

MEMORANDUM

Council Agenda
Item No. X. F
4/8/2025

The City of OKLAHOMA CITY

TO: Mayor and City Council

FROM: Craig Freeman, City Manager

Concurrence with the Oklahoma City Water Utilities Trust in ratifying and approving Addendum No. 1 and approving a Professional Services Agreement with Black & Veatch Corporation (OCWUT00122), Tinker Air Force Base Hydraulic Modeling and Support Services, estimated annual cost \$100,000, February 25, 2025 through February 24, 2029.

Background:

In September 2020, The City of Oklahoma City and the Oklahoma City Water Utilities Trust (OCWUT) entered into an agreement with the United States Government for OCWUT to assume the operation, maintenance, and repair of the domestic water and wastewater systems at Tinker Air Force Base (TAFB).

In October 2021, water and wastewater models were created to understand and efficiently operate the system.

In August 2023, the water model was updated based on the Geographic Information System and survey data, utilizing Innovyze software.

On November 20, 2024, OCWUT solicited proposals from qualified proposers to meet the hydraulic modeling needs for TAFB's water and wastewater systems. The consultant must be capable of accessing, validating, analyzing, and updating the existing water and sanitary sewer hydraulic models.

Sixty-two potential bidders viewed the bid, with three proposals submitted. Two proposals were non-responsive to the addendum questions. The sole qualifying proposal was evaluated based on the award methodology set forth in the specifications.

Staff negotiated the Professional Services Agreement that includes all requested services. Staff recommends award to Black & Veatch Corporation.

Professional Services Agreement:
