Re: Innovyze, Inc. Software & Sole Source

Dear Mr. Baldie,

In reference to communications between our organizations, the intent of this letter is to ensure that there is clarity regarding our sole source statement.

Innovyze, Inc. ("Company") was created by way of a merger between Innovyze and XP Solutions in May 2017. Company is the sole and exclusive developer, owner, and distributor of all current and legacy Innovyze products including all add-on modules, bundles, editions, updates, upgrades, and Annual Maintenance (individually and collectively "Software"), within the United States of America for the following products and platforms: InfoWater, InfoWater Pro, InfoWater Pro Suite, InfoAsset Planner (formerly InfoMaster), InfoAsset Manager, Info360 (formerly SCADAWATCH), Info360.com, InfoWorks ICM, InfoWorks ICM SE, ICM Live, InfoDrainage, Emagin, InfoWorks WS Pro, and IW Live.

No other party, directly or indirectly, is currently authorized to sell the Software in the United States of America, as Innovyze, Inc. is the sole-source for manufacturing and distributing the Software within the United States of America.

We maintain the exclusive rights to sell licenses to the Software and we have no approved, authorized or permitted distributors or resellers selling the Software in the United States of America. While Company has in the past authorized certain third party aggregators to distribute the Software to certain end customers when Company is expressly requested to do so by the end customer, Innovyze only grants such third party aggregators the limited right to distribute the Software on a one-off basis (and under Innovyze's direction and control) to the specific end customer as part of that single transaction. Such third-party aggregators do not have any other rights to distribute or sell licenses to the Software.

While Company has entered into distribution relationships with certain international channel partners, those channel partners operate outside of the United States of America and are prohibited from selling Company's software products within the United States of America pursuant to the terms and conditions of Company's standard channel partner agreement. The software is further protected by trademarks and/or copyright rights owned by Company and/or its affiliated companies.

Sincerely,

Michael P. McGuire
