**RFP OCWUT 11-23 Request for Proposals for Big Blue Refuse and Green Recycle 95-98  
gallon and 30-to-40-gallon carts**

---

**ADDENDUM NO. 1**

Issued: April 12, 2023  
To: PROSPECTIVE PROPOSERS  
From: Mark Keesee, Administrative Specialist  
Through: Chris Browning, General Manager  
Department: Utilities Department

The above reference specification was advertised in the Journal Record and released online through Periscope on March 29, 2023. The Oklahoma City Water Utilities Trust (OCWUT) has determined a need to issue an addendum to RFP OCWUT 11-23.

**The following modification is included in Addendum No. 1:**

**16. Wheels, Tires and Axle**

- a. Tires must be made of rubber and sufficiently strong to last throughout the life of the cart. All plastic wheels/tires are unacceptable. The rubber tire portion of the wheel must be at least 1.75 inches wide by 1.50 inches tall and be made of solid rubber.
- b. The wheel must be solid. Spoked wheels are not acceptable.
- c. Wheels must snap on to the axle.
- d. Wheels must be approximately 12" in diameter, including the height of the tire as specified herein.
- e. The axle shall attach to the cart body by an integrally molded assembly which encloses the axle 360 degrees. The axle support area/yoke shall be durable enough to withstand OCWUT's operation and last throughout the life of the cart.
- f. Axle shall be approximately 7/8 in diameter and solid steel corrosion-resistant coated. **OCWUT is willing to accept a 3/4 inch axle paired with a 12 inch rubber wheel.**

The wheels, tires and axle shall be capable of supporting the load rating. The wheels, tires, and axle shall be durable enough to last throughout the life of the cart. Nuts, bolts and screw assemblies are not acceptable; axle shall pass through cart body outside refuse and recycle area.

APPROVED

  
Chris Browning, General Manager
