FROM: Paul Bronson, Director *PAB*
General Services Department

DATE: September 17, 2024

SUBJECT: Sole Source – Schneider Electric – Automated Building Systems (ABS)

Maintenance, equipment replacement, training and licenses for the City's ABS system are proprietary to Schneider Electric (SEEB). These services are essential and SEEB is the sole source for authorized support and system upgrades.

The estimated cost for is \$500,000. The source of funds is OCITY-1611-3503900-C80506-52000001 / 53000001.

Date: September 1, 2024

To: Whom It May Concern

Subject: Authorized Schneider Electric Integrator

Schneider Electric Buildings Business (SEBB) is a global manufacturer and marketer of commercial, industrial and institutional Integrated HVAC Control Systems and Access Control System. Automated Building Systems (ABS) provides factory commissioning and warranty support for the full range of SEBB TAC I/A Series (formally Invensys, Siebe and Barber Coleman) LON & BACnet products as well as EcoStruxure for Building Operation (formerly StruxureWare Building Operation), as well as direct aftermarket services to existing building owners and end-users.

Automated Building Systems must meet stringent company requirements including financial stability, engineering, sales and system support staffing requirements. Additionally, they are required to have their staff attend extensive factory training classes. I am pleased to report that ABS has met or exceeded all our requirements. Because of this level of factory support, ABS is the only authorized service provider to warranty and repair SEBB TAC I/A Series products in your region.

Please feel free to contact me at the telephone number listed below should you have any further questions or concerns.

Sincerely,
