage or the vendor's objectivity in performing the contract is, or might be, impaired.
5. The contents of the Proposal have not been communicated by the Proposer or its employees or agents to any person not an employee or legally authorized agent of the Proposer and will not be communicated to any such persons prior to Due Date of this solicitation.
6. If awarded a contract, the Proposer will provide to Sourcewell Participating Entities the equipment, products, and services in accordance with the terms, conditions, and scope of a resulting contract.
7. The Proposer possesses, or will possess before delivering any equipment, products, or services, all applicable licenses or certifications necessary to deliver such equipment, products, or services under any resulting contract.
8. The Proposer agrees to deliver equipment, products, and services through valid contracts, purchase orders, or means that are acceptable to Sourcewell Members. Unless otherwise agreed to, the Proposer must provide only new and first-quality products and related services to Sourcewell Members under an awarded Contract.
9. The Proposer will comply with all applicable provisions of federal, state, and local laws, regulations, rules, and orders.
10. The Proposer understands that Sourcewell will reject RFP proposals that are marked "confidential" (or "nonpublic," etc.), either substantially or in their entirety. Under Minnesota Statutes Section 13.591, subdivision 4, all proposals are considered nonpublic data until the evaluation is complete and a Contract is awarded. At that point, proposals become public data. Minnesota Statutes Section 13.37 permits only certain narrowly defined data to be considered a "trade secret," and thus nonpublic data under Minnesota's Data Practices Act.
11. Proposer its employees, agents, and subcontractors are not:
  1. Included on the "Specially Designated Nationals and Blocked Persons" list maintained by the Office of Foreign Assets Control of the United States Department of the Treasury found at: <https://www.treasury.gov/ofac/downloads/sdnlist.pdf>;
  2. Included on the government-wide exclusions lists in the United States System for Award Management found at: <https://sam.gov/SAM/>; or
  3. Presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from programs operated

by the State of Minnesota; the United States federal government or the Canadian government, as applicable; or any Participating Entity. Vendor certifies and warrants that neither it nor its principals have been convicted of a criminal offense related to the subject matter of this solicitation.

☒ By checking this box I acknowledge that I am bound by the terms of the Proposer's Affidavit, have the legal authority to submit this Proposal on behalf of the Proposer, and that this electronic acknowledgment has the same legal effect, validity, and enforceability as if I had hand signed the Proposal. This signature will not be denied such legal effect, validity, or enforceability solely because an electronic signature or electronic record was used in its formation. - Jesus Arregui, Senior VP, President Commercial Group, Snap-on Industrial, A Division of IDSC Holdings LLC

**Solicitation Number: RFP #121223****CONTRACT**

This Contract is between Sourcewell, 202 12th Street Northeast, P.O. Box 219, Staples, MN 56479 (Sourcewell) and Stertil-Koni USA, Inc., 200 Log Canoe Circle, Stevensville, MD 21666 (Supplier).

Sourcewell is a State of Minnesota local government unit and service cooperative created under the laws of the State of Minnesota (Minnesota Statutes Section 123A.21) that offers cooperative procurement solutions to government entities. Participation is open to eligible federal, state/province, and municipal governmental entities, higher education, K-12 education, nonprofit, tribal government, and other public entities located in the United States and Canada. Sourcewell issued a public solicitation for Vehicle Lifts with Garage and Fleet Maintenance Equipment from which Supplier was awarded a contract.

Supplier desires to contract with Sourcewell to provide equipment, products, or services to Sourcewell and the entities that access Sourcewell's cooperative purchasing contracts (Participating Entities).

**1. TERM OF CONTRACT**

A. **EFFECTIVE DATE.** This Contract is effective upon the date of the final signature below.

**EXPIRATION DATE AND EXTENSION.** This Contract expires February 12, 2028, unless it is cancelled sooner pursuant to Article 22. This Contract allows up to three additional one-year extensions upon the request of Sourcewell and written agreement by Supplier. Sourcewell retains the right to consider additional extensions beyond seven years as required under exceptional circumstances.

B. **SURVIVAL OF TERMS.** Notwithstanding any expiration or termination of this Contract, all payment obligations incurred prior to expiration or termination will survive, as will the following: Articles 11 through 14 survive the expiration or cancellation of this Contract. All other rights will cease upon expiration or termination of this Contract.

**2. EQUIPMENT, PRODUCTS, OR SERVICES**

A. EQUIPMENT, PRODUCTS, OR SERVICES. Supplier will provide the Equipment, Products, or Services as stated in its Proposal submitted under the Solicitation Number listed above. Supplier's Equipment, Products, or Services Proposal (Proposal) is attached and incorporated into this Contract.

All Equipment and Products provided under this Contract must be new and the current model. Supplier may offer close-out or refurbished Equipment or Products if they are clearly indicated in Supplier's product and pricing list. Unless agreed to by the Participating Entities in advance, Equipment or Products must be delivered as operational to the Participating Entity's site.

This Contract offers an indefinite quantity of sales, and while substantial volume is anticipated, sales and sales volume are not guaranteed.

B. WARRANTY. Supplier warrants that all Equipment, Products, and Services furnished are free from liens and encumbrances, and are free from defects in design, materials, and workmanship. In addition, Supplier warrants the Equipment, Products, and Services are suitable for and will perform in accordance with the ordinary use for which they are intended. Supplier's dealers and distributors must agree to assist the Participating Entity in reaching a resolution in any dispute over warranty terms with the manufacturer. Any manufacturer's warranty that extends beyond the expiration of the Supplier's warranty will be passed on to the Participating Entity.

C. DEALERS, DISTRIBUTORS, AND/OR RESELLERS. Upon Contract execution and throughout the Contract term, Supplier must provide to Sourcwell a current means to validate or authenticate Supplier's authorized dealers, distributors, or resellers relative to the Equipment, Products, and Services offered under this Contract, which will be incorporated into this Contract by reference. It is the Supplier's responsibility to ensure Sourcwell receives the most current information.

### **3. PRICING**

All Equipment, Products, or Services under this Contract will be priced at or below the price stated in Supplier's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

A. **SHIPPING AND SHIPPING COSTS.** All delivered Equipment and Products must be properly packaged. Damaged Equipment and Products may be rejected. If the damage is not readily apparent at the time of delivery, Supplier must permit the Equipment and Products to be returned within a reasonable time at no cost to Sourcewell or its Participating Entities. Participating Entities reserve the right to inspect the Equipment and Products at a reasonable time after delivery where circumstances or conditions prevent effective inspection of the Equipment and Products at the time of delivery. In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Supplier as soon as possible and the Supplier will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

Supplier must arrange for and pay for the return shipment on Equipment and Products that arrive in a defective or inoperable condition.

Sourcewell may declare the Supplier in breach of this Contract if the Supplier intentionally delivers substandard or inferior Equipment or Products.

B. **SALES TAX.** Each Participating Entity is responsible for supplying the Supplier with valid tax-exemption certification(s). When ordering, a Participating Entity must indicate if it is a tax-exempt entity.

C. **HOT LIST PRICING.** At any time during this Contract, Supplier may offer a specific selection of Equipment, Products, or Services at discounts greater than those listed in the Contract. When Supplier determines it will offer Hot List Pricing, it must be submitted electronically to Sourcewell in a line-item format. Equipment, Products, or Services may be added or removed from the Hot List at any time through a Sourcewell Price and Product Change Form as defined in Article 4 below.

Hot List program and pricing may also be used to discount and liquidate close-out and discontinued Equipment and Products as long as those close-out and discontinued items are clearly identified as such. Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

#### **4. PRODUCT AND PRICING CHANGE REQUESTS**

Supplier may request Equipment, Product, or Service changes, additions, or deletions at any time. All requests must be made in writing by submitting a signed Sourcewell Price and Product Change Request Form to the assigned Sourcewell Supplier Development Administrator. This approved form is available from the assigned Sourcewell Supplier Development Administrator. At a minimum, the request must:

- Identify the applicable Sourcewell contract number;

- Clearly specify the requested change;
- Provide sufficient detail to justify the requested change;
- Individually list all Equipment, Products, or Services affected by the requested change, along with the requested change (e.g., addition, deletion, price change); and
- Include a complete restatement of pricing documentation in Microsoft Excel with the effective date of the modified pricing, or product addition or deletion. The new pricing restatement must include all Equipment, Products, and Services offered, even for those items where pricing remains unchanged.

A fully executed Sourcewell Price and Product Change Request Form will become an amendment to this Contract and will be incorporated by reference.

## **5. PARTICIPATION, CONTRACT ACCESS, AND PARTICIPATING ENTITY REQUIREMENTS**

A. PARTICIPATION. Sourcewell's cooperative contracts are available and open to public and nonprofit entities across the United States and Canada; such as federal, state/province, municipal, K-12 and higher education, tribal government, and other public entities.

The benefits of this Contract should be available to all Participating Entities that can legally access the Equipment, Products, or Services under this Contract. A Participating Entity's authority to access this Contract is determined through its cooperative purchasing, interlocal, or joint powers laws. Any entity accessing benefits of this Contract will be considered a Service Member of Sourcewell during such time of access. Supplier understands that a Participating Entity's use of this Contract is at the Participating Entity's sole convenience and Participating Entities reserve the right to obtain like Equipment, Products, or Services from any other source.

Supplier is responsible for familiarizing its sales and service forces with Sourcewell contract use eligibility requirements and documentation and will encourage potential participating entities to join Sourcewell. Sourcewell reserves the right to add and remove Participating Entities to its roster during the term of this Contract.

B. PUBLIC FACILITIES. Supplier's employees may be required to perform work at government-owned facilities, including schools. Supplier's employees and agents must conduct themselves in a professional manner while on the premises, and in accordance with Participating Entity policies and procedures, and all applicable laws.

## **6. PARTICIPATING ENTITY USE AND PURCHASING**

A. ORDERS AND PAYMENT. To access the contracted Equipment, Products, or Services under this Contract, a Participating Entity must clearly indicate to Supplier that it intends to access this Contract; however, order flow and procedure will be developed jointly between Sourcewell and Supplier. Typically, a Participating Entity will issue an order directly to Supplier or its authorized

subsidiary, distributor, dealer, or reseller. If a Participating Entity issues a purchase order, it may use its own forms, but the purchase order should clearly note the applicable Sourcewell contract number. All Participating Entity orders under this Contract must be issued prior to expiration or cancellation of this Contract; however, Supplier performance, Participating Entity payment obligations, and any applicable warranty periods or other Supplier or Participating Entity obligations may extend beyond the term of this Contract.

Supplier's acceptable forms of payment are included in its attached Proposal. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

B. **ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM.** Additional terms and conditions to a purchase order, or other required transaction documentation, may be negotiated between a Participating Entity and Supplier, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entities may require the use of a Participating Addendum, the terms of which will be negotiated directly between the Participating Entity and the Supplier or its authorized dealers, distributors, or resellers, as applicable. Any negotiated additional terms and conditions must never be less favorable to the Participating Entity than what is contained in this Contract.

C. **SPECIALIZED SERVICE REQUIREMENTS.** In the event that the Participating Entity requires service or specialized performance requirements not addressed in this Contract (such as e-commerce specifications, specialized delivery requirements, or other specifications and requirements), the Participating Entity and the Supplier may enter into a separate, standalone agreement, apart from this Contract. Sourcewell, including its agents and employees, will not be made a party to a claim for breach of such agreement.

D. **TERMINATION OF ORDERS.** Participating Entities may terminate an order, in whole or in part, immediately upon notice to Supplier in the event of any of the following events:

1. The Participating Entity fails to receive funding or appropriation from its governing body at levels sufficient to pay for the equipment, products, or services to be purchased; or
2. Federal, state, or provincial laws or regulations prohibit the purchase or change the Participating Entity's requirements.

E. **GOVERNING LAW AND VENUE.** The governing law and venue for any action related to a Participating Entity's order will be determined by the Participating Entity making the purchase.

## **7. CUSTOMER SERVICE**

A. PRIMARY ACCOUNT REPRESENTATIVE. Supplier will assign an Account Representative to Sourcewell for this Contract and must provide prompt notice to Sourcewell if that person is changed. The Account Representative will be responsible for:

- Maintenance and management of this Contract;
- Timely response to all Sourcewell and Participating Entity inquiries; and
- Business reviews to Sourcewell and Participating Entities, if applicable.

B. BUSINESS REVIEWS. Supplier must perform a minimum of one business review with Sourcewell per contract year. The business review will cover sales to Participating Entities, pricing and contract terms, administrative fees, sales data reports, performance issues, supply issues, customer issues, and any other necessary information.

## **8. REPORT ON CONTRACT SALES ACTIVITY AND ADMINISTRATIVE FEE PAYMENT**

A. CONTRACT SALES ACTIVITY REPORT. Each calendar quarter, Supplier must provide a contract sales activity report (Report) to the Sourcewell Supplier Development Administrator assigned to this Contract. Reports are due no later than 45 days after the end of each calendar quarter. A Report must be provided regardless of the number or amount of sales during that quarter (i.e., if there are no sales, Supplier must submit a report indicating no sales were made).

The Report must contain the following fields:

- Participating Entity Name (e.g., City of Staples Highway Department);
- Participating Entity Physical Street Address;
- Participating Entity City;
- Participating Entity State/Province;

10	<p>Provide a brief history of your company, including your company's core values, business philosophy, and industry longevity related to the requested equipment, products or services.</p>	<p>Stertil-Koni USA (SK) was established in January 1997 in the state of Maryland. SK is a wholly-owned subsidiary of Stertil Enterprises (SE), which is a Delaware-based corporation. SE has two entities: SK and Stertil ALM, the latter of which is the manufacturing and production arm of the company. SK is responsible for all sales and marketing of Stertil-Koni products in North America, and Stertil ALM is responsible for all manufacturing.</p> <p>The core values, business philosophy, and desire for industry longevity are all reflected in the definition of the company's MVVG.</p> <p>The MISSION of SK is to enhance the safe and effective movement of all heavy-duty vehicles throughout the world. Put in the vernacular: "By lifting the world's vehicles, we allow the world to move,"</p> <p>The VISION of SK is to promote and advance the safe lifting of all vehicles for ease of service.</p> <p>The core VALUE is to simply do what is right in all aspects of our operation and to promote trust.</p> <p>The ultimate GOAL is to be the leader in all industries we serve, especially the heavy-duty industry.</p>
----	---	---

11	<p>What are your company's expectations in the event of an award?</p>	<p>Based in large part on association market share statistics, we estimate that Stertil-Koni has become the North American leader in heavy-duty lifting applications. Respectfully, we believe there is no other lift company that focuses exclusively on the heavy-duty customer, generally defined as the ability to lift vehicles over 16,000 lbs.</p> <p>Over the last 23 years, we have developed a very focused distributor base utilizing mostly "heavy-duty" oriented distributors strategically located throughout the United States and Canada.</p> <p>SK is a specialist in selling and servicing HD equipment to US Transit operations throughout the US. The present administration has invested heavily in transit to the tune of about \$100 billion per year that goes into future infrastructure planning and construction of new transit facilities.</p> <p>In addition, we maintain close relationships with the American Public Transit Association (APTA) and keep track of funding opportunities throughout the US and Puerto Rico.</p> <p>SK maintains a very studied analytical approach that monitors existing and future state-by-state project needs and planning. Therefore, one of the areas where we believe we can best promote the Sourcewell concept is with the 3,300 Transit agencies strategically located in North America. Generally speaking, Transit agencies buy heavy-duty lifting equipment at relatively high dollar volumes, and the SOURCEWELL concept is particularly well suited to promote the purchase of these products.</p> <p>Over the years, SK has become a leader in the HD marketplace. Our association with Sourcewell has solidified our position as it relates to this leadership role. As the leader in the field of heavy-duty vehicle lifting systems and a recognized marketing powerhouse in the transportation servicing field, Stertil-Koni takes great pride in its sense of focus, dedication to customer service, as well as ongoing readiness to perform at the highest levels of excellence. Given the fact that Sourcewell has been a catalyst in our development, the hopeful expectation of an award will further help solidify our position in the marketplace.</p> <p>Based on our previous and existing relationship with Sourcewell, we can immediately become operational if we are fortunate enough to benefit from an award. This will benefit Sourcewell, our distributors, our customers, and SK.</p> <p>In summary, our expectations are the following:</p> <ul style="list-style-type: none"> <li>· Using our expertise and experience with the APTA, we can predict and anticipate purchasing needs related to the 3,300 US transits. Sourcewell will play a profound role in that conceptual leadership.</li> <li>· Our previous success and existing excellent relationship with Sourcewell will allow us to continue the momentum that has been established.</li> <li>· The increased addition of new product models, as well as an emphasis on shop equipment, will grow Sourcewell-based sales.</li> <li>· We want to increase training and collaboration between Sourcewell, our internal sales staff, and our individual 28 distributors in order to facilitate the purchase of equipment through Sourcewell.</li> <li>· Sourcewell is a great facilitator in the sense that it streamlines and removes the burden of traditional "low-bid" procurement.</li> </ul>
12	<p>Demonstrate your financial strength and stability with meaningful data. This could include such items as financial statements, SEC filings, credit and bond ratings, letters of credit, and detailed reference letters. Upload supporting documents (as applicable) in the document upload section of your response.</p>	<p>Stertil-Koni USA is part of the Stertil group—a highly diversified and highly profitable company with operations throughout the world, including Europe, Asia, and North America. The sales headquarters for SK USA is in Stevensville, Maryland. We are especially proud of our US manufacturing factory in Streator, Illinois, where we employ over 80 workers in various job functions. Our profitability measured through EBITDA is very healthy, and we have the financial resources to be able to continue investing in North America.</p> <p>To demonstrate Stertil-Koni USA's financial strength and stability, we have attached the company's Balance Sheet, Statement of Income, and The Independent Accountant's Review Report for 2020-2022 (Attachment 1).</p> <p>Some highlights from the years 2020 - 2022 include:</p> <ul style="list-style-type: none"> <li>- Revenues have grown from \$46 Million in 2020 to \$84 Million in 2022.</li> <li>- Profit before tax has grown from \$5.8 Million in 2020 to \$10.7 Million in 2022.</li> <li>- The equity and equity ratios in 2022 are \$15.1 million and 70%, respectively.</li> </ul>

13	What is your US market share for the solutions that you are proposing?	<p>SK is a member of the Automotive Lift Institute (ALI). As such, there are 19 members compromising both HD and automotive lifts. In the HD sector, as of October 2023, we enjoy the following market share:</p> <p>MOBILES: 37% (among 12 competitors)            SKYLIFTS: 48% (among 5 competitors)            DIAMOND LIFTS: 48% (among 3 competitors)            ECOLIFT: 92%( among 2 competitors)</p>	*
14	What is your Canadian market share for the solutions that you are proposing?	<p>SK is represented by two major distributors in Canada: Novaquip (Ontario, Quebec, and the Maritime Provinces) and Westvac for British Columbia, Manitoba, and Alberta.</p> <p>These two significant distributors represent approximately 90% of the Canadian economy's economic valuation. Our strong distributor presence in these provinces, based on our historical and reality-based knowledge of winning the majority of the public bids, leads us to estimate that we enjoy perhaps 50% of the total market.</p> <p>Having said that, precise Canadian market share estimates are virtually impossible to confirm.</p>	*
15	Has your business ever petitioned for bankruptcy protection? If so, explain in detail.	No. Stertil-Koni has never petitioned for bankruptcy protection.	*
16	How is your organization best described: is it a manufacturer, a distributor/dealer/reseller, or a service provider? Answer whichever question (either a) or b) just below) best applies to your organization. a) If your company is best described as a distributor/dealer/reseller (or similar entity), provide your written authorization to act as a distributor/dealer/reseller for the manufacturer of the products proposed in this RFP. If applicable, is your dealer network independent or company owned? b) If your company is best described as a manufacturer or service provider, describe your relationship with your sales and service force and with your dealer network in delivering the products and services proposed in this RFP. Are these individuals your employees, or the employees of a third party?	<p>Stertil-Koni (SK) is best described as a distributor/dealer/reseller for a manufacturer of the proposed products/ equipment and related services.</p> <p>a) SK is the sales and marketing arm of the parent company we represent, Stertil Group BV. SK is also the sales and marketing arm of the US manufacturing company Stertil ALM. Attached is evidence of SK authorization as an equipment reseller from Stertil B.V. and Stertil ALM (Attachment 2).</p> <p>b) SK (the current applicant for the Sourcewell contract) is not a manufacturer. Stertil ALM (owned by the same parent company) is a sister company to SK. Stertil-ALM is the Streator, Illinois-based manufacturer. SK (Stevensville) is the sales and marketing arm of the North American operation.</p> <p>c) Rather, we are a member of the Stertil Group BV family of companies with a mandate to provide sales and service through an independent network of 28 exclusive distributors that operate in the U.S., Canada, and the Caribbean. These dealers are all independent third-party entities and represent the SK products in the heavy-duty vehicle lifting product marketplace on an exclusive basis in their specific territories.</p>	*
17	If applicable, provide a detailed explanation outlining the licenses and certifications that are both required to be held, and actually held, by your organization (including third parties and subcontractors that you use) in pursuit of the business contemplated by this RFP.	<p>Stertil-Koni USA, Inc. is incorporated in the State of Maryland. We have attached the Good Standing Certificate issued by the State of Maryland's Department of Assessment and Taxation (Attachment 3). Stertil-Koni USA's FEIN # is 52-2010741. Our line of business does not require any additional specific licenses or certifications.</p> <p>That said, SK is a member of the Automotive Lift Institute (ALI), our industry's highly regarded independent watchdog. Stertil-Koni is proud to have a large number of heavy-duty lifting systems that are ALI/ETL Certified. By way of further background, ALI's mission is to promote the safe design, construction, installation, inspection, and use of vehicle lifts. Please see the attached documentation showing all of Stertil-Koni's lift models and accessories that are certified by ALI (Attachment 4).</p>	*
18	Provide all "Suspension or Debarment" information that has applied to your organization during the past ten years.	Not applicable. Stertil-Koni has not been the subject of "Suspension or Disbarment.	*

19	Describe any relevant industry awards or recognition that your company has received in the past five years	<p>Stertil-Koni has won several key awards for its product engineering. In addition, the company has been awarded multiple patents for its products by the United States Patent and Trademark Office (USPTO) and the Canadian Patent Office.</p> <p>Industry Recognition</p> <ul style="list-style-type: none"> <li>• First vehicle lift company in the industry to be ISO 9001 certified</li> <li>• First lift manufacturer to offer certified mobile lifting columns utilizing wireless communications</li> <li>• First lift manufacturer to offer certified mobile lifting columns incorporating active energy retrieval system (AERS)—promoting "green" technology.</li> <li>• It is our contention that Stertil-Koni has the largest number of ALI/ETL-certified heavy-duty vehicle lifts registered with our industry's independent watchdog, the Automotive Lift Institute (ALI).</li> <li>• Recipient of the prestigious Innovation Award from Professional Tool and Equipment for developing the EARTHLIFT, the industry's first "green" mobile column lift. 20	What percentage of your sales are to the governmental sector in the past three years	<p>Stertil-Koni built its reputation and sales based on municipal or government sales. From our inception in 1997 to 2010, the percentage of sales to the governmental sector was 81%. However, since 2011, Stertil-Koni began an active campaign to even out sales between the government and the private sector. As a result of these efforts between 2011 and 2019, our government sector represented 68%, with 32% trending toward the private sector. In terms of a particular direction, 20% of that 32% is focused on national accounts such as United Airlines, Southwest Airlines, Penske, and Ryder trucks.</p>
21	What percentage of your sales are to the education sector in the past three years	<p>The education sector is relatively underrepresented at Stertil-Koni and represents approximately 4% of sales. This is an area where we expect that Sourcewell's availability can help us increase market share. The majority of sales within that 4% is devoted to School Districts.</p>
22	List any state, provincial, or cooperative purchasing contracts that you hold. What is the annual sales volume for each of these contracts over the past three years?	<p>CMAS: 2020 - \$0.00 / 2021-\$72,827 / 2022-\$0.00  FL Sheriffs: 2020 - \$199,918 / 2021-\$649,869 / 2022-\$1,019,238  NASPO: 2020 - \$7,970,923 / 2021-\$5,848,534 / 2022-\$9,349,757  NJ-ESCNJ: 2020- \$1,005,293 / 2021-\$851,091 / 2022-\$496,590  Sourcewell: 2020-\$3,369,290 / 2021-\$5,070,447 / 2022-\$11,550,061</p>

**Table 6: Ability to Sell and Deliver Service**

Describe your company's capability to meet the needs of Sourcewell participating entities across the US and Canada, as applicable. Your response should address in detail at least the following areas: locations of your network of sales and service providers, the number of workers (full-time equivalents) involved in each sector, whether these workers are your direct employees (or employees of a third party), and any overlap between the sales and service functions.

Line Item	Question	Response *	
26	Sales force.	Stertil-Koni (SK) has ten (10) sales managers. Because these sales personnel are employed by SK, they devote 100% of their time to SK and the support of their individual distributors. Each manager represents approximately an average of 4-8 states per person. (See attachment 5)	*
27	Dealer network or other distribution methods.	SK products are available through a dedicated network of 28 exclusive distributors. The concept of exclusivity is one that SK conceived early on in our development. By nature, exclusivity promotes a basis for loyalty, trust, and devotion to the causes that SK espouses and to the programs that SK is fortunate enough to derive benefit and investment. Sourcewell is one of those concepts, and since our distributors are exclusive, we are able to impart a sense of direction and strategic focus. These 28 distributors, exclusive to SK in the delivery, installation, and servicing of heavy-duty vehicle lifting systems and accessories, provide coverage for all the states in the U.S. (including Hawaii and Alaska) as well as all provinces of Canada. We also have a distributor that covers the Caribbean. (see attachment 6)	*

28	Service force.	<p>The nature of the SK product is that service and installation are required in the sale and support of the products. As it relates to mobiles, training, and plug-ins are required, but as the demand for in-ground lifting needs (especially Diamond Lift inground) increases, installation and training become pronounced.</p> <p>Therefore, SK has an experienced, professional service department to support our network of dedicated distributors and the company's end users. This service department includes a service manager and four highly trained service technicians. Please note that all service personnel are full-time employees who are 100% dedicated to the SK product line.</p> <p>Each of our service techs undergo stringent training at our US manufacturing facility in Streator, Illinois.</p> <p>All four (4) of the SK service technicians are located in Stevensville, Maryland. The Stertil-Koni service department assists distributors by providing training as well as servicing and installing equipment. Further, as part of our commitment to delivering exceptional customer service, Stertil-Koni maintains and staffs a 24/7 telephone hotline in case of a technical issue that requires immediate attention. Thus, customers of Stertil-Koni products have direct access to service and technical support around the clock, 24/7, 365 days per year.</p> <p>Our service department consists of:  Kevin Hymers, Director of Operations.  Mike Tillberry, Service Manager.  Mike Nichols, Service Technician.  Travis Wilks, Service Technician.  Mike Turner, Service Technician.</p> <p>These four (4) techs are used to support our distributors, deal with difficult problems, and, if necessary, service customers and distributors around the US as needed.</p>
29	Describe the ordering process. If orders will be handled by distributors, dealers or others, explain the respective roles of the Proposer and others.	<p>As previously mentioned, SK sells and provides service to an exclusive group of 28 strategically distributed distributors throughout North America. These partners have been instrumental to the overall success of the Sourcewell / Stertil-Koni USA partnership, and as such, they will be very involved in the sales and order processing procedure.</p> <p>As it relates to the specific ordering process, we require that purchase orders from Sourcewell Members be issued to Stertil-Koni USA rather than the Dealer Network. Of course, the distributors will be the primary source of sales and the principal contact point with a Sourcewell Member as it relates to product demonstrations, setup and training, and regular customer service questions.</p> <p>Centralization is critical for several reasons:</p> <ul style="list-style-type: none"> <li>a) Consistency, accuracy, and contract compliance. All of our distributors are independent third-party corporations. As such, it would be virtually impossible for Stertil-Koni USA to guarantee contract compliance as it relates to pricing, discounts, and other terms and conditions if we don't see each purchase order. Thus, the only way SK can guarantee 100% compliance is by processing all orders directly.</li> <li>b) Reporting: Centralizing all purchase orders through Stertil-Koni USA will also ensure that all sales are included in calculating and payment of the administrative fee to Sourcewell.</li> </ul> <p>We wish to emphasize that one of Stertil-Koni USA's great strengths lies within our highly customer-oriented exclusive Dealer Network. Even though the purchasing process is centralized, all Sourcewell Members will receive the same level of service and follow-up as if they placed their purchase orders locally.</p> <p>Therefore, Stertil-Koni USA requires that all purchase orders from Sourcewell Members shall be issued to Stertil-Koni USA, Inc. by:</p> <p>E-mail: <a href="mailto:orders@sterdil-koni.com">orders@sterdil-koni.com</a>  Mail: Stertil-Koni USA, Inc., 200 Log Canoe Circle, Stevensville, MD 21666  Fax: +1 410-643-8901</p>

30	Describe in detail the process and procedure of your customer service program, if applicable. Include your response-time capabilities and commitments, as well as any incentives that help your providers meet your stated service goals or promises.	<p>SK is a sales, marketing, and service organization with one goal: to provide professional support to our customers and partners such as Sourcewell.</p> <p>In terms of our service program process and procedure, Stertil-Koni (SK) maintains a full line of professionals in-house dedicated to supporting our sales, installation, and marketing efforts. The company's in-house sales force comprises 10+ employees and a CAD engineer to provide sales, customer support, and technical guidance. In addition, at our headquarters location in Stevensville, we have a dedicated operations/customer support and technical team (available 24/7) - as well as a complete warehousing operation with four employees, a marketing department with three professional employees, a financial department, and related support staff.</p> <p>The Stertil-Koni organization is dedicated to providing radical customer service with a commitment to a 24/7 response for sales, service, and technical inquiries. Stertil-Koni also utilizes a web-based CRM system to track customer satisfaction and a state-of-the-art inventory management system for tracking financial results, product shipments, and more.</p>	*
31	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in the United States.	<p>SK was built on the vision and promise of being willing to become the market leader, and based on many measures, we have achieved that. Willingness is a motivational exercise that is based on intention and drive. Ability is quite different. Ability presupposes that there are factors in place that allow the willingness to proceed. In the 26 years that we have successfully built the SK organization we have put together the steps needed to effectively provide the SK products to the Sourcewell entities. This is based on the following:</p> <ul style="list-style-type: none"> <li>• The 28 SK distributors have the geographical outreach to take care of the outlying geographic areas also represented by Sourcewell entities</li> <li>• SK as an organization has the financial outreach and high levels of profitability to provide the necessary services and products to all Sourcewell entities.</li> <li>• SK has the intellectual capital to be able to serve the multiplicity of needs of all the Sourcewell stakeholders.</li> <li>• SK has the products and services to allow Sourcewell to grow in the many markets that it represents.</li> <li>• SK has the foresight and is in the process of developing the products of tomorrow that the changing landscape of the service market will need in the foreseeable future.</li> </ul>	*
32	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in Canada.	Everything explained in 31 has the same application for Canada. In fact, Canada was the source of the second selection of SK distributors in 1997. Canada is part of North America. We share the same culture, values, and needs of the USA. SK has always prioritized the needs of the Canadian market. As indicated in our submission, we further believe that, proportionately speaking, Canada has a bigger potential than the US in terms of opportunities and needs. In addition, SK has recently hired a Regional Sales Manager located in Calgary, Canada.	*
33	Identify any geographic areas of the United States or Canada that you will NOT be fully serving through the proposed contract.	SK is dedicated to providing and servicing the geographical areas that represent North America. There is no geographical area that we do not cover or at least attempt to cover.	*
34	Identify any Sourcewell participating entity sectors (i.e., government, education, not-for-profit) that you will NOT be fully serving through the proposed contract. Explain in detail. For example, does your company have only a regional presence, or do other cooperative purchasing contracts limit your ability to promote another contract?	SK intends to provide sales and support to all entities served by Sourcewell.	*
35	Define any specific contract requirements or restrictions that would apply to our participating entities in Hawaii and Alaska and in US Territories.	SK is fully committed to fulfilling the contract requirements for Hawaii, Alaska, and US territories. To ensure smooth execution, detailed discussions regarding freight and support needs are crucial due to the geographical expanse of these regions.	*

37	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	<p>Stertil-Koni embraces advanced technology and the use of the Internet as key tools in providing world-class, ongoing marketing activities. Further, these elements will be a cornerstone of our dedicated efforts to ensure broad contract awareness in the U.S. and Canada upon an award from Sourcwell.</p> <p>What follows below is greater detail regarding Stertil-Koni's use of technology to enhance marketing effectiveness.</p> <p>Stertil-Koni employs the latest technology on multiple fronts to provide world-class marketing. We will leverage our expertise and apply it to enhance our marketing effectiveness in conjunction with an award from Sourcwell - all to ensure national (and international) contract awareness. Examples include:</p> <ol style="list-style-type: none"> <li>CRM System: Stertil-Koni utilizes Sugar, a world-class, web-based customer relationship management (CRM) system that is updated daily to track all bids, leads, projects, trade shows, customer interactions, customer feedback, distributor activities, sales and more. This is all part of our ongoing management approach that we describe in two simple words: "Measurement Matters." The result? Top management and sales representatives can track in real-time all active deals, leads, and trade show activity across the U.S. and Canada to increase our "closing rate" and ensure the highest levels of customer satisfaction.</li> <li>Enterprise Software: Stertil-Koni uses a powerful enterprise software system from SAP to closely track inventory, product shipments, sales, warranty claims, and financial results to further ensure the superior reviews in terms of customer support and satisfaction. 38	In your view, what is Sourcewell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcewell-awarded contract into your sales process?	<p>It is our contention that the previous relationship between SK and Sourcewell has been beneficial for both parties. Accordingly, we hope that the cooperation will continue and we will derive a mutual benefit by working together. We think that the key benefits and attributes of the relationship include the following:</p> <ul style="list-style-type: none"> <li>• SK regularly invites Sourcewell managers to yearly events where all our sales personnel meet. The benefits that derive from these annual events include the opportunity for Sourcewell to meet the key salespeople to increase sales of Sourcewell-related contracts and to understand the rules and regulations of the Sourcewell contract.</li> <li>• Sourcewell literature and graphics are displayed at Stertil-Koni's extensive trade show schedule of events. SK is the only heavy-duty vehicle lift company that regularly engages in more than 100 trade shows per year. In fact, SK regularly attends the APTA (American Public Transit Association) show + the Public Utility show, and many others.</li> <li>• Sourcewell executives are invited to participate at Stertil-Koni's Annual Distributor Meeting - our single most important sales event of the year - and make a major presentation to all our key leadership and sales personnel regarding the tremendous opportunities afforded by the Sourcewell contract.</li> <li>• Sourcewell will issue its own press release announcing that Stertil-Koni has been awarded a contract for "Vehicle Lifts, with Garage and Fleet Maintenance Equipment." For our part, Stertil-Koni will integrate a Sourcewell-awarded contract into our sales process with details below: <ul style="list-style-type: none"> <li>• Immediately upon the contract award, SK will contact all employees and distributors with news of the award and, that same day, initiate our high-impact marketing campaign.</li> <li>• Sales personnel will be the first to be targeted. Hence, our campaign, emphasizing the contract award, will instantly reach Stertil-Koni's in-house sales personnel, totaling 13 top professionals located strategically across North America as well as our entire distributor network, totaling 28 distributor companies and approximately 100 salespeople in the U.S. and Canada.</li> <li>• It is our firm commitment that each Stertil-Koni sales representative and distributor will receive pertinent and timely information about the Sourcewell award and pricing within 24 hours of the contract award, with ongoing briefings and follow-up.</li> <li>• If we are fortunate enough to be awarded a contract, SK marketing will engage in major promotional activities to inform our customer base of the renewed Sourcewell contract.</li> <li>• A Stertil-Koni press release will announce the contract award, to be distributed via PR Newswire to our extensive media contact list.</li> <li>• Sourcewell will receive prominent placement on our website's "How to Buy" page (please see attachment 7).</li> <li>• Stertil-Koni will deliver an eBlast to our opt-in list of +35,000 via Constant Contact (sample attached) and continue to inform this key audience regarding the opportunity to purchase our lifting systems, shop equipment, and accessories via the Sourcewell contract.</li> <li>• Trade show presence in terms of Sourcewell literature and banners (attachment 7).</li> <li>• A Sourcewell presentation will be given by a senior Sourcewell executive at the Stertil-Koni Annual Distributor Meeting.</li> <li>• Stertil-Koni Marketing will design and run select banner ads in key industry trade publications (attachment 7).</li> </ul> </li> </ul>	*
39	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	<p>At the current time, market forces have shown - and Stertil-Koni concurs - that the company's heavy-duty vehicle lifting systems are not yet applicable for an E-procurement process, particularly given the complexity of the systems and the consultative manner in which they are evaluated and sold.</p> <p>That said, Stertil-Koni makes every effort to expand its online visibility for its full range of products, accessories, and services.</p> <p>Our entire product line of comprehensive shop equipment and accessories is available online at <a href="http://www.Stertil-Koi.com">www.Stertil-Koi.com</a> with product details available as follows:</p> <ul style="list-style-type: none"> <li>• Stertil-Koni Product Catalog; and</li> <li>• Stertil-Koni Shop Equipment and Accessories.</li> </ul>	*

40	Describe any product, equipment, maintenance, or operator training programs that you offer to Sourcewell participating entities. Include details, such as whether training is standard or optional, who provides training, and any costs that apply.	<p>All equipment provided by Stertil-Koni and our network of dedicated distributors includes equipment setup and operational training as standard. At any time after the initial sales, the Stertil-Koni group can provide additional operator training. Further, training material is always available in print, web, and video formats. Also, when requested by the end-user, Stertil-Koni will additionally provide maintenance training on our equipment and accessories.</p> <p>In addition, SK holds regular, ongoing sales and product training meetings at multiple locations around the U.S. At those meetings, equipment maintenance and training are conducted and evaluated in detail.</p> <p>SK provides extensive training in the following product categories:</p> <ul style="list-style-type: none"> <li>• Mobile columns—evaluation and placement of rollers and slide blocks—trained in e bright controls and integration—metal cabinet wireless controls—evaluation of power lifts—Earthlift controls—Batteries—Ebright VAC controls</li> <li>• ECOLIFTS—trained in evaluation and placement of slide blocks—trained in versions of centering lines and sliding retainers—overview of classic controls—in-depth review of PCB basic controls—in-depth review of ebright controls—inclinometer values and adjustments—max height programming—AWBP</li> <li>• Diamond lifts—assembly of pistons—in-depth explanation of sonar-based oil sensors—review of items in oil tank—e bright controls—review of sump pump</li> <li>• SKY lifts—in-depth review of PCB-based controls—E Bright controls—software updates</li> </ul>
41	Describe any technological advances that your proposed products or services offer.	<p>Stertil-Koni is the recognized innovation leader in the heavy-duty vehicle lift industry. Stertil-Koni holds numerous patents in the United States and Canada for our lifting methods, engineering design, and support systems. Many of the products offered by Stertil-Koni are unique and are not available from other manufacturers. For example, Stertil-Koni was the first manufacturer to provide a green lifting solution for mobile lifting columns and now offers a control system - called ebright Smart Control System -- that incorporates a 7-inch full-color touch screen, much like a computer tablet, for human/machine interface.</p> <p>This solution puts all the operations of the vehicle lift directly at the fingertips of the person who needs the information most - the busy technician on the shop floor. Further, future updates can be provided via software downloads; performance tracking is captured in a "black box" environment; and the touch-screen interface is quick, easy-to-use, and intuitive. Please note that the ebright Smart Control System is ALI/ETL certified and unmatched in the industry.</p> <p>Highlights of what the ebright Smart Control System includes:</p> <ul style="list-style-type: none"> <li>• A high-resolution, brightly illuminated, full-color, 7-inch screen</li> <li>• Touch screen control, even when the technician is wearing gloves</li> <li>• Owner/user-configurable options, including choice of language and personalized ID key to protect against unauthorized use</li> <li>• Presentation of all relevant information at a glance</li> <li>• Up to 16 mobile columns fully synchronized in a single set.</li> </ul> <p>Modeled on the conceptual benefits of today's computer tablets, features of the ebright Smart Control system include such vital data as maintenance notifications, programmable lifting-height settings, tracking of specific operations, information codes, and even the operator manual.</p>

42	Describe any "green" initiatives that relate to your company or to your products or services, and include a list of the certifying agency for each.	<p>At Stertil-Koni, the leader in heavy-duty vehicle lifts, we've taken green technology to new heights in both mobile column lifts and in-ground lifts. Our highly regarded EARTHLIFT is the industry's first hydraulic green mobile column lift. Its columns are made with components that are 98% recyclable, and the Active Energy Retrieval System (AERS) allows operators to achieve 50% more lifting cycles at maximum lifting load. What's more, the on-screen display highlights the AERS system, enabling the operator to see savings in real-time. EARTHLIFT also uses a closed hydraulic system that contains bio-degradable fluid, and the batteries are 100% recyclable.</p> <p>Many maintenance facilities also utilize in-ground lifts. That's why Stertil-Koni pioneered the introduction of our U.S. and Canadian-patented ECOLIFT, with a lifting capacity of up to 90,000 lbs. It is the industry's original ultra-shallow, full-rise in-ground axle engaging lift. In addition, ECOLIFT uniquely combines high-pressure low volume hydraulics and only requires 3.5 gallons of fluid per scissor - and the hydraulics and electrical components are contained in a free-standing console above ground for easy access. This lift ensures sizeable cost savings on construction and installation and can be utilized in existing workshop pits and even at locations with high water tables.</p> <p>Stertil-Koni also features the DIAMONDLIFT, an in-ground telescopic piston lift setting new standards in heavy-duty lifting. Each piston uses less than five gallons of bio-degradable hydraulic fluid. Plus, all DIAMONDLIFT cassettes are fully self-contained, thanks to Stertil-Koni's exclusive DiamondGuard coating. This unique compound ensures that hazardous shop fluids do not enter the environment. In that way, soil contamination is not a concern.</p>	*
43	Identify any third-party issued eco-labels, ratings or certifications that your company has received for the equipment or products included in your Proposal related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors.	<p>Virtually all heavy-duty Stertil Koni heavy-duty (HD) lifting products carry the Automotive Lift Institute (ALI) gold label.</p> <p>In addition, Stertil Koni is an ISO 9001-certified company and was the first lift company in the world to acquire ISO 9001 certification.</p> <p>Furthermore, Stertil Koni is the most environmentally friendly company in the HD lifting world. SK manufactures products that meet the "green standard" criteria. Toward that end, we have designed HD lifts with full-color touchscreen control that provide solutions to save energy. We have designed the Active Energy Retrieval System (AERS) feature. The AERS allows the operator to achieve up to 50 lifting cycles without battery recharging. The ingenious concept allows the motor to reverse counter-clockwise and automatically recharge the battery during the downward motion. This saves the end-user thousands of dollars per year in electricity usage, given the fact that the type of equipment used by Stertil Koni requires 220/460 volts. As such, 98% of the materials are recycled materials. Such life cycle design parameters mean that Stertil-Koni is at the forefront of product design and application.</p>	*
44	Describe any Women or Minority Business Entity (WMBE), Small Business Entity (SBE), or veteran owned business certifications that your company or hub partners have obtained. Upload documentation of certification (as applicable) in the document upload section of your response.	<p>Stertil-Koni USA, Inc. makes a concerted, proactive effort to partner with WMBEs and SBEs whenever possible.</p> <p>This is especially true at our manufacturing location in Streator, Illinois, where we need to meet the needs and requirements of the Buy America Act (Surface Transportation Act of 1987). As a result, we often have to purchase US steel and other local US purchasing requirements.</p> <p>Stertil-Koni USA has also outsourced its corporate IT hardware and software services to a Service Disabled Veteran Owned Business (SDVOB) company, Corsica Technologies, headquartered in Centreville, MD 21617.</p> <p>Stertil-Koni USA proactively and aggressively solicits Minority and Women-owned Business Enterprises (MWBES) for all trucking services. We are currently requesting quotes from AIT Worldwide Logistics, Middleburg Heights, OH 44130, Expedited Transportation Services, Loganville, GA 30052, and Davis Freight Management Inc., Alden, NY 14004. All three companies are approved MWBEs by the State of New York.</p> <p>If Stertil-Koni USA is awarded a contract with Sourcewell, our goal will be to expand our utilization of WMBEs and SBEs for the trucking services resulting from the Sourcewell contract. To that end, Stertil-Koni USA will identify several national and global freight agencies with existing MWBE and/or SBE accreditation in good standing.</p>	*

45	What unique attributes does your company, your products, or your services offer to Sourcewell participating entities? What makes your proposed solutions unique in your industry as it applies to Sourcewell participating entities?	<p>As the leader in heavy-duty vehicle lifting systems in North America, Stertil Koni provides the following benefits to Sourcewell:</p> <ul style="list-style-type: none"> <li>Established, mature, and experienced exclusive distributor organization dedicated to the sale and service of heavy-duty lifting equipment, accessories, and shop equipment.</li> <li>Innovative products that continually meet the needs of the marketplace place, including addressing the needs of meeting ecological standards.</li> <li>The principle and development of the Active Energy Retrieval System is unique in the marketplace and greatly reduces energy requirements in the workshop.</li> <li>Mobile lifting technology can achieve up to 50 lifting cycles without battery recharging, thereby increasing the productivity of the marketplace.</li> <li>Unlike other competitors that utilize electricity and hydraulic oil in the pit area, the SK reservoir is contained 18" above the ground, thereby meeting the requirements of Class 1 Division 1 standards.</li> <li>Fanatical focus and commitment to excellent service and availability of spare parts.</li> </ul>	*

**Table 9: Warranty**

**Describe in detail your manufacturer warranty program, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your warranty materials (if applicable) in the document upload section of your response in addition to responding to the questions below.**

Line Item	Question	Response *	
46	Do your warranties cover all products, parts, and labor?	Our warranty covers all of our products. Our standard warranty is 1-year labor, 2-year parts, and 5-year parts only on hydraulic cylinders used in our mobile lifting columns and a lifetime parts-only warranty on nylon guide rollers used in SK lifting products that utilize such rollers. (Attachment 9)	*
47	Do your warranties impose usage restrictions or other limitations that adversely affect coverage?	<p>We do have two instances where the warranty is limited.</p> <p>(a) This warranty does not apply where equipment has been damaged due to abnormal wear, misuse, overloading, accident (including shipping), improper maintenance, alteration, improper fluid maintenance, or other causes "not the result of defective materials or workmanship."</p> <p>(b) Stertil-Koni lifting equipment must be installed and serviced by Stertil-Koni factory-trained and Stertil-Koni factory-authorized service technicians. Stertil-Koni lifting equipment not installed and serviced by Stertil-Koni factory-trained and Stertil-Koni factory-authorized service technicians will result in a voided warranty.</p>	*
48	Do your warranties cover the expense of technicians' travel time and mileage to perform warranty repairs?	Yes, under the one (1) year labor timeframe of our warranty. Past the one (1) year, technicians' travel and time are billable.	*
49	Are there any geographic regions of the United States or Canada (as applicable) for which you cannot provide a certified technician to perform warranty repairs? How will Sourcewell participating entities in these regions be provided service for warranty repair?	Stertil-Koni covers all geographic regions of the U.S. Warranty service is handled through our network of distributors. Each distributor has an assigned geographic area they are responsible for covering. See attachment 6 for the distributor listing.	*
50	Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?	Yes. Our standard warranty covers all our products - 1-year labor and 2 years parts.	*
51	What are your proposed exchange and return programs and policies?	Generally speaking, and depending on the circumstances of the individual situation, the goal at SK is to provide customer satisfaction. If SK is not able to satisfy customer requirements, with the exception of certain in-ground lifting products, which are essentially impossible to return and exchange. In that case, we will work with existing Sourcewell customers to provide a level of compliance and satisfaction with the required product quality.	*
52	Describe any service contract options for the items included in your proposal.	Because the type of equipment that Stertil-Koni sells (with the exception of mobiles) requires an installation phase or several installation phases, there are various options for both installation and post-sale service requirements that are performed by our distributors. Such options are better explored and actualized by contacting the individual SK distributors.	*

**Table 10: Payment Terms and Financing Options**

Line Item	Question	Response *	
53	Describe your payment terms and accepted payment methods.	Stertil-Koni's payment terms are Net 30 days.	*
54	Describe any leasing or financing options available for use by educational or governmental entities.	Stertil-Koni does not have a leasing plan or financing options available at this time.	*
55	Describe any standard transaction documents that you propose to use in connection with an awarded contract (order forms, terms and conditions, service level agreements, etc.). Upload a sample of each (as applicable) in the document upload section of your response.	Stertil-Koni sends the terms and conditions with each invoice. (see attachment 10)	*
56	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcwell participating entities for using this process?	No. Currently, Stertil-Koni does not accept the P-card and payment process. However, we are open to exploring the opportunity.	*

**Table 11: Pricing and Delivery**

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcwell Price and Product Change Request Form.

Line Item	Question	Response *	
57	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcwell discounted price) on all of the items that you want Sourcwell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	Stertil-Koni publishes and regularly updates a price list containing all items offered to Sourcwell members. At the same time, there are a limited number of additional items, such as product installation for fixed lifts, which are not found on the published price list but are negotiated with and agreed upon in partnership with the end-user before consummating the sale. The Purchase Order for an item of this type is always directed to Stertil-Koni.  Canada: On request, Stertil-Koni USA, Inc. will provide quotes in Canadian Dollars that will remain valid for 30 days.	*
58	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	Stertil-Koni is pleased to be provided with this opportunity by Sourcwell. We realize the value of purchasing contracts and look forward to a favorable outcome in our proposal to Sourcwell. Stertil-Koni intends to offer Sourcwell a very favorable discount off the list price as displayed in our published price list. The discounts on Stertil-Koni lifting systems will be as follows:  For the purchase of 1 lifting system: 29% off the list price. For the purchase of 2-7 lifting systems: 32% off list price. For the purchase of 8 or more lifting systems: 33.5% off the list price.	*
59	Describe any quantity or volume discounts or rebate programs that you offer.	For the purchase of 1 lifting system: 29% off list price. For the purchase of 2-7 lifting systems: 32% off list price. For the purchase of 8 or more lifting systems: 33.5% off list price.	*
60	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	All Stertil-Koni lifting system products will be offered as part of the Sourcwell contract. With regard to additional costs, as they relate to Stertil-Koni, these typically would be for infrastructure repairs associated with fixed machinery (i.e., in-ground lifting systems, two-post, four-post, and platform lifts). In those instances: a. Strategy: Sourcwell member will work with the Stertil-Koni distributor in the member's territory to establish a fair and reasonable price for the additional items. b. Process: Stertil-Koni's distributor will alert Stertil-Koni to the request and communicate the details to the Sourcwell member and Stertil-Koni. c. Specific Method: The Sourcwell member will add the agreed-upon item on the PO, which is submitted directly to Stertil-Koni.	*

61	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	Total "Costs of Acquisition" charges not included in "Pricing" submitted in the Stertil-Koni proposal are: a. Installation of fixed equipment lifting systems (e.g., in-ground piston and scissor lifts, platform lifts, two-post and four-post lifts): These costs are to be agreed upon between the Sourcewell member and the Stertil-Koni distributor. b. Freight: FOB Stevensville	*
62	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	All shipping and delivery is FOB Stevensville at cost.  By way of further background, Stertil-Koni has a dedicated Logistics Department at the company's headquarters in Stevensville, Maryland, that works with numerous high-quality shipping companies throughout the United States and Canada.  With our equipment's unique shape, weight, and transportation considerations, Stertil-Koni has developed a very responsive transportation network. We have very competitive rates with all our carriers and have an outstanding record of less than 0.1% in freight damage using our methods.  In sum, Stertil-Koni does not markup freight charges, only invoicing for exact charges for equipment shipments.	*
63	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	Stertil Koni products offered to Sourcewell members are priced FOB Stertil-Koni in Stevensville, Maryland. As such, the original expense to ship the product to the user is paid by the user at the time of sale. This includes all locations in the continental US. In accordance with the exchange and return policy stated above, and to ensure radical customer service.  Stertil Koni would provide for shipping as needed to return or exchange a product that did not satisfy the end-user (at SK's expense).	*
64	Describe any unique distribution and/or delivery methods or options offered in your proposal.	As previously described, delivery of equipment outside the continental US will generally require containerized vessels to various ports. For example, we provide ECOLIFTs to San Juan, Puerto Rico, and those lifts can only be provided by including them in a sealed container, which is a unique delivery method. 95% of the time, our equipment can be included on common carriers.	*

**Table 12: Pricing Offered**

**Table 13: Audit and Administrative Fee**

Line Item	Question	Response *
-----------	----------	------------

66	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcwell. This process includes ensuring that Sourcwell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcwell. Provide sufficient detail to support your ability to report quarterly sales to Sourcwell as described in the Contract template.	<p>Proper contract compliance is the end goal. Steril-Koni has established procedures and systems in place used in previous contracts and adjusted to meet the increased needs of Sourcwell. These procedures and systems were driven in part to fully comply with existing purchasing contracts, such as Steril-Koni USA's GSA schedule, which now runs through the Federal Contracts Corporation. Regarding the order processing side of the business, we have multiple checkpoints in place.</p> <ul style="list-style-type: none"> <li>a) The purchase orders from Sourcwell customers will be reviewed by two different members of the accounting team as well as Sourcwell-related staff.</li> <li>b) All customer purchase orders are also checked for pricing, discounts, and all other terms and conditions before the order is entered into the SAP system. We have implemented this order entry review process to catch pricing and discount anomalies before the order is inputted into our system.</li> <li>c) Finally, we check the invoice for pricing and discount compliance before sending it to the customer. Consequently, if there should be an error in the original quote, an error in the purchase order from the Sourcwell customer, or an incorrect order entry input on Steril-Koni USA's end, it will be discovered in our billing department before we create the invoice.</li> </ul> <p>Regarding sales reporting to Sourcwell and contract fees payable to Sourcwell, we will "tag" all sales arriving from the Sourcwell contract with a unique code in SAP. The tagging will be done in the Order Entry Department. This process is not unique to Sourcwell but is part of all order entries.</p>	*
67	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	<p>Ultimately, the success of the Sourcwell contract can be measured in several ways, seen from the perspective of Sourcwell, the authorized participants, and the end users (customers). For the contract to be truly successful, it must meet the needs and requirements of those three entities. As such, we engage in quarterly exercises to evaluate the program's success primarily seen or determined based on contract dollar value.</p> <p>Obviously, if the contract value is below the expectations of all parties, then by definition, the results have not met the needs of the individual parties.</p> <p>We also engage in customer service surveys to measure the degree of satisfaction with the purchasing process seen from the perspective of delivery, installation, product reliability, and overall satisfaction on the end user's part.</p> <p>One of the best ways to determine growth and success can be measured in the following ways:</p> <ul style="list-style-type: none"> <li>1) Is the aggregate dollar value of the contract to the satisfaction of Sourcwell and the contract holder?</li> <li>2) Has there been substantive growth in the contract values on a quarterly and yearly basis?</li> <li>3) Have the buyers on the Sourcwell contract expressed satisfaction or dissatisfaction as it relates to the disposition and progress of the contract?</li> </ul> <p>These internal metrics are used to evaluate the success and whether eventualities can be improved.</p>	*
68	Identify a proposed administrative fee that you will pay to Sourcwell for facilitating, managing, and promoting the Sourcwell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	Steril-Koni proposes an administrative fee of 1.75%, payable to Sourcwell, for contract facilitation, management, and promotion of the Sourcwell contract.	*

**Table 14A: Depth and Breadth of Offered Equipment Products and Services**

Line Item	Question	Response *
69	Provide a detailed description of the equipment, products, and services that you are offering in your proposal.	<p>SK is a specialist dedicated to selling and servicing heavy-duty (HD) vehicle lifting systems. Early in our development, we initiated the concept of FREEDOM OF CHOICE, the idea being that customers have individual needs as it relates to the type of product they are lifting. Therefore, early on, we wanted to provide every kind of lifting technology and design available in the marketplace.</p> <p>As such, we developed four major product specialties that reflect the totality of what any HD customer may wish or need. The operational characteristics of any particular HD lift often define the particular lift or application the customer may need.</p> <p>SK specializes in six (6) categories of heavy-duty (HD) lifts:</p> <ul style="list-style-type: none"> <li>• Mobile lifts</li> <li>• In-ground piston-type lifts</li> <li>• Scissor lifts</li> <li>• Platform lifts</li> <li>• Two post Freedom lifts</li> <li>• Heavy-duty 4-post lifts</li> </ul> <p>SK provides a wide variety of lifts, and our dealers or distributors install the lifts as they pertain to the individual needs of the Sourcewell customer.</p> <p>Specifically, the product offerings are the following:</p> <p>Mobile lifts:</p> <ul style="list-style-type: none"> <li>o Earthlift (with Active Energy Retrieval) provides up to 35% more lifting efficiency.</li> <li>o This “green” technology saves battery life and is more conducive to protecting the environment.</li> <li>o Capacities are 18,500 lbs. per column and 22,000 lbs. per column.</li> <li>o Captures regenerative power and provides more lifting cycles.</li> <li>o Utilizes an AER (Active Energy Retrieval) system that recharges battery life when the motor reverses direction.</li> <li>o Provides maximum workshop efficiency, allowing additional lifting cycles without recharging. I certify that I am the authorized representative of the Proposer submitting the foregoing Proposal with the legal authority to bind the Proposer to this Affidavit and Assurance of Compliance:

1. The Proposer is submitting this Proposal under its full and complete legal name, and the Proposer legally exists in good standing in the jurisdiction of its residence.
2. The Proposer warrants that the information provided in this Proposal is true, correct, and reliable for purposes of evaluation for contract award.

The Proposer, including any person assisting with the creation of this Proposal, has arrived at this Proposal independently and the Proposal has been created without colluding with any other person, company, or parties that have or will submit a proposal under this solicitation; and the Proposal has in all respects been created fairly without any fraud or dishonesty. The Proposer has not directly or indirectly entered into any agreement or arrangement with any person or business in an effort to influence any part of this solicitation or operations of a resulting contract; and the Proposer has not taken any action in restraint of free trade or competitiveness in connection with this solicitation. Sourcewell's solicitation process complies with State of Minnesota law and policies, conforms to Canadian trade agreements (including Canadian Free Trade Agreement, Ontario-Quebec Trade and Cooperation Agreement, and Canada-European Union Comprehensive Economic and Trade Agreement, as applicable), and results in cooperative purchasing solutions from which Sourcewell's Participating Entities procure equipment, products, and services.

Cooperative purchasing provides participating entities and suppliers increased administrative efficiencies and the power of combined purchasing volume that result in overall cost savings. At times, Sourcewell also partners with other purchasing cooperatives to combine the purchasing volume of their membership into a single solicitation and contract expanding the reach of contracted suppliers' potential pool of end users.

Sourcewell uses a website-based platform, the Sourcewell Procurement Portal, through which all proposals to this RFP must be submitted.

A Participating Entity may request additional terms or conditions related to a purchase. Use of Sourcewell contracts is voluntary and Participating Entities retain the right to obtain similar equipment, products, or services from other sources.

To meet Participating Entities' needs, Sourcewell broadly publishes public notice of all solicitation opportunities, including this RFP. In addition, where applicable, other purchasing cooperatives and procurement officials receive notice and are encouraged to re-post the solicitation opportunity.

Proof of publication will be available at the conclusion of the solicitation process.

## **II. SOLICITATION DETAILS**

### **A. SOLUTIONS-BASED SOLICITATION**

This RFP and contract award process is a solutions-based solicitation; meaning that Sourcewell is seeking equipment, products, or services that meet the general requirements of the scope of this RFP and that are commonly desired or are required by law or industry standards.

## B. REQUESTED EQUIPMENT, PRODUCTS, OR SERVICES

It is expected that proposers will offer a wide array of equipment, products, or services at lower prices and with better value than what they would ordinarily offer to a single government entity, a school district, or a regional cooperative.

1. Sourcewell is seeking proposals for Vehicle Lifts with Garage and Fleet Maintenance Equipment, including, but not to be limited to:
  - a. Vehicle lifts;
  - b. Diagnostic equipment;
  - c. Stationary air compressors and ventilation systems;
  - d. Garage tooling and equipment;
  - e. Vehicle wash systems;
  - f. Related parts, supplies, and accessories related to the offering of 1. a. - e above; and,
  - g. Installation, repair, and maintenance services related to the offering of 1. a. - e. above.

Proposers may include related equipment, accessories, and services to the extent that these solutions are ancillary or complementary to the equipment, products, or services being proposed.

2. The primary focus of this solicitation is on Vehicle Lifts with Garage and Fleet Maintenance Equipment. This solicitation should NOT be construed to include services-only solutions.
3. This solicitation does not include those equipment, products, or services covered under categories included in pending or planned Sourcewell solicitations, or in contracts currently maintained by Sourcewell, identified below:
  - a. Aboveground Fuel and Fluid Storage with Related Hardware, Software, and Services, Accessories, and Services (RFP #092920);
  - b. OEM Automotive Parts and Supplies (RFP #101520);
  - c. Fleet and Facility Related Vendor Managed Inventory and Logistics Management Solutions (RFP #110520);
  - d. Fleet Management Technologies with Related Software Solutions (RFP #020221);
  - e. Aftermarket Vehicle Parts and Supplies (RFP #032521);
  - f. Tires with Related Equipment and Supplies (RFP #082521); and,
  - g. Fuel Delivery with Related Services (RFP #121522).

Generally, the solutions for Participating Entities are turn-key solutions, providing a combination of equipment, products and services, delivery, and installation to a properly operating status. However, equipment-only or products-only solutions may be appropriate for

situations where Participating Entities possess the ability, either in-house or through local third-party contractors, to properly install and bring to operation the equipment or products being proposed.

Sourcewell prefers suppliers that provide a sole source of responsibility for the equipment, products, and services provided under a resulting contract. If proposer is including the equipment, products, and services of its subsidiary entities, the proposer must also identify all included subsidiaries in its proposal. If proposer requires the use of distributors, dealers, resellers, or subcontractors to provide the equipment, products, or services, the proposal must address how the equipment, products or services will be provided to Participating Entities, and describe the network of distributors, dealers, resellers, and/or subcontractors that will be available to serve Participating Entities under a resulting contract.

Sourcewell encourages suppliers to offer the broadest possible selection of equipment, products, and services being proposed over the largest possible geographic area and to the largest possible cross-section of Sourcewell current and future Participating Entities.

#### C. REQUIREMENTS

It is expected that proposers have knowledge of all applicable industry standards, laws, and regulations and possess an ability to market and distribute the equipment, products, or services to Participating Entities.

1. Safety Requirements. All items proposed must comply with current applicable safety or regulatory standards or codes.
2. Deviation from Industry Standard. Deviations from industry standards must be identified with an explanation of how the equipment, products, and services will provide equivalent function, coverage, performance, and/or related services.
3. New Equipment and Products. Proposed equipment and products must be for new, current model; however, proposer may offer certain close-out equipment or products if it is specifically noted in the Pricing proposal.
4. Delivered and operational. Unless clearly noted in the proposal, equipment and products must be delivered to the Participating Entity as operational.
5. Warranty. All equipment, products, supplies, and services must be covered by a warranty that is the industry standard or better.

#### D. PROSPECTIVE CONTRACT TERM

The term of any resulting contract(s) awarded by Sourcewell under this solicitation will be four years. Sourcewell and supplier may agree to up to three additional one-year extensions based on the best interests of Sourcewell and its Participating Entities. Sourcewell retains the right to consider additional extensions beyond seven years as required under exceptional circumstances.

#### **E. ESTIMATED CONTRACT VALUE AND USAGE**

Based on past volume of similar contracts, the estimated annual value of all transactions from contracts resulting from this RFP are anticipated to be USD \$27 Million; therefore, proposers are expected to propose volume pricing. Sourcewell anticipates considerable activity under the contract(s) awarded from this RFP; however, sales and sales volume from any resulting contract are not guaranteed.

#### **F. MARKETING PLAN**

Proposer's sales force will be the primary source of communication with Participating Entities. The proposer's Marketing Plan should demonstrate proposer's ability to deploy a sales force or dealer network to Participating Entities, as well as proposer's sales and service capabilities. It is expected that proposer will promote and market any contract award.

#### **G. ADDITIONAL CONSIDERATIONS**

1. Contracts will be awarded to proposers able to best meet the need of Participating Entities. Proposers should submit their complete line of equipment, products, or services that are applicable to the scope of this RFP.
2. A proposer may submit only one proposal. If related, affiliated, or subsidiary entities elect to submit separate proposals, rather than a single parent-entity proposal, each such proposal must be prepared independently and without cooperation, collaboration, or collusion.
3. If a proposer works with a consultant on its proposal, the consultant (an individual or company) may not assist any other entity with a proposal for this solicitation.
4. Proposers should include all relevant information in its proposal, since Sourcewell cannot consider information that is not included in the proposal. Sourcewell reserves the right to verify proposer's information and may request clarification from a proposer, including samples of the proposed equipment or products.
5. Depending upon the responses received in a given category, Sourcewell may need to organize responses into subcategories in order to provide the broadest coverage of the requested equipment, products, or services to Participating Entities. Awards may be based on a subcategory.
6. A proposer's documented negative past performance with Sourcewell or its Participating Entities occurring under a previously awarded Sourcewell contract may be considered in the evaluation of a proposal.

### **III. PRICING**

#### **A. REQUIREMENTS**

All proposed pricing must be:

1. Either Line-Item Pricing or Percentage Discount from Catalog Pricing, or a combination of these:
  - a. **Line-item Pricing** is pricing based on each individual product or services. Each line must indicate the proposer's published "List Price," as well as the "Contract Price."
  - b. **Percentage Discount from Catalog or Category** is based on a percentage discount from a catalog or list price, defined as a published Manufacturer's Suggested Retail Price (MSRP) for the products or services. Individualized percentage discounts can be applied to any number of defined product groupings. Proposers will be responsible for providing and maintaining current published MSRP with Sourcewell, and this pricing must be included in its proposal and provided throughout the term of any contract resulting from this RFP.
2. The proposer's not to exceed price. A not to exceed price is the highest price for which equipment, products, or services may be billed to a Participating Entity. However, it is permissible for suppliers to sell at a price that is lower than the contracted price.
3. Stated in U.S. and Canadian dollars (as applicable).
4. Clearly understandable, complete, and fully describe the total cost of acquisition (e.g., the cost of the proposed equipment, products, and services delivered and operational for its intended purpose in the Participating Entity's location).

Proposers should clearly identify any costs that are NOT included in the proposed product or service pricing. This may include items such as installation, set up, mandatory training, or initial inspection. Include identification of any parties that impose such costs and their relationship to the proposer. Additionally, proposers should clearly describe any unique distribution and/or delivery methods or options offered in the proposal.

#### B. ADMINISTRATIVE FEES

Proposers awarded a contract are expected to pay to Sourcewell an administrative fee in exchange for Sourcewell facilitating the resulting contracts. The administrative fee is normally calculated as a percentage of the total sales to Participating Entities for all contracted equipment, products, or services made during a calendar quarter, and is typically one percent (1%) to two percent (2%). In some categories, a flat fee may be an acceptable alternative.

### IV. CONTRACT

Proposers awarded a contract will be required to execute a contract with Sourcewell (see attached template). Only those modifications the proposer indicates in its proposal will be available for discussion. Much of the language in the Contract reflects Minnesota legal requirements and cannot be altered. Numerous and/or onerous exceptions that contradict Minnesota law may result in the proposal being disqualified from further review and evaluation.

To request a modification to the template Contract, a proposer must submit the Exceptions to Terms, Conditions, or Specifications table with its proposal. Only those exceptions noted at the time of the proposal submission will be considered.

Exceptions must:

1. Clearly identify the affected article and section.
2. Clearly note the requested modification; and as applicable, provide requested alternative language.

Unclear requests will be automatically denied.

Only those exceptions that have been accepted by Sourcewell will be included in the contract document provided to the awarded supplier for signature.

If a proposer receives a contract award resulting from this solicitation it will have up to 30 days to sign and return the contract. After that time, at Sourcewell's sole discretion, the contract award may be revoked.

## **V. RFP PROCESS**

### **A. PRE-PROPOSAL CONFERENCE**

Sourcewell will hold an optional, non-mandatory pre-proposal conference via webcast on the date and time noted in the Solicitation Schedule for this RFP and on the Sourcewell Procurement Portal. The purpose of this conference is to allow potential proposers to ask questions regarding this RFP and Sourcewell's competitive contracting process. Information about the webcast will be sent to all entities that have registered for this solicitation opportunity through their Sourcewell Procurement Portal Vendor Account. Pre-proposal conference attendance is optional.

### **B. QUESTIONS REGARDING THIS RFP AND ORAL COMMUNICATION**

All questions regarding this RFP must be submitted through the Sourcewell Procurement Portal. The deadline for submission of questions is found in the Solicitation Schedule and on the Sourcewell Procurement Portal. Answers to questions will be issued through an addendum to this RFP. Repetitive questions will be summarized into a single answer and identifying information will be removed from the submitted questions.

All questions, whether specific to a proposer or generally related to the RFP, must be submitted using this process. Do not contact individual Sourcewell staff to ask questions or request information as this may disqualify the proposer from responding to this RFP. Sourcewell will not respond to questions submitted after the deadline.

### **C. ADDENDA**

Sourcewell may modify this RFP at any time prior to the proposal due date by issuing an addendum. Addenda issued by Sourcewell become a part of the RFP and will be delivered to potential proposers through the Sourcewell Procurement Portal. Sourcewell accepts no liability in connection with the delivery of any addenda.

Before a proposal will be accepted through the Sourcewell Procurement Portal, all addenda, if any, must be acknowledged by the proposer by checking the box for each addendum. It is the responsibility of the proposer to check for any addenda that may have been issued up to the solicitation due date and time.

If an addendum is issued after a proposer submitted its proposal, the Sourcewell Procurement Portal will WITHDRAW the submission and change the proposer's proposal status to INCOMPLETE. The proposer can view this status change in the "MY BIDS" section of the Sourcewell Procurement Portal Vendor Account. The proposer is solely responsible to check the "MY BIDS" section of the Sourcewell Procurement Portal Vendor Account periodically after submitting its proposal (and up to the Proposal Due Date). If the proposer's proposal status has changed to INCOMPLETE, the proposer is solely responsible to:

- i) make any required adjustments to its proposal;
- ii) acknowledge the addenda; and
- iii) ensure the re-submitted proposal is received through the Sourcewell Procurement Portal no later than the Proposal Due Date and time shown in the Solicitation Schedule above.

#### D. PROPOSAL SUBMISSION

Proposer's complete proposal must be submitted through the Sourcewell Procurement Portal no later than the date and time specified in the Solicitation Schedule. Any other form of proposal submission, whether electronic, paper, or otherwise, will not be considered by Sourcewell. **Late proposals will not be considered.** It is the proposer's sole responsibility to ensure that the proposal is received on time.

It is recommended that proposers allow sufficient time to upload the proposal and to resolve any issues that may arise. The time and date that a proposal is received by Sourcewell is solely determined by the Sourcewell Procurement Portal web clock.

In the event of problems with the Sourcewell Procurement Portal, follow the instructions for technical support posted in the portal. It may take up to 24 hours to respond to certain issues.

Upon successful submission of a proposal, the Sourcewell Procurement Portal will automatically generate a confirmation email to the proposer. If the proposer does not receive a confirmation email, contact Sourcewell's support provider at [support@bidsandtenders.ca](mailto:support@bidsandtenders.ca).

To ensure receipt of the latest information and updates via email regarding this solicitation, or if the proposer has obtained this solicitation document from a third party, the onus is on the

proposer to create a Sourcewell Procurement Portal Vendor Account and register for this solicitation opportunity.

Within the Sourcewell Procurement Portal, all proposals must be digitally acknowledged by an authorized representative of the proposer attesting that the information contained in the proposal is true and accurate. By submitting a proposal, proposer warrants that the information provided is true, correct, and reliable for purposes of evaluation for potential contract award. The submission of inaccurate, misleading, or false information is grounds for disqualification from a contract award and may subject the proposer to remedies available by law.

### **VI. EVALUATION AND AWARD**

#### A. EVALUATION

It is the intent of Sourcewell to award one or more contracts to responsive and responsible proposers offering the best overall quality, selection of equipment, products, and services, and price that meet the commonly requested specifications of Sourcewell and its Participating Entities. The award(s) will be limited to the number of proposers that Sourcewell determines is necessary to meet the needs of its Participating Entities.

Factors to be considered in determining the number of contracts to be awarded in any category may include the following:

- Total evaluation scores (giving consideration to natural breaks in the scoring of responsive proposals);
- The number and geographic location of highest-scoring proposers that offer:
  - A comprehensive selection of the requested equipment, products, or services;
  - A sales and service network ensuring availability and coverage for Participating Entities' use; and
  - Other attributes of the proposer or contents of its proposal that assist Participating Entities in achieving environmental and social requirements, and goals.

Information submitted as part of a proposal should be as specific as possible when responding to the RFP. Do not assume Sourcewell has any knowledge about a specific supplier or product.

#### B. AWARD(S)

Award(s) will be made to the highest-scoring proposer(s) whose proposal conforms to all conditions and requirements of the RFP, and consistent with the award criteria defined in this RFP.

Sourcewell may request written clarification of a proposal at any time during the evaluation process.

Proposal evaluation will be based on the following scoring criteria and the Sourcewell Evaluator Scoring Guide (a copy is available in the Sourcewell Procurement Portal):

Conformance to RFP Requirements	50
Financial Viability and Marketplace Success	75
Ability to Sell and Deliver Service	100
Marketing Plan	50
Value Added Attributes	75
Warranty	50
Depth and Breadth of Offered Equipment, Products, or Services	200
Pricing	400
<b>TOTAL POINTS</b>	<b>1000</b>

#### C. PROTESTS OF AWARDS

Any protest made under this RFP by a proposer must be in writing, addressed to Sourcewell's Executive Director, and delivered to the Sourcewell office located at 202 12th Street NE, P.O. Box 219, Staples, MN 56479. All documents that comprise the complete protest package must be received, and time stamped at the Sourcewell office by 4:30 p.m., Central Time, no later than 10 calendar days following Sourcewell's notice of contract award(s) or non-award. A

protest must allege a procedural, technical, or legal defect, with supporting documentation. A protest that merely requests a re-evaluation of a proposal's content will not be entertained

A protest must include the following items:

- The name, address, and telephone number of the protester;
- Identification of the solicitation by RFP number;
- A precise statement of the relevant facts;
- Identification of the alleged procedural, technical, or legal defect;
- Analysis of the basis for the protest;
- Any additional supporting documentation;
- The original signature of the protester or its representative; and
- Protest bond in the amount of \$20,000 (except where prohibited by law or treaty).

Protests that do not address these elements will not be reviewed.

#### D. RIGHTS RESERVED

This RFP does not commit Sourcewell to award any contract, and a proposal may be rejected if it is nonresponsive, conditional, incomplete, conflicting, or misleading. Proposals that contain false statements or do not support an attribute or condition stated by the proposer may be rejected.

Sourcewell reserves the right to:

- Modify or cancel this RFP at any time;
- Reject any and all proposals received;
- Reject proposals that do not comply with the provisions of this RFP;
- Select, for contracts or for discussion, a proposal other than that with the lowest cost;
- Independently verify any information provided in a proposal;
- Disqualify any proposer that does not meet the requirements of this RFP, is debarred or suspended by the United States or Canada, State of Minnesota, Participating Entity's state or province; has an officer, or other key personnel, who have been charged with a serious crime; or is bankrupt, insolvent, or where bankruptcy or insolvency are a reasonable prospect;
- Waive or modify any informalities, irregularities, or inconsistencies in the proposals received;
- Clarify any part of a proposal and discuss any aspect of the proposal with any proposer; and negotiate with more than one proposer;
- Award a contract if only one responsive proposal is received if it is in the best interest of Participating Entities; and
- Award a contract to one or more proposers if it is in the best interest of Participating Entities.

#### E. DISPOSITION OF PROPOSALS

All materials submitted in response to this RFP will become property of Sourcewell and will become public record in accordance with Minnesota Statutes Section 13.591, after negotiations are complete. Sourcewell considers that negotiations are complete upon execution of a resulting contract. Proposer must also include a justification for the classification citing the applicable Minnesota law. Sourcewell may reject proposals that are marked confidential or nonpublic, either substantially or in their entirety.

**Question 1:**

In section 4 of the sample contract – Product and Pricing Changes – it states the supplier may request Equipment, Product and Service changes, additions, or deletions at any time. Does that also include adding additional vendors to the suppliers offering after the contract has been awarded?

**Answer 1:**

Refer to Section 4. Product and Pricing Change Requests, “Supplier may request Equipment, Product, or Service changes, **additions**, or deletions at any time.” Sourcewell allows additions of products and services that fall within the scope of the RFP as described in Section II. B. of the RFP.

**Question 2:**

In section F of the RFP, it mentions the proposers marketing plan and in section 7 of the questionnaire, Sourcewell is asking for specific marketing strategies. Will these responses remain confidential?

**Answer 2:** Refer to RFP section VI. E. Disposition of Proposals, “All materials submitted in response to this RFP will become property of Sourcewell and will become public record in accordance with Minnesota Statutes Section 13.591, after negotiations are complete.”

**Question 3:**

Within both the sample contract & the RFP there is a mention of administrative fees, however the exact fee amount is not listed. What is the administrative fee for this contract or is the supplier able to set this amount themselves?

**Answer 3:**

Refer to RFP Section III. B. – Administrative Fees, for directions on proposing an administrative fee. It is left to the discretion of each proposer to determine and propose an administrative fee that is consistent with its business and its industry.

**Question 4:**

In table 2 within the question section – question #12 is asking the bidders to demonstrate financial strength. An example of this might be financial statements. If provided will the financial statements remain confidential?

Question #12 offers options for respondents (financial statements, SEC filings, credit and bond ratings, letters of credit, detailed reference letters) to demonstrate financial strength. All materials submitted in response to this RFP will become property of Sourcewell and will become public record in accordance with Minnesota Statutes Section 13.591, after negotiations are complete.

COLLEGE FOOTBALL WEEK 8 OVERREACTIONS

# Michigan or Ohio State debate continues

Eddie Timanus  
USA TODAY

Emotions always run high on college football weekends. That’s a major part of the sport’s appeal, of course, but it also means one’s reaction to events on the field are often colored by said emotions. Our goal here is to provide a modicum of perspective to what we’ve just witnessed.

In this week’s rehash of five top over-reactions from the week that was, we’ll examine the ongoing debate over Big Ten superiority, look in on the continuing fluctuations in the quest for the sport’s most prestigious individual honor, and throw some cold water on a few other favorite fan talking points.

### Michigan/Ohio State should be ranked higher than Ohio State/Michigan

In this corner, we have the Wolverines, who have won their eight games by an average score of 40.6-5.9. They’ve faced nobody ranked, either currently or at the time of their meeting, but four of Michigan’s eight opponents have winning records, and two of them – UNLV and Rutgers – are already bowl eligible.

And on this side of the ring we have the Buckeyes, who haven’t had the impressive scoring margins but are winning by an average of 33.7-10 through seven games. They got by a ranked Notre Dame team on the road and shut down a previously undefeated Penn State squad, arguably worth more than any win on Michigan’s ledger. To date, they have just one common opponent. There will be more, of course, but for what it’s worth Michigan had a much easier time with Indiana (52-7 on Oct. 14) than did the Buckeyes (23-3 on Sept. 2).

No matter which side of the debate you come down upon, opinion anyone offers is going to be an overreaction, simply because the matter will be settled on the field in a few weeks anyway. Polls are fun and all – that’s why we do them – but one it’s important to remember that they’re just weekly snapshots.

### (Insert favorite player’s name here) just won the Heisman

Marvin Harrison Jr. was the difference maker for Ohio State against the Nittany Lions, Jordan Travis made some sweet throws while rallying Florida State to victory against a very good Duke team, and Michael Penix Jr. is glad most of the country wasn’t awake to see his nearly catastrophic outing as Washington barely escaped Arizona State.

It seems we have to say this every week, but whenever someone takes a

Michigan defensive lineman Kris Jenkins tackles Ohio State wide receiver Xavier Johnson in the first half at Ohio Stadium. KIRTHMON F. DOZIER/DETROIT FREE PRESS

star turn, declarations immediately follow that said star just showed why he should win the Heisman. One name that has now come to the fore is Michigan’s J.J. McCarthy with the Wolverines unbeaten. We will say, however, that while it remains true that the trophy is never won or lost with a single performance, Washington’s close call undoubtedly allowed the field to gain on Penix.

### NCAA should do the right thing and let James Madison play in a bowl game

This isn’t going to be a popular take. The NCAA is a favorite punching bag for good reason due to its labyrinthine collection of rules and regulations that seem at times to be arbitrarily enforced at best. But the leadership at James Madison was well aware of the rule requiring a two-year waiting period for football when elevating to the Bowl Subdivision.

Not every team making the jump has been this successful this quickly, as Massachusetts discovered a few years ago and Sam Houston State is learning this season. It is therefore not often that the waiting period comes under scrutiny.

The Dukes are ahead of schedule to be sure, and it was suggested none to

subtly by the ESPN announcing crew during their most recent win at Marshall that someone at the NCAA should step in and grant them a waiver to shorten its transition period.

Such a waiver has essentially already been denied, and NCAA President Charlie Baker spelled it out in a response to the Virginia attorney general. “The Division I Board of Directors and council believe clear standards and timelines for reclassification processes will promote strategic membership growth and allow for a uniform experience for all reclassifying institutions,” he wrote.

The fact is NCAA rules are made by its members, and changing them is a rather arduous legislative process. It is furthermore not altogether a given that there is a desire within the organization’s membership to alter the transition rule.

We will concede this point, however, as noted on social media by Dukes coach Curt Cignetti. There’s no reason JMU’s individual and team stats shouldn’t be displayed among the FBS leaders. While the Dukes are indeed transitioning, they’re playing a full Sun Belt Conference schedule, and their on-field numbers are totally earned. Having them only listed among non-classified teams diminishes their accomplishments

### SCHEDULE

All times p.m. EDT; subject to change.

Matchup	Time	Network
<b>Tuesday</b>		
New Mexico State at Louisiana Tech	7	CBSSN
Liberty at Western Kentucky	7:30	ESPNU
<b>Wednesday</b>		
Jacksonville St. at FL International	7	CBSSN
UTEP at Sam Houston	8	ESPN2

### It’s a conspiracy, I tell ya.

If you’re a fan of Houston, Arizona State or Iowa, you no doubt expressed sentiments that your game’s officials, and by extension the conference offices that appointed them, didn’t want your team to win this weekend. All three schools had some very dubious decisions go against them at critical times in the fourth quarter.

Trust us, folks, the leagues don’t care. Sure, officials make mistakes, and the replay system can’t eliminate those entirely. Sometimes the booth even contributes to the mayhem, as we saw in Iowa City. But no matter how it looks or which conference’s top-tier program appears to benefit, there is no grand agenda afoot.

It just sucks for the Cougars, Sun Devils and Hawkeyes that those decisions cost them victories.

### What’s with all the terrible offenses?

A look at yesterday’s scoreboard revealed some truly ugly numbers. They weren’t all unexpected – Minnesota’s 12-10 result against Iowa was almost certainly going to be a low-scoring affair. But the day began with Mississippi State’s win at Arkansas by a 7-3 score more fitting of a playoff baseball game, and ended with Nevada ending its long losing streak with a 6-0 triumph over San Diego State that was, well, everything you might expect a 6-0 game to be with just 446 combined yards of total offense and zero third-down conversions by the Aztecs.

So are there really fewer good offenses and a lot more really bad ones this year?

It’s hard to say. As of the conclusion of the Week 8 action, there are 23 FBS teams still averaging over 35 points a game, and 24 averaging 21 or fewer. At the end of the 2022 campaign, there were 22 teams averaging 35-plus and 20 putting up less than 21 a game. That’s not exactly a significant trend either way, but it’s something to keep an eye on the rest of the way, especially if you have an interest in playing totals.

# Bell wins second Cup Championship 4 finale slot

Ellen J. Horrow  
USA TODAY

Two drivers have clinched and two berths remain in the chase for the 2023 NASCAR Cup Series championship.

Christopher Bell joined Kyle Larson in the Championship 4 after overcoming a mediocre first two stages on Sunday to win the playoff race at Homestead-Miami Speedway. Larson won the Round of 8 opener at Las Vegas Motor Speedway last weekend.

The series now heads to Martinsville Speedway, NASCAR’s oldest and smallest track, for the penultimate race of the season before the championship race on Nov. 5 at Phoenix Raceway. For the remaining six playoff drivers, Martinsville will either be cause for a raucous celebration or a day of despair.

If one of those six drivers win next

Sunday on the Virginia short track, he will punch his championship ticket, leaving the final Championship 4 spot to the driver with the most points in the third round without a win. However, if either Larson, Bell or a non-playoff driver win at Martinsville, then the last two championship contenders would both be determined by points.

### How do the Cup Series playoffs work?

The playoffs consist of 10 races, starting with 16 drivers. The first nine races are broken up into three rounds with three races apiece, with winners automatically advancing to the next round. Four drivers will be eliminated after the third, sixth and ninth races, leaving a final four to battle for the championship

on Nov. 5 at Phoenix Raceway.

### What are the standings after the eighth playoff race?

Here are the points after Sunday’s race at Homestead-Miami Speedway, the second race of the third round (\*former champion; x-clinched berth in Championship 4):

- 1 x-Christopher Bell, Joe Gibbs Racing – 4,110 points
- 2 x-Kyle Larson\*, Hendrick Motorsports – 4,105 points
- 3 William Byron, Hendrick Motorsports – 4,126 points
- 4 Ryan Blaney, Team Penske – 4,106 points
- 5 Tyler Reddick, 23XI Racing – 4,096 points
- 6 Martin Truex Jr.\*, Joe Gibbs Racing – 4,089 points
- 7 Denny Hamlin, Joe Gibbs Racing – 4,089 points
- 8 Chris Buescher, RFK Racing – 4,063 points

Christopher Bell was victorious Sunday at Homestead-Miami Speedway. JASEN VINLOVE/USA TODAY SPORTS
