Subject: SPUD-01408/Meadowbrook Acres NA

Hello Thad and members of the Planning Commission,

The neighborhood has worked with the applicant, the property owner and Commissioner Powers regarding proposed SPUD-01408.

Together, we have successfully accomplished minor revisions to the original MDS. The neighborhood has had long standing standards for redevelopment on our boundaries and we appreciate the applicant working with us agreeing to the changes which actually reduce the intensity of the project and provide greater protection to the adjacent residential property owners and the neighborhood at large.

Given this neighborly working relationship, Meadowbrook Acres NA approves, supports and encourages passing of the item 'as written' this Thursday May 26th at the scheduled meeting of the Planning Commission.

Please forward this letter of support to the members of the Planning Commission via email for their review prior to Thursday's PC Meeting.

Thank you,

Rob Littlefield President Meadowbrook Acres NA
