

MEMORANDUM

Council Agenda
Item No. IX. AT
12/3/2024

The City of OKLAHOMA CITY

TO: Mayor and City Council

FROM: Craig Freeman, City Manager

Easement Agreement with the Oklahoma City Airport Trust and Oklahoma Gas and Electric Company to provide electric services for the AAR Hangar 4, OKC Will Rogers International Airport. Ward 3.

Location:

OKC Will Rogers International Airport (OKC Airport)

Background:

In order to provide electric services to facilities located on the airport, Oklahoma Gas and Electric Company (OG&E) requires easements on airport property. OG&E has requested a 15-foot wide non-exclusive easement for the installation of electrical equipment, including an electric transmission line, as depicted in Exhibit "A" to the Easement Agreement. The easement will enable OG&E to provide electric services to the AAR Hangar 4.

By providing OG&E an easement for electric services, the Trust will provide benefits to the Airport and its current and future tenants, as well as increase the marketability of the property for aviation development with no negative impact to the aeronautical activities on the airport.

Review:

Department of Airports

Recommendation: Easement agreement be approved.
