Oklahoma City Municipal Facilities Authority Revenue and Expense Summary

The Oklahoma City Municipal Facilities Authority (OCMFA) provides a funding mechanism for health insurance, workers' compensation, property and liability insurance, police investigative funds, advanced architectural and engineering services for G.O. bond projects and other various capital projects. Funding these activities through the OCMFA allows the City, the sole beneficiary of the authority, to benefit from multi-year contracts with vendors such as health insurance providers and allows for the maintenance of adequate reserves.

Budget by Function:

The FY23 OCMFA budget is \$120,421,193 and is organized by various functions to allow revenues and expenses for specific activities to be segregated from one another. For example, revenue received in the OCMFA from employer and employee health insurance contributions is deposited in the Health Insurance operating unit where only expenses for employee health benefits are recognized.

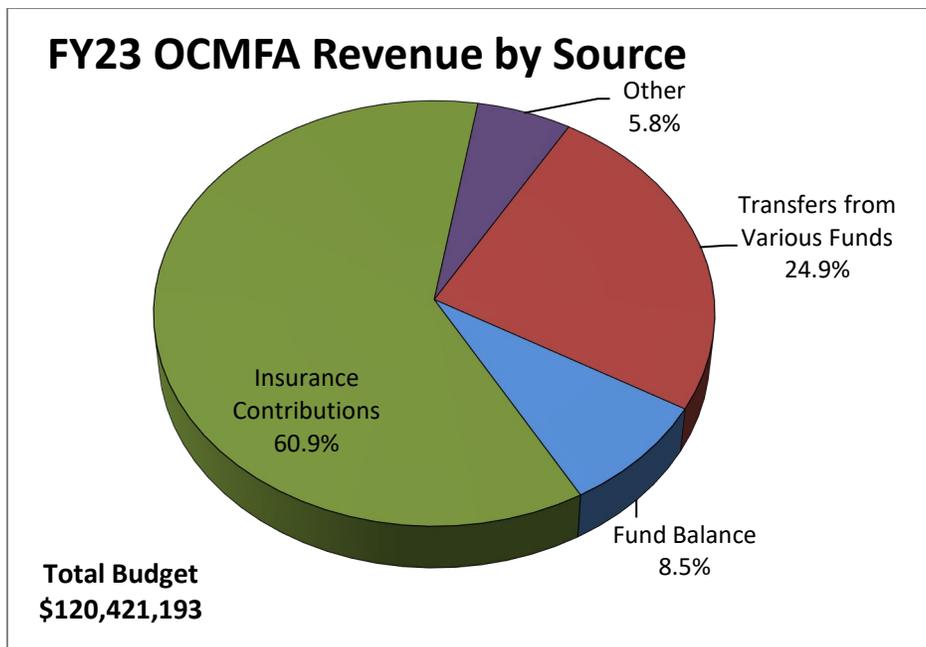

As indicated in the chart above, Health Insurance is the largest category by function at \$75 million or 63.0% of the budget. The Risk Management function, consisting of Workers Compensation, Property and Liability Insurance, and Unemployment, at \$11.9 million, \$8.3 million, and \$225,000 respectively, total to 16.9% of the budget. Advanced Capital Funding totals \$2.5 million or 2.1% of the budget. Through this revolving fund, the OCMFA funds various preliminary project costs, such as Architectural and Engineering (A&E) services, land acquisition, and testing in advance of the bond sale for specific projects. Once the bonds are sold, the G.O. Bond Funds purchase the plans, specifications, right of way, etc., and construction can begin sooner. The revenue from repayment is then used to fund additional A&E projects for the G.O. Bond program. Information Technology, at \$12.7 million or 10.5% of the budget, funds telephone, internet and software licensing expenses and training, upgrades, and maintenance for various City-wide

computer systems. The General Purpose and Other category combines the budgets for the remaining operating units including General Purpose, Drainage Capital, Myriad Gardens, and Police Investigations.

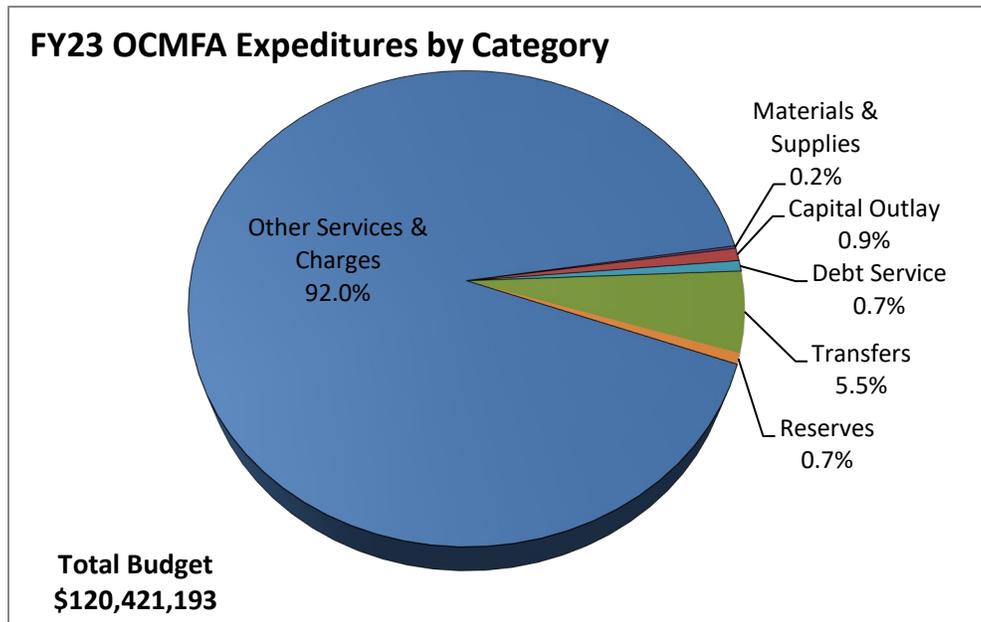

Revenue by Source:

The revenue to support activities in the OCMFA is derived from various sources most of which are approved as part of the City budget adopted by Council. In some cases, revenue is transferred from other City funds including the General Fund. An example of this type of transfer is taking revenue from the City’s Information Technology Internal Service Fund where it is collected and transferring it to the OCMFA to pay for items such as software licensing, internet and telephone service. Some revenues, such as royalties received from City owned park land or employee health insurance contributions are deposited directly in the OCMFA. These funds are allocated to the operating unit where expenses supported by that specific revenue will be incurred. An overview of revenue by source is provided in the chart below.

Expenditures by Category:

The chart below provides an overview of expenditures by category. As previously mentioned, the benefit of using the OCMFA to fund certain activities is the ability to secure multi-year contracts and maintain reserves. The largest expenditure category by function, Other Services and Charges, is consistent with these benefits. Other Services and Charges, \$110.8 million or 92.0% of expenditures, include expenses for health insurance, workers compensation claims, software licensing, and fees paid to vendors used by code enforcement. Transfers makes up the second largest category at 5.5% of the budget. Materials and Supplies, Capital Outlay, Reserves and Debt Service make up a relatively small portion of the overall budget.

Budget Summaries:

The pages that follow this summary in the OCMFA budget document provide detailed budget information.
