

MEMORANDUM

Council Agenda
Item No. IX. BI
5/23/2023

The City of OKLAHOMA CITY

TO: Mayor and City Council

FROM: Craig Freeman, City Manager

Educational Service Amended Agreement with the Oklahoma City Community College to provide training on the Americans with Disabilities Act, certain other standards adopted by the City in compliance with Public Rights of Way Accessibility Guidelines, and the International Building Code in use by the City at the time of training, retroactive to March 1, 2023 through February 28, 2024.

Background:

In 2012, the City of Oklahoma City Americans with Disabilities Act Compliance Committee identified the need to provide ADA-compliant design and construction methods training for contractors, engineers, designers, and City employees. Since 2017 the City has had an agreement with Oklahoma City Community College (OCCC) for OCCC to provide initial certification and re-certification classes providing ADA education for these groups. As a result, Oklahoma City Community College (OCCC) created a course to address this need and will offer the course at no cost to City personnel. However, OCCC will charge outside participants a fee to attend the courses.

The Agreement provides the option for a one-year renewal.

Staff recommends Council approve the agreement.

Term:

March 1, 2023, through February 28, 2024

Review:

General Services

Recommendation: Agreement be approved.
