Comments from the neighborhood.

Consent Docket Item HPCA-25-00005 at 131 NW 16th Street

Heritage Hills requests this item be pulled from the Consent Docket for discussion and Commission action. This is a window replacement case that was denied with prejudice in February of 2024. Then the owner replaced all the windows without a certificate of appropriateness. This is another example of asking permission after the work is done. This is not acceptable to the neighborhood.
