To Oklahoma City Planning Commission,

I would like to show my support of SPUD – 1673. I have known this family for over 30 years and am very excited to hear of this possibility for them. I do not think that this will cause any detriment to the roads, traffic, or safety concerns in the area. In fact, I believe that this will produce the exact opposite. This will allow for additional resources on maintaining the road, the traffic is not going to be greatly affected (others on the road have multiple vehicles coming and going as well), and it will help to make our already safe and cozy area even safer by having more eyes to keep a watch on things. I whole heartedly hope that they are able to continue and give them all my support in their endeavor.

Thank you for your time,

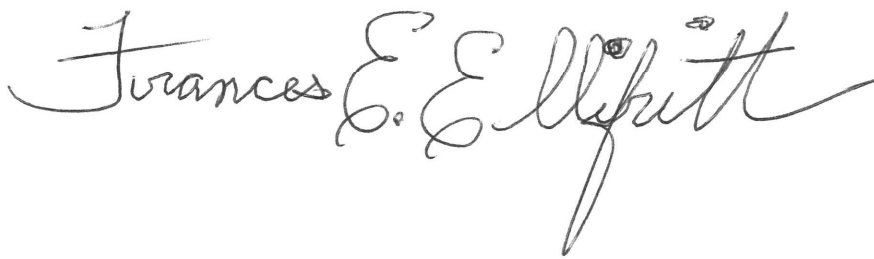

Ellen Maureen Yearly Strom Johnson

Frances Ellifritt  
12008 Hope Road

I would like to show my support for the family of Wesley and Cheryl White. I think that this will be a wonderful addition to our road for many reasons.

This will help with the maintenance, upkeep, and integrity of the road, this will allow for more eyes on the road to help ensure safety, it is a family trying to be together and raise their children in this comforting rural environment. I do not think that the addition of these residences will be a burden or hassle in the way of additional traffic, there is already traffic on this road from multiple other residences, as well this will help to increase safety and protection by having additional eyes on the road.

This family has been very welcoming of me since I have moved here over 20 years ago. Any time I have called they are happy to come and help with any needs or troubles I have had; I think by allowing their children to reside here as well will be a comfort to those of us who are aging and need that support system.
