

MEMORANDUM

Council Agenda
Item No. IX. G
3/25/2025

The City of OKLAHOMA CITY

TO: Mayor and City Council

FROM: Craig Freeman, City Manager

Resolution waiving formal competitive bidding and authorizing Preferred Services CNG, Inc. (COKC01531) to refurbish two compressors at the Central Maintenance Facility, estimated cost \$150,000, March 25, 2025 through March 26, 2026.

Background:

The Fleet Services Division operates and maintains two compressors which serve both the slow and fast-fill CNG fuel dispensers at the Central Maintenance Facility (CMF). Both compressors are original to the CNG fuel site which was installed in 2011 (MC-0431). The total cost to refurbish both compressors is approximately \$137,787.54.

Preferred Services CNG, Inc. is the vendor currently used by Fleet Services, Solid Waste Management and EMBARK to perform regular repairs, and preventative maintenance on each department's compressors, following the open market procedures. Because this work exceeds the open market threshold of \$50,000, a separate resolution is required for Council approval.

Staff requests Council waive formal competitive bidding and authorize Preferred Services CNG, Inc. (COKC01531) to refurbish two compressors at the Central Maintenance Facility, estimated cost \$150,000, March 25, 2025 through March 26, 2026.

Estimated Cost:

\$150,000
