

**AMENDMENT NO. 2 AND RENEWAL OF CONTRACT FOR ENGINEERING  
SERVICES**

This contract amendment and renewal for engineering services for the construction management and inspection services ("Contract") is entered into this 21st day of June, 2022, by and between the City of Oklahoma City, a municipal corporation ("City") and CEC Corporation ("Engineer").

**WITNESSETH:**

**PROJECT NO. MC-0618-D  
CONSTRUCTION MANAGEMENT AND INSPECTION SERVICES  
FOR THE (SALES TAX) STREET RESURFACING PROGRAM**

**WHEREAS**, the City intends to engage the services of the Engineer to provide for design and all other engineering services related to construction management and inspection services for the (sales tax) street resurfacing program for Fiscal Year 2023 ("project"); and

**WHEREAS**, the City has implemented \$240,000,000 in various projects through the Better Streets Safer City program; and

**WHEREAS**, this program requires the assistance of one or more consulting engineers to support the City in managing, administering, and inspecting the projects; and

**WHEREAS**, the consulting engineers will supplement city staff by evaluating and scoping the individual projects; and

**WHEREAS**, the consulting engineers will supplement city field staff in inspecting the projects; and

**WHEREAS**, the Engineer will provide professional services for the project in accordance with this Contract, as set forth in Paragraph 2. Basic Services; and

**WHEREAS**, CEC Corporation will assist in the sidewalks and trails portion of the program; and

**WHEREAS**, it is the intent of the City to renew this Contract annually, at the City's option, for a period of (4) four fiscal years from date of execution of the original Contract, until June 30, 2023; and

**WHEREAS**, the Engineer has been selected under the standards adopted and the procedures prescribed by the resolution establishing procedures for selection of architects, engineers and planners adopted by the City Council on July 23, 1974, amended on December 31, 1974, February 21, 1978, January 22, 1980, and November 18, 1986, which resolution, with its amendments, is made a part of this Contract by reference.

**WHEREAS**, subsequent to the execution of the original contract, it has been determined to add a Term of Contract section to the Contract to allow the Engineer to complete pending work orders that are issued prior to the Contract expiration, after the contract has expired; and

**WHEREAS**, it has also been determined to add the Crime Prevention through Environmental Design (CPTED) clause to ensure projects are designed to provide safety for users; and

**WHEREAS**, the original contract must be amended to incorporate the aforementioned Term of Contract section, and CPTED clause; and

**NOW, THEREFORE**, in consideration of the mutual covenants contained hereinafter relating to the project, the parties agree to amend and renew the contract to read as follows:

1. **Definitions.** All terms and phrases not expressly defined herein shall have their ordinary meanings, consistent with Oklahoma and Oklahoma City law, except where the context clearly indicates a different meaning. For purposes of this Contract, the following terms and phrases shall have the meaning subscribed herein:

A.     *Engineering  
Services*

Those professional services associated with research, development, design and construction, alteration, and/or repair of real property and improvements thereon, as well as incidental services that members of these professions and those in their employ may logically or justifiably perform, including but not limited to studies, investigations, surveys, evaluations, consultations, planning, programming, conceptual designs, design development, plans and specifications, cost estimates, observations, shop drawing reviews, sample recommendations, assemble operating and maintenance manuals, site visits and other related services.

B.     *Bidding  
Documents*

Those documents required to construct, renovate and/or modernize the project, including but not limited to standard provisions, special provisions, drawings, plans and specifications.

C.     *City Engineer*

The officer of the City of Oklahoma City or designee, e.g. "Project Manager", in charge of engineering, construction and maintenance contracts on public rights-of-way, on public lands and capital improvement projects.

D. *Term of Contract*                      The term of this Contract shall run from date of execution through June 30, 2023.

2. **Basic Services.** The Engineer is hereby engaged and employed by the City to perform in accordance with good engineering practices and in the best interest of the City in accordance with the professional standard of care all of the work as set out herein and incorporated as a part of this Contract, including but not limited to the following:

A. **Investigation Services**

- (1) Prepare and make all necessary preliminary surveys investigations, studies, reports and preliminary general plans and specifications. The preliminary investigation shall include layout of any existing, proposed, and/or recommended sanitary sewers, water lines, storm sewers, all other underground obstructions, street improvements, site drainage and detention studies, as appropriate, any and/or all of which might affect the construction of the project. The engineer will provide one (1) office engineer/project manager housed at a City office, one (1) field engineer housed at a City office and two or more (2) inspectors as requested by the City Engineer. The City Engineer will approve the preliminary general plans and specifications.
- (2) Prepare a construction cost estimate for said improvements, extensions and repairs, and an estimate of all engineering fees, testing costs, right-of-way costs, and inspection fees in connection therewith.
- (3) Hold all necessary conferences with the City and all other interested parties.

B. **Final Plan Services**

- (1) Assist the City in preparing final plans, specifications and construction cost estimate.
- (2) Assist the City in preparing and furnish the City all final plans and specifications, all necessary forms for construction and advertisements for Bids, subject to approval of the employing wherever applicable, standard City forms, in completed form.
- (3) Assist the City in preparing all necessary forms for Electronic Bidding subject to approval of the City, employing standard City forms, in completed form.
- (4) Meet with the City or its representatives at any time requested for consultation or conference as directed in writing by the City Engineer.

C. **Bidding Services**

- (1) Meet with the City or its representatives at any time requested for consultation or conference, as directed in writing by the City Engineer. In this connection, the Engineer shall hold at least one (1) Pre-Bid Conference with prospective Bidders.
- (2) Answer all City and Bidder's questions regarding the bidding of the project and, upon approval by the City Engineer, prepare an electronic copy of all addendums for distribution.
- (3) The City will receive the Bids through the Electronic Bidding System, and the Engineer will receive a copy of the Bids from the City. The Engineer will review and evaluate the Bids and will make recommendations to the City for an award. The Engineer shall assist, review and make recommendations to the City on all construction contract issues.

D. Construction Administration Services

- (1) The Engineer shall provide administration of the construction contract during construction and until final payment is made to the Construction Contractor. The Engineer will have the authority to act on behalf of the City only to the extent provided in this Contract, unless otherwise modified by written instrument. The engineer will provide inspectors as requested by the City Engineer to inspect and assist in the management of the construction projects.
- (2) Meet with the City or its representatives at any time requested for consultation or conference as directed in writing by the City Engineer.
- (3) Assist in coordination of pre-work conferences for the Construction Contractor, the City and all other interested parties. The City will issue all work orders for the project.
- (4) The Engineer is not required to provide construction staking but will periodically review the Construction Contractor's construction staking survey field notes and the actual staking to verify line and grade is in accordance with the Bidding Documents.
- (6) Provide interpretation of the plans and specifications in accordance with the intent of the Bidding Documents. Such interpretations shall be made upon request of the City and its representatives or the Construction Contractor, to safeguard the City against defects and deficiencies in the construction. When making such interpretations and decisions, the Engineer will endeavor to secure faithful performance by the Construction Contractor. The Engineer does not guarantee the performance of the contract by the Construction Contractor, nor is it responsible for construction means, methods, techniques,

sequences or procedures, or for safety precautions and programs in connection with the work, and it shall not be responsible for a Construction Contractor's failure to carry out the work in accordance with the Bidding Documents.

- (7) Perform coordination of the work of inspection bureaus and laboratories selected by the City for the inspection and testing of construction materials. Receive reports and recommend approval or rejection of the materials based upon reports made by such laboratories or bureaus. The costs of all such tests and inspection by laboratories or bureaus will be paid by the City.
- (8) Review and recommend approval of testing laboratory claim vouchers within ten (10) calendar days of receipt of claim.
- (9) The Engineer shall visit the site at intervals appropriate to the stage of construction to become familiar with the progress and quality of the work. The Engineer will further determine, in general, if the work is being performed in a manner indicating that the work, when completed, shall be in accordance with the Bidding Documents. The Engineer will keep the City informed of progress of the work, and will endeavor to guard the City against defects and deficiencies of the work. The Engineer does not guarantee the performance of the contract by the Construction Contractor, nor is it responsible for construction means, methods, techniques, sequences or procedures, or for safety precautions and programs in connection with the work, and it shall not be responsible for a Construction Contractor's failure to carry out the work in accordance with the Bidding Documents.
- (10) Review all necessary information for monthly estimates (**within seven (7) calendar days of receipt from the contractor**) of the quantity of work performed, and review the claim vouchers for payments to be made to the Construction Contractor during the progress of the work and upon completion of any and all work and report the same to the City.
- (11) Review the Construction Contractor's final request for payment (**within fourteen (14) calendar days of receipt from the contractor**) and certify that, to the best of its knowledge and industry standards, the completed work conforms to plans and specifications.
- (12) Prepare and keep a record of the work performed by any contractor on this project and file with the City a monthly progress report covering the work performed by the contractor(s). The progress report shall be attached to the Construction Contractor's claim for partial or monthly payment.
- (13) Except as otherwise provided in this contract, communications with the Engineer's consultants will be through the Engineer. Communications with the Construction Contractor's subcontractors and material suppliers will be

through the Construction Contractor. Communications with other City contractors will be through the City. The Engineer shall be available at all times for the purpose of communication.

- (14) The Engineer shall recommend to the City Engineer rejection of work that does not conform to the Bidding Documents. At any time during construction, the Engineer may be given the authority to require additional inspection or testing of the work by the City Engineer.
- (15) The Engineer shall review for conformance with Bidding Documents, and approve or take other appropriate action upon the Construction Contractor's submittals, such as shop drawings, product data and samples. The Engineer's review of submittals will be promptly completed, but no longer than fourteen (14) calendar days from receipt of submittals. Review of such submittals is not conducted for the purpose of determining the accuracy and completeness of other details such as dimensions and quantities, or for substantiating instructions for installation or performance of equipment or systems, all of which remain the responsibility of the Construction Contractor as required by the Bidding Documents. The Engineer's review of the Construction Contractor's submittals will not relieve the Construction Contractor of its contractual obligation to the City as required by the Bidding Documents. The Engineer's review of the Construction Contractor's submittals will not constitute approval of safety precautions or of any construction means, methods, techniques, sequences or procedures. The Engineer's approval of a specific item shall not indicate approval of an assembly of which the item is a component.
- (16) The Engineer shall reply to the Construction Contractor's requests for information, prepare clarification drawings, prepare change orders, field orders, amendments, field changes and construction change directives. The Engineer may recommend minor changes in the work, not inconsistent with the intent of the Bidding Documents. Such recommended changes shall be made by written order approved by the City Engineer and shall be binding upon the Construction Contractor.
- (17) The Engineer shall conduct observations and inspections as required to determine the quality of work to be accepted and the date or dates of final completion and acceptance. The Engineer shall receive and forward to the City all written warranties and any related documents required by the Bidding Documents and assembled by the Construction Contractor. The Engineer will recommend approval of the Construction Contractor's final certificate of payment upon completion of the work and compliance with the requirements of the Bidding Documents.

- (18) The Engineer will review daily inspection reports to evaluate and determine compliance with the Bidding Documents. Significant variations between reported conditions and the Bidding Documents shall be verified by the Engineer and resolved with the Construction Contractor and the City.
- (19) Assist the City in maintaining a record (“log”) of all documents it receives, creates or transmits during the construction of the project. The log shall include time requirements of responses if needed.

E. Inspection Services

The Project Site Representative for the Engineer (Inspector) shall perform the following inspection functions/services:

- (a) Immediately upon receipt of a Construction Work Order, the Inspector shall be present at the construction site and shall perform inspection of the quality of construction as the construction relates to the contract documents.
- (b) The Inspector shall immediately notify the Construction Contractor and the City if the work does not conform to the Contract Documents.
- (c) The Inspector shall attend all job site meetings and shall report to the City all issues concerning progress, quality assurance, quality control and dispute resolution.
- (d) The Inspector shall maintain at the construction site, a copy of all contract documents and other pertinent documents in a orderly manner including a current set of construction documents annotated to include all Project related changes and clarifications. The documents shall include, but not limited to, drawings, specifications, addenda, Requests for Information, Discrepancy and Nonconformance Reports, supplemental drawings, approved shop drawings, approved submittals, approved samples, correspondence, accepted schedules, construction change orders, amendments, logs, meeting minutes and a contractor directory.
- (e) The Inspector shall maintain all shop drawings, project data or samples in an easily retrievable filing system at the construction site.
- (f) The Inspector shall maintain a daily log book or diary, recording all pertinent observations, including but not limited to:
  - 1. Inspector’s name, date, time and activities;
  - 2. Weather conditions at the site;

3. The nature and location of work being performed by the Construction Contractor;
  4. Identification of any work that the Inspector believes fails to strictly conform to the contract documents, along with the Inspector's actions regarding such observation;
  5. Identification of any work determined to be nonconforming, along with the disposition of such nonconformance;
  6. Copies of all reports made to the Construction Contractor of nonconforming work;
  7. Description of all disputes among the Construction Contractor, Subcontractors and suppliers; and
  8. Description of how each dispute is resolved.
- (g) The Inspector shall be present at the construction site while work is proceeding and shall provide inspection of the quality of construction. The Inspector will have authority to act on behalf of the City only to the extent provided by this Contract. The Inspector is not responsible for creating or implementing the Construction Contractor's schedules nor for any failure by the Construction Contractor to perform its work in accordance with plans and specifications.
- (h) Communications with the Construction Contractor's subcontractors and material suppliers will be through the Construction Contractor. Communications with other Trust contractors will be through the City. The Inspector shall be available at all times for the purpose of communication.
- (i) The Inspector shall coordinate his/her work with other on-site activities performed by the City and the Construction Contractor.
- (j) The Inspector may NOT:
1. Authorize deviations from the contract documents.
  2. Personally conduct or participate in tests or third party inspections.
  3. Assume any of the responsibilities of the Construction Contractor, subcontractors or suppliers.
  4. Expedite the work for the Construction Contractor.
  5. Advise or issue directions to the Construction Contractor concerning aspects of construction means, method, techniques, sequences or procedures, or safety precautions and programs in connection with the work.
  6. Reject work or require special inspection or testing.
  7. Order the Construction Contractor to stop the work or any portion thereof.

- (k) The Inspector is not responsible for the discovery, presence, handling, removal or disposal of, or exposure of persons to, hazardous materials in any form at the project site, including but not limited to asbestos, asbestos products, polychlorinated biphenyls (PCBs) or other toxic substances. If the Inspector has actual notice of such hazardous materials, he/she shall notify the City immediately of its discovery.
  - (l) Inspection Services shall be performed by the Engineer in accordance with these Basic Services. The Engineer will be paid for Inspection Services in accordance with the rate shown in Paragraph 5. Compensation.
  - (m) Prepare and submit to the City for approval, a resume showing the inspector's experience in qualifications for approval prior to the inspector visiting the site. The resume shall document previous expertise and experience on projects of similar scope and cost.
- 3. **No Extra Work.** No claims for extra work of any kind or nature or character shall be recognized by or be binding upon the City unless such work or service is first approved in writing by the City.
- 4. **Additional Services.** Not applicable.
- 5. **Compensation.** The City agrees to pay the Consulting Engineer as compensation for professional engineering services listed above at the following rates (the Consulting Engineer shall submit separate invoices/claim vouchers for each project). The Consulting Engineer shall submit invoices, accompanied by detailed description of the total work accomplished to the City, not more than once per month.

Field Engineer	\$155.00/hr
Office Engineer	\$150.00/hr
Inspector(s)	\$104.00/hr
Overtime Inspector	\$115.00/hr
Drone Operator	\$200.00/hr (all-inclusive rate)
CADD Technician	\$ 66.00/hr
Design Technician	\$93.00/hr

The Consulting Engineer should manage personnel to maintain a 40-hour week. The Consulting Engineer must coordinate with the City prior to utilizing the CADD and Design Technician personnel. The Consulting Engineer must coordinate with the City prior to staffing additional personnel. Inspector over time must have prior authorization from the City.

Surveying Services shall be invoiced at the rate of \$175.00 per hour for use of a two (2) man crew to include transportation of equipment and materials.

6. **Payments.**

- A. Payment of claims for incremental work completed on each task may be submitted. Invoices for the amount and value of the work and services performed by the Engineer shall be submitted monthly to the City and shall meet the standards of quality as established under this Contract. The City agrees to pay the Engineer, as compensation for such engineering services as listed herein, an amount as stated in Paragraph 5. Compensation. The invoices shall be prepared and submitted by the Engineer and be accompanied by all supporting data required by the City. Additionally, the invoices must be accompanied by a description of the position of the employee with the employee's hours expended. Payment of any invoice for any work or services is not deemed to be recognition of satisfactory performance of said work or services or a waiver of any right of the City or any obligation of the Engineer should it be determined later that said work or services were negligently performed or provided or were not performed or provided in accordance with the standards required by this Contract.
- B. The Engineer shall present two (2) copies of the invoice with two (2) properly executed claim vouchers to the City for compensation and payment. The City will review the invoice and claim voucher for payment. Should the City question or request additional documentation or disapprove all or a portion of any invoice, the Engineer will be notified so that it may provide additional documentation sufficient to demonstrate the invoice and claim should be paid, in whole or in part.
- C. Final payment shall not be deemed to waive any rights or obligations of the parties to this Contract.

7. **Indemnity.** To the fullest extent permitted by law, the Engineer agrees to release, defend, indemnify and save harmless the City and its beneficiary trusts, their officers, agents and employees, from and against any and all loss of or damage to property, injuries to or death of any person or persons and/or all claims, damages, suits, costs, expenses, liability, actions or proceedings of any kind or nature whatsoever, including, without limitation, Worker's Compensation claims of or by anyone whomever, to the extent resulting from or arising out of the Engineer's negligent acts, operations, errors and/or omissions under or in connection with this Contract, or the Engineer's use and occupancy of any portion of the project site, including, without limitation, negligent acts, operations, errors and/or omissions of the Engineer's officers, employees, representatives, suppliers, invitees, contractors, subcontractors or agents. The Engineer shall promptly advise the City and its beneficiary trusts, in writing, of any action, administrative or legal proceeding or investigation as to which this indemnification may apply, and the Engineer, at its expense, shall assume the defense of the City and its beneficiary trusts, with counsel satisfactory to the City its beneficiary trusts. This section shall survive the expiration of the Contract. Provided,

however, the Engineer need not release, defend, indemnify or save harmless the City and its beneficiary trusts, or their officers, agents and employees, from damages or injuries resulting from the negligence of the City and its beneficiary trusts, their officers, agents or employees or the independent acts, operations, errors and/or omissions of architects and engineers who are not officers, employees, representatives, suppliers, invitees, contractors, subcontractors, or agents of Engineer. It is understood that this indemnity and hold harmless provision is not limited by the insurance required under the provisions hereof.

8. **Insurance.** Prior to approval of this contract, the Engineer shall obtain insurance coverage as provided below. The Engineer must provide, pay for, and maintain the types of insurance policies provided herein, in amounts of coverage not less than those set forth below. Certified, true and exact copies of all insurance policies required and endorsement pages shall be provided to the City and its participating trusts on a timely basis if requested by City staff. The Engineer will provide the Certificate(s) of Insurance to the City and its participating trusts with the executed contract (contract will not be processed for approval without the contract-required verification of insurance indicated on the Certificate(s) of Insurance). Certificate(s) of Insurance must be insurance industry standard forms, such as ACORD.

All insurance must be from responsible insurance companies which are authorized to do business in the state of Oklahoma and are acceptable to the City and its participating trusts. The required insurance coverage and policies shall be performable in Oklahoma City, Oklahoma, and shall be construed in accordance with the laws of Oklahoma.

Nothing in this Section shall define or limit the rights of any party to this Contract under any other provision of this Contract, including but not limited to any indemnification provision.

- A. **Additional Insureds:** All liability policies (except professional liability and worker's compensation and employer's liability policies) shall provide that the City and its participating trusts are named additional insureds without reservation or restriction.

All insurance coverage of the Engineer shall be primary to any insurance or self-insurance program carried by the City and its participating trusts.

All insurance policies shall include a severability of interest provision wherein claims involving any insured hereunder, except with respect to limits of insurance, interests shall be deemed separate from any and all other interest herein, and coverage shall apply as though each such interest was separately insured.

Subrogation as to any additional insured shall be waived.

- B. **Deductibles:** All policies must be fully insured with any single policy deductible not exceeding \$25,000 per occurrence. All deductibles must be declared on the certificate of insurance. If no deductible is declared, the Engineer is stating a deductible does not exist and thus a deductible is not approved or accepted. If the

Engineer's deductible is higher than declared, then the City and its participating trusts will hold an equal amount from pay claims until corrected.

Self-insured retentions will not be accepted unless accompanied by a bond (financial guarantee bond) or irrevocable letter of credit guaranteeing payment of the losses, related investigations, claim administration and defense expenses not otherwise covered by the Engineer's self-insured retention.

- C. Policy Limits: The insurance coverage and limits required of the Engineer under this Contract are designed to meet the minimum requirements of the City and its participating trusts. Such coverage and limits are not designed as a recommended insurance program for the Engineer. The Engineer alone shall be responsible for the sufficiency of its own insurance program. Should the Engineer have any question concerning its exposures to loss under this Contract or the possible insurance coverage needed therefore, the Engineer should seek professional assistance.

Except for professional liability insurance, all policies shall be in the form of an "occurrence" insurance coverage or policy. If any insurance is written in a "claims-made" form, the Engineer shall also provide tail coverage that extends a minimum of two years from the expiration of this Contract.

The minimum aggregate limits of such insurance policies and continuing coverage shall be:

- (1) Worker's Compensation and Employer's Liability Insurance. The Engineer shall provide and maintain, during the term of the Contract, worker's compensation insurance as prescribed by the laws of the state of Oklahoma and employer's liability Insurance in an amount not less than One Hundred Thousand Dollars (\$100,000.00) each for all its employees employed at the site of the Project, and in case any work is subcontracted, the Engineer shall require the subcontractor similarly to provide worker's compensation and employer's liability insurance for all the subcontractor's employees, unless such employees are covered by the protection afforded by the Engineer. In the event any class of employees engaged in work performed under the Contract or at the site of the Project is not protected under such insurance heretofore mentioned, the Engineer shall provide and shall cause each subcontractor to provide adequate insurance for the protection of the employees not otherwise protected.
- (2) Commercial General Liability Insurance. The Engineer shall provide and maintain commercial general liability insurance coverage sufficient to meet the maximum cumulative liability of all parties to this Contract, including the City and any public trust participating in the Project, under the Governmental Tort Claims Act, 51 O.S. § 151 *et seq.*, (GTCA) and any amendment or addition thereto, as provided herein.

Property damage liability in an amount not less than Two Hundred Thousand Dollars (\$200,000.00) per claimant for loss, damage to or destruction of property, including but not limited to consequential damages arising out of a single accident or occurrence.

All other liability in an amount not less than One Hundred Seventy Five Thousand Dollars (\$175,000.00) per claimant for claims including death, personal injury, and all other claims arising out of a single accident or occurrence.

Single occurrence or accident liability in an amount not less than One Million Dollars (\$1,000,000.00) for any number of claims arising out of a single accident or occurrence.

- (3) Automobile Liability Insurance. The Engineer shall provide and maintain comprehensive automobile liability insurance coverage as to the ownership, maintenance, and use of all owned, non-owned, leased or hired vehicles sufficient to meet the maximum cumulative liability of all parties to this Contract, including the City and any public trust participating in the Project, under the Governmental Tort Claims Act, 51 O.S. § 151 *et seq.*, (GTCA) and any amendment or addition thereto, unless otherwise specifically and expressly provided herein.

Property damage liability in an amount not less than Two Hundred Thousand Dollars (\$200,000.00) per claimant for loss, damage to or destruction of property, including but not limited to consequential damages arising out of a single accident or occurrence.

All other liability in an amount not less than One Hundred Seventy Five Thousand Dollars (\$175,000.00) per claimant for claims including death, personal injury, and all other claims arising out of a single accident or occurrence.

Single occurrence or accident liability in an amount not less than One Million Dollars (\$1,000,000.00) for any number of claims arising out of a single accident or occurrence.

- (4) Professional Liability Insurance. The Engineer shall provide and maintain professional liability insurance coverage in an amount not less than \$1,000,000 aggregate annual limit liability. Such insurance coverage shall be maintained during this Contract, during the construction of the Project, and for a period of two (2) years after the final, formal acceptance of this Project by the City.

- D. Certificates: The insurance coverage and limits required must be evidenced by properly executed certificates of insurance on the form furnished by The City or on forms approved by the Oklahoma Insurance Commissioner. Copies of these certificates have been provided to the City Engineer prior to execution of this Contract and are attached hereto. The certificate(s) must be signed by the authorized representative of the insurance company(s) shown in the certificate(s). The certificate must include the Project number and Project description or name.
- E. Cancellation. There may be no termination, non-renewal, reduction in coverage, or modification of such insurance coverage.

The Engineer authorizes the City and its participating trusts to confirm all information so furnished as to the Engineer's compliance with its bonds and insurance requirements with the Engineer's insurance agents, brokers, surety and insurance carriers. The lapse of any insurance policy or coverage required by this Contract is a breach of this Contract for which the Engineer shall repay and reimburse all payment made under the Contract and such other damages, losses, and costs incurred by the City and its participating trusts. The City and its participating trusts may at their option suspend this Contract until there is full compliance with this paragraph, or may cancel or terminate this Contract and seek damages for the breach of this Contract. The remedies in this paragraph shall not be deemed to waive or release any remedy available to The City and its participating trusts. The City and its participating trusts expressly reserve the right to pursue and enforce any other cause or remedy in equity or at law.

In the event of a reduction in any aggregate limit below the aggregate limit required to this contract, the Engineer shall immediately notify the City and its participating trusts and shall make reasonable efforts to have the full amount of the limits appearing on the certificate reinstated. If at any time the City and its participating trusts request a written statement from the insurance company(s) as to any impairments to or reduction of the aggregate limit below the aggregate limit required by this contract, the Engineer hereby agrees to promptly authorize and have delivered to the City and its participating trusts such statement.

The Engineer must carry and maintain the contract-required insurance coverages and may not cancel, fail to be renewed, nor decrease their limits without thirty (30) days written notice to the City and its participating trusts. In the event that a contract-required insurance coverage (policy) is canceled by the Engineer's insurance company and through no fault of the Engineer, the Engineer must immediately provide written notice to the City and its participating trusts and immediately provide properly executed Certificate(s) of Insurance evidencing coverage (policy) replacement of the canceled coverage(s). The Certificate(s) of Insurance must specifically indicate (in the remarks section of the form or elsewhere) the project number and project description. An authorized representative of the insurance companies listed on the Certificate(s) of Insurance must sign the Certificate(s).

- F. **Duration of Coverage.** All insurance coverage required under this Contract except professional liability insurance shall be maintained in full force and effect until completion and formal acceptance of the Project by the City and its participating trusts. The Engineer shall maintain in full force in effect the required professional liability insurance stated above during this Contract, during the construction of the Project, and for a period of two (2) years after the final, formal acceptance of this Project by the City and its participating trusts.

The requirements of the insurance provisions listed above shall survive the completion, expiration, cancellation or termination of this Contract.

9. **Termination for Convenience.** The City may terminate this Contract (with or without cause), in whole or in part, for the City's convenience. The City may terminate by delivery of a notice to the Engineer, pursuant to paragraph "Notices" herein.

Upon receipt of the notice of termination, the Engineer shall (1) immediately discontinue all work and services affected (unless the notice directs otherwise), and (2), upon payment for work performed, deliver to the City all documents, data, drawings, specifications, reports, calculations, field notes, tracings, plans, models, computer files, estimates, summaries and other information and materials accumulated in performing this Contract, whether complete or incomplete unless the notice directs otherwise.

Upon termination for the convenience by the City, the City shall pay the Engineer for all work and services rendered, up to the time of the notice of termination, in accordance with the terms, limits and conditions of this Contract and as further limited by the not to exceed amounts set out in this Contract.

The rights and remedies of the City provided in this paragraph are in addition to any other rights and remedies provided by law or under this Contract.

Termination herein shall not terminate or suspend any of the required provisions of paragraph "Indemnity" or "Insurance" of this Contract.

10. **Notices.** All notices given pursuant to this Contract shall be in writing, delivered or mailed by United States mail, postage prepaid or faxed (with hard copy follow up by mail or delivery) and addressed as follows:

To the City:

The City of Oklahoma City  
Department of Public Works  
420 West Main Street, Seventh Floor  
Oklahoma City, Oklahoma 73102  
Attn: Eric J. Wenger, P.E., Director

Public Works/City Engineer  
Phone Number: (405) 297-2581 Fax Number: (405) 297-2117

To the Engineer:

CEC Corporation  
4555 W. Memorial Road  
Oklahoma City, Oklahoma 73142-2013  
Attn: Martin P. Hepp, P.E., President  
Phone Number (405) 753-4200 Fax Number (405) 384-4589

The address of any person or party may be changed by notice to the other party, given in the manner described above. All such notices shall be deemed received when delivered.

11. **Stop Work.** Upon notice to the Engineer, the City may issue a stop work order suspending the performance of work and/or services under this Contract. The stop work order shall not terminate or suspend any of the required provisions of paragraph "Indemnity" and/or "Insurance" of this Contract.
12. **Compliance with Laws, Ordinances, Specifications and Regulations.** The Engineer shall comply with all existing and applicable federal, Oklahoma and Oklahoma City laws, standards, codes, ordinances, administrative regulations and all amendments and additions thereto, applicable to the work and/or services provided by this Contract.
13. **Records and Accounts.** During the term of this Contract and continuing for a period the longer of five (5) years after the final acceptance of the completed project by the City, or until the final resolution of any outstanding disputes between the City and the Engineer or the contractor(s) on the project, the Engineer shall maintain: all documents, notes, drawings, specifications, reports, estimates, summaries, renderings, models, photographs, field notes, as-built drawings, information, survey results, plans, computer files and any other materials produced, created or accumulated in performing this Contract that have not been submitted to the City subsequent to final completion of the project and its internal accounting records, and other supporting documents pertaining to the claims and/or invoices for costs of work and/or services of this Contract. The Engineer must maintain its accounting records in accordance with generally accepted accounting principles applied on a consistent basis. The Engineer shall permit periodic audits by the City and the City's authorized representative. The periodic audits of the records in support of claims and invoices for the Contract shall be performed at times and places mutually agreed upon by the City and Engineer. Agreement as to the time and place for audits may not be unreasonably withheld.
14. **Reporting to the City.** The Engineer shall report to the City on a regular monthly basis and on an as needed basis.
15. **Prohibition Against Collusion.** The Engineer warrants that it has not employed or retained any company or person other than a bona fide employee working solely for the Engineer to

solicit or secure this Contract. The Engineer further warrants that it has not paid or agreed to pay any person, company, corporation, individual or firm, other than a bona fide employee working solely for the Engineer, any fee, commission, percentage, gift, or any other consideration, contingent upon or resulting from the award or making of this Contract. In addition, the Engineer must execute the Anti/Non-Collusion Affidavit, attached as Exhibit A, prior to the effective date of this Contract.

16. **Sub-consultant, Subcontractor or Employee Conflict of Interest.** Any work performed by the Engineer's employees, sub-consultants or subcontractors on this project shall prohibit said persons from contracting with, working for, or otherwise assisting any potential Bidder to do any project-related work for the Bidder which may in any way be (or construed to be) a conflict of interest. It is the responsibility of the Engineer to require all employees, sub-consultants, or subcontractors engaged by the Engineer to advise the City of any business relationship (formal or otherwise) which may pertain directly or indirectly to this project and/or which may in any way be (or construed to be) a conflict of interest. The Engineer will also notify the City of any such business relationship and/or conflict of interest. Any conflict of interest discovered by the City may be cause for rejection of the Bid in question and/or cancellation of the Engineer's contract.

17. **Work Orders.** The Engineer shall proceed with the provision of work and/or services for this Contract upon receipt of work orders from the City Engineer.

If the Engineer cannot perform the work and/or services within the time provided, and upon the submission by the Engineer of a request in writing to the City indicating the length of extension required to perform a task, the City Engineer may in his sole discretion grant a reasonable extension of time. The request from the Engineer shall state the reason for the extension request, along with evidence showing that the Engineer is unable to complete this work in the time specified in the work order for reasons beyond its control. The Engineer is prohibited from claiming damages for delays and extensions of time.

18. **Ownership of Documents.** All documents, notes, drawings, specifications, reports, estimates, summaries, computer files, renderings, models, photographs, field notes, as-built drawings, information, survey results, plans, and any other materials produced, created or accumulated in performing this Contract, are and shall remain the property of the City and may be reproduced, distributed and published in whole or part without permission or any additional payments or fees to the Engineer. Reuse of said documents by the City shall be at the City's risk and responsibility and not that of the Engineer. The parties may use any portions of said documents at their own risk and responsibility. During preparation of design documents, the Engineer shall do weekly backups of CADD computer files and maintain said backups in a safe and secure off-site location. These back up CADD computer files are the property of the Architect or Engineer.

19. **References Not Incorporated.** The use of language or definitions from the Federal Acquisition Regulations ("FAR"), the American Institute of Architects ("AIA") or any other

publication, are not intended to adopt by reference or otherwise any or all of the language, definitions, regulations or publications or any interpretation thereof.

20. **Standard of Care.** In providing the work and services herein, the Engineer shall maintain during the course of this Contract the standard of reasonable care, skill, diligence and professional competency for such work and/or services. The Engineer agrees to require all of its consultants, by the terms of its consultants' contracts, to provide services at the same standard of reasonable care, skill, diligence and professional competence required of the Engineer.
21. **Fixed Limit of Construction.** Not applicable.
22. **Design Corrections.** Not applicable.
23. **Notice of Design Limitations.** Not applicable.
24. **Backup Required.** In accordance with good engineering practices, the Engineer must back up all data, surveys, tests, work, plans, specifications, notes, calculations, RFI, records, reports, documents (collectively referred to as "data") in the form of an electronic file on a USB drive, data storage, or to an offsite electronic storage facility. Should any data become lost, corrupted, inaccessible, or unusable (collectively "loss"), the Engineer must timely recreate all data within the original time frame of the engineering contract at its sole cost. No extensions or additional time will be granted the Engineer for loss of data. No additional payment or reimbursement will be made to the Engineer for loss of data. The Engineer will be responsible for any and all costs, expenses, or lost opportunities incurred by The City, Trust, and construction contractor resulting from the failure to meet schedules, milestones, performance standards, or performance requirements related to loss of data.
25. **Sub-consultants.** The Engineer agrees to submit for approval by the City prior to their engagement, a list of any sub-consultants or subcontractors the Engineer intends to engage to perform work and/or services related to this Contract. Such approval will not be unreasonably withheld. The Engineer shall notify the City and seek pre-approval of any substitutions or changes in sub-consultants or subcontractors.
26. **Nondiscrimination.** In connection with the performance of work and/or services under this Contract, the Engineer agrees as follows:
  - A. The Engineer shall not discriminate against any employee or applicant for employment because of age, race, creed, color, sex, national origin, ancestry or disability as defined by the Americans with Disabilities Act of 1990, Section 3(2). The Engineer shall take affirmative action to ensure that employees or applicants for employment are treated without regard to their age, race, creed, color, national origin, sex, ancestry or disability as defined by the Americans with Disabilities Act of 1990, Section 3 (2). Such actions shall include, but not be limited to the following: employment, upgrading, demotion or transfer, recruiting or recruitment, advertising,

layoff, termination or cancellation, rates of pay or other forms of compensation and selection for training, including apprenticeship. The Engineer shall agree to post, in conspicuous places, Exhibit B.

- B. In the event of the Engineer's noncompliance with this nondiscrimination clause, this Contract may be suspended, canceled or terminated by the City. The City may declare the Engineer ineligible for further contracts or agreements until compliance, and/or satisfactory proof of intent to comply shall be made by the Engineer.
  - C. The Engineer agrees to include this nondiscrimination clause in any subcontracts connected with the performance of this Contract. The Engineer shall also execute the nondiscrimination certificate, attached and incorporated as Exhibit B, prior to the effective date of this Contract.
27. **Assignment.** Inasmuch as this Contract is a personal and professional service agreement which relies upon the personal and professional integrity, financial standing and unique ability and expertise of the Engineer to provide professional and personal services to the City, the parties agree that the Engineer may not assign its obligations, rights or interest in this Contract except as set forth in paragraph "Termination for Default" subparagraph B.
28. **Oklahoma City Municipal Facilities Authority (OCMFA) Unilateral Right to Assign** Not applicable.
29. **Termination for Default.** The City may cancel this Contract (with or without cause), in whole or in part, for failure of the Engineer to fulfill or promptly fulfill its obligations under this Contract.
- A. After due notice and thirty (30) days within which to correct the default, this Contract may be terminated by either party for default upon fourteen (14) days written notice should the other party fail substantially to perform in accordance with the Contract terms through no fault of the party initiating the termination. Upon termination for cause by the City, the City shall pay the Engineer for all work and services rendered, up to the time of the effective date of termination.
  - B. If this Contract is terminated by reason of a default of the Engineer prior to the completion of this project, regardless of the reason for said termination, the Engineer shall immediately assign to the City any contracts and/or agreements relative to this project entered into between the Engineer and its subcontractors and sub-consultants, as the City may designate in writing and with the consent of the subcontractors and sub-consultants so designated. With respect to those contracts and/or agreements assigned to and accepted by the City the City shall only be required to compensate such subcontractors and sub-consultants for compensation accruing to such parties under the terms of their agreements with the Engineer from and after the date of such assignment to and acceptance by the City. All sums claimed by such subcontractors or sub-consultants to be due and owing for services performed prior to such assignment

and acceptance by the City shall constitute a debt between the Engineer and the affected subcontractors or sub-consultants, and the City shall in no way be deemed liable for such sums. The Engineer shall include this provision and the City's rights and obligations hereunder in all agreements or contracts entered into with the Architect or Engineer's subcontractors and sub-consultants.

- C. Termination herein shall not terminate or suspend any of the required provisions of the paragraph "Indemnity" or "Insurance" of this Contract.
30. **Time Is of the Essence.** Both the City and the Engineer expressly agree that time is of the essence with respect to this Contract, and the time for performance of each task established by the work orders shall be made a part of this Contract and shall be strictly observed and enforced. Any failure on the part of the City to timely object to the time of performance shall not waive any right of the City to object at a later time.
31. **No Damage for Delay.** No payment, compensation or adjustment of any kind (other than an approved extension of time) shall be made to the Engineer for damages because of hindrances or delays from any cause in the progress of the work, whether such hindrances or delays be avoidable or unavoidable. The Engineer agrees that it will make no claim for compensation or damages for any such delays and will accept as full satisfaction for such delays the extensions of time.
32. **Severability.** In the event that any provision, clause, portion or section of this Contract is unenforceable or invalid for any reason, such unenforceability or invalidity may not affect the enforceability or validity of any other paragraph or the remainder of this Contract.
33. **Entire Agreement.** This Contract, including its Exhibits and any other documents or certificates incorporated herein by reference, expresses the entire understanding of the City and the Engineer concerning the Contract. Neither the City nor the Engineer has made or shall be bound by any agreement or any representation to the other concerning this Contract, which is not expressly set forth herein.
34. **Amendment.** This Contract may be modified only by a written amendment of subsequent date hereto, approved by the City and the Engineer. In the event the Engineer's Basic Services are increased or changed so as to materially increase the need for engineering services in excess of the not to exceed total compensation, the Engineer may seek to amend this Contract.
35. **Execution in Counterparts.** This Contract may be simultaneously executed in several counterparts, each of which shall be an original and all of which shall constitute but one and the same instrument.
36. **Descriptive Headings.** The descriptive headings of the sections of this Contract are inserted or annexed for convenience of reference only and shall not affect the meaning, construction, interpretation or effect of this Contract.

37. **Construction and Enforcement.** This Contract shall be construed and enforced in accordance with the laws of the State of Oklahoma. In the event of ambiguity in any of the terms of this Contract, it shall not be construed for or against any party on the basis that such party did or did not author the same.
38. **Survival of Representations.** All representations and covenants of the parties shall survive the expiration of the Contract.
39. **Parties Bound.** This Contract shall be binding upon and inure to the benefit of all parties. This Contract is solely for the benefit of the parties and their successors in interest, and none of the provisions hereof are intended to benefit third parties.
40. **Venue of Actions.** The parties agree that if any legal action is brought pursuant to this Contract, such action shall be instituted in the District Court of Oklahoma County.
41. **Effective Date.** The effective date of this Contract shall be the date of execution of this Contract by the City.
42. **Term of Contract.** (added by Amendment No. 2)  
This Contract authorizes the City Engineer to issue Work Orders under this Contract during the contract term as provided herein and the term of this Contract will be from the effective date through June 30, 2023, plus such extended time as necessary until all Work Orders issued during the contract term are complete.
- B. The City may issue Work Orders under this Contract at any time during the contract term.
  - C. The Engineer will provide such services as set forth in any Work Order issued under this Contract and this Contract will be deemed extended for such extended time as may be necessary for the completion of services set forth in any Work Order issued during the contract term under this Contract.
  - D. If this Contract is extended for completion of any Work Order, upon completion of all the Work Orders issued under this Contract, the City Engineer will issue a notice to the Engineer denoting the termination of this Contract and any extended time.
  - E. The Engineer must provide such services and comply with this Contract until expiration of the contract term or through any extended time, if any, until notification of termination of this Contract from the City Engineer, whichever is later.
  - F. The City will not be obligated to pay the Engineer under any Work Order (including any services, expenses, and additional services) until the funds have been encumbered. Any Work Order must not exceed the available funds for the year in

which the Work Order was issued. Any extended time to complete the Work Order will not change the available funds for the year in which the Work Order was issued.

- G. If the City should need any additional services or a change of the scope of services in any Work Order issued during the contract term, a new separate Work Order must be issued under a separate contract or an amendment to this Contract. An extended time will not extend the authorization to issue a new Work Order under this Contract after the expiration of the contract term.

**43. Crime Prevention through Environmental Design** (added by Amendment No. 2)

The Crime Prevention through Environmental Design (CPTED) concept suggests that natural surveillance, natural access control, and territoriality can be effectively applied to a project and its surrounding environment to provide safety for users. A CPTED design can also promote community confidence and improve natural surveillance methods to reduce/prevent common crime and vandalism.

The Engineer should implement the concepts of CPTED, where appropriate, to reduce the real and perceived areas of potential problems during the project design.

**[Remainder of this page intentionally left blank]**

IT IS UNDERSTOOD AND AGREED BY AND BETWEEN, the City and the Engineer that, as amended by this Instrument, all terms and conditions of the original Contract shall remain in full force and effect and the provisions of this Instrument shall become a part of the original Contract as if fully written herein.

IN WITNESS WHEREOF, this Contract Amendment and Renewal was executed and approved by the Engineer this 25 day of May, 2022.
