

MEMORANDUM

Council Agenda
Item No. X. A
5/23/2023

The City of OKLAHOMA CITY

TO: Mayor and City Council

FROM: Craig Freeman, City Manager

Concurrence with the Oklahoma City Water Utilities Trust in approving the Preliminary Engineering Report, Projects WM-0342, rehabilitation of South Lake Atoka Road, and WM-0343, rehabilitation of North Lake Atoka Road; and authorizing preparation of plans and specifications.

Location:

Lake Atoka Road – Atoka, Oklahoma

Background:

The existing pavement has deteriorated extensively due to the poor base material and thin depth of asphalt pavement originally constructed. These projects provide for services related to replacing approximately four miles of road along the same alignment of the existing lake road.

It is recommended that both projects be constructed with six inches of asphalt pavement, with six inches of aggregate base, and moisture barrier. Additional improvements will include the replacement of the guardrail that is either damaged or needs to be updated to the latest standards.

Final plans are expected in the fall of 2023, with construction scheduled to begin in the spring of 2024.

Engineer:

Poe and Associates, Inc.

Estimated Construction Cost:

WM-0342 \$3,467,000

WM-0343 \$3,330,600
