The Drug Recognition Expert (DRE) Program is designed to assist in the identification, articulation, and prosecution of alcohol and/or drug impaired driving offenses. The overall goal is increasing highway safety via a reduction non-injury, injury, and fatality collisions. The National Highway Traffic Safety Administration reported that 2021 had the highest number of roadway fatalities since 2005 and the largest annual percentage increase in the Fatality Analysis Reporting Systems (FARS) history in early estimates of traffic fatalities (NHTSA: Newly Released Estimates Show Traffic Fatalities Reached a 16-year High in 2021; 2022.). Data indicates many of these collisions involve drivers impaired by more than one category of drug as defined by the DEC Program.

Records showed that in 2023 over 50% of the DRE Evaluations in Oklahoma showed "Poly-Drug use." This means drivers had more than one drug in their system at the time of the evaluation. As surrounding states continue to legalize or decriminalize additional drugs, predominately hallucinogens such as psilocybin, it is inevitable Oklahoma will see an uptick in the detection and presence of these drugs in their drivers, much like what occurred during the infancy of medical marijuana legalization nationwide.

Additionally, difficulties in prosecution of impaired driving cases will result in the requirement of more officers being trained in Advanced Roadside Impaired Driving Enforcement and a requirement for the administration of Standardized Field Sobriety Tests to all drivers suspected of driving under the influence, as is a recent requirement in Oklahoma County, per DA Vicki Behenna.

Project Description:

The Oklahoma City Police Department (OCPD), through the Drug Recognition Expert State Coordinator (DRESC), will host DRE schools in accordance with IACP, NHTSA, and Oklahoma Enhanced Standards to train officers from Oklahoma to become DREs. These officers will work to increase the enforcement of alcohol/drug-related impaired driving laws. The DRESC will work to expand the DRE program by a minimum of thirty (30) DREs via two (2) DRE schools. The DRESC will work with OHSO to provide updates on school recruiting and progress. The courses will consist of a three-day DRE Pre-School and a seven-day DRE school. The classroom portion will be followed by field certification training where students evaluate impaired subjects as required by IACP and Oklahoma enhanced standards.

The DRESC will chair the DRE Advisory Board (DAB) to maintain a statewide oversight and vision of current and upcoming DRE issues. The DRESC will work with OHSO to plan, schedule, and conduct training with OHSO. The DRESC or their designee will provide ARIDE and SFST instruction as requested by agencies throughout Oklahoma. To reduce expenditures, the DRESC will make efforts to locate instructors close to the requesting locale. The DRESC will coordinate with the Oklahoma Challenge to participate in community outreach and education for endangered highway safety groups. The DRESC will build and maintain relationships with necessary stakeholders to allow open communication for future implementation of a roadside saliva testing program and a "Find a DRE" program.

The DRESC will coordinate with OHSO to host DRE recertification and training events at The OHSO Traffic Safety Summit.

Funding is provided to contract with The Institute for Traffic Safety Management and Research (ITSMR) to support and maintain the ITSMR web-based DRE evaluation program. The contract will allow 200 DREs to continue using the program through FFY25. The ITSMR program provides more in-depth data tracking abilities for OK's DRE program and allows OHSO real-time numbers for impaired driving trends. The program allows the DRESC to set a percentage of evaluations required for review. The threshold is set to 100%, allowing the DAB to review all evaluations.

Funding is provided for a .85 FTE DREC Job description is attached.

Funding for in-state travel for grant-related training activities, including ARIDE, DRE recertification, and OK Challenge events.

Funding is provided to purchase a portable medical-grade digital scale and 3 Goldfrank's Toxicological Emergencies books.

Funding is provided for a table cover with the DRE, OHSO, and ENDUI logos and slogan "If you feel different, you drive different."

Funding for (25) tablets with cases & (30) PBTs to deploy to DRE students. Remaining tablets/PBTs will be dispersed to current DREs who do not have a working tablet/PBT.

Funding is provided for out-of-state travel for the DRESC to attend the IACP TAP meetings, the IACP Impaired Driving Traffic Safety (IDTS) conference (2), The Lifesavers Conference, the Central Region State Coordinator's meeting, The Borkenstein Drug Course, and DRE schools field certifications (OCPD has documentation for the unavailability of local options for field certifications).

Funding is provided for contract subject matter experts, meeting space for DRE school, and field certification facility (most efficient location).

The Drug Recognition Expert (DREC) Training Program will utilize the following countermeasures and activities:

Countermeasure: Enforcement of Drug-Impaired Driving
Activity: Impaired Driving Law Enforcement Training (405d)

1. Project Implementation

Grantee agrees to implement the project in accordance with federal statutes, local statutes and regulations, as well as the policies and procedures established by the Oklahoma Highway Safety Office.

2. Nondiscrimination (applies to subrecipients as well as States)

The State highway safety agency will comply with all Federal statutes and implementing regulations relating to nondiscrimination ("Federal Nondiscrimination Authorities"). These include but are not limited to:

- Title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d et seq., 78 stat. 252), (prohibits discrimination on the basis of race, color, national origin) and 49 CFR part 21;

Such activities include both direct and indirect (e.g., "grassroots") lobbying activities, with one exception. This does not preclude a State official whose salary is supported with NHTSA funds from engaging in direct communications with State or local legislative officials, in accordance with customary State practice, even if such communications urge legislative officials to favor or oppose the adoption of a specific pending legislative proposal.

Specific Agreements – Part III

1.

Subrecipient shall adopt (if none presently exists) and enforce a written safety belt use policy requiring all employees and others riding in Subrecipient owned or leased vehicles and/or on Subrecipient business to use safety belts in all seating positions and provide a copy of the same prior to initiation of a grant.

2.

Regular compensation and/or overtime compensation provided in this grant award will be paid in accordance with established policies and regulations of the subrecipient's entity. Any deviation from the established policies and regulations must be specifically addressed in the written grant agreement.

3.

Subrecipient shall verify that any officer using a grant purchased radar or grant purchased video camera has received training in the proper use of the equipment.

4.

Subrecipient shall require all law enforcement officers participating in impaired driving enforcement programs to obtain certification in NHTSA sanctioned Standard Field Sobriety Test (SFST) procedures prior to working grant funded enforcement shifts.

5.

Subrecipient shall submit activity and reimbursement reports to OHSO monthly through the OKGrants system unless otherwise pre-approved. Reports shall include all appropriate and required backup documentation. Reports shall be submitted within 30 days of the end of the reporting month. Failure to timely submit reports may result in denial of the reimbursement claim or delay in reimbursement of the same.

6.

The Oklahoma Highway Safety Office (OHSO) is a pass-through agency for federal funds provided by the U.S. Dept of Transportation, National Highway Traffic Safety Administration (NHTSA). In accordance with 2 CFR 200, the Oklahoma Highway Safety Office (OHSO) is required to supply each subrecipient with pertinent information regarding the grant award to assist in providing the subrecipient's financial department information which may be needed for Federal/State reporting purposes. Said information is contained within the Grant Agreement Summary-Part 1 of the award documents. A subrecipient agency may be subject to audit under 2 CFR 200. Unless other arrangements are made, any required audit cost is the responsibility of the Subrecipient.

7.

Any activities or cost items not specifically addressed in this agreement or any revisions to the items which are included in the agreement must be approved, in writing, by the OHSO Director/Governor's Representative or designee before they will be considered eligible activities and/or cost items. (For example, any out-of-state travel expenses not specifically identified in one's agreement require prior written permission from the OHSO Director/Governor's Representative or designee or the costs will not be reimbursed.) These "Specific Agreement" topics have been provided in an effort to assist subrecipients. This is not in any way a complete list of all requirements. Any questions and/or concerns not addressed here or in other areas of this grant agreement should be directed to the OHSO Program Manager assigned responsibility for oversight of this project.

8.

The continuation of this project is contingent on the availability and receipt by OHSO of Federal Funds.
