July 23, 2022

Timothy and Emily Farris
612 N W 41st Street
Oklahoma City, Oklahoma 73118

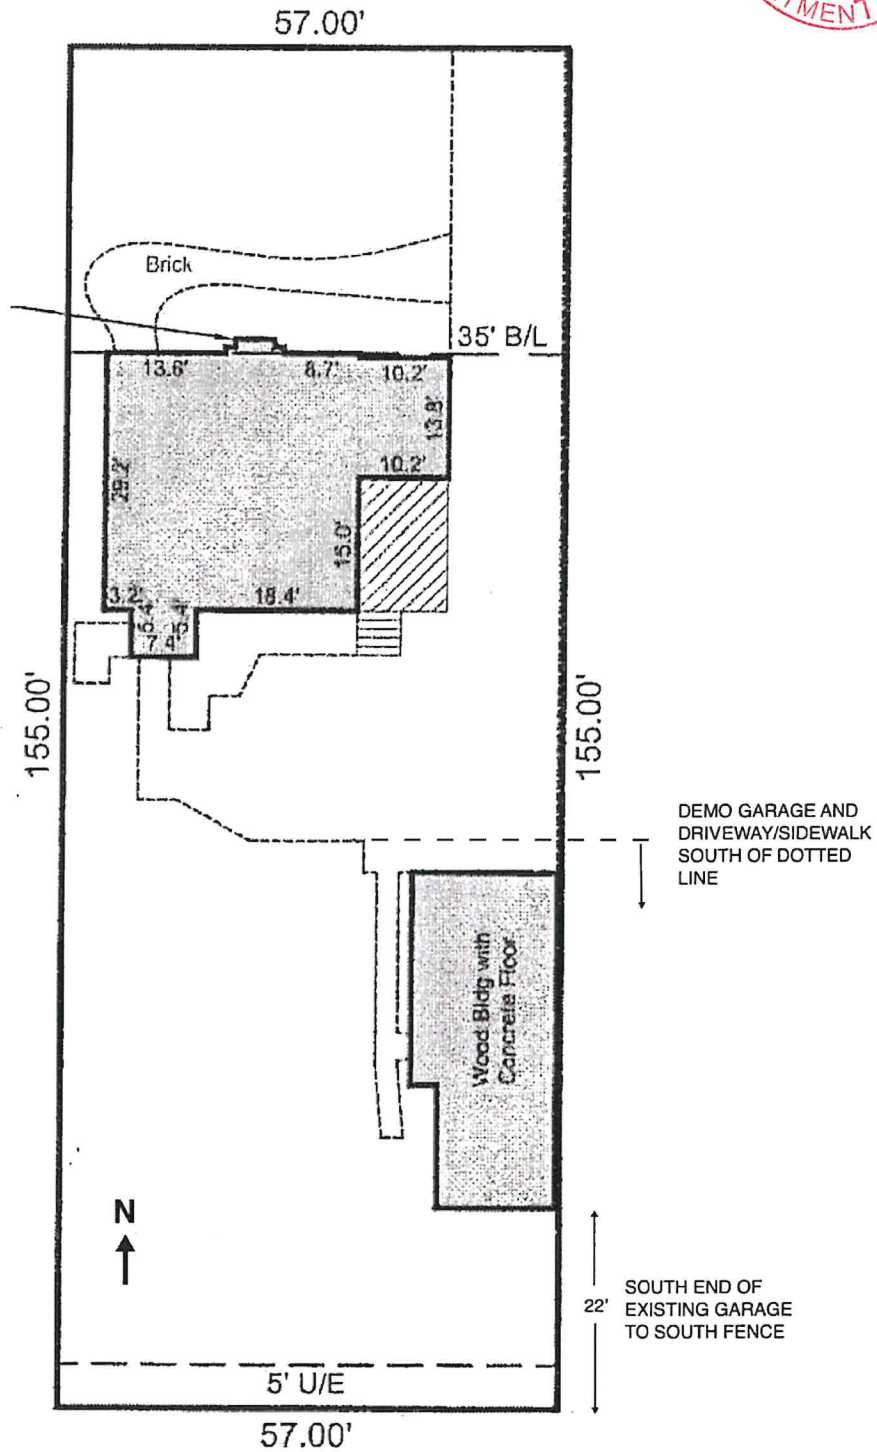

SCOPE

We propose to demolish existing garage and build new garage. The existing garage measures 585 sq. ft. The new garage will shift slightly off the property line west so east wall is 3" off property line. The new garage will be 583 sq. ft. per drawing.

Garage will be 11' in height, including stem wall
Roof material to be composition/architectural grade
Gutter and downspouts to be aluminum
Siding and trim to be Hardie
Roof soffit 12" overhang
Garage door wood 16' x 7'
Wood window 3'0 x 5'0
Garage concrete slab to be replaced

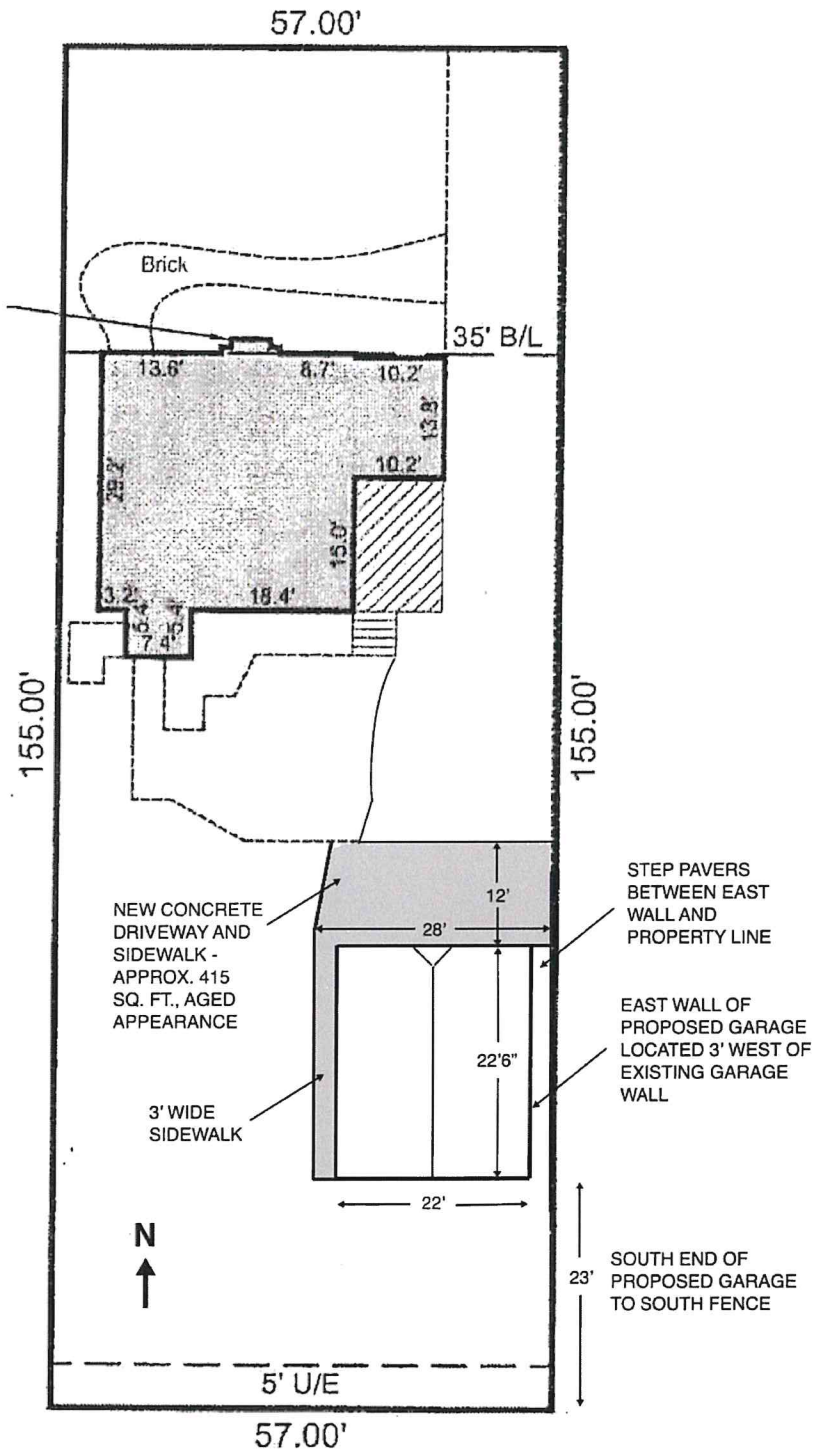

The condition of garage is such that most of the sill plate are rotten and compromise the leaning and condition of walls and roof. The concrete garage floor has huge cracks caused by settling over the years, which are seen in the photos included.
