Hello, not sure if necessary but I'm planning to attend the zoning hearing 11/14 in the afternoon to protest the approval. New neighbors bought the primarily residential property and seem to be attempting to create a commercial construction materials processing facility essentially 30 or 40 feet east of my bedroom.

Why he thinks any homeowner would want this right next door is beyond me. His property is not only landlocked the part that requires traversing a third neighbor's easement to access the nearest public road. This section already has an RAC on it, and a no trucks covenant either Tannenbaum warehouse guys on the north side of 82nd.

The 3000 block of NE 82nd is in a confusion state.
