Jeff Mulder, A.A.E.
Director of Airports
Oklahoma City Airport Trust
7100 Terminal Dr., Unit 937
Oklahoma City, OK 73159

Dear Mr. Mulder,

Atlantic Aviation appreciates the opportunity to provide feedback on the self-fuel policy variance requested by an aircraft operator proposing to perform Part 135 air charter operations at the Airport. We commend the Oklahoma City Airport Trust for maintaining an open and transparent process for tenant input on such matters.

You have stated that the aircraft operator requesting the variance has access to a fuel supply system located on its leasehold and will conduct self-fueling activities exclusively using its own equipment and personnel, and only on aircraft that it owns or leases.

As a member of the local aviation community, we are in full support of the Airport's existing self-fuel policy at Wiley Post Airport. We also support the Airport's commitment to ensuring that all tenants performing self-fueling operations comply fully with applicable Federal Aviation Administration (FAA) regulations and policies governing self-fueling activities. Additionally, we strongly support the enforcement of the Airport's safety and insurance requirements to safeguard the well-being of all airport users and facilities. These policies are important because they ensure that investments in infrastructure, equipment, safety, and training by fixed-based operators such as Atlantic Aviation are not financially undermined.

Please do not hesitate to reach out if Atlantic Aviation can assist further in this matter or provide additional insight into the operational implications of the proposed variance. We look forward to continued collaboration with the Airport Trust to uphold the highest

standards of safety and compliance.

Sincerely,

A handwritten signature in black ink, appearing to read "E. Jefferson". The signature is fluid and cursive, with a vertical line separating the first name from the last name.

Evin Jefferson
General Manager
