## Price list Series H270

# H 5i - 7i Compactors of weight class 5–7 t

### Scope of supply – basic machine

Diesel engine  
 Manufacturer:  
 KUBOTA  
 Type:  
 V3307-CR-T  
 Power rat. ISO 14396, kW/PS/rpm:  
 55,4/75,3/2200  
 Emission standard:  
 EU Stage V / EPA Tier 4  
 Exhaust gas after-treatment:  
 DOC-DPF  
 Operating voltage:  
 12 V  
 Machine equipment  
 12 V outlets (double)  
 2 large working and rear view mirrors  
 3-point articulation  
 Tray behind the driver's seat  
 Storage bin under the driver's seat  
 Trays  
 Anti-slip control  
 Dashboard with displays, indicator lights and switches  
 Fixture for cooler  
 ECO mode  
 Spring-mounted driver's seat with armrest and safety belt  
 Cup holder  
 Large angle of driving slope at front and rear  
 Hose protection on front vehicle  
 Vibration-isolated operator's platform  
 Maintenance points, central on one machine side

## Price list Series H267

# H 13i - 16i Compactors of weight class 13–16 t

### Scope of supply – basic machine

Diesel engine

Manufacturer:

DEUTZ

Type:

TCD 4.1 L4

Power rat. ISO 14396, kW/PS/rpm:

115,0/156,4/2300

Emission standard:

EU Stage V / EPA Tier 4

Exhaust gas after-treatment:

DOC-DPF-SCR

Operating voltage:

12 V

Machine equipment

2 large working and rear view mirrors

2 multiply-adjustable armrests

3-point articulation

Storage bin, lockable

Dashboard with displays, indicator lights and function key

Automatic traction control and anti-slip control

Operating concept Easy Drive

ECO mode

Spring-mounted driver's seat with armrests and safety belt

Speed preselect

Cup holder

Hammtronic—electronic machine management

Hose protection on front vehicle

Vibration-isolated operator's platform

Space for cooler

Stepless hydrostatic all-wheel drive

Automatic vibration system

## 13.164.00 USD

Preparation for HCQ Navigator, at ROPS and VIO

### dashboard cover

Dashboard cover, lockable

### Protective roof

Protective roof, plastic, on ROPS

Plastic protective roof. FOPS-approved (level I)

### Dozer blade

Leveling blade

### Levelling blade modular extension

Modular extension from leveling blade to dozer blade, installed

### padfoot segments

Padfoot shells with metal scraper, not installed

### Plate compactor attachment

Preparation for vibration plate

Vibration plate, complete

### Frequency control

Frequency control

### HCQ compaction meter

HAMM Compaction Meter (HCM)

HAMM Compaction Meter (HCM), VIO

### Automatic motor stop

Automatic motor stop

### Back-up alarm

Back-up alarm, with volume adjustment

### Telematics system

WITOS FleetView (MF3, 4G) – professional telematics solution for machine operation and service optimization

### working lights, ready

Preparation for working lights or rotating beacon, at protective roof

### working lights

Working lights on cabin, 4-fold, halogen

Working lights on cabin, 4-fold, LED

Working lights on plastic protective roof, 4-fold, halogen

Working lights on plastic protective roof, 4-fold, LED

### rotating beacon light

Rotating beacon on cabin, halogen

Rotating beacon on ROPS with protective roof, halogen

### lunchbox holder

lunchbox holder

### Hood release mechanism, convenience

Hood release mechanism, convenience

# HAMM

A WIRTGEN GROUP COMPANY

---

## Price list Series H264

# HD 14i TT Pneumatic tire rollers for weight class 3.5 t

### Scope of supply – basic machine

Diesel engine

Manufacturer:

KUBOTA

Type:

V2403-CR

Power ISO 14396, kW/PS/rpm:

37.4/50,9/2700

Emission standard:

EU Stage V / EPA Tier 4

Exhaust gas after-treatment:

DOC-DPF

Operating voltage:

12 V

Machine equipment

12 V outlet

3-point articulation

Dashboard with displays, indicator lights and switches

Dashboard cover, lockable and weather-resistant

Handrails

Battery isolation switch

Compressed water sprinkling system

Operator's platform with entry from both sides

Hydrostatic steering

Vibration-isolated operator's platform

CompactLine front suspension eyelet

---

**HD 14i TT H264**

**99,310.00 USD**

- Standard
- o Optionally available
- Not available
- △ Order from headquarter
- ▲ Preset

HD 14i TT

## Mandatory Options

### Tire

1 set of wheels with smooth tires

### Paintwork

standard color (RAL 2004 + RAL 7015)

Special painting (RAL... + RAL 7015)

1,355.00 USD

Special painting (RAL... + RAL ...)

4,835.00 USD

### CE conformity

Version with CE conformity

### Warning marker

Warning labels according to ANSI

### Construction

ROPS foldable

ROPS cab with heating

24,758.00 USD

### Driver seat

Driver seat, black imitation leather; comfort version

### Lighting package as per road traffic regulations

Lighting package as per road traffic regulations

### Hydraulic oil

Hydraulic oil

### Service documentation

English spare parts and application documentation (EN)

### Technical documentation

Technical documentation – country-specific version for North America (US)

## Equipment Options

### Safety belt monitoring

Safety belt monitoring

1,124.00 USD

### radio

Radio system, complete

1,032.00 USD

### fire extinguisher

fire extinguisher

370.00 USD

### Protective roof

Metal protective roof on ROPS with integrated FOPS-approved (level I)

2,771.00 USD

### Additional load

Steel ballasting (617 lb), installed

3,172.00 USD

### thermal aprons

thermal aprons

4,788.00 USD

### Additive sprinkling

Additive sprinkling

1,971.00 USD

### all-wheel lock

all-wheel lock

3,480.00 USD

### Anti-freeze protection injection

Anti-freeze protection injection

231.00 USD

## HAMM Temperature Meter (HTM)

HAMM Temperature Meter (HTM), front

2,463.00 USD

## Displayed unit of temperature

Displayed unit of temperature is °F

## Automatic motor stop

Automatic motor stop

185.00 USD

## Back-up alarm

Back-up alarm

## working lights

Working lights on ROPS, 2-fold, halogen

508.00 USD

Working lights on ROPS, 4-fold, halogen

1,155.00 USD

Working lights on ROPS, 2-fold, LED

893.00 USD

Working lights on ROPS, 4-fold, LED

1,709.00 USD

Working lights on metal protective roof, 4-fold, LED

1,909.00 USD

## rotating beacon light

Rotating beacon, halogen

662.00 USD

Rotating beacon, LED

785.00 USD

Rotating beacon on ROPS with protective roof, LED

908.00 USD

Rotating beacon on ROPS with metal protective roof, LED

939.00 USD

## Battery isolation switch

Battery isolation switch, electronic

724.00 USD

## Documentation

## Technical documentation for additional set – country-specific version for North America (US)

477.00 USD

A WIRTGEN GROUP COMPANY

## Price list Series H278

### DV+ 90i Tandem rollers of weight class 9 t

#### Scope of supply – basic machine

Diesel engine

Manufacturer:

DEUTZ

Type:

TCD 3.6 L4

Power ISO 14396, kW/PS/rpm:

74,4/101,2/2200

Emission standard:

EU Stage V / EPA Tier 4

Exhaust gas after-treatment:

DOC-DPF-SCR

Operating voltage:

12 V

Machine equipment

12 V outlets (double)

2 large working and rear view mirrors

2 water pumps

Foldable scraper

Operating concept Easy Drive

Lighting package as per road traffic regulations

Pressurized refilling of water tanks from below

ECO mode

Spring-mounted driver's seat with armrests and safety belt

Cup holder

Hammtronic—electronic machine management

Cabin floor window, front and rear

Seat-operating unit, adjustable sideways and rotatable

Spray system with spray bar front and rear

Water filtering (triple)

Water tank front and rear, can be filled from both sides

Central water drain

<b>DV+ 90i VV-S H278</b>	<b>245,117.00</b>	<b>USD</b>
<b>DV+ 90i VT-S H278</b>	<b>250,968.00</b>	<b>USD</b>

## Mandatory Options

### Paintwork

standard color (RAL 2004 + RAL 7015)

Special painting (RAL... + RAL 7015)

2,140.00

USD

Special painting (RAL... + RAL ...)

7,160.00

USD

### CE conformity

Version with CE conformity

### Warning marker

Warning labels according to ANSI

### System of units

Display of the units of measurement, US units

### Construction

ROPS cabin with split doors

6,590.00

USD

ROPS with metal protective roof

### Air conditioning

heating and airconditioning

14,858.00

USD

### Driver seat

Driver seat, black imitation leather

### Armrest

Multifunction armrest, right, foldable

### Seat adjustment

Mechanical adjustment of seat-operating unit

### Lighting package as per road traffic regulations

Lighting package, halogen, as per road traffic regulations

### Camera system

Camera system, front and rear

Camera system—front, rear and chip spreader

2,864.00

USD

Camera system, front, rear and and preparation for chip spreader

1,478.00

USD

### Hydraulic oil

Hydraulic oil

### Service documentation

English spare parts and application documentation (EN)

### Technical documentation

Technical documentation – country-specific version for North America (US)

## Equipment Options

### Driver seat backrest extension

Backrest extension for driver's seat, black imitation leather

### Safety belt monitoring

Safety belt monitoring

431.00

USD

### Armrest folding mechanism

Armrest comfort setting, left

216.00

USD

Armrest comfort setting, left, at driver's seat with high backrest

216.00

USD

## HCQ navigator

**Price list****SUPER 1300-3i (V) / AB 340 V Extending  
Screed****Scope of supply – basic machine****Drive unit**

- Deutz diesel engine type TCD 3.6 L4, liquid-cooled, 100 hp (74.4kW) at 2,000 rpm
- The engine complies with the emission standards of the European Union Stage V and USA EPA Tier 4f
- Electronic engine management with ECO mode and variable-speed fan drive

**Undercarriage**

- Hydrostatic traction drive
- Crawler tracks with rubber pads, ground contact 6 ft. 7 in. x 10 in. (2,000 x 260 mm)
- Low-maintenance multiple-disk brakes lock on automatically without oil pressure

**Conveyors and augers**

- Wide push-rollers, displaceable forwards by 3 in. (80 mm)
- Material hopper with 22,000 lbs. (10 tonnes) capacity, hopper front can be folded up for service purposes
- Four separate hydrostatic drives for conveyors and augers.
- Conveyors reversible for a short time
- Augers can be reversed and adjusted in height
- Manual override for augers
- Mechanical paddle sensors for controlling the conveyors
- Automatic filling of auger tunnel during a break in paving
- Set of limiting plates, folding and extendable, on the rear of the paver

**Electrical system**

- On-board voltage 24V

**Heating system**

- Three-phase generator with generator management
- Heating of screed when diesel engine is running at idle.

**Operator's platform**

- 2 operator's seats, can be pivoted outwards
- Operator's seats and console can be easily and conveniently adjusted for ergonomic working
- Modular ErgoPlus 3 paver operator's console; large high-contrast colour display ensures easy operation and monitoring of paver functions

- 2 ErgoPlus 3 screed consoles for the right and left-hand screed sides, with colour display for setting up and monitoring paver and screed functions

Angle of attack adjustment, clockwise to increase mat thickness		V150_30AB_02		USD	0.00

**Price list****SUPER 1703-3i (4f) / Carlson EZIV-08 Screed****Scope of supply – basic machine****Drive Unit**

- Liquid-cooled Cummins 4-cylinder diesel engine, QSB4.5-C173, 173 hp (129 kW) at 2,000rpm
- Engine complies with the applicable exhaust emission standards of the European Union (COM) 4 and USA (EPA, CARB) Tier 4f
- Electronic engine management

**Undercarriage**

- Hydrostatic traction drive (separate drives for powered wheels) with electronic traction control
- 2 powered rear wheels with tubeless tyres 14.00 R 25
- 4 front wheels of solid elastic rubber, 540/300-390, mounted on bogies
- Second steering axle, powered (6x4)
- Extremely small turning radius (11 ft. 5 in. (3.5 m) outside) thanks to "Pivot Steer"
- Service brake (multiple-disk brake, hydraulically pressurized) and hydraulically actuated parking brake

**Material Feed, Conveyors and Augers**

- Wide push-rollers, can be displaced forwards by 6 in. (150mm)
- 14.3 tons (13 tonnes) material hopper
- Hopper apron hydraulically operated
- 4 separate hydraulic drives for conveyors and augers
- Mechanical sensors for controlling the conveyors, conveyors can briefly be reversed
- Sonic sensors for controlling the augers
- Augers hydraulically adjustable in height, complete with limiting plates for the auger tunnel and bracing
- Manual auger override
- Automatic filling function for the auger tunnel during breaks in paving
- 3 left hand and 3 right hand 1 ft. (30.5 cm) stackable augers for a total of 6 ft. of augers

**Electrical System**

- On-board voltage 24V

**Screed Heating**

- Three-phase AC generator, air-cooled with electronic generator management
- Screed is also heated when diesel engine is running at idle

- Screed heating with electronic temperature control

#### Operator's Platform

- 2 Luxury operator's seats including seat heating, with side paneling and armrests, can be pivoted outwards
- Operator's seats and console can be easily and conveniently adjusted for ergonomic working
- Modular ErgoPlus 3 paver operator's console; large high-contrast colour display ensures easy operation and monitoring of paver functions
- 2 ErgoPlus 3 screed consoles for the right and left-hand screed sides, with colour display for setting up and monitoring paver and screed functions

#### Miscellaneous

- Centralized lubrication system for tractor unit
- Machine documentation
- Crown is set hydraulically

**Total price of basic configuration**

**USD 488,783.00**

**Price list****SUPER 2000-3i (4f) / Carlson EZIV-10 Screed****Scope of supply – basic machine****Drive Unit**

- Liquid-cooled Cummins 6-cylinder diesel engine, QSB6.7-C250, 250 hp (186kW) at 2,000rpm
- Engine complies with the applicable exhaust emission standards of the European Union (COM) 4 and USA (EPA) Tier 4f
- Electronic engine management

**Undercarriage**

- Hydrostatic traction drive
- Continuous rubber tracks, ground contact 9 ft. 10 in. x 1 ft. 6 in. (2,994 x 457 mm)
- Low-maintenance multiple-disk brakes, lock on automatically without oil pressure

**Material Feed, Conveyors and Augers**

- Wide push-rollers, oscillating, can be displaced forwards by 3 in. (75 mm) or 6 in. (150 mm)
- 16.5 tons (15 tonnes) material hopper
- Hopper apron hydraulically operated
- 4 separate hydraulic drives for conveyors and augers
- Mechanical sensors for controlling the conveyors, conveyors can briefly be reversed
- Sonic sensors for controlling the augers
- Augers reversible and hydraulically adjustable in height, complete with limiting plates for auger tunnel and bracing
- Manual auger override
- Automatic filling function for the auger tunnel during breaks in paving
- 3 left hand and 3 right hand 1 ft. (30.5 cm) stackable augers for a total of 6 ft. of augers

**Electrical System**

- On-board voltage 24V

**Screed Heating**

- Three-phase AC generator, oil-cooled with electronic generator management
- Screed is also heated when diesel engine is running at idle
- Screed heating with electronic temperature control

**Operator's Platform**

- 2 comfortable heated operator's seats, can be pivoted outwards

- Operator's seats and console can be easily and conveniently adjusted for ergonomic working
- Modular ErgoPlus paver operator's console; large high-contrast colour display ensures easy operation and monitoring of paver functions
- 2 ErgoPlus screed consoles for the right and left-hand screed sides, with colour display for setting up and monitoring paver and screed functions

#### Miscellaneous

- Centralized lubrication system for tractor unit with electronic level indication on the display
- Machine documentation
- Crown is set hydraulically

**Total price of basic configuration**

**USD 605,543.00**

Date: 11/23/2020					

**Price list****SUPER 2000-3i (4f) / VR 600-2 V Extending Screed****Scope of supply – basic machine****Drive Unit**

- Liquid-cooled Cummins 6-cylinder diesel engine, QSB6.7-C250, 250 hp (186kW) at 2,000rpm
- Engine complies with the applicable exhaust emission standards of the European Union (COM) 4 and USA (EPA) Tier 4f
- Electronic engine management

**Undercarriage**

- Hydrostatic traction drive
- Continuous rubber tracks, ground contact 9 ft. 10 in. x 1 ft. 6 in. (2,994 x 457 mm)
- Low-maintenance multiple-disk brakes, lock on automatically without oil pressure

**Material Feed, Conveyors and Augers**

- Wide push-rollers, oscillating, can be displaced forwards by 3 in. (75 mm) or 6 in. (150 mm)
- 16.5 tons (15 tonnes) material hopper
- Hopper apron hydraulically operated
- 4 separate hydraulic drives for conveyors and augers
- Mechanical sensors for controlling the conveyors, conveyors can briefly be reversed
- Sonic sensors for controlling the augers
- Augers reversible and hydraulically adjustable in height, complete with limiting plates for auger tunnel and bracing
- Manual auger override
- Automatic filling function for the auger tunnel during breaks in paving
- 3 left hand and 3 right hand 1 ft. (30.5 cm) stackable augers for a total of 6 ft. of augers

**Electrical System**

- On-board voltage 24V

**Screed Heating**

- Three-phase AC generator, oil-cooled with electronic generator management
- Screed is also heated when diesel engine is running at idle
- Screed heating with electronic temperature control

**Operator's Platform**

- 2 comfortable heated operator's seats, can be pivoted outwards

- Operator's seats and console can be easily and conveniently adjusted for ergonomic working
- Modular ErgoPlus paver operator's console; large high-contrast colour display ensures easy operation and monitoring of paver functions
- 2 ErgoPlus screed consoles for the right and left-hand screed sides, with colour display for setting up and monitoring paver and screed functions

#### Miscellaneous

- Centralized lubrication system for tractor unit with electronic level indication on the display
- Machine documentation
- Crown is set hydraulically

**Price list****SUPER 2003-3i (4f) / Extending Screed VF  
600-3 V****Scope of supply – basic machine****Drive Unit**

- Liquid-cooled Cummins 6-cylinder diesel engine, QSB6.7-C240, 240 hp (179kW) at 2,000rpm
- Engine complies with the applicable exhaust emission standards of the European Union (COM) 4 and USA (EPA) Tier 4f
- Electronic engine management

**Undercarriage**

- Hydrostatic traction drive (separate drives for powered wheels) with electronic traction control
- 4 front wheels of solid elastic rubber, 540/300-390, mounted on bogies
- 2 powered wheels with tubeless tyres 445/95 R25
- Extremely small outside turning radius to not more than 18 ft. 4 in. (5.6 m) with "Pivot Steer"
- Service brake (multiple-disk brake, hydraulically pressurized) and hydraulically actuated parking brake

**Material Feed, Conveyors and Augers**

- Wide push-rollers, oscillating, can be displaced forwards by 3 in. (75 mm) or 6 in. (150 mm)
- 16.5 tons (15 tonnes) material hopper
- Hopper apron hydraulically operated
- 4 separate hydraulic drives for conveyors and augers
- Mechanical sensors for controlling the conveyors, conveyors can briefly be reversed
- Sonic sensors for controlling the augers
- Augers reversible and hydraulically adjustable in height, complete with limiting plates for auger tunnel and bracing
- Manual auger override
- Automatic filling function for the auger tunnel during breaks in paving
- 3 left hand and 3 right hand 1 ft. (30.5 cm) stackable augers for a total of 6 ft. of augers

**Electrical System**

- On-board voltage 24V

**Screed Heating**

- Three-phase AC generator, oil-cooled with electronic generator management

- Screed is also heated when diesel engine is running at idle
- Screed heating with electronic temperature control

#### Operator's Platform

- 2 comfortable heated operator's seats, can be pivoted outwards
- Operator's seats and console can be easily and conveniently adjusted for ergonomic working
- Modular ErgoPlus paver operator's console; large high-contrast colour display ensures easy operation and monitoring of paver functions
- 2 ErgoPlus screed consoles for the right and left-hand screed sides, with colour display for setting up and monitoring paver and screed functions

#### Miscellaneous

- Centralized lubrication system for tractor unit with electronic level indication on the display
- Machine documentation
- Crown is set hydraulically

**Price list****SUPER 700i (V) / AB 220 V Extending  
Screed****Scope of supply – basic machine****Drive**

- Water-cooled Deutz diesel engine, type TCD 2.9 L4 with 55.4 kW at 2,200 rpm
- The engine complies with the emission standards of the European Union Stage V and USA EPA Tier 4f
- Electronic engine management with ECO mode and variable-speed fan drive

**Undercarriage**

- Controlled hydrostatic traction drive, closed loop
- Crawler tracks with rubber pads, ground contact 1,500 mm x 180 mm
- Low-maintenance multiple-disk brakes, lock on automatically without oil pressure

**Material feed, conveyors and augers**

- Push-rollers, oscillating, can be displaced forwards by 100 mm and folded inwards to the basic width together with the hopper sides
- Hopper capacity 5.8 t, feed height 500 mm
- Hopper sides fold separately
- 3 separate hydrostatic drives on the conveyors and augers
- Mechanical sensor for controlling the conveyor
- Conveyor can briefly be reversed
- Augers can be reversed and adjusted in height
- Manual override for augers
- Automatic filling of the auger tunnel during interruptions in paving

**Electrical system**

- On-board voltage 24 V
- 4 working lights 24 V (2 x front, 2 x rear)

**Heating system**

- Three-phase A.C. generator with generator management
- Screed is also heated when diesel engine is idling

**Paver operator's platform**

- Ergonomically designed operator's workplace; operator platforms on the walkway behind the screed, with additional fold-down step for elevated operator position
- Paver operator's ErgoBasic console
- 2 ErgoBasic remote control units for the left and right sides of the screed

**Miscellaneous**

- Machine documentation

**Total price of basic configuration**

<b>System for Paving Width Reduction</b>					
Reduction in width		V140_36AB_01		USD	1,766.00

## Price list SP 15i

### Scope of supply – basic machine

- Engine: 4-CYLINDER DIESEL ENGINE TYPE DEUTZ TCD 4.1 L4
- Rated power at 2,100 r.p.m.: 95 kW / 127.4 HP / 129.2 PS
- Exhaust standard: EU Stage V / US EPA Tier 4f

#### MAIN FRAME

- Sturdy machine frame for accommodating two track units at the front and one track unit at the rear

#### DRIVE UNIT AND HYDRAULIC SYSTEM

- 58 gal / 220 l fuel tank
- 58 gal / 220 l hydraulic oil tank
- Electrical system (24 V)
- Pressure-and-flow-controlled hydraulic pump in the open circuit for driving the track units
- Pressure-and-flow-controlled hydraulic pump in the open circuit for driving the hydraulic or electric vibrators
- Pressure-controlled hydraulic pump (open circuit) for all cylinder functions
- A proportionally controlled hydraulic pump (closed circuit) for driving the auger conveyor or belt conveyor
- Digital control system with LCD display that provides the operator with all of the relevant information and allows parameters such as the free choice of language (D/GB/F/E/NL) to be adjusted via a menu.
- Proportional electrohydraulic levelling and steering by means of a PLC system including two leveling sensors, two steering sensors and one slope sensor
- Sensor mounting brackets, adjustable in height and range

#### ADVANCE DRIVE

- Three hydraulically driven track units, 4 ft 5 in / 1.34 m long; gear ratio 1:42; including towing device
- Continuously adjustable paving speed from 0 to 49 ft / min / 15 m / min
- Continuously adjustable transport speed from 0 to 115 ft / min / 35 m / min
- Three hydraulic leveling cylinders with a stroke of 3 ft 3 in / 1.00 m
- The rear track unit can be moved along the rear suspension in order to select the most favourable position for the particular application

#### SUSPENSION FOR MOULDS ATTACHED TO THE SIDE

- The offset paving molds can be mounted on the left or right side of the machine
- The mold mount can be telescoped outwards by 2 ft 3 in / 0.70 m per side

#### MISCELLANEOUS

- Water tank with 42 gal / 160 l capacity and additional water tank with 76 gal / 290 l capacity
- Pre-fitting for installing the WITOS FleetView control unit
- European type certification, EuroTest mark and CE conformity

List price ex subsidiary Wirtgen America

USD

335,471.00

Mandatory Options				
<b>Paint</b>				
Painting in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7015.	Standard	2229554	USD	0.00
Monocolor special painting. Cream white color is replaced by a special color (RAL according to customer). The complete lower part of the machine is painted in slate grey RAL 7015.	Option	2229556	USD	1,599.00
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	Standard	2456347	USD	0.00
<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	Standard	2770403	USD	0.00
<b>Milling drum housing</b>				
Electrical and hydraulic preliminary equipment for attaching a trimmer (left or right). Includes all the electrical and hydraulic components in the machine up until the interface.	Standard	2212345	USD	0.00
<b>Trimmer</b>				
Trimmer for creating a datum surface before using offset molds. Basic width 2 ft / 0.60 m for mounting on left, material transport to the inside. Diameter 1 ft 8 in / 0.50 m, max. trim depth approx. 0.10 m with scraper. (Trimmer completely hydraulically adjustable in height through 1 ft 4 in / 0.40 m and side-to-side through 4 ft 3 in / 1.30 m.) Trimmer widening up to max. 5 ft 3 in / 1.60 m possible. For curb, curb gutter and rectangular profiles.	Standard	2888147	USD	0.00
Trimmer for creating a datum surface before using offset molds. Basic width 2 ft / 0.60 m for mounting on right, material transport to the inside. Diameter 1 ft 8 in / 0.50 m, max. trim depth approx. 0.10 m with scraper. (Trimmer completely hydraulically adjustable in height through 1 ft 4 in / 0.40 m and side-to-side through 4 ft 3 in / 1.30 m.) Trimmer widening up to max. 5 ft 3 in / 1.60 m possible. For curb, curb gutter and rectangular profiles.	Option	2888148	USD	48,784.00

<b>Crawler units</b>				
Two pivoting front track units (parallelogram arms). The parallelogram arm makes it possible to slew the front track units by 7 in / 180 mm inwards each as well as 2 ft 3 in / 680 mm outwards each	Standard	2133798	USD	0.00
<b>Crawler units</b>				
Three track units fitted with polyurethane track pads	Standard	2487561	USD	0.00
<b>Machine lighting</b>				
Lighting system consisting of 3 halogen working lights 24 V for illuminating the working area. The light output is approx. 1750 lumens per headlight. For protection against theft, installation is by plug-in tube masts on each of the track units.	Standard	2152687	USD	0.00
High-performance lighting system consisting of 3 LED working lights 24 V for optimum illumination of the working area. Extremely bright light, shock-resistant and durable. The light output is approx. 3000 lumens per headlight. For protection against theft, installation is by plug-in tube masts on the track units.	Option	2342924	USD	1,951.00
<b>Vibration</b>				
Hydraulic vibrator drive for up to 6 vibrators	Standard	2768002	USD	0.00
<b>Concrete feeding</b>				
Belt conveyor 16 ft 1 in / 4.90 m x 2 ft / 0.60 m, with reversible hydraulic drive. Permits lateral turning hydraulically, setting of the pitch angle and traversing in the lengthways direction	Standard	2131799	USD	0.00
Belt conveyor 18 ft 1 in / 5.50 m x 2 ft / 0.60 m in folding design with reversible hydraulic drive. Permits lateral turning hydraulically, setting of the pitch angle and traversing in the lengthways direction as well as the folding procedure.	Option	2152901	USD	19,235.00
Auger conveyor 15 ft 1 in x 1 ft 4 in with reversible hydraulic drive. Permits lateral turning hydraulically, setting of the pit	Option	2131802	USD	6,544.00
<b>Concrete feeding</b>				
Steel chute for guiding the concrete from the conveyor/auger into the funnel of the offset molds. Attachment option both on the conveyor belt, folding conveyor belt and on the charging auger	Standard	2153567	USD	0.00
Chute consisting of a steel flange and a rubber hose extension for guiding the concrete from the conveyor/auger into the funnel of the offset molds. Attachment option both on the conveyor belt, folding conveyor belt and on the charging auger	Option	2153568	USD	484.00

Equipment Options				
<b>Chassis options</b>				
Hydraulic positioning feature for the rear track unit out of the middle position by 2 ft 3 in / 0.675 m to the left or right	Standard	2133804	USD	0.00
<b>Equipment operator's platform</b>				
Weather umbrella for operator's platform	Standard	2153566	USD	0.00
<b>Trimmer equipment</b>				
Trimmer - extension 8 in wide, for mounting on the left side	Option	2139662	USD	3,683.00
One Trimmer - extension 1 ft 4 in wide, for mounting on the left side	Standard	2139663	USD	0.00
Trimmer - extension 8 in wide, for mounting on the right side	Option	2139664	USD	3,683.00
Trimmer - extension 1 ft 4 in wide, for mounting on the right side	Option	2139665	USD	4,534.00
<b>Water system</b>				
Hydraulically operated high-pressure cleaner for connection to the 510 l water tank.	Standard	2133815	USD	0.00
<b>Leveling</b>				
Two slab tracers for one-sided height scanning of existing reference surfaces	Option	87923	USD	602.00
Third height and steering sensor for tight radii, incl. suspension and changeover box	Standard	2134423	USD	0.00
<b>Leveling</b>				
The 3D leveling preliminary equipment includes the mechanical and electrical components needed to use a 3D leveling system from Leica, Topcon or Trimble. (Price without startup on the construction site).	Option	2182470	USD	13,953.00
Additional slope sensor is available when using a 3D leveling system by Topcon. Is essential if a Topcon 3D system is being operated with the machine.	Option	2638267	USD	4,504.00
<b>Wirtgen AutoPilot</b>				
AutoPilot 2.0 is a satellite-based navigation system for offset applications. It controls the steering, height and lateral tilt of the machine fully automatically and allows concrete profiles to be paved without stringlines. It does not require a digital terrain model to be created in advance, but is rather created by the user directly on the construction site using the corresponding rover, taking into account constraint points such as water inlets, hydrants, etc. The rover is an intelligent surveying tool that can record, save and edit position data. The objects created are stored on the corresponding tablet computer, which is then mounted on the machine without any further data transmission and provides the machine with the control data. The system is operated in combination with a laser receiver, an ultrasonic sensor, a slab tracer or a total station (tachymeter) for precise height control. Radio frequency: 902 - 928 MHz (e.g. for USA). Note that application with reduced satellite reception (e.g. in tree-lined avenues, inner-city areas or tunnel constructions) is only possible with limitations.	Option	2618722	USD	73,286.00

Purchasing the AutoPilot System 2.0 requires additional customer training. This is charged separately. The requirement for training must be defined more precisely and depends on previous knowledge. Costs can be arranged on request after clarifying the requirements beforehand.	Option	2680909	USD	0.00
<b>Wirtgen AutoPilot</b>				
Self-leveling rotation laser. Wavelength 635 nm (invisible) with 10 rotations per second (for use in combination with a laser receiver).	Option	2201314	USD	6,250.00
Proportional laser receiver for use in combination with a rotation laser with 468.4 ft pds / 635 nm and at least 10 rotations/second. Measuring range 24 in / 60 cm. Receiver including terminals for connecting to the sensor holder of the AutoPilot. The measuring radius of the laser to laser receiver combination is approx. 328 ft 1 in / 100 m.	Option	2201316	USD	11,620.00
Ultrasonic sensor for proximity-type scanning on a homogeneous sub-base. The sensor has 6 individual transponders which perform automatic temperature compensation and averaging for scanning uneven ground or detecting obstacles. The minimum distance from the sub-base is 8 in / 0.20 m, the maximum distance is 3 ft 3 in / 1.00 m.	Option	2201318	USD	4,900.00
The Leica iCON iCR80s total station with RTK915 radio is now also included in the elevation control options of AutoPilot 2.0 – It is a fully automatic and intuitively operated total station that guarantees maximum flexibility while maintaining maximum accuracy (1 mm). The vertically unlimited measuring range has a radius of 200 m and enables uninterrupted concrete paving. The equipment ensures that operations can be carried out accurately even under difficult weather conditions. Includes the Leica total station with a tripod, battery and charger, radio transmitter, radio receiver, stand and a 360 degree prism. Please check with the customer to ensure that the specified radio frequency range of 902-928MHz is approved in the country in question.	Option	2875441	USD	47,801.00
Additional tablet computer used to create the digital stringline and to inspect the objects that have already been concreted. The tablet can also be used as a replacement for the machine. Including all necessary equipment and a robust splash-proof case to safely store the materials.	Option	2657472	USD	8,495.00

<b>Machine lighting</b>				
LED floodlights for use in the 24 Volt electrical system, including a mast which can be mounted on the machine.	Option	2808872	USD	6,103.00
<b>Other devices</b>				
Large, spacious storage compartment for storing tools at the rear of the machine instead of the standard storage compartment.	Standard	2553350	USD	0.00
<b>Mold offset</b>				
Set of hydraulic components for telescoping the offset mold mount on left or right by 2 ft 4 in / 0.70 m	Standard	2134425	USD	0.00
Height-adjustable mold mount with 1 ft 4 in / 0.40 m lift for split offset mold	Standard	2134062	USD	0.00
Hydraulically operated quick-change system for connecting a one-piece offset paving mold to the machine.	Standard	2134064	USD	0.00
Additional adapter plate for quick-change system. Required for equipping any troughs with the quick-change system.	Option	2342927	USD	1,364.00
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	Option		USD	88.00
Spare part and application documentation English (EN)	Option		USD	15.00
<b>Individual options:</b>				
straight hydraulic vibrator		75721	USD/ea	1,386.00
hopper for curb and gutter molds		2869118	USD/ea	2,304.00
standard curb/curb and gutter mold - w/o hydraulics			USD/ea	3,965.00
simple sidewalk mold 4'			USD/ea	9,012.00
simple sidewalk mold 5'			USD/ea	10,815.00
simple sidewalk mold 6'			USD/ea	12,617.00
Static barrier mold up to 4' - including hydraulics			USD/ea	25,234.00
Static barrier mold up to 5' - including hydraulics			USD/ea	29,562.00

## Price list

### SP 25i - Offset

#### Scope of supply – basic machine

- Engine station, chassis rear section and telescoping chassis front section in driving direction and three track units
- Diesel engine: DEUTZ TCD 4.1 L4 with 4 cylinders
- Rated power at 2,100 r.p.m.: 115 kW / 154 HP / 156 PS
- Exhaust standard: EU Stage V / US EPA Tier 4f

#### MAIN FRAME

- Sturdy machine frame for accommodating two track units at the rear and one or two track units at the front
- Telescoping in length by 2 ft 3 in / 0.70 m to adjust the machine to site conditions or to allow mounting of a trimmer
- Telescoping in width by 2 ft 4 in / 0.715 m hydraulically at the rear by extending one or both rear track units to either improve machine stability in offset application when paving specific profiles, or to enable paving molds with a working width of up to 8 ft 2 in / 2.50 m to be mounted between the rear track units

#### DRIVE UNIT AND HYDRAULIC SYSTEM

- 99 gal / 375 l fuel tank.
- 66 gal / 250 l hydraulic oil tank
- Electrical system (24 V)
- Hydraulic pump system
- Pressure-and-flow-controlled hydraulic pump, open circuit, for driving the hydraulic or electric vibrators or for driving the track units in second gear
- Pressure-controlled hydraulic pump, open circuit, for all cylinder functions
- A proportionally controlled hydraulic pump (closed circuit) for driving the auger conveyor or belt conveyor
- Digital control system with LCD display that provides the operator with all of the relevant information and allows parameters such as the free choice of language (D/GB/F/E/NL) to be adjusted via a menu.
- Proportional electrohydraulic levelling and steering by means of a PLC system including two leveling sensors, two steering sensors and one slope sensor
- Sensor mounting brackets, adjustable in height and range

#### ADVANCE DRIVE

- Hydraulically driven track units, 5 ft 1 in / 1.56 m long, gear ratio 1:122, including towing device
- Continuously adjustable paving speed from 0 to 49 ft / min / 15 m / min
- Continuously adjustable transport speed from 0 to 115 ft / min / 35 m / min
- Hydraulic levelling cylinders with a stroke of 4 ft 1 in / 1.25 m

#### SUSPENSION FOR MOULDS ATTACHED TO THE SIDE

- The offset paving molds can be mounted on the left or right side of the machine

#### MISCELLANEOUS

- Pre-fitting for installing the WITOS FleetView control unit
- European type certification, EuroTest mark and CE conformity

Hydraulic vibrator drive for up to 5 vibrators	Standard	2152471	USD	0.00
Electric vibrator drive with 10-kVA generator for up to 5 vibrators	Option	2152479	USD	10,212.00
Hydraulic or electric vibrator drive for connecting up to 5 vibrators. A ball valve enables you to switch between electric and hydraulic vibration.	Option	2773656	USD	17,592.00
<b>Concrete feeding</b>				
Belt conveyor 19 ft 8 in x 2 ft, in folding design, with reversible hydraulic drive. Permits lateral turning hydraulically, setting of the pitch angle and traversing in the lengthways direction as well as the folding procedure	Standard	2890297	USD	0.00
Auger conveyor 18 ft 8 in x 1 ft 4 in / 5.70 m x 0.40 m with reversible hydraulic drive. Permits lateral turning hydraulically, setting of the pitch angle and traversing in the lengthways direction.	In lieu of 2890297	2890298	USD	17,239.00
<b>Concrete feeding</b>				
Electrical and hydraulic preliminary equipment up to the interface inside the machine. Used to operate all conveyor belts and the charging auger with a length of 4500 mm	Standard	2511066	USD	0.00
Electrical and hydraulic preliminary equipment up to the interface inside the machine. Exclusively used to operate the charging auger with a length of 5700 mm	Option	2464305	USD	602.00
<b>Concrete feeding</b>				
Steel chute for guiding the concrete from the conveyor/auger into the funnel of the offset molds. Attachment option both on the conveyor belt, folding conveyor belt and on the charging auger	Standard	2153567	USD	0.00
Chute consisting of a steel flange and a rubber hose extension for guiding the concrete from the conveyor/auger into the funnel of the offset molds. Attachment option both on the conveyor belt, folding conveyor belt and on the charging auger	Option	2153568	USD	484.00
<b>Mold offset</b>				
Offset mold mount telescoping hydraulically to one side; stroke: 3 ft 7 in / 1.10 m	Standard	2146344	USD	0.00
Offset mold mount telescoping hydraulically to both sides; stroke: 3 ft 7 in / 1.10 m	Option	2148853	USD	5,341.00

Equipment Options				
Chassis options				
The extension element for telescoping device mounted between the machine frame and front track unit connection makes it possible to move the front track units sideways by 1.40 m in relation to the machine chassis. It is used for stabilizing the machine in large offset applications.	Option	2163878	USD	16,990.00
Equipment operator's platform				
Weather umbrella for operator's platform		2153630	USD	-6,133.00
Weather canopy for operator's platform, hydraulically telescoping in height	Standard	2145132	USD	0.00
Lateral spreader auger				
Cross-spreading auger, length 8 ft 2 in / 2.5 m, ø 1 ft 4 in / 0.4 m, stroke 2 ft / 0.6 m, hydraulic drive, loading from right or left, recommended with crash barrier trough, necessary for crash barrier trough and trimmer insert	Option	2153642	USD	22,932.00
Trimmer equipment				
Preliminary equipment for the subsequent installation of a trimmer, consisting of the necessary hydraulic supply lines and electrical components.	Standard	2214167	USD	0.00
Trimmer for creating a datum surface before using offset molds. Basic width 2 ft for mounting on left, material transport to the inside. Diameter 1 ft 8 in, max. trim depth approx. 4 in with scraper. (Trimmer completely hydraulically adjustable in height through 1 ft 4 in and side-to-side through 4 ft 3 in.) Trimmer widening up to max. 5 ft 3 in possible. Suitable for curb, curb gutter and rectangular profiles.	Option	2773688	USD	63,544.00
Trimmer - extension 8 in wide, for mounting on the left side	Option	2139662	USD	3,683.00
Trimmer - extension 1 ft 4 in wide, for mounting on the left side	Option	2139663	USD	4,534.00
Trimmer for creating a datum surface before using offset molds. Basic width 2 ft for mounting on right, material transport to the inside. Diameter 1 ft 8 in, max. trim depth approx. 4 in with scraper. (Trimmer completely hydraulically adjustable in height through 1 ft 4 in and side-to-side through 4 ft 3 in 4 ft 3 in.) Trimmer widening up to max. 5 ft 3 in possible. Suitable for curb, curb gutter and rectangular profiles.	Option	2773690	USD	63,103.00

Trimmer - extension 8 in wide, for mounting on the right side	Option	2139664	USD	3,683.00
Trimmer - extension 1 ft 4 in wide, for mounting on the right side	Option	2139665	USD	4,534.00
<b>Water system</b>				
High-pressure water cleaning system for optimum cleaning of the machine. Consisting of a hydraulically driven pump with a flow rate of 20 l/min at a pressure of 200 bar, a plastic tank with a capacity of 145 gal / 550 litres, a 49 ft 3 in / 15 m long hose and a spray gun with a handle. The water tank is located on one of the machine's front chassis columns, and includes a foldable attached ladder for filling the tank from above.	Standard	2638074	USD	0.00
<b>Water system</b>				
Additional water pump 24 V with 32 ft 10 in / 10 m hose with spray gun with handle (max. 6 gal/min / 25 l/min, max. 51 psi / 3.5 bar)	Option	2639292	USD	4,328.00
<b>Water system</b>				
Additional protected plastic water tank with a capacity of 145 gal for mounting on the fourth track unit at front.	Standard	2638444	USD	0.00
<b>Leveling</b>				
Two slab tracers for one-sided height scanning of existing reference surfaces	Option	87923	USD	602.00
Third height and steering sensor for tight radii, incl. suspension and changeover box	Option	2163871	USD	5,737.00
<b>Leveling</b>				
The 3D leveling preliminary equipment includes the mechanical and electrical components needed to use a 3D leveling system from Leica, Topcon or Trimble. (Price without startup on the construction site).	Option	2182471	USD	13,953.00
Additional slope sensor is available when using a 3D leveling system by Topcon. Is essential if a Topcon 3D system is being operated with the machine.	Option	2638267	USD	4,504.00

<b>Wirtgen AutoPilot</b>				
AutoPilot 2.0 is a satellite-based navigation system for offset applications. It controls the steering, height and lateral tilt of the machine fully automatically and allows concrete profiles to be paved without stringlines. It does not require a digital terrain model to be created in advance, but is rather created by the user directly on the construction site using the corresponding rover, taking into account constraint points such as water inlets, hydrants, etc. The rover is an intelligent surveying tool that can record, save and edit position data. The objects created are stored on the corresponding tablet computer, which is then mounted on the machine without any further data transmission and provides the machine with the control data. The system is operated in combination with a laser receiver, an ultrasonic sensor, a slab tracer or a total station (tachymeter) for precise height control. Radio frequency: 902 - 928 MHz (e.g. for USA). Note that application with reduced satellite reception (e.g. in tree-lined avenues, inner-city areas or tunnel constructions) is only possible with limitations.	Option	2618727	USD	73,286.00
<b>Wirtgen AutoPilot</b>				
Self-leveling rotation laser. Wavelength 635 nm (invisible) with 10 rotations per second (for use in combination with a laser receiver).	Option	2201314	USD	6,250.00
Proportional laser receiver for use in combination with a rotation laser with 468.4 ft pds / 635 nm and at least 10 rotations/second. Measuring range 24 in / 60 cm. Receiver including terminals for connecting to the sensor holder of the AutoPilot. The measuring radius of the laser to laser receiver combination is approx. 328 ft 1 in / 100 m.	Option	2201316	USD	11,620.00
Ultrasonic sensor for proximity-type scanning on a homogeneous sub-base. The sensor has 6 individual transponders which perform automatic temperature compensation and averaging for scanning uneven ground or detecting obstacles. The minimum distance from the sub-base is 8 in / 0.20 m, the maximum distance is 3 ft 3 in / 1.00 m.	Option	2201318	USD	4,900.00

The Leica iCON iCR80s total station with RTK915 radio is now also included in the elevation control options of AutoPilot 2.0 – It is a fully automatic and intuitively operated total station that guarantees maximum flexibility while maintaining maximum accuracy (1 mm). The vertically unlimited measuring range has a radius of 200 m and enables uninterrupted concrete paving. The equipment ensures that operations can be carried out accurately even under difficult weather conditions. Includes the Leica total station with a tripod, battery and charger, radio transmitter, radio receiver, stand and a 360 degree prism. Please check with the customer to ensure that the specified radio frequency range of 902-928MHz is approved in the country in question.	Option	2875441	USD	47,801.00
Additional tablet computer used to create the digital stringline and to inspect the objects that have already been concreted. The tablet can also be used as a replacement for the machine. Including all necessary equipment and a robust splash-proof case to safely store the materials.	Option	2657472	USD	8,495.00
<b>Additional vibrator drives</b>				
Extension of the hydraulic vibrator drive by another max. 5 vibrators to a total of 10 hydraulic vibrator drives. The frequency of each vibrator can be adjusted independently.	Standard	2152473	USD	0.00
Additional electric vibrator drive with 10-kVA generator for connecting a further max. 5 vibrators for a total of 10 vibrators. With two generators, the frequency of two groups of 5 vibrators each can be adjusted independently.	Option	2152480	USD	17,459.00
<b>Machine lighting</b>				
Two LED floodlights with four lighting elements for use in the 24 Volt electrical system, including two masts which can be mounted on the machine. Can only be used in combination with SP25i.	Option	2890815	USD	11,693.00
<b>Mold offset</b>				
Height adapter, with split offset molds it spans the gap between the trough mounting of the machine and the trough, at least one required per machine. Alternatively, the height-adjustable suspension can be used.	Option	2152692	USD	1,174.00
Height-adjustable mold mount with 1 ft 4 in / 0.40 m lift for split offset mold	Option	2183552	USD	8,436.00
Hydraulically operated quick-change system for connecting a one-piece offset paving mold to the machine.	Option	2191407	USD	4,886.00
Additional adapter plate for quick-change system. Required for equipping any troughs with the quick-change system.	Option	2342927	USD	1,364.00

<b>Stringline tensioning system</b>				
Stringline tensioning system consisting of 3280 ft wire rope, 1x tensioning winch, 200 steel pins with leveling wire suspension, adjustable in height and range	Option	55987	USD	4,504.00
Additional tensioning winch for stringline tensioning system	Option	79802	USD	983.00
Stringline tensioning system consisting of 4 x 984 ft / 4 x 300 m nylon rope, 4x tensioning winches, 200 posts, 200 rods, 200 clamps	Option	2153800	USD	4,328.00
Fibreglass rod as stringline replacement on corners with different radii, consisting of 196 ft 10 in fiberglass rod in 6 ft 7 in pieces, 50 clips for rod mounting and 15 connection pieces	Option	2153801	USD	1,585.00
<b>Export packaging</b>				
Export packaging	Standard	2163870	USD	0.00
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	Option		USD	88.00
Spare part and application documentation English (EN)	Option		USD	15.00
<b>Individual options:</b>				
straight hydraulic vibrator		75721	USD/ea	1,386.00
hopper for curb and gutter molds		2869118	USD/ea	2,304.00
standard curb/curb and gutter mold - w/o hydraulics*			USD/ea	3,965.00
simple sidewalk mold 4'*			USD/ea	9,012.00
simple sidewalk mold 5'*			USD/ea	10,815.00
simple sidewalk mold 6'*			USD/ea	12,617.00
Static barrier mold up to 4' - including hydraulics			USD/ea	25,234.00
Static barrier mold up to 5' - including hydraulics			USD/ea	29,562.00

\* height adjustable mold mount or height adapter needed!

## Price list

# SP 25i - 12 ft Inset

### Scope of supply – basic machine

- Engine station, chassis rear section and telescoping chassis front section in driving direction and three track units
- Diesel engine: DEUTZ TCD 4.1 L4 with 4 cylinders
- Rated power at 2,100 r.p.m.: 115 kW / 154 HP / 156 PS
- Exhaust standard: EU Stage V / US EPA Tier 4f

### MAIN FRAME

- Sturdy machine frame for accommodating two track units at the rear and one or two track units at the front
- Telescoping in length by 2 ft 3 in / 0.70 m to adjust the machine to site conditions or to allow mounting of a trimmer
- Telescoping in width by 2 ft 4 in / 0.715 m hydraulically at the rear by extending one or both rear track units to either improve machine stability in offset application when paving specific profiles, or to enable paving molds with a working width of up to 8 ft 2 in / 2.50 m to be mounted between the rear track units

### DRIVE UNIT AND HYDRAULIC SYSTEM

- 99 gal / 375 l fuel tank.
- 66 gal / 250 l hydraulic oil tank
- Electrical system (24 V)
- Hydraulic pump system
- Pressure-and-flow-controlled hydraulic pump, open circuit, for driving the hydraulic or electric vibrators or for driving the track units in second gear
- Pressure-controlled hydraulic pump, open circuit, for all cylinder functions
- A proportionally controlled hydraulic pump (closed circuit) for driving the auger conveyor or belt conveyor
- Digital control system with LCD display that provides the operator with all of the relevant information and allows parameters such as the free choice of language (D/GB/F/E/NL) to be adjusted via a menu.
- Proportional electrohydraulic levelling and steering by means of a PLC system including two leveling sensors, two steering sensors and one slope sensor
- Sensor mounting brackets, adjustable in height and range

### ADVANCE DRIVE

- Hydraulically driven track units, 5 ft 1 in / 1.56 m long, gear ratio 1:122, including towing device
- Continuously adjustable paving speed from 0 to 49 ft / min / 15 m / min
- Continuously adjustable transport speed from 0 to 115 ft / min / 35 m / min
- Hydraulic levelling cylinders with a stroke of 4 ft 1 in / 1.25 m

### SUSPENSION FOR MOULDS ATTACHED TO THE SIDE

- The offset paving molds can be mounted on the left or right side of the machine

### MISCELLANEOUS

- Pre-fitting for installing the WITOS FleetView control unit
- European type certification, EuroTest mark and CE conformity

List price ex subsidiary Wirtgen America

USD

494,117.00

Mandatory Options				
<b>Paint</b>				
Painting in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7015.	Standard	2229555	USD	0.00
Monocolor special painting. Cream white color is replaced by a special color (RAL according to customer). The complete lower part of the machine is painted in slate grey RAL 7015.	Option	2229559	USD	1,599.00
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	Standard	2456347	USD	0.00
<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	Standard	2770403	USD	0.00
<b>Crawler units</b>				
4. track unit and two pivoting front crawler attachments. The parallelogram arms make it possible to pivot each of the front track units 1 ft 10 in / 560 mm inwards each as well as 2 ft 10 in / 870 mm outwards.	Standard	2492572	USD	0.00
<b>Crawler units</b>				
Four track units fitted with triple-grouser steel track pads	In lieu of 2487565	2487564	USD	-5,693.00
Four track units fitted with polyurethane track pads	Standard	2487565	USD	0.00
<b>Machine lighting</b>				
Lighting system consisting of 4 halogen working lights 24 V for illuminating the working area. The light output is approx. 1,750 lumens per headlight. For protection against theft, installation is by plug-in tube masts on each of the track units.	Standard	2152928	USD	0.00
High-performance lighting system consisting of 4 LED working lights 24 V for optimum illumination of the working area. Extremely bright light, shock-resistant and durable. The light output is approx. 3000 lumens per headlight. For protection against theft, installation is by plug-in tube masts on the track units.	In lieu of 2152928	2342925	USD	2,416.00

<b>Vibration</b>				
Hydraulic vibrator drive for up to 5 vibrators	Standard	2152471	USD	0.00
Electric vibrator drive with 10-kVA generator for up to 5 vibrators	Option	2152479	USD	10,212.00
Hydraulic or electric vibrator drive for connecting up to 5 vibrators. A ball valve enables you to switch between electric and hydraulic vibration.	Option	2773656	USD	17,592.00
<b>Concrete feeding</b>				
Belt conveyor 19 ft 8 in x 2 ft, in folding design, with reversible hydraulic drive. Permits lateral turning hydraulically, setting of the pitch angle and traversing in the lengthways direction as well as the folding procedure	In lieu of 2737033	2890297	USD	50,794.00
Auger conveyor 18 ft 8 in x 1 ft 4 in / 5.70 m x 0.40 m with reversible hydraulic drive. Permits lateral turning hydraulically, setting of the pitch angle and traversing in the lengthways direction.	In lieu of 2737033	2890298	USD	68,033.00
Model without concrete feeding	Standard	2737033	USD	0.00
<b>Concrete feeding</b>				
Electrical and hydraulic preliminary equipment up to the interface inside the machine. Used to operate all conveyor belts and the charging auger with a length of 4500 mm	Standard	2511066	USD	0.00
Electrical and hydraulic preliminary equipment up to the interface inside the machine. Exclusively used to operate the charging auger with a length of 5700 mm	Option	2464305	USD	602.00
<b>Concrete feeding</b>				
Steel chute for guiding the concrete from the conveyor/auger into the funnel of the offset molds. Attachment option both on the conveyor belt, folding conveyor belt and on the charging auger	Option	2153567	USD	1,364.00
Model without chute.	Standard	2425777	USD	0.00
<b>Mold offset</b>				
Offset mold mount telescoping hydraulically to one side; stroke: 3 ft 7 in / 1.10 m	Option	2146344	USD	14,202.00
Offset mold mount telescoping hydraulically to both sides; stroke: 3 ft 7 in / 1.10 m	Option	2148853	USD	19,543.00
Model without suspension for offset molds.	Standard	2425779	USD	0.00

Equipment Options				
Chassis options				
The extension element for telescoping device mounted between the machine frame and front track unit connection makes it possible to move the front track units sideways by 1.40 m in relation to the machine chassis. It is used for stabilizing the machine in large offset applications.	Option	2163878	USD	16,990.00
Chassis options				
Frame extension elements for the two rear track units, required to be able to mount molds between 8 ft 2 in / 2.50 m and 11 ft 6 in / 3.50 m.	Standard	2153632	USD	0.00
Frame extension elements for the two front track units, required when using molds between 8 ft 2 in / 2.50 m and 11 ft 6 in / 3.50 m in conjunction with previously laid reinforcement.	Standard	2225029	USD	0.00
Equipment operator's platform				
Weather canopy for operator's platform, hydraulically telescoping in height	Standard	2145132	USD	0.00
Trimmer equipment				
Preliminary equipment for the subsequent installation of a trimmer, consisting of the necessary hydraulic supply lines and electrical components.	Standard	2214167	USD	0.00
Trimmer for creating a datum surface before using offset molds. Basic width 2 ft for mounting on left, material transport to the inside. Diameter 1 ft 8 in, max. trim depth approx. 4 in with scraper. (Trimmer completely hydraulically adjustable in height through 1 ft 4 in and side-to-side through 4 ft 3 in.) Trimmer widening up to max. 5 ft 3 in possible. Suitable for curb, curb gutter and rectangular profiles.	Option	2773688	USD	63,544.00
Trimmer - extension 8 in wide, for mounting on the left side	Option	2139662	USD	3,683.00
Trimmer - extension 1 ft 4 in wide, for mounting on the left side	Option	2139663	USD	4,534.00
Trimmer for creating a datum surface before using offset molds. Basic width 2 ft for mounting on right, material transport to the inside. Diameter 1 ft 8 in, max. trim depth approx. 4 in with scraper. (Trimmer completely hydraulically adjustable in height through 1 ft 4 in and side-to-side through 4 ft 3 in 4 ft 3 in.) Trimmer widening up to max. 5 ft 3 in possible. Suitable for curb, curb gutter and rectangular profiles.	Option	2773690	USD	63,103.00
Trimmer - extension 8 in wide, for mounting on the right side	Option	2139664	USD	3,683.00
Trimmer - extension 1 ft 4 in wide, for mounting on the right side	Option	2139665	USD	4,534.00

<b>Water system</b>				
High-pressure water cleaning system for optimum cleaning of the machine. Consisting of a hydraulically driven pump with a flow rate of 20 l/min at a pressure of 200 bar, a plastic tank with a capacity of 145 gal / 550 litres, a 49 ft 3 in / 15 m long hose and a spray gun with a handle. The water tank is located on one of the machine's front chassis columns, and includes a foldable attached ladder for filling the tank from above.	Standard	2638074	USD	0.00
<b>Water system</b>				
Additional water pump 24 V with 32 ft 10 in / 10 m hose with spray gun with handle (max. 6 gal/min / 25 l/min, max. 51 psi / 3.5 bar)	Option	2639292	USD	4,328.00
<b>Water system</b>				
Additional protected plastic water tank with a capacity of 145 gal for mounting on the fourth track unit at front.	Standard	2638444	USD	0.00
<b>Leveling</b>				
Two slab tracers for one-sided height scanning of existing reference surfaces	Option	87923	USD	602.00
Third height and steering sensor for tight radii, incl. suspension and changeover box	Option	2163871	USD	5,737.00
<b>Leveling</b>				
The 3D leveling preliminary equipment includes the mechanical and electrical components needed to use a 3D leveling system from Leica, Topcon or Trimble. (Price without startup on the construction site).	Option	2182471	USD	13,953.00
Additional slope sensor is available when using a 3D leveling system by Topcon. Is essential if a Topcon 3D system is being operated with the machine.	Option	2638267	USD	4,504.00
<b>Wirtgen AutoPilot</b>				
AutoPilot 2.0 is a satellite-based navigation system for offset applications. It controls the steering, height and lateral tilt of the machine fully automatically and allows concrete profiles to be paved without stringlines. It does not require a digital terrain model to be created in advance, but is rather created by the user directly on the construction site using the corresponding rover, taking into account constraint points such as water inlets, hydrants, etc. The rover is an intelligent surveying tool that can record, save and edit position data. The objects created are stored on the corresponding tablet computer, which is then mounted on the machine without any further data transmission and provides the machine with the control data. The system is operated in combination with a laser receiver, an ultrasonic sensor, a slab tracer or a total station (tachymeter) for precise height control. Radio frequency 902 – 928	Option	2618727	USD	73,286.00

<b>Wirtgen AutoPilot</b>				
Self-leveling rotation laser. Wavelength 635 nm (invisible) with 10 rotations per second (for use in combination with a laser receiver).	<b>Option</b>	<b>2201314</b>	<b>USD</b>	<b>6,250.00</b>
Proportional laser receiver for use in combination with a rotation laser with 468.4 ft pds / 635 nm and at least 10 rotations/second. Measuring range 24 in / 60 cm. Receiver including terminals for connecting to the sensor holder of the AutoPilot. The measuring radius of the laser to laser receiver combination is approx. 328 ft 1 in / 100 m.	<b>Option</b>	<b>2201316</b>	<b>USD</b>	<b>11,620.00</b>
Ultrasonic sensor for proximity-type scanning on a homogeneous sub-base. The sensor has 6 individual transponders which perform automatic temperature compensation and averaging for scanning uneven ground or detecting obstacles. The minimum distance from the sub-base is 8 in / 0.20 m, the maximum distance is 3 ft 3 in / 1.00 m.	<b>Option</b>	<b>2201318</b>	<b>USD</b>	<b>4,900.00</b>
The Leica iCON iCR80s total station with RTK915 radio is now also included in the elevation control options of AutoPilot 2.0 – It is a fully automatic and intuitively operated total station that guarantees maximum flexibility while maintaining maximum accuracy (1 mm). The vertically unlimited measuring range has a radius of 200 m and enables uninterrupted concrete paving. The equipment ensures that operations can be carried out accurately even under difficult weather conditions. Includes the Leica total station with a tripod, battery and charger, radio transmitter, radio receiver, stand and a 360 degree prism. Please check with the customer to ensure that the specified radio frequency range of 902-928MHz is approved in the country in question.	<b>option</b>	<b>2875441</b>	<b>USD</b>	<b>47,801.00</b>
Additional tablet computer used to create the digital stringline and to inspect the objects that have already been concreted. The tablet can also be used as a replacement for the machine. Including all necessary equipment and a robust splash-proof case to safely store the materials.	<b>Option</b>	<b>2657472</b>	<b>USD</b>	<b>8,495.00</b>
<b>Concrete molding</b>				
Paving mold series 1200i without crown, basic width 3.0 ft consisting of: Vibrator mount, forming sole with "edge slump control" (ESC). Working widths up to 12 ft are possible using optional expansion pieces.	<b>Standard</b>	<b>2372368</b>	<b>USD</b>	<b>0.00</b>

<b>Concrete equipment USA</b>				
Hydraulically lifting two-piece side plate with 4 hydraulic cylinders per side for paving moulds of the series 1200i. Prevents the concrete from emerging at the sides in the area of the paving moulds and makes it possible to start again along existing road surfaces by moving up the rear side plate. For paving thicknesses from 0 to 1 ft and 3 in.	Standard	2375058	USD	0.00
<b>Concrete molding</b>				
One Paving mold series 1200i - extension element 1.0 ft wide	Standard	2372017	USD	0.00
Two Paving mold series 1200i - extension element 1.5 ft wide	Standard	2372018	USD	0.00
One Paving mold series 1200i - extension element 2.0 ft wide	Standard	2372019	USD	0.00
One Paving mold series 1200i - extension element 3.0 ft wide	Standard	2425755	USD	0.00
Configuration with suspension for paving mold with a working width of more than 6.0 ft.	Standard	2372475	USD	0.00
<b>Spreading auger</b>				
Spreading auger - without crown, basic width 1.83 m / 6 ft, hydraulic drive with reversible sense of rotation, ø 400 mm / 15 3/4 in - in conjunction with molds with 1.83 m / 6 ft width (basic molds + extension elements). Recommended with concrete placed in advance.	Option	2226583	USD	22,976.00
<b>Extensions for spreader auger</b>				
Spreading auger - extension element 1.00 ft, right-hand pitch	Option	2226586	USD	1,247.00
Spreading auger - extension element 1.50 ft, right-hand pitch	Option	2233461	USD	1,658.00
Spreading auger - extension element 2.00 ft, right-hand pitch	Option	2226587	USD	1,805.00
Spreading auger - extension element 3.00 ft, right-hand pitch		2425757	USD	2,127.00
<b>Metering gates</b>				
Metering gate for molds 3.00 ft. The metering gate regulates the concrete level in the compaction compartment.	Option	2229398	USD	1,907.00
Hydraulic height adjustment for metering gate. Recommended with concrete placed in advance. Necessary in connection with a spreading auger.	Option	2229399	USD	4,035.00
<b>Extension for metering gates</b>				
Metering gate - extension element 1.00 ft	Option	2229395	USD	440.00
Metering gate - extension element 1.50 ft	Option	2400085	USD	675.00
Metering gate - extension element 2.00 ft	Option	2229396	USD	704.00
Metering gate - extension element 3.00 ft	Option	2425758	USD	983.00

<b>Additional vibrator drives</b>				
Extension of the hydraulic vibrator drive by another max. 5 vibrators to a total of 10 hydraulic vibrator drives. The frequency of each vibrator can be adjusted independently.	<b>Standard</b>	<b>2152473</b>	<b>USD</b>	<b>0.00</b>
Additional electric vibrator drive with 10-kVA generator for connecting a further max. 5 vibrators for a total of 10 vibrators. With two generators, the frequency of two groups of 5 vibrators each can be adjusted independently.	<b>Option</b>	<b>2152480</b>	<b>USD</b>	<b>17,459.00</b>
<b>Grout box auger USA</b>				
Grout box auger basic width 6 ft for use without crown, incl. one hydraulic drive. For distributing the sludge within the compaction compartment. Supplied expansion pieces allow the working width to be reduced to 5 ft. Working widths up to 12 ft are possible using optional expansion pieces.	<b>Option</b>	<b>2372038</b>	<b>USD</b>	<b>10,901.00</b>
<b>Extensions for grout box auger</b>				
Grout box auger - extension element 1.00 ft	<b>Option</b>	<b>2233751</b>	<b>USD</b>	<b>1,042.00</b>
Grout box auger - extension element 1.50 ft	<b>Option</b>	<b>2233752</b>	<b>USD</b>	<b>1,541.00</b>
Grout box auger - extension element 2.00 ft	<b>Option</b>	<b>2233753</b>	<b>USD</b>	<b>2,171.00</b>
Grout box auger - extension element 3.00 ft	<b>Option</b>	<b>2428073</b>	<b>USD</b>	<b>3,301.00</b>
<b>Tamper USA</b>				
Tamper bar basic width 6 ft for use without crown, incl. one hydraulic drive. For optimally incorporating the coarser components under the surface of the concrete. Working widths up to 12 ft are possible using optional expansion pieces. No reinstallation on working widths less than 6ft.	<b>Option</b>	<b>2372031</b>	<b>USD</b>	<b>8,583.00</b>
<b>Extensions for tamper</b>				
Tamper bar - extension element 1.00 ft	<b>Option</b>	<b>2273710</b>	<b>USD</b>	<b>117.00</b>
Tamper bar - extension element 1.50 ft	<b>Option</b>	<b>2273711</b>	<b>USD</b>	<b>132.00</b>
Tamper bar - extension element 2.00 ft	<b>Option</b>	<b>2372029</b>	<b>USD</b>	<b>132.00</b>
Tamper - extension element 3.00 ft	<b>Option</b>	<b>2425700</b>	<b>USD</b>	<b>161.00</b>
<b>Super smoother</b>				
Super smoother - basic width 2.00 m / 6.0 ft with controllable hydraulic drive, smoother length 3.00 m / 10 ft. Working widths up to 3.50 m / 12 ft are possible using optional expansion pieces.	<b>Option</b>	<b>2215757</b>	<b>USD</b>	<b>41,727.00</b>
<b>Extensions for super smoother</b>				
Super smoother - extension element 1.00 ft	<b>Option</b>	<b>2343340</b>	<b>USD</b>	<b>308.00</b>
Super smoother - extension element 2.00 ft	<b>Option</b>	<b>2343341</b>	<b>USD</b>	<b>396.00</b>

<b>Machine lighting</b>				
Two LED floodlights with four lighting elements for use in the 24 Volt electrical system, including two masts which can be mounted on the machine. Can only be used in combination with SP25i.	Option	2890815	USD	11,693.00
<b>Mold offset</b>				
Height adapter, with split offset molds it spans the gap between the trough mounting of the machine and the trough, at least one required per machine. Alternatively, the height-adjustable suspension can be used.	Option	2152692	USD	1,174.00
Height-adjustable mold mount with 1 ft 4 in / 0.40 m lift for split offset mold	Option	2183552	USD	8,436.00
Hydraulically operated quick-change system for connecting a one-piece offset paving mold to the machine.	Option	2191407	USD	4,886.00
Additional adapter plate for quick-change system. Required for equipping any troughs with the quick-change system.	Option	2342927	USD	1,364.00
<b>Stringline tensioning system</b>				
Stringline tensioning system consisting of 3280 ft wire rope, 1x tensioning winch, 200 steel pins with leveling wire suspension, adjustable in height and range	Option	55987	USD	4,504.00
Additional tensioning winch for stringline tensioning system	Option	79802	USD	983.00
Stringline tensioning system consisting of 4 x 984 ft / 4 x 300 m nylon rope, 4x tensioning winches, 200 posts, 200 rods, 200 clamps	Option	2153800	USD	4,328.00
Fibreglass rod as stringline replacement on corners with different radii, consisting of 196 ft 10 in fiberglass rod in 6 ft 7 in pieces, 50 clips for rod mounting and 15 connection pieces	Option	2153801	USD	1,585.00
<b>Export packaging</b>				
Export packaging	Standard	2163870	USD	0.00
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	Option		USD	88.00
Spare part and application documentation English (EN)	Option		USD	15.00
<b>Individual options:</b>				
bent hydraulic vibrator		75722	USD/ea	1,466.00
straight hydraulic vibrator		75721	USD/ea	1,386.00
hopper for curb and gutter molds		2869118	USD/ea	2,304.00
standard curb/curb and gutter mold - w/o hydraulics*			USD/ea	3,965.00
simple sidewalk mold 4'*			USD/ea	9,012.00
simple sidewalk mold 5'*			USD/ea	10,815.00
simple sidewalk mold 6'*			USD/ea	12,617.00
Static barrier mold up to 4' - including hydraulics			USD/ea	25,234.00
Static barrier mold up to 5' - including hydraulics			USD/ea	29,562.00

\* height adjustable mold mount or height adapter needed!

## Price list

### SW 16 TC

#### Scope of supply – basic machine

- High-performance binder spreader for soil stabilization and cold recycling as a trailer with tandem axle
- Volumetric dosing, fully automatic and independent of the transport speed
- Container with a capacity 16 m<sup>3</sup>, internal stiffeners and lockable side doors
- Pneumatic filling devices on both container sides with connection coupling, shut-off cock and ventilation valve
- Large ventilation pipe
- Display for "Container full" and "empty" by a visual signal
- Sensor-controlled chain conveyor made of drop-forged chain links and transport strips, 3 ft 1 in / 950 mm wide
- Hydraulic shut-off valve for sealing the container when filling, controlled by on-board electronics
- Filling chute with 2 integrated horizontal augers that are controlled automatically by a sensor
- On-board computer consisting of a programmable logic controller and a control terminal in the cab with color display. This unit permits exact output of the preselected spreading quantity in kg/m<sup>2</sup>, even at different transport speeds
- Closed on-board hydraulic with integrated hydraulic oil cooling
- Tandem-axle chassis with spring-loaded drawbar
- Manual parking brake
- Hydraulic support foot with hand pump
- Safety acceptance by the employers' professional liability insurance association
- Collecting trough and suspended weigher for checking the weights
- Technical documentation, 2 copies on paper and on USB stick

List price ex subsidiary Wirtgen America

USD

**257,075.00**

Mandatory Options				
<b>Paint</b>				
Standard paint: Container in cream (RAL 9001), lower part of the machine and spreading mechanism in slate grey (RAL 7015). (S015771)	Standard	2078241	USD	0.00
Single-color special paint. Cream color is replaced by a special color (RAL acc. to customer request). (S015772)	Option	2078243	USD	4,455.00
<b>On-board hydraulics drive</b>				
Drive of the complete spreading hydraulics driven by hydraulic pump via the power take-off shaft of the tractor vehicle (1000 r.p.m.) (S036174)	Standard	2418567	USD	0.00
Auxiliary diesel engine 12 volts. Use of the auxiliary diesel engine means the spreader operates fully independently of the carrier or towing vehicle. The engine has a power of 55.4 kW at 2,400 r.p.m. It includes an enclosure and comes with a hydraulic pump for operating the on-board hydraulic system on the spreader device. Includes brackets, holding devices, a diesel tank and a complete installation on the spreading grit container. Emission level EPA Tier 4f / EU Level V. Country-specific requirements are to be taken into account. (S051424)	Option	2779340	USD	43,207.00
<b>Drive adaptations</b>				
The wide-angle cardan shaft is used for spreading drive and is provided for a 1-3/8", 6-spline connection to the traction vehicle (truck). It offers good mobility for cornering, a high transmission power and economy during everyday use. (S015795)	Standard	2078771	USD	0.00
The wide-angle cardan shaft is used for spreader drive and is provided for a 1-3/4", 6-spline connection to the traction vehicle (truck). It offers good mobility for cornering, a high transmission power and economy during everyday use. (S015796)	Option	2078772	USD	207.00
The wide-angle cardan shaft is used for spreader drive and is provided for a 1-3/4", 20-spline connection to the traction vehicle (truck). It offers good mobility for cornering, a high transmission power and economy during everyday use. (S015797)	Option	2078773	USD	207.00
<b>Trailer drawbar</b>				
Low-mounting towing device (Hitch type) with drawbar eye 50 mm diameter. The low mounting offers a higher vertical load, better traction and driving stability. (S015784)	Standard	2078761	USD	0.00
Low-mounting towing device (Hitch type) with hitch ball towing system K 80 (diameter 3 in / 80 mm). The low mounting offers a higher vertical load, better traction and driving stability. (S015786)	Option	2094658	USD	634.00

<b>Road traffic registration</b>				
Machine not authorised for public roads - the binder spreader is not authorised for driving on public roads. The vehicle is not allowed to be driven to or from the field under its own power. (S032775)	Standard	2349729	USD	0.00
The data confirmation can be used as a basis for road approval in the corresponding country of use. (S047245)	Option	2670902	USD	1,269.00
<b>Brake system</b>				
Hydraulic brake system - If you are considering use on the public roads, please bear in mind the road traffic registration regulations in the country where the machine will be used when you select the brake system. (S015782)	Standard	2078886	USD	0.00
Compressed air dual-circuit brake system with manual controller - If you are considering use on the public roads, please bear in mind the road traffic registration regulations in the country where the machine will be used when you select the brake system. (S015783)	Option	2078887	USD	2,655.00
Combination brake system comprising a hydraulic brake and a compressed air brake. For maximum flexibility in selecting the tractor vehicle. - If you are considering use on the public roads, please bear in mind the road traffic registration regulations in the country where the machine will be used when you select the brake system. (S034601)	Option	2418562	USD	8,099.00
<b>Crawler units</b>				
Low-pressure tyres 700/50-26.5 with an outside diameter of 1,350 mm. The total width of the spreader is 2,760 mm. (S018096)	Standard	2671170	USD	0.00
Low-pressure tyres 800/40-26.5 with an outside diameter of 1,350 mm. The wide ground contact area of the tyres makes them ideal for difficult ground. The total width of the spreader is 2,960 mm. (S015792)	Option	2078889	USD	2,537.00
<b>Binder filling</b>				
The high-speed filling device size R 4" is used for faster filling of the binder container. It is supplied with a connector coupling, shut-off valve, stone screen, ventilation valve and R3" adapter (only supplied with Guillemín or Storz couplings). (S025145)	Standard	2290094	USD	0.00
<b>Binder distribution</b>				
The OptiPower chain conveyor drive is ideal for heavy binders. Two variable hydraulic motors and planetary gearboxes achieve an increased level of traction and a high conveying rate during binder transport. (S028086)	Standard	2293651	USD	0.00

<b>Binder spreader</b>				
Equipment of the machine with a universal spreading mechanism type DN 230-10 for soil stabilization or cold recycling - working width 7 ft 9 in / 2.36 m. The spreading material is output using a flexible rotary valve (10 cells). The metering feeders are self-cleaning. The working width is divided into three power-switchable subsections from 2 ft 8 in to 7 ft 9 in / 0.82 to 2.36 m. The output quantity at a transport speed of 1.2 mph / 2 km/h is approx. 0.6 lb/ft² to 8.6 lb/ft² / 3 to 42 kg/m² (assuming a bulk density of 1.4 t/m³).	Standard	2351768	USD	0.00
<b>Additional devices</b>				
The vehicle is delivered without fenders. Please note that fenders must be fitted if an approval for driving on public roads is planned. (S047241)	Standard	2671293	USD	0.00
Long fenders for tandem axle with fixation parts. These are required, for example, for the authorization for driving on public roads. The wheel cover is also used as splash protection for the machine (S015794)	Option	2078256	USD	3,629.00
Short fenders for one axle with fixation parts. These are required, for example, for the authorization for driving on public roads. The wheel cover is also used as splash protection for the machine (S039203).	Option	2485541	USD	2,183.00
<b>Equipment Options</b>				
<b>Exhaust air filter</b>				
Dust collection system with compressor for filtering the waste air and reducing dust levels during the filling process. The system consists of 6 filter elements for a total air flow rate of 20,400 m³/h , an automatic purification system with electromagnetic control as well as a lockable, folding cover panel. - Compressed air is supplied via a separate compressor mounted on the binder spreader (HK450) (S041150)	Standard	2542341	USD	0.00
<b>Machine lighting</b>				
Working headlights with LED technology (4 pcs.) for illuminating the complete working area. All headlights are switched using the control terminal in the cab of the carrier or tractor vehicle. 2 headlights are mounted on the rear wall of the container and 1 headlight each on the right and left sides of the container. (S018581)	Standard	2173033	USD	0.00
<b>Printer</b>				
The needle printer is used for printing out all important working values. The data can be printed conveniently at adjustable intervals. (S015755)	Option	2078248	USD	1,446.00

<b>Camera system</b>				
The monitor system mounted on the rear of the vehicle is used for monitoring the working area at the rear. The pictures from the camera are displayed on a separate 7-inch color monitor in the cab. (S015819)	Option	2125804	USD	3,968.00
<b>Weighing system</b>				
Equipment of the machine with the active weighing device "Weightronic". For highly precise application of binder. Consisting of 4 weighing cells mounted between the frame and the binder container. The required spreading quantity is set using a separate control display. With the Weightronic, there is a continuous comparison between the actual and nominal values during spreading. Subsequent control of the spreading quantity is performed continuously and fully automatically. This means incorrect operation is almost excluded.(S032780)	Standard	2349725	USD	0.00
<b>Compressed air system</b>				
High-performance air compressor (8,000 liters/minute / 2113 gal/minute at max. 2 bar) incl. 15-meter / 50 ft high-pressure hose, hose roller and compressed air lance. For filling the binder spreader from an upright silo without its own compressor system, or for cleaning purposes. Drive via the machine hydraulics of the binder spreader. Not in conjunction with water misting system and compressor HK450. (S036499)	Option	2418729	USD	28,603.00
<b>Other devices</b>				
The storage compartments on the side with 3 lockable sheet metal doors on each side of the container offer enough room for carrying tools and implements for daily on-site operation securely and close to hand on the binder spreader. Gas springs support the opening and closing of the doors. (S015821)	Standard	2125806	USD	0.00
<b>Documentation</b>				
Additional set of technical documentation - UK country version (GB) (S029976)	Option		USD	74.00

## Price list

### SW 20 MC (4 axle)

#### Scope of supply – basic machine

- High-performance binder spreader for soil stabilization and cold recycling as a superstructure on a four-axle truck
- Volumetric dosing, fully automatic and independent of the transport speed
- Container with a capacity of 20 m<sup>3</sup>, internal stiffeners and lockable side doors
- Pneumatic filling devices on both container sides with connection coupling, shut-off cock and ventilation valve
- Large ventilation pipe
- Display for "Container full" and "empty" by a visual signal
- Sensor-controlled chain conveyor made of drop-forged chain links and transport strips, 3 ft 1 in / 950 mm wide
- "OptiPower" chain conveyor drive
- Hydraulic shut-off valve for sealing the container when filling, controlled by on-board electronics
- Filling chute with 2 integrated horizontal augers that are controlled automatically by a sensor
- On-board computer consisting of a programmable logic controller and a control terminal in the cab with color display. This unit permits exact output of the preselected spreading quantity in kg/m<sup>2</sup>, even at different transport speeds
- Closed on-board hydraulic with integrated hydraulic oil cooling
- Auxiliary frame produced especially for the particular carrier vehicle
- Safety acceptance by the employers' professional liability insurance association
- Collecting trough and suspended weigher for checking the weights
- Technical documentation, 2 copies on paper and on USB stick

223,324.00

Mandatory Options				
Chassis variants				
Binder spreading superstructure without carrier vehicle. Customer provides a suitable carrier vehicle. Attention: The customer must fill in the Streumaster "Truck specifications" form and submit it with the order confirmation. The superstructure is delivered without rear lighting equipment and reversing alert if they are not originally present on the truck. (S032794)	Standard	2350866	USD	0.00
Installation				
Final assembly is carried out by the customer independently. The spreading tank is connected by the customer to the pre-existing or additionally ordered carrier vehicle. (S036175)	Standard	2418563	USD	0.00
Paint				
Standard paint: Container in cream (RAL 9001), lower part of the machine and spreading mechanism in slate grey (RAL 7015). (S015771)	Standard	2078241	USD	0.00
Single-color special paint. Cream color is replaced by a special color (RAL acc. to customer request). (S015772)	Option	2078243	USD	4,455.00
On-board hydraulics drive				
Drive of the entire spreader hydraulics driven by hydraulic pump via the auxiliary drive of the carrier vehicle (800- 2,500 1/min) (S032772)	Standard	2349726	USD	0.00
Auxiliary diesel engine 12 volts. Use of the auxiliary diesel engine means the spreader operates fully independently of the carrier or towing vehicle. The engine has a power of 55.4 kW at 2,400 r.p.m. It includes an enclosure and comes with a hydraulic pump for operating the on-board hydraulic system on the spreader device. Includes brackets, holding devices, a diesel tank and a complete installation on the spreading grit container. Emission level EPA Tier 4f / EU Level V. Country-specific requirements are to be taken into account. (S051424)	Option	2779340	USD	43,207.00
Road traffic registration				
Machine not authorised for public roads - the binder spreader is not authorised for driving on public roads. The vehicle is not allowed to be driven to or from the field under its own power. (S032775)	Standard	2349729	USD	0.00
Binder filling				
The high-speed filling device size R 4" is used for faster filling of the binder container. It is supplied with a connector coupling, shut-off valve, stone screen, ventilation valve and R3" adapter (only supplied with Guillemin or Storz couplings). (S025145)	Standard	2290094	USD	0.00

<b>Binder distribution</b>				
The OptiPower chain conveyor drive is ideal for heavy binders. Two variable hydraulic motors and planetary gearboxes achieve an increased level of traction and a high conveying rate during binder transport. (S028086)	Standard	2293651	USD	0.00
<b>Binder spreader</b>				
Equipment of the machine with a universal spreading mechanism type DN 230-10 for soil stabilization or cold recycling - working width 7 ft 9 in / 2.36 m. The spreading material is output using a flexible rotary valve (10 cells). The metering feeders are self-cleaning. The working width is divided into three power-switchable subsections from 2 ft 8 in to 7 ft 9 in / 0.82 to 2.36 m. The output quantity at a transport speed of 1.2 mph / 2 km/h is approx. 0.6 lb/ft² to 8.6 lb/ft² / 3 to 42 kg/m² (assuming a bulk weight of 8.3 lbs per gal / 1.00 kg per liter). (S032798)	Standard	2351768	USD	0.00
<b>Equipment Options</b>				
<b>Exhaust air filter</b>				
The dust separation filter is used for filtering the waste air and reducing dust levels during the filling procedure. It consists of 6 filter elements for an air flow rate of 20,400 m³/h / 720,419 cu ft/h in total, an automatic purification system with electromagnetic control as well as a lockable, folding cover panel. - The compressed air supply must be from the carrier or towing vehicle - (S018949)	Standard	2201451	USD	0.00
<b>Machine lighting</b>				
Working headlights with LED technology (4 pcs.) for illuminating the complete working area. All headlights are switched using the control terminal in the cab of the carrier or tractor vehicle. 2 headlights are mounted on the rear wall of the container and 1 headlight each on the right and left sides of the container. **Weighing system**

Equipment of the machine with the active weighing device "Weightronic". For highly precise application of binder. Consisting of 4 weighing cells mounted between the frame and the binder container. The required spreading quantity is set using a separate control display. With the Weightronic, there is a continuous comparison between the actual and nominal values during spreading. Subsequent control of the spreading quantity is performed continuously and fully automatically. This means incorrect operation is almost excluded. (S032780)

**Standard****2349725****USD****0.00****Compressed air system**

High-performance air compressor (8,000 liters/minute / 2113 gal/minute at max. 2 bar) incl. 15-meter / 50 ft high-pressure hose, hose roller and compressed air lance. For filling the binder spreader from an upright silo without its own compressor system, or for cleaning purposes. Drive via the machine hydraulics of the binder spreader. Not in conjunction with water misting system and compressor HK450. (S036499)

**Option****2418729****USD****28,603.00****Water system**

The high-pressure cleaner with 15 m high-pressure hose and cleaning gun is used for filling the machine, and achieves a flow rate of approx. 15 l/min at max. 200 bar operational pressure. Drive via the on-board hydraulic system of the binder spreader. Only in conjunction with water tank. Not in conjunction with rotary compactor. (S015817)

**Option****2125694****USD****6,269.00**

The water sprinkling system generates a wall of spray mist which reduces the amount of dust given off by the binder to a minimum when spreading. The device with nozzle bar on the rear of the binder spreader is driven by a hydraulic water pump (feed quantity approx. 30 l/min.). Only in conjunction with water tank. Not in conjunction with rotary compactor. (S015815)

**Option****2137853****USD****8,748.00**

Water tank with 800 l content for supplying the water sprinkling system and/or the high-pressure cleaner. (S026493)

**Option****2233748****USD****6,019.00****Other devices**

Side underbody guard on both sides with fastening components for the truck. This is required, for example, for the authorization for driving on public roads. (S015793)

**Option****2078255****USD****2,272.00**

Long fenders for tandem axle with fixation parts. These are required, for example, for the authorization for driving on public roads. The wheel cover is also used as splash protection for the machine (S015794)

**Option****2078256****USD****3,629.00**

Short fenders for one axle with fixation parts. These are required, for example, for the authorization for driving on public roads. The wheel cover is also used as splash protection for the machine (S039203).	Option	2485541	USD	2,183.00
Rear fenders made from steel sheet for covering the rear axle tyres. (S026271)	Option	2227471	USD	6,181.00
<b>Other devices</b>				
The storage compartments on the side with 3 lockable sheet metal doors on each side of the container offer enough room for carrying tools and implements for daily on-site operation securely and close to hand on the binder spreader. Gas springs support the opening and closing of the doors. (S015821)	Standard	2125806	USD	0.00
<b>Vehicles and auxiliary equipment</b>				
Rockinger trailer hitch type 400 G 150 DIN 74051 D-value 130 kN, Dc-value 90 kN, V-value 35 kN, permitted vertical load 1000 kg. Diameter bolt / drawbar eye 40 mm, hole pattern 160 x 100 mm. Only in conjunction with frame extension. (S015836)	Option	2089914	USD	915.00
Rockinger trailer hitch type 500 G 6 DIN 74051, D-value 190 kN, Dc-value 135 kN, V-value 72.5 kN, permitted vertical load 1000 kg. Diameter bolt/drawbar eye 50 mm, hole pattern 160 x 100 mm. Only in conjunction with frame extension. (S015837)	Option	2137907	USD	2,050.00
The truck frame overhang is extended towards the rear, including installation of the customer's own rear trailer coupling and electrical power cables. This means it is possible to tow a low-loader trailer on public roads. - Only for factory fitting, only for MC models with spreading mechanism DN 230 - (S015759)	Option	2089911	USD	5,974.00
Filling chute for binder spreader device in truck with frame overhang (at least 1500 mm / 59 in). Truck must be equipped with trailer coupling, compressed air lines and electrical power cables with a 24 volt, 7-pin socket. Only in conjunction with DN230 (S039159)	Option	2485557	USD	2,213.00
Hydraulic connections on the frame extension for operating the drive-up ramps of a low-loader, incorporated in the hydraulic system of the spreading. - Only possible with truck frame extension - (S015822)	Option	2089912	USD	1,254.00
<b>Documentation</b>				
Additional set of technical documentation - UK country version (GB) (029980)	Option		USD	74.00

## Price list

# W 100 Ri

### Scope of supply – basic machine

- Engine: 6-CYLINDER DIESEL ENGINE TYPEDEUTZ TCD 6.1 L6 AG 5
- Rated engine power 2300 r.p.m.: 160 kW / 214.6 HP / 217.5 PS
- Exhaust standard: EU Stage V / US EPA Tier 4f
- Standard milling width: 3 ft 3 in / 1000 mm
- Theoretical milling depth: 1 ft / 300 mm

### SCOPE OF SUPPLY OF THE BASIC MACHINE

- Engine cover with noise insulation and flexibly decoupled engine mounting for especially quiet running and low noise emissions

### MILLING DRUM UNIT

- Automatically activating, hydraulic drive belt tensioner for reliable power transmission to the milling drum
- Hydraulically lifting side plate right and left
- Round milling drum housing and straight left side plate for optimum material transport, making for low left-over amounts when lifting out the milling drum
- The right-hand side of the milling drum housing can be easily opened for maintenance or drum change
- Optimized for quick change of the milling drum, including by using centering pins with the side door of the milling drum housing
- With automatic electrical safety shut-off for the milling drum

### LOADING OF MILLED MATERIAL

- Machine prepared for optional material loading by discharge conveyor
- Conveyor speed continuously variable
- Conveyor slewing angle right/left 25 degrees each for significantly improved loading procedures

### OPERATOR'S PLATFORM

- Operator's platform with ergonomically arranged operator's seat, control panel arranged on the right and digital milling depth indicator in the control display
- Steering console with adjustable rake and reach for ideal adaptation of the operator's platform to the operator
- Three mirrors
- Machine design permits unobstructed view of the milled edge at the right and left as well as the working area in front of the milling drum on the right
- Conveniently accessible ladder/footstep to the operator's platform with night-time lighting and especially low, folding bottom edge of the latter/footstep
- Robust anti-vandalism protection for the controls

### TRACK UNIT AND HEIGHT ADJUSTMENT

- Precise machine height adjustment in 0.04 or 0.2 in / 1 or 5 mm steps from the machine control panel
- Infinitely variable, hydraulic all-wheel drive with three speed ranges
- Digital load control, manual engageable, hydraulic differential lock (by flow distributor)
- Wide solid rubber tires for the lowest ground pressures and optimum traction
- For milling along curb edges, the rear right support wheel can be swiveled hydraulically from the operator's platform in front of the milling drum.
- Hydraulic spring-loaded brake
- Proportional height adjustment at rear

### MISCELLANEOUS

- Flexible weight concept by optional additional weights
- Particularly low machine center of gravity for high stability of the machine
- Robust and easily maintained machine chassis with optimum ground clearance and short overhangs
- Towing device

<ul style="list-style-type: none"> <li>Reversing horn</li> <li>Large tool package with lockable tool box and additional storage space for two pick containers</li> <li>Pre-fitting for installing the WITOS FleetView control unit</li> <li>European type certification, EuroTest mark and CE conformity</li> </ul>				
<b>List price ex subsidiary Wirtgen America</b>			<b>USD</b>	<b>401,186.00</b>

<b>Mandatory Options</b>				
<b>Milling drum housing</b>				
Wear-resistant milling drum housing FB1000 (3 ft 3 in) without milling drum	<b>Standard</b>	<b>2365918</b>	<b>USD</b>	<b>0.00</b>
Wear-resistant milling drum housing FB1000 (3 ft 3 in) FCS-Light, with pre-fitting for quick and easy milling drum changes with different tool spacings while keeping the same working widths, without milling drum.	<b>Option</b>	<b>2365919</b>	<b>USD</b>	<b>8,099.00</b>
Wear-resistant milling drum housing FB600 (3 ft 3 in) FCS with pre-fitting enabling a quick and easy change of the milling drums with varying spacings and milling widths, without milling drum.	<b>Option</b>	<b>2459677</b>	<b>USD</b>	<b>10,798.00</b>
<b>Milling drums / milling units</b>				
Milling drum with milling width 1000 mm / (3 ft, 3 in) milling depth max. 300 mm / 1 ft, tool spacing 15 mm / 0.6 in, equipped with quick-change toolholder system HT22 and 100 picks. For a wide range of applications, e.g. removal of surface and binder layer or complete removal of road surfaces.	<b>Standard</b>	<b>2311420</b>	<b>USD</b>	<b>0.00</b>
<b>Material depressor / milling unit seal front</b>				
Front milling drum unit seal FB1000 (3 ft 3 in) with hydraulic height and contact pressure adjustment. An overload sensor with lifting function lifts the seal briefly in case of a collision and thus prevents damage.	<b>Standard</b>	<b>2365926</b>	<b>USD</b>	<b>0.00</b>
<b>OPERATOR'S PLATFORM</b>				
Standard operator's seat with shock absorption and lengthways adjustment	<b>Standard</b>	<b>2365928</b>	<b>USD</b>	<b>0.00</b>
Comfort operator's seat incl. seat heating. The operator's seat has shock absorption, lengthways adjustment and can be swiveled through 20 degrees.	<b>Option</b>	<b>2365929</b>	<b>USD</b>	<b>1,159.00</b>
<b>OPERATOR'S PLATFORM</b>				
Flexibly mounted operator's platform, without weather canopy.	<b>Standard</b>	<b>2365930</b>	<b>USD</b>	<b>0.00</b>
Operator's platform with weather canopy and lateral weather protection elements. The weather canopy can be adjusted in height hydraulically. The transparent weather protection elements on the side on the roof and the right of the operator's platform protect the operator against the effects of weather driving in from the sides, and ensure additional comfort when working. (FB1000)	<b>Option</b>	<b>2436568</b>	<b>USD</b>	<b>10,065.00</b>

<b>Milling depth regulation</b>				
LEVEL PRO PLUS leveling system. The measurement is made using cylinder sensors on the side plate right and left. The milling depth is displayed and set intuitively on the LEVEL PRO PLUS control display. The milling depth is regulated automatically. Incl. pre-fitting for additional sensors (e.g. Rapid Slope).	Standard	2365933	USD	0.00
<b>Hydraulic connection</b>				
Machine with hydraulic pre-fitting for a discharge conveyor with screw coupling. Each contains the coupling element on the machine side and the discharge conveyor side.	Standard	2370564	USD	0.00
Machine with hydraulic pre-fitting for a discharge conveyor with quick-change coupling. For quick change of the discharge conveyor. Each contains the coupling element on the machine side and the discharge conveyor side.	Option	2370565	USD	1,218.00
<b>Material transport</b>				
Discharge conveyor 7,350 mm / 24 ft 1 in long with conveyor belt width 500 mm / 1 ft 8 in and hydraulic folding device for shortening the transport length or simplified maneuvering in narrow fields. Including an LED working light for illuminating the ejection area. Discharge conveyor including mechanical installation and removal assistance.	Standard	2370568	USD	0.00
<b>Paint</b>				
Painting in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7015.	Standard	2370429	USD	0.00
Film coating in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7019	Option	2893663	USD	2,333.00
The film coating is applied in RAL colors and design according to the customer's wishes. Film coating provides protection against mechanical and weather-related damage and can be removed without leaving any marks, if required	Option	2893664	USD	3,154.00
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	Standard	2456347	USD	0.00
<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The	Standard	2770403	USD	0.00

<b>Machine lighting</b>				
Lighting system consisting of 1 LED strip, 3 halogen and 8 LED working lights. The headlights illuminate the area in front of the machine, the left machine side, the area in front of the milling drum unit, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 16,700 lumen in total.	<b>Standard</b>	<b>2487612</b>	<b>USD</b>	<b>0.00</b>
High-performance lighting system consisting of 2 LED strips, 1 halogen and 12 LED working lights. The headlights illuminate the area in front of the machine, the rear of the machine, the left machine side from the front and rear, the area in front of the milling drum unit, the wheel arch, the weather canopy, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 23,300 lumen in total. LED working lights are extremely bright, shock-resistant and durable.	<b>Option</b>	<b>2487613</b>	<b>USD</b>	<b>1,042.00</b>
<b>Crawler units</b>				
The machine is equipped with a front axle for using a milling unit with a width of 1.000 mm / 1.200 mm.	<b>Standard</b>	<b>2589208</b>	<b>USD</b>	<b>0.00</b>
<b>Equipment Options</b>				
<b>Additional weight</b>				
Additional weight 400 kg / 881 lb for four-wheel machine. 100 kg / 220 lb additional weight can be mounted in each rim. The additional weight can improve working under extreme conditions, although does increase the transport weight of the machine.	<b>Option</b>	<b>2462950</b>	<b>USD</b>	<b>6,059.00</b>
<b>Advance drive</b>				
Machine (FB1000 / FB1200) equipped for increased transfer speed with more powerful hydraulic components (up to 7,5 km/h / 4,5 mph). Construction site operations are significantly faster due to the increased transfer speed of the machine.	<b>Standard</b>	<b>2370563</b>	<b>USD</b>	<b>0.00</b>
Machine equipped with precision steering (FB1000/1200). Proportional push-buttons on the multi-function armrest enable the machine to be steered more precisely.	<b>Standard</b>	<b>2478483</b>	<b>USD</b>	<b>0.00</b>
Equipment of the machine with precision steering (FB600). Pushbuttons on the multi-function armrests with a proportional response permit more precise steering of the machine.	<b>Option</b>	<b>2592468</b>	<b>USD</b>	<b>1,453.00</b>

<b>Milling drum assembly options</b>				
Overload sensor on the scraper FB1000/1200 for automatic lifting function in case of obstacles. Effectively prevents the scraper from sinking into the loose sub-base, as well as getting stuck on obstacles.	Option	2478481	USD	1,966.00
Active floating position on the side plate right and left by continuous comparison between the milling depth and position of the side plate. If required, the side plate is lifted briefly to prevent tilting or sinking into a soft sub-base. (Only possible in conjunction with LEVEL PRO PLUS.)	Option	2478486	USD	1,878.00
<b>Device for milling drum change</b>				
Milling drum assembly trolley for milling drums up to FB1300 (4 ft 3 in), for straightforward milling drum change	Option	105240	USD	2,964.00
Assembly aid for the fast milling drum change	Option	101056	USD	1,438.00
<b>Additional milling units</b>				
FCS milling unit FB400 (15,75") LA15, with quick-change toolholder system HT22, milling depth max. 0 ft 11 in / 300 mm, equipped with 59 RS picks, including scraper bottom part FB400 (15,75")	Option	2478482	USD	19,807.00
FCS milling unit FB500 (20") LA15, with quick-change toolholder system HT22, milling depth max. 0 ft 11 in / 300 mm, equipped with 65 RS picks, including scraper bottom part FB500 (20")	Option	2478484	USD	20,731.00
<b>Cold-start device</b>				
Electrical preheating of the fuel filter to maintain the flow of fuel at low outside temperatures. Serves to guarantee machine operation at temperatures below 0 32 degrees Fahrenheit (0 degrees Celsius).	Option	2468568	USD	440.00
<b>Options for belt conveyor</b>				
Hydraulic coupler on conveyor side for mounting on an additional discharge conveyor. For use on a machine pre-equipped with screw coupling.	Option	2370616	USD	191.00

<b>Lateral slope control</b>				
Expansion of the LEVEL PRO PLUS leveling system by a RAPID SLOPE sensor. Ideal, for example for aligning the machine in a defined lateral tilt on a one-sided reference.	Option	2370620	USD	4,504.00
Expansion of the LEVEL PRO PLUS leveling system by a leveling boom that can be moved out on the left side. The boom can be moved out hydraulically if required by up to 43 in / 1,080 mm and mechanically by a further 40 in / 1,020 mm. Including sensor and cable as well as LED position lights for indicating the moved-out boom.	Option	2417339	USD	6,192.00
<b>Water system / spraying agent system</b>				
Hydraulically driven water filler pump. For rapid filling of the water tank. The filler pump is located in an easily accessible position and is protected in the storage compartment at the ladder/footstep to the operator's platform.	Option	2511836	USD	3,052.00
<b>Pick changing aids</b>				
Hydraulically driven pick ejector, including the holder and required electrical and hydraulic connections. Ideal for convenient, fast and low-noise pick changes.	Option	2370621	USD	3,903.00
<b>Wirtgen information and diagnostic system</b>				
Equipment of the machine with job data acquisition. The information is shown in the control display.	Standard	2410294	USD	0.00
<b>Camera system</b>				
Monitor system as maneuvering aid with two cameras and screen. A camera is mounted on the discharge conveyor and displays the loading of the truck. The 2nd camera shows the area in front of the milling drum housing. The camera images are displayed on the screen.	Option	2487627	USD	5,590.00
<b>Other devices</b>				
License plate holder with LED lighting to comply with country-specific regulations.	Option	2655778	USD	499.00
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	Option		USD	88.00
Spare part and application documentation English (EN)	Option		USD	15.00

## Price list

# W 100 Xfi - FCS

### Scope of supply – basic machine

- Engine: 6-CYLINDER DIESEL ENGINE TYPE CUMMINS QSL9 C-300
- Rated engine power 2100 r.p.m.: 248 kW / 333 HP / 337 PS
- Maximum power at 1900 r.p.m.: 257 kW / 345 HP / 350 PS
- Exhaust standard: US EPA Tier 4f
- Standard milling width: 3 ft 3 in / 1000 mm
- Theoretical milling depth: 1 ft 1 in / 330 mm

### STANDARD EQUIPMENT

- Base machine with engine
- Mechanically opening engine hood with noise insulation
- Radiator with temperature-dependent fan speed
- Highly effective noise insulation throughout the engine compartment
- Automatic engine speed adjustment depending on machine load
- Elastically mounted engine station with low vibration and low noise

### MILLING DRUM HOUSING

- The right-hand side of the milling drum housing can be easily opened for maintenance or drum change
- Hydraulically operated rear scraper with mechanical locking

### LOADING OF MILLED MATERIAL

- Discharge conveyor swing angle: 60 degrees left – 60 degrees right
- Hydraulically foldable discharge conveyor with two swing speeds, including adjustable conveyor speed for precise loading

### MACHINE CONTROL AND LEVELLING SYSTEM

- Digital milling depth indicator on machine control panel
- LEVEL PRO PLUS leveling system right and left
- RAPID SLOPE cross-slope sensor for LEVEL PRO ACTIVE leveling system
- Precise machine height adjustment in increments of 1 or 5 mm via the machine's main control panel
- Digital load control, can be engaged manually, hydraulic differential lock (via flow divider)

### OPERATOR'S PLATFORM

- Hydraulically extendable operator's platform for optimum view of the working area
- Steering console with adjustable rake and reach for ideal adaptation of the operator's platform to the operator
- Slender machine design permits unobstructed view of the milled edge as well as the working area in front of the milling drum on the right
- Conveniently accessible ladder/footstep to the operator's platform with night-time lighting and especially low bottom edge of the latter/footstep
- Robust anti-vandalism protection for the controls
- Mirror package consisting of front left and right rear-view mirrors and a forward-facing mirror to the left of the operator's platform
- Reversing horn with clearly audible signal
- Illuminated control panel / nighttime design
- Scraper height indicator on control panel

### TRACK UNIT AND HEIGHT ADJUSTMENT

- Dual-speed hydraulic height adjustment of front and rear track units

### MISCELLANEOUS

- Large tool package
- Towing device
- Generously sized water and diesel tanks

- Comprehensive safety package with several EMERGENCY STOP switches
- Pre-fitting for installing the WITOS FleetView control unit
- European type certification, EuroTest mark and CE conformity

**List price ex subsidiary Wirtgen America**

**USD**

**636,551.00**

## **Mandatory Options**

### **Crawler units**

Configuration with 4 driven track units. The two front track units are steered. The track unit at the rear right is hydraulically slewing and also steers. Traveling speed max. 3.6 mph / 5.8 km/h.

**Standard**

**2777141**

**USD**

**0.00**

### **Milling drum housing**

Wear-resistant milling drum housing FB1000 (3 ft 3 in) FCS with pre-fitting enabling a quick and easy change of the milling drums with varying spacings and milling widths, without milling drum.

**Standard**

**2336166**

**USD**

**0.00**

### **Milling drums / milling units**

FCS milling drum with milling width 1000 mm / 3 ft / 3 in, tool spacing 15 mm / 19/32 in, equipped with quick-change toolholder system HT22 and 99 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.

**Standard**

**2308062**

**USD**

**0.00**

### **OPERATOR'S PLATFORM**

Standard operator's seat with shock absorption and lengthways adjustment

**Standard**

**2412488**

**USD**

**0.00**

### **Hydraulic connection**

Machine with hydraulic pre-fitting for a discharge conveyor with screw coupling. Each contains the coupling element on the machine side and the discharge conveyor side.

**Standard**

**2412477**

**USD**

**0.00**

### **Material transport**

Discharge conveyor 26 ft 9 in / 8,150 mm long with conveyor belt width 2 ft / 600 mm and hydraulic folding device for shortening the transport length or simplified maneuvering in narrow fields.

**Standard**

**2336175**

**USD**

**0.00**

<b>Paint</b>				
Film coating in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7019	Standard	2863382	USD	0.00
The film coating is applied in RAL colors and design according to the customer's wishes. Film coating provides protection against mechanical and weather-related damage and can be removed without leaving any marks, if required	Option	2863384	USD	1,482.00
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	Standard	2456347	USD	0.00
<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	Standard	2770403	USD	0.00
<b>Machine lighting</b>				
Lighting system consisting of 4 halogen and 8 LED working lights. The headlights illuminate the area in front of the machine, both machine sides, the area in front of the milling drum unit, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 19,500 lumen in total.	Standard	2487614	USD	0.00
High-performance lighting system consisting of 1 halogen and 14 LED working lights. The headlights illuminate the area in front of and behind the machine, both machine sides, the area in front of the milling drum unit, the loading area, the weather canopy, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 26,300 lumen in total. LED working lights are extremely bright, shock-resistant and durable.	Option	2487615	USD	1,056.00

Equipment Options				
<b>Exhaust air filter</b>				
VCS – vacuum cutting system on the discharge conveyor for the extraction of fine material particles and water vapor from the sealed milling drum unit.	Option	2336913	USD	9,302.00
<b>Advance drive</b>				
Equipment of the machine with precision steering. Pushbuttons on the multi-function armrests with a proportional response permit more precise steering of the machine.	Standard	2478488	USD	0.00
<b>Equipment operator's platform</b>				
Operator's platform with weather canopy. The weather canopy is hydraulically adjustable in height and provides additional comfort during on-site operation. Including LED working light for illuminating the footstep. (Only in conjunction with electrohydraulic unit.)	Option	2336173	USD	9,185.00
<b>Milling drum assembly options</b>				
Overload sensor on the scraper FB1000 for automatic lifting function in case of obstacles. Effectively prevents the scraper from sinking into the loose sub-base, as well as getting stuck on obstacles.	Option	2478485	USD	3,052.00
Active floating position on the side plate right and left by continuous comparison between the milling depth and position of the side plate. If required, the side plate is lifted briefly to prevent tilting or sinking into a soft sub-base. (Only possible in conjunction with LEVEL PRO PLUS.)	Standard	2478486	USD	0.00
<b>Side milling ring</b>				
Pre-fitting for using a deep milling unit, including all necessary electro, hydraulic and water connections.	Option	2596465	USD	2,347.00
<b>Additional milling units</b>				
FCS tandem scraper FB1000 (39") with necessary hydraulic and electrical systems. For the use of milling drums smaller than FB1000 (39"). The min. milling width for material loading onto the loading belt is	Standard	2351463	USD	0.00
FCS milling unit FB300 (12") LA15, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 61 RS picks, including scraper bottom part FB300 (12")	Option	2308611	USD	16,873.00
FCS milling unit FB600 (24") LA12, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 79 picks, including scraper bottom part FB600 (24")	Option	2308615	USD	27,290.00
<b>Cold-start device</b>				
Electrical preheating of the fuel filter to maintain the flow of fuel at low outside temperatures. Serves to guarantee machine operation at temperatures below 0 32 degrees Fahrenheit (0 degrees Celsius).	Option	2377357	USD	836.00

<b>Options for belt conveyor</b>				
Signal lights for visual "stop" and "go" instructions for the truck driver without the use of a horn. The signal lights can be folded in hydraulically from the operator's platform.	Option	2409818	USD	7,204.00
<b>Leveling</b>				0.00
Expansion of the LEVEL PRO PLUS leveling system by a SONIC SKI sensor. Ideal for contact-free wire and soil scanning. Including connection cable and holder.	Option	2352878	USD	6,456.00
<b>Leveling</b>				
Expansion of the leveling system for multiplex system package 3-way right, including 2 x ultrasonic sensors, and connection cable. (FB1000/1200)	Option	2544246	USD	4,622.00
Expansion of the leveling system to make multiplex system package 3-way right and 3-way left, including 4 x ultrasonic sensors and connection cable. (FB1000/1200)	Option	2544249	USD	9,243.00
<b>Attachments</b>				
Battery-operated electro-hydraulic unit for operation of the machine hydraulics with the diesel engine switched off. (e.g. height adjustment of weather canopy, milling drum rotation device and hydraulic pick extractor drift)	Standard	2412494	USD	0.00
<b>Water system</b>				
Hydraulically operated high-pressure water cleaner with a maximum performance of 15 l/min at 150 bar pressure. Ideal for daily cleaning of the machine.	Option	2336231	USD	4,402.00
<b>Pick changing aids</b>				
Milling drum rotation device with electrohydraulic milling drum drive for slowly turning the milling drum during pick replacement.	Standard	2352893	USD	0.00
<b>Wirtgen information and diagnostic system</b>				
Equipment of the machine with job data acquisition. The information is shown in the control display.	Standard	2410294	USD	0.00
<b>Camera system</b>				
Monitor system as maneuvering aid with 2 cameras and screen. A camera is mounted on the discharge conveyor and displays the loading of the truck. The 2nd camera shows the area in front of the milling drum housing. The camera images are displayed	Option	2487637	USD	6,192.00
<b>Other devices</b>				
License plate holder with LED lighting to comply with country-specific regulations.	Option	2659037	USD	499.00
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	Option		USD	88.00
Spare part and application documentation English (EN)	Option		USD	15.00

**Price list****W 100 Xfi - Non FCS****Scope of supply – basic machine**

#### Mandatory Options

##### Crawler units

Configuration with 4 driven track units. The two front track units are steered. The track unit at the rear right is hydraulically slewing and also steers. Traveling speed max. 3.6 mph / 5.8 km/h.	<b>Standard</b>	<b>2777141</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

##### Milling drum housing

Wear-resistant milling drum housing FB1000 (3 ft 3 in) without milling drum	<b>Standard</b>	<b>2336164</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

##### Milling drums / milling units

Milling drum with milling width 1000 mm / 3 ft / 3 in, tool spacing 15 mm / 19/32 in, equipped with quick-change toolholder system HT22 and 99 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.	<b>Standard</b>	<b>2308576</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

##### OPERATOR'S PLATFORM

Standard operator's seat with shock absorption and lengthways adjustment	<b>Standard</b>	<b>2412488</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

##### Hydraulic connection

Machine with hydraulic pre-fitting for a discharge conveyor with screw coupling. Each contains the coupling element on the machine side and the discharge conveyor side.	<b>Standard</b>	<b>2412477</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

##### Material transport

Discharge conveyor 26 ft 9 in / 8,150 mm long with conveyor belt width 2 ft / 600 mm and hydraulic folding device for shortening the transport length or simplified maneuvering in narrow fields.	<b>Standard</b>	<b>2336175</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

##### Paint

Film coating in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7019	<b>Standard</b>	<b>2863382</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

The film coating is applied in RAL colors and design according to the customer's wishes. Film coating provides protection against mechanical and weather-related damage and can be removed without leaving any marks, if required	<b>Option</b>	<b>2863384</b>	<b>USD</b>	<b>1,482.00</b>
---	---------------	----------------	------------	-----------------

<b>Technical documentation</b>				
Technical documentation - North America country version (US)	Standard	2456347	USD	0.00
<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	Standard	2770403	USD	0.00
<b>Machine lighting</b>				
Lighting system consisting of 4 halogen and 8 LED working lights. The headlights illuminate the area in front of the machine, both machine sides, the area in front of the milling drum unit, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 19,500 lumen in total.	Standard	2487614	USD	0.00
High-performance lighting system consisting of 1 halogen and 14 LED working lights. The headlights illuminate the area in front of and behind the machine, both machine sides, the area in front of the milling drum unit, the loading area, the weather canopy, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 26,300 lumen in total. LED working lights are extremely	Option	2487615	USD	1,056.00
<b>Equipment Options</b>				
<b>Exhaust air filter</b>				
VCS – vacuum cutting system on the discharge conveyor for the extraction of fine material particles and water vapor from the sealed milling drum unit.	Option	2336913	USD	9,302.00
<b>Advance drive</b>				
Equipment of the machine with precision steering. Pushbuttons on the multi-function armrests with a proportional response permit more precise steering of the machine.	Standard	2478488	USD	0.00
<b>Equipment operator's platform</b>				
Operator's platform with weather canopy. The weather canopy is hydraulically adjustable in height and provides additional comfort during on-site operation. Including LED working light for illuminating the footstep. (Only in conjunction with electrohydraulic unit.)	Option	2336173	USD	9,185.00

<b>Milling drum assembly options</b>				
Overload sensor on the scraper FB1000 for automatic lifting function in case of obstacles. Effectively prevents the scraper from sinking into the loose sub-base, as well as getting stuck on obstacles.	Option	2478485	USD	3,052.00
Active floating position on the side plate right and left by continuous comparison between the milling depth and position of the side plate. If required, the side plate is lifted briefly to prevent tilting or sinking into a soft sub-base. (Only possible in conjunction with LEVEL PRO PLUS.)	Standard	2478486	USD	0.00
<b>Side milling ring</b>				
Pre-fitting for using a deep milling unit, including all necessary electro, hydraulic and water connections.	Option	2596465	USD	2,347.00
<b>Cold-start device</b>				
Electrical preheating of the fuel filter to maintain the flow of fuel at low outside temperatures. Serves to guarantee machine operation at temperatures below 0 32 degrees Fahrenheit (0 degrees Celsius).	Option	2377357	USD	836.00
<b>Options for belt conveyor</b>				
Signal lights for visual "stop" and "go" instructions for the truck driver without the use of a horn. The signal lights can be folded in hydraulically from the operator's platform.	Option	2409818	USD	7,204.00
<b>Leveling</b>				
Expansion of the LEVEL PRO PLUS leveling system by a SONIC SKI sensor. Ideal for contact-free wire and soil scanning. Including connection cable and holder.	Option	2352878	USD	6,456.00
<b>Leveling</b>				
Expansion of the leveling system for multiplex system package 3-way right, including 2 x ultrasonic sensors, and connection cable. (FB1000/1200)	Option	2544246	USD	4,622.00
Expansion of the leveling system to make multiplex system package 3-way right and 3-way left, including 4 x ultrasonic sensors and connection cable. (FB1000/1200)	Option	2544249	USD	9,243.00
<b>Attachments</b>				
Battery-operated electro-hydraulic unit for operation of the machine hydraulics with the diesel engine switched off. (e.g. height adjustment of weather canopy, milling drum rotation device and hydraulic pick extractor drift)	Standard	2412494	USD	0.00
<b>Water system</b>				
Hydraulically operated high-pressure water cleaner with a maximum performance of 15 l/min at 150 bar pressure. Ideal for daily cleaning of the machine.	Option	2336231	USD	4,402.00

<b>Pick changing aids</b>				
Milling drum rotation device with electrohydraulic milling drum drive for slowly turning the milling drum during pick replacement.	Standard	2352893	USD	0.00
<b>Wirtgen information and diagnostic system</b>				
Equipment of the machine with job data acquisition. The information is shown in the control display.	Standard	2410294	USD	0.00
<b>Camera system</b>				
Monitor system as maneuvering aid with 2 cameras and screen. A camera is mounted on the discharge conveyor and displays the loading of the truck. The 2nd camera shows the area in front of the milling drum housing. The camera images are displayed on the screen.	Option	2487637	USD	6,192.00
<b>Other devices</b>				
License plate holder with LED lighting to comply with country-specific regulations.	Option	2659037	USD	499.00
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	Option		USD	88.00
Spare part and application documentation English (EN)	Option		USD	15.00

## Price list

# W 120 Ri

### Scope of supply – basic machine

- Engine: 6-CYLINDER DIESEL ENGINE TYPEDEUTZ TCD 6.1 L6 AG 5
- Rated engine power 2300 r.p.m.: 160 kW / 214.6 HP / 217.5 PS
- Exhaust standard: EU Stage V / US EPA Tier 4f
- Standard milling width: 3 ft 11 in / 1200 mm
- Theoretical milling depth: 1 ft / 300 mm

### SCOPE OF SUPPLY OF THE BASIC MACHINE

- Engine cover with noise insulation and flexibly decoupled engine mounting for especially quiet running and low noise emissions

### MILLING DRUM UNIT

- Automatically activating, hydraulic drive belt tensioner for reliable power transmission to the milling drum
- Hydraulically lifting side plate right and left
- Round milling drum housing and straight left side plate for optimum material transport, making for low left-over amounts when lifting out the milling drum
- The right-hand side of the milling drum housing can be easily opened for maintenance or drum change
- Optimized for quick change of the milling drum, including by using centering pins with the side door of the milling drum housing
- With automatic electrical safety shut-off for the milling drum

### LOADING OF MILLED MATERIAL

- Machine prepared for optional material loading by discharge conveyor
- Conveyor speed continuously variable
- Conveyor slewing angle right/left 25 degrees each for significantly improved loading procedures

### OPERATOR'S PLATFORM

- Operator's platform with ergonomically arranged operator's seat, control panel arranged on the right and digital milling depth indicator in the control display
- Steering console with adjustable rake and reach for ideal adaptation of the operator's platform to the operator
- Three mirrors
- Machine design permits unobstructed view of the milled edge at the right and left as well as the working area in front of the milling drum on the right
- Conveniently accessible ladder/footstep to the operator's platform with night-time lighting and especially low, folding bottom edge of the latter/footstep
- Robust anti-vandalism protection for the controls

### TRACK UNIT AND HEIGHT ADJUSTMENT

- Precise machine height adjustment in 0.04 or 0.2 in / 1 or 5 mm steps from the machine control panel
- Infinitely variable, hydraulic all-wheel drive with three speed ranges
- Digital load control, manual engageable, hydraulic differential lock (by flow distributor)
- Wide solid rubber tires for the lowest ground pressures and optimum traction
- For milling along curb edges, the rear right support wheel can be swiveled hydraulically from the operator's platform in front of the milling drum.
- Hydraulic spring-loaded brake
- Proportional height adjustment at rear

### MISCELLANEOUS

- Flexible weight concept by optional additional weights
- Particularly low machine center of gravity for high stability of the machine
- Robust and easily maintained machine chassis with optimum ground clearance and short overhangs
- Towing device

<ul style="list-style-type: none"> <li>Reversing horn</li> <li>Large tool package with lockable tool box and additional storage space for two pick containers</li> <li>Pre-fitting for installing the WITOS FleetView control unit</li> <li>European type certification, EuroTest mark and CE conformity</li> </ul>				
<b>List price ex subsidiary Wirtgen America</b>			<b>USD</b>	<b>410,576.00</b>

<b>Mandatory Options</b>				
<b>Milling drum housing</b>				
Wear-resistant milling drum housing FB1200 (3 ft 11 in) without milling drum	<b>Standard</b>	<b>2365921</b>	<b>USD</b>	<b>0.00</b>
Wear-resistant milling drum housing FB1200 (3 ft 11 in) FCS-Light, with pre-fitting enabling a quick and easy change of milling drums with varying spacings and equal milling widths, without milling drum.	<b>Option</b>	<b>2365922</b>	<b>USD</b>	<b>8,099.00</b>
<b>Milling drums / milling units</b>				
Milling drum with milling width 1200 mm / (3 ft 11 in), tool spacing 18 mm / 45/64 in, equipped with quick-change toolholder system HT22 and 101 picks. For a wide range of applications, e.g. removal of surface and binder layer or complete removal of road surfaces.	<b>Standard</b>	<b>2371942</b>	<b>USD</b>	<b>0.00</b>
<b>Material depressor / milling unit seal front</b>				
Front milling drum unit seal FB1200 (3 ft 11 in) with hydraulic height and contact pressure adjustment. An overload sensor with lifting function lifts the seal briefly in case of a collision and thus prevents damage.	<b>Standard</b>	<b>2365927</b>	<b>USD</b>	<b>0.00</b>
<b>OPERATOR'S PLATFORM</b>				
Standard operator's seat with shock absorption and lengthways adjustment	<b>Standard</b>	<b>2365928</b>	<b>USD</b>	<b>0.00</b>
Comfort operator's seat incl. seat heating. The operator's seat has shock absorption, lengthways adjustment and can be swiveled through 20 degrees.	<b>Option</b>	<b>2365929</b>	<b>USD</b>	<b>1,159.00</b>
<b>OPERATOR'S PLATFORM</b>				
Flexibly mounted operator's platform, without weather canopy.	<b>Standard</b>	<b>2365930</b>	<b>USD</b>	<b>0.00</b>
Operator's platform with weather canopy and lateral weather protection elements. The weather canopy can be adjusted in height hydraulically. The transparent weather protection elements on the side on the roof and the right of the operator's platform protect the operator against the effects of weather driving in from the sides, and ensure additional comfort when working. (FB1000)	<b>Option</b>	<b>2436568</b>	<b>USD</b>	<b>10,065.00</b>

Operator's platform with weather canopy and lateral weather protection elements. The weather canopy can be adjusted in height hydraulically. The transparent weather protection elements on the side on the roof and the right of the operator's platform protect the operator against the effects of weather driving in from the sides, and ensure additional comfort when working. (FB1200)	<b>Option</b>	<b>2523456</b>	<b>USD</b>	<b>10,358.00</b>
<b>Milling depth regulation</b>				
LEVEL PRO PLUS leveling system. The measurement is made using cylinder sensors on the side plate right and left. The milling depth is displayed and set intuitively on the LEVEL PRO PLUS control display. The milling depth is regulated automatically. Incl. pre-fitting for additional sensors (e.g. Rapid Slope).	<b>Standard</b>	<b>2365933</b>	<b>USD</b>	<b>0.00</b>
<b>Hydraulic connection</b>				
Machine with hydraulic pre-fitting for a discharge conveyor with screw coupling. Each contains the coupling element on the machine side and the discharge conveyor side.	<b>Standard</b>	<b>2370564</b>	<b>USD</b>	<b>0.00</b>
Machine with hydraulic pre-fitting for a discharge conveyor with quick-change coupling. For quick change of the discharge conveyor. Each contains the coupling element on the machine side and the discharge conveyor side.	<b>Option</b>	<b>2370565</b>	<b>USD</b>	<b>1,218.00</b>
<b>Material transport</b>				
Discharge conveyor 7,350 mm / 24 ft 1 in long with conveyor belt width 500 mm / 1 ft 8 in and hydraulic folding device for shortening the transport length or simplified maneuvering in narrow fields. Including an LED working light for illuminating the ejection area. Discharge conveyor including mechanical installation and removal assistance.	<b>Standard</b>	<b>2370568</b>	<b>USD</b>	<b>0.00</b>
<b>Paint</b>				
Painting in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7015.	<b>Standard</b>	<b>2459686</b>	<b>USD</b>	<b>0.00</b>
Film coating in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7019	<b>Option</b>	<b>2893665</b>	<b>USD</b>	<b>2,333.00</b>
The film coating is applied in RAL colors and design according to the customer's wishes. Film coating provides protection against mechanical and weather-related damage and can be removed without leaving any marks, if required	<b>Option</b>	<b>2893666</b>	<b>USD</b>	<b>3,154.00</b>
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	<b>Standard</b>	<b>2456347</b>	<b>USD</b>	<b>0.00</b>

<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	Standard	2770403	USD	0.00
<b>Machine lighting</b>				
Lighting system consisting of 1 LED strip, 3 halogen and 8 LED working lights. The headlights illuminate the area in front of the machine, the left machine side, the area in front of the milling drum unit, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 16,700 lumen in total.	Standard	2487612	USD	0.00
High-performance lighting system consisting of 2 LED strips, 1 halogen and 12 LED working lights. The headlights illuminate the area in front of the machine, the rear of the machine, the left machine side from the front and rear, the area in front of the milling drum unit, the wheel arch, the weather canopy, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 23,300 lumen in total. LED working lights are extremely bright, shock-resistant and durable.	Option	2487613	USD	1,042.00
<b>Crawler units</b>				
The machine is equipped with a front axle for using a milling unit with a width of 1.000 mm / 1.200 mm.	Standard	2589208	USD	0.00
<b>Equipment Options</b>				
<b>Additional weight</b>				
Additional weight 400 kg / 881 lb for four-wheel machine. 100 kg / 220 lb additional weight can be mounted in each rim. The additional weight can improve working under extreme conditions, although does increase the transport weight of the machine.	Option	2462950	USD	6,059.00

<b>Advance drive</b>				
Machine (FB1000 / FB1200) equipped for increased transfer speed with more powerful hydraulic components (up to 7,5 km/h / 4,5 mph). Construction site operations are significantly faster due to the increased transfer speed of the machine.	Standard	2370563	USD	0.00
Machine equipped with precision steering (FB1000/1200). Proportional push-buttons on the multi-function armrest enable the machine to be steered more precisely.	Standard	2478483	USD	0.00
<b>Milling drum assembly options</b>				
Overload sensor on the scraper FB1000/1200 for automatic lifting function in case of obstacles. Effectively prevents the scraper from sinking into the loose sub-base, as well as getting stuck on obstacles.	Option	2478481	USD	1,966.00
Active floating position on the side plate right and left by continuous comparison between the milling depth and position of the side plate. If required, the side plate is lifted briefly to prevent tilting or sinking into a soft sub-base. (Only possible in conjunction with LEVEL PRO PLUS.)	Option	2478486	USD	1,878.00
<b>Device for milling drum change</b>				
Milling drum assembly trolley for milling drums up to FB1300 (4 ft 3 in), for straightforward milling drum change	Option	105240	USD	2,964.00
Assembly aid for the fast milling drum change	Option	101056	USD	1,438.00
<b>Cold-start device</b>				
Electrical preheating of the fuel filter to maintain the flow of fuel at low outside temperatures. Serves to guarantee machine operation at temperatures below 0 32 degrees Fahrenheit (0 degrees Celsius).	Option	2468568	USD	440.00
<b>Options for belt conveyor</b>				
Hydraulic coupler on conveyor side for mounting on an additional discharge conveyor. For use on a machine pre-equipped with screw coupling.	Option	2370616	USD	191.00
<b>Lateral slope control</b>				
Expansion of the LEVEL PRO PLUS leveling system by a RAPID SLOPE sensor. Ideal, for example for aligning the machine in a defined lateral tilt on a one-sided reference.	Option	2370620	USD	4,504.00

Expansion of the LEVEL PRO PLUS leveling system by a leveling boom that can be moved out on the left side. The boom can be moved out hydraulically if required by up to 43 in / 1,080 mm and mechanically by a further 40 in / 1,020 mm. Including sensor and cable as well as LED position lights for indicating the moved-out boom.	Option	2417339	USD	6,192.00
<b>Water system / spraying agent system</b>				
Hydraulically driven water filler pump. For rapid filling of the water tank. The filler pump is located in an easily accessible position and is protected in the storage compartment at the ladder/footstep to the operator's platform.	Option	2511836	USD	3,052.00
<b>Pick changing aids</b>				
Hydraulically driven pick ejector, including the holder and required electrical and hydraulic connections. Ideal for convenient, fast and low-noise pick changes.	Option	2370621	USD	3,903.00
<b>Wirtgen information and diagnostic system</b>				
Equipment of the machine with job data acquisition. The information is shown in the control display.	Standard	2410294	USD	0.00
<b>Camera system</b>				
Monitor system as maneuvering aid with two cameras and screen. A camera is mounted on the discharge conveyor and displays the loading of the truck. The 2nd camera shows the area in front of the milling drum housing. The camera images are displayed on the screen.	Option	2487627	USD	5,590.00
<b>Other devices</b>				
License plate holder with LED lighting to comply with country-specific regulations.	Option	2655778	USD	499.00
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	Option		USD	88.00
Spare part and application documentation English (EN)	Option		USD	15.00

**Price list****W 120 Xfi - FCS****Scope of supply – basic machine**

- Engine: 6-CYLINDER DIESEL ENGINE TYPE CUMMINS QSL9 C-300
- Rated engine power 2100 r.p.m.: 248 kW / 333 HP / 337 PS
- Maximum power at 1900 r.p.m.: 257 kW / 345 HP / 350 PS
- Exhaust standard: US EPA Tier 4f
- Standard milling width: 3 ft 11 in / 1200 mm
- Theoretical milling depth: 1 ft 1 in / 330 mm

**STANDARD EQUIPMENT**

- Base machine with engine
- Mechanically opening engine hood with noise insulation
- Radiator with temperature-dependent fan speed
- Highly effective noise insulation throughout the engine compartment
- Automatic engine speed adjustment depending on machine load
- Elastically mounted engine station with low vibration and low noise

**MILLING DRUM HOUSING**

- The right-hand side of the milling drum housing can be easily opened for maintenance or drum change
- Hydraulically operated rear scraper with mechanical locking

**LOADING OF MILLED MATERIAL**

- Discharge conveyor swing angle: 60 degrees left – 60 degrees right
- Hydraulically foldable discharge conveyor with two swing speeds, including adjustable conveyor speed for precise loading

**MACHINE CONTROL AND LEVELLING SYSTEM**

- Digital milling depth indicator on machine control panel
- LEVEL PRO PLUS leveling system right and left
- RAPID SLOPE cross-slope sensor for LEVEL PRO ACTIVE leveling system
- Precise machine height adjustment in increments of 1 or 5 mm via the machine's main control panel
- Digital load control, can be engaged manually, hydraulic differential lock (via flow divider)

**OPERATOR'S PLATFORM**

- Hydraulically extendable operator's platform for optimum view of the working area
- Steering console with adjustable rake and reach for ideal adaptation of the operator's platform to the operator
- Slender machine design permits unobstructed view of the milled edge as well as the working area in front of the milling drum on the right
- Conveniently accessible ladder/footstep to the operator's platform with night-time lighting and especially low bottom edge of the latter/footstep
- Robust anti-vandalism protection for the controls
- Mirror package consisting of front left and right rear-view mirrors and a forward-facing mirror to the left of the operator's platform
- Reversing horn with clearly audible signal
- Illuminated control panel / nighttime design
- Scraper height indicator on control panel

**TRACK UNIT AND HEIGHT ADJUSTMENT**

- Dual-speed hydraulic height adjustment of front and rear track units

**MISCELLANEOUS**

- Large tool package
- Towing device
- Generously sized water and diesel tanks

- Comprehensive safety package with several EMERGENCY STOP switches
- Pre-fitting for installing the WITOS FleetView control unit
- European type certification, EuroTest mark and CE conformity

**List price ex subsidiary Wirtgen America**

**USD**

**646,778.00**

#### **Mandatory Options**

##### **Crawler units**

Configuration with 4 driven track units. The two front track units are steered. The track unit at the rear right is hydraulically slewing and also steers. Traveling speed max. 3.6 mph / 5.8 km/h.

**Standard**

**2777141**

**USD**

**0.00**

##### **Milling drum housing**

Wear-resistant milling drum housing FB1200 (3 ft 11 in) FCS, with pre-fitting for quick and easy milling drum change, without milling drum

**Standard**

**2336168**

**USD**

**0.00**

##### **Milling drums / milling units**

FCS milling drum with milling width 1200 mm / 3 ft / 11 in, tool spacing 15 mm / 19/32 in, equipped with quick-change toolholder system HT22 and 109 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.

**Standard**

**2308142**

**USD**

**0.00**

#### **OPERATOR'S PLATFORM**

Standard operator's seat with shock absorption and lengthways adjustment

**Standard**

**2412488**

**USD**

**0.00**

Comfort operator's seat incl. seat heating. The operator's seat has shock absorption, lengthways adjustment and can be swiveled through a total of 50 degrees.

**Option**

**2412489**

**USD**

**1,306.00**

##### **Hydraulic connection**

Machine with hydraulic pre-fitting for a discharge conveyor with screw coupling. Each contains the coupling element on the machine side and the discharge conveyor side.

**Standard**

**2412477**

**USD**

**0.00**

##### **Material transport**

Discharge conveyor 26 ft 9 in / 8,150 mm long with conveyor belt width 2 ft / 600 mm and hydraulic folding device for shortening the transport length or simplified maneuvering in narrow fields.

**Standard**

**2336175**

**USD**

**0.00**

<b>Paint</b>				
Film coating in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7019	Standard	2863387	USD	0.00
The film coating is applied in RAL colors and design according to the customer's wishes. Film coating provides protection against mechanical and weather-related damage and can be removed without leaving any marks, if required	Option	2863414	USD	1,482.00
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	Standard	2456347	USD	0.00
<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	Standard	2770403	USD	0.00
<b>Machine lighting</b>				
Lighting system consisting of 4 halogen and 8 LED working lights. The headlights illuminate the area in front of the machine, both machine sides, the area in front of the milling drum unit, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 19,500 lumen in total.	Standard	2487614	USD	0.00
High-performance lighting system consisting of 1 halogen and 14 LED working lights. The headlights illuminate the area in front of and behind the machine, both machine sides, the area in front of the milling drum unit, the loading area, the weather canopy, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 26,300 lumen in total. LED working lights are extremely bright, shock-resistant and durable.	Option	2487615	USD	1,056.00

Equipment Options				
<b>Exhaust air filter</b>				
VCS – vacuum cutting system on the discharge conveyor for the extraction of fine material particles and water vapor from the sealed milling drum unit.	Option	2336913	USD	9,302.00
<b>Advance drive</b>				
Equipment of the machine with precision steering. Pushbuttons on the multi-function armrests with a proportional response permit more precise steering of the machine.	Standard	2478488	USD	0.00
<b>Equipment operator's platform</b>				
Operator's platform with weather canopy. The weather canopy is hydraulically adjustable in height and provides additional comfort during on-site operation. Including LED working light for illuminating the footstep. (Only in conjunction with electrohydraulic unit.)	Option	2336173	USD	9,185.00
<b>Milling drum assembly options</b>				
Active floating position on the side plate right and left by continuous comparison between the milling depth and position of the side plate. If required, the side plate is lifted briefly to prevent tilting or sinking into a soft sub-base. (Only possible in conjunction with LEVEL PRO PLUS.)	Standard	2478486	USD	0.00
<b>Additional milling units</b>				
FCS tandem scraper FB1200 (3 ft 11 in) with necessary hydraulic and electrical systems. For the use of milling drums smaller than FB1200 (3 ft 11 in). The min. milling width for material loading onto the loading belt is FB750	Standard	2351465	USD	0.00
FCS milling unit FB300 (12") LA15, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 61 RS picks, including scraper bottom part FB300 (12")	Option	2308611	USD	16,873.00
FCS milling unit FB600 (24") LA12, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 79 picks, including scraper bottom part FB600 (24")	Option	2308615	USD	27,290.00
FCS milling unit FB900 (2 ft 11 in) LA15, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 102 RS picks, including scraper bottom part FB900 (2 ft 11 in)	Option	2308616	USD	42,651.00
<b>Cold-start device</b>				
Electrical preheating of the fuel filter to maintain the flow of fuel at low outside temperatures. Serves to guarantee machine operation at temperatures below 0 32 degrees Fahrenheit (0 degrees Celsius).	Option	2377357	USD	836.00

<b>Options for belt conveyor</b>				
Signal lights for visual "stop" and "go" instructions for the truck driver without the use of a horn. The signal lights can be folded in hydraulically from the operator's platform.	Option	2409818	USD	7,204.00
<b>Leveling</b>				
Expansion of the LEVEL PRO PLUS leveling system by a SONIC SKI sensor. Ideal for contact-free wire and soil scanning. Including connection cable and holder.	Option	2352878	USD	6,456.00
<b>Leveling</b>				
Expansion of the leveling system for multiplex system package 3-way right, including 2 x ultrasonic sensors, and connection cable. (FB1000/1200)	Option	2544246	USD	4,622.00
Expansion of the leveling system to make multiplex system package 3-way right and 3-way left, including 4 x ultrasonic sensors and connection cable. (FB1000/1200)	Option	2544249	USD	9,243.00
<b>Attachments</b>				
Battery-operated electro-hydraulic unit for operation of the machine hydraulics with the diesel engine switched off. (e.g. height adjustment of weather canopy, milling drum rotation device and hydraulic pick extractor drift)	Standard	2412494	USD	0.00
<b>Water system</b>				
Hydraulically operated high-pressure water cleaner with a maximum performance of 15 l/min at 150 bar pressure. Ideal for daily cleaning of the machine.	Option	2336231	USD	4,402.00
<b>Pick changing aids</b>				
Milling drum rotation device with electrohydraulic milling drum drive for slowly turning the milling drum during pick replacement.	Standard	2352893	USD	0.00
<b>Wirtgen information and diagnostic system</b>				
Equipment of the machine with job data acquisition. The information is shown in the control display.	Standard	2410294	USD	0.00
<b>Camera system</b>				
Monitor system as maneuvering aid with 2 cameras and screen. A camera is mounted on the discharge conveyor and displays the loading of the truck. The 2nd camera shows the area in front of the milling drum housing. The camera images are displayed on the screen.	Option	2487637	USD	6,192.00
<b>Other devices</b>				
License plate holder with LED lighting to comply with country-specific regulations.	Option	2659037	USD	499.00
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	Option		USD	88.00
Spare part and application documentation English (EN)	Option		USD	15.00

## Price list

# W 120 Xfi - Non FCS

### Scope of supply – basic machine

- Engine: 6-CYLINDER DIESEL ENGINE TYPE CUMMINS QSL9 C-300
- Rated engine power 2100 r.p.m.: 248 kW / 333 HP / 337 PS
- Maximum power at 1900 r.p.m.: 257 kW / 345 HP / 350 PS
- Exhaust standard: US EPA Tier 4f
- Standard milling width: 3 ft 11 in / 1200 mm
- Theoretical milling depth: 1 ft 1 in / 330 mm

### STANDARD EQUIPMENT

- Base machine with engine
- Mechanically opening engine hood with noise insulation
- Radiator with temperature-dependent fan speed
- Highly effective noise insulation throughout the engine compartment
- Automatic engine speed adjustment depending on machine load
- Elastically mounted engine station with low vibration and low noise

### MILLING DRUM HOUSING

- The right-hand side of the milling drum housing can be easily opened for maintenance or drum change
- Hydraulically operated rear scraper with mechanical locking

### LOADING OF MILLED MATERIAL

- Discharge conveyor swing angle: 60 degrees left – 60 degrees right
- Hydraulically foldable discharge conveyor with two swing speeds, including adjustable conveyor speed for precise loading

### MACHINE CONTROL AND LEVELLING SYSTEM

- Digital milling depth indicator on machine control panel
- LEVEL PRO PLUS leveling system right and left
- RAPID SLOPE cross-slope sensor for LEVEL PRO ACTIVE leveling system
- Precise machine height adjustment in increments of 1 or 5 mm via the machine's main control panel
- Digital load control, can be engaged manually, hydraulic differential lock (via flow divider)

### OPERATOR'S PLATFORM

- Hydraulically extendable operator's platform for optimum view of the working area
- Steering console with adjustable rake and reach for ideal adaptation of the operator's platform to the operator
- Slender machine design permits unobstructed view of the milled edge as well as the working area in front of the milling drum on the right
- Conveniently accessible ladder/footstep to the operator's platform with night-time lighting and especially low bottom edge of the latter/footstep
- Robust anti-vandalism protection for the controls
- Mirror package consisting of front left and right rear-view mirrors and a forward-facing mirror to the left of the operator's platform
- Reversing horn with clearly audible signal
- Illuminated control panel / nighttime design
- Scraper height indicator on control panel

### TRACK UNIT AND HEIGHT ADJUSTMENT

- Dual-speed hydraulic height adjustment of front and rear track units

### MISCELLANEOUS

- Large tool package
- Towing device
- Generously sized water and diesel tanks

- Comprehensive safety package with several EMERGENCY STOP switches
- Pre-fitting for installing the WITOS FleetView control unit
- European type certification, EuroTest mark and CE conformity

**List price ex subsidiary Wirtgen America** **USD** **624,051.00**

#### Mandatory Options

##### Crawler units

Configuration with 4 driven track units. The two front track units are steered. The track unit at the rear right is hydraulically slewing and also steers. Traveling speed max. 3.6 mph / 5.8 km/h.	<b>Standard</b>	<b>2777141</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

##### Milling drum housing

Wear-resistant milling drum housing FB1200 (3 ft 11 in) without milling drum	<b>Standard</b>	<b>2336167</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

##### Milling drums / milling units

Milling drum with milling width 1200 mm / 3 ft / 11 in, tool spacing 15 mm / 19/32 in, equipped with quick-change toolholder system HT22 and 115 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.	<b>Standard</b>	<b>2308578</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

#### OPERATOR'S PLATFORM

Standard operator's seat with shock absorption and lengthways adjustment	<b>Standard</b>	<b>2412488</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

Comfort operator's seat incl. seat heating. The operator's seat has shock absorption, lengthways adjustment and can be swiveled through a total of 50 degrees.	<b>Option</b>	<b>2412489</b>	<b>USD</b>	<b>1,306.00</b>
--	---------------	----------------	------------	-----------------

##### Hydraulic connection

Machine with hydraulic pre-fitting for a discharge conveyor with screw coupling. Each contains the coupling element on the machine side and the discharge conveyor side.	<b>Standard</b>	<b>2412477</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

##### Material transport

Discharge conveyor 26 ft 9 in / 8,150 mm long with conveyor belt width 2 ft / 600 mm and hydraulic folding device for shortening the transport length or simplified maneuvering in narrow fields.	<b>Standard</b>	<b>2336175</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

##### Paint

Film coating in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7019	Standard	2863387	USD	0.00
The film coating is applied in RAL colors and design according to the customer's wishes. Film coating provides protection against mechanical and weather-related damage and can be removed without leaving any marks, if required	Option	2863414	USD	1,482.00
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	Standard	2456347	USD	0.00
<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	Standard	2770403	USD	0.00
<b>Machine lighting</b>				
Lighting system consisting of 4 halogen and 8 LED working lights. The headlights illuminate the area in front of the machine, both machine sides, the area in front of the milling drum unit, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 19,500 lumen in total.	Standard	2487614	USD	0.00
High-performance lighting system consisting of 1 halogen and 14 LED working lights. The headlights illuminate the area in front of and behind the machine, both machine sides, the area in front of the milling drum unit, the loading area, the weather canopy, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 26,300 lumen in total. LED working lights are extremely bright, shock-resistant and durable.	Option	2487615	USD	1,056.00
<b>Equipment Options</b>				
<b>Exhaust air filter</b>				
VCS – vacuum cutting system on the discharge conveyor for the extraction of fine material particles and water vapor from the sealed milling drum unit.	Option	2336913	USD	9,302.00
<b>Advance drive</b>				
Equipment of the machine with precision steering. Pushbuttons on the multi-function armrests with a proportional response permit more precise steering of the machine.	Standard	2478488	USD	0.00

<b>Equipment operator's platform</b>				
Operator's platform with weather canopy. The weather canopy is hydraulically adjustable in height and provides additional comfort during on-site operation. Including LED working light for illuminating the footstep. (Only in conjunction with electrohydraulic unit.)	Option	2336173	USD	9,185.00
<b>Milling drum assembly options</b>				
Active floating position on the side plate right and left by continuous comparison between the milling depth and position of the side plate. If required, the side plate is lifted briefly to prevent tilting or sinking into a soft sub-base. (Only possible in conjunction with LEVEL PRO PLUS.)	Standard	2478486	USD	0.00
<b>Cold-start device</b>				
Electrical preheating of the fuel filter to maintain the flow of fuel at low outside temperatures. Serves to guarantee machine operation at temperatures below 0 32 degrees Fahrenheit (0 degrees Celsius).	Option	2377357	USD	836.00
<b>Options for belt conveyor</b>				
Signal lights for visual "stop" and "go" instructions for the truck driver without the use of a horn. The signal lights can be folded in hydraulically from the operator's platform.	Option	2409818	USD	7,204.00
<b>Leveling</b>				
Expansion of the LEVEL PRO PLUS leveling system by a SONIC SKI sensor. Ideal for contact-free wire and soil scanning. Including connection cable and holder.	Option	2352878	USD	6,456.00
<b>Leveling</b>				
Expansion of the leveling system for multiplex system package 3-way right, including 2 x ultrasonic sensors, and connection cable. (FB1000/1200)	Option	2544246	USD	4,622.00
Expansion of the leveling system to make multiplex system package 3-way right and 3-way left, including 4 x ultrasonic sensors and connection cable. (FB1000/1200)	Option	2544249	USD	9,243.00
<b>Attachments</b>				
Battery-operated electro-hydraulic unit for operation of the machine hydraulics with the diesel engine switched off. (e.g. height adjustment of weather canopy, milling drum rotation device and hydraulic pick extractor drift)	Standard	2412494	USD	0.00
<b>Water system</b>				
Hydraulically operated high-pressure water cleaner with a maximum performance of 15 l/min at 150 bar pressure. Ideal for daily cleaning of the machine.	Option	2336231	USD	4,402.00

<b>Pick changing aids</b>				
Milling drum rotation device with electrohydraulic milling drum drive for slowly turning the milling drum during pick replacement.	Standard	2352893	USD	0.00
<b>Wirtgen information and diagnostic system</b>				
Equipment of the machine with job data acquisition. The information is shown in the control display.	Standard	2410294	USD	0.00
<b>Camera system</b>				
Monitor system as maneuvering aid with 2 cameras and screen. A camera is mounted on the discharge conveyor and displays the loading of the truck. The 2nd camera shows the area in front of the milling drum housing. The camera images are displayed on the screen.	Option	2487637	USD	6,192.00

The film coating is applied in RAL colors and design according to the customer's wishes. Film coating provides protection against mechanical and weather-related damage and can be removed without leaving any marks, if required	<b>Option</b>	<b>2863420</b>	<b>USD</b>	<b>1,482.00</b>
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	<b>Standard</b>	<b>2456347</b>	<b>USD</b>	<b>0.00</b>
<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	<b>Standard</b>	<b>2770403</b>	<b>USD</b>	<b>0.00</b>
<b>Machine lighting</b>				
Lighting system consisting of 4 halogen and 8 LED working lights. The headlights illuminate the area in front of the machine, both machine sides, the area in front of the milling drum unit, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 19,500 lumen in total.	<b>Standard</b>	<b>2487614</b>	<b>USD</b>	<b>0.00</b>
High-performance lighting system consisting of 1 halogen and 14 LED working lights. The headlights illuminate the area in front of and behind the machine, both machine sides, the area in front of the milling drum unit, the loading area, the weather canopy, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 26,300 lumen in total. LED working lights are extremely bright, shock-resistant and durable.	<b>Option</b>	<b>2487615</b>	<b>USD</b>	<b>1,056.00</b>
<b>Equipment Options</b>				
<b>Exhaust air filter</b>				
VCS – vacuum cutting system on the discharge conveyor for the extraction of fine material particles and water vapor from the sealed milling drum unit.	<b>Option</b>	<b>2336913</b>	<b>USD</b>	<b>9,302.00</b>
<b>Advance drive</b>				
Equipment of the machine with precision steering. Pushbuttons on the multi-function armrests with a proportional response permit more precise steering of the machine.	<b>Standard</b>	<b>2478488</b>	<b>USD</b>	<b>0.00</b>

<b>Equipment operator's platform</b>				
Operator's platform with weather canopy. The weather canopy is hydraulically adjustable in height and provides additional comfort during on-site operation. Including LED working light for illuminating the footstep. (Only in conjunction with electrohydraulic unit.)	<b>Option</b>	<b>2336173</b>	<b>USD</b>	<b>9,185.00</b>
<b>Milling drum assembly options</b>				
Active floating position on the side plate right and left by continuous comparison between the milling depth and position of the side plate. If required, the side plate is lifted briefly to prevent tilting or sinking into a soft sub-base. (Only possible in conjunction with LEVEL PRO PLUS.)	<b>Standard</b>	<b>2478486</b>	<b>USD</b>	<b>0.00</b>
<b>Additional milling units</b>				
FCS tandem scraper FB1300 (4 ft 3 in) with necessary hydraulic and electrical systems. For the use of milling drums smaller than FB1300 (4 ft 3 in). The min. milling width for material loading onto the loading belt is FB750	<b>Standard</b>	<b>2351477</b>	<b>USD</b>	<b>0.00</b>
FCS milling unit FB300 (12") LA15, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 61 RS picks, including scraper bottom part FB300 (12")	<b>Option</b>	<b>2308611</b>	<b>USD</b>	<b>16,873.00</b>
FCS milling unit FB600 (24") LA12, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 79 picks, including scraper bottom part FB600 (24")	<b>Option</b>	<b>2308615</b>	<b>USD</b>	<b>27,290.00</b>
FCS milling unit FB900 (2 ft 11 in) LA15, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 102 RS picks, including scraper bottom part FB900 (2 ft 11 in)	<b>Option</b>	<b>2308621</b>	<b>USD</b>	<b>42,651.00</b>
<b>Cold-start device</b>				
Electrical preheating of the fuel filter to maintain the flow of fuel at low outside temperatures. Serves to guarantee machine operation at temperatures below 0 32 degrees Fahrenheit (0 degrees Celsius).	<b>Option</b>	<b>2377357</b>	<b>USD</b>	<b>836.00</b>
<b>Options for belt conveyor</b>				
Signal lights for visual "stop" and "go" instructions for the truck driver without the use of a horn. The signal lights can be folded in hydraulically from the operator's platform.	<b>Option</b>	<b>2409818</b>	<b>USD</b>	<b>7,204.00</b>
<b>Leveling</b>				
Expansion of the LEVEL PRO PLUS leveling system by a SONIC SKI sensor. Ideal for contact-free wire and soil scanning. Including connection cable and holder.	<b>Option</b>	<b>2352878</b>	<b>USD</b>	<b>6,456.00</b>

<b>Leveling</b>				
Expansion of the leveling system for multiplex system package 3-way right, including 2 x ultrasonic sensors, and connection cable. (FB1000/1200)	Option	2544246	USD	4,622.00
Expansion of the leveling system to make multiplex system package 3-way right and 3-way left, including 4 x ultrasonic sensors and connection cable. (FB1000/1200)	Option	2544249	USD	9,243.00
<b>Attachments</b>				
Battery-operated electro-hydraulic unit for operation of the machine hydraulics with the diesel engine switched off. (e.g. height adjustment of weather canopy, milling drum rotation device and hydraulic pick extractor drift)	Standard	2412494	USD	0.00
<b>Water system</b>				
Hydraulically operated high-pressure water cleaner with a maximum performance of 15 l/min at 150 bar pressure. Ideal for daily cleaning of the machine.	Option	2336231	USD	4,402.00
<b>Pick changing aids</b>				
Milling drum rotation device with electrohydraulic milling drum drive for slowly turning the milling drum during pick replacement.	Standard	2352893	USD	0.00
<b>Wirtgen information and diagnostic system</b>				
Equipment of the machine with job data acquisition. The information is shown in the control display.	Standard	2410294	USD	0.00
<b>Camera system</b>				
Monitor system as maneuvering aid with 2 cameras and screen. A camera is mounted on the discharge conveyor and displays the loading of the truck. The 2nd camera shows the area in front of the milling drum housing. The camera images are displayed on the screen.	Option	2487637	USD	6,192.00
<b>Other devices</b>				
License plate holder with LED lighting to comply with country-specific regulations.	Option	2659037	USD	499.00
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	Option		USD	88.00
Spare part and application documentation English (EN)	Option		USD	15.00

**Price list****W 130 Xfi - Non FCS****Scope of supply – basic machine**

- Engine: 6-CYLINDER DIESEL ENGINE TYPE CUMMINS QSL9 C-300
- Rated engine power 2100 r.p.m.: 248 kW / 333 HP / 337 PS
- Maximum power at 1900 r.p.m.: 257 kW / 345 HP / 350 PS
- Exhaust standard: US EPA Tier 4f
- Standard milling width: 4 ft 3 in / 1300 mm
- Theoretical milling depth: 1 ft 1 in / 330 mm

**STANDARD EQUIPMENT**

- Base machine with engine
- Mechanically opening engine hood with noise insulation
- Radiator with temperature-dependent fan speed
- Highly effective noise insulation throughout the engine compartment
- Automatic engine speed adjustment depending on machine load
- Elastically mounted engine station with low vibration and low noise

**MILLING DRUM HOUSING**

- The right-hand side of the milling drum housing can be easily opened for maintenance or drum change
- Hydraulically operated rear scraper with mechanical locking

**LOADING OF MILLED MATERIAL**

- Discharge conveyor swing angle: 60 degrees left – 60 degrees right
- Hydraulically foldable discharge conveyor with two swing speeds, including adjustable conveyor speed for precise loading

**MACHINE CONTROL AND LEVELLING SYSTEM**

- Digital milling depth indicator on machine control panel
- LEVEL PRO PLUS leveling system right and left
- RAPID SLOPE cross-slope sensor for LEVEL PRO ACTIVE leveling system
- Precise machine height adjustment in increments of 1 or 5 mm via the machine's main control panel
- Digital load control, can be engaged manually, hydraulic differential lock (via flow divider)

**OPERATOR'S PLATFORM**

- Hydraulically extendable operator's platform for optimum view of the working area
- Steering console with adjustable rake and reach for ideal adaptation of the operator's platform to the operator
- Slender machine design permits unobstructed view of the milled edge as well as the working area in front of the milling drum on the right
- Conveniently accessible ladder/footstep to the operator's platform with night-time lighting and especially low bottom edge of the latter/footstep
- Robust anti-vandalism protection for the controls
- Mirror package consisting of front left and right rear-view mirrors and a forward-facing mirror to the left of the operator's platform
- Reversing horn with clearly audible signal
- Illuminated control panel / nighttime design
- Scraper height indicator on control panel

**TRACK UNIT AND HEIGHT ADJUSTMENT**

- Dual-speed hydraulic height adjustment of front and rear track units

**MISCELLANEOUS**

- Large tool package
- Towing device

- Generously sized water and diesel tanks
- Comprehensive safety package with several EMERGENCY STOP switches
- Pre-fitting for installing the WITOS FleetView control unit
- European type certification, EuroTest mark and CE conformity

**List price ex subsidiary Wirtgen America**

**USD**

**641,070.00**

#### **Mandatory Options**

##### **Crawler units**

Configuration with 4 driven track units. The two front track units are steered. The track unit at the rear right is hydraulically slewing and also steers. Traveling speed max. 3.6 mph / 5.8 km/h.

**Standard**

**2861692**

**USD**

**0.00**

##### **Milling drum housing**

Wear-resistant milling drum housing FB1300 (4 ft 3 in) without milling drum

**Standard**

**2336169**

**USD**

**0.00**

##### **Milling drums / milling units**

Milling drum with milling width 1300 / 4 ft / 3 in, tool spacing 15 mm / 19/32 in, equipped with quick-change toolholder system HT22 and 121 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.

**Standard**

**2308581**

**USD**

**0.00**

##### **OPERATOR'S PLATFORM**

Standard operator's seat with shock absorption and lengthways adjustment

**Standard**

**2412488**

**USD**

**0.00**

##### **Hydraulic connection**

Machine with hydraulic pre-fitting for a discharge conveyor with screw coupling. Each contains the coupling element on the machine side and the discharge conveyor side.

**Standard**

**2412477**

**USD**

**0.00**

##### **Material transport**

Discharge conveyor 26 ft 9 in / 8,150 mm long with conveyor belt width 2 ft / 600 mm and hydraulic folding device for shortening the transport length or simplified maneuvering in narrow fields.

**Standard**

**2336175**

**USD**

**0.00**

##### **Paint**

Film coating in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7019	Standard	2863419	USD	0.00
The film coating is applied in RAL colors and design according to the customer's wishes. Film coating provides protection against mechanical and weather-related damage and can be removed without leaving any marks, if required	Option	2863420	USD	1,482.00
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	Standard	2456347	USD	0.00
<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	Standard	2770403	USD	0.00
<b>Machine lighting</b>				
Lighting system consisting of 4 halogen and 8 LED working lights. The headlights illuminate the area in front of the machine, both machine sides, the area in front of the milling drum unit, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 19,500 lumen in total.	Standard	2487614	USD	0.00
High-performance lighting system consisting of 1 halogen and 14 LED working lights. The headlights illuminate the area in front of and behind the machine, both machine sides, the area in front of the milling drum unit, the loading area, the weather canopy, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 26,300 lumen in total. LED working lights are extremely bright, shock-resistant and durable.	Option	2487615	USD	1,056.00
<b>Equipment Options</b>				
<b>Exhaust air filter</b>				
VCS – vacuum cutting system on the discharge conveyor for the extraction of fine material particles and water vapor from the sealed milling drum unit.	Option	2336913	USD	9,302.00
<b>Advance drive</b>				
Equipment of the machine with precision steering. Pushbuttons on the multi-function armrests with a proportional response permit more precise steering of the machine.	Standard	2478488	USD	0.00

<b>Equipment operator's platform</b>				
Operator's platform with weather canopy. The weather canopy is hydraulically adjustable in height and provides additional comfort during on-site operation. Including LED working light for illuminating the footstep. (Only in conjunction with electrohydraulic unit.)	Option	2336173	USD	9,185.00
<b>Milling drum assembly options</b>				
Active floating position on the side plate right and left by continuous comparison between the milling depth and position of the side plate. ## Price list

### W 150 Xfi - 1200mm

#### Scope of supply – basic machine

- Engine: 6-CYLINDER DIESEL ENGINE: CUMMINS QSL 9 C-380 AG4f
- Rated engine power 2100 r.p.m.: 283 kW / 380 HP / 385 PS
- Maximum power at 1900 r.p.m.: 298 kW / 400 HP / 405 PS
- Exhaust standard: US EPA Tier 4f
- Standard milling width: 4ft 11 in / 1,500 mm
- Theoretical milling depth: 1 ft 1 in / 330 mm

#### STANDARD EQUIPMENT

- Base machine with engine
- Machine chassis with wasp waist on the right side (zero edge)
- Electrohydraulically opening engine cowling
- Radiator with temperature-dependent fan speed
- Additional control switch for scraper blade, bottom right
- Elastically mounted engine station with low vibration and low noise
- Three milling drum rotation speeds with electric on/off function 106 r.p.m. - 96 r.p.m. - 86 r.p.m.
- Air compressor system

#### MILLING DRUM HOUSING

- The right-hand side of the milling drum housing can be easily opened for maintenance or drum change
- Hydraulic material depressor with conveyor lifting function
- Hydraulically opening scraper plate with convenience locking
- Exchangeable wearing segments on the side plate

#### LOADING OF MILLED MATERIAL

- Discharge conveyor slewing angle left 60 degrees - right 60 degrees
- Hydraulically foldable discharge conveyor with two swing speeds, including adjustable conveyor speed for precise loading

#### MACHINE CONTROL AND LEVELLING SYSTEM

- LEVEL PRO PLUS leveling system right and left
- RAPID SLOPE cross-slope sensor for LEVEL PRO ACTIVE leveling system
- Jog mode for height adjustment
- Load-dependent advance control
- 4-track drive with manually activated, electronic anti-slip control
- 4 selectable steering modes
- Automatic water management
- Automatic engine speed control

#### OPERATOR'S PLATFORM

- Convenient control panel with practical switches
- Multi-function armrest including color operating display for one-handed operation of most machine functions.
- Digital multi-function display for all important operating conditions
- Scraper height indicator on control panel
- Operating panel nighttime lighting
- Robust anti-vandalism protection for the controls
- Adjustable steering wheel position
- Optimally positionable operator's seat

- Footstep right and left with conveniently folding ladder
- Two mirrors front, one mirror middle and one mirror in rear area of the machine

#### TRACK UNIT AND HEIGHT ADJUSTMENT

- Fourfold full-floating axle for high machine stability
- PTS – automatic alignment of the machine parallel to the pavement surface
- ISC – intelligent track speed control including hydraulic four-track drive
- Reversing with the milling drum rotating. Simple and fast maneuvering
- Equipped with extremely wear-resistant 2-piece polyurethane track pads

#### MISCELLANEOUS

- Large tool package
- Generously sized water and diesel tanks
- Total of 3 EMERGENCY STOP switches at sensible positions on the machine
- "Welcome" and "Go home" lights feature including LED lighting in the area of the operator's platform and access
- Pre-fitting for installing the WITOS FleetView control unit
- European type certification, EuroTest mark and CE conformity

<b>List price ex subsidiary Wirtgen America</b>	<b>USD</b>	<b>693,889.00</b>
---	------------	-------------------

#### Mandatory Options

##### Milling drum housing

Wear-resistant milling drum housing FB1500 (4 ft 11 in), with pre-fitting enabling a quick and easy change of the milling drums with varying spacings and milling widths, without milling drum.	Standard	2400857	USD	0.00
---	----------	---------	-----	------

##### Milling drums / milling units

FCS milling unit FB1200 (3 ft 11 in) LA15, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 109 picks, including scraper bottom part FB1200 (3 ft 11 in)	Standard	2409827	USD	0.00
--	----------	---------	-----	------

##### OPERATOR'S PLATFORM

Standard operator's seat with shock absorption and lengthways adjustment	Standard	2412488	USD	0.00
--	----------	---------	-----	------

##### Hydraulic connection

Machine with hydraulic pre-fitting for a discharge conveyor with screw coupling. Each contains the coupling element on the machine side and the discharge conveyor side.	Standard	2412477	USD	0.00
--	----------	---------	-----	------

##### Material transport

Discharge conveyor 26 ft 9 in / 8,150 mm long with conveyor belt width 2 ft / 600 mm and hydraulic folding device for shortening the transport length or simplified maneuvering in narrow fields.	Standard	2336175	USD	0.00
---	----------	---------	-----	------

<b>Paint</b>				
Film coating in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7019	Standard	2863424	USD	0.00
The film coating is applied in RAL colors and design according to the customer's wishes. Film coating provides protection against mechanical and weather-related damage and can be removed without leaving any marks, if required	Option	2863426	USD	1,482.00
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	Standard	2456347	USD	0.00
<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	Standard	2770403	USD	0.00
<b>Machine lighting</b>				
Lighting system consisting of 8 halogen and 6 LED working lights. The headlights illuminate the area in front of and behind the machine, both machine sides, the area in front of the milling drum unit and on the chassis unit, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 21,100 lumens in total.	Standard	2450350	USD	0.00
High-performance lighting system consisting of 1 halogen and 17 LED working lights. The headlights illuminate the area in front of and behind the machine, both machine sides, the area in front of the milling drum unit and on the chassis unit, the area of the wasp waist, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 29,900 lumens in total. LED working lights are extremely bright, shock-resistant and durable.	Option	2450351	USD	2,362.00

<b>Additional devices</b>				
Battery-operated electrohydraulic unit. Weather canopy and engine cover can be lifted with the hydraulic unit.	Standard	2400778	USD	0.00
Battery-operated electrohydraulic unit for milling drum rotation device and hydraulic pick ejector. Weather canopy and engine cover can be lifted with the hydraulic unit. Furthermore, emergency functions such as raising the crawler units, releasing the parking brake, and other cylinder functions can be operated even when the engine is switched off.	Option	2400779	USD	1,951.00
<b>Equipment Options</b>				
<b>Exhaust air filter</b>				
VCS – vacuum cutting system on the discharge conveyor for the extraction of fine material particles and water vapor from the sealed milling drum unit.	Option	2441379	USD	9,302.00
<b>Advance drive</b>				
Equipment of the machine with precision steering. Pushbuttons on the multi-function armrests with a proportional response permit more precise steering of the machine.	Standard	2400798	USD	0.00
<b>Equipment operator's platform</b>				
Operator's platform equipped with weather canopy as well as windscreen and rear window. The side parts of the roof shell can be pulled out and the windows are movable. The complete roof can be folded in electro-hydraulically using a battery operated hydraulic pump for simplified machine transport. In addition, operation with a hand pump is possible. The operator's seat is surrounded by impact and abrasion-resistant Plexiglas panels.	Option	2400795	USD	14,833.00
Additional control unit for ground operation of the machine. Enables the ground crew to control important machine functions on the left side of the machine additionally.	Standard	2400803	USD	0.00
Heating with fan and air outlet openings in the footwell of the operator's platform.	Option	2400791	USD	1,467.00
<b>Milling drum assembly options</b>				
Overload sensor on the scraper for automatic lifting function in case of obstacles. Effectively prevents the scraper from sinking into the loose sub-base, as well as getting stuck on obstacles.	Standard	2483584	USD	0.00
<b>Device for milling drum change</b>				
Milling drum assembly trolley for milling drums up to FB1500 (4 ft 11 in), for straightforward milling drum change	Option	2125929	USD	5,693.00
<b>Additional milling units</b>				
FCS milling unit FB600 (24") LA12, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 79 picks, including scraper bottom part FB600 (24")	Option	2417852	USD	29,769.00
FCS milling unit FB900 (2 ft 11 in) LA15, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 102 RS picks, including scraper bottom part FB900 (2 ft 11 in)	Option	2417854	USD	35,212.00

FCS milling unit FB1200 (3 ft 11 in) LA15, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 109 picks, including scraper bottom part FB1200 (3 ft 11 in)	Option	2409827	USD	40,832.00
<b>Cold-start device</b>				
Electrical preheating of the fuel filter to maintain the flow of fuel at low outside temperatures. Serves to guarantee machine operation at temperatures below 0 32 degrees Fahrenheit (0 degrees Celsius).	Option	2400772	USD	836.00
<b>Options for belt conveyor</b>				
Signal lights for visual "stop" and "go" instructions for the truck driver without the use of a horn. The signal lights can be folded in hydraulically from the operator's platform.	Option	2458620	USD	7,204.00
<b>Leveling</b>				
Expansion of the LEVEL PRO PLUS leveling system by a SONIC SKI sensor. Ideal for contact-free wire and soil scanning. Including connection cable and holder.	Option	2410276	USD	6,368.00
<b>Leveling</b>				
Expansion of the leveling system for scanning the surface in front of the milling drum unit. A ski in a mobile mounting scans the height using a position measuring system. The surface shortly ahead of the milling drum unit can thus be taken as a reference if scanning using the side plate is not possible. The scanning can be hydraulically activated from the operator's seat.	Standard	2400801	USD	0.00
<b>Additional control unit LEVEL PRO</b>				
Expansion LEVEL PRO PLUS with an additional operating display, including required connection cable and holder.	Option	2400802	USD	3,125.00
<b>Leveling</b>				
Multiplex pre-fitting comprising 4 sensor sockets and holder for expanding the leveling system with one or two multiplex systems. Permits trouble-free connection of at most 2 multiplex sensors per machine side at a later point.	Option	2459795	USD	1,541.00
Expansion of the leveling system for multiplex system package 3-way right, including 2 x ultrasonic sensors, and connection cable.	Option	2410282	USD	4,108.00
Expansion of the leveling system to make multiplex system package 3-way right and 3-way left, including 4 x ultrasonic sensors and connection cable.	Option	2410283	USD	8,216.00
<b>Water system</b>				
Hydraulically operated high-pressure water cleaner with a maximum performance of 15 l/min / 3 gall 8 pt/min at 150 bar / 2175 psi pressure. Ideal for daily cleaning of the machine, including high pressure lance and 15 m / 50 ft hose.	Option	2438190	USD	2,744.00

<b>Pick changing aids</b>				
Milling drum rotation device with electrohydraulic milling drum drive for slowly turning the milling drum during pick replacement.	Option	2410287	USD	3,301.00
Pneumatic hammer with two pick extractor and inserter tools each as well as 5 m / 16 ft 5 in hose and holder.	Standard	2400775	USD	0.00
Additional folding seat on the rear right chassis unit for additional comfort during the pick change. The entire milling drum can easily be reached from a sitting position.	Option	2411373	USD	1,056.00
<b>Wirtgen information and diagnostic system</b>				
The actual milling depth is measured by a differential method between sensors on the side plate and sensors on the scraper. The actual milling depth is displayed in the Info menu of the LEVEL PRO PLUS display.	Option	2410291	USD	1,144.00
Equipment of the machine with job data acquisition. The information is shown in the control display.	Option	2410294	USD	1,247.00
<b>Camera system</b>				
Monitor system as maneuvering aid with 2 cameras and screen. Each of these shows the area behind the machine as well as the area at the discharge conveyor.	Standard	2410296	USD	0.00
Monitor system as maneuvering aid with 5 cameras and 2 displays. The cameras show the area behind the machine, the area in front of the loading conveyor, the side plate, the track unit at the front left, the left milled edge, the left side of the machine and the milled surface behind the milling drum unit. 2 additional LED lamps illuminate the camera area and are included in the scope of supply.	In lieu of 2410296	2410297	USD	7,879.00
<b>Other devices</b>				
License plate holder with LED lighting to comply with country-specific regulations.	Option	2659026	USD	499.00
<b>Other devices</b>				
Large sized storage compartment for 10 pick containers on the rear of the machine instead of the standard storage compartment.	Option	2409814	USD	1,174.00
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	Option		USD	88.00
Spare part and application documentation English (EN)	Option		USD	15.00
Date: 11/23/2020				

**Price list****W 150 Xfi - 1500mm****Scope of supply – basic machine**

- Engine: 6-CYLINDER DIESEL ENGINE: CUMMINS QSL 9 C-380 AG4f
- Rated engine power 2100 r.p.m.: 283 kW / 380 HP / 385 PS
- Maximum power at 1900 r.p.m.: 298 kW / 400 HP / 405 PS
- Exhaust standard: US EPA Tier 4f
- Standard milling width: 4ft 11 in / 1,500 mm
- Theoretical milling depth: 1 ft 1 in / 330 mm

**STANDARD EQUIPMENT**

- Base machine with engine
- Machine chassis with wasp waist on the right side (zero edge)
- Electrohydraulically opening engine cowl
- Radiator with temperature-dependent fan speed
- Additional control switch for scraper blade, bottom right
- Elastically mounted engine station with low vibration and low noise
- Three milling drum rotation speeds with electric on/off function 106 r.p.m. - 96 r.p.m. - 86 r.p.m.
- Air compressor system

**MILLING DRUM HOUSING**

- The right-hand side of the milling drum housing can be easily opened for maintenance or drum change
- Hydraulic material depressor with conveyor lifting function
- Hydraulically opening scraper plate with convenience locking
- Exchangeable wearing segments on the side plate

**LOADING OF MILLED MATERIAL**

- Discharge conveyor slewing angle left 60 degrees - right 60 degrees
- Hydraulically foldable discharge conveyor with two swing speeds, including adjustable conveyor speed for precise loading

**MACHINE CONTROL AND LEVELLING SYSTEM**

- LEVEL PRO PLUS leveling system right and left
- RAPID SLOPE cross-slope sensor for LEVEL PRO ACTIVE leveling system
- Jog mode for height adjustment
- Load-dependent advance control
- 4-track drive with manually activated, electronic anti-slip control
- 4 selectable steering modes
- Automatic water management
- Automatic engine speed control

**OPERATOR'S PLATFORM**

- Convenient control panel with practical switches
- Multi-function armrest including color operating display for one-handed operation of most machine functions.
- Digital multi-function display for all important operating conditions
- Scraper height indicator on control panel
- Operating panel nighttime lighting
- Robust anti-vandalism protection for the controls
- Adjustable steering wheel position
- Optimally positionable operator's seat

- Footstep right and left with conveniently folding ladder
- Two mirrors front, one mirror middle and one mirror in rear area of the machine

#### TRACK UNIT AND HEIGHT ADJUSTMENT

- Fourfold full-floating axle for high machine stability
- PTS – automatic alignment of the machine parallel to the pavement surface
- ISC – intelligent track speed control including hydraulic four-track drive
- Reversing with the milling drum rotating. Simple and fast maneuvering
- Equipped with extremely wear-resistant 2-piece polyurethane track pads

#### MISCELLANEOUS

- Large tool package
- Generously sized water and diesel tanks
- Total of 3 EMERGENCY STOP switches at sensible positions on the machine
- "Welcome" and "Go home" lights feature including LED lighting in the area of the operator's platform and access
- Pre-fitting for installing the WITOS FleetView control unit
- European type certification, EuroTest mark and CE conformity

<b>List price ex subsidiary Wirtgen America</b>	<b>USD</b>	<b>693,639.00</b>
---	------------	-------------------

#### Mandatory Options

##### Milling drum housing

Wear-resistant milling drum housing FB1500 (4 ft 11 in), with pre-fitting enabling a quick and easy change of the milling drums with varying spacings and milling widths, without milling drum.	<b>Standard</b>	<b>2400857</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

##### Milling drums / milling units

FCS milling drum with milling width 1500 mm / 4 ft / 11 in, milling depth max. 330 mm / 1 ft 1 in, tool spacing 15 mm / 19/32 in, equipped with quick-change toolholder system HT22 and 136 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.	<b>Standard</b>	<b>2309317</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

##### OPERATOR'S PLATFORM

Standard operator's seat with shock absorption and lengthways adjustment	<b>Standard</b>	<b>2412488</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

##### Hydraulic connection

Machine with hydraulic pre-fitting for a discharge conveyor with screw coupling. Each contains the coupling element on the machine side and the discharge conveyor side.	<b>Standard</b>	<b>2412477</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

##### Material transport

Discharge conveyor 26 ft 9 in / 8,150 mm long with conveyor belt width 2 ft / 600 mm and hydraulic folding device for shortening the transport length or simplified maneuvering in narrow fields.	<b>Standard</b>	<b>2336175</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

<b>Paint</b>				
Film coating in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7019	Standard	2863424	USD	0.00
The film coating is applied in RAL colors and design according to the customer's wishes. Film coating provides protection against mechanical and weather-related damage and can be removed without leaving any marks, if required	Option	2863426	USD	1,482.00
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	Standard	2456347	USD	0.00
<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	Standard	2770403	USD	0.00
<b>Machine lighting</b>				
Lighting system consisting of 8 halogen and 6 LED working lights. The headlights illuminate the area in front of and behind the machine, both machine sides, the area in front of the milling drum unit and on the chassis unit, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 21,100 lumens in total.	Standard	2450350	USD	0.00

High-performance lighting system consisting of 1 halogen and 17 LED working lights. The headlights illuminate the area in front of and behind the machine, both machine sides, the area in front of the milling drum unit and on the chassis unit, the area of the wasp waist, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 29,900 lumens in total. LED working lights are extremely bright, shock-resistant and durable.	<b>Option</b>	<b>2450351</b>	<b>USD</b>	<b>2,362.00</b>
<b>Additional devices</b>				
Battery-operated electrohydraulic unit. Weather canopy and engine cover can be lifted with the hydraulic unit.	<b>Standard</b>	<b>2400778</b>	<b>USD</b>	<b>0.00</b>
Battery-operated electrohydraulic unit for milling drum rotation device and hydraulic pick ejector. Weather canopy and engine cover can be lifted with the hydraulic unit. Furthermore, emergency functions such as raising the crawler units, releasing the parking brake, and other cylinder functions can be operated even when the engine is switched off.	<b>Option</b>	<b>2400779</b>	<b>USD</b>	<b>1,951.00</b>
<b>Equipment Options</b>				
<b>Exhaust air filter</b>				
VCS – vacuum cutting system on the discharge conveyor for the extraction of fine material particles and water vapor from the sealed milling drum unit.	<b>Option</b>	<b>2441379</b>	<b>USD</b>	<b>9,302.00</b>
<b>Advance drive</b>				
Equipment of the machine with precision steering. Pushbuttons on the multi-function armrests with a proportional response permit more precise steering of the machine.	<b>Standard</b>	<b>2400798</b>	<b>USD</b>	<b>0.00</b>
<b>Equipment operator's platform</b>				
Operator's platform equipped with weather canopy as well as windscreen and rear window. The side parts of the roof shell can be pulled out and the windows are movable. The complete roof can be folded in electro-hydraulically using a battery operated hydraulic pump for simplified machine transport. In addition, operation with a hand pump is possible. The operator's seat is surrounded by impact and abrasion-resistant Plexiglas panels.	<b>Option</b>	<b>2400795</b>	<b>USD</b>	<b>14,833.00</b>
Additional control unit for ground operation of the machine. Enables the ground crew to control important machine functions on the left side of the machine additionally.	<b>Standard</b>	<b>2400803</b>	<b>USD</b>	<b>0.00</b>
Heating with fan and air outlet openings in the footwell of the operator's platform.	<b>Option</b>	<b>2400791</b>	<b>USD</b>	<b>1,467.00</b>

<b>Milling drum assembly options</b>				
Overload sensor on the scraper for automatic lifting function in case of obstacles. Effectively prevents the scraper from sinking into the loose sub-base, as well as getting stuck on obstacles.	<b>Standard</b>	<b>2483584</b>	<b>USD</b>	<b>0.00</b>
Active floating position on the side plate right and left by continuous comparison between the milling depth and position of the side plate. If required, the side plate is lifted briefly to prevent tilting or sinking into a soft sub-base. (Only possible in conjunction with LEVEL PRO PLUS.)	<b>Option</b>	<b>2478486</b>	<b>USD</b>	<b>1,878.00</b>
<b>Device for milling drum change</b>				
Milling drum assembly trolley for milling drums up to FB1500 (4 ft 11 in), for straightforward milling drum change	<b>Option</b>	<b>2125929</b>	<b>USD</b>	<b>5,693.00</b>
<b>Additional milling units</b>				
FCS milling unit FB600 (24") LA12, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 79 picks, including scraper bottom part FB600 (24")	<b>Option</b>	<b>2417852</b>	<b>USD</b>	<b>29,769.00</b>
FCS milling unit FB900 (2 ft 11 in) LA15, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 102 RS picks, including scraper bottom part FB900 (2 ft 11 in)	<b>Option</b>	<b>2417854</b>	<b>USD</b>	<b>35,212.00</b>
FCS milling unit FB1200 (3 ft 11 in) LA15, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 109 picks, including scraper bottom part FB1200 (3 ft 11 in)	<b>Option</b>	<b>2409827</b>	<b>USD</b>	<b>40,832.00</b>
<b>Cold-start device</b>				
Electrical preheating of the fuel filter to maintain the flow of fuel at low outside temperatures. Serves to guarantee machine operation at temperatures below 0 32 degrees Fahrenheit (0 degrees Celsius).	<b>Option</b>	<b>2400772</b>	<b>USD</b>	<b>836.00</b>
<b>Options for belt conveyor</b>				
Signal lights for visual "stop" and "go" instructions for the truck driver without the use of a horn. The signal lights can be folded in hydraulically from the operator's platform.	<b>Option</b>	<b>2458620</b>	<b>USD</b>	<b>7,204.00</b>

<b>Leveling</b>				
Expansion of the LEVEL PRO PLUS leveling system by a SONIC SKI sensor. Ideal for contact-free wire and soil scanning. Including connection cable and holder.	Option	2410276	USD	6,368.00
<b>Leveling</b>				
Expansion of the leveling system for scanning the surface in front of the milling drum unit. A ski in a mobile mounting scans the height using a position measuring system. The surface shortly ahead of the milling drum unit can thus be taken as a reference if scanning using the side plate is not possible. The scanning can be hydraulically activated from the operator's seat.	Standard	2400801	USD	0.00
<b>Additional control unit LEVEL PRO</b>				
Expansion LEVEL PRO PLUS with an additional operating display, including required connection cable and holder.	Option	2400802	USD	3,125.00
<b>Leveling</b>				
Multiplex pre-fitting comprising 4 sensor sockets and holder for expanding the leveling system with one or two multiplex systems. Permits trouble-free connection of at most 2 multiplex sensors per machine side at a later point.	Option	2459795	USD	1,541.00
Expansion of the leveling system for multiplex system package 3-way right, including 2 x ultrasonic sensors, and connection cable.	Option	2410282	USD	4,108.00
Expansion of the leveling system to make multiplex system package 3-way right and 3-way left, including 4 x ultrasonic sensors and connection cable.	Option	2410283	USD	8,216.00
<b>Water system</b>				
Hydraulically operated high-pressure water cleaner with a maximum performance of 15 l/min / 3 gall 8 pt/min at 150 bar / 2175 psi pressure. Ideal for daily cleaning of the machine, including high pressure lance and 15 m / 50 ft hose.	Option	2438190	USD	2,744.00
<b>Pick changing aids</b>				
Milling drum rotation device with electrohydraulic milling drum drive for slowly turning the milling drum during pick replacement.	Option	2410287	USD	3,301.00
Pneumatic hammer with two pick extractor and inserter tools each as well as 5 m / 16 ft 5 in hose and holder.	Standard	2400775	USD	0.00
Additional folding seat on the rear right chassis unit for additional comfort during the pick change. The entire milling drum can easily be reached from a sitting position.	Option	2411373	USD	1,056.00

<b>Wirtgen information and diagnostic system</b>				
The actual milling depth is measured by a differential method between sensors on the side plate and sensors on the scraper. The actual milling depth is displayed in the Info menu of the LEVEL PRO PLUS display.	<b>Option</b>	<b>2410291</b>	<b>USD</b>	<b>1,144.00</b>
Equipment of the machine with job data acquisition. The information is shown in the control display.	<b>Option</b>	<b>2410294</b>	<b>USD</b>	<b>1,247.00</b>
<b>Camera system</b>				
Monitor system as maneuvering aid with 2 cameras and screen. Each of these shows the area behind the machine as well as the area at the discharge conveyor.	<b>Standard</b>	<b>2410296</b>	<b>USD</b>	<b>0.00</b>
Monitor system as maneuvering aid with 5 cameras and 2 displays. The cameras show the area behind the machine, the area in front of the loading conveyor, the side plate, the track unit at the front left, the left milled edge, the left side of the machine and the milled surface behind the milling drum unit. 2 additional LED lamps illuminate the camera area and are included in the scope of supply.	<b>In lieu of 2410296</b>	<b>2410297</b>	<b>USD</b>	<b>7,879.00</b>
<b>Other devices</b>				
License plate holder with LED lighting to comply with country-specific regulations.	<b>Option</b>	<b>2659026</b>	<b>USD</b>	<b>499.00</b>
<b>Other devices</b>				
Large sized storage compartment for 10 pick containers on the rear of the machine instead of the standard storage compartment.	<b>Option</b>	<b>2409814</b>	<b>USD</b>	<b>1,174.00</b>
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	<b>Option</b>		<b>USD</b>	<b>88.00</b>
Spare part and application documentation English (EN)	<b>Option</b>		<b>USD</b>	<b>15.00</b>

## Price list W 200 Hi

### Scope of supply – basic machine

- 6-CYLINDER DIESEL ENGINE TYPE CUMMINS QSX 15
- Maximum power at 1900 r.p.m.: 455 kW / 610 HP / 619 PS
- Exhaust standard: EU Stage 4 / US EPA Tier 4f
- Standard milling width: 6 ft 10 in / 2100 mm
- Theoretical milling depth: 1 ft / 300 mm

#### STANDARD EQUIPMENT

- Base machine with engine
- Machine chassis with double-sided wasp waist
- Hydraulically opening, soundproof engine cover
- Air compressor system
- Battery-operated hydraulic unit for auxiliary drive
- Cooling system with temperature-controlled fan speed
- Storage compartments for pick containers

#### MILLING DRUM HOUSING

- Milling drum housing with infinitely variable lateral shift function permits milling up to the edge on the right or left side of the machine. The total adjustment range is 2 ft 7 in / 800 mm. (1 ft 4 in left / 1 ft 4 in right / 400 mm left / 400 mm right)
- Hydrostatic drive of the milling drum
- Three electrically selectable milling drum speeds
- Hydraulic material depressor with conveyor lifting function
- Hydraulically movable and positionable scraper plate
- Hydraulically lifting side plate, 1 ft 5 in / 420 mm clearance right and left
- Triple-divided water sprinkling strip in the milling drum unit, segments individually switchable

#### LOADING OF MILLED MATERIAL

- Conveyor system with manually or automatically adjustable conveying speed
- Water spray system in the primary conveyor
- Slewing angle discharge conveyor  $\pm 60^\circ$

#### MACHINE CONTROL AND LEVELLING SYSTEM

- Multi-function control display showing important machine operating conditions
- Comprehensive machine diagnostics displayed on the control screen
- Milling power control with automatic on/off function
- Two exterior panels for operating functions by ground crew
- LEVEL PRO PLUS leveling system right and left
- RAPID SLOPE cross-slope sensor for LEVEL PRO ACTIVE leveling system

#### OPERATOR'S PLATFORM

- Fully anti-vibration mounted operator's platform
- Convenient, individually adjustable control panel
- Convenient access to the operator's platform, left and right
- Lockable control panel covers
- Two mirrors at the front, one mirror at the rear of the machine

#### TRACK UNIT AND HEIGHT ADJUSTMENT

- PTS – automatic alignment of the machine parallel to the pavement surface
- ISC – intelligent track speed control including hydraulic four-track drive
- Fourfold full-floating axle for high machine stability

- Freely selectable steering functions for the four-track steering
- Extremely wear-resistant, two-piece EPS polyurethane track pads

#### MISCELLANEOUS

- Lighting system including 5 halogen floodlights and 4 LED lights in the area of the milling unit
- "Welcome" and "Go home" lights feature including LED lighting in the area of the operator's platform and access
- Large tool kit in lockable tool box
- A total of six EMERGENCY STOP switches in appropriate positions on the machine
- High-pressure water system with automatic on/off function, 261 psi / 18 bar, 17 gal.min / 67 l/min
- Pre-fitting for installing the WITOS FleetView control unit "WIRTGEN Road Technologies Telematics and on-site Solutions" (WITOS) is the intelligent telematics system of the WIRTGEN Road Technologies for efficient fleet and service management worldwide
- European type certification, EuroTest mark and CE conformity

**List price ex subsidiary Wirtgen America** **USD** **930,853.00**

#### Mandatory Options

##### Milling drum housing

Wear-resistant milling drum housing FB2100 (6 ft 11 in) without milling drum	Standard	2193939	USD	0.00
--	----------	---------	-----	------

##### Milling drums / milling units

Milling drum with milling width 2100 mm / 6 ft / 11 in, milling depth max. 300 mm / 0 ft 11 in, tool spacing 15 mm / 19/32 in, equipped with quick-change toolholder system HT22 and 190 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.	Standard	2314413	USD	0.00
---	----------	---------	-----	------

#### OPERATOR'S PLATFORM

Flexibly mounted operator's platform with clearly laid-out control panel and control display as well as a large storage compartment (approx. 250 l / 66 gal) on the operator's platform and single stand-up seats on the right and left. The storage compartment has a variable, removable false floor and a lockable lid which can also be used as a seat. It is used for storing tools, pick elements, a coolbox, etc.	Standard	2488411	USD	0.00
--	----------	---------	-----	------

Flexibly mounted operator's platform with clear control panels and control display as well as comfortable adjustable operator's seats right and left.	In lieu of 2488411	2446210	USD	1,541.00
---	--------------------	---------	-----	----------

#### OPERATOR'S PLATFORM

Complete mirror set: 2 mirrors front and one mirror on rear of the machine	Standard	2276347	USD	0.00
--	----------	---------	-----	------

Complete mirror set, partial from operator's platform electrically folding as well as additionally heated and with truck stop and go indication	Option	2276348	USD	5,957.00
---	--------	---------	-----	----------

#### Material transport

Heavy-duty 25 ft 11 in / 7,900 mm long discharge conveyor with conveyor belt system 2 ft 9 in / 850 mm and hydraulic folding device for shortening the transport length	Standard	2446319	USD	0.00
---	----------	---------	-----	------

<b>Water tank filling</b>				
Additional water tank filling from the rear of the machine using a shut-off cock.	Standard	2193960	USD	0.00
Additional water tank filling from the rear of the machine with a powerful, hydraulically operated filler pump	Option	2448383	USD	3,888.00
<b>Paint</b>				
Painting in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7015.	Standard	2446558	USD	0.00
Monocolor special painting. Cream white color is replaced by a special color (RAL according to customer). The complete lower part of the machine is painted in slate grey RAL 7015.	Option	2446559	USD	2,626.00
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	Standard	2456347	USD	0.00
<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	Standard	2770403	USD	0.00
<b>Machine lighting</b>				
Halogen lighting system 24 V. Consisting of 6 additional halogen working lights for illuminating the working area. The light output is approx. 1,750 lumens per headlight. Including 3 rotary beacons.	Standard	2346607	USD	0.00
Powerful LED lighting system 24 V. Consisting of 6 additional LED working lights for optimum illumination of the working area. LED working lights are extremely bright, shock-resistant and durable. The light output is approx. 3,000 lumens per headlight (halogen approx. 1,750 lumens). Including 3 LED rotary beacons.	Option	2346608	USD	4,607.00
<b>Equipment Options</b>				
<b>Additional weight</b>				
Additional weight 2,425 lbs / 1,100 kg	Standard	2346424	USD	0.00
Large sized storage compartment for 29 pick containers mounted on the rear of the machine instead of the standard storage compartment.	Option	2221603	USD	3,668.00
<b>Exhaust air filter</b>				
VCS extraction system on the discharge conveyor, for extraction of fine material particles and water vapor from the sealed milling unit. For version with long discharge conveyor.	Standard	2566917	USD	0.00

<b>Equipment operator's platform</b>				
Operator's platform equipped with weather canopy including windscreen and rear window. The canopy is equipped with extensions on both sides and protects the entire operator's platform from rain and sunlight. The canopy itself is made of highly durable GFRP and the windscreen and rear window are scratch-resistant laminated protective glass. The canopy can be folded up electrohydraulically to facilitate machine transport.	Option	2492942	USD	16,124.00
Hot air heating in the footwell area of the operator's platform	Option	2174234	USD	1,907.00
<b>Device for milling drum change</b>				
Milling drum mounting and transport cart for milling drums from FB1500 (4 ft 11 in) to FB2500 (8 ft 2 in)	Option	2312515	USD	7,072.00
<b>Cold-start device</b>				
Electrical preheating of the fuel filter to maintain the flow of fuel at low outside temperatures. Serves to guarantee machine operation at temperatures below 0 32 degrees Fahrenheit (0 degrees Celsius).	Option	2344691	USD	1,497.00
<b>Leveling</b>				
Expansion of leveling system by one ultrasonic sensor for scanning in front of the milling drum right or left. Including connection cable and holder.	Standard	2286567	USD	0.00
Expansion of leveling system by two ultrasonic sensors for scanning in front of the milling drum right and left. Including connection cable and holder.	In lieu of 2286567	2283608	USD	1,276.00
<b>Additional control unit LEVEL PRO</b>				
Expansion LEVEL PRO with an additional operating display, including required connection cable	Standard	2137348	USD	0.00
<b>Leveling</b>				
Pre-fitting for multiplex system comprising 4 sensors sockets for expanding the leveling system with one or two multiplex systems. Permits trouble-free connection of at most 2 multiplex sensors per machine side at a later point.	Standard	2436230	USD	0.00
Expansion leveling system for multiplex system package 3-way right, including 2 x ultrasonic sensors, connection cable and holder	Option	2436231	USD	3,404.00
Expansion of leveling system to make multiplex system package 3-way right and 3-way left, including 4 x ultrasonic sensors, connection cable and holder	Option	2436232	USD	7,189.00
<b>Water system</b>				
Powerful, hydraulically operated high pressure water cleaner with a maximum output of 15 l/min (4 gpm) at a pressure of 150 bar (2175 psi).	Option	2193973	USD	2,744.00
<b>Pick changing aids</b>				
Hydraulically driven pick ejector, including the holder and required electrical and hydraulic connections. Ideal for convenient, fast and low-noise pick changes.	Option	2178052	USD	3,903.00

Pneumatic hammer with two pick extractor and inserter tools each as well as 5.00 m / 16 ft 5 in hose.	Standard	2137372	USD	0.00
Fold-open seats on the rear track units for the pick change, with integrated storage compartment for pick change tools and 4 pick containers	Standard	2283946	USD	0.00
<b>Diesel tank filling systems</b>				
Electrically operated diesel suction and pressure pump for the diesel tank filling with 5.00 m suction hose.	Option	2125976	USD	1,012.00
<b>Wirtgen information and diagnostic system</b>				
The actual milling depth is measured by a differential method between sensors on the side plate and sensors on the scraper. The actual milling depth is displayed in the Info menu of the LEVEL PRO display.	Standard	2219502	USD	0.00
<b>Camera system</b>				
Monitor system as maneuvering aid with 2 cameras. Each of these shows the area behind the machine as well as the area in front of the loading conveyor. The camera images are displayed on the machine control display.	Option	2526011	USD	3,022.00
Monitor system as maneuvering aid with 2 cameras. Camera 1 is installed on the rear of the machine pointing to the rear and camera 2 is installed between the front track units pointing to the front. The camera images are displayed on the machine control display	Standard	2286626	USD	0.00
Extensive monitor system consisting of a total of 6 cameras and an additional monitor. Cameras 1 and 2 show the areas behind the machine as well as ahead of the load belt, and thus facilitate maneuvering and loading. Cameras 3-6 show the area in front of the milling drum unit, the milled area behind the milling unit as well as the side plate and the front right and left chassis units, thereby facilitating the working process. Camera images 1-2 are displayed in the machine control display, camera images 3-6 are output on the additional monitor.	Option	2530073	USD	10,549.00
<b>Other devices</b>				
License plate holder with LED lighting to comply with country-specific regulations.	Option	2658169	USD	499.00
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	Option		USD	88.00
Spare part and application documentation English (EN)	Option		USD	15.00

## Price list W 200 Fi

### Scope of supply – basic machine

- 6-CYLINDER DIESEL ENGINE TYPE CUMMINS QSX 15
- Maximum power at 1900 r.p.m.: 455 kW / 610 HP / 619 PS
- Exhaust standard: EU Stage V / US EPA Tier 4f
- Standard milling width: 6 ft 7 in / 2,000 mm
- Theoretical milling depth: 1 ft 1 in / 330 mm

### STANDARD EQUIPMENT

- Base machine with engine
- Machine frame featuring a single wasp waist at the rear right and a dual wasp waist at the front
- Hydraulically opening, soundproof engine cover
- Air compressor system
- Two cooling fans to minimize power consumption of the cooling system

### MILLING DRUM HOUSING

- Adjustment of material depressor contact pressure via the control panel or automatically via the MILL ASSIST feature to reduce chunk formation
- Electrical adjustment of scraper contact pressure via the control panel
- Automatically controlled locking feature of scraper
- Single-piece water spray bar in the milling drum unit for reliable pick cooling and to prevent dust development
- Automatic control of the water quantity via the MILL ASSIST feature
- Height adjustment stroke increased by 150 mm to facilitate pick replacement and the exchange of milling drum units
- Pre-fitting to allow the quick exchange of milling drum units.
- Hydraulically lifting side plates, clearance right 450 mm (1 ft 6 in), clearance left 330 mm (1 ft 1 in)

### LOADING OF MILLED MATERIAL

- Increased conveyor swing angles of 65° each to the left and right
- Discharge conveyor with adjustable conveying speed
- Boost feature for a temporary increase of the belt speed and conveying performance of the discharge conveyor by 20%
- Water spray system in the primary conveyor
- Larger conveyor pump for a constant belt speed even at a low engine speed of 1300 rpm

### MACHINE CONTROL AND LEVELLING SYSTEM

- User-friendly control panel including 7" color screen
- LEVEL PRO ACTIVE leveling system with numerous automated and complementary operator relieving features
- LEVEL PRO ACTIVE - automatic height control in transport mode
- LEVEL PRO ACTIVE - ramp milling and auto-start feature for the second milling cut
- RAPID SLOPE cross-slope sensor for LEVEL PRO ACTIVE leveling system
- MILL ASSIST assistance system for automatic adjustment of the milling drum speed in accordance with the main area of application and the parameters selected in terms of engine load, advance rate, milling volume and quality of the milling pattern.
- Comprehensive machine diagnostics on the control panel including, for example, a diagnostic system for the CAN bus
- Voltmeter integrated into the control panel for voltage measurement in the event of a malfunction
- Two control panels for operating functions performed by ground crew

### OPERATOR'S PLATFORM

- Convenient access to the operator's platform, left and right

- Anti-vibration mounted operator's platform across the full width of the machine including fold-out railing, right
- Electrical control cabinet on the operator's platform for optimum accessibility and fast troubleshooting
- Two mirrors at the front, one mirror at the rear of the machine

#### TRACK UNIT AND HEIGHT ADJUSTMENT

- PTS – automatic alignment of the machine parallel to the pavement surface
- ISC – intelligent track speed control including hydraulic four-track drive
- Fourfold full-floating axle for high machine stability
- High travel speed of up to 100 m / min at low engine speeds (1,350 rpm), reduced diesel consumption and low noise emissions.
- Lifting speed of the height adjustment feature increased by 60%

#### MISCELLANEOUS

- "Welcome" and "Go home" lights feature in the area of the operator's platform and access
- Large storage compartment on the machine for pick containers
- High-pressure water system with automatic on/off function, 261 psi / 18 bar, 17 gal.min / 67 l/min
- Good accessibility to all maintenance points on the engine station
- Pneumatic hammer with pick extractor/insertor
- Large tool kit in lockable tool box
- A total of six EMERGENCY STOP switches in appropriate positions on the machine
- Pre-fitting for installing the WITOS FleetView control unit
- European type certification, EuroTest mark and CE conformity

**List price ex subsidiary Wirtgen America**

**USD**

**749,920.00**

#### Mandatory Options

##### Milling drum housing

Wear-resistant milling drum housing FB2200 (7 ft 3 in) without milling drum	<b>Standard</b>	<b>2598404</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

##### Milling drums / milling units

Milling drum with milling width 2200 mm (7 ft 3 in), milling depth max. 330 mm / 1 ft 1 in, tool spacing 18 mm / 45/64 in, equipped with quick-change toolholder system HT22 and 155 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.	<b>Standard</b>	<b>2305117</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

##### OPERATOR'S PLATFORM

Flexibly mounted operator's platform with clear control panels and a simple stand-up seat.	<b>Standard</b>	<b>2600317</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

##### Material transport

Heavy-duty 7,900 mm (25 ft 11 in) long discharge conveyor with conveyor belt system 850 mm (2 ft 9 in) and hydraulic folding device for shortening the transport length	<b>Standard</b>	<b>2598432</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

##### Crawler units

Four track units type B1, 260 mm wide and 1,565 mm long, with extremely wear-resistant, two-piece EPS polyurethane track pads.	<b>Standard</b>	<b>2663715</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

<b>Water tank filling</b>				
Additional water tank filling from the rear of the machine using a shut-off cock.	<b>Standard</b>	<b>2549116</b>	<b>USD</b>	<b>0.00</b>
<b>Paint</b>				
Painting in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7015.	<b>Standard</b>	<b>2668740</b>	<b>USD</b>	<b>0.00</b>
Film coating in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7019	<b>Option</b>	<b>2779483</b>	<b>USD</b>	<b>3,213.00</b>
The film coating is applied in RAL colors and design according to the customer's wishes. Film coating provides protection against mechanical and weather-related damage and can be removed without leaving any marks, if required	<b>Option</b>	<b>2728786</b>	<b>USD</b>	<b>4,460.00</b>
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	<b>Standard</b>	<b>2456347</b>	<b>USD</b>	<b>0.00</b>
<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	<b>Standard</b>	<b>2770403</b>	<b>USD</b>	<b>0.00</b>
The WIRTGEN PERFORMANCE TRACKER WPT is a laser and satellite-supported measuring system for precise milling performance determination for machines with FB2000 or FB2200 without a weather canopy or with an operator's cabin. Two laser scanners measure the actual milling width and milling depth over the distance of the milling path. The milling performance results are automatically sent to the corresponding users via the WITOS interface with precise GPS machine position data and consumption data such as diesel consumption, water consumption, tool consumption and truck loads, in an evaluation and then by e-mail. The milling performance reports that include an image of the milling position can also be used as an allowance report. The usability of WITOS hardware components for the existing mobile radio standard is guaranteed for 3 years from the date of delivery.	<b>Option</b>	<b>2781330</b>	<b>USD</b>	<b>50,882.00</b>

<b>Machine lighting</b>				
Standard lighting system consisting of 18 LED working lights for optimum illumination of the working area. The light output is approx. 20,600 lumens in total.	Standard	2598442	USD	0.00
<b>Equipment Options</b>				
<b>Additional weight</b>				
Two-piece additional weight at the rear of the machine totaling 1,600 kg (3,527 lbs) which enables the machine to be individually ballasted. The individual weights of 850 kg and 750 kg can be easily and quickly inserted and fastened to the rear of the machine.	Option	2598492	USD	7,277.00
<b>Additional weight</b>				
Storage compartment on both the rear track units for 8 pick containers	Option	2598662	USD	1,188.00
<b>Milling drum assembly options</b>				
Milling drum rotation device with electro-hydraulic milling drum drive for slowly turning the milling drum during pick replacement. The diesel engine can be switched off in this case.	Standard	2598658	USD	0.00
Two wear protection rollers that can be attached to the side plates (left or right). The rollers protect the asphalt, curbs, and other surfaces from damage and prevent excessive wear to the side plates.	Option	2662818	USD	866.00
The mounting aid makes it much easier to change the milling drum assembly. Two extended wire ropes from the discharge conveyor are reattached and pull the primary conveyor out of the milling drum housing. This enables the aggregate to be changed without any additional effort. It saves time and work whenever the milling drum assembly needs to be changed.	Option	2598534	USD	484.00
Transport roller set consisting of 4 heavy-duty rollers for easy removal of milling units from FB1500 to FB3800 on level surfaces.	Option	2762958	USD	5,751.00
<b>Options for belt conveyor</b>				
VCS – vacuum cutting system on the discharge conveyor for the extraction of fine material particles and water vapor from the sealed milling drum unit.	Standard	2598495	USD	0.00
Support device for positioning the discharge conveyor on the flat bed truck	Standard	60603	USD	0.00
Semi-automatic ACTIVE CONVEYOR swing angle control that guides the discharge conveyor in construction site situations where milling is carried out at intersections or roundabouts	Option	2598541	USD	1,335.00

<b>Additional control unit LEVEL PRO</b>				
2 Additional 5" control panel for controlling the LEVEL PRO ACTIVE leveling system. Up to two additional control panels can be mounted in the rear lower area of the machines	<b>Standard</b>	<b>2598631</b>	<b>USD</b>	<b>0.00</b>
Additional 2" control panel that can be programmed with up to 16 individually selected functions. Up to two additional control panels can be mounted on the outside railing of the operator's platform	<b>Option</b>	<b>2598664</b>	<b>USD</b>	<b>2,157.00</b>
Two additional 2" control panels that can each be programmed with up to 16 individually selected functions. Up to two additional control panels can be mounted on the outside railing of the operator's platform	<b>Option</b>	<b>2767151</b>	<b>USD</b>	<b>4,314.00</b>
User-specific saving of individually adjustable machine settings such as the display configuration or the assignment of favorites buttons. The data can be saved on five different SMART KEY key fobs with tokens.	<b>Option</b>	<b>2779480</b>	<b>USD</b>	<b>1,335.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with one hydraulic cylinder sensor for scanning a reference surface to the right of the milling drum.	<b>Standard</b>	<b>2598629</b>	<b>USD</b>	<b>0.00</b>
Extension of the LEVEL PRO ACTIVE leveling system with two hydraulic cylinder sensors for scanning a reference surface to the left and the right of the milling drum.	<b>In lieu of 2598629</b>	<b>2598630</b>	<b>USD</b>	<b>2,685.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with multiplex scanning on the right. Two additional ultrasonic sensors scan reference surfaces in front of and behind the machine. During machine transport, the sensors and cables are securely stowed in a corresponding transport box.	<b>Option</b>	<b>2598636</b>	<b>USD</b>	<b>5,575.00</b>
Extension of the LEVEL PRO ACTIVE leveling system with multiplex scanning on the left and right. Four additional ultrasonic sensors scan reference surfaces in front of and behind the machine. During machine transport, the sensors and cables are securely stowed in a corresponding transport box.	<b>Option</b>	<b>2598641</b>	<b>USD</b>	<b>10,828.00</b>

<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with pre-fitting for 3D milling with machines without a weather canopy. The pre-fitting equipment consists of robust and exactly positioned mounting adapters for a 3D system as well as sensor sockets for connecting the sensors to the LEVEL PRO ACTIVE system.	<b>Option</b>	<b>2662822</b>	<b>USD</b>	<b>9,185.00</b>
<b>Camera system</b>				
Two-fold camera system with one camera at the discharge conveyor and one camera with a view of the rear area. The camera images are displayed on the standard 7" control panel on the operator's platform.	<b>Standard</b>	<b>2598677</b>	<b>USD</b>	<b>0.00</b>
<b>Other devices</b>				
Electrical diesel suction and pressure pump with 7.50 m (24 ft 7 in) suction hose. The machine can be refueled with up to 50 l/min (13 gal/min) from external diesel tanks.	<b>Option</b>	<b>2598663</b>	<b>USD</b>	<b>1,012.00</b>
Hydraulically powered sweeping unit consisting of a central brush and side brushes on both sides used to sweep the milled surface behind the machine. The direction in which the brushes rotate can be changed depending on the desired direction of sweeping. The unit can be folded up hydraulically from the operator's platform during transport or when maneuvering. It is operated via the 2" control panel that comes with the unit.	<b>Option</b>	<b>2779365</b>	<b>USD</b>	<b>49,121.00</b>
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	<b>Option</b>		<b>USD</b>	<b>88.00</b>
Spare part and application documentation English (EN)	<b>Option</b>		<b>USD</b>	<b>15.00</b>

## Price list

### W 207 Fi

#### Scope of supply – basic machine

- 6-CYLINDER DIESEL ENGINE TYPE CUMMINS QSX 15
- Maximum power at 1900 r.p.m.: 470 kW / 630 HP / 639 PS
- Exhaust standard: EU Stage V / US EPA Tier 4f

#### Mandatory Options

##### Milling drum housing

FB2200 (7 ft 3 in) MCS BASIC quick-change milling drum unit that enables milling drums of the same milling width to be changed particularly quickly.	<b>Standard</b>	<b>2598417</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

##### Milling drums / milling units

Milling drum MCS BASIC with milling width 2200 mm / 7 ft 3 in, milling depth max. 350 mm / 1 ft 2 in, tool spacing 15 mm / 19/32 in, equipped with quick-change toolholder system HT22 and 176 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.	<b>Standard</b>	<b>2611269</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

##### OPERATOR'S PLATFORM

Flexibly mounted operator's platform with clear control panels and a simple stand-up seat.	<b>Standard</b>	<b>2600317</b>	<b>USD</b>	<b>0.00</b>
Anti-vibration-mounted operator's platform with easy-to-read control panels and simple stand-up seat. A hydraulically height-adjustable weather canopy protects the operator from the wind and weather.	<b>Option</b>	<b>2600319</b>	<b>USD</b>	<b>17,122.00</b>

<b>Material transport</b>				
Heavy-duty 7,900 mm (25 ft 11 in) long discharge conveyor with conveyor belt system 850 mm (2 ft 9 in) and hydraulic folding device for shortening the transport length	Standard	2598432	USD	0.00
<b>Crawler units</b>				
Four track units type B3, 300 mm wide and 1,730 mm long, with extremely wear-resistant, two-piece EPS polyurethane track pads.	Standard	2663716	USD	0.00
<b>Water tank filling</b>				
Additional water tank filling from the rear of the machine using a shut-off cock.	Standard	2549116	USD	0.00
Additional water tank filling from the rear of the machine with a powerful, hydraulically operated filler pump	Option	2598434	USD	4,225.00
<b>Paint</b>				
Painting in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7015.	Standard	2668745	USD	0.00
Film coating in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7019	Option	2779484	USD	3,213.00
The film coating is applied in RAL colors and design according to the customer's wishes. Film coating provides protection against mechanical and weather-related damage and can be removed without leaving any marks, if required	Option	2728788	USD	4,460.00
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	Standard	2456347	USD	0.00
<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. The WIRTGEN PERFORMANCE TRACKER WPT is a laser and satellite-supported measuring system for precise milling performance determination for machines with FB2000 or FB2200 without a weather canopy or with an operator's cabin. Two laser scanners measure the actual milling width and milling depth over the distance of the milling path. The milling performance results are automatically sent to the corresponding users via the WITOS interface with precise GPS machine position data and consumption data such as diesel consumption, water consumption, tool consumption and truck loads, in an evaluation and then by e-mail. The milling performance reports that include an image of the milling position can also be used as an allowance report. The usability of WITOS	Option	2781330	USD	50,882.00
<b>Machine lighting</b>				
Extended lighting system consisting of 21 extremely powerful LED working lights for optimum illumination of the working area. The light output is approx. 37,600 lumens in total.	Standard	2598443	USD	0.00
<b>Equipment Options</b>				
<b>Additional weight</b>				
Two-piece additional weight at the rear of the machine totaling 1,600 kg (3,527 lbs) which enables the machine to be individually ballasted. The individual weights of 850 kg and 750 kg can be easily and quickly inserted and fastened to the rear of the machine.	Standard	2598492	USD	0.00
<b>Additional weight</b>				
Large sized storage compartment for 69 pick containers mounted at the rear of the machine instead of the standard storage compartment. The storage compartment is splash-proof and additionally contains a completely sealed area to safely store electronic components such as leveling sensors or tool extractors.	Option	2598494	USD	3,477.00
Storage compartment on both the rear track units for 8 pick containers	Standard	2598662	USD	0.00
<b>Milling drum assembly options</b>				
The actual milling depth is determined by calculating the difference in readings from sensors on the side plate and sensors on the scraper. The actual milling depth is displayed on the LEVEL PRO ACTIVE panel.	Standard	2598665	USD	0.00
Overload sensors automatically lift the scraper whenever obstacles are detected that could damage the scraper.	Option	2598528	USD	1,746.00
Active floating position for the side plates on the left and right by continuously adjusting the milling depth and position of the plates. If necessary, the side plates can be briefly raised to prevent them from sinking into the soft ground.	Standard	2598531	USD	0.00

MCS BASIC extended with a hydraulically opening side door on the milling drum unit FB2200 (7 ft 3 in). With additional hydraulic cylinders, the side door can be easily unlocked and opened when changing the milling drum. This enables milling drums in MCS BASIC to be changed even faster.	<b>Standard</b>	<b>2688482</b>	<b>USD</b>	<b>0.00</b>
Electrically switchable sectional water spray bar in the milling drum unit FB2200 (7 ft 3 in). Four areas can be controlled as required from the control panel (automatically controlled with WPT). This significantly reduces water consumption.	<b>Standard</b>	<b>2610096</b>	<b>USD</b>	<b>0.00</b>
Two wear protection rollers that can be attached to the side plates (left or right). The rollers protect the asphalt, curbs, and other surfaces from damage and prevent excessive wear to the side plates.	<b>Option</b>	<b>2662818</b>	<b>USD</b>	<b>866.00</b>
The mounting aid makes it much easier to change the milling drum assembly. Two extended wire ropes from the discharge conveyor are reattached and pull the primary conveyor out of the milling drum housing. This enables the aggregate to be changed without any additional effort. It saves time and work whenever the milling drum assembly needs to be changed.	<b>Option</b>	<b>2598534</b>	<b>USD</b>	<b>484.00</b>
Milling drum mounting and transport cart for milling drums from FB1500 (4 ft 11 in) to FB2500 (8 ft 2 in)	<b>Option</b>	<b>2312515</b>	<b>USD</b>	<b>7,072.00</b>
Transport roller set consisting of 4 heavy-duty rollers for easy removal of milling units from FB1500 to FB3800 on level surfaces.	<b>Option</b>	<b>2762958</b>	<b>USD</b>	<b>5,751.00</b>
<b>Options for belt conveyor</b>				
VCS – vacuum cutting system on the discharge conveyor for the extraction of fine material particles and water vapor from the sealed milling drum unit.	<b>Standard</b>	<b>2598495</b>	<b>USD</b>	<b>0.00</b>
Support device for positioning the discharge conveyor on the flat bed truck	<b>Standard</b>	<b>60603</b>	<b>USD</b>	<b>0.00</b>
Semi-automatic ACTIVE CONVEYOR swing angle control that guides the discharge conveyor in construction site situations where milling is carried out at intersections or roundabouts	<b>Option</b>	<b>2598541</b>	<b>USD</b>	<b>1,335.00</b>

<b>Additional control unit LEVEL PRO</b>				
Two Additional 7" control panel that displays the machine control and controls the LEVEL PRO ACTIVE levelling system. Up to two additional control panels can be mounted in the rear lower area of the machines	<b>Standard</b>	<b>2598632</b>	<b>USD</b>	<b>0.00</b>
Additional 2" control panel that can be programmed with up to 16 individually selected functions. Up to two additional control panels can be mounted on the outside railing of the operator's platform	<b>Standard</b>	<b>2598664</b>	<b>USD</b>	<b>0.00</b>
Two additional 2" control panels that can each be programmed with up to 16 individually selected functions. Up to two additional control panels can be mounted on the outside railing of the operator's platform	<b>Option</b>	<b>2767151</b>	<b>USD</b>	<b>4,314.00</b>
User-specific saving of individually adjustable machine settings such as the display configuration or the assignment of favorites buttons. The data can be saved on five different SMART KEY key fobs with tokens.	<b>Option</b>	<b>2779480</b>	<b>USD</b>	<b>1,335.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE levelling system with levelling boom. Premounted and adjustable hydraulic cylinders on the left and right allow the use of a Sonic-Ski sensor that is able to scan a reference object up to 1,900 mm away from the milling edge. During machine transport, the sensor and cables are securely stowed in the corresponding transport boxes.	<b>Option</b>	<b>2600969</b>	<b>USD</b>	<b>11,649.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with two hydraulic cylinder sensors for scanning a reference surface to the left and the right of the milling drum.	<b>Standard</b>	<b>2598630</b>	<b>USD</b>	<b>0.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with multiplex scanning on the right. Two additional ultrasonic sensors scan reference surfaces in front of and behind the machine. During machine transport, the sensors and cables are securely stowed in a corresponding transport box.	<b>Option</b>	<b>2598636</b>	<b>USD</b>	<b>5,575.00</b>

Extension of the LEVEL PRO ACTIVE leveling system with multiplex scanning on the left and right. Four additional ultrasonic sensors scan reference surfaces in front of and behind the machine. During machine transport, the sensors and cables are securely stowed in a corresponding transport box.	<b>Option</b>	<b>2598641</b>	<b>USD</b>	<b>10,828.00</b>
<b>Water system</b>				
Powerful, hydraulically operated high pressure water cleaner with a maximum output of 15 l/min (4 gpm) at a pressure of 150 bar (2175 psi).	<b>Option</b>	<b>2598657</b>	<b>USD</b>	<b>2,744.00</b>
<b>Pick changing aids</b>				
Hydraulically driven pick ejector, including the holder and required electrical and hydraulic connections. Ideal for convenient, fast and low-noise pick changes.	<b>Standard</b>	<b>2650081</b>	<b>USD</b>	<b>0.00</b>
<b>Camera system</b>				
Four-fold camera system with an additional 10" control panel for an optimised view of the work processes being executed in front of and behind the machine as well as of the side plates, on the right and left. The camera images are displayed on the 10" control panel on the operator's platform.	<b>Standard</b>	<b>2598678</b>	<b>USD</b>	<b>0.00</b>
Eight-fold camera system with an additional 10" control panel for an optimised view of the work processes being executed in front of and behind the machine, of the side plates on the right and left and of the milled surface behind the milling drum unit. The camera images are displayed on the 10" control panel on the operator's platform.	<b>In lieu of 2598678</b>	<b>2598679</b>	<b>USD</b>	<b>4,328.00</b>
<b>Other devices</b>				
Electrical preheating of the fuel filter to maintain the flow of fuel at low outside temperatures. Serves to guarantee machine operation at temperatures below 0 32 degrees Fahrenheit (0 degrees Celsius).	<b>Option</b>	<b>2622716</b>	<b>USD</b>	<b>646.00</b>
Electrical diesel suction and pressure pump with 7.50 m (24 ft 7 in) suction hose. The machine can be refueled with up to 50 l/min (13 gal/min) from external diesel tanks.	<b>Option</b>	<b>2598663</b>	<b>USD</b>	<b>1,012.00</b>
License plate holder with LED lighting	<b>Option</b>	<b>2654224</b>	<b>USD</b>	<b>528.00</b>
Hydraulically powered sweeping unit consisting of a central brush and side brushes on both sides used to sweep the milled surface behind the machine. The direction in which the brushes rotate can be changed depending on the desired direction of sweeping. The unit can be folded up hydraulically from the operator's platform during transport or when maneuvering. It is operated via the 2" control panel that comes with the unit.	<b>Option</b>	<b>2779365</b>	<b>USD</b>	<b>49,121.00</b>
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	<b>Option</b>		<b>USD</b>	<b>88.00</b>
Spare part and application documentation English (EN)	<b>Option</b>		<b>USD</b>	<b>15.00</b>

## Price list

# W 210 Fi - 2200 mm milling drum

### Scope of supply – basic machine

- Engine: 6-cylinder diesel engine: CATERPILLAR C18 ATAAC
- Rated power at 1,950 r.p.m.: 563 kW / 755 HP / 766 PS
- Exhaust standard: EU Stage V / US EPA Tier 4f
- Standard milling width: 6 ft 7 in / 2,000 mm
- Theoretical milling depth: 1 ft 1 in / 330 mm

### STANDARD EQUIPMENT

- Base machine with engine
- Machine frame featuring a single wasp waist at the rear right and a dual wasp waist at the front
- DUAL SHIFT two-speed powershift transmission for efficient engine speeds combined with powerful milling drum speeds.
- Automatic pressure adjustment of the hydraulic pump for cylinder functions in accordance with performance requirements for reduced diesel consumption
- Hydraulically opening, soundproof engine cover
- Air compressor system
- Battery-operated hydraulic unit for auxiliary drive
- Two cooling fans to minimize power consumption of the cooling system

### MILLING DRUM HOUSING

- Adjustment of material depressor contact pressure via the control panel or automatically via the MILL ASSIST feature to reduce chunk formation
- Electrical adjustment of scraper contact pressure via the control panel
- Automatically controlled locking feature of scraper
- Milling drum rotation device with electro-hydraulic milling drum drive for slowly turning the milling drum during pick replacement.
- Single-piece water spray bar in the milling drum unit for reliable pick cooling and to prevent dust development
- Automatic control of the water quantity via the MILL ASSIST feature
- Height adjustment stroke increased by 150 mm to facilitate pick replacement and the exchange of milling drum units
- Pre-fitting to allow the quick exchange of milling drum units.
- Hydraulically lifting side plates, clearance right 450 mm (1 ft 6 in), clearance left 330 mm (1 ft 1 in)

### LOADING OF MILLED MATERIAL

- Increased conveyor swing angles of 65° each to the left and right
- Discharge conveyor with adjustable conveying speed and two slewing speeds for precise loading
- Boost feature for a temporary increase of the belt speed and conveying performance of the discharge conveyor by 20%
- Water spray system in the primary conveyor
- Larger conveyor pump for a constant belt speed even at a low engine speed of 1300 rpm

### MACHINE CONTROL AND LEVELLING SYSTEM

- User-friendly control panel including 7" color screen
- LEVEL PRO ACTIVE leveling system with numerous automated and complementary operator relieving features
- LEVEL PRO ACTIVE - automatic height control in transport mode
- LEVEL PRO ACTIVE - ramp milling and auto-start feature for the second milling cut
- RAPID SLOPE cross-slope sensor for LEVEL PRO ACTIVE leveling system
- MILL ASSIST assistance system for automatic adjustment of the milling drum speed in accordance with the main area of application and the parameters selected in terms of engine load, advance rate, milling volume and quality of the milling pattern.

- Automatic start-stop feature of the milling drum to reduce diesel consumption
- Comprehensive machine diagnostics on the control panel including, for example, a diagnostic system for the CAN bus
- Voltmeter integrated into the control panel for voltage measurement in the event of a malfunction
- Two control panels for operating functions performed by ground crew

#### **OPERATOR 'S PLATFORM**

- Convenient access to the operator's platform, left and right
- Anti-vibration mounted operator's platform across the full width of the machine including fold-out railing, right
- Electrical control cabinet on the operator's platform for optimum accessibility and fast troubleshooting
- Electrical level indicator for the water tank on the external control panels
- Time display on the main control panel and on the exterior control panels
- Two mirrors at the front, one mirror at the rear of the machine

#### **TRACK UNIT AND HEIGHT ADJUSTMENT**

- PTS – automatic alignment of the machine parallel to the pavement surface
- ISC – intelligent track speed control including hydraulic four-track drive
- Fourfold full-floating axle for high machine stability
- High travel speed of up to 100 m / min at low engine speeds (1,350 rpm), reduced diesel consumption and low noise emissions.
- Lifting speed of the height adjustment feature increased by 60%

#### **MISCELLANEOUS**

- "Welcome" and "Go home" lights feature in the area of the operator's platform and access
- Large storage compartment on the machine for pick containers
- High-pressure water system with automatic on/off function, 261 psi / 18 bar, 17 gal.min / 67 l/min
- Good accessibility to all maintenance points on the engine station
- Pneumatic hammer with pick extractor/insertor
- Large tool kit in lockable tool box
- A total of six EMERGENCY STOP switches in appropriate positions on the machine
- Pre-fitting for installing the WITOS FleetView control unit
- European type certification, EuroTest mark and CE conformity

**List price ex subsidiary Wirtgen America**

**USD**

**919,351.00**

Mandatory Options				
Milling drum housing				
FB2200 (7 ft 3 in) MCS BASIC quick-change milling drum unit that enables milling drums of the same milling width to be changed particularly quickly.	Standard	2598417	USD	0.00
Milling drums / milling units				
Milling drum MCS BASIC with milling width 2200 mm / 7 ft / 3 in, milling depth max. 350 mm / 1 ft 2 in, tool spacing 15 mm / 19/32 in, equipped with quick-change toolholder system HT22 and 176 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.	Standard	2611269	USD	0.00
OPERATOR'S PLATFORM				
Anti-vibration-mounted operator's platform with easy-to-read control panels, functional stand-up seat and a large, lockable storage compartment with a capacity of approx 69 gal / 260 liters	Standard	2662840	USD	0.00
Anti-vibration-mounted operator's platform with easy-to-read control panels, functional stand-up seat and a large, lockable storage compartment with a capacity of approx 69 gal/260 liters. A hydraulically height-adjustable weather canopy with transparent side weather protection elements protects the operator from the wind and weather.	In lieu of 2662840	2598429	USD	17,342.00
Material transport				
Heavy-duty 7,900 mm (25 ft 11 in) long discharge conveyor with conveyor belt system 850 mm (2 ft 9 in) and hydraulic folding device for shortening the transport length	Standard	2598432	USD	0.00
Water tank filling				
Additional water tank filling from the rear of the machine using a shut-off cock.	Standard	2549116	USD	0.00
Additional water tank filling from the rear of the machine with a powerful, hydraulically operated filler pump	Option	2598434	USD	4,225.00
Paint				
Painting in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7015.	Standard	2598435	USD	0.00
Film coating in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7019	Option	2779482	USD	3,213.00
The film coating is applied in RAL colors and design according to the customer's wishes. Film coating provides protection against mechanical and weather-related damage and can be removed without leaving any marks, if required	Option	2728766	USD	4,460.00

<b>Technical documentation</b>				
Technical documentation - North America country version (US)	<b>Standard</b>	<b>2456347</b>	<b>USD</b>	<b>0.00</b>
<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	<b>Standard</b>	<b>2770403</b>	<b>USD</b>	<b>0.00</b>
The WIRTGEN PERFORMANCE TRACKER WPT is a laser and satellite-supported measuring system for precise milling performance determination for machines with FB2000 or FB2200 without a weather canopy or with an operator's cabin. Two laser scanners measure the actual milling width and milling depth over the distance of the milling path. The milling performance results are automatically sent to the corresponding users via the WITOS interface with precise GPS machine position data and consumption data such as diesel consumption, water consumption, tool consumption and truck loads, in an evaluation and then by e-mail. The milling performance reports that include an image of the milling position can also be used as an allowance report. The usability of WITOS hardware components for the existing mobile radio standard is guaranteed for 3 years from the date of delivery.	<b>Option</b>	<b>2781330</b>	<b>USD</b>	<b>50,882.00</b>
<b>Machine lighting</b>				
Extended lighting system consisting of 21 extremely powerful LED working lights for optimum illumination of the working area. The light output is approx. 37,600 lumens in total.	<b>Standard</b>	<b>2598443</b>	<b>USD</b>	<b>0.00</b>
Extended lighting system with 19 particularly powerful LED working lights for optimum illumination of the working area. The light output of the working lights amounts to a total of 34,000 lumens. The additional lighting balloon is operated via the 24V power supply of the machine and achieves an additional luminous power of 16,000 lumens.	<b>In lieu of 2598443</b>	<b>2653969</b>	<b>USD</b>	<b>5,208.00</b>

Equipment Options				
<b>Additional weight</b>				
Two-piece additional weight at the rear of the machine totaling 1,600 kg (3,527 lbs) which enables the machine to be individually ballasted. The individual weights of 850 kg and 750 kg can be easily and quickly inserted and fastened to the rear of the machine.	Standard	2598492	USD	0.00
<b>Additional weight</b>				
Large sized storage compartment for 69 pick containers mounted at the rear of the machine instead of the standard storage compartment. The storage compartment is splash-proof and additionally contains a completely sealed area to safely store electronic components such as leveling sensors or tool extractors.	Option	2598494	USD	3,477.00
Storage compartment on both the rear track units for 8 pick containers	Standard	2598662	USD	0.00
<b>Equipment operator's platform</b>				
A powerful hot-air heating system with intelligently arranged air vents close to the operator's hands and feet offers maximum comfort on the operator's platform	Option	2598527	USD	4,181.00
Operator's platform equipped with a height-adjustable stand-up seat for greater operator comfort	Option	2688479	USD	1,174.00
<b>Milling drum assembly options</b>				
The actual milling depth is determined by calculating the difference in readings from sensors on the side plate and sensors on the scraper. The actual milling depth is displayed on the LEVEL PRO ACTIVE panel.	Standard	2598665	USD	0.00
Overload sensors automatically lift the scraper whenever obstacles are detected that could damage the scraper.	Option	2598528	USD	1,746.00
Active floating position for the side plates on the left and right by continuously adjusting the milling depth and position of the plates. If necessary, the side plates can be briefly raised to prevent them from sinking into the soft ground.	Standard	2598531	USD	0.00
MCS BASIC extended with a hydraulically opening side door on the milling drum unit FB2000 (6 ft 7 in). With additional hydraulic cylinders, the side door can be easily unlocked and opened when changing the milling drum. This enables milling drums in MCS BASIC to be changed even faster.	Option	2614824	USD	10,212.00
MCS BASIC extended with a hydraulically opening side door on the milling drum unit FB2200 (7 ft 3 in). With additional hydraulic cylinders, the side door can be easily unlocked and opened when changing the milling drum. This enables milling drums in MCS BASIC to be changed even faster.	Standard	2688482	USD	0.00

Electrically switchable sectional water spray bar in the milling drum unit FB2200 (7 ft 3 in). Four areas can be controlled as required from the control panel (automatically controlled with WPT). This significantly reduces water consumption.	<b>Standard</b>	<b>2610096</b>	<b>USD</b>	<b>0.00</b>
Two wear protection rollers that can be attached to the side plates (left or right). The rollers protect the asphalt, curbs, and other surfaces from damage and prevent excessive wear to the side plates.	<b>Option</b>	<b>2662818</b>	<b>USD</b>	<b>866.00</b>
The mounting aid makes it much easier to change the milling drum assembly. Two extended wire ropes from the discharge conveyor are reattached and pull the primary conveyor out of the milling drum housing. This enables the aggregate to be changed without any additional effort. It saves time and work whenever the milling drum assembly needs to be changed.	<b>Option</b>	<b>2598534</b>	<b>USD</b>	<b>484.00</b>
Milling drum mounting and transport cart for milling drums from FB1500 (4 ft 11 in) to FB2500 (8 ft 2 in)	<b>Option</b>	<b>2312515</b>	<b>USD</b>	<b>7,072.00</b>
Transport roller set consisting of 4 heavy-duty rollers for easy removal of milling units from FB1500 to FB3800 on level surfaces.	<b>Option</b>	<b>2762958</b>	<b>USD</b>	<b>5,751.00</b>
<b>Options for belt conveyor</b>				
VCS – vacuum cutting system on the discharge conveyor for the extraction of fine material particles and water vapor from the sealed milling drum unit.	<b>Standard</b>	<b>2598495</b>	<b>USD</b>	<b>0.00</b>
Signal lights for visual "stop" and "go" instructions for the truck driver without the use of a horn. The signal lights can be folded in hydraulically from the operator's platform.	<b>Option</b>	<b>2598539</b>	<b>USD</b>	<b>5,311.00</b>
Support device for positioning the discharge conveyor on the flat bed truck	<b>Standard</b>	<b>60603</b>	<b>USD</b>	<b>0.00</b>
Semi-automatic ACTIVE CONVEYOR swing angle control that guides the discharge conveyor in construction site situations where milling is carried out at intersections or roundabouts	<b>Option</b>	<b>2598541</b>	<b>USD</b>	<b>1,335.00</b>
<b>Additional control unit LEVEL PRO</b>				
Additional 5" control panel for controlling the LEVEL PRO ACTIVE leveling system. Up to two additional control panels can be mounted in the rear lower area of the machines	<b>Option</b>	<b>2598631</b>	<b>USD</b>	<b>2,553.00</b>

2 Additional 7" control panel that displays the machine control and controls the LEVEL PRO ACTIVE levelling system. Up to two additional control panels can be mounted in the rear lower area of the machines	Standard	2598632	USD	0.00
Additional 2" control panel that can be programmed with up to 16 individually selected functions. Up to two additional control panels can be mounted on the outside railing of the operator's platform	Standard	2598664	USD	0.00
Two additional 2" control panels that can each be programmed with up to 16 individually selected functions. Up to two additional control panels can be mounted on the outside railing of the operator's platform	Option	2767151	USD	4,314.00
User-specific saving of individually adjustable machine settings such as the display configuration or the assignment of favorites buttons. The data can be saved on five different SMART KEY key fobs with tokens.	Option	2779470	USD	1,335.00
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE levelling system with levelling boom. Premounted and adjustable hydraulic cylinders on the left and right allow the use of a Sonic-Ski sensor that is able to scan a reference object up to 1,900 mm away from the milling edge. During machine transport, the sensor and cables are securely stowed in the corresponding transport boxes.	Option	2600969	USD	11,649.00
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with two hydraulic cylinder sensors for scanning a reference surface to the left and the right of the milling drum.	Standard	2598630	USD	0.00
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with multiplex scanning on the right. Two additional ultrasonic sensors scan reference surfaces in front of and behind the machine. During machine transport, the sensors and cables are securely stowed in a corresponding transport box.	Option	2598636	USD	5,575.00
Extension of the LEVEL PRO ACTIVE leveling system with multiplex scanning on the left and right. Four additional ultrasonic sensors scan reference surfaces in front of and behind the machine. During machine transport, the sensors and cables are securely stowed in a corresponding transport box.	Option	2598641	USD	10,828.00
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with pre-fitting for 3D milling with machines without a weather canopy. The pre-fitting equipment consists of robust and exactly positioned mounting adapters for a 3D system as well as sensor sockets for connecting the sensors to the LEVEL PRO ACTIVE system.	Option	2662822	USD	9,185.00

Extension of the LEVEL PRO ACTIVE leveling system with two linear laser sensors that can be installed using the pre-fitting equipment for 3D leveling.	<b>Option</b>	<b>2662826</b>	<b>USD</b>	<b>13,924.00</b>
<b>Water system</b>				
Powerful, hydraulically operated high pressure water cleaner with a maximum output of 15 l/min (4 gpm) at a pressure of 150 bar (2175 psi).	<b>Option</b>	<b>2598657</b>	<b>USD</b>	<b>2,744.00</b>
<b>Pick changing aids</b>				
Hydraulically driven pick ejector, including the holder and required electrical and hydraulic connections. Ideal for convenient, fast and low-noise pick changes.	<b>Standard</b>	<b>2598659</b>	<b>USD</b>	<b>0.00</b>
<b>Camera system</b>				
Four-fold camera system with an additional 10" control panel for an optimised view of the work processes being executed in front of and behind the machine as well as of the side plates, on the right and left. The camera images are displayed on the 10" control panel on the operator's platform.	<b>Standard</b>	<b>2598678</b>	<b>USD</b>	<b>0.00</b>
Eight-fold camera system with an additional 10" control panel for an optimised view of the work processes being executed in front of and behind the machine, of the side plates on the right and left and of the milled surface behind the milling drum unit. The camera images are displayed on the 10" control panel on the operator's platform.	<b>In lieu of 2598678</b>	<b>2598679</b>	<b>USD</b>	<b>4,328.00</b>
<b>Other devices</b>				
Dual starter system for maximum starting reliability with an additional automatic engine stop function that reduces diesel consumption.	<b>Option</b>	<b>2647215</b>	<b>USD</b>	<b>5,311.00</b>
Electrical diesel suction and pressure pump with 7.50 m (24 ft 7 in) suction hose. The machine can be refueled with up to 50 l/min (13 gal/min) from external diesel tanks.	<b>Option</b>	<b>2598663</b>	<b>USD</b>	<b>1,012.00</b>
License plate holder with LED lighting	<b>Option</b>	<b>2654224</b>	<b>USD</b>	<b>528.00</b>
Hydraulically powered sweeping unit consisting of a central brush and side brushes on both sides used to sweep the milled surface behind the machine. The direction in which the brushes rotate can be changed depending on the desired direction of sweeping. The unit can be folded up hydraulically from the operator's platform during transport or when maneuvering. It is operated via the 2" control panel that comes with the unit.	<b>Option</b>	<b>2779365</b>	<b>USD</b>	<b>49,121.00</b>
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	<b>Option</b>		<b>USD</b>	<b>88.00</b>
Spare part and application documentation English (EN)	<b>Option</b>		<b>USD</b>	<b>15.00</b>

## Price list

# W 210 Fi - 2500 mm milling drum

### Scope of supply – basic machine

The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	<b>Standard</b>	<b>2770403</b>	<b>USD</b>	<b>0.00</b>
The WIRTGEN PERFORMANCE TRACKER WPT is a laser and satellite-supported measuring system for precise milling performance determination for machines with FB2000 or FB2200 without a weather canopy or with an operator's cabin. Two laser scanners measure the actual milling width and milling depth over the distance of the milling path. The milling performance results are automatically sent to the corresponding users via the WITOS interface with precise GPS machine position data and consumption data such as diesel consumption, water consumption, tool consumption and truck loads, in an evaluation and then by e-mail. The milling performance reports that include an image of the milling position can also be used as an allowance report. The usability of WITOS hardware components for the existing mobile radio standard is guaranteed for 3 years from the date of delivery.	<b>Option</b>	<b>2781330</b>	<b>USD</b>	<b>50,882.00</b>
<b>Machine lighting</b>				<b>0.00</b>
Extended lighting system consisting of 21 extremely powerful LED working lights for optimum illumination of the working area. The light output is approx. 37,600 lumens in total.	<b>Standard</b>	<b>2598443</b>	<b>USD</b>	<b>0.00</b>
Extended lighting system with 19 particularly powerful LED working lights for optimum illumination of the working area. The light output of the working lights amounts to a total of 34,000 lumens. The additional lighting balloon is operated via the 24V power supply of the machine and achieves an additional luminous power of 16,000 lumens.	<b>In lieu of 2598443</b>	<b>2653969</b>	<b>USD</b>	<b>5,208.00</b>

Equipment Options				
<b>Additional weight</b>				
Two-piece additional weight at the rear of the machine totaling 1,600 kg (3,527 lbs) which enables the machine to be individually ballasted. The individual weights of 850 kg and 750 kg can be easily and quickly inserted and fastened to the rear of the machine.	Standard	2598492	USD	0.00
<b>Additional weight</b>				
Large sized storage compartment for 69 pick containers mounted at the rear of the machine instead of the standard storage compartment. The storage compartment is splash-proof and additionally contains a completely sealed area to safely store electronic components such as leveling sensors or tool extractors.	Option	2598494	USD	3,477.00
Storage compartment on both the rear track units for 8 pick containers	Standard	2598662	USD	0.00
<b>Equipment operator's platform</b>				
A powerful hot-air heating system with intelligently arranged air vents close to the operator's hands and feet offers maximum comfort on the operator's platform	Option	2598527	USD	4,181.00
Operator's platform equipped with a height-adjustable stand-up seat for greater operator comfort	Option	2688479	USD	1,174.00
<b>Milling drum assembly options</b>				
The actual milling depth is determined by calculating the difference in readings from sensors on the side plate and sensors on the scraper. The actual milling depth is displayed on the LEVEL PRO ACTIVE panel.	Standard	2598665	USD	0.00
Overload sensors automatically lift the scraper whenever obstacles are detected that could damage the scraper.	Option	2598528	USD	1,746.00
Active floating position for the side plates on the left and right by continuously adjusting the milling depth and position of the plates. If necessary, the side plates can be briefly raised to prevent them from sinking into the soft ground.	Standard	2598531	USD	0.00
MCS BASIC extended with a hydraulically opening side door on the milling drum unit FB2500 (8 ft 2 in). With additional hydraulic cylinders, the side door can be easily unlocked and opened when changing the milling drum. This enables milling drums in MCS BASIC to be changed even faster.	Standard	2688484	USD	6,960.00

Sectional, electrically controlled water spray bar in the milling drum assembly FB2500 (8 ft 2 in). Four areas can be controlled from the control panel as needed. This reduces water consumption enormously.	<b>Standard</b>	<b>2610097</b>	<b>USD</b>	<b>2,130.00</b>
Two wear protection rollers that can be attached to the side plates (left or right). The rollers protect the asphalt, curbs, and other surfaces from damage and prevent excessive wear to the side plates.	<b>Option</b>	<b>2662818</b>	<b>USD</b>	<b>866.00</b>
The mounting aid makes it much easier to change the milling drum assembly. Two extended wire ropes from the discharge conveyor are reattached and pull the primary conveyor out of the milling drum housing. This enables the aggregate to be changed without any additional effort. It saves time and work whenever the milling drum assembly needs to be changed.	<b>Option</b>	<b>2598534</b>	<b>USD</b>	<b>484.00</b>
Milling drum mounting and transport cart for milling drums from FB1500 (4 ft 11 in) to FB2500 (8 ft 2 in)	<b>Option</b>	<b>2312515</b>	<b>USD</b>	<b>7,072.00</b>
Transport roller set consisting of 4 heavy-duty rollers for easy removal of milling units from FB1500 to FB3800 on level surfaces.	<b>Option</b>	<b>2762958</b>	<b>USD</b>	<b>5,751.00</b>
<b>Options for belt conveyor</b>				
VCS – vacuum cutting system on the discharge conveyor for the extraction of fine material particles and water vapor from the sealed milling drum unit.	<b>Standard</b>	<b>2598495</b>	<b>USD</b>	<b>0.00</b>
Signal lights for visual "stop" and "go" instructions for the truck driver without the use of a horn. The signal lights can be folded in hydraulically from the operator's platform.	<b>Option</b>	<b>2598539</b>	<b>USD</b>	<b>5,311.00</b>
Support device for positioning the discharge conveyor on the flat bed truck	<b>Standard</b>	<b>60603</b>	<b>USD</b>	<b>0.00</b>
Semi-automatic ACTIVE CONVEYOR swing angle control that guides the discharge conveyor in construction site situations where milling is carried out at intersections or roundabouts	<b>Option</b>	<b>2598541</b>	<b>USD</b>	<b>1,335.00</b>
<b>Additional control unit LEVEL PRO</b>				
Additional 5" control panel for controlling the LEVEL PRO ACTIVE leveling system. Up to two additional control panels can be mounted in the rear lower area of the machines	<b>Option</b>	<b>2598631</b>	<b>USD</b>	<b>2,553.00</b>
2 Additional 7" control panel that displays the machine control and controls the LEVEL PRO ACTIVE levelling system. Up to two additional control panels can be mounted in the rear lower area of the machines	<b>Standard</b>	<b>2598632</b>	<b>USD</b>	<b>0.00</b>
Additional 2" control panel that can be programmed with up to 16 individually selected functions. Up to two additional control panels can be mounted on the outside railing of the operator's platform	<b>Standard</b>	<b>2598664</b>	<b>USD</b>	<b>0.00</b>

Two additional 2" control panels that can each be programmed with up to 16 individually selected functions. Up to two additional control panels can be mounted on the outside railing of the operator's platform	<b>Option</b>	<b>2767151</b>	<b>USD</b>	<b>4,314.00</b>
User-specific saving of individually adjustable machine settings such as the display configuration or the assignment of favorites buttons. The data can be saved on five different SMART KEY key fobs with tokens.	<b>Option</b>	<b>2779470</b>	<b>USD</b>	<b>1,335.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE levelling system with levelling boom. Premounted and adjustable hydraulic cylinders on the left and right allow the use of a Sonic-Ski sensor that is able to scan a reference object up to 1,900 mm away from the milling edge. During machine transport, the sensor and cables are securely stowed in the corresponding transport boxes.	<b>Option</b>	<b>2600969</b>	<b>USD</b>	<b>11,649.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with two hydraulic cylinder sensors for scanning a reference surface to the left and the right of the milling drum.	<b>Standard</b>	<b>2598630</b>	<b>USD</b>	<b>0.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with multiplex scanning on the right. Two additional ultrasonic sensors scan reference surfaces in front of and behind the machine. During machine transport, the sensors and cables are securely stowed in a corresponding transport box.	<b>Option</b>	<b>2598636</b>	<b>USD</b>	<b>5,575.00</b>
Extension of the LEVEL PRO ACTIVE leveling system with multiplex scanning on the left and right. Four additional ultrasonic sensors scan reference surfaces in front of and behind the machine. During machine transport, the sensors and cables are securely stowed in a corresponding transport box.	<b>Option</b>	<b>2598641</b>	<b>USD</b>	<b>10,828.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with pre-fitting for 3D milling with machines without a weather canopy. The pre-fitting equipment consists of robust and exactly positioned mounting adapters for a 3D system as well as sensor sockets for connecting the sensors to the LEVEL PRO ACTIVE system.	<b>Option</b>	<b>2662822</b>	<b>USD</b>	<b>9,185.00</b>
Extension of the LEVEL PRO ACTIVE leveling system with two linear laser sensors that can be installed using the pre-fitting equipment for 3D leveling.	<b>Option</b>	<b>2662826</b>	<b>USD</b>	<b>13,924.00</b>

<b>Water system</b>				
Powerful, hydraulically operated high pressure water cleaner with a maximum output of 15 l/min (4 gpm) at a pressure of 150 bar (2175 psi).	<b>Option</b>	<b>2598657</b>	<b>USD</b>	<b>2,744.00</b>
<b>Pick changing aids</b>				
Hydraulically driven pick ejector, including the holder and required electrical and hydraulic connections. Ideal for convenient, fast and low-noise pick changes.	<b>Standard</b>	<b>2598659</b>	<b>USD</b>	<b>0.00</b>
<b>Camera system</b>				
Four-fold camera system with an additional 10" control panel for an optimised view of the work processes being executed in front of and behind the machine as well as of the side plates, on the right and left. The camera images are displayed on the 10" control panel on the operator's platform.	<b>Standard</b>	<b>2598678</b>	<b>USD</b>	<b>0.00</b>
Eight-fold camera system with an additional 10" control panel for an optimised view of the work processes being executed in front of and behind the machine, of the side plates on the right and left and of the milled surface behind the milling drum unit. The camera images are displayed on the 10" control panel on the operator's platform.	<b>In lieu of 2598678</b>	<b>2598679</b>	<b>USD</b>	<b>4,328.00</b>
<b>Other devices</b>				
Dual starter system for maximum starting reliability with an additional automatic engine stop function that reduces diesel consumption.	<b>Option</b>	<b>2647215</b>	<b>USD</b>	<b>5,311.00</b>
Electrical diesel suction and pressure pump with 7.50 m (24 ft 7 in) suction hose. The machine can be refueled with up to 50 l/min (13 gal/min) from external diesel tanks.	<b>Option</b>	<b>2598663</b>	<b>USD</b>	<b>1,012.00</b>
License plate holder with LED lighting	<b>Option</b>	<b>2654224</b>	<b>USD</b>	<b>528.00</b>
Hydraulically powered sweeping unit consisting of a central brush and side brushes on both sides used to sweep the milled surface behind the machine. The direction in which the brushes rotate can be changed depending on the desired direction of sweeping. The unit can be folded up hydraulically from the operator's platform during transport or when maneuvering. It is operated via the 2" control panel that comes with the unit.	<b>Option</b>	<b>2779365</b>	<b>USD</b>	<b>49,121.00</b>
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	<b>Option</b>		<b>USD</b>	<b>88.00</b>
Spare part and application documentation English (EN)	<b>Option</b>		<b>USD</b>	<b>15.00</b>

## Price list

# W 220 Fi - 2200 mm milling drum

### Scope of supply – basic machine

- Engine: 6-cylinder diesel engine: CATERPILLAR C18 ATAAC
- Rated power at 1,950 r.p.m.: 597 KW / 801 HP / 812 PS
- Exhaust standard: EU Stage V / US EPA Tier 4f
- Standard milling width: 7 ft 3 in / 2,200 mm
- Maximum milling depth: 1 ft 2 in / 350 mm

### STANDARD EQUIPMENT

- Base machine with engine
- Machine frame featuring a single wasp waist at the rear right and a dual wasp waist at the front
- DUAL SHIFT two-speed powershift transmission for efficient engine speeds combined with powerful milling drum speeds.
- Automatic pressure adjustment of the hydraulic pump for cylinder functions in accordance with performance requirements for reduced diesel consumption
- Hydraulically opening, soundproof engine cover
- Air compressor system
- Battery-operated hydraulic unit for auxiliary drive
- Two cooling fans to minimize power consumption of the cooling system

### MILLING DRUM HOUSING

- Adjustment of material depressor contact pressure via the control panel or automatically via the MILL ASSIST feature to reduce chunk formation
- Electrical adjustment of scraper contact pressure via the control panel
- Automatically controlled locking feature of scraper
- Milling drum rotation device with electro-hydraulic milling drum drive for slowly turning the milling drum during pick replacement.
- Single-piece water spray bar in the milling drum unit for reliable pick cooling and to prevent dust development
- Automatic control of the water quantity via the MILL ASSIST feature
- Height adjustment stroke increased by 200 mm to facilitate pick replacement and the exchange of milling drum units
- Pre-fitting to allow the quick exchange of milling drum units.
- Hydraulically lifting side plates, clearance right 450 mm (1 ft 6 in), clearance left 330 mm (1 ft 1 in)

### LOADING OF MILLED MATERIAL

- Increased conveyor swing angles of 65° each to the left and right
- Discharge conveyor with adjustable conveying speed and two slewing speeds for precise loading
- Boost feature for a temporary increase of the belt speed and conveying performance of the discharge conveyor by 20%
- Water spray system in the primary conveyor
- Larger conveyor pump for a constant belt speed even at a low engine speed of 1300 rpm

### MACHINE CONTROL AND LEVELLING SYSTEM

- User-friendly control panel including 7" color screen
- LEVEL PRO ACTIVE leveling system with numerous automated and complementary operator relieving features
- LEVEL PRO ACTIVE - automatic height control in transport mode
- LEVEL PRO ACTIVE - ramp milling and auto-start feature for the second milling cut
- RAPID SLOPE cross-slope sensor for LEVEL PRO ACTIVE leveling system
- MILL ASSIST assistance system for automatic adjustment of the milling drum speed in accordance with the main area of application and the parameters selected in terms of engine load, advance rate, milling volume and quality of the milling pattern.

- Automatic start-stop feature of the milling drum to reduce diesel consumption
- Comprehensive machine diagnostics on the control panel including, for example, a diagnostic system for the CAN bus
- Voltmeter integrated into the control panel for voltage measurement in the event of a malfunction
- Two control panels for operating functions performed by ground crew

#### OPERATOR'S PLATFORM

- Convenient access to the operator's platform, left and right
- Anti-vibration mounted operator's platform across the full width of the machine including fold-out railing, right
- Electrical control cabinet on the operator's platform for optimum accessibility and fast troubleshooting
- Electrical level indicator for the water tank on the external control panels
- Time display on the main control panel and on the exterior control panels
- Two mirrors at the front, one mirror at the rear of the machine

#### TRACK UNIT AND HEIGHT ADJUSTMENT

- PTS – automatic alignment of the machine parallel to the pavement surface
- ISC – intelligent track speed control including hydraulic four-track drive
- Fourfold full-floating axle for high machine stability
- High travel speed of up to 88 m / min at low engine speeds (1,350 rpm), reduced diesel consumption and low noise emissions.

#### MISCELLANEOUS

- "Welcome" and "Go home" lights feature in the area of the operator's platform and access
- Large storage compartment on the machine for pick containers
- High-pressure water system with automatic on/off function, 261 psi / 18 bar, 17 gal.min / 67 l/min
- Good accessibility to all maintenance points on the engine station
- Pneumatic hammer with pick extractor/insertor
- Large tool kit in lockable tool box
- A total of six EMERGENCY STOP switches in appropriate positions on the machine
- Pre-fitting for installing the WITOS FleetView control unit
- European type certification, EuroTest mark and CE conformity

**List price ex subsidiary Wirtgen America** **USD** **1,005,459.00**

#### Mandatory Options

##### Milling drum housing

Wear-resistant, weight-optimized milling drum housing MCS BASIC FB2200 (7 ft 3 in) with pre-fitting enabling a quick and easy change of the milling drums with varying spacings, without milling drum.	<b>Standard</b>	<b>2667113</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

##### Milling drums / milling units

Milling drum MCS BASIC with milling width 2200 mm / 7 ft / 3 in, milling depth max. 320 mm / 1ft / 0,5 in, tool spacing 15 mm / 19/32 in, equipped with quick-change toolholder system HT22 and 180 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.	<b>Standard</b>	<b>2679870</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

##### OPERATOR'S PLATFORM

Anti-vibration-mounted operator's platform with easy-to-read control panels, functional stand-up seat and a large, lockable storage compartment with a capacity of approx 69 gal / 260 liters	<b>Standard</b>	<b>2700694</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

Anti-vibration-mounted operator's platform with easy-to-read control panels, functional stand-up seat and a large, lockable storage compartment with a capacity of approx 69 gal/260 liters. A hydraulically height-adjustable weather canopy with transparent side weather protection elements protects the operator from the wind and weather.	<b>In lieu of 2700694</b>	<b>2700695</b>	<b>USD</b>	<b>17,342.00</b>
<b>Material transport</b>				
Heavy-duty 26 ft 9 in (8,150 mm) long discharge conveyor with 3 ft 3 in (1,000 mm) conveyor belt system and hydraulic folding device to shorten the transport length	<b>Standard</b>	<b>2667116</b>	<b>USD</b>	<b>0.00</b>
Robust 26 ft 9 in / 8,150 mm long discharge conveyor with conveyor belt system 3 ft 3 in / 1,000 mm	<b>Option</b>	<b>2718941</b>	<b>USD</b>	<b>-15,097.00</b>
<b>Water tank filling</b>				
Additional water tank filling from the rear of the machine using a shut-off cock.	<b>Standard</b>	<b>2667152</b>	<b>USD</b>	<b>0.00</b>
Additional water tank filling from the rear of the machine with a powerful, hydraulically operated filler pump	<b>Option</b>	<b>2667153</b>	<b>USD</b>	<b>4,225.00</b>
<b>Paint</b>				
Film coating in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7019	<b>Standard</b>	<b>2700380</b>	<b>USD</b>	<b>0.00</b>
The film coating is applied in RAL colors and design according to the customer's wishes. Film coating provides protection against mechanical and weather-related damage and can be removed without leaving any marks, if required	<b>Option</b>	<b>2700381</b>	<b>USD</b>	<b>1,247.00</b>
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	<b>Standard</b>	<b>2456347</b>	<b>USD</b>	<b>0.00</b>
<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	<b>Standard</b>	<b>2770403</b>	<b>USD</b>	<b>0.00</b>

The WIRTGEN PERFORMANCE TRACKER WPT is a laser and satellite-supported measuring system for precise milling performance determination for machines with FB2000, FB 220 or FB2500 without a weather canopy or with an operator's cabin. Two laser scanners measure the actual milling width and milling depth over the distance of the milling path. The milling performance results are automatically sent to the corresponding users via the WITOS interface with precise GPS machine position data and consumption data such as diesel consumption, water consumption, tool consumption and truck loads, in an evaluation and then by e-mail. The milling performance reports that include an image of the milling position can also be used as an allowance report. The usability of WITOS hardware components for the existing mobile radio standard is guaranteed for 3 years from the date of delivery.	<b>Option</b>	<b>2787665</b>	<b>USD</b>	<b>50,882.00</b>
<b>Machine lighting</b>				
Extended lighting system consisting of 21 extremely powerful LED working lights for optimum illumination of the working area. Total light output of the working lights is approx. 43,600 lumens	<b>Standard</b>	<b>2667172</b>	<b>USD</b>	<b>0.00</b>
Extended lighting system consisting of 21 extremely powerful LED working lights for optimum illumination of the working area. Total light output of the working lights is approximately 43,600 lumens. The additional lighting balloon is powered via the machine's 24V electrical power supply and achieves an additional light output of 50,000 lumens	<b>In lieu of 2667172</b>	<b>2667173</b>	<b>USD</b>	<b>5,208.00</b>
<b>Equipment Options</b>				
<b>Additional weight</b>				
Two additional weights located at the rear of the machine with a total weight of 1.500 kg (3,307 lbs) for individual machine ballasting. The individual weights, each weighing 750 kg (1,653 lbs), can be easily and quickly inserted and fastened to the rear of the machine.	<b>Option</b>	<b>2667175</b>	<b>USD</b>	<b>7,277.00</b>
<b>Additional weight</b>				
Large, generously sized storage compartment for 72 pick containers at the rear of the machine instead of the standard storage compartment. The storage compartment is lockable, splash-proof and additionally contains a completely sealed area to safely store electronic components, such as levelling sensors or pick ejectors	<b>Option</b>	<b>2667177</b>	<b>USD</b>	<b>3,477.00</b>
Storage compartment close to both rear track units for 10 pick containers	<b>Standard</b>	<b>2700383</b>	<b>USD</b>	<b>0.00</b>

<b>Equipment operator's platform</b>				
A powerful hot-air heating system with intelligently arranged air vents close to the operator's hands and feet offers maximum comfort on the operator's platform	<b>Option</b>	<b>2745118</b>	<b>USD</b>	<b>4,181.00</b>
Operator's platform equipped with a height-adjustable stand-up seat for greater operator comfort	<b>Standard</b>	<b>2688479</b>	<b>USD</b>	<b>0.00</b>
<b>Milling drum assembly options</b>				
The actual milling depth is determined by calculating the difference in readings from sensors on the side plate and sensors on the scraper. The actual milling depth is displayed on the LEVEL PRO ACTIVE panel.	<b>Standard</b>	<b>2598665</b>	<b>USD</b>	<b>0.00</b>
Overload sensors automatically lift the scraper whenever obstacles are detected that could damage the scraper.	<b>Option</b>	<b>2667192</b>	<b>USD</b>	<b>1,746.00</b>
Active floating position for the side plates on the left and right by continuously adjusting the milling depth and position of the plates. If necessary, the side plates can be briefly raised to prevent them from sinking into the soft ground.	<b>Standard</b>	<b>2598531</b>	<b>USD</b>	<b>0.00</b>
Extension of MCS BASIC with one hydraulically opening side panel on the milling drum unit FB2200/FB2500 (7 ft 3 in/8 ft 2 in). An additional hydraulic cylinder enables the MCS side panel to be easily opened when changing milling drums. This enables MCS BASIC milling drums to be changed even faster.	<b>Standard</b>	<b>2667195</b>	<b>USD</b>	<b>0.00</b>
Electrically switchable sectional water spray bar in the milling drum unit FB2200 (7 ft 3 in). Four areas can be controlled as required from the control panel (automatically controlled with WPT). This significantly reduces water consumption.	<b>Standard</b>	<b>2667199</b>	<b>USD</b>	<b>0.00</b>
Two wear protection rollers that can be attached to the side plates (left or right). The rollers protect the asphalt, curbs, and other surfaces from damage and prevent excessive wear to the side plates.	<b>Option</b>	<b>2662818</b>	<b>USD</b>	<b>866.00</b>
The mounting aid makes it much easier to change the milling drum assembly. Two extended wire ropes from the discharge conveyor are reattached and pull the primary conveyor out of the milling drum housing. This enables the aggregate to be changed without any additional effort. It saves time and work whenever the milling drum assembly needs to be changed.	<b>Standard</b>	<b>2685194</b>	<b>USD</b>	<b>0.00</b>
Transport carriage for milling drum units from FB2200 (7 ft 3 in) to FB4400 (14 ft 5 in) to make it easier to change milling drum units and handle them in the workshop or on the job site.	<b>Option</b>	<b>2282163</b>	<b>USD</b>	<b>19,117.00</b>

Milling drum mounting and transport cart for milling drums from FB1500 (4 ft 11 in) to FB2500 (8 ft 2 in)	<b>Option</b>	<b>2312515</b>	<b>USD</b>	<b>7,072.00</b>
Transport roller set consisting of 4 heavy-duty rollers for easy removal of milling units from FB1500 to FB3800 on level surfaces.	<b>Option</b>	<b>2762958</b>	<b>USD</b>	<b>5,751.00</b>
<b>Options for belt conveyor</b>				
VCS – vacuum cutting system on the discharge conveyor for the extraction of fine material particles and water vapor from the sealed milling drum unit.	<b>Standard</b>	<b>2667207</b>	<b>USD</b>	<b>0.00</b>
Signal lights for visual "stop" and "go" instructions for the truck driver without the use of a horn. The signal lights can be folded in hydraulically from the operator's platform.	<b>Option</b>	<b>2598539</b>	<b>USD</b>	<b>5,311.00</b>
Semi-automatic ACTIVE CONVEYOR swing angle control that guides the discharge conveyor in construction site situations where milling is carried out at intersections or roundabouts	<b>Standard</b>	<b>2703705</b>	<b>USD</b>	<b>0.00</b>
Support device for positioning the discharge conveyor on the flat bed truck	<b>Standard</b>	<b>60603</b>	<b>USD</b>	<b>0.00</b>
<b>Additional control unit LEVEL PRO</b>				
Additional 5" control panel for controlling the LEVEL PRO ACTIVE leveling system. Up to two additional control panels can be mounted in the rear lower area of the machines	<b>Option</b>	<b>2598631</b>	<b>USD</b>	<b>2,553.00</b>
2 Additional 7" control panel that displays the machine control and controls the LEVEL PRO ACTIVE levelling system. Up to two additional control panels can be mounted in the rear lower area of the machines	<b>Standard</b>	<b>2598632</b>	<b>USD</b>	<b>0.00</b>
Additional 2" control panel that can be programmed with up to 16 individually selected functions. Up to two additional control panels can be mounted on the outside railing of the operator's platform	<b>Standard</b>	<b>2598664</b>	<b>USD</b>	<b>0.00</b>
Two additional 2" control panels that can each be programmed with up to 16 individually selected functions. Up to two additional control panels can be mounted on the outside railing of the operator's platform	<b>Option</b>	<b>2767151</b>	<b>USD</b>	<b>4,314.00</b>
User-specific saving of individually adjustable machine settings such as the display configuration or the assignment of favorites buttons. The data can be saved on five different SMART KEY key fobs with tokens.	<b>Standard</b>	<b>2779470</b>	<b>USD</b>	<b>0.00</b>

<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE levelling system with levelling boom. Premounted and adjustable hydraulic cylinders on the left and right allow the use of a Sonic-Ski sensor that is able to scan a reference object up to 1,900 mm away from the milling edge. During machine transport, the sensor and cables are securely stowed in the corresponding transport boxes.	<b>Option</b>	<b>2667237</b>	<b>USD</b>	<b>11,649.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with two hydraulic cylinder sensors for scanning a reference surface to the left and the right of the milling drum.	<b>Standard</b>	<b>2667241</b>	<b>USD</b>	<b>0.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with multiplex scanning on the right. Two additional ultrasonic sensors scan reference surfaces in front of and behind the machine. During machine transport, the sensors and cables are securely stowed in a corresponding transport box.	<b>Option</b>	<b>2673212</b>	<b>USD</b>	<b>5,575.00</b>
Extension of the LEVEL PRO ACTIVE leveling system with multiplex scanning on the left and right. Four additional ultrasonic sensors scan reference surfaces in front of and behind the machine. During machine transport, the sensors and cables are securely stowed in a corresponding transport box.	<b>Option</b>	<b>2673213</b>	<b>USD</b>	<b>10,828.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with pre-fitting for 3D milling with machines without a weather canopy. The pre-fitting equipment consists of robust and exactly positioned mounting adapters for a 3D system as well as sensor sockets for connecting the sensors to the LEVEL PRO ACTIVE system.	<b>Option</b>	<b>2667342</b>	<b>USD</b>	<b>9,185.00</b>
Extension of the LEVEL PRO ACTIVE leveling system with pre-fitting for 3D milling with machines with a weather canopy. The pre-fitting equipment consists of robust and exactly positioned mounting adapters for a 3D system as well as sensor sockets for connecting the sensors to the LEVEL PRO ACTIVE system.	<b>Option</b>	<b>2667343</b>	<b>USD</b>	<b>2,303.00</b>
<b>Water system</b>				
Powerful, hydraulically operated high pressure water cleaner with a maximum output of 15 l/min (4 gpm) at a pressure of 150 bar (2175 psi).	<b>Option</b>	<b>2667357</b>	<b>USD</b>	<b>2,744.00</b>

<b>Pick changing aids</b>				
One hydraulically powered pick ejector, including the required electrical and hydraulic connections. Ideal for convenient, fast and low-noise pick changes.	<b>Standard</b>	<b>2745119</b>	<b>USD</b>	<b>0.00</b>
Two hydraulically powered pick ejectors, including the required electrical and hydraulic connections. Ideal for convenient, fast and low-noise pick changes.	<b>In lieu of 2745119</b>	<b>2793518</b>	<b>USD</b>	<b>2,685.00</b>
<b>Camera system</b>				
Two-fold camera system with one camera at the discharge conveyor and one camera with a view of the rear area. The camera images are displayed on the standard 7" control panel on the operator's platform.	<b>In lieu of 2673434</b>	<b>2673433</b>	<b>USD</b>	<b>-4,358.00</b>
Four-fold camera system with an additional 10" control panel for an optimised view of the work processes being executed in front of and behind the machine as well as of the side plates, on the right and left. The camera images are displayed on the 10" control panel on the operator's platform.	<b>Standard</b>	<b>2673434</b>	<b>USD</b>	<b>0.00</b>
Eight-fold camera system with an additional 10" control panel for an optimised view of the work processes being executed in front of and behind the machine, of the side plates on the right and left and of the milled surface behind the milling drum unit. The camera images are displayed on the 10" control panel on the operator's platform.	<b>In lieu of 2673434</b>	<b>2673435</b>	<b>USD</b>	<b>4,328.00</b>
<b>Other devices</b>				
Dual starter system for maximum starting reliability with an additional automatic engine stop function that reduces diesel consumption.	<b>Option</b>	<b>2745138</b>	<b>USD</b>	<b>5,311.00</b>
Electrical diesel suction and pressure pump with 7.50 m (24 ft 7 in) suction hose. The machine can be refueled with up to 50 l/min (13 gal/min) from external diesel tanks.	<b>Option</b>	<b>2673456</b>	<b>USD</b>	<b>1,012.00</b>
License plate holder with LED lighting	<b>Option</b>	<b>2654224</b>	<b>USD</b>	<b>528.00</b>
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	<b>Option</b>		<b>USD</b>	<b>88.00</b>
Spare part and application documentation English (EN)	<b>Option</b>		<b>USD</b>	<b>15.00</b>

## Price list

# W 220 Fi - 2500 mm milling drum

### Scope of supply – basic machine

- Engine: 6-cylinder diesel engine: CATERPILLAR C18 ATAAC
- Rated power at 1,950 r.p.m.: 597 KW / 801 HP / 812 PS
- Exhaust standard: EU Stage V / US EPA Tier 4f
- Standard milling width: 7 ft 3 in / 2,200 mm
- Maximum milling depth: 1 ft 2 in / 350 mm

### STANDARD EQUIPMENT

- Base machine with engine
- Machine frame featuring a single wasp waist at the rear right and a dual wasp waist at the front
- DUAL SHIFT two-speed powershift transmission for efficient engine speeds combined with powerful milling drum speeds.
- Automatic pressure adjustment of the hydraulic pump for cylinder functions in accordance with performance requirements for reduced diesel consumption
- Hydraulically opening, soundproof engine cover
- Air compressor system
- Battery-operated hydraulic unit for auxiliary drive
- Two cooling fans to minimize power consumption of the cooling system

### MILLING DRUM HOUSING

- Adjustment of material depressor contact pressure via the control panel or automatically via the MILL ASSIST feature to reduce chunk formation
- Electrical adjustment of scraper contact pressure via the control panel
- Automatically controlled locking feature of scraper
- Milling drum rotation device with electro-hydraulic milling drum drive for slowly turning the milling drum during pick replacement.
- Single-piece water spray bar in the milling drum unit for reliable pick cooling and to prevent dust development
- Automatic control of the water quantity via the MILL ASSIST feature
- Height adjustment stroke increased by 200 mm to facilitate pick replacement and the exchange of milling drum units
- Pre-fitting to allow the quick exchange of milling drum units.
- Hydraulically lifting side plates, clearance right 450 mm (1 ft 6 in), clearance left 330 mm (1 ft 1 in)

### LOADING OF MILLED MATERIAL

- Increased conveyor swing angles of 65° each to the left and right
- Discharge conveyor with adjustable conveying speed and two slewing speeds for precise loading
- Boost feature for a temporary increase of the belt speed and conveying performance of the discharge conveyor by 20%
- Water spray system in the primary conveyor
- Larger conveyor pump for a constant belt speed even at a low engine speed of 1300 rpm

### MACHINE CONTROL AND LEVELLING SYSTEM

- User-friendly control panel including 7" color screen
- LEVEL PRO ACTIVE leveling system with numerous automated and complementary operator relieving features
- LEVEL PRO ACTIVE - automatic height control in transport mode
- LEVEL PRO ACTIVE - ramp milling and auto-start feature for the second milling cut
- RAPID SLOPE cross-slope sensor for LEVEL PRO ACTIVE leveling system
- MILL ASSIST assistance system for automatic adjustment of the milling drum speed in accordance with the main area of application and the parameters selected in terms of engine load, advance rate, milling volume and quality of the milling pattern.

- Automatic start-stop feature of the milling drum to reduce diesel consumption
- Comprehensive machine diagnostics on the control panel including, for example, a diagnostic system for the CAN bus
- Voltmeter integrated into the control panel for voltage measurement in the event of a malfunction
- Two control panels for operating functions performed by ground crew

#### OPERATOR 'S PLATFORM

- Convenient access to the operator's platform, left and right
- Anti-vibration mounted operator's platform across the full width of the machine including fold-out railing, right
- Electrical control cabinet on the operator's platform for optimum accessibility and fast troubleshooting
- Electrical level indicator for the water tank on the external control panels
- Time display on the main control panel and on the exterior control panels
- Two mirrors at the front, one mirror at the rear of the machine

#### TRACK UNIT AND HEIGHT ADJUSTMENT

- PTS – automatic alignment of the machine parallel to the pavement surface
- ISC – intelligent track speed control including hydraulic four-track drive
- Fourfold full-floating axle for high machine stability
- High travel speed of up to 88 m / min at low engine speeds (1,350 rpm), reduced diesel consumption and low noise emissions.

#### MISCELLANEOUS

- "Welcome" and "Go home" lights feature in the area of the operator's platform and access
- Large storage compartment on the machine for pick containers
- High-pressure water system with automatic on/off function, 261 psi / 18 bar, 17 gal.min / 67 l/min
- Good accessibility to all maintenance points on the engine station
- Pneumatic hammer with pick extractor/insertor
- Large tool kit in lockable tool box
- A total of six EMERGENCY STOP switches in appropriate positions on the machine
- Pre-fitting for installing the WITOS FleetView control unit
- European type certification, EuroTest mark and CE conformity

<b>List price ex subsidiary Wirtgen America</b>	<b>USD</b>	<b>1,032,382.00</b>
---	------------	---------------------

#### Mandatory Options

##### Milling drum housing

Wear-resistant milling drum housing MCS BASIC FB2500 (8 ft 2 in) with pre-fitting enabling a quick and easy change of the milling drums with varying spacings, without milling drum.	<b>Standard</b>	<b>2782697</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

##### Milling drums / milling units

Milling drum MCS BASIC with milling width 2500 mm / 8 ft / 2 in, milling depth max. 350 mm / 1 ft 2 in, tool spacing 15 mm / 19/32 in, equipped with quick-change toolholder system HT22 and 196 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.	<b>Standard</b>	<b>2679915</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

<b>OPERATOR'S PLATFORM</b>				
Anti-vibration-mounted operator's platform with easy-to-read control panels, functional stand-up seat and a large, lockable storage compartment with a capacity of approx 69 gal / 260 liters	<b>Standard</b>	<b>2700694</b>	<b>USD</b>	<b>0.00</b>
Anti-vibration-mounted operator's platform with easy-to-read control panels, functional stand-up seat and a large, lockable storage compartment with a capacity of approx 69 gal/260 liters. A hydraulically height-adjustable weather canopy with transparent side weather protection elements protects the operator from the wind and weather.	<b>In lieu of 2700694</b>	<b>2700695</b>	<b>USD</b>	<b>17,342.00</b>
<b>Material transport</b>				
Heavy-duty 26 ft 9 in (8,150 mm) long discharge conveyor with 3 ft 3 in (1,000 mm) conveyor belt system and hydraulic folding device to shorten the transport length	<b>Standard</b>	<b>2667116</b>	<b>USD</b>	<b>0.00</b>
Robust 26 ft 9 in / 8,150 mm long discharge conveyor with conveyor belt system 3 ft 3 in / 1,000 mm	<b>Option</b>	<b>2718941</b>	<b>USD</b>	<b>-15,097.00</b>
<b>Water tank filling</b>				
Additional water tank filling from the rear of the machine using a shut-off cock.	<b>Standard</b>	<b>2667152</b>	<b>USD</b>	<b>0.00</b>
Additional water tank filling from the rear of the machine with a powerful, hydraulically operated filler pump	<b>Option</b>	<b>2667153</b>	<b>USD</b>	<b>4,225.00</b>
<b>Paint</b>				
Film coating in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7019	<b>Standard</b>	<b>2700380</b>	<b>USD</b>	<b>0.00</b>
The film coating is applied in RAL colors and design according to the customer's wishes. Film coating provides protection against mechanical and weather-related damage and can be removed without leaving any marks, if required	<b>Option</b>	<b>2700381</b>	<b>USD</b>	<b>1,247.00</b>
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	<b>Standard</b>	<b>2456347</b>	<b>USD</b>	<b>0.00</b>

<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	<b>Standard</b>	<b>2770403</b>	<b>USD</b>	<b>0.00</b>
The WIRTGEN PERFORMANCE TRACKER WPT is a laser and satellite-supported measuring system for precise milling performance determination for machines with FB2000, FB 220 or FB2500 without a weather canopy or with an operator's cabin. Two laser scanners measure the actual milling width and milling depth over the distance of the milling path. The milling performance results are automatically sent to the corresponding users via the WITOS interface with precise GPS machine position data and consumption data such as diesel consumption, water consumption, tool consumption and truck loads, in an evaluation and then by e-mail. The milling performance reports that include an image of the milling position can also be used as an allowance report. The usability of WITOS hardware components for the existing mobile radio standard is guaranteed for 3 years from the date of delivery.	<b>Option</b>	<b>2787665</b>	<b>USD</b>	<b>50,882.00</b>
<b>Machine lighting</b>				<b>0.00</b>
Extended lighting system consisting of 21 extremely powerful LED working lights for optimum illumination of the working area. Total light output of the working lights is approx. 43,600 lumens	<b>Standard</b>	<b>2667172</b>	<b>USD</b>	<b>0.00</b>
Extended lighting system consisting of 21 extremely powerful LED working lights for optimum illumination of the working area. Total light output of the working lights is approximately 43,600 lumens. The additional lighting balloon is powered via the machine's 24V electrical power supply and achieves an additional light output of 50,000 lumens	<b>In lieu of 266172</b>	<b>2667173</b>	<b>USD</b>	<b>5,208.00</b>

Equipment Options				
<b>Additional weight</b>				
Two additional weights located at the rear of the machine with a total weight of 1.500 kg (3,307 lbs) for individual machine ballasting. The individual weights, each weighing 750 kg (1,653 lbs), can be easily and quickly inserted and fastened to the rear of the machine.	Option	2667175	USD	7,277.00
<b>Additional weight</b>				
Large, generously sized storage compartment for 72 pick containers at the rear of the machine instead of the standard storage compartment. The storage compartment is lockable, splash-proof and additionally contains a completely sealed area to safely store electronic components, such as levelling sensors or pick ejectors	Option	2667177	USD	3,477.00
Storage compartment close to both rear track units for 10 pick containers	Standard	2700383	USD	0.00
<b>Equipment operator's platform</b>				
A powerful hot-air heating system with intelligently arranged air vents close to the operator's hands and feet offers maximum comfort on the operator's platform	Option	2745118	USD	4,181.00
Operator's platform equipped with a height-adjustable stand-up seat for greater operator comfort	Standard	2688479	USD	0.00
<b>Milling drum assembly options</b>				
The actual milling depth is determined by calculating the difference in readings from sensors on the side plate and sensors on the scraper. The actual milling depth is displayed on the LEVEL PRO ACTIVE panel.	Standard	2598665	USD	0.00
Overload sensors automatically lift the scraper whenever obstacles are detected that could damage the scraper.	Option	2667192	USD	1,746.00
Active floating position for the side plates on the left and right by continuously adjusting the milling depth and position of the plates. If necessary, the side plates can be briefly raised to prevent them from sinking into the soft ground.	Standard	2598531	USD	0.00
Extension of MCS BASIC with one hydraulically opening side panel on the milling drum unit FB2200/FB2500 (7 ft 3 in/8 ft 2 in). An additional hydraulic cylinder enables the MCS side panel to be easily opened when changing milling drums. This enables MCS BASIC milling drums to be changed even faster.	Standard	2667195	USD	0.00
Electrically switchable sectional water spray bar in the milling drum assembly FB2500 (8 ft 2 in). Four areas can be controlled as required from the control panel (automatically controlled with WPT). This reduces water consumption enormously.	Standard	2667200	USD	0.00

Two wear protection rollers that can be attached to the side plates (left or right). The rollers protect the asphalt, curbs, and other surfaces from damage and prevent excessive wear to the side plates.	<b>Option</b>	<b>2662818</b>	<b>USD</b>	<b>866.00</b>
The mounting aid makes it much easier to change the milling drum assembly. Two extended wire ropes from the discharge conveyor are reattached and pull the primary conveyor out of the milling drum housing. This enables the aggregate to be changed without any additional effort. It saves time and work whenever the milling drum assembly needs to be changed.	<b>Standard</b>	<b>2685194</b>	<b>USD</b>	<b>0.00</b>
Transport carriage for milling drum units from FB2200 (7 ft 3 in) to FB4400 (14 ft 5 in) to make it easier to change milling drum units and handle them in the workshop or on the job site.	<b>Option</b>	<b>2282163</b>	<b>USD</b>	<b>19,117.00</b>
Milling drum mounting and transport cart for milling drums from FB1500 (4 ft 11 in) to FB2500 (8 ft 2 in)	<b>Option</b>	<b>2312515</b>	<b>USD</b>	<b>7,072.00</b>
Transport roller set consisting of 4 heavy-duty rollers for easy removal of milling units from FB1500 to FB3800 on level surfaces.	<b>Option</b>	<b>2762958</b>	<b>USD</b>	<b>5,751.00</b>
<b>Options for belt conveyor</b>				
VCS – vacuum cutting system on the discharge conveyor for the extraction of fine material particles and water vapor from the sealed milling drum unit.	<b>Standard</b>	<b>2667207</b>	<b>USD</b>	<b>0.00</b>
Signal lights for visual "stop" and "go" instructions for the truck driver without the use of a horn. The signal lights can be folded in hydraulically from the operator's platform.	<b>Option</b>	<b>2598539</b>	<b>USD</b>	<b>5,311.00</b>
Semi-automatic ACTIVE CONVEYOR swing angle control that guides the discharge conveyor in construction site situations where milling is carried out at intersections or roundabouts	<b>Standard</b>	<b>2703705</b>	<b>USD</b>	<b>0.00</b>
Support device for positioning the discharge conveyor on the flat bed truck	<b>Standard</b>	<b>60603</b>	<b>USD</b>	<b>0.00</b>
<b>Additional control unit LEVEL PRO</b>				
Additional 5" control panel for controlling the LEVEL PRO ACTIVE leveling system. Up to two additional control panels can be mounted in the rear lower area of the machines	<b>Option</b>	<b>2598631</b>	<b>USD</b>	<b>2,553.00</b>
2 Additional 7" control panel that displays the machine control and controls the LEVEL PRO ACTIVE levelling system. Up to two additional control panels can be mounted in the rear lower area of the machines	<b>Standard</b>	<b>2598632</b>	<b>USD</b>	<b>0.00</b>

Additional 2" control panel that can be programmed with up to 16 individually selected functions. Up to two additional control panels can be mounted on the outside railing of the operator's platform	<b>Standard</b>	<b>2598664</b>	<b>USD</b>	<b>0.00</b>
Two additional 2" control panels that can each be programmed with up to 16 individually selected functions. Up to two additional control panels can be mounted on the outside railing of the operator's platform	<b>Option</b>	<b>2767151</b>	<b>USD</b>	<b>4,314.00</b>
User-specific saving of individually adjustable machine settings such as the display configuration or the assignment of favorites buttons. The data can be saved on five different SMART KEY key fobs with tokens.	<b>Standard</b>	<b>2779470</b>	<b>USD</b>	<b>0.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE levelling system with levelling boom. Premounted and adjustable hydraulic cylinders on the left and right allow the use of a Sonic-Ski sensor that is able to scan a reference object up to 1,900 mm away from the milling edge. During machine transport, the sensor and cables are securely stowed in the corresponding transport boxes.	<b>Option</b>	<b>2667237</b>	<b>USD</b>	<b>11,649.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with two hydraulic cylinder sensors for scanning a reference surface to the left and the right of the milling drum.	<b>Standard</b>	<b>2667241</b>	<b>USD</b>	<b>0.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with multiplex scanning on the right. Two additional ultrasonic sensors scan reference surfaces in front of and behind the machine. During machine transport, the sensors and cables are securely stowed in a corresponding transport box.	<b>Option</b>	<b>2673212</b>	<b>USD</b>	<b>5,575.00</b>
Extension of the LEVEL PRO ACTIVE leveling system with multiplex scanning on the left and right. Four additional ultrasonic sensors scan reference surfaces in front of and behind the machine. During machine transport, the sensors and cables are securely stowed in a corresponding transport box.	<b>Option</b>	<b>2673213</b>	<b>USD</b>	<b>10,828.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with pre-fitting for 3D milling with machines without a weather canopy. The pre-fitting equipment consists of robust and exactly positioned mounting adapters for a 3D system as well as sensor sockets for connecting the sensors to the LEVEL PRO ACTIVE system.	<b>Option</b>	<b>2667342</b>	<b>USD</b>	<b>9,185.00</b>

Extension of the LEVEL PRO ACTIVE leveling system with pre-fitting for 3D milling with machines with a weather canopy. The pre-fitting equipment consists of robust and exactly positioned mounting adapters for a 3D system as well as sensor sockets for connecting the sensors to the LEVEL PRO ACTIVE system.	<b>Option</b>	<b>2667343</b>	<b>USD</b>	<b>2,303.00</b>
<b>Water system</b>				
Powerful, hydraulically operated high pressure water cleaner with a maximum output of 15 l/min (4 gpm) at a pressure of 150 bar (2175 psi).	<b>Option</b>	<b>2667357</b>	<b>USD</b>	<b>2,744.00</b>
<b>Pick changing aids</b>				
One hydraulically powered pick ejector, including the required electrical and hydraulic connections. Ideal for convenient, fast and low-noise pick changes.	<b>Standard</b>	<b>2745119</b>	<b>USD</b>	<b>0.00</b>
Two hydraulically powered pick ejectors, including the required electrical and hydraulic connections. Ideal for convenient, fast and low-noise pick changes.	<b>In lieu of 2745119</b>	<b>2793518</b>	<b>USD</b>	<b>2,685.00</b>
<b>Camera system</b>				
Two-fold camera system with one camera at the discharge conveyor and one camera with a view of the rear area. The camera images are displayed on the standard 7" control panel on the operator's platform.	<b>In lieu of 2673434</b>	<b>2673433</b>	<b>USD</b>	<b>-4,358.00</b>
Four-fold camera system with an additional 10" control panel for an optimised view of the work processes being executed in front of and behind the machine as well as of the side plates, on the right and left. The camera images are displayed on the 10" control panel on the operator's platform.	<b>Standard</b>	<b>2673434</b>	<b>USD</b>	<b>0.00</b>
Eight-fold camera system with an additional 10" control panel for an optimised view of the work processes being executed in front of and behind the machine, of the side plates on the right and left and of the milled surface behind the milling drum unit. The camera images are displayed on the 10" control panel on the operator's platform.	<b>In lieu of 2673434</b>	<b>2673435</b>	<b>USD</b>	<b>4,328.00</b>
<b>Other devices</b>				
Dual starter system for maximum starting reliability with an additional automatic engine stop function that reduces diesel consumption.	<b>Option</b>	<b>2745138</b>	<b>USD</b>	<b>5,311.00</b>
Electrical diesel suction and pressure pump with 7.50 m (24 ft 7 in) suction hose. The machine can be refueled with up to 50 l/min (13 gal/min) from external diesel tanks.	<b>Option</b>	<b>2673456</b>	<b>USD</b>	<b>1,012.00</b>
License plate holder with LED lighting	<b>Option</b>	<b>2654224</b>	<b>USD</b>	<b>528.00</b>
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	<b>Option</b>		<b>USD</b>	<b>88.00</b>
Spare part and application documentation English (EN)	<b>Option</b>		<b>USD</b>	<b>15.00</b>

**Price list****W 250 Fi - 2200 mm milling drum****Scope of supply – basic machine**

- Engine: 2x 6-cylinder diesel engines type Cummins L9 and X15
- Rated power at 2,100 r.p.m.: 742 kW / 995 HP / 1,009 PS
- Exhaust standard: EU Stage V / US EPA Tier 4f
- Standard milling width: 7 ft 3 in / 2,200 mm
- Theoretical milling depth: 1 ft 2 in / 350 mm

**STANDARD EQUIPMENT**

- Base machine with dual motor drive
- Machine frame featuring a single wasp waist at the rear right and a dual wasp waist at the front
- Automatic pressure adjustment of the hydraulic pump for cylinder functions in accordance with performance requirements for reduced diesel consumption
- Hydraulically opening, soundproof engine cover
- Air compressor system
- Battery-operated hydraulic unit for auxiliary drive
- Two cooling fans to minimize power consumption of the cooling system

**MILLING DRUM HOUSING**

- Adjustment of material depressor contact pressure via the control panel or automatically via the MILL ASSIST feature to reduce chunk formation
- Electrical adjustment of scraper contact pressure via the control panel
- Automatically controlled locking feature of scraper
- Milling drum rotation device with electro-hydraulic milling drum drive for slowly turning the milling drum during pick replacement.
- Single-piece water spray bar in the milling drum unit for reliable pick cooling and to prevent dust development
- Automatic control of the water quantity via the MILL ASSIST feature
- Height adjustment stroke increased by 200 mm to facilitate pick replacement and the exchange of milling drum units
- Pre-fitting to allow the quick exchange of milling drum units.
- Hydraulically lifting side plate, right clearance 1 ft 6 in / 450 mm and left clearance 1 ft 2 in / 350 mm

**LOADING OF MILLED MATERIAL**

- Increased conveyor swing angles of 65° each to the left and right
- Discharge conveyor with adjustable conveying speed and two slewing speeds for precise loading
- Boost feature for a temporary increase of the belt speed and conveying performance of the discharge conveyor by 20%
- Water spray system in the primary conveyor
- Larger conveyor pump for a constant belt speed even at a low engine speed of 1300 rpm

**MACHINE CONTROL AND LEVELLING SYSTEM**

- User-friendly control panel including 7" color screen
- LEVEL PRO ACTIVE leveling system with numerous automated and complementary operator relieving features
- LEVEL PRO ACTIVE - automatic height control in transport mode
- LEVEL PRO ACTIVE - ramp milling and auto-start feature for the second milling cut
- RAPID SLOPE cross-slope sensor for LEVEL PRO ACTIVE leveling system
- MILL ASSIST assistance system for automatic adjustment of the milling drum speed in accordance with the main area of application and the parameters selected in terms of engine load, advance rate, milling volume and quality of the milling pattern.
- Comprehensive machine diagnostics on the control panel including, for example, a diagnostic system for the CAN bus

- Voltmeter integrated into the control panel for voltage measurement in the event of a malfunction
- Two control panels for operating functions performed by ground crew

#### OPERATOR'S PLATFORM

- Convenient access to the operator's platform, left and right

#### Mandatory Options

##### Milling drum housing

Wear-resistant milling drum housing MCS BASIC FB2200 (7 ft 3 in), with pre-fitting to quickly and easily change milling drums of varying tool spacings, without milling drum.	Standard	2667109	USD	0.00
---	----------	---------	-----	------

##### Milling drums / milling units

Milling drum MCS BASIC with milling width 2200 mm / 7 ft / 3 in, milling depth max. 320 mm / 1ft / 0,5 in, tool spacing 15 mm / 19/32 in, equipped with quick-change toolholder system HT22 and 180 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.	Standard	2679870	USD	0.00
--	----------	---------	-----	------

<b>OPERATOR'S PLATFORM</b>				
Anti-vibration-mounted operator's platform with easy-to-read control panels, functional stand-up seat and a large, lockable storage compartment with a capacity of approx 69 gal / 260 liters	<b>Standard</b>	<b>2667135</b>	<b>USD</b>	<b>0.00</b>
Anti-vibration-mounted operator's platform with easy-to-read control panels, functional stand-up seat and a large, lockable storage compartment with a capacity of approx 69 gal/260 liters. A hydraulically height-adjustable weather canopy with transparent side weather protection elements protects the operator from the wind and weather.	<b>In lieu of 2667135</b>	<b>2667138</b>	<b>USD</b>	<b>17,342.00</b>
<b>Material transport</b>				
Robust 26 ft 9 in (8,150 mm) long discharge conveyor with conveyor belt system 3 ft 7 in (1,100 mm) and hydraulic folding device for shortening the transport length	<b>Standard</b>	<b>2667148</b>	<b>USD</b>	<b>0.00</b>
Heavy-duty 26 ft 9 in (8,150 mm) long double discharge conveyor with 3 ft 3 in (1,000 mm) conveyor belt system and hydraulic folding device to shorten the transport length. An additional shroud on the upper part of the discharge conveyor guides the flow of material, enabling controlled loading and minimizing wear and tear.	<b>Option</b>	<b>2667149</b>	<b>USD</b>	<b>25,294.00</b>
<b>Water tank filling</b>				
Additional water tank filling from the rear of the machine using a shut-off cock.	<b>Standard</b>	<b>2667152</b>	<b>USD</b>	<b>0.00</b>
Additional water tank filling from the rear of the machine with a powerful, hydraulically operated filler pump	<b>Option</b>	<b>2667153</b>	<b>USD</b>	<b>4,225.00</b>
<b>Paint</b>				
Film coating in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7019	<b>Standard</b>	<b>2667167</b>	<b>USD</b>	<b>0.00</b>
The film coating is applied in RAL colors and design according to the customer's wishes. Film coating provides protection against mechanical and weather-related damage and can be removed without leaving any marks, if required	<b>Option</b>	<b>2667169</b>	<b>USD</b>	<b>1,247.00</b>
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	<b>Standard</b>	<b>2456347</b>	<b>USD</b>	<b>0.00</b>

<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	<b>Standard</b>	<b>2770403</b>	<b>USD</b>	<b>0.00</b>
The WIRTGEN PERFORMANCE TRACKER WPT is a laser and satellite-supported measuring system for precise milling performance determination for machines with FB2000, FB 220 or FB2500 without a weather canopy or with an operator's cabin. Two laser scanners measure the actual milling width and milling depth over the distance of the milling path. The milling performance results are automatically sent to the corresponding users via the WITOS interface with precise GPS machine position data and consumption data such as diesel consumption, water consumption, tool consumption and truck loads, in an evaluation and then by e-mail. The milling performance reports that include an image of the milling position can also be used as an allowance report. The usability of WITOS hardware components for the existing mobile radio standard is guaranteed for 3 years from the date of delivery.	<b>Option</b>	<b>2787665</b>	<b>USD</b>	<b>50,882.00</b>
<b>Machine lighting</b>				
Extended lighting system consisting of 21 extremely powerful LED working lights for optimum illumination of the working area. Total light output of the working lights is approx. 43,600 lumens	<b>Standard</b>	<b>2667172</b>	<b>USD</b>	<b>0.00</b>
Extended lighting system consisting of 21 extremely powerful LED working lights for optimum illumination of the working area. Total light output of the working lights is approximately 43,600 lumens. The additional lighting balloon is powered via the machine's 24V electrical power supply and achieves an additional light output of 50,000 lumens	<b>In lieu of 2667172</b>	<b>2667173</b>	<b>USD</b>	<b>5,208.00</b>

Equipment Options				
<b>Additional weight</b>				
Two additional weights located at the rear of the machine with a total weight of 1.500 kg (3,307 lbs) for individual machine ballasting. The individual weights, each weighing 750 kg (1,653 lbs), can be easily and quickly inserted and fastened to the rear of the machine.	Option	2667175	USD	7,277.00
<b>Additional weight</b>				
Large, generously sized storage compartment for 72 pick containers at the rear of the machine instead of the standard storage compartment. The storage compartment is lockable, splash-proof and additionally contains a completely sealed area to safely store electronic components, such as levelling sensors or pick ejectors	Option	2667177	USD	3,477.00
Storage compartment close to both rear track units for 10 pick containers	Standard	2667178	USD	0.00
<b>Equipment operator's platform</b>				
A powerful hot-air heating system with intelligently arranged air vents close to the operator's hands and feet offers maximum comfort on the operator's platform	Option	2667179	USD	4,181.00
Operator's platform equipped with a height-adjustable stand-up seat for greater operator comfort	Standard	2688479	USD	0.00
<b>Milling drum assembly options</b>				
The actual milling depth is determined by calculating the difference in readings from sensors on the side plate and sensors on the scraper. The actual milling depth is displayed on the LEVEL PRO ACTIVE panel.	Standard	2598665	USD	0.00
Overload sensors automatically lift the scraper whenever obstacles are detected that could damage the scraper.	Option	2667192	USD	1,746.00
Active floating position for the side plates on the left and right by continuously adjusting the milling depth and position of the plates. If necessary, the side plates can be briefly raised to prevent them from sinking into the soft ground.	Standard	2598531	USD	0.00
Extension of MCS BASIC with one hydraulically opening side panel on the milling drum unit FB2200/FB2500 (7 ft 3 in/8 ft 2 in). An additional hydraulic cylinder enables the MCS side panel to be easily opened when changing milling drums. This enables MCS BASIC milling drums to be changed even faster.	Standard	2667195	USD	0.00
Electrically switchable sectional water spray bar in the milling drum unit FB2200 (7 ft 3 in). Four areas can be controlled as required from the control panel (automatically controlled with WPT). This significantly reduces water consumption.	Standard	2667199	USD	0.00

Two wear protection rollers that can be attached to the side plates (left or right). The rollers protect the asphalt, curbs, and other surfaces from damage and prevent excessive wear to the side plates.	<b>Option</b>	<b>2662818</b>	<b>USD</b>	<b>866.00</b>
The mounting aid makes it much easier to change the milling drum assembly. Two extended wire ropes from the discharge conveyor are reattached and pull the primary conveyor out of the milling drum housing. This enables the aggregate to be changed without any additional effort. It saves time and work whenever the milling drum assembly needs to be changed.	<b>Standard</b>	<b>2685194</b>	<b>USD</b>	<b>0.00</b>
Transport carriage for milling drum units from FB2200 (7 ft 3 in) to FB4400 (14 ft 5 in) to make it easier to change milling drum units and handle them in the workshop or on the job site.	<b>Option</b>	<b>2282163</b>	<b>USD</b>	<b>19,117.00</b>
Milling drum mounting and transport cart for milling drums from FB1500 (4 ft 11 in) to FB2500 (8 ft 2 in)	<b>Option</b>	<b>2312515</b>	<b>USD</b>	<b>7,072.00</b>
Transport roller set consisting of 4 heavy-duty rollers for easy removal of milling units from FB1500 to FB3800 on level surfaces.	<b>Option</b>	<b>2762958</b>	<b>USD</b>	<b>5,751.00</b>
<b>Options for belt conveyor</b>				
VCS – vacuum cutting system on the discharge conveyor for the extraction of fine material particles and water vapor from the sealed milling drum unit.	<b>Standard</b>	<b>2667207</b>	<b>USD</b>	<b>0.00</b>
Signal lights for visual "stop" and "go" instructions for the truck driver without the use of a horn. The signal lights can be folded in hydraulically from the operator's platform.	<b>Option</b>	<b>2598539</b>	<b>USD</b>	<b>5,311.00</b>
Semi-automatic ACTIVE CONVEYOR swing angle control that guides the discharge conveyor in construction site situations where milling is carried out at intersections or roundabouts	<b>Standard</b>	<b>2703705</b>	<b>USD</b>	<b>0.00</b>
Support device for positioning the discharge conveyor on the flat bed truck	<b>Standard</b>	<b>60603</b>	<b>USD</b>	<b>0.00</b>
<b>Additional control unit LEVEL PRO</b>				
Additional 5" control panel for controlling the LEVEL PRO ACTIVE leveling system. Up to two additional control panels can be mounted in the rear lower area of the machines	<b>Option</b>	<b>2598631</b>	<b>USD</b>	<b>2,553.00</b>
2 Additional 7" control panel that displays the machine control and controls the LEVEL PRO ACTIVE levelling system. Up to two additional control panels can be mounted in the rear lower area of the machines	<b>Standard</b>	<b>2598632</b>	<b>USD</b>	<b>0.00</b>
Additional 2" control panel that can be programmed with up to 16 individually selected functions. Up to two additional control panels can be mounted on the outside railing of the operator's platform	<b>Standard</b>	<b>2598664</b>	<b>USD</b>	<b>0.00</b>

Two additional 2" control panels that can each be programmed with up to 16 individually selected functions. Up to two additional control panels can be mounted on the outside railing of the operator's platform	<b>Option</b>	<b>2767151</b>	<b>USD</b>	<b>4,314.00</b>
User-specific saving of individually adjustable machine settings such as the display configuration or the assignment of favorites buttons. The data can be saved on five different SMART KEY key fobs with tokens.	<b>Standard</b>	<b>2779470</b>	<b>USD</b>	<b>0.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE levelling system with levelling boom. Premounted and adjustable hydraulic cylinders on the left and right allow the use of a Sonic-Ski sensor that is able to scan a reference object up to 1,900 mm away from the milling edge. During machine transport, the sensor and cables are securely stowed in the corresponding transport boxes.	<b>Option</b>	<b>2667237</b>	<b>USD</b>	<b>11,649.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with two hydraulic cylinder sensors for scanning a reference surface to the left and the right of the milling drum.	<b>Standard</b>	<b>2667241</b>	<b>USD</b>	<b>0.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with multiplex scanning on the right. Two additional ultrasonic sensors scan reference surfaces in front of and behind the machine. During machine transport, the sensors and cables are securely stowed in a corresponding transport box.	<b>Option</b>	<b>2673212</b>	<b>USD</b>	<b>5,575.00</b>
Extension of the LEVEL PRO ACTIVE leveling system with multiplex scanning on the left and right. Four additional ultrasonic sensors scan reference surfaces in front of and behind the machine. During machine transport, the sensors and cables are securely stowed in a corresponding transport box.	<b>Option</b>	<b>2673213</b>	<b>USD</b>	<b>10,828.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with pre-fitting for 3D milling with machines without a weather canopy. The pre-fitting equipment consists of robust and exactly positioned mounting adapters for a 3D system as well as sensor sockets for connecting the sensors to the LEVEL PRO ACTIVE system.	<b>Option</b>	<b>2667342</b>	<b>USD</b>	<b>9,185.00</b>
Extension of the LEVEL PRO ACTIVE leveling system with two linear laser sensors that can be installed using the pre-fitting equipment for 3D leveling.	<b>Option</b>	<b>2662826</b>	<b>USD</b>	<b>13,924.00</b>

<b>Water system</b>				
Powerful, hydraulically operated high pressure water cleaner with a maximum output of 15 l/min (4 gpm) at a pressure of 150 bar (2175 psi).	<b>Option</b>	<b>2667357</b>	<b>USD</b>	<b>2,744.00</b>
<b>Pick changing aids</b>				
One hydraulically powered pick ejector, including the required electrical and hydraulic connections. Ideal for convenient, fast and low-noise pick changes.	<b>Standard</b>	<b>2667497</b>	<b>USD</b>	<b>0.00</b>
Two hydraulically powered pick ejectors, including the required electrical and hydraulic connections. Ideal for convenient, fast and low-noise pick changes.	<b>In lieu of 2667497</b>	<b>2793479</b>	<b>USD</b>	<b>2,685.00</b>
<b>Camera system</b>				
Two-fold camera system with one camera at the discharge conveyor and one camera with a view of the rear area. The camera images are displayed on the standard 7" control panel on the operator's platform.	<b>In lieu of 2673434</b>	<b>2673433</b>	<b>USD</b>	<b>-4,358.00</b>
Four-fold camera system with an additional 10" control panel for an optimised view of the work processes being executed in front of and behind the machine as well as of the side plates, on the right and left. The camera images are displayed on the 10" control panel on the operator's platform.	<b>Standard</b>	<b>2673434</b>	<b>USD</b>	<b>0.00</b>
Eight-fold camera system with an additional 10" control panel for an optimised view of the work processes being executed in front of and behind the machine, of the side plates on the right and left and of the milled surface behind the milling drum unit. The camera images are displayed on the 10" control panel on the operator's platform.	<b>In lieu of 2673434</b>	<b>2673435</b>	<b>USD</b>	<b>4,328.00</b>
<b>Other devices</b>				
Electrical preheating of the fuel filter to maintain the flow of fuel at low outside temperatures. Serves to guarantee machine operation at temperatures below 0 32 degrees Fahrenheit (0 degrees Celsius).	<b>Option</b>	<b>2673455</b>	<b>USD</b>	<b>1,497.00</b>
Electrical diesel suction and pressure pump with 7.50 m (24 ft 7 in) suction hose. The machine can be refueled with up to 50 l/min (13 gal/min) from external diesel tanks.	<b>Option</b>	<b>2673456</b>	<b>USD</b>	<b>1,012.00</b>
License plate holder with LED lighting	<b>Option</b>	<b>2654224</b>	<b>USD</b>	<b>528.00</b>
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	<b>Option</b>		<b>USD</b>	<b>88.00</b>
Spare part and application documentation English (EN)	<b>Option</b>		<b>USD</b>	<b>15.00</b>

**Price list****W 250 Fi - 2500 mm milling drum****Scope of supply – basic machine**

- Engine: 2x 6-cylinder diesel engines type Cummins L9 and X15
- Rated power at 2,100 r.p.m.: 742 kW / 995 HP / 1,009 PS
- Exhaust standard: EU Stage V / US EPA Tier 4f
- Standard milling width: 7 ft 3 in / 2,200 mm
- Theoretical milling depth: 1 ft 2 in / 350 mm

**STANDARD EQUIPMENT**

- Base machine with dual motor drive
- Machine frame featuring a single wasp waist at the rear right and a dual wasp waist at the front
- Automatic pressure adjustment of the hydraulic pump for cylinder functions in accordance with performance requirements for reduced diesel consumption
- Hydraulically opening, soundproof engine cover
- Air compressor system
- Battery-operated hydraulic unit for auxiliary drive
- Two cooling fans to minimize power consumption of the cooling system

**MILLING DRUM HOUSING**

- Adjustment of material depressor contact pressure via the control panel or automatically via the MILL ASSIST feature to reduce chunk formation
- Electrical adjustment of scraper contact pressure via the control panel
- Automatically controlled locking feature of scraper
- Milling drum rotation device with electro-hydraulic milling drum drive for slowly turning the milling drum during pick replacement.
- Single-piece water spray bar in the milling drum unit for reliable pick cooling and to prevent dust development
- Automatic control of the water quantity via the MILL ASSIST feature
- Height adjustment stroke increased by 200 mm to facilitate pick replacement and the exchange of milling drum units
- Pre-fitting to allow the quick exchange of milling drum units.
- Hydraulically lifting side plate, right clearance 1 ft 6 in / 450 mm and left clearance 1 ft 2 in / 350 mm

**LOADING OF MILLED MATERIAL**

- Increased conveyor swing angles of 65° each to the left and right
- Discharge conveyor with adjustable conveying speed and two slewing speeds for precise loading
- Boost feature for a temporary increase of the belt speed and conveying performance of the discharge conveyor by 20%
- Water spray system in the primary conveyor
- Larger conveyor pump for a constant belt speed even at a low engine speed of 1300 rpm

**MACHINE CONTROL AND LEVELLING SYSTEM**

- User-friendly control panel including 7" color screen
- LEVEL PRO ACTIVE leveling system with numerous automated and complementary operator relieving features
- LEVEL PRO ACTIVE - automatic height control in transport mode
- LEVEL PRO ACTIVE - ramp milling and auto-start feature for the second milling cut
- RAPID SLOPE cross-slope sensor for LEVEL PRO ACTIVE leveling system
- MILL ASSIST assistance system for automatic adjustment of the milling drum speed in accordance with the main area of application and the parameters selected in terms of engine load, advance rate, milling volume and quality of the milling pattern.

- Comprehensive machine diagnostics on the control panel including, for example, a diagnostic system for the CAN bus
- Voltmeter integrated into the control panel for voltage measurement in the event of a malfunction
- Two control panels for operating functions performed by ground crew

#### **OPERATOR 'S PLATFORM**

- Convenient access to the operator's platform, left and right
- Anti-vibration mounted operator's platform across the full width of the machine including fold-out railing, right
- Electrical control cabinet on the operator's platform for optimum accessibility and fast troubleshooting
- Electrical level indicator for the water tank on the external control panels
- Time display on the main control panel and on the exterior control panels
- Two mirrors at the front, one mirror at the rear of the machine

#### **TRACK UNIT AND HEIGHT ADJUSTMENT**

- PTS – automatic alignment of the machine parallel to the pavement surface
- ISC – intelligent track speed control including hydraulic four-track drive
- Fourfold full-floating axle for high machine stability
- High travel speed of up to 88 m / min at low engine speeds (1,350 rpm), reduced diesel consumption and low noise emissions.

#### **MISCELLANEOUS**

- "Welcome" and "Go home" lights feature in the area of the operator's platform and access
- Large storage compartment on the machine for pick containers
- High-pressure water system with automatic on/off function, 261 psi / 18 bar, 17 gal.min / 67 l/min
- Good accessibility to all maintenance points on the engine station
- Pneumatic hammer with pick extractor/insertor
- Large tool kit in lockable tool box
- A total of six EMERGENCY STOP switches in appropriate positions on the machine
- Pre-fitting for installing the WITOS FleetView control unit
- European type certification, EuroTest mark and CE conformity

**List price ex subsidiary Wirtgen America**

**USD**

**1,155,244.00**

#### **Mandatory Options**

##### **Milling drum housing**

Wear-resistant milling drum housing MCS BASIC FB2500 (8 ft 2 in) with pre-fitting enabling a quick and easy change of the milling drums with varying spacings, without milling drum.	<b>Standard</b>	<b>2674057</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

##### **Milling drums / milling units**

Milling drum MCS BASIC with milling width 2500 mm / 8 ft / 2 in, milling depth max. 350 mm / 1 ft 2 in, tool spacing 15 mm / 19/32 in, equipped with quick-change toolholder system HT22 and 196 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.	<b>Standard</b>	<b>2679915</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

<b>OPERATOR'S PLATFORM</b>				
Anti-vibration-mounted operator's platform with easy-to-read control panels, functional stand-up seat and a large, lockable storage compartment with a capacity of approx 69 gal / 260 liters	<b>Standard</b>	<b>2667135</b>	<b>USD</b>	<b>0.00</b>
Anti-vibration-mounted operator's platform with easy-to-read control panels, functional stand-up seat and a large, lockable storage compartment with a capacity of approx 69 gal/260 liters. A hydraulically height-adjustable weather canopy with transparent side weather protection elements protects the operator from the wind and weather.	<b>In lieu of 2667135</b>	<b>2667138</b>	<b>USD</b>	<b>17,342.00</b>
<b>Material transport</b>				
Robust 26 ft 9 in (8,150 mm) long discharge conveyor with conveyor belt system 3 ft 7 in (1,100 mm) and hydraulic folding device for shortening the transport length	<b>Standard</b>	<b>2667148</b>	<b>USD</b>	<b>0.00</b>
Heavy-duty 26 ft 9 in (8,150 mm) long double discharge conveyor with 3 ft 3 in (1,000 mm) conveyor belt system and hydraulic folding device to shorten the transport length. An additional shroud on the upper part of the discharge conveyor guides the flow of material, enabling controlled loading and minimizing wear and tear.	<b>Option</b>	<b>2667149</b>	<b>USD</b>	<b>25,294.00</b>
<b>Water tank filling</b>				
Additional water tank filling from the rear of the machine using a shut-off cock.	<b>Standard</b>	<b>2667152</b>	<b>USD</b>	<b>0.00</b>
Additional water tank filling from the rear of the machine with a powerful, hydraulically operated filler pump	<b>Option</b>	<b>2667153</b>	<b>USD</b>	<b>4,225.00</b>
<b>Paint</b>				
Film coating in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7019	<b>Standard</b>	<b>2667167</b>	<b>USD</b>	<b>0.00</b>
The film coating is applied in RAL colors and design according to the customer's wishes. Film coating provides protection against mechanical and weather-related damage and can be removed without leaving any marks, if required	<b>Option</b>	<b>2667169</b>	<b>USD</b>	<b>1,247.00</b>
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	<b>Standard</b>	<b>2456347</b>	<b>USD</b>	<b>0.00</b>

<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. <b>Machine lighting</b>				
Extended lighting system consisting of 21 extremely powerful LED working lights for optimum illumination of the working area. Total light output of the working lights is approx. 43,600 lumens	<b>Standard</b>	<b>2667172</b>	<b>USD</b>	<b>0.00</b>
Extended lighting system consisting of 21 extremely powerful LED working lights for optimum illumination of the working area. Total light output of the working lights is approximately 43,600 lumens. The additional lighting balloon is powered via the machine's 24V electrical power supply and achieves an additional light output of 50,000 lumens	<b>In lieu of 2667172</b>	<b>2667173</b>	<b>USD</b>	<b>5,208.00</b>

Equipment Options				
<b>Additional weight</b>				
Two additional weights located at the rear of the machine with a total weight of 1.500 kg (3,307 lbs) for individual machine ballasting. The individual weights, each weighing 750 kg (1,653 lbs), can be easily and quickly inserted and fastened to the rear of the machine.	Option	2667175	USD	7,277.00
<b>Additional weight</b>				
Large, generously sized storage compartment for 72 pick containers at the rear of the machine instead of the standard storage compartment. The storage compartment is lockable, splash-proof and additionally contains a completely sealed area to safely store electronic components, such as levelling sensors or pick ejectors	Option	2667177	USD	3,477.00
Storage compartment close to both rear track units for 10 pick containers	Standard	2667178	USD	0.00
<b>Equipment operator's platform</b>				
A powerful hot-air heating system with intelligently arranged air vents close to the operator's hands and feet offers maximum comfort on the operator's platform	Option	2667179	USD	4,181.00
Operator's platform equipped with a height-adjustable stand-up seat for greater operator comfort	Standard	2688479	USD	0.00
<b>Milling drum assembly options</b>				
The actual milling depth is determined by calculating the difference in readings from sensors on the side plate and sensors on the scraper. The actual milling depth is displayed on the LEVEL PRO ACTIVE panel.	Standard	2598665	USD	0.00
Overload sensors automatically lift the scraper whenever obstacles are detected that could damage the scraper.	Option	2667192	USD	1,746.00
Active floating position for the side plates on the left and right by continuously adjusting the milling depth and position of the plates. If necessary, the side plates can be briefly raised to prevent them from sinking into the soft ground.	Standard	2598531	USD	0.00
Extension of MCS BASIC with one hydraulically opening side panel on the milling drum unit FB2200/FB2500 (7 ft 3 in/8 ft 2 in). An additional hydraulic cylinder enables the MCS side panel to be easily opened when changing milling drums. This enables MCS BASIC milling drums to be changed even faster.	Standard	2667195	USD	0.00
Electrically switchable sectional water spray bar in the milling drum assembly FB2500 (8 ft 2 in). Four areas can be controlled as required from the control panel (automatically controlled with WPT). This reduces water consumption enormously.	Standard	2667200	USD	0.00

Two wear protection rollers that can be attached to the side plates (left or right). The rollers protect the asphalt, curbs, and other surfaces from damage and prevent excessive wear to the side plates.	<b>Option</b>	<b>2662818</b>	<b>USD</b>	<b>866.00</b>
The mounting aid makes it much easier to change the milling drum assembly. Two extended wire ropes from the discharge conveyor are reattached and pull the primary conveyor out of the milling drum housing. This enables the aggregate to be changed without any additional effort. It saves time and work whenever the milling drum assembly needs to be changed.	<b>Standard</b>	<b>2685194</b>	<b>USD</b>	<b>0.00</b>
Transport carriage for milling drum units from FB2200 (7 ft 3 in) to FB4400 (14 ft 5 in) to make it easier to change milling drum units and handle them in the workshop or on the job site.	<b>Option</b>	<b>2282163</b>	<b>USD</b>	<b>19,117.00</b>
Milling drum mounting and transport cart for milling drums from FB1500 (4 ft 11 in) to FB2500 (8 ft 2 in)	<b>Option</b>	<b>2312515</b>	<b>USD</b>	<b>7,072.00</b>
Transport roller set consisting of 4 heavy-duty rollers for easy removal of milling units from FB1500 to FB3800 on level surfaces.	<b>Option</b>	<b>2762958</b>	<b>USD</b>	<b>5,751.00</b>
<b>Options for belt conveyor</b>				
VCS – vacuum cutting system on the discharge conveyor for the extraction of fine material particles and water vapor from the sealed milling drum unit.	<b>Standard</b>	<b>2667207</b>	<b>USD</b>	<b>0.00</b>
Signal lights for visual "stop" and "go" instructions for the truck driver without the use of a horn. The signal lights can be folded in hydraulically from the operator's platform.	<b>Option</b>	<b>2598539</b>	<b>USD</b>	<b>5,311.00</b>
Semi-automatic ACTIVE CONVEYOR swing angle control that guides the discharge conveyor in construction site situations where milling is carried out at intersections or roundabouts	<b>Standard</b>	<b>2703705</b>	<b>USD</b>	<b>0.00</b>
Support device for positioning the discharge conveyor on the flat bed truck	<b>Standard</b>	<b>60603</b>	<b>USD</b>	<b>0.00</b>
<b>Additional control unit LEVEL PRO</b>				
Additional 5" control panel for controlling the LEVEL PRO ACTIVE leveling system. Up to two additional control panels can be mounted in the rear lower area of the machines	<b>Option</b>	<b>2598631</b>	<b>USD</b>	<b>2,553.00</b>
2 Additional 7" control panel that displays the machine control and controls the LEVEL PRO ACTIVE levelling system. Up to two additional control panels can be mounted in the rear lower area of the machines	<b>Standard</b>	<b>2598632</b>	<b>USD</b>	<b>0.00</b>

Additional 2" control panel that can be programmed with up to 16 individually selected functions. Up to two additional control panels can be mounted on the outside railing of the operator's platform	<b>Standard</b>	<b>2598664</b>	<b>USD</b>	<b>0.00</b>
Two additional 2" control panels that can each be programmed with up to 16 individually selected functions. Up to two additional control panels can be mounted on the outside railing of the operator's platform	<b>Option</b>	<b>2767151</b>	<b>USD</b>	<b>4,314.00</b>
User-specific saving of individually adjustable machine settings such as the display configuration or the assignment of favorites buttons. The data can be saved on five different SMART KEY key fobs with tokens.	<b>Standard</b>	<b>2779470</b>	<b>USD</b>	<b>0.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE levelling system with levelling boom. Premounted and adjustable hydraulic cylinders on the left and right allow the use of a Sonic-Ski sensor that is able to scan a reference object up to 1,900 mm away from the milling edge. During machine transport, the sensor and cables are securely stowed in the corresponding transport boxes.	<b>Option</b>	<b>2667237</b>	<b>USD</b>	<b>11,649.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with two hydraulic cylinder sensors for scanning a reference surface to the left and the right of the milling drum.	<b>Standard</b>	<b>2667241</b>	<b>USD</b>	<b>0.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with multiplex scanning on the right. Two additional ultrasonic sensors scan reference surfaces in front of and behind the machine. During machine transport, the sensors and cables are securely stowed in a corresponding transport box.	<b>Option</b>	<b>2673212</b>	<b>USD</b>	<b>5,575.00</b>
Extension of the LEVEL PRO ACTIVE leveling system with multiplex scanning on the left and right. Four additional ultrasonic sensors scan reference surfaces in front of and behind the machine. During machine transport, the sensors and cables are securely stowed in a corresponding transport box.	<b>Option</b>	<b>2673213</b>	<b>USD</b>	<b>10,828.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with pre-fitting for 3D milling with machines without a weather canopy. The pre-fitting equipment consists of robust and exactly positioned mounting adapters for a 3D system as well as sensor sockets for connecting the sensors to the LEVEL PRO ACTIVE system.	<b>Option</b>	<b>2667342</b>	<b>USD</b>	<b>9,185.00</b>
Extension of the LEVEL PRO ACTIVE leveling system with two linear laser sensors that can be installed using the pre-fitting equipment for 3D leveling.	<b>Option</b>	<b>2662826</b>	<b>USD</b>	<b>13,924.00</b>

<b>Water system</b>				
Powerful, hydraulically operated high pressure water cleaner with a maximum output of 15 l/min (4 gpm) at a pressure of 150 bar (2175 psi).	<b>Option</b>	<b>2667357</b>	<b>USD</b>	<b>2,744.00</b>
<b>Pick changing aids</b>				
One hydraulically powered pick ejector, including the required electrical and hydraulic connections. Ideal for convenient, fast and low-noise pick changes.	<b>Standard</b>	<b>2667497</b>	<b>USD</b>	<b>0.00</b>
Two hydraulically powered pick ejectors, including the required electrical and hydraulic connections. Ideal for convenient, fast and low-noise pick changes.	<b>In lieu of 2667497</b>	<b>2793479</b>	<b>USD</b>	<b>2,685.00</b>
<b>Camera system</b>				
Two-fold camera system with one camera at the discharge conveyor and one camera with a view of the rear area. The camera images are displayed on the standard 7" control panel on the operator's platform.	<b>In lieu of 2673434</b>	<b>2673433</b>	<b>USD</b>	<b>-4,358.00</b>
Four-fold camera system with an additional 10" control panel for an optimised view of the work processes being executed in front of and behind the machine as well as of the side plates, on the right and left. The camera images are displayed on the 10" control panel on the operator's platform.	<b>Standard</b>	<b>2673434</b>	<b>USD</b>	<b>0.00</b>
Eight-fold camera system with an additional 10" control panel for an optimised view of the work processes being executed in front of and behind the machine, of the side plates on the right and left and of the milled surface behind the milling drum unit. The camera images are displayed on the 10" control panel on the operator's platform.	<b>In lieu of 2673434</b>	<b>2673435</b>	<b>USD</b>	<b>4,328.00</b>
<b>Other devices</b>				
Electrical preheating of the fuel filter to maintain the flow of fuel at low outside temperatures. Serves to guarantee machine operation at temperatures below 0 32 degrees Fahrenheit (0 degrees Celsius).	<b>Option</b>	<b>2673455</b>	<b>USD</b>	<b>1,497.00</b>
Electrical diesel suction and pressure pump with 7.50 m (24 ft 7 in) suction hose. The machine can be refueled with up to 50 l/min (13 gal/min) from external diesel tanks.	<b>Option</b>	<b>2673456</b>	<b>USD</b>	<b>1,012.00</b>
License plate holder with LED lighting	<b>Option</b>	<b>2654224</b>	<b>USD</b>	<b>528.00</b>
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	<b>Option</b>		<b>USD</b>	<b>88.00</b>
Spare part and application documentation English (EN)	<b>Option</b>		<b>USD</b>	<b>15.00</b>

## Price list

# W 250 Fi - 3800 mm milling drum

### Scope of supply – basic machine

- Engine: 2x 6-cylinder diesel engines type Cummins L9 and X15
- Rated power at 2,100 r.p.m.: 742 kW / 995 HP / 1,009 PS
- Exhaust standard: EU Stage V / US EPA Tier 4f
- Standard milling width: 7 ft 3 in / 2,200 mm
- Theoretical milling depth: 1 ft 2 in / 350 mm

### STANDARD EQUIPMENT

- Base machine with dual motor drive
- Machine frame featuring a single wasp waist at the rear right and a dual wasp waist at the front
- Automatic pressure adjustment of the hydraulic pump for cylinder functions in accordance with performance requirements for reduced diesel consumption
- Hydraulically opening, soundproof engine cover
- Air compressor system
- Battery-operated hydraulic unit for auxiliary drive
- Two cooling fans to minimize power consumption of the cooling system

### MILLING DRUM HOUSING

- Adjustment of material depressor contact pressure via the control panel or automatically via the MILL ASSIST feature to reduce chunk formation
- Electrical adjustment of scraper contact pressure via the control panel
- Automatically controlled locking feature of scraper
- Milling drum rotation device with electro-hydraulic milling drum drive for slowly turning the milling drum during pick replacement.
- Single-piece water spray bar in the milling drum unit for reliable pick cooling and to prevent dust development
- Automatic control of the water quantity via the MILL ASSIST feature
- Height adjustment stroke increased by 200 mm to facilitate pick replacement and the exchange of milling drum units
- Pre-fitting to allow the quick exchange of milling drum units.
- Hydraulically lifting side plate, right clearance 1 ft 6 in / 450 mm and left clearance 1 ft 2 in / 350 mm

### LOADING OF MILLED MATERIAL

- Increased conveyor swing angles of 65° each to the left and right
- Discharge conveyor with adjustable conveying speed and two slewing speeds for precise loading
- Boost feature for a temporary increase of the belt speed and conveying performance of the discharge conveyor by 20%
- Water spray system in the primary conveyor
- Larger conveyor pump for a constant belt speed even at a low engine speed of 1300 rpm

### MACHINE CONTROL AND LEVELLING SYSTEM

- User-friendly control panel including 7" color screen
- LEVEL PRO ACTIVE leveling system with numerous automated and complementary operator relieving features
- LEVEL PRO ACTIVE - automatic height control in transport mode
- LEVEL PRO ACTIVE - ramp milling and auto-start feature for the second milling cut
- RAPID SLOPE cross-slope sensor for LEVEL PRO ACTIVE leveling system
- MILL ASSIST assistance system for automatic adjustment of the milling drum speed in accordance with the main area of application and the parameters selected in terms of engine load, advance rate, milling volume and quality of the milling pattern.

- Comprehensive machine diagnostics on the control panel including, for example, a diagnostic system for the CAN bus
- Voltmeter integrated into the control panel for voltage measurement in the event of a malfunction
- Two control panels for operating functions performed by ground crew

#### OPERATOR 'S PLATFORM

- Convenient access to the operator's platform, left and right
- Anti-vibration mounted operator's platform across the full width of the machine including fold-out railing, right
- Electrical control cabinet on the operator's platform for optimum accessibility and fast troubleshooting
- Electrical level indicator for the water tank on the external control panels
- Time display on the main control panel and on the exterior control panels
- Two mirrors at the front, one mirror at the rear of the machine

#### TRACK UNIT AND HEIGHT ADJUSTMENT

- PTS – automatic alignment of the machine parallel to the pavement surface
- ISC – intelligent track speed control including hydraulic four-track drive
- Fourfold full-floating axle for high machine stability
- High travel speed of up to 88 m / min at low engine speeds (1,350 rpm), reduced diesel consumption and low noise emissions.

#### MISCELLANEOUS

- "Welcome" and "Go home" lights feature in the area of the operator's platform and access
- Large storage compartment on the machine for pick containers
- High-pressure water system with automatic on/off function, 261 psi / 18 bar, 17 gal.min / 67 l/min
- Good accessibility to all maintenance points on the engine station
- Pneumatic hammer with pick extractor/insertor
- Large tool kit in lockable tool box
- A total of six EMERGENCY STOP switches in appropriate positions on the machine
- Pre-fitting for installing the WITOS FleetView control unit
- European type certification, EuroTest mark and CE conformity

List price ex subsidiary Wirtgen America

USD

1,257,477.00

#### Mandatory Options

##### Milling drum housing

Wear-resistant milling drum housing MCS EXTEND FB3800 (12 ft 6 in) with pre-fitting enabling a quick and easy change of the milling drums with varying spacings and milling widths, without milling drum.	Standard	2667115	USD	0.00
---	----------	---------	-----	------

##### Milling drums / milling units

Multi-part MCS milling drum with milling width of 3,800 mm / 12 ft 6 in, milling depth of max. 350 mm / 1 ft 2 in, tool spacing of 15 mm / 19/32 in, equipped with HT22 toolholder system and 314 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.	Standard	2309342	USD	0.00
--	----------	---------	-----	------

<b>OPERATOR'S PLATFORM</b>				
Anti-vibration-mounted operator's platform with easy-to-read control panels, functional stand-up seat and a large, lockable storage compartment with a capacity of approx 69 gal / 260 liters	<b>Standard</b>	<b>2667135</b>	<b>USD</b>	<b>0.00</b>
Anti-vibration-mounted operator's platform with easy-to-read control panels, functional stand-up seat and a large, lockable storage compartment with a capacity of approx 69 gal/260 liters. A hydraulically height-adjustable weather canopy with transparent side weather protection elements protects the operator from the wind and weather.	<b>In lieu of 2667135</b>	<b>2667138</b>	<b>USD</b>	<b>17,342.00</b>
<b>Material transport</b>				
Robust 26 ft 9 in (8,150 mm) long discharge conveyor with conveyor belt system 3 ft 7 in (1,100 mm) and hydraulic folding device for shortening the transport length	<b>Standard</b>	<b>2667148</b>	<b>USD</b>	<b>0.00</b>
Heavy-duty 26 ft 9 in (8,150 mm) long double discharge conveyor with 3 ft 3 in (1,000 mm) conveyor belt system and hydraulic folding device to shorten the transport length. An additional shroud on the upper part of the discharge conveyor guides the flow of material, enabling controlled loading and minimizing wear and tear.	<b>Option</b>	<b>2667149</b>	<b>USD</b>	<b>25,294.00</b>
<b>Water tank filling</b>				
Additional water tank filling from the rear of the machine using a shut-off cock.	<b>Standard</b>	<b>2667152</b>	<b>USD</b>	<b>0.00</b>
Additional water tank filling from the rear of the machine with a powerful, hydraulically operated filler pump	<b>Option</b>	<b>2667153</b>	<b>USD</b>	<b>4,225.00</b>
<b>Paint</b>				
Film coating in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7019	<b>Standard</b>	<b>2667167</b>	<b>USD</b>	<b>0.00</b>
The film coating is applied in RAL colors and design according to the customer's wishes. Film coating provides protection against mechanical and weather-related damage and can be removed without leaving any marks, if required	<b>Option</b>	<b>2667169</b>	<b>USD</b>	<b>1,247.00</b>
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	<b>Standard</b>	<b>2456347</b>	<b>USD</b>	<b>0.00</b>

<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	<b>Standard</b>	<b>2770403</b>	<b>USD</b>	<b>0.00</b>
The WIRTGEN PERFORMANCE TRACKER WPT is a laser and satellite-supported measuring system for precise milling performance determination for machines with FB2000, FB 220 or FB2500 without a weather canopy or with an operator's cabin. Two laser scanners measure the actual milling width and milling depth over the distance of the milling path. The milling performance results are automatically sent to the corresponding users via the WITOS interface with precise GPS machine position data and consumption data such as diesel consumption, water consumption, tool consumption and truck loads, in an evaluation and then by e-mail. The milling performance reports that include an image of the milling position can also be used as an allowance report. The usability of WITOS hardware components for the existing mobile radio standard is guaranteed for 3 years from the date of delivery.	<b>Option</b>	<b>2787665</b>	<b>USD</b>	<b>50,882.00</b>
<b>Machine lighting</b>				
Extended lighting system consisting of 21 extremely powerful LED working lights for optimum illumination of the working area. Total light output of the working lights is approx. 43,600 lumens	<b>Standard</b>	<b>2667172</b>	<b>USD</b>	<b>0.00</b>
Extended lighting system consisting of 21 extremely powerful LED working lights for optimum illumination of the working area. Total light output of the working lights is approximately 43,600 lumens. The additional lighting balloon is powered via the machine's 24V electrical power supply and achieves an additional light output of 50,000 lumens	<b>In lieu of 2667172</b>	<b>2667173</b>	<b>USD</b>	<b>5,208.00</b>

Equipment Options				
<b>Additional weight</b>				
Two additional weights located at the rear of the machine with a total weight of 1.500 kg (3,307 lbs) for individual machine ballasting. The individual weights, each weighing 750 kg (1,653 lbs), can be easily and quickly inserted and fastened to the rear of the machine.	Option	2667175	USD	7,277.00
<b>Additional weight</b>				
Large, generously sized storage compartment for 72 pick containers at the rear of the machine instead of the standard storage compartment. The storage compartment is lockable, splash-proof and additionally contains a completely sealed area to safely store electronic components, such as levelling sensors or pick ejectors	Option	2667177	USD	3,477.00
Storage compartment close to both rear track units for 10 pick containers	Standard	2667178	USD	0.00
<b>Equipment operator's platform</b>				
A powerful hot-air heating system with intelligently arranged air vents close to the operator's hands and feet offers maximum comfort on the operator's platform	Option	2667179	USD	4,181.00
Operator's platform equipped with a height-adjustable stand-up seat for greater operator comfort	Standard	2688479	USD	0.00
<b>Milling drum assembly options</b>				
The actual milling depth is determined by calculating the difference in readings from sensors on the side plate and sensors on the scraper. The actual milling depth is displayed on the LEVEL PRO ACTIVE panel.	Standard	2598665	USD	0.00
Overload sensors automatically lift the scraper whenever obstacles are detected that could damage the scraper.	Option	2667192	USD	1,746.00
Active floating position for the side plates on the left and right by continuously adjusting the milling depth and position of the plates. If necessary, the side plates can be briefly raised to prevent them from sinking into the soft ground.	Standard	2598531	USD	0.00
Electrically switchable sectional water spray bar in the milling drum assembly FB3500/3800 (11 ft 6 in / 12 ft 6 in). Four areas can be controlled as required from the control panel (automatically controlled with WPT). This reduces water consumption enormously.	Standard	2667201	USD	0.00
Two wear protection rollers that can be attached to the side plates (left or right). The rollers protect the asphalt, curbs, and other surfaces from damage and prevent excessive wear to the side plates.	Option	2662818	USD	866.00

The mounting aid makes it much easier to change the milling drum assembly. Two extended wire ropes from the discharge conveyor are reattached and pull the primary conveyor out of the milling drum housing. This enables the aggregate to be changed without any additional effort. It saves time and work whenever the milling drum assembly needs to be changed.	<b>Standard</b>	<b>2685194</b>	<b>USD</b>	<b>0.00</b>
Transport carriage for milling drum units from FB2200 (7 ft 3 in) to FB4400 (14 ft 5 in) to make it easier to change milling drum units and handle them in the workshop or on the job site.	<b>Option</b>	<b>2282163</b>	<b>USD</b>	<b>19,117.00</b>
Milling drum mounting and transport cart for milling drums from FB1500 (4 ft 11 in) to FB2500 (8 ft 2 in)	<b>Option</b>	<b>2312515</b>	<b>USD</b>	<b>7,072.00</b>
Transport roller set consisting of 4 heavy-duty rollers for easy removal of milling units from FB1500 to FB3800 on level surfaces.	<b>Option</b>	<b>2762958</b>	<b>USD</b>	<b>5,751.00</b>
<b>Options for belt conveyor</b>				
VCS – vacuum cutting system on the discharge conveyor for the extraction of fine material particles and water vapor from the sealed milling drum unit.	<b>Standard</b>	<b>2667207</b>	<b>USD</b>	<b>0.00</b>
Signal lights for visual "stop" and "go" instructions for the truck driver without the use of a horn. The signal lights can be folded in hydraulically from the operator's platform.	<b>Option</b>	<b>2598539</b>	<b>USD</b>	<b>5,311.00</b>
Semi-automatic ACTIVE CONVEYOR swing angle control that guides the discharge conveyor in construction site situations where milling is carried out at intersections or roundabouts	<b>Standard</b>	<b>2703705</b>	<b>USD</b>	<b>0.00</b>
Support device for positioning the discharge conveyor on the flat bed truck	<b>Standard</b>	<b>60603</b>	<b>USD</b>	<b>0.00</b>
<b>Additional control unit LEVEL PRO</b>				
Additional 5" control panel for controlling the LEVEL PRO ACTIVE leveling system. Up to two additional control panels can be mounted in the rear lower area of the machines	<b>Option</b>	<b>2598631</b>	<b>USD</b>	<b>2,553.00</b>
2 Additional 7" control panel that displays the machine control and controls the LEVEL PRO ACTIVE levelling system. Up to two additional control panels can be mounted in the rear lower area of the machines	<b>Standard</b>	<b>2598632</b>	<b>USD</b>	<b>0.00</b>
Additional 2" control panel that can be programmed with up to 16 individually selected functions. Up to two additional control panels can be mounted on the outside railing of the operator's platform	<b>Standard</b>	<b>2598664</b>	<b>USD</b>	<b>0.00</b>

Two additional 2" control panels that can each be programmed with up to 16 individually selected functions. Up to two additional control panels can be mounted on the outside railing of the operator's platform	<b>Option</b>	<b>2767151</b>	<b>USD</b>	<b>4,314.00</b>
User-specific saving of individually adjustable machine settings such as the display configuration or the assignment of favorites buttons. The data can be saved on five different SMART KEY key fobs with tokens.	<b>Standard</b>	<b>2779470</b>	<b>USD</b>	<b>0.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE levelling system with levelling boom. Premounted and adjustable hydraulic cylinders on the left and right allow the use of a Sonic-Ski sensor that is able to scan a reference object up to 1,900 mm away from the milling edge. During machine transport, the sensor and cables are securely stowed in the corresponding transport boxes.	<b>Option</b>	<b>2667237</b>	<b>USD</b>	<b>11,649.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with two hydraulic cylinder sensors for scanning a reference surface to the left and the right of the milling drum.	<b>Standard</b>	<b>2667241</b>	<b>USD</b>	<b>0.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with multiplex scanning on the right. Two additional ultrasonic sensors scan reference surfaces in front of and behind the machine. During machine transport, the sensors and cables are securely stowed in a corresponding transport box.	<b>Option</b>	<b>2673212</b>	<b>USD</b>	<b>5,575.00</b>
Extension of the LEVEL PRO ACTIVE leveling system with multiplex scanning on the left and right. Four additional ultrasonic sensors scan reference surfaces in front of and behind the machine. During machine transport, the sensors and cables are securely stowed in a corresponding transport box.	<b>Option</b>	<b>2673213</b>	<b>USD</b>	<b>10,828.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with multiplex scanning on the right. Two additional ultrasonic sensors scan reference surfaces in front of and behind the machine. During machine transport, the sensors and cables are securely stowed in a corresponding transport box. (FB3500/FB3800) (11 ft 6 in / 12 ft 6 in)	<b>Option</b>	<b>2790513</b>	<b>USD</b>	<b>6,925.00</b>
Extension of the LEVEL PRO ACTIVE leveling system with multiplex scanning on the right and left. Four additional ultrasonic sensors scan reference surfaces in front of	<b>Option</b>	<b>2790514</b>	<b>USD</b>	<b>13,307.00</b>

<b>Water system</b>				
Powerful, hydraulically operated high pressure water cleaner with a maximum output of 15 l/min (4 gpm) at a pressure of 150 bar (2175 psi).	<b>Option</b>	<b>2667357</b>	<b>USD</b>	<b>2,744.00</b>
<b>Pick changing aids</b>				
One hydraulically powered pick ejector, including the required electrical and hydraulic connections. Ideal for convenient, fast and low-noise pick changes.	<b>Standard</b>	<b>2667497</b>	<b>USD</b>	<b>0.00</b>
Two hydraulically powered pick ejectors, including the required electrical and hydraulic connections. Ideal for convenient, fast and low-noise pick changes.	<b>In lieu of 2667497</b>	<b>2793479</b>	<b>USD</b>	<b>2,685.00</b>
<b>Camera system</b>				
Two-fold camera system with one camera at the discharge conveyor and one camera with a view of the rear area. The camera images are displayed on the standard 7" control panel on the operator's platform.	<b>In lieu of 2673434</b>	<b>2673433</b>	<b>USD</b>	<b>-4,358.00</b>
Four-fold camera system with an additional 10" control panel for an optimised view of the work processes being executed in front of and behind the machine as well as of the side plates, on the right and left. The camera images are displayed on the 10" control panel on the operator's platform.	<b>Standard</b>	<b>2673434</b>	<b>USD</b>	<b>0.00</b>
Eight-fold camera system with an additional 10" control panel for an optimised view of the work processes being executed in front of and behind the machine, of the side plates on the right and left and of the milled surface behind the milling drum unit. The camera images are displayed on the 10" control panel on the operator's platform.	<b>In lieu of 2673434</b>	<b>2673435</b>	<b>USD</b>	<b>4,328.00</b>
<b>Other devices</b>				
Electrical preheating of the fuel filter to maintain the flow of fuel at low outside temperatures. Serves to guarantee machine operation at temperatures below 0 32 degrees Fahrenheit (0 degrees Celsius).	<b>Option</b>	<b>2673455</b>	<b>USD</b>	<b>1,497.00</b>
Electrical diesel suction and pressure pump with 7.50 m (24 ft 7 in) suction hose. The machine can be refueled with up to 50 l/min (13 gal/min) from external diesel tanks.	<b>Option</b>	<b>2673456</b>	<b>USD</b>	<b>1,012.00</b>
License plate holder with LED lighting	<b>Option</b>	<b>2654224</b>	<b>USD</b>	<b>528.00</b>
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	<b>Option</b>		<b>USD</b>	<b>88.00</b>
Spare part and application documentation English (EN)	<b>Option</b>		<b>USD</b>	<b>15.00</b>

## Price list

### W 35 XRi

#### Scope of supply – basic machine

- Engine: 4-cylinder diesel engine type DEUTZ TCD 2.9 L4
- Rated engine power at 2100 - 2300 rpm: 45 kW / 60 HP / 61 PS
- Exhaust standard: US EPA Tier 4f
- Standard milling width: 1 ft 2 in / 350 mm
- Theoretical milling depth: 4 in / 110 mm

#### STANDARD EQUIPMENT

- Base machine with engine
- Robust machine chassis
- Wide opening engine cowlings, with gas spring support and highly effective noise insulation
- Radiator with temperature-dependent fan speed
- Integrated 72 gal / 275 liter water tank
- Integrated 18 gal / 70 liter diesel tank
- Loading and tie-down points integrated in the chassis

#### MILLING DRUM UNIT

- Water sprayingstrip with on/off function for pick cooling with water pump with load-dependent control
- Wide opening milling drum door with automatic electrical safety shut-down
- Right side plate in hinged configuration in conjunction with centering pin system on the milling drum holder for quick and easy change of milling drums
- The right-hand side plate can be easily lifted using the foot pedal on the operator's stand

#### MACHINE CONTROL AND LEVELLING SYSTEM

- WIDRIVE machine controller to reduce operator workload and increase performance

#### OPERATOR'S PLATFORM

- Flexibly mounted operator's platform on the top of the machine
- Multi-function armrest on right with up/down and front/back adjustment with joystick and various controls ergonomically arranged
- Display for important machine parameters on the left control panel
- Convenient operating console with practical switches
- Convenient footstep to the operator's platform
- Operator's platform with vibration damping
- Steering console with adjustable inclination
- Lockable control panel covers

#### TRACK UNIT AND HEIGHT ADJUSTMENT

- Hydraulic 3-wheel all-wheel drive with hydraulic flow distributor
- Two manually engageable milling speeds as well as one traveling gear
- Hydraulic, easy front wheel steering
- Hydraulic spring-loaded multi-disc brake
- Hydraulic height adjustment with two speeds at the rear track units
- Manually folding-in rear right wheel

#### MISCELLANEOUS

- Lockable toolbox with toolkit for maintenance and servicing
- Additional mount for a pick container
- Device for towing away for releasing the spring-loaded multi-disc brake
- Reversing horn

- Extensive safety package with EMERGENCY STOP switch
- Pre-fitting for installing the WITOS FleetView control unit
- European type certification, EuroTest mark and CE conformity

#### **Mandatory Options**

##### **Milling drum housing**

Ancillary parts for milling drum housing for extending to FB350. For operation without discharge conveyor. With single closing cap. Without scraper and milling drum.	<b>Standard</b>	<b>2435407</b>	<b>USD</b>	<b>0.00</b>
Ancillary parts for milling drum housing for extending to FB350. For operation with discharge conveyor. Including scraper and scraper bottom part. Without milling drum.	<b>Option</b>	<b>2434106</b>	<b>USD</b>	<b>1,790.00</b>
Ancillary parts for milling drum housing for extending to FB500. For operation without discharge conveyor. With single closing cap. Without scraper and milling drum.	<b>Option</b>	<b>2430304</b>	<b>USD</b>	<b>2,773.00</b>
Ancillary parts for milling drum housing for extending to FB500. For operation with discharge conveyor. Including scraper and scraper bottom part. Without milling drum.	<b>Option</b>	<b>2430301</b>	<b>USD</b>	<b>4,959.00</b>

##### **Hydraulic connection**

Hydraulic drive with quick-release connection and additional hydraulic pump for operation of discharge conveyor or hydraulic jack hammer.	<b>Standard</b>	<b>2433900</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

##### **Milling drums / milling units**

Milling drum FB350 LA15, with welded pick holders HT08 with increased service life, milling depth max. 4 in / 110 mm, equipped with 31 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.	<b>Standard</b>	<b>2430057</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

##### **Milling depth regulation**

Mechanical milling depth indicator by a wire-rope sensor left and right connected to the wheel brackets. Separate display on the left and right by a milling depth gage.	<b>Standard</b>	<b>2435408</b>	<b>USD</b>	<b>0.00</b>
LEVEL PRO PLUS leveling system. The measurement is made using wire-rope sensors on the side plate right and left. The milling depth is displayed and set intuitively on the LEVEL PRO PLUS operating display. The milling depth is regulated automatically. Incl. pre-fitting for additional sensors (e.g. Rapid Slope cross-slope sensor).	<b>Option</b>	<b>2376183</b>	<b>USD</b>	<b>8,803.00</b>

<b>Paint</b>				
Painting in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7015.	Standard	2862807	USD	0.00
Film coating in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7019	Option	2893649	USD	1,687.00
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	Standard	2456347	USD	0.00
<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	Standard	2770403	USD	0.00
<b>Machine lighting</b>				
Lighting system consisting of 2 halogen and 4 LED working lights. The headlights illuminate the area in front of the machine and the area in front of the milling drum unit. The light output of the working lights is approx. 9,700 lumens in total.	Standard	2435593	USD	0.00
High-performance lighting system consisting of 1 halogen and 5 LED working lights. The headlights illuminate the area in front of the machine and the area in front of the milling drum unit. The light output of the working lights is approx. 10,300 lumens in total. LED working lights are extremely bright, shock-resistant and durable.	Option	2435594	USD	279.00
<b>Equipment Options</b>				
<b>Additional weight</b>				
Modular additional weight 3086 lbs / 1,400 kg for individual ballasting of the machine. The weight plates can be carried and easily mounted by one person.	Standard	2450844	USD	0.00
<b>Equipment operator's platform</b>				
Equipment of the operator's platform with a height adjustable stand-up seat for increasing operating comfort	Standard	2460736	USD	0.00

<b>Slot cutting ring</b>				
Ancillary parts and adapter with saw blade FB14 (5 in), milling depth max. 4 in / 100 mm, for the installation on zero edge right	Option	2074431	USD	2,303.00
Ancillary parts and adapter with saw blade FB19 (7 in), milling depth max. 4 in / 100 mm, for the installation on zero edge right	Option	2120815	USD	2,289.00
<b>Options for belt conveyor</b>				
Robust 6 ft 1 in / 1,870 mm long discharge conveyor with conveyor belt width 8 in / 250 mm. Includes comfortable rope winch height adjustment. Using a foldable roller unit, the discharge conveyor can be mounted and removed in just a few steps and is easy to transport on a construction site. When replacing the picks, the belt can simply be swung to the side without the hydraulic connections having to be disconnected.	Option	2605148	USD	7,717.00
<b>Leveling</b>				
Expansion of the LEVEL PRO PLUS leveling system for laser leveling. Including laser receiver with mount, pylon and cable - without laser transmitter.	Option	2368610	USD	16,315.00
<b>Lateral slope control</b>				
Expansion of the LEVEL PRO PLUS leveling system by a RAPID SLOPE cross-slope sensor. Ideal, for example for aligning the machine in a defined lateral tilt on a one-sided reference.	Option	2368617	USD	4,504.00
<b>Leveling</b>				
Pre-programmable height positions with automatic positioning. 3 freely selectable workings heights each on left and right can be predefined. E.g. for quickly moving to milling depths or lifting the machine out of the cut. The left and right positions can be moved to separately.	Standard	2435844	USD	0.00
<b>Attachments</b>				
Powerful hydraulic hammer including 32 ft 8 in / 10-m connecting hose for residual jobs	Option	2435414	USD	5,341.00
<b>Other devices</b>				
License plate holder with LED lighting to comply with country-specific regulations.	Option	2656383	USD	499.00

Additional milling drums				
Fine milling drum, with milling width 350 mm / 1 ft 2 in, milling depth max. 100 mm / 3 15/16 in, tool spacing 6 mm / 15/64 in, equipped with welded holder system HT5 and 57 picks. For applications with the maximum requirement on macro and micro-profile of the road surface, e.g. increase in grip by roughening, preparatory milling for thin-layer coverings or removal of markings on the road surface.	Option	187302	USD	6,309.00
Microfine milling drum FB350 (14") LA3, with welded pick holders HT4, milling depth max. 1.2 in / 30 mm, equipped with 117 picks	Option	187301	USD	9,375.00
Documentation				
Additional set of technical documentation - North America country version (US)	Option		USD	88.00
Spare part and application documentation English (EN)	Option		USD	15.00

## Price list

### W 50 Ri

#### Scope of supply – basic machine

- Engine: 4-CYLINDER DIESEL ENGINE TYPE DEUTZ TCD 4.1 L4
- Rated engine power 2300 r.p.m.: 105 kW / 141 HP / 143 PS
- Exhaust standard: EU Stage V / US EPA Tier 4f
- Standard milling width: 1 ft 7 in / 500 mm
- Theoretical milling depth: 8 in / 210 mm

#### STANDARD EQUIPMENT

- Engine cover with noise insulation and flexibly decoupled engine mounting for especially quiet running and low noise emissions

#### MILLING DRUM UNIT

- Automatically activating, hydraulic drive belt tensioner for reliable power transmission to the milling drum
- Hydraulically lifting side plates with position measuring sensors in the hydraulic cylinders for measuring the milling depth.
- Round milling drum housing and straight left side plate for optimum material transport, making for low left-over amounts when lifting out the milling drum
- Prepared for using a scraper decoupled from the conveyor suspension for loading material using discharge conveyor
- The right-hand side of the milling drum housing can be easily opened for maintenance or drum change
- Optimized for quick change of the milling drum, including by using centering pins with the side door of the milling drum housing
- With automatic electrical safety shut-off for the milling drum

#### LOADING OF MILLED MATERIAL

- Machine prepared for optional material loading by discharge conveyor
- Conveyor speed continuously variable
- Conveyor slewing angle right/left 30 degrees each for significantly improved loading procedures
- Slender conveyor suspension permits improved visibility to the rear

#### OPERATOR'S PLATFORM

- Operator's platform with ergonomically arranged operator's seat, control panel arranged on the right and digital milling depth indicator in the control display
- Steering console with adjustable rake and reach for ideal adaptation of the operator's platform to the operator
- 2 rear-view mirrors left
- Machine design permits unobstructed view of the milled edge at the right and left as well as the working area in front of the milling drum on the right
- Conveniently accessible ladder/footstep to the operator's platform with night-time lighting and especially low, folding bottom edge of the latter/footstep
- Robust anti-vandalism protection for the controls

#### TRACK UNIT AND HEIGHT ADJUSTMENT

- Precise machine height adjustment in 0.04 or 0.2 in / 1 or 5 mm steps from the machine control panel
- Infinitely variable, hydraulic all-wheel drive with three speed ranges
- Digital load control, can be engaged manually, hydraulic differential lock (via flow divider)
- Particularly wide solid rubber tires (1 ft / 300 mm) for the lowest ground pressures and optimum traction
- For milling along curb edges, the rear right support wheel can be swiveled hydraulically from the operator's platform in front of the milling drum. In addition, the machine does not have to be lowered.
- Hydraulic spring-loaded brake

- Proportional height adjustment at rear
- Additional machine controller for automatic milling of intermittent rumble strip sections. Only in combination with a rumble strip kit.

#### MISCELLANEOUS

- Optimized center of gravity position, irrespective of the filling levels of the water and fuel tanks
- Particularly low machine center of gravity for high stability of the machine
- Robust and easily maintained machine chassis with optimum ground clearance and short overhangs
- Towing device
- Reversing horn
- Large tool package with lockable tool box and additional storage space for two pick containers
- Pre-fitting for installing the WITOS FleetView control unit
- European type certification, EuroTest mark and CE conformity

**List price ex subsidiary Wirtgen America** **USD** **297,603.00**

#### Mandatory Options

##### Milling drum housing

Wear-resistant milling drum housing FB500 (20") with scraper system. For use with discharge conveyor.	Standard	2288339	USD	0.00
---	----------	---------	-----	------

##### Milling drums / milling units

Milling drum with milling width 500 mm / 1 ft 7 in, milling depth max. 210 mm / 8 in, tool spacing 15 mm / 19/32 in, equipped with welded pick holders HT08 with increased service life and 60 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.	Standard	2288343	USD	0.00
---	----------	---------	-----	------

##### Material depressor / milling unit seal front

Front milling drum unit seal FB500 (20") with hydraulic height and contact pressure adjustment. An overload sensor with control function lifts the seal briefly in case of a collision and thus prevents damage.	Standard	2288347	USD	0.00
--	----------	---------	-----	------

#### OPERATOR'S PLATFORM

Standard operator's seat with shock absorption and lengthways adjustment	Standard	2288348	USD	0.00
--	----------	---------	-----	------

Comfort operator's seat incl. seat heating. The operator's seat has shock absorption, lengthways adjustment and can be swiveled through 20 degrees.	Option	2288349	USD	1,159.00
---	--------	---------	-----	----------

##### Milling depth regulation

Digital milling depth indicator in the control display. The measurement is made using cylinder sensors in the lifting columns. Regulation is performed manually by the operator. With 3 freely assignable milling depth memory slots each for the left and right sides of the machine.	Standard	2288350	USD	0.00
--	----------	---------	-----	------

LEVEL PRO PLUS leveling system. The measurement is made using cylinder sensors on the side plate right and left. The milling depth is displayed and set intuitively on the LEVEL PRO PLUS control display. The milling depth is regulated automatically. Incl. pre-fitting for additional sensors (e.g. Rapid Slope).	Option	2288352	USD	10,784.00
<b>Hydraulic connection</b>				
Machine with hydraulic pre-fitting for a discharge conveyor with screw coupling. Each contains the coupling element on the machine side and the discharge conveyor side.	Standard	2288355	USD	0.00
<b>Material transport</b>				
Discharge conveyor 18 ft 4 in / 5,600 mm long with conveyor belt width 1 ft 2 in / 350 mm and hydraulic folding device for shortening the transport length or simplified maneuvering in narrow fields. Including mechanical installation and removal assistance.	Standard	2288359	USD	0.00
<b>Paint</b>				
Painting in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7015.	Standard	2288360	USD	0.00
Film coating in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7019	Option	2893655	USD	2,010.00
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	Standard	2456347	USD	0.00
<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	Standard	2770403	USD	0.00
<b>Machine lighting</b>				
Lighting system consisting of 1 LED strip, 3 halogen and 8 LED working lights. The headlights illuminate the area in front of the machine, the left machine side, the area in front of the milling drum unit, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 16,700 lumen in total.	Standard	2487449	USD	0.00

High-performance lighting system consisting of 2 LED strips, 1 halogen and 12 LED working lights. The headlights illuminate the area in front of the machine, the rear of the machine, the left machine side from the front and rear, the area in front of the milling drum unit, the wheel arch, the weather canopy, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 23,300 lumen in total. LED working lights are extremely bright, shock-resistant and durable.	Option	2487450	USD	1,042.00
<b>Crawler units</b>				0.00
Chassis with 4 driven wheeled track units for a quick and maneuverable change of field with optimum traction and better distribution of ground pressure. The front wheels are arranged slightly offset and so permit larger steering angles as well as greater comfort and safety when crossing lateral steps.	Standard	2286790	USD	0.00
<b>Equipment Options</b>				
<b>Additional weight</b>				
Machine equipment with an additional weight 838 lbs / 380 kg behind the front axle. The additional weight increases the machine traction.	Option	2288394	USD	2,347.00
<b>Advance drive</b>				
Equipment of the machine with 4-wheel chassis with precision steering. Pushbuttons on the multi-function armrests with a proportional response permit more precise steering of the machine. The right rear wheel also steers, thereby enabling the smallest turning circles within a compact space.	Standard	2478478	USD	0.00
Equipment of the machine for increased transport speed by using more powerful hydraulic components, (3-wheel up to 8 km/h / 5 mph, 4-wheel up to 12 km/h / 7.5 mph). Working in the field is significantly accelerated by an increased transport speed of the machine. Option only possible in conjunction with precision steering.	Standard	2478476	USD	0.00
<b>Equipment operator's platform</b>				
Operator's platform with weather canopy and lateral weather protection elements. The weather canopy can be adjusted in height hydraulically. The transparent weather protection elements on the side on the roof and the right of the operator's platform protect the operator against the effects of weather driving in from the sides, and ensure additional comfort when working.	Option	2309414	USD	10,109.00

<b>Milling drum assembly options</b>				
Overload sensor on the scraper FB500/600 for automatic lifting function in case of obstacles. Effectively prevents the scraper from sinking into the loose sub-base, as well as getting stuck on obstacles.	Option	2478474	USD	1,027.00
Active floating position on the side plate right and left by continuous comparison between the milling depth and position of the side plate. If required, the side plate is lifted briefly to prevent tilting or sinking into a soft sub-base. (Only possible in conjunction with LEVEL PRO PLUS.)	Option	2478486	USD	1,878.00
<b>Side milling ring</b>				
Side milling ring with protective cover and ancillary parts FB80 (3") cpl., with welded pick holders HT02, milling depth max. 0 ft 11 in / 300 mm, equipped with 30 picks	Option	2288386	USD	10,637.00
<b>Device for milling drum change</b>				
Milling drum assembly trolley for milling drums up to FB600 (24"), for straightforward milling drum change.	Option	177240	USD	748.00
<b>Additional milling units</b>				
FCS milling unit FB400 (15,75") LA15, with welded pick holders HT08, milling depth max. 8 in / 210 mm, equipped with 54 picks. Including corresponding scraper bottom parts.	Option	2288388	USD	7,835.00
FCS milling unit FB300 (12") LA15, with welded pick holders HT08, milling depth max. 8 in / 210 mm, equipped with 47 picks. Including corresponding scraper bottom parts.	Option	2288389	USD	6,734.00
<b>Cold-start device</b>				
Electrical preheating of the fuel filter to maintain the flow of fuel at low outside temperatures. Serves to guarantee machine operation at temperatures below 0 32 degrees Fahrenheit (0 degrees Celsius).	Option	2411669	USD	440.00
<b>Options for belt conveyor</b>				
Additional shortened discharge conveyor 3 ft 7 in / 1,100 mm long with conveyor belt system 1 ft 2 in / 350 mm. Including hydraulic conveyor cylinder and installation material. Ideal for loading wheel loader buckets and wheelbarrows or for depositing the milled material at the side.	Option	2288390	USD	12,676.00

<b>Lateral slope control</b>				
Expansion of the LEVEL PRO PLUS leveling system by a RAPID SLOPE sensor. Ideal, for example for aligning the machine in a defined lateral tilt on a one-sided reference.	Option	2547902	USD	4,504.00
Expansion of the LEVEL PRO PLUS leveling system by a leveling boom that can be moved out on the left side. The boom can be moved out hydraulically if required by up to 43 in / 1,080 mm and mechanically by a further 40 in / 1,020 mm. Including sensor and cable as well as LED position lights for indicating the moved-out boom.	Option	2288393	USD	6,192.00
<b>Attachments</b>				
Hydraulic control valves and hydraulic connection on machine rear for the use of a hydraulic hammer or further hydraulically driven additional devices.	Option	2363218	USD	1,056.00
<b>Attachments</b>				
Powerful hydraulic hammer with 33 ft / 10 m connection hose. Ideal for removing left-over areas.	Option	2288398	USD	5,341.00
<b>Water system / spraying agent system</b>				
Hydraulically driven water filler pump. For rapid filling of the water tank. The filler pump is located in an easily accessible position and is protected in the storage compartment at the ladder/footstep to the operator's platform.	Option	2288387	USD	3,110.00
<b>Pick changing aids</b>				
Hydraulically driven pick extractor drift, complete with holder and corresponding electrical and hydraulic connectors. Ideal for convenient and quiet pick change.	Option	2288399	USD	6,646.00
<b>Wirtgen information and diagnostic system</b>				
Equipment of the machine with job data acquisition. The information is shown in the control display.	Option	2410294	USD	1,247.00
<b>Camera system</b>				
Monitor system with 2 cameras and an additional screen. A camera is mounted on the discharge conveyor and displays the ejection area. The 2nd camera can be freely positioned on the machine using a magnetic base and spiral cable, and thus offers complete flexibility in use.	Option	2487626	USD	5,590.00

<b>Other devices</b>				
License plate holder with LED lighting to comply with country-specific regulations.	Option	2655776	USD	499.00
<b>Additional milling drums</b>				
Milling drum FB80 (3") with welded pick holders HT02, milling depth max. 8 in / 210 mm, equipped with 24 RS picks, for the installation in the milling drum housing with zero edge right	Option	2078806	USD	3,683.00
Milling drum with milling width 300 mm / 0 ft 11 in, milling depth max. 210 mm / 8 in, tool spacing 15 mm / 19/32 in, equipped with welded pick holders HT08 with increased service life and 47 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.	Option	2334037	USD	5,737.00
Milling drum with milling width 400 mm / 15 3/4 in, milling depth max. 210 mm / 8 in, tool spacing 15 mm / 19/32 in, equipped with welded pick holders HT08 with increased service life and 54 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.	Option	2334038	USD	6,500.00
Microfine milling drum FB500 (20") LA3, with welded pick holders HT4, milling depth max. 0.8 in / 20 mm, equipped with 166 mini-picks.	Option	178460	USD	13,087.00
Fine milling drum, with milling width 500 mm / 1 ft 8 in, milling depth max. 50 mm / 2 in, tool spacing 6 mm / 15/64 in, equipped with welded holder system HT5 and 84 picks. For applications with the maximum requirement on macro and micro-profile of the road surface, e.g. increase in grip by roughening, preparatory milling for thin-layer coverings or removal of markings on the road surface.	Option	177181	USD	9,889.00
FCS milling drum with milling width 500 mm / 1 ft 7 in, milling depth max. 210 mm / 8 in, tool spacing 20 mm / 25/32 in, equipped with welded pick holders HT08 and 54 picks. For applications with high requirements for milling volume, e.g. complete removal of road surfaces or concrete milling work.	Option	2389515	USD	6,602.00
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	Option		USD	88.00
Spare part and application documentation English (EN)	Option		USD	15.00

## Price list W 60 Ri

### Scope of supply – basic machine

- Engine: 4-CYLINDER DIESEL ENGINE TYPE DEUTZ TCD 4.1 L4
- Rated engine power 2300 r.p.m.: 105 kW / 141 HP / 143 PS
- Exhaust standard: EU Stage V / US EPA Tier 4f
- Standard milling width: 1 ft 7 in / 500 mm
- Theoretical milling depth: 8 in / 210 mm

### STANDARD EQUIPMENT

- Engine cover with noise insulation and flexibly decoupled engine mounting for especially quiet running and low noise emissions

### MILLING DRUM UNIT

- Automatically activating, hydraulic drive belt tensioner for reliable power transmission to the milling drum
- Hydraulically lifting side plates with position measuring sensors in the hydraulic cylinders for measuring the milling depth.
- Round milling drum housing and straight left side plate for optimum material transport, making for low left-over amounts when lifting out the milling drum
- Prepared for using a scraper decoupled from the conveyor suspension for loading material using discharge conveyor
- The right-hand side of the milling drum housing can be easily opened for maintenance or drum change
- Optimized for quick change of the milling drum, including by using centering pins with the side door of the milling drum housing
- With automatic electrical safety shut-off for the milling drum

### LOADING OF MILLED MATERIAL

### TRACK UNIT AND HEIGHT ADJUSTMENT

- Precise machine height adjustment in 0.04 or 0.2 in / 1 or 5 mm steps from the machine control panel
- Infinitely variable, hydraulic all-wheel drive with three speed ranges
- Digital load control, can be engaged manually, hydraulic differential lock (via flow divider)
- Particularly wide solid rubber tires (1 ft / 300 mm) for the lowest ground pressures and optimum traction
- For milling along curb edges, the rear right support wheel can be swiveled hydraulically from the operator's platform in front of the milling drum. In addition, the machine does not have to be lowered.
- Hydraulic spring-loaded brake

- Proportional height adjustment at rear
- Additional machine controller for automatic milling of intermittent rumble strip sections. Only in combination with a rumble strip kit.

#### MISCELLANEOUS

- Optimized center of gravity position, irrespective of the filling levels of the water and fuel tanks
- Particularly low machine center of gravity for high stability of the machine
- Robust and easily maintained machine chassis with optimum ground clearance and short overhangs
- Towing device
- Reversing horn
- Machine equipment with an additional weight 838 lbs / 380 kg behind the front axle. The additional weight increases the machine traction.
- Large tool package with lockable tool box and additional storage space for two pick containers
- Pre-fitting for installing the WITOS FleetView control unit
- European type certification, EuroTest mark and CE conformity

**List price ex subsidiary Wirtgen America** **USD** **303,208.00**

#### Mandatory Options

##### Milling drum housing

Wear-resistant milling drum housing FB600 (24") with scraper system. For use with discharge conveyor.	<b>Standard</b>	<b>2381026</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

##### Milling drums / milling units

Milling drum with milling width 600 mm / 23 5/8 in, milling depth max. 210 mm / 8 in, tool spacing 15 mm / 19/32 in, equipped with welded pick holders HT08 with increased service life and 70 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.	<b>Standard</b>	<b>2288345</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

##### Material depressor / milling unit seal front

Front milling drum unit seal FB600 (24") with hydraulic height and contact pressure adjustment. An overload sensor with lifting function lifts the seal briefly in case of a collision and thus prevents damage.	<b>Standard</b>	<b>2297529</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

#### OPERATOR'S PLATFORM

Standard operator's seat with shock absorption and lengthways adjustment	<b>Standard</b>	<b>2288348</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

Comfort operator's seat incl. seat heating. The operator's seat has shock absorption, lengthways adjustment and can be swiveled through 20 degrees.	<b>Option</b>	<b>2288349</b>	<b>USD</b>	<b>1,159.00</b>
---	---------------	----------------	------------	-----------------

##### Milling depth regulation

Digital milling depth indicator in the control display. The measurement is made using cylinder sensors in the lifting columns. Regulation is performed manually by the operator. With 3 freely assignable milling depth memory slots each for the left and right sides of the machine.	<b>Standard</b>	<b>2288350</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

LEVEL PRO PLUS leveling system. The measurement is made using cylinder sensors on the side plate right and left. The milling depth is displayed and set intuitively on the LEVEL PRO PLUS control display. The milling depth is regulated automatically. Incl. pre-fitting for additional sensors (e.g. Rapid Slope).	Option	2288352	USD	10,784.00
<b>Hydraulic connection</b>				
Machine with hydraulic pre-fitting for a discharge conveyor with screw coupling. Each contains the coupling element on the machine side and the discharge conveyor side.	Standard	2288355	USD	0.00
<b>Material transport</b>				
Discharge conveyor 18 ft 4 in / 5,600 mm long with conveyor belt width 1 ft 2 in / 350 mm and hydraulic folding device for shortening the transport length or simplified maneuvering in narrow fields. Including mechanical installation and removal assistance.	Standard	2288359	USD	0.00
<b>Paint</b>				
Painting in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7015.	Standard	2380455	USD	0.00
Film coating in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7019	Option	2893657	USD	2,010.00
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	Standard	2456347	USD	0.00
<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	Standard	2770403	USD	0.00

<b>Machine lighting</b>				
Lighting system consisting of 1 LED strip, 3 halogen and 8 LED working lights. The headlights illuminate the area in front of the machine, the left machine side, the area in front of the milling drum unit, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 16,700 lumen in total.	Standard	2487449	USD	0.00
High-performance lighting system consisting of 2 LED strips, 1 halogen and 12 LED working lights. The headlights illuminate the area in front of the machine, the rear of the machine, the left machine side from the front and rear, the area in front of the milling drum unit, the wheel arch, the weather canopy, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 23,300 lumen in total. LED working lights are extremely bright, shock-resistant and durable.	Option	2487450	USD	1,042.00
<b>Crawler units</b>				
Chassis with 4 driven wheeled track units for a quick and maneuverable change of field with optimum traction and better distribution of ground pressure. The front wheels are arranged slightly offset and so permit larger steering angles as well as greater comfort and safety when crossing lateral steps.	Standard	2286790	USD	0.00
<b>Equipment Options</b>				
<b>Additional weight</b>				
Equipment of the machine with an additional weight 620 kg / 1367 lbs on the underbody. For the W 50 Ri, only in conjunction with the additional weight 380 kg / 838 lbs. The additional weight increases the machine traction.	Option	2288395	USD	3,198.00
<b>Advance drive</b>				
Equipment of the machine with 4-wheel chassis with precision steering. Pushbuttons on the multi-function armrests with a proportional response permit more precise steering of the machine. The right rear wheel also steers, thereby enabling the smallest turning circles within a compact space.	Standard	2481423	USD	0.00
Equipment of the machine for increased transport speed by using more powerful hydraulic components, (3-wheel up to 8 km/h / 5 mph, 4-wheel up to 12 km/h / 7.5 mph). Working in the field is significantly accelerated by an increased transport speed of the machine. Option only possible in conjunction with precision steering.	Standard	2478476	USD	0.00

<b>Equipment operator's platform</b>				
Operator's platform with weather canopy and lateral weather protection elements. The weather canopy can be adjusted in height hydraulically. The transparent weather protection elements on the side on the roof and the right of the operator's platform protect the operator against the effects of weather driving in from the sides, and ensure additional comfort when working.	<b>Option</b>	<b>2309414</b>	<b>USD</b>	<b>10,109.00</b>
<b>Milling drum assembly options</b>				
Overload sensor on the scraper FB500/600 for automatic lifting function in case of obstacles. Effectively prevents the scraper from sinking into the loose sub-base, as well as getting stuck on obstacles.	<b>Option</b>	<b>2478474</b>	<b>USD</b>	<b>1,027.00</b>
Active floating position on the side plate right and left by continuous comparison between the milling depth and position of the side plate. If required, the side plate is lifted briefly to prevent tilting or sinking into a soft sub-base. (Only possible in conjunction with LEVEL PRO PLUS.)	<b>Option</b>	<b>2478486</b>	<b>USD</b>	<b>1,878.00</b>
<b>Side milling ring</b>				
Side milling ring with protective cover and ancillary parts FB80 (3") cpl., with welded pick holders HT02, milling depth max. 0 ft 11 in / 300 mm, equipped with 30 picks	<b>Option</b>	<b>2288386</b>	<b>USD</b>	<b>10,637.00</b>
<b>Device for milling drum change</b>				
Milling drum assembly trolley for milling drums up to FB600 (24"), for straightforward milling drum change.	<b>Option</b>	<b>177240</b>	<b>USD</b>	<b>748.00</b>
<b>Additional milling units</b>				
FCS milling unit FB500 (1 ft 6 in) LA15, with welded pick holders HT08, milling depth max. 8 in / 210 mm, equipped with 60 picks. Including corresponding scraper bottom parts.	<b>Option</b>	<b>2542455</b>	<b>USD</b>	<b>10,197.00</b>
FCS milling unit FB400 (15,75") LA15, with welded pick holders HT08, milling depth max. 8 in / 210 mm, equipped with 54 picks. Including corresponding scraper bottom parts.	<b>Option</b>	<b>2542456</b>	<b>USD</b>	<b>9,742.00</b>
<b>Cold-start device</b>				
Electrical preheating of the fuel filter to maintain the flow of fuel at low outside temperatures. Serves to guarantee machine operation at temperatures below 0 32 degrees Fahrenheit (0 degrees Celsius).	<b>Option</b>	<b>2411669</b>	<b>USD</b>	<b>440.00</b>

<b>Options for belt conveyor</b>				
Additional shortened discharge conveyor 3 ft 7 in / 1,100 mm long with conveyor belt system 1 ft 2 in / 350 mm. Including hydraulic conveyor cylinder and installation material. Ideal for loading wheel loader buckets and wheelbarrows or for depositing the milled material at the side.	Option	2288390	USD	12,676.00
<b>Lateral slope control</b>				
Expansion of the LEVEL PRO PLUS leveling system by a RAPID SLOPE sensor. Ideal, for example for aligning the machine in a defined lateral tilt on a one-sided reference.	Option	2547902	USD	4,504.00
Expansion of the LEVEL PRO PLUS leveling system by a leveling boom that can be moved out on the left side. The boom can be moved out hydraulically if required by up to 43 in / 1,080 mm and mechanically by a further 40 in / 1,020 mm. Including sensor and cable as well as LED position lights for indicating the moved-out boom.	Option	2288393	USD	6,192.00
<b>Attachments</b>				
Hydraulic control valves and hydraulic connection on machine rear for the use of a hydraulic hammer or further hydraulically driven additional devices.	Option	2363218	USD	1,056.00
<b>Attachments</b>				
Powerful hydraulic hammer with 33 ft / 10 m connection hose. Ideal for removing left-over areas.	Option	2288398	USD	5,341.00
<b>Water system / spraying agent system</b>				
Hydraulically driven water filler pump. For rapid filling of the water tank. The filler pump is located in an easily accessible position and is protected in the storage compartment at the ladder/footstep to the operator's platform.	Option	2288387	USD	3,110.00
<b>Pick changing aids</b>				
Hydraulically driven pick extractor drift, complete with holder and corresponding electrical and hydraulic connectors. Ideal for convenient and quiet pick change.	Option	2288399	USD	6,646.00
<b>Wirtgen information and diagnostic system</b>				
Equipment of the machine with job data acquisition. The information is shown in the control display.	Option	2410294	USD	1,247.00
<b>Camera system</b>				
Monitor system with 2 cameras and an additional screen. A camera is mounted on the discharge conveyor and displays the ejection area. The 2nd camera can be freely positioned on the machine using a magnetic base and spiral cable, and thus offers complete flexibility in use.	Option	2487626	USD	5,590.00

<b>Other devices</b>				
License plate holder with LED lighting to comply with country-specific regulations.	<b>Option</b>	<b>2655776</b>	<b>USD</b>	<b>499.00</b>
<b>Additional milling drums</b>				
Milling drum FB80 (3") with welded pick holders HT02, milling depth max. 8 in / 210 mm, equipped with 24 picks	<b>Option</b>	<b>2389524</b>	<b>USD</b>	<b>3,565.00</b>
Fine milling drum, with milling width 600 mm, milling depth max. 100 mm, tool spacing 6 mm / 15/64 in, equipped with welded holder system HT5 and 101 picks. For applications with the maximum requirement on macro and micro-profile of the road surface, e.g. increase in grip by roughening, preparatory milling for thin-layer coverings or removal of markings on the road surface.	<b>Option</b>	<b>2389522</b>	<b>USD</b>	<b>11,356.00</b>
Milling drum Eco-Cutter FB600 (24") LA20 with welded pick holders HT08 with increased service life. Milling depth max. 8 in / 210 mm, equipped with 58 picks.	<b>Option</b>	<b>2389521</b>	<b>USD</b>	<b>6,998.00</b>
Microfine milling drum FB500 (20") LA3, with welded pick holders HT4, milling depth max. 0.8 in / 20 mm, equipped with 166 mini-picks.	<b>Option</b>	<b>178460</b>	<b>USD</b>	<b>13,087.00</b>
Fine milling drum, with milling width 500 mm / 1 ft 8 in, milling depth max. 50 mm / 2 in, tool spacing 6 mm / 15/64 in, equipped with welded holder system HT5 and 84 picks. For applications with the maximum requirement on macro and micro-profile of the road surface, e.g. increase in grip by roughening, preparatory milling for thin-layer coverings or removal of markings on the road surface.	<b>Option</b>	<b>177181</b>	<b>USD</b>	<b>9,889.00</b>
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	<b>Option</b>		<b>USD</b>	<b>88.00</b>
Spare part and application documentation English (EN)	<b>Option</b>		<b>USD</b>	<b>15.00</b>

## Price list

# WR 200 XLi

### Scope of supply – basic machine

- Engine: 6-cylinder diesel engine: Mercedes-Benz OM 470 LA
- Power at 1,900 r.p.m.: 308 kW / 412 HP / 418 PS
- Maximum power at 1,700 r.p.m.: 320 kW / 429 HP / 435 PS
- Exhaust standard: EU Stage 4 / US EPA Tier 4f
- Standard milling width: 7 ft 10 in / 2,400 mm
- Theoretical milling depth: 1 ft 8 in / 500 mm

### STANDARD EQUIPMENT

- Base machine with engine
- Machine chassis with built-in water tank and clear view of the right milled edge
- The right wheels are positioned within the milling width for working flush with the edge
- Diesel engine power controller for optimum milling and mixing results
- Engine cooling system with temperature-controlled fan speed
- Air system with compressor max. 116 psi / 8 bar
- Lockable engine cover with built-in sound insulation package
- Mechanical milling drum drive via a drive belt with automatic belt tensioner
- Variable cutting speed by combination of 3 selectable engine speeds and 3 adjustable drive belt pulley arrangements to achieve optimum working results
- Synchronous rotation or counter-rotating mode possible, depending on working direction
- Hydraulically adjustable milling drum flap in front of the drum
- Hydraulically adjustable scraper plates behind the drum
- Infinitely variable working depth adjustment by lowering or raising the entire milling drum
- Automatic mixing chamber adjustment to the respective working depth (larger mixing chamber for lower working depths)
- Power-controlled lowering speed of the milling drum in starting mode

### MACHINE CONTROL AND LEVELLING SYSTEM

- Multifunctional color control display that shows important machine operating conditions
- Comprehensive machine diagnostics displayed on the control screen
- Programmable automatic system for initiating and completing the milling process at the particular working depth
- Automated features to reduce the machine operator's workload

### OPERATOR'S PLATFORM

- Comfortable, high-quality cabin with flexible mountings, with roof hatch and individually adjustable heating
- Ergonomic, air-cushioned operator's seat
- Roll-over protection system (ROPS and FOPS) integrated in the cab frame
- Large windows with an excellent view of the respective work area and built-in windshield wipers
- Recirculating and fresh air filters can be changed without tools
- Various shelves and storage compartments as well as 12 V and 24 V sockets
- In order to provide an ideal view over the zero edge, the operator's cabin can be shifted over the right-hand side of the machine.
- Rotation of the operator's platform through 90° offers optimum adaptation to the particular working situation
- Individually adjustable control panel with color display
- Reversing camera with graphical reversing assistant
- Mirrors on right and left in the front area of the machine
- Working lights integrated into the cab roof

**TRACK UNIT AND HEIGHT ADJUSTMENT**

- Infinitely adjustable, hydraulic all-wheel drive
- Four-way tilting of the lifting columns to compensate for uneven terrain
- Electrohydraulic, light all-wheel steering, with the "crab", "cornering" or "straight ahead" steering types

**MISCELLANEOUS**

- "Welcome and go home" lighting with LED lighting in the ladder area
- Extensive safety package with 3 EMERGENCY STOP switches
- Large tool kit in lockable tool box
- Pre-fitting for installing the WITOS FleetView control unit
- European type certification, EuroTest mark and CE conformity

**List price ex subsidiary Wirtgen America****USD****530,870.00****Mandatory Options****Milling drums / milling units**

DURAFORCE milling and mixing rotor with working width 2400 mm (7 ft 10 in), working depth max. 510 mm, tool spacing 20 mm, equipped with quick-change toolholder system HT22 and 170 RS picks with shank diameter D20 with exchangeable edge ring segments. For a wide range of applications in soil stabilization and cold recycling.

**Standard****2314431****USD****0.00****Spraying unit**

Machine without spraying system. The existing drum housing openings are locked by cover strips.

**Standard****2418106****USD****0.00**

A VARIO spraying system for the precise addition of water or bitumen emulsion, with an eccentric auger pump (max. 800 l/min), a flow-through meter and a spray bar. The nozzles of the spraying system are equipped with an adjustable nozzle cross-section for adjusting the spray pressure. The spray bar has a special, automatically operating nozzle cleaning function. Furthermore, the spraying width can be set individually. The quantities added are controlled by a microprocessor. Straightforward operation on a colour display. Including a push bar for pushing the tank truck. (FB2400)

**Option****2683246****USD****44,162.00**

System only suitable for the addition of large quantities of water in the soil stabilisation process. A spraying system for the addition of water (max. 475 gal/min / 1800 l/min) with centrifugal pump, hydraulically operated shut-off device, flow meter and spraying beam. The spraying width can be set individually. The quantities added are controlled by a microprocessor. The effective control range is between 400 and 1800 l/ min. Straightforward operation on a color display. Including a push bar for pushing a tanker vehicle. (FB2400)

**Option****2494986****USD****39,761.00**

<b>Paint</b>				
Painting in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7015.	Standard	2418129	USD	0.00
Monocolor special painting. Cream white color is replaced by a special color (RAL according to customer). The complete lower part of the machine is painted in slate grey RAL 7015.	Additional price instead of standard	2418132	USD	2,480.00
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	Standard	2456347	USD	0.00
<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	Standard	2770403	USD	0.00
<b>Machine lighting</b>				
Halogen lighting system 24 V. Consisting of 8 additional halogen working lights for illuminating the working area. The light output is approx. 1,750 lumens per headlight. Including 2 rotary beacons.	Standard	2184631	USD	0.00
Powerful LED / halogen lighting system 24 V. Consisting of 6 additional LED working lights and 2 additional halogen working lights with magnetic flux for optimum illumination of the working area. Also, the 6 standard halogen working lights on the cabin roof are replaced by 6 LED working lights. LED working lights are extremely bright, shock-resistant and durable. The light output is approx. 3,000 lumens per headlight (halogen approx. 1,750 lumens). Including 2 LED patrol lights.	Option	2184632	USD	4,387.00
<b>Equipment Options</b>				
<b>Equipment in cabin</b>				
Air-conditioner integrated in the cabin roof with automatic air conditioning, infinitely variable fan and recirculating air filters that can be changed without tools.	Standard	2297350	USD	0.00
Radio system with two speakers and antenna - radio with CD/MP3/USB/Bluetooth	Standard	2184420	USD	0.00

<b>Printer</b>				
Printer for logging the binder consumption and area coverage.	Option	2184421	USD	1,144.00
USB interface for providing job data as a CSV file for it to be individually evaluated by the machine operator.	Option	2883103	USD	1,555.00
<b>Lateral slope control</b>				
Expansion of leveling system with electronic cross-slope sensor; ideal, for example, for aligning the machine in a defined transverse inclination on a single-sided reference	Standard	2417051	USD	0.00
<b>Water system</b>				
Hydraulically operated high-pressure water cleaner with a maximum performance of 15 l/min at 150 bar pressure. Ideal for daily cleaning of the machine.	Option	2223766	USD	4,607.00
<b>Other devices</b>				
Battery-operated hydraulic unit for milling drum rotation device and hydraulic pick extractor drift as well as for auxiliary drive.	Option	2302704	USD	3,213.00
<b>Pick changing aids</b>				
Milling drum rotation device with electrohydraulic milling drum drive for slowly turning the milling drum during pick replacement. The diesel engine can be switched off in conjunction with the "electric hydraulic unit" option.	Option	2326246	USD	3,477.00
Pneumatic hammer with two pick extractor and inserter tools each as well as 5.00 m / 16 ft 5 in hose.	Option	60604	USD	514.00
Hydraulically driven pick ejector, including the holder and required electrical and hydraulic connections. Ideal for convenient, fast and low-noise pick changes.	Option	2322403	USD	3,903.00
Additional, lockable storage compartment for 8 pick containers, mounted on the left side of the machine.	Option	2658350	USD	1,731.00
<b>Camera system</b>				
Monitor system with 3 cameras and 7" color display, in addition to the reversing camera of the standard equipment. The 2nd camera is directed towards the area in front of the milling drum housing and the 3rd towards the rear rotor plate. The 4th camera permits good visibility of the left side of the machine. The camera images are displayed on the monitor in the operator's platform. For model without spraying system.	Option	2320392	USD	7,747.00

Monitor system with 3 cameras and 7" color display, in addition to the reversing camera of the standard equipment. The 2nd camera is directed towards the area in front of the milling drum housing and the 3rd towards the rear rotor plate. The 4th camera permits good visibility of the left side of the machine. The camera images are displayed on the monitor in the operator's platform. For model with spraying system.	Option	2505868	USD	7,747.00
<b>Other devices</b>				
License plate holder with LED lighting to comply with country-specific regulations.	Option	2657943	USD	499.00
<b>Miscellaneous</b>				
Additional push bar 9 ft 11 in / 3.00 m - for a second tank truck. Drawbar/ push-bar eye 1x inner diameter 1x inner diameter = 1.57 in / 40 mm and 1x inner diameter = 1.97 in / 50 mm.	Option	2269834	USD	807.00
Connection pipe for the intake manifolds of the dual ESL. The connection pipe is fixed to both pump intake manifolds using tank truck couplings and enables both pumps to be fed simultaneously from the tank truck. A 4" supply hose between the tank truck and the connection pipe is essential for achieving the increased flow-through quantities (max. 1600l/min), but is not delivered as part of this option.	Option	2775968	USD	1,717.00
Support arm for holding the push bar and feed lines whilst changing tankers	Option	2885796	USD	2,333.00
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	Option		USD	88.00
Spare part and application documentation English (EN)	Option		USD	15.00

## Price list

# WR 240i

### Scope of supply – basic machine

- Engine: 6-cylinder diesel engine: Cummins QXS 15
- Maximum power at 1,900 r.p.m.: 455 kW / 610 HP / 618 PS
- Exhaust standard: EU Stage V / US EPA Tier 4f
- Standard milling width: 7 ft 10 in / 2,400 mm
- Theoretical milling depth: 1 ft 8 in / 510 mm

### STANDARD EQUIPMENT

- Base machine with engine
- Machine chassis with built-in water tank and clear view of the right milled edge
- The right wheels are positioned within the milling width for working flush with the edge
- Diesel engine power controller for optimum milling and mixing results
- Engine cooling system with temperature-controlled fan speed
- Air system with compressor max. 116 psi / 8 bar (not suitable for filling the S-Pack!)
- Lockable engine cover with built-in sound insulation package
- Mechanical milling drum drive via a drive belt with automatic belt tensioner
- Variable cutting speed by combination of 3 selectable engine speeds and 3 adjustable drive belt pulley arrangements to achieve optimum working results
- Synchronous rotation or counter-rotating mode possible, depending on working direction
- Hydraulically adjustable milling drum flap in front of the drum
- Hydraulically adjustable scraper plates behind the drum
- Infinitely variable working depth adjustment by lowering or raising the entire milling drum

**Spraying unit**

Machine without spraying system. The existing drum housing openings are locked by cover strips.	<b>Standard</b>	<b>2182574</b>	<b>USD</b>	<b>0.00</b>
A VARIO spraying system for the precise addition of water or bitumen emulsion, with an eccentric auger pump (max. 800 l/min), a flow-through meter and a spray bar. The nozzles of the spraying system are equipped with an adjustable nozzle cross-section for adjusting the spray pressure. The spray bar has a special, automatically operating nozzle cleaning function. Furthermore, the spraying width can be set individually. The quantities added are controlled by a microprocessor. Straightforward operation on a colour display. Including a push bar for pushing the tank truck. (FB2400)	<b>Option</b>	<b>2683238</b>	<b>USD</b>	<b>44,162.00</b>
System is suitable for precisely adding water and bitumen emulsion. Two VARIO spraying systems for separate addition of water and bitumen emulsion, with eccentric auger pumps (each max. 800 l/min), flow-through meters and spray bars. The nozzles of both spray bars are equipped with an adjustable nozzle cross-section for adjusting the spraying pressure. The spray bars have a special, automatically operating nozzle cleaning function. Furthermore, the spraying width can be set individually. The quantities added are controlled by a microprocessor. Straightforward operation on a colour display. Including two push bars for pushing tank trucks. (FB2400)	<b>Option</b>	<b>2683240</b>	<b>USD</b>	<b>85,463.00</b>

System is suitable for precisely adding water and bitumen emulsion or foam bitumen. Two spraying systems for the separate addition of binding agents. Water is added via an eccentric auger pump (max. 800 l/min), a flow-through meter and a spray bar. Foamed bitumen or bitumen emulsion is added via a second electrically heated bitumen spraying system consisting of a gear pump (max. 500 kg/min), a bitumen filter, a flow-through meter, a process water pump and monitor and a spray bar. The nozzles of the water spray bar is equipped with an adjustable nozzle cross-section for adjusting the spraying pressure. Both spray bars have a special, automatically operating nozzle cleaning function. Furthermore, the spraying width can be set individually. The quantities added are controlled by a microprocessor. Straightforward operation on a colour display. Including two push bars for pushing tank trucks. (FB2400)	Option	2683241	USD	193,066.00
System only suitable for the addition of large quantities of water in the soil stabilisation process. A spraying system for the addition of water (max. 475 gal/min / 1800 l/min) with centrifugal pump, hydraulically operated shut-off device, flow meter and spraying beam. The spraying width can be set individually. The quantities added are controlled by a microprocessor. The effective control range is between 400 and 1800 l/ min. Straightforward operation on a color display. Including a push bar for pushing a tanker vehicle. (FB2400)	Option	2494987	USD	39,761.00
<b>Binder spreader</b>				<b>0.00</b>
Model without binder spreader device	Standard	2406146	USD	0.00
Integrated spreading device S-Pack for dust-free discharge of binder in front of the milling and mixing rotor. Container volume 194 ft <sup>3</sup> / 5.5 m <sup>3</sup> (effectively fillable to 159 ft <sup>3</sup> / 4.5 m <sup>3</sup> ). Advance-dependent dosing of the spreading quantity from 0,3 lb/ft <sup>2</sup> to 8,2 lb/ft <sup>2</sup> / 1.5 to 40 kg/m <sup>2</sup> . The spreading width can be divided into three segments. Operation is perfectly integrated into the machine control display.	Option	2223737	USD	166,188.00
<b>Paint</b>				
Painting in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7015.	Standard	2441058	USD	0.00
Monocolor special painting. Cream white color is replaced by a special color (RAL according to customer). The complete lower part of the machine is painted in slate grey RAL 7015.	Option	2441059	USD	2,480.00

<b>Technical documentation</b>				
Technical documentation - North America country version (US)	Standard	2456347	USD	0.00
<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	Standard	2770403	USD	0.00
<b>Machine lighting</b>				
Halogen lighting system 24 V. Consisting of 8 additional halogen working lights for illuminating the working area. The light output is approx. 1,750 lumens per headlight. Including 2 rotary beacons.	Standard	2184631	USD	0.00
Powerful LED / halogen lighting system 24 V. Consisting of 6 additional LED working lights and 2 additional halogen working lights with magnetic flux for optimum illumination of the working area. Also, the 6 standard halogen working lights on the cabin roof are replaced by 6 LED working lights. LED working lights are extremely bright, shock-resistant and durable. The light output is approx. 3,000 lumens per headlight (halogen approx. 1,750 lumens). Including 2 LED patrol lights.	Option	2184632	USD	4,387.00
<b>Exhaust air filter</b>				
Model without waste air filtering. Only for machines without integrated binder spreader (S-Pack).	Standard	2418221	USD	0.00
Advanced automatic waste air filtering for the integrated binder spreader device S-Pack. While the binder tank is being filled, the waste air is filtered by filter elements that are cleaned fully automatically by compressed air. The cleaning procedure is without dust in the closed system.	Option	2375580	USD	12,163.00
<b>Equipment Options</b>				
<b>Equipment in cabin</b>				
Air-conditioner integrated in the cabin roof with automatic air conditioning, infinitely variable fan and recirculating air filters that can be changed without tools.	Standard	2184409	USD	0.00
Radio system with two speakers and antenna - radio with CD/MP3/USB/Bluetooth	Standard	2184420	USD	0.00

<b>Control for binder addition</b>				
Equipment of the machine with an external dosing control unit. The additional operating display can be attached at the bottom left or right on the machine. For specific setting of important dosing parameters of the spraying strips and/or the S-pack.	Option	2418222	USD	4,314.00
<b>Printer</b>				
Printer for logging the binder consumption and area coverage.	Option	2184421	USD	1,144.00
USB interface for providing job data as a CSV file for it to be individually evaluated by the machine operator.	Option	2883103	USD	1,555.00
<b>Additional device for binder addition</b>				
Binder filling device used to constantly fill the "S-Pack" with lime/cement during the working process. The binder tanker vehicle (silo) must be able to be connected to the WR by means of a push rod. The silo also has to have adjustable pressurization. The volume flow generated by compressed air directs the required binder through a hose/pipe into the container of the "S-Pack". Short downtimes due to reduced filling breaks ensure that construction sites can be handled quickly and dust-free with high productivity levels. The scope of delivery includes the necessary binder line on the WR, a signal socket, level sensors, a traffic light system and a valve for monitoring the binder supply. The connecting hose between the tanker and the "S-Pack" is not included in the scope of delivery.	Option	2885521	USD	14,584.00
<b>Lateral slope control</b>				
Expansion of leveling system with electronic cross-slope sensor; ideal, for example, for aligning the machine in a defined transverse inclination on a single-sided reference	Standard	2417051	USD	0.00
<b>Water system</b>				
Hydraulically operated high-pressure water cleaner with a maximum performance of 15 l/min at 150 bar pressure. Ideal for daily cleaning of the machine.	Option	2184414	USD	4,607.00
<b>Water system</b>				
Additional water tank with a capacity of 250 gals / 950 liters, for holding large quantities of water for foamed bitumen manufacture.	Option	2185820	USD	9,581.00
<b>Other devices</b>				
Battery-operated hydraulic unit for milling drum rotation device and hydraulic pick extractor drift as well as for auxiliary drive.	Option	2201333	USD	3,213.00

<b>Pick changing aids</b>				
Milling drum rotation device with electrohydraulic milling drum drive for slowly turning the milling drum during pick replacement. The diesel engine can be switched off in conjunction with the "electric hydraulic unit" option.	Standard	2184416	USD	0.00
Pneumatic hammer with two pick extractor and inserter tools each as well as 5.00 m / 16 ft 5 in hose.	Option	60604	USD	514.00
Hydraulically driven pick ejector, including the holder and required electrical and hydraulic connections. Ideal for convenient, fast and low-noise pick changes.	Option	2210777	USD	3,903.00
Additional, lockable storage compartment for 8 pick containers, mounted on the left side of the machine.	Option	2658085	USD	1,673.00
<b>Camera system</b>				
Monitor system with 3 cameras and 7" color display, in addition to the reversing camera of the standard equipment. The 2nd camera is directed towards the area in front of the milling drum housing and the 3rd towards the rear rotor plate. The 4th camera permits good visibility of the left side of the machine. The camera images are displayed on the monitor in the operator's platform. For model without spraying system.	Standard	2184412	USD	0.00
<b>Other devices</b>				
License plate holder with LED lighting to comply with country-specific regulations.	Option	2657943	USD	499.00
<b>Miscellaneous</b>				
Additional push bar 9 ft 11 in / 3.00 m - for a second tank truck. Drawbar/ push-bar eye 1x inner diameter 1x inner diameter = 1.57 in / 40 mm and 1x inner diameter = 1.97 in / 50 mm.	Option	2269834	USD	807.00
Connection pipe for the through-line of the suspension to the spray bar. In conjunction with the suction hose option, this means working with the WM1000 is possible. Option only possible in conjunction with: ESL 1-way, dual ESL or ESL foamed bitumen.	Option	2223550	USD	3,463.00
Connection pipe for the intake manifolds of the dual ESL. The connection pipe is fixed to both pump intake manifolds using tank truck couplings and enables both pumps to be fed simultaneously from the tank truck. A 4" supply hose between the tank truck and the connection pipe is essential for achieving the increased flow-through quantities (max. 1600l/min), but is not delivered as part of this option.	Option	2775970	USD	1,819.00
Support arm for holding the push bar and feed lines whilst changing tankers	Option	2885796	USD	2,333.00
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	Option	USD	USD	88.00
Spare part and application documentation English (EN)	Option			15.00

## Price list

# WR 250i

### Scope of supply – basic machine

- Engine: 6-cylinder diesel engine: CATERPILLAR C18 ATAAC
- Rated power at 1,900 r.p.m.: 563 kW / 755 HP / 766 PS
- Exhaust standard: EU Stage V / US EPA Tier 4f
- Standard milling width: 7 ft 10 in / 2,400 mm
- Theoretical milling depth: 1 ft 10 in / 560 mm

#### STANDARD EQUIPMENT

- Base machine with engine
- Machine chassis with built-in water tank and clear view of the right milled edge
- The right wheels are positioned within the milling width for working flush with the edge
- Diesel engine power controller for optimum milling and mixing results
- Engine cooling system with temperature-controlled fan speed
- Air system with compressor max. 116 psi / 8 bar (not suitable for filling the S-Pack!)
- Lockable engine cover with built-in sound insulation package
- Mechanical milling drum drive via a drive belt with automatic belt tensioner
- Variable cutting speed by a combination of 3 selectable motor speeds, 2 variable drive belt pulley arrangements and one milling drum gearbox with 2-gear stages for achieving optimum working results
- Synchronous rotation or counter-rotating mode possible, depending on working direction
- Hydraulically adjustable milling drum flap in front of the drum
- Hydraulically adjustable scraper plates behind the drum
- Infinitely variable working depth adjustment by lowering or raising the entire milling drum
- Automatic mixing chamber adjustment to the respective working depth (larger mixing chamber for lower working depths)
- Milling drum rotation device with hydraulic milling drum drive for slowly turning the milling drum in the pick change
- Power-controlled lowering speed of the milling drum in starting mode

#### MACHINE CONTROL AND LEVELLING SYSTEM

- Multifunctional color control display that shows important machine operating conditions
- Comprehensive machine diagnostics displayed on the control screen
- Programmable automatic system for initiating and completing the milling process at the particular working depth
- Automated features to reduce the machine operator's workload

#### OPERATOR'S PLATFORM

- Comfortable, high-quality cabin with flexible mountings, with roof hatch and individually adjustable heating
- Ergonomic, air-cushioned operator's seat
- Roll-over protection system (ROPS and FOPS) integrated in the cab frame
- Large windows with an excellent view of the respective work area and built-in windshield wipers
- Recirculating and fresh air filters can be changed without tools
- Various shelves and storage compartments as well as 12 V and 24 V sockets
- In order to provide an ideal view over the zero edge, the operator's cabin can be shifted over the right-hand side of the machine.
- Rotation of the operator's platform through 90° offers optimum adaptation to the particular working situation
- Individually adjustable control panel with color display
- Reversing camera with graphical reversing assistant

- Mirrors on right and left in the front area of the machine
- Working lights integrated into the cab roof
- Folding ladder to access the operator's platform

#### TRACK UNIT AND HEIGHT ADJUSTMENT

- Infinitely adjustable, hydraulic all-wheel drive
- Four-way tilting of the lifting columns to compensate for uneven terrain
- Electrohydraulic, light all-wheel steering, with the "crab", "cornering" or "straight ahead" steering types

#### MISCELLANEOUS

- "Welcome and go home" lighting with LED lighting in the ladder area
- Extensive safety package with 3 EMERGENCY STOP switches
- Large tool kit in lockable tool box
- Pre-fitting for installing the WITOS FleetView control unit
- European type certification, EuroTest mark and CE conformity

**List price ex subsidiary Wirtgen America**

**USD**

**971,788.00**

#### Mandatory Options

##### Milling drum housing

Extremely wear-resistant FB2400 (7 ft 10 in) milling drum housing without milling drum. For pulverisation of asphalt pavement and abrasive material.

**Standard**

**2540058**

**USD**

**0.00**

##### Milling drums / milling units

DURAFORCE milling and mixing rotor with working width 2400 mm (7ft 10 in), working depth max. 560 mm (1ft 10 in), tool spacing 30 mm x 2, equipped with quick-change toolholder system HT22 and 208 picks with shank diameter D20 with exchangeable edge ring segments. For a wide range of applications in soil stabilization and cold recycling.

**Standard**

**2314515**

**USD**

**0.00**

##### Spraying unit

Machine without spraying system. The existing drum housing openings are locked by cover strips.

**Standard**

**2182574**

**USD**

**0.00**

A VARIO spraying system for the precise addition of water or bitumen emulsion, with an eccentric auger pump (max. 800 l/min), a flow-through meter and a spray bar. The nozzles of the spraying system are equipped with an adjustable nozzle cross-section for adjusting the spray pressure. The spray bar has a special, automatically operating nozzle cleaning function. Furthermore, the spraying width can be set individually. The quantities added are controlled by a microprocessor. Straightforward operation on a colour display. Including a push bar for pushing the tank truck. (FB2400)

**Option**

**2683238**

**USD**

**44,162.00**

System is suitable for precisely adding water and bitumen emulsion. Two VARIO spraying systems for separate addition of water and bitumen emulsion, with eccentric auger pumps (each max. 800 l/min), flow-through meters and spray bars. The nozzles of both spray bars are equipped with an adjustable nozzle cross-section for adjusting the spraying pressure. The spray bars have a special, automatically operating nozzle cleaning function. Furthermore, the spraying width can be set individually. The quantities added are controlled by a microprocessor. Straightforward operation on a colour display. Including two push bars for pushing tank trucks. (FB2400)	<b>Option</b>	<b>2683240</b>	<b>USD</b>	<b>85,463.00</b>
System is suitable for precisely adding water and bitumen emulsion or foam bitumen. Two spraying systems for the separate addition of binding agents. Water is added via an eccentric auger pump (max. 800 l/min), a flow-through meter and a spray bar. Foamed bitumen or bitumen emulsion is added via a second electrically heated bitumen spraying system consisting of a gear pump (max. 500 kg/min), a bitumen filter, a flow-through meter, a process water pump and monitor and a spray bar. The nozzles of the water spray bar is equipped with an adjustable nozzle cross-section for adjusting the spraying pressure. Both spray bars have a special, automatically operating nozzle cleaning function. Furthermore, the spraying width can be set individually. The quantities added are controlled by a microprocessor. Straightforward operation on a colour display. Including two push bars for pushing tank trucks. (FB2400)	<b>Option</b>	<b>2683241</b>	<b>USD</b>	<b>193,066.00</b>
System only suitable for the addition of large quantities of water in the soil stabilisation process. A spraying system for the addition of water (max. 475 gal/min / 1800 l/min) with centrifugal pump, hydraulically operated shut-off device, flow meter and spraying beam. The spraying width can be set individually. The quantities added are controlled by a microprocessor. The effective control range is between 400 and 1800 l/ min. Straightforward operation on a color display. Including a push bar for pushing a tanker vehicle. (FB2400)	<b>Option</b>	<b>2494987</b>	<b>USD</b>	<b>39,761.00</b>

<b>Binder spreader</b>				
Model without binder spreader device	<b>Standard</b>	<b>2184406</b>	<b>USD</b>	<b>0.00</b>
Integrated spreading device S-Pack for dust-free discharge of binder in front of the milling and mixing rotor. Container volume 194 ft <sup>3</sup> / 5.5 m <sup>3</sup> (effectively fillable to 159 ft <sup>3</sup> / 4.5 m <sup>3</sup> ). Advance-dependent dosing of the spreading quantity from 0,3 lb/ft <sup>2</sup> to 8,2 lb/ft <sup>2</sup> / 1.5 to 40 kg/m <sup>2</sup> . The spreading width can be divided into three segments. Operation is perfectly integrated into the machine control display.	<b>Option</b>	<b>2375512</b>	<b>USD</b>	<b>161,610.00</b>
<b>Paint</b>				
Painting in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7015.	<b>Standard</b>	<b>2470007</b>	<b>USD</b>	<b>0.00</b>
Monocolor special painting. Cream white color is replaced by a special color (RAL according to customer). The complete lower part of the machine is painted in slate grey RAL 7015.	<b>Option</b>	<b>2470008</b>	<b>USD</b>	<b>2,480.00</b>
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	<b>Standard</b>	<b>2456347</b>	<b>USD</b>	<b>0.00</b>
<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	<b>Standard</b>	<b>2770403</b>	<b>USD</b>	<b>0.00</b>
<b>Machine lighting</b>				
Halogen lighting system 24 V. Consisting of 8 additional halogen working lights for illuminating the working area. The light output is approx. 1,750 lumens per headlight. Including 2 rotary beacons.	<b>Standard</b>	<b>2184631</b>	<b>USD</b>	<b>0.00</b>
Powerful LED / halogen lighting system 24 V. Consisting of 6 additional LED working lights and 2 additional halogen working lights with magnetic flux for optimum illumination of the working area. Also, the 6 standard halogen working lights on the cabin roof are replaced by 6 LED working lights. LED working lights are extremely bright, shock-resistant and durable. The light output is approx. 3,000 lumens per headlight (halogen approx. 1,750 lumens). Including 2 LED patrol lights.	<b>Option</b>	<b>2184632</b>	<b>USD</b>	<b>4,387.00</b>

<b>Exhaust air filter</b>				
Model without waste air filtering. Only for machines without integrated binder spreader (S-Pack).	<b>Standard</b>	<b>2418221</b>	<b>USD</b>	<b>0.00</b>
Simple outgoing air filtering for the integrated binder spreader device S-Pack. While the binder tank is being filled, the outgoing air is filtered by a filter bag that can be emptied manually as required.	<b>Option</b>	<b>2375579</b>	<b>USD</b>	<b>5,150.00</b>
Advanced automatic waste air filtering for the integrated binder spreader device S-Pack. While the binder tank is being filled, the waste air is filtered by filter elements that are cleaned fully automatically by compressed air. The cleaning procedure is without dust in the closed system.	<b>option</b>	<b>2375580</b>	<b>USD</b>	<b>12,163.00</b>
<b>Equipment Options</b>				
<b>Equipment in cabin</b>				
Air-conditioner integrated in the cabin roof with automatic air conditioning, infinitely variable fan and recirculating air filters that can be changed without tools.	<b>Standard</b>	<b>2184409</b>	<b>USD</b>	<b>0.00</b>
Radio system with two speakers and antenna - radio with CD/MP3/USB/Bluetooth	<b>Standard</b>	<b>2184420</b>	<b>USD</b>	<b>0.00</b>
<b>Control for binder addition</b>				
Equipment of the machine with an external dosing control unit. The additional operating display can be attached at the bottom left or right on the machine. For specific setting of important dosing parameters of the spraying strips and/or the S-pack.	<b>Option</b>	<b>2418222</b>	<b>USD</b>	<b>4,314.00</b>
<b>Printer</b>				
Printer for logging the binder consumption and area coverage.	<b>Option</b>	<b>2184421</b>	<b>USD</b>	<b>1,144.00</b>
USB interface for providing job data as a CSV file for it to be individually evaluated by the machine operator.	<b>Option</b>	<b>2883103</b>	<b>USD</b>	<b>1,555.00</b>
<b>Additional device for binder addition</b>				
Binder filling device used to constantly fill the "S-Pack" with lime/cement during the working process. The binder tanker vehicle (silo) must be able to be connected to the WR by means of a push rod. The silo also has to have adjustable pressurization. The volume flow generated by compressed air directs the required binder through a hose/pipe into the container of the "S-Pack". Short downtimes due to reduced filling breaks ensure that construction sites can be handled quickly and dust-free with high productivity levels. The scope of delivery includes the necessary binder line on the WR, a signal socket, level sensors, a traffic light system and a valve for monitoring the binder supply. The connecting hose between the tanker and the "S-Pack" is not included in the scope of delivery.	<b>Option</b>	<b>2885521</b>	<b>USD</b>	<b>14,584.00</b>

<b>Lateral slope control</b>				
Expansion of leveling system with electronic cross-slope sensor; ideal, for example, for aligning the machine in a defined transverse inclination on a single-sided reference	Standard	2417051	USD	0.00
<b>Water system</b>				
Hydraulically operated high-pressure water cleaner with a maximum performance of 15 l/min at 150 bar pressure. Ideal for daily cleaning of the machine.	Option	2184414	USD	4,607.00
<b>Water system</b>				
Additional water tank with a capacity of 250 gals / 950 liters, for holding large quantities of water for foamed bitumen manufacture.	Option	2185820	USD	9,581.00
<b>Other devices</b>				
Battery-operated hydraulic unit for milling drum rotation device and hydraulic pick extractor drift as well as for auxiliary drive.	Option	2201333	USD	3,213.00
<b>Pick changing aids</b>				
Pneumatic hammer with two pick extractor and inserter tools each as well as 5.00 m / 16 ft 5 in hose.	Standard	60604	USD	0.00
Hydraulically driven pick ejector, including the holder and required electrical and hydraulic connections. Ideal for convenient, fast and low-noise pick changes.	Option	2210777	USD	3,903.00
Additional, lockable storage compartment for 8 pick containers, mounted on the left side of the machine.	Option	2658290	USD	1,731.00
<b>Camera system</b>				
Monitor system with 3 cameras and 7" color display, in addition to the reversing camera of the standard equipment. The 2nd camera is directed towards the area in front of the milling drum housing and the 3rd towards the rear rotor plate. The 4th camera permits good visibility of the left side of the machine. The camera images are displayed on the monitor in the operator's platform. For model without spraying system.	Standard	2184412	USD	0.00
<b>Other devices</b>				
License plate holder with LED lighting to comply with country-specific regulations.	Option	2657943	USD	499.00

<b>Miscellaneous</b>				
Additional push bar 9 ft 11 in / 3.00 m - for a second tank truck. Drawbar/ push-bar eye 1x inner diameter 1x inner diameter = 1.57 in / 40 mm and 1x inner diameter = 1.97 in / 50 mm.	<b>Option</b>	<b>2269834</b>	<b>USD</b>	<b>807.00</b>
Connection pipe for the through-line of the suspension to the spray bar. In conjunction with the suction hose option, this means working with the WM1000 is possible. Option only possible in conjunction with: ESL 1-way, dual ESL or ESL foamed bitumen.	<b>Option</b>	<b>2223550</b>	<b>USD</b>	<b>3,463.00</b>
Connection pipe for the intake manifolds of the dual ESL. The connection pipe is fixed to both pump intake manifolds using tank truck couplings and enables both pumps to be fed simultaneously from the tank truck. A 4" supply hose between the tank truck and the connection pipe is essential for achieving the increased flow-through quantities (max. 1600l/min), but is not delivered as part of this option.	<b>Option</b>	<b>2775970</b>	<b>USD</b>	<b>1,819.00</b>
Support arm for holding the push bar and feed lines whilst changing tankers	<b>Option</b>	<b>2885796</b>	<b>USD</b>	<b>2,333.00</b>

## Price list

### WS 220

#### Scope of supply – basic machine

- Standard working width: 7 ft 1 in / 2150 mm
- Theoretical working depth: 1 ft 8 in / 500 mm

#### STANDARD EQUIPMENT

- Stabilizer for mounting on tractors with rear three-point linkage, ISO 730-1 category 3 (cat. III) and category 4 (cat. IV)
- The working depth is set using the tractor's rear power lift
- The rear rotor plate is adjusted hydraulically from the tractor
- The rotor plate is additionally fitted with a levelling blade with spring preload adjustment
- The stone guard is adjusted hydraulically from the tractor

#### DRIVE

- Mechanical drive via the tractor's driveshaft (driveshaft speed 1,000 rpm), bevel gearbox, two four-rib high-power V-belts with automatic belt tensioners and two spur gearboxes

#### MISCELLANEOUS

- CE Declaration of Conformity

List price ex subsidiary Wirtgen America

USD

136,331.00

#### Mandatory Options

##### Milling drum housing

Movable side plates on the drum housing that cover the milling and mixing rotor. During operation, the milling unit is kept at the pre-set milling depth by the side plates. In the process, the tractor's three-point connection is in a floating position and the machine moves on the skids. The skids are roughly 7 in / 170 mm wide which means they comply with the corresponding permissible transport widths. The milling depth is limited to the desired level with the help of mechanical stops.

<b>Paint</b>				
Painting in cream RAL 9001 with orange stripes.	Standard	2111590	USD	0.00
Single-color special paint. Cream color is replaced by a special color (RAL acc. to customer request).	Option	2111591	USD	836.00
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	Standard	2456347	USD	0.00
<b>Drive adaptations</b>				
Profile shaft on bevel gearbox with a 20-way external toothing for connecting the drive shaft to the WS220/WS250. Required for mounting the stabilizer to the John Deere 8320R tractor.	Standard	2047307	USD	0.00
Splined shaft on bevel gearbox with external toothing, 6 teeth, for connection of the drive shaft on the WS220/WS250	Option	2047308	USD	0.00
<b>Trailer drawbar</b>				
Lifting tackle for mounting the stabilizer on John-Deere series 8000 tractor vehicles with rear three-point mounting ISO 730-1 category 4 (CAT IV), including ball sleeves and spacer washers CAT IV for equipment pin 37, including hydraulic top link in reinforced version, with arrester hook CAT IV, yoke D45 and integrated load-holding valve. The length and pulling force of the top link are optimized for the attachment of the add-on stabilizer.	Standard	2136304	USD	0.00
<b>Equipment Options</b>				
<b>Milling drum assembly options</b>				
Additional 9.84 in / 250 mm-wide skids that prevent machine from sinking into the soft ground. Depending on country-specific requirements, the skids can be screwed off when transporting machines in order to comply with the permissible transport width.	Option	2616969	USD	2,758.00
<b>Additional spraying strip</b>				
Water spraying system FB2150 (7 ft 1 in), with 8 spray nozzles to spray water into the milling and mixing process. Distributor pipe for connecting the external water supply with shut-off valves to the individual nozzles	Option	2282384	USD	3,404.00

<b>Leveling</b>				
Digital milling depth display with an ultrasonic sensor, right or left mountable, the milling depth display is shown by one additional display in the cab.	<b>Option</b>	<b>2123664</b>	<b>USD</b>	<b>4,548.00</b>
Digital milling depth display, with two ultrasonic sensors right and left mounted, the milling depth display is shown by an additional display in the operator's cabin, changeover for the right or left side.	<b>Option</b>	<b>2123665</b>	<b>USD</b>	<b>6,382.00</b>
<b>Other devices</b>				
Drive shaft P600 1¾" for connecting the tractor-towed stabilizer to the tractor. Wirtgen recommends using this drive shaft as it offers great freedom of movement. Both ends of the propshaft with 20-way internal gearing. CAUTION: The drive shaft must be shortened to the length of the corresponding tractor vehicle/stabiliser combination before first use. Authorised when using a stabiliser on tractor vehicles up to a maximum of 280 kW/376 HP/381 PS.	<b>Standard</b>	<b>2539795</b>	<b>USD</b>	<b>0.00</b>
<b>Other devices</b>				
Hydraulic top link in reinforced version with arrester hook CAT IV, yoke end D32, yoke end D40 and integrated load-holding valve. The length and pulling force of the top link are optimized for the attachment of the add-on stabilizer.	<b>Option</b>	<b>2539799</b>	<b>USD</b>	<b>3,213.00</b>
<b>Pick changing aids</b>				
Pneumatic hammer with two pick extractor and inserter tools each as well as 7.00 m hose.	<b>Option</b>	<b>2123666</b>	<b>USD</b>	<b>499.00</b>
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	<b>Option</b>	<b>USD</b>		<b>88.00</b>

- The stone guard is adjusted hydraulically from the tractor

#### DRIVE

- Mechanical drive via the tractor's driveshaft (driveshaft speed 1,000 rpm), bevel gearbox, two four-rib high-power V-belts with automatic belt tensioners and two spur gearboxes

#### MISCELLANEOUS

- CE Declaration of Conformity

List price ex subsidiary Wirtgen America

USD

141,803.00

### Mandatory Options

#### Milling drum housing

Movable side plates on the drum housing that cover the milling and mixing rotor. During operation, the milling unit is kept at the pre-set milling depth by the side plates. In the process, the tractor's three-point connection is in a floating position and the machine moves on the skids. The skids are roughly 7 in / 170 mm wide which means they comply with the corresponding permissible transport widths. The milling depth is limited to the desired level with the help of mechanical stops.

Standard

2218261

USD

0.00

#### Milling drums / milling units

Milling and mixing rotor with working width 2500 mm, working depth max. 500 mm (1 ft 7 in), tool spacing 40 mm, equipped with quick-change toolholder system HT22 and 106 picks with shank diameter D20. For a wide range of applications in soil stabilization and cold recycling.

<b>Paint</b>				
Painting in cream RAL 9001 with orange stripes.	<b>Standard</b>	<b>2111593</b>	<b>USD</b>	<b>0.00</b>
Single-color special paint. Cream color is replaced by a special color (RAL acc. to customer request).	<b>Option</b>	<b>2111594</b>	<b>USD</b>	<b>836.00</b>
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	<b>Standard</b>	<b>2456347</b>	<b>USD</b>	<b>0.00</b>
<b>Drive adaptations</b>				
Profile shaft on bevel gearbox with a 20-way external toothing for connecting the drive shaft to the WS220/WS250. Required for mounting the stabilizer to the John Deere 8320R tractor.	<b>Standard</b>	<b>2047307</b>	<b>USD</b>	<b>0.00</b>
<b>Trailer drawbar</b>				
Lifting tackle for mounting the stabilizer on John-Deere series 8000 tractor vehicles with rear three-point mounting ISO 730-1 category 4 (CAT IV), including ball sleeves and spacer washers CAT IV for equipment pin 37, including hydraulic top link in reinforced version, with arrester hook CAT IV, yoke D45 and integrated load-holding valve. The length and pulling force of the top link are optimized for the attachment of the add-on stabilizer.	<b>Standard</b>	<b>2136304</b>	<b>USD</b>	<b>0.00</b>
<b>Equipment Options</b>				
<b>Milling drum assembly options</b>				
Additional 9.84 in / 250 mm-wide skids that prevent machine from sinking into the soft ground. Depending on country-specific requirements, the skids can be screwed off when transporting machines in order to comply with the permissible transport width.	<b>Option</b>	<b>2616969</b>	<b>USD</b>	<b>2,758.00</b>
<b>Additional spraying strip</b>				
Water spraying system FB2500 (8 ft 2 in), with 10 spray nozzles to spray water into the milling and mixing process. Distributor pipe for connecting the external water supply with shut-off valves to the individual nozzles	<b>Option</b>	<b>2282385</b>	<b>USD</b>	<b>3,829.00</b>
<b>Leveling</b>				
Digital milling depth display with an ultrasonic sensor, right or left mountable, the milling depth display is shown by one additional display in the cab.	<b>Option</b>	<b>2123664</b>	<b>USD</b>	<b>4,548.00</b>
Digital milling depth display, with two ultrasonic sensors right and left mounted, the milling depth display is shown by an additional display in the operator's cabin, changeover for the right or left side.	<b>Option</b>	<b>2123665</b>	<b>USD</b>	<b>6,382.00</b>

<b>Other devices</b>				
Drive shaft P600 1¾" for connecting the tractor-towed stabilizer to the tractor. Wirtgen recommends using this drive shaft as it offers great freedom of movement. Both ends of the propshaft with 20-way internal gearing. CAUTION: The drive shaft must be shortened to the length of the corresponding tractor vehicle/stabiliser combination before first use. Authorised when using a stabiliser on tractor vehicles up to a maximum of 280 kW/376 HP/381 PS.	<b>Standard</b>	<b>2539795</b>	<b>USD</b>	<b>\$0.00</b>
<b>Other devices</b>				
Hydraulic top link in reinforced version with arrester hook CAT IV, yoke end D32, yoke end D40 and integrated load-holding valve. The length and pulling force of the top link are optimized for the attachment of the add-on stabilizer.	<b>Option</b>	<b>2539799</b>	<b>USD</b>	<b>3,213.00</b>
<b>Pick changing aids</b>				
Pneumatic hammer with two pick extractor and inserter tools each as well as 7.00 m hose.	<b>Option</b>	<b>2123666</b>	<b>USD</b>	<b>499.00</b>
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	<b>Option</b>	<b>USD</b>	<b>USD</b>	<b>88.00</b>
Spare part and application documentation English (EN)	<b>Option</b>			<b>15.00</b>

<b>Trailers</b>	
<b>1 Ton Mini Trailer</b> - 12-volt battery, single vapor draw propane burner, auto temp, electric brakes with safety breakaway, single axle w/ tubular steel frame , battery charger package- 3,500 lb GVWR, 16" tires, hopper tarp cover, bracket for 30 lb cylinder and shoveling apron, 24 hour timer. Limited options	\$ 14,606
<b>2 Ton Trailer</b> - 12-volt battery, single diesel or vapor draw propane burner, auto temp, VIP, one piece ceramic combustion chamber, electric brakes with safety breakaway, single axle w/ tubular steel frame - 7,000 lb GVWR, 16" tires, manual loading and unloading doors, battery charger package, limited options, 16' frame, 2 red and 1 amber light per side.	\$ 24,073
<b>3 Ton Trailer</b> - 12-volt battery, single diesel or vapor draw propane burner, auto temp, VIP, one piece ceramic combustion chamber, electric brakes with safety breakaway, tandem axle w/ tubular steel frame - 14,000 lb GVWR, 16" tires, manual loading and unloading doors, battery charger package, 16' frame, 2 red and 1 amber light per side	\$ 29,083
<b>4 Ton Trailer</b> - 12-volt battery, single diesel or vapor draw propane burner, auto temp, VIP, one piece ceramic combustion chamber, electric brakes with safety breakaway, tandem axle w/ tubular steel frame - 14,000 lb GVWR, 16" tires, manual loading and unloading doors, battery charger package, 16' frame, 2 red and 1 amber light per side.	\$ 31,353
<b>6 Ton Trailer</b> - 12-volt battery, diesel or vapor draw propane heat source, dual burner recycling package, 24 hour timer, auto temp, dump box,VIP, one piece ceramic combustion chamber, electric brakes with safety breakaway, tandem torsion axle w/ tubular steel frame - 20,000 lb GVWR, 17.5" tires, 19' frame, manual bifold loading doors, manual unloading door, battery charger package, 2 red and 1 amber light per side.	\$ 65,571
oil jacketed hopper (2 to 4 tons)	\$ 5,216
tandem axle frame	\$ 2,471
dump box	\$ 6,292
Dump Box Power Up & Power Down Hydraulic Capability	\$ 652
two diesel burners -includes 24-hour timer	\$ 6,068
two diesel burners -includes 7-day timer	\$ 6,223

two vapor draw propane burners	\$ 6,068
two liquid draw propane burners	\$ 6,291
electric overnight heat - 110V system	\$ 3,011
electric overnight heat - 240V system	\$ 3,436
short frame	\$ 695
extended frame 2 ft - total frame length 18'	\$ 2,625
extended frame 4 ft - total frame length 20'	\$ 3,528
surge brakes	\$ 1,753
<b>Slip-Ins</b>	
<b>2 Ton Slip-in</b> - 12-volt battery, single diesel burner, auto temp, VIP, one piece ceramic combustion chamber, manual loading and unloading doors, shoveling apron, fork pockets, battery charger package- limited options	\$ 18,352
<b>3 Ton Slip-in</b> - 12-volt battery, single diesel burner or vapor draw propane burner, auto temp, VIP, one piece ceramic combustion chamber, hydraulic loading and unloading doors, shoveling apron, fork pockets, battery charger package	\$ 31,392
<b>4 Ton Slip-in</b> - 12-volt battery, single diesel burner or vapor draw propane burner, auto temp, VIP, one piece ceramic combustion chamber, hydraulic loading and unloading doors, shoveling apron, fork pockets, battery charger package	\$ 32,272
<b>5 Ton Slip-in</b> - 12-volt battery, single diesel burner or vapor draw propane burner, auto temp, VIP, one piece ceramic combustion chamber, hydraulic loading and unloading doors, shoveling apron, fork pockets, battery charger package	\$ 40,857
<b>6 Ton Slip-in</b> - 12-volt battery, diesel burner or vapor draw propane burner, dual burner recycling package, 24 hour timer, auto temp, VIP, one piece ceramic combustion chamber, hydraulic loading and unloading doors, shoveling apron, fork pockets, battery charger package	\$ 53,133
<b>8 Ton Slip-in</b> - 12-volt battery, diesel burner or vapor draw propane burner, dual burner recycling package, 24 hour timer, auto temp, VIP, one piece ceramic combustion chamber, hydraulic bifold loading doors , hydraulic unloading door, shoveling apron, fork pockets, battery charger package	\$ 73,678

<b>10 Ton Slip-in</b> - 12-volt battery, dual diesel burner recycling package, 24 hour timer, auto temp, VIP, one piece ceramic combustion chamber, hydraulic bifold loading doors, hydraulic unloading door, shoveling apron, fork pockets, battery charger package	\$ 116,311
Pump for on-board hydraulics	\$ 2,399
Self dumping truck mount chassis	\$ 6,959
hook lift	\$ 5,860
<b>Standalone Tack Distributors</b>	
<b>150 gallon tack trailer</b> - 12-volt battery, single 7,000 lb double eye axle, electric brakes w/safety breakaway, single diesel burner, insulated, 24"x24" clean out port, insulated, (2) LED 4" red S/T/T lights (1 per side), spray system, hose reel, battery charger package, vip, 16" tires	\$ 23,903
<b>150 gallon tack truck mount</b> - 12-volt battery, single diesel burner, 24"x24" clean out port, insulated, spray system, hose reel, battery charger package, vip	\$ 17,317
<b>250 gallon tack trailer</b> - 12-volt battery, single 7,000 lb double eye axle, electric brakes w/safety breakaway, single diesel burner, 24"x24" clean out port, insulated, (2) LED 4" red S/T/T lights (1 per side), spray system, hose reel, battery charger package, vip, 16" tires	\$ 25,964
<b>250 gallon tack truck mount</b> - 12-volt battery, single diesel burner, 24"x24" clean out port, insulated, spray system, hose reel, battery charger package, vip	\$ 18,915
<b>500 gallon tack trailer</b> - 12-volt battery, single diesel burner, insulated, electric brakes w/safety breakaway, tandem axle, 24"x24" clean out port, (2) LED 4" red S/T/T lights (1 per side), spray system, hose reel, battery charger package, vip	\$ 30,728

## **Online Parts & Accessories Store -BDAparts.com**

- ◆ Over thousands of parts and accessories in stock for quick delivery
- ◆ In stock UPS orders ship same day, (Must order by 12pm EST)
- ◆ Freight orders - 3 days lead time
- ◆ 24/7 - Order Anytime
- ◆ Dedicated Parts Sales and Support available  
[parts@bdattachments.com](mailto:parts@bdattachments.com) | 888-376-7027

## **Rental Recommended Attachments**

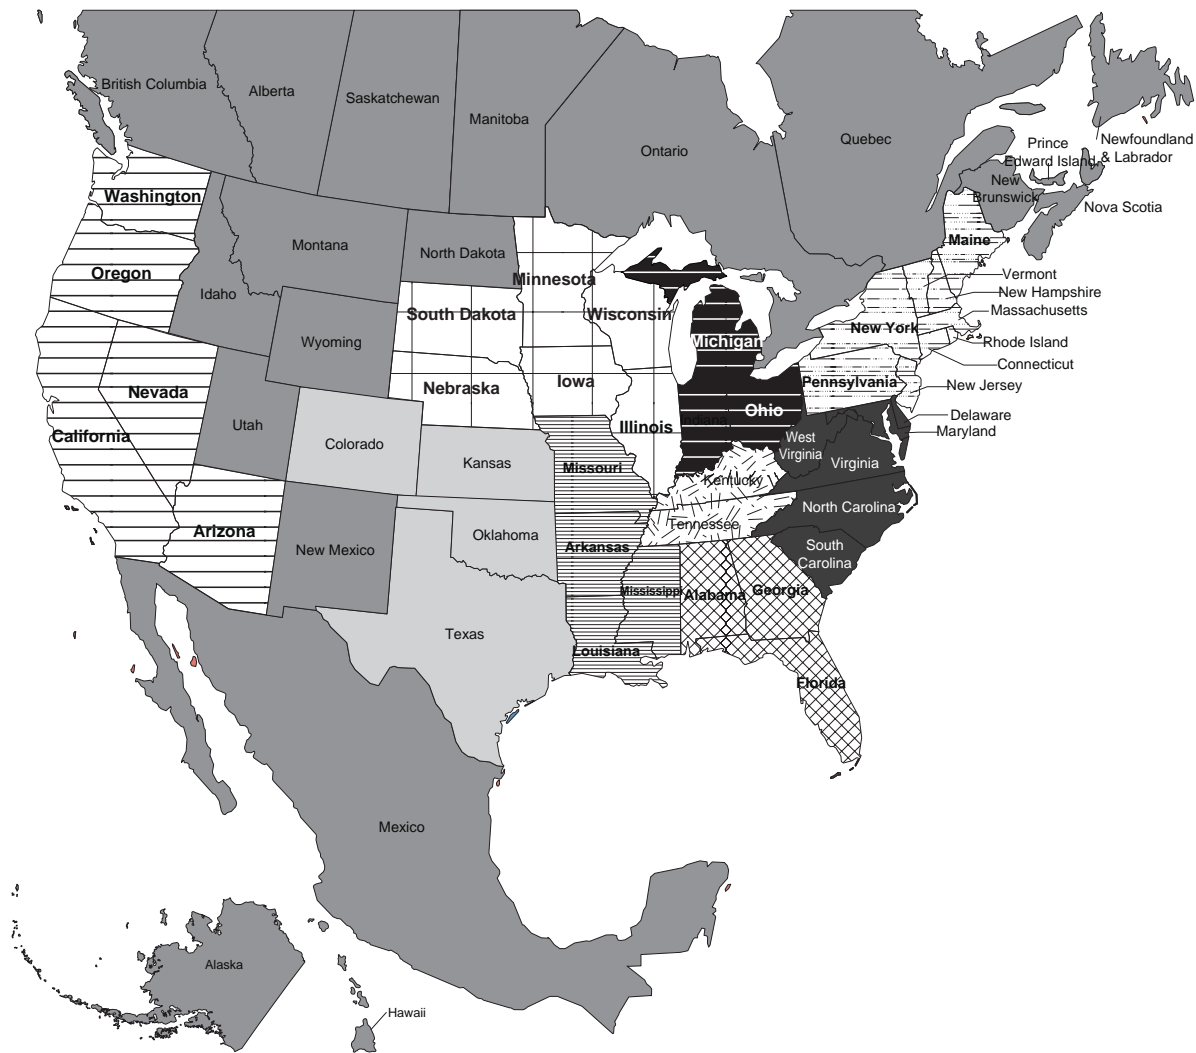

- ◆ Rental Recommendation based on;
  - ◇ Heavily construction, resists damage
  - ◇ Hose routing that keeps hoses out of the way
  - ◇ Versatile, attaches to a variety of machines
  - ◇ Easy to use, minimal training is required

## **Warranty Information**

- ◆ Available Monday-Friday 8am-5pm EST
- ◆ Easy claim filing online at [dealers.bluediamondattachments.com/warranty-policies/](http://dealers.bluediamondattachments.com/warranty-policies/)

205334	VARIABLE, 2" ROUND 48" LONG	46 LBS	\$694.00
<i>Hole every 12" allows it to be used in various positions, 9" and bigger bits only.</i>			

## AUGER BITS - HEAVY DUTY

Listed as 2" Hex Collars.

Also available in 2" Round & 2 9/16" Round Collars

PRODUCT #	MODEL	WEIGHT	RETAIL
*105105	4" DIAMETER, HEAVY DUTY, W/2" HEX	37 LBS	\$489.00
*105110	6" DIAMETER, HEAVY DUTY, W/2" HEX	45 LBS	\$495.00
105115	8" DIAMETER, HEAVY DUTY, W/2" HEX	76 LBS	\$710.00
*105120	9" DIAMETER, HEAVY DUTY, W/2" HEX	85 LBS	\$749.00
105125	10" DIAMETER, HEAVY DUTY, W/2" HEX	100 LBS	\$873.00
*105130	12" DIAMETER, HEAVY DUTY, W/2" HEX	113 LBS	\$897.00
*105135	15" DIAMETER, HEAVY DUTY, W/2" HEX	132 LBS	\$1,063.00
105140	16" DIAMETER, HEAVY DUTY, W/2" HEX	136 LBS	\$1,112.00
*105145	18" DIAMETER, HEAVY DUTY, W/2" HEX	166 LBS	\$1,295.00
105147	20" DIAMETER, HEAVY DUTY, W/2" HEX	182 LBS	\$1,510.00
*105150	24" DIAMETER, HEAVY DUTY, W/2" HEX	210 LBS	\$1,647.00
*105155	30" DIAMETER, HEAVY DUTY, W/2" HEX	278 LBS	\$2,304.00
*105160	36" DIAMETER, HEAVY DUTY, W/2" HEX	372 LBS	\$2,819.00
*Typically in Stock   Bolt-on teeth, fabricated head.			

## AUGER BITS - HEAVY DUTY W/CAST HEAD

Listed as 2" Hex Collars.

Also available in 2" Round & 2 9/16" Round Collars

PRODUCT #	MODEL	WEIGHT	RETAIL
*105205	6" DIAMETER, CAST HEAD, W/2" HEX	45 LBS	\$666.00
105208	8" DIAMETER, CAST HEAD, W/2" HEX	90 LBS	\$924.00
*105210	9" DIAMETER, CAST HEAD, W/2" HEX	98 LBS	\$1,000.00
105215	10" DIAMETER, CAST HEAD, W/2" HEX	113 LBS	\$1,071.00
105220	12" DIAMETER, CAST HEAD, W/2" HEX	128 LBS	\$1,130.00
*105225	15" DIAMETER, CAST HEAD, W/2" HEX	139 LBS	\$1,366.00
105230	16" DIAMETER, CAST HEAD, W/2" HEX	167 LBS	\$1,421.00
*105235	18" DIAMETER, CAST HEAD, W/2" HEX	204 LBS	\$1,562.00
105237	20" DIAMETER, CAST HEAD, W/2" HEX	231 LBS	\$1,844.00
*105239	24" DIAMETER, CAST HEAD, W/2" HEX	272 LBS	\$2,256.00
*105241	30" DIAMETER, CAST HEAD, W/2" HEX	312 LBS	\$2,922.00
*105243	36" DIAMETER, CAST HEAD, W/2" HEX	430 LBS	\$3,411.00
105245	42" DIAMETER, CAST HEAD, W/2" HEX	460 LBS	\$5,298.00
105250	48" DIAMETER, CAST HEAD, W/2" HEX	550 LBS	\$5,298.00
*Typically in Stock   For difficult ground, push-in-teeth, cast head			

## AUGER DRIVE -EXTREME DUTY - SERIES 2

PRODUCT #	MODEL	BEST FLOW	WEIGHT	RETAIL
305705	EX1, W/2" HEX SHAFT	8-11 GPM	101 LBS	\$3,851.00
305708	EX2, W/2" HEX SHAFT	12-16 GPM	123 LBS	\$3,945.00
305712	EX3, W/2" HEX SHAFT	17-26 GPM	123 LBS	\$3,947.00
305715	EX4, W/2" HEX SHAFT	19-23 GPM	125 LBS	\$4,133.00

305725	EX5HF, W/2 1/2" HEX SHAFT	21-26 GPM	462 LBS	\$7,426.00
305728	EX6HF, W/2 1/2" HEX SHAFT	29-32 GPM	-	\$7,564.00
305730	EX7HF, W/2 1/2" HEX SHAFT	33-36 GPM	-	\$7,589.00
Includes hoses, couplers & mount. Planetary drive, 4-year warranty.				

## AUGER BITS - TREE BIT

Listed as 2" Hex Collars.

Also available in 2" Round & 2 9/16" Round Collars

PRODUCT #	MODEL	WEIGHT	RETAIL
105405	18-9" DIAMETER, TREE, W/2" HEX	70 LBS	\$1,133.00
105410	24-12" DIAMETER, TREE, W/2" HEX	66 LBS	\$1,526.00
105415	30-15" DIAMETER, TREE, W/2" HEX	102 LBS	\$1,856.00
105420	36-18" DIAMETER, TREE, W/2" HEX	134 LBS	\$2,222.00
105425	42-18" DIAMETER, TREE, W/2" HEX	203 LBS	\$3,518.00
105430	48-24" DIAMETER, TREE, W/2" HEX	201 LBS	\$4,543.00
*Typically in Stock   Tapered			

## AUGER BITS - ROCK BIT

Listed as 2" Hex Collars.

Also available in 2" Round & 2 9/16" Round Collars

PRODUCT #	MODEL	WEIGHT	RETAIL
*105305	4" DIAMETER, ROCK, W/2" HEX	70 LBS	\$1,284.00
105310	6" DIAMETER, ROCK, W/2" HEX	66 LBS	\$1,462.00
*105320	9" DIAMETER, ROCK, W/2" HEX	102 LBS	\$2,660.00
105330	12" DIAMETER, ROCK, W/2" HEX	134 LBS	\$2,727.00
105340	16" DIAMETER, W/2" HEX	203 LBS	\$3,060.00
*105345	18" DIAMETER, ROCK, W/2" HEX	201 LBS	\$3,436.00
105350	24" DIAMETER, ROCK, W/2" HEX	291 LBS	\$4,100.00
*105355	30" DIAMETER, ROCK, W/2" HEX	340 LBS	\$4,692.00
*105360	36" DIAMETER, ROCK, W/2" HEX	395 LBS	\$5,460.00
*Typically in Stock   For solid rock (Requires minimum 3,000 lbs down pressure)			

## BACKHOE

PRODUCT #	MODEL	WEIGHT	RETAIL
130005	BACKHOE, HYD (NO BUCKET)	391 LBS	\$2,964.00
130009	8" BACKHOE BUCKET	103 LBS	\$909.00
130010	9" BACKHOE BUCKET	103 LBS	\$939.00
130015	12" BACKHOE BUCKET	139 LBS	\$987.00
130020	18" BACKHOE BUCKET	169 LBS	\$1,209.00
130025	24" BACKHOE BUCKET	202 LBS	\$1,319.00
130027	30" BACKHOE BUCKET	202 LBS	\$1,426.00
Features: 3 1/2" bore, 20" stroke cylinder, large capacity bucket (hose & couplers included)			

## BALE SQUEEZE -HYDRAULIC ROUND

PRODUCT #	MODEL	WEIGHT	RETAIL
111105	BALE SQUEEZE 2,000 CAPACITY	400 LBS	\$3,746.00
211110	OPTIONAL BOLT-ON GRIPPERS (REQUIRES 2)	60 LBS	\$354.35
Features: Handles round bales, hoses & couplers included. Opens to 70", Euro/Global mount available. Optional grippers help when handling wet or plastic wrapped bales.			

## BLADES- HEAVY DUTY MULTI-BLADE SERIES 2

For snow or light dirt work, trip lockout, variable down pressure, includes corner markers and oscillation. 28" Tall.

PRODUCT #	MODEL	ANGLED WIDTH	WEIGHT	RETAIL
123470	84" MULTI-BLADE	72.5"	901 LBS	\$8,517.00
123475	96" MULTI-BLADE	83"	946 LBS	\$8,802.00
123480	108" MULTI-BLADE	93"	986 LBS	\$9,789.00
123485	120" MULTI-BLADE	104"	1,016 LBS	\$10,980.00

## BLADES- STANDARD DUTY MULTI-BLADE SERIES 2

PRODUCT #	MODEL	ANGLED WIDTH	WEIGHT	RETAIL
123415	72" MULTI-BLADE	62 1/4"	560 LBS	\$5,458.00
123420	84" MULTI-BLADE	72 1/2"	590 LBS	\$5,687.00
<i>For snow or light dirt work, trip lockout, variable down pressure, includes corner markers and oscillation. 22" Tall.</i>				

## BLADES- 6-WAY DOZER

PRODUCT #	MODEL	WEIGHT	RETAIL
123065	HEAVY DUTY 72", 62 1/4" ANGLED WIDTH	1,012 LBS	\$10,120.00
123070	HEAVY DUTY 84", 72 1/2" ANGLED WIDTH	1,040 LBS	\$10,205.00
123075	HEAVY DUTY 96", 82 7/8" ANGLED WIDTH	1,068 LBS	\$10,449.00
223700	TRIP SPRINGS KIT (SET OF 4)	12 LBS	\$218.05
200010	UNIVERSAL CONTROL HARNESS	2 LBS	\$331.63
216900	OEM 14-PIN HARNESS (SPECIFY MACHINE)	1 LBS	\$225.00
*216916	OEM 9-PIN JD HARNESS	2 LBS	\$260.19
*216905	OEM 8-PIN CAT HARNESS	3 LBS	\$429.30
*216950	OEM 7-PIN BOBCAT HARNESS	1 LBS	\$742.16
200011	OEM EXTENSION HARNESS	1 LBS	\$175.94
<i>*Requires PN 200011 OEM extension harness. Hose &amp; Couplers included. 22" high blade, blade trips by removing 2 pins &amp; adding trip springs. Height extensions available for snow</i>			

## BREAKERS, HYDRAULIC (HAMMERS)

PRODUCT #	MODEL	MAX FLOW	ENERGY CLASS	WEIGHT	RETAIL
135005	HB50	7	100	132 LBS	\$4,600.00
135009	HB95	11	200	209 LBS	\$5,332.00

216905	*CAT 8-PIN	2 LBS	\$429.30
216950	*BOBCAT 7-PIN	2 LBS	\$742.16
200011	OEM EXTENSION HARNESS	2 LBS	\$175.94
Includes poly/steel bristles, floating quick attach. Wiring harness sold separately. Flow range 15-25 GPM. 30° angle, 26" diameter bristles. *REQ PN200011 extension. Water kit req's 116152 mounting bracket.			

## BROOMS-PICK UP -SERIES 2

PRODUCT #	MODEL	WEIGHT	RETAIL
116512	60" PICKUP BROOM, SERIES 2	945 LBS	\$10,411.00
116517	72" PICKUP BROOM, SERIES 2	1,390 LBS	\$11,060.00
116522	84" PICKUP BROOM, SERIES 2	1,585 LBS	\$11,999.00
116527	96" PICKUP BROOM, SERIES 2	1,765 LBS	\$12,700.00
316571	PICKUP BROOM 2 WATER KIT FOR 60"	30 LBS	\$2,463.00
316573	PICKUP BROOM 2 WATER KIT FOR 72"	30 LBS	\$2,463.00
316576	PICKUP BROOM 2 WATER KIT FOR 84"	30 LBS	\$2,463.00
316579	PICKUP BROOM 2 WATER KIT FOR 96"	30 LBS	\$2,463.00
116555	GUTTER BRUSH	128 LBS	\$2,304.00
Includes poly/steel bristles, hose & couplers included. For construction & road work. Flow range 15-25 GPM. 26" diameter bristles. Electrical wiring harness (200010) included for water kit.			

## BROOMS-PUSH HEAVY DUTY & STANDARD DUTY

PRODUCT #	MODEL	WEIGHT	RETAIL
316030	60" STANDARD DUTY	271 LBS	\$3,346.00
316035	72" STANDARD DUTY	341 LBS	\$3,552.00
316040	60" PUSH HEAVY DUTY	426 LBS	\$3,412.00
316045	72" PUSH HEAVY DUTY	459 LBS	\$3,870.00
316055	96" PUSH HEAVY DUTY	535 LBS	\$4,781.00
116020	FORKLIFT MOUNT (HD MODEL REQ 116027)	52 LBS	\$504.00
Specify broom & mount. 11" bristle height. Does not angle. Prices shown for universal skid steer mount. Other mounts available - call for pricing.			

## BRUSH CUTTERS - DUAL SPINDLE MOTOR

PRODUCT #	MODEL	REQ FLOW	WEIGHT	RETAIL
103920	84" DUAL 80CC MOTOR	15-22 GPM	1,865 LBS	\$18,802.00
103930	84" DUAL 125 CC MOTOR	23-30 GPM	1,865 LBS	\$18,817.00
Includes couplers, direct drive, cuts 3" material. 1 year warranty.				

## BRUSH CUTTERS - HEAVY DUTY

PRODUCT #	MODEL	REQ FLOW	WEIGHT	RETAIL
103004	60" HD BRUSH CUTTER	11-16 GPM	940 LBS	\$8,944.00
103007	60" HD BRUSH CUTTER	16-26 GPM	940 LBS	\$8,944.00
103012	72" HD BRUSH CUTTER	16-26 GPM	1,220 LBS	\$9,530.00
Includes couplers, direct drive, 1/4" deck, cuts 3" material. 1 year warranty. 3 blades. MUST ONLY BE USED ON MACHINES WITH SAFETY WINDSHIELDS				

## BRUSH CUTTERS - EXTREME DUTY CLOSED / OPEN FRONT

PRODUCT #	MODEL	REQ FLOW	WEIGHT	RETAIL
103015	60" LOW FLOW-CLOSED FRONT	16-26 GPM	1,170 LBS	\$9,594.00
103020	72" LOW FLOW-CLOSED FRONT	16-26 GPM	1,617 LBS	\$11,398.00
103016	60" LOW FLOW-OPEN FRONT	16-26 GPM	1,220 LBS	\$11,206.00
103025	72" LOW FLOW-OPEN FRONT	16-26 GPM	1,547 LBS	\$12,915.00
103017	60" HIGH FLOW-OPEN FRONT	27-40 GPM	1,220 LBS	\$13,798.00
103023	72" HIGH FLOW-CLOSED FRONT	27-35 GPM	1,585 LBS	\$13,882.00
103024	72" HIGH FLOW-CLOSED FRONT	36-45 GPM	1,585 LBS	\$13,895.00
103030	72" HIGH FLOW-OPEN FRONT	27-35 GPM	1,555 LBS	\$15,403.00
103032	72" HIGH FLOW-OPEN FRONT	36-45 GPM	1,555 LBS	\$15,403.00
Cuts up to 5" trees on low flow, 4 blades on 72" (Includes low flow couplers, direct drive, 1/4" deck, cutaway back. 1 year warranty. (High-flow req large couplers)				

## BRUSH CUTTERS - SEVERE DUTY

PRODUCT #	MODEL	REQ FLOW	WEIGHT	RETAIL
103120	72" SEVERE DUTY, 150CC	16-26 GPM	1,957 LBS	\$19,266.00
103125	72" SEVERE DUTY, 200CC	27-35 GPM	1,957 LBS	\$19,273.00
103130	72" SEVERE DUTY, 250CC	36-45 GPM	1,957 LBS	\$19,273.00
Over 500 lb blade carrier, high torque piston motor, visible pressure gauge & 10" cut capacity. Includes couplers & female case drain.				

## BRUSH CUTTERS - SWING ARM

PRODUCT #	MODEL	REQ FLOW	WEIGHT	RETAIL
103870	BRUSH CUTTER SWING ARM	14-20	845 LBS	\$16,951.00
103875	BRUSH CUTTER SWING ARM	17-30	845 LBS	\$17,931.00
103885	UNIVERSAL WIRE HARNESS		65 LBS	\$862.00
103887	14 PIN WIRE HARNESS		54 LBS	\$479.00
103889	8-PIN WIRE HARNESS		54 LBS	\$576.00
Required wire harness & case drain.				

## BUCKETS- 4-IN-1

Heavy duty cyclinders, replaceable edge-on blade.  
Includes hose & couplers. Pilot operated check valve & teeth available.

170330	OPTIONAL, FINISH RAKE 96"	554 LBS	\$620.00

**ROAD SAW** *Specify base unit & cutting wheel.*

PRODUCT #	MODEL	WEIGHT	RETAIL
161000	10" CUT DEPTH, ROAD SAW (REQ CUTTING WHEEL)	1,196 LBS	\$21,330.00
161005	18" CUT DEPTH, ROAD SAW (REQ CUTTING WHEEL)	1,972 LBS	\$32,940.00
161505	10" DEPTH X 2.5"W CUTTING WHEEL	127 LBS	\$4,609.00
161510	10" DEPTH X 4.5"W CUTTING WHEEL	165 LBS	\$5,531.00
161530	18" DEPTH X 3"W CUTTING WHEEL	372 LBS	\$5,771.00
161533	18" DEPTH X 4.5"W CUTTING WHEEL	426 LBS	\$6,616.00
161535	18" DEPTH X 6"W CUTTING WHEEL	481 LBS	\$7,290.00

**ROCK & CONCRETE GRINDER** *Couplers & hose included. Mount sold separately.*

PRODUCT #	MODEL	WEIGHT	RETAIL
159010	ROCK AND CONCRETE GRINDER, G1S, FITS 2,200 -6, 600 LB MACHINES, 5-12 GPM	265 LBS	\$25,646.00
159015	ROCK AND CONCRETE GRINDER, G1, FITS 4,400 -17, 500 LB MACHINES, 8-20 GPM	635 LBS	\$33,023.00
159020	ROCK AND CONCRETE GRINDER, G2, FITS 11K-33K LB MACHINES, 12-26 GPM	1,035 LBS	\$45,336.00
159025	ROCK AND CONCRETE GRINDER, G3, FITS 26K -44K LB MACHINES, 30-45 GPM	2,045 LBS	\$70,535.00
159060	SKID STEER MOUNT	216 LBS	\$1,236.00

**ROTOTILLER**

PRODUCT #	MODEL	WEIGHT	RETAIL
129010	68" ROTOTILLER, 6" DEPTH	590 LBS	\$6,830.00
129012	68" ROTOTILLER, 8" DEPTH	590 LBS	\$8,506.00
129015	76" ROTOTILLER, 6" DEPTH	630 LBS	\$7,164.00
129017	76" ROTOTILLER, 8" DEPTH	630 LBS	\$8,776.00

## ROOF TRUSS JIB

PRODUCT #	MODEL	WEIGHT	RETAIL
112105	ROOF TRUSS JIB, HYDRAULIC TELESCOPIC, 1200LB CAPACITY, 220" LONG	265 LBS	\$4,294.00

## ROOT RAKE - SEVERE DUTY

PRODUCT #	MODEL	WEIGHT	RETAIL
170165	60" ROOT RAKE SEVERE DUTY	915 LBS	\$1,656.00
170170	66" ROOT RAKE SEVERE DUTY	915 LBS	\$1,764.00
170175	72" ROOT RAKE SEVERE DUTY	915 LBS	\$1,995.00
170180	78" ROOT RAKE SEVERE DUTY	950 LBS	\$2,176.00
170185	84" ROOT RAKE SEVERE DUTY	950 LBS	\$2,351.00
<i>Use for clearing brush &amp; underlying roots. 5/8" tine thickness, 5 3/8" spacing between tines.</i>			

## SILAGE DEFACER

PRODUCT #	MODEL	WEIGHT	RETAIL
132710	72"SILAGE DEFACER, DIRECT DRIVE	404 LBS	\$8,159.00
132712	72"SILAGE DEFACER, CHAIN DRIVE	495 LBS	\$11,000.00

## SILT FENCE INSTALLER

PRODUCT #	MODEL	WEIGHT	RETAIL
175015	SILT FENCE, W/CENTER MOUNT	775 LBS	\$9,336.00
175020	SILT FENCE, W/SIDE SHIFT MOUNT	780 LBS	\$11,359.00
275110	SILT FENCE FABRIC BULK ROLL 1,500 FT	68 LBS	\$443.00
275108	SILT FENCE FABRIC 3' (SOLD PER FT, MIN 100')	-	\$0.34

## SNOW BLOWER - EXTREME DUTY

*Includes 14-pin harness, specify machine. Additional harnesses available, sold separately.*

PRODUCT #	MODEL	WEIGHT	RETAIL
119098	68" SNOW BLOWER, 11-16 GPM	915 LBS	\$14,297.00
119099	68" SNOW BLOWER, 17-20 GPM	915 LBS	\$15,123.00
119100	68" SNOW BLOWER, 21-23 GPM	915 LBS	\$14,681.00
119103	72" SNOW BLOWER, 17-20 GPM	950 LBS	\$15,253.00
119104	72" SNOW BLOWER, 21-23 GPM	950 LBS	\$16,078.00
119105	72" SNOW BLOWER, 24-25 GPM	950 LBS	\$14,194.00
119106	72" SNOW BLOWER, 26-29 GPM	1,046 LBS	\$19,708.00
119107	72" SNOW BLOWER, 30-40 GPM	950 LBS	\$18,373.00
119109	84" SNOW BLOWER, 21-23 GPM	1,110 LBS	\$16,764.00
119110	84" SNOW BLOWER, 24-25 GPM	1,050 LBS	\$16,390.00
119111	84" SNOW BLOWER, 26-29 GPM	1,050 LBS	\$18,738.00
119112	84" SNOW BLOWER, 30-40 GPM	1,050 LBS	\$20,100.00
119205	UNIVERSAL CONTROL HARNESS	2 LBS	\$566.00
119220	8-PIN FEMALE HARNESS (CAT)	2 LBS	\$399.00
119235	7-PIN FEMALE HARNESS (BOBCAT)	2 LBS	\$2,376.00

## SNOW PLOW - AUTOWING

PRODUCT #	MODEL	ANGLED WIDTH	WEIGHT	RETAIL
120720	AUTOWING SERIES 103", REQ MOUNT (SOLD SEPARATELY)	93.4"	945 LBS	\$5,409.00
120730	AUTOWING SKID STEER MOUNT ASSEMBLY		-	\$3,339.00

## SNOW PLOW - V BLADE

PRODUCT #	MODEL	ANGLED WIDTH	WEIGHT	RETAIL
120500	6 FT WITHOUT FLOAT	63.87"	823 LBS	\$9,054.00
120505	6 FT W/FLOAT	63.87"	823 LBS	\$11,127.00
120510	7 FT WITHOUT FLOAT	78.38"	863 LBS	\$9,319.00
120515	7 FT W/FLOAT	78.38"	863 LBS	\$11,393.00
120520	8 FT WITHOUT FLOAT	84.87"	903 LBS	\$9,585.00
120525	8 FT W/FLOAT	84.87"	903 LBS	\$11,659.00
120530	9 FT WITHOUT FLOAT	95.38"	943 LBS	\$9,851.00
120535	9 FT W/FLOAT	95.38"	943 LBS	\$11,924.00
14-Pin wiring harness included, specify machine.				

## SNOW PUSHER

PRODUCT #	MODEL	WEIGHT	RETAIL
120111	60" SNOW PUSHER, W/RUBBER EDGE	625 LBS	\$3,007.00
120113	72" SNOW PUSHER, W/RUBBER EDGE	650 LBS	\$4,138.00
120115	96" SNOW PUSHER, W/RUBBER EDGE	740 LBS	\$4,688.00
120135	72" SNOW PUSHER, HEAVY DUTY	624 LBS	\$4,567.00
120150	96" SNOW PUSHER, HEAVY DUTY	770 LBS	\$6,136.00
120155	120" SNOW PUSHER, HEAVY DUTY	875 LBS	\$5,825.00
120114	72" SNOW PUSHER, PULL BACK OPTION, STD/HD	100 LBS	\$804.00
120117	96" SNOW PUSHER, PULL BACK OPTION, STD/HD	903 LBS	\$958.00
120122	120" SNOW PUSHER, PULL BACK OPTION, STD/HD	943 LBS	\$1,123.00
220330	OPTIONAL POLY SKID SHOE (REQ 2)	20 LBS	\$476.40
10-gauge moldboard with rubber edge, pullback option available for STD & HD models.			

## SOD ROLLER

PRODUCT #	MODEL	WEIGHT	RETAIL
102200	36" WIDE ROLL FIXED WIDTH ARM	225 LBS	\$1,485.00
102205	42" WIDE ROLL FIXED WIDTH ARM	240 LBS	\$1,537.00
102215	50" WIDE ROLL FIXED WIDTH ARM	255 LBS	\$1,585.00
302305	ADJUSTABLE, 36" - 48" WIDE ROLL	280 LBS	\$1,743.00

## STUMP GRINDER *High-torque piston motor, cuts moving forward and in reverse*

PRODUCT #	MODEL	WEIGHT	RETAIL
104110	24" WHEEL, STANDARD FLOW, 60CC, 16-20 GPM	640 LBS	\$14,184.00
104120	24" WHEEL, STANDARD FLOW, 75CC, 20-25 GPM	640 LBS	\$14,374.00
104130	24" WHEEL, STANDARD FLOW, 90CC, 25-29 GPM	640 LBS	\$14,563.00
104210	26" WHEEL, HIGH FLOW, 130CC, 29-33 GPM	720 LBS	\$15,516.00
104220	26" WHEEL, HIGH FLOW, 150CC, 33-39 GPM	720 LBS	\$15,699.00
104230	26" WHEEL, HIGH FLOW, 170CC, 39-45 GPM	720 LBS	\$15,889.00
<i>Host machine must have case drain. 1/2" coupler included, additional coupler sizes available see page 18, sold separately.</i>			

## STUMP GRINDER -SWING ARM

*6 functions, push blade for back fill. Case drain & harness req. Choose coupler size from page 18, sold separately.*

PRODUCT #	MODEL	WEIGHT	RETAIL
104605	SWING ARM, HIGH FLOW, 130CC, 29-33 GPM	1,740 LBS	\$29,233.00
104610	SWING ARM, HIGH FLOW, 150CC, 33-39 GPM	1,740 LBS	\$29,426.00
104615	SWING ARM, HIGH FLOW, 170CC, 39-45 GPM	1,740 LBS	\$27,920.00
204450	14-PIN HARNESS	5 LBS	\$1,176.36
204455	UNIVERSIAL CONTROL HARNESS	5 LBS	\$1,592.12

## TRAILER SPOTTER

PRODUCT #	MODEL	WEIGHT	RETAIL
112010	SKID STEER MOUNT	118 LBS	\$639.00
<i>Install your trailer hitch &amp; move trailers (call for Euro/global mounts).</i>			

## TREE BOOM

PRODUCT #	MODEL	WEIGHT	RETAIL
112005	TREE BOOM, 3,500 LIFT CAP	169 LBS	\$1,002.00
112001	TREE BOOM, HEAVY DUTY, 6,000 LIFT CAP	365 LBS	\$2,089.00
112002	TREE BOOM, SEVERE DUTY, 6,000 LIFT CAP	400 LBS	\$2,979.00
212050	OPTIONAL CLEVIS W/SWIVEL HOOK, 6,000 LIFT CAP	4 LBS	\$229.22

## TREE GRUBBER -EXTREME DUTY

PRODUCT #	MODEL	WEIGHT	RETAIL
102100	TREE GRUBBER, EXTREME DUTY	285 LBS	\$1,270.00
102105	TREE GRUBBER, EXTREME DUTY, W/TEETH	345 LBS	\$1,617.00

## TREE PULLER

PRODUCT #	MODEL	WEIGHT	RETAIL
127006	TREE & POST PULLER, STANDARD DUTY	291 LBS	\$2,822.00
127010	TREE & POST PULLER, HEAVY DUTY	415 LBS	\$3,725.00
<i>Clamp on the trunk of small trees and pull, includes hose &amp; couplers.</i>			

## TREE SHEAR

PRODUCT #	MODEL	WEIGHT	RETAIL
128005	TREE SHEAR, CUTS TO 12"	1,123 LBS	\$8,483.00
<i>T1 blade, rotates 90°, holds tree as it shears. Includes hoses &amp; 1/2" couplers.</i>			

## TRENCHER - HIGH FLOW

PRODUCT #	MODEL	WEIGHT	RETAIL
131300-HF	TRENCHER, HIGH FLOW, 60" DEPTH, 6" COMBO	-	\$13,800.00
131305-HF	TRENCHER, HIGH FLOW, 60" DEPTH 8" COMBO	-	\$14,222.00
131310-HF	TRENCHER, HIGH FLOW, 60" DEPTH 12" COMBO	-	\$14,657.00
<i>Includes crumbler, requires mount- see page 31 for pricing.</i>			

## TRENCHER

Planetary drive, flow range 13-25 GPM (36" Bar)  
16-30 GPM (48" Bar)

PRODUCT #	MODEL	WEIGHT	RETAIL
131110	TRENCHER, 36" DEPTH, 4" DIRT CHAIN	390 LBS	\$8,316.00
131115	TRENCHER, 36" DEPTH, 6" DIRT CHAIN	575 LBS	\$8,471.00
131120	TRENCHER, 36" DEPTH, 8" DIRT CHAIN	585 LBS	\$8,793.00
131125	TRENCHER, 36" DEPTH, 4" COMBO CHAIN	697 LBS	\$7,127.00
131130	TRENCHER, 36" DEPTH, 6" COMBO CHAIN	780 LBS	\$7,559.00
131135	TRENCHER, 36" DEPTH, 8" COMBO CHAIN	780 LBS	\$7,350.00
131140	TRENCHER, 36" DEPTH, 4" ROCK CHAIN	751 LBS	\$7,352.00
131145	TRENCHER, 36" DEPTH, 6" ROCK CHAIN	751 LBS	\$7,790.00
131150	TRENCHER, 36" DEPTH, 8" ROCK CHAIN	751 LBS	\$7,914.00
131210	TRENCHER, 48" DEPTH, 6" EARTH CHAIN	1,120 LBS	\$10,127.00
131215	TRENCHER, 48" DEPTH, 8" DEARTH CHAIN	1,120 LBS	\$10,344.00
131220	TRENCHER, 48" DEPTH, 10" EARTH CHAIN	1,120 LBS	\$10,588.00
131225	TRENCHER, 48" DEPTH, 12" EARTH CHAIN	1,120 LBS	\$11,190.00
131230	TRENCHER, 48" DEPTH, 6" COMBO CHAIN	1,075 LBS	\$10,677.00
131235	TRENCHER, 48" DEPTH, 8" COMBO CHAIN	1,120 LBS	\$10,882.00
131240	TRENCHER, 48" DEPTH, 10" COMBO CHAIN	1,120 LBS	\$11,024.00
131245	TRENCHER, 48" DEPTH, 12" COMBO CHAIN	1,120 LBS	\$11,432.00
131250	TRENCHER, 48" DEPTH, 6" ROCK CHAIN	1,075 LBS	\$10,690.00
131255	TRENCHER, 48" DEPTH, 8" ROCK CHAIN	1,120 LBS	\$10,907.00
131260	TRENCHER, 48" DEPTH, 10" ROCK CHAIN	1,120 LBS	\$10,933.00
131265	TRENCHER, 48" DEPTH, 12" ROCK CHAIN	1,120 LBS	\$11,470.00
131005	TRENCHER MOUNT SKID STEER	146 LBS	\$942.00
131006	TRENCHER MOUNT, WIDE FRAME SIDE SHIFT	200 LBS	\$1,349.00
Includes hoses, couplers, & crumber. Specify base unit & mount. Side -shift mount is 75" wide & allows 60" of travel.			

## VIBRATORY ROLLER

PRODUCT #	MODEL	WEIGHT	RETAIL
124010	73" VIBRATORY ROLLER, SMOOTH	2,050 LBS	\$24,435.00
124015	73" VIBRATORY ROLLER, PAD FOOT	2,210 LBS	\$22,680.00
124030	84" VIBRATORY ROLLER, SMOOTH	2,300 LBS	\$23,594.00
124035	84" VIBRATORY ROLLER, PAD FOOT	2,450 LBS	\$24,293.00
Includes hoses & couplers.

Celebrating **55 years** as the leader in construction & road sweepers.

500 Lincoln County Parkway Ext.  
Lincolnton, NC 28092

**Order Entry Process:**

All orders for LB Performance brand equipment need to be submitted on the current LPB Equipment Pricing & Order Form. Each unit must have the Form completely filled out along with your Company's Purchase Order number (One P.O. number per unit). Please fill out **ALL** of the following fields on the Order Form or we will not be able to accept & process your order in a timely manner:

- **Dealer**
- **Date**
- **PO Number**
- **Floor Plan** \*\*(If Yes, please list the Finance Company you would like to use)
- **Contact Email**
- **Ship To Address**
- **Ship VIA**
- **Requested Need by date** \*\*(This will be our target this date but are not obligated to ship by this date)
- **Stock Order** \*\*(If unit is SOLD, please list the customer it is sold to)
- **If a Specification (BID) is linked to this order, it must be submitted at the time of order**
- **Check the appropriate machine you would like to order**
- **Check any options** (if applicable)
- **Signature** \*\*(Signature must be hand written, not typed)

Please e-mail or fax all orders to the attention of the Sales Department.

LBP Equipment Sales Department Email: **[Sales@LeeBoy.com](mailto:Sales@LeeBoy.com)**

LBP Equipment Sales Department Fax # **704-919-5350**

Once your order is received, we will process your order (s) and send an order acknowledgement via email. Please check these acknowledgements for accuracy and let us know if there are any questions or issues. If you have not received an acknowledgement within 24-48 hours, please contact us at the above email.

There will be a promise date on the acknowledgement; this is our target date to ship your order.

If you have any questions or concerns, please feel free to contact us. Have a Great day!

Thanks,

500 Lincoln County Parkway Ext.  
Lincolnton, NC 28092

**Order Entry Process:**

All orders for LeeBoy / Rosco brand equipment need to be submitted on the current LeeBoy Equipment Pricing & Order Form. Each unit must have the Form completely filled out along with your Company's Purchase Order number (One P.O. number per unit). Please fill out **ALL** of the following fields on the Order Form or we will not be able to accept & process your order in a timely manner:

- **Dealer**
- **Date**
- **PO Number**
- **Floor Plan** \*\*(If Yes, please list the Finance Company you would like to use)
- **Contact Email**
- **Ship To Address**
- **Ship VIA**
- **Requested Need by date** \*\*(This will be our target this date but are not obligated to ship by this date)
- **Stock Order** \*\*(If unit is SOLD, please list the customer it is sold to)
- **If a Specification (BID) is linked to this order, it must be submitted at the time of order**
- **Check the appropriate machine you would like to order**
- **Check any options** (if applicable)
- **Signature** \*\*(Signature must be hand written, not typed)

Please e-mail or fax all orders to the attention of the Sales Department.

LeeBoy Equipment Sales Department Email: **Sales@LeeBoy.com**

LeeBoy Equipment Sales Department Fax # **704-919-5350**

Once your order is received, we will process your order (s) and send an order acknowledgement via email. Please check these acknowledgements for accuracy and let us know if there are any questions or issues. If you have not received an acknowledgement within 24-48 hours, please contact us at the above email.

There will be a promise date on the acknowledgement; this is our target date to ship your order.

If you have any questions or concerns, please feel free to contact us. Have a Great day!

Thanks,  
LeeBoy Sales Dept.

**Order Entry Process:**

All orders for LeeBoy / Rosco brand equipment need to be submitted on the current LeeBoy Equipment Pricing & Order Form. Each unit must have the Form completely filled out along with your Company's Purchase Order number (One P.O. number per unit). Please fill out **ALL** of the following fields on the Order Form or we will not be able to accept & process your order in a timely manner:

- **Dealer**
- **Date**
- **PO Number**
- **Floor Plan** \*\*(If Yes, please list the Finance Company you would like to use)
- **Contact Email**
- **Ship To Address**
- **Ship VIA**
- **Requested Need by date** \*\*(This is our target this date but are not obligated to ship by this date)
- **Stock Order** \*\*(If unit is SOLD, please list the customer it is sold to)
- **If a Specification (BID) is linked to this order, it must be submitted at the time of order**
- **Check the appropriate machine you would like to order**
- **Check any options** (if applicable)
- **Signature** \*\*(Signature must be hand written, not typed)

Please e-mail or fax all orders to the attention of the Sales Department.

LeeBoy Equipment Sales Department Email: **Sales@LeeBoy.com**

LeeBoy Equipment Sales Department Fax # **704-919-5350**

Once your order is received, we will process your order (s) and send an order acknowledgement via email. Please check these acknowledgements for accuracy and let us know if there are any questions or issues. If you have not received an acknowledgement within 24-48 hours, please contact us at the above email.

There will be a promise date on the acknowledgement; this is our target date to ship your order.

If you have any questions or concerns, please feel free to contact us. Have a Great day!

Thanks,  
LeeBoy Sales Dept.

# HD+ 90i - 110i Tandem rollers of weight class 9–11 t

### Scope of supply – basic machine

Diesel engine  
 Manufacturer:  
 DEUTZ  
 Type:  
 TCD 3.6 L4  
 Power rat. ISO 14396, kW/PS/rpm:  
 85,0/115,6/2300  
 Emission standard:  
 EU Stage IV / EPA Tier 4  
 Exhaust gas after-treatment:  
 DOC-SCR  
 Operating voltage:  
 12 V  
 Machine equipment  
 2 water pumps  
 Foldable scraper  
 Tilttable dashboard  
 Operating concept Easy Drive  
 Spring-mounted driver's seat with armrests and safety belt  
 Hammtronic—electronic machine management  
 Seat-operating unit, adjustable sideways and rotatable  
 Track offset  
 Vibration parameters, adjustable individually  
 Spray system with spray bars front and rear  
 Water filtering (triple)  
 Water tank front and rear, can be filled from both sides  
 Central water drain

**Price list****SUPER 1300-3i (V) / AB 340 V Extending  
Screed****Scope of supply – basic machine****Drive unit**

- Deutz diesel engine type TCD 3.6 L4, liquid-cooled, 100 hp (74.4kW) at 2,000 rpm
- The engine complies with the emission standards of the European Union Stage V and USA EPA Tier 4f
- Electronic engine management with ECO mode and variable-speed fan drive

**Undercarriage**

- Hydrostatic traction drive
- Crawler tracks with rubber pads, ground contact 6 ft. 7 in. x 10 in. (2,000 x 260 mm)
- Low-maintenance multiple-disk brakes lock on automatically without oil pressure

**Conveyors and augers**

- Wide push-rollers, displaceable forwards by 3 in. (80 mm)
- Material hopper with 22,000 lbs. (10 tonnes) capacity, hopper front can be folded up for service purposes
- Four separate hydrostatic drives for conveyors and augers.
- Conveyors reversible for a short time
- Augers can be reversed and adjusted in height
- Manual override for augers
- Mechanical paddle sensors for controlling the conveyors
- Automatic filling of auger tunnel during a break in paving
- Set of limiting plates, folding and extendable, on the rear of the paver

**Electrical system**

- On-board voltage 24V

**Heating system**

- Three-phase generator with generator management
- Heating of screed when diesel engine is running at idle.

**Operator's platform**

- 2 operator's seats, can be pivoted outwards
- Operator's seats and console can be easily and conveniently adjusted for ergonomic working
- Modular ErgoPlus 3 paver operator's console; large high-contrast colour display ensures easy operation and monitoring of paver functions

<ul style="list-style-type: none"> <li>2 ErgoPlus 3 screed consoles for the right and left-hand screed sides, with colour display for setting up and monitoring paver and screed functions</li> </ul>

**Price list****SUPER 1700-3i (4f) / Carlson EZIV-08 Screed****Scope of supply – basic machine****Drive Unit**

- Liquid-cooled Cummins 4-cylinder diesel engine, QSB4.5-C173, 173 hp (129 kW) at 2,000rpm
- Engine complies with the applicable exhaust emission standards of the European Union (COM) 4 and USA (EPA, CARB) Tier 4f
- Electronic engine management

**Undercarriage**

- Hydrostatic traction drive
- Crawler tracks with rubber pads, ground contact 8 ft. 6 in. (2,594 x 355mm)
- Low-maintenance multiple-disk brakes, lock on automatically without oil pressure

**Material Feed, Conveyors and Augers**

- Wide push-rollers, can be displaced forwards by 6 in. (150mm)
- 14.3 tons (13 tonnes) material hopper
- Hopper apron hydraulically operated
- 4 separate hydraulic drives for conveyors and augers
- Mechanical sensors for controlling the conveyors, conveyors can briefly be reversed
- Sonic sensors for controlling the augers
- Augers hydraulically adjustable in height, complete with limiting plates for the auger tunnel and bracing
- Manual auger override
- Automatic filling function for the auger tunnel during breaks in paving
- 3 left hand and 3 right hand 1 ft. (30.5 cm) stackable augers for a total of 6 ft. of augers

**Electrical System**

- On-board voltage 24V

**Screed Heating**

- Three-phase AC generator, air-cooled with electronic generator management
- Screed is also heated when diesel engine is running at idle
- Screed heating with electronic temperature control

**Operator's Platform**

- 2 Luxury operator's seats including seat heating, with side paneling and armrests, can be pivoted outwards

- Operator's seats and console can be easily and conveniently adjusted for ergonomic working
- Modular ErgoPlus 3 paver operator's console; large high-contrast colour display ensures easy operation and monitoring of paver functions
- 2 ErgoPlus 3 screed consoles for the right and left-hand screed sides, with colour display for setting up and monitoring paver and screed functions

#### Miscellaneous

- Centralized lubrication system for tractor unit
- Machine documentation
- Crown is set hydraulically

**Price list****SUPER 1700-3i (4f) / Extending Screed VF  
500-3 V****Scope of supply – basic machine****Drive Unit**

- Liquid-cooled Cummins 4-cylinder diesel engine, QSB4.5-C173, 173 hp (129 kW) at 2,000rpm
- Engine complies with the applicable exhaust emission standards of the European Union (COM) 4 and USA (EPA, CARB) Tier 4f
- Electronic engine management

**Undercarriage**

- Hydrostatic traction drive
- Crawler tracks with rubber pads, ground contact 8 ft. 6 in. (2,594 x 355mm)
- Low-maintenance multiple-disk brakes, lock on automatically without oil pressure

**Material Feed, Conveyors and Augers**

- Wide push-rollers, can be displaced forwards by 6 in. (150mm)
- 14.3 tons (13 tonnes) material hopper
- Hopper apron hydraulically operated
- 4 separate hydraulic drives for conveyors and augers
- Mechanical sensors for controlling the conveyors, conveyors can briefly be reversed
- Sonic sensors for controlling the augers
- Augers hydraulically adjustable in height, complete with limiting plates for the auger tunnel and bracing
- Manual auger override
- Automatic filling function for the auger tunnel during breaks in paving
- 3 left hand and 3 right hand 1 ft. (30.5 cm) stackable augers for a total of 6 ft. of augers

**Electrical System**

- On-board voltage 24V

**Screed Heating**

- Three-phase AC generator, air-cooled with electronic generator management
- Screed is also heated when diesel engine is running at idle
- Screed heating with electronic temperature control

**Operator's Platform**

- 2 Luxury operator's seats including seat heating, with side paneling and armrests, can be pivoted outwards

- Operator's seats and console can be easily and conveniently adjusted for ergonomic working
- Modular ErgoPlus 3 paver operator's console; large high-contrast colour display ensures easy operation and monitoring of paver functions
- 2 ErgoPlus 3 screed consoles for the right and left-hand screed sides, with colour display for setting up and monitoring paver and screed functions

#### Miscellaneous

- Centralized lubrication system for tractor unit
- Machine documentation
- Crown is set hydraulically

**Price list****SUPER 1703-3i (4f) / Extending Screed VF  
500-3 V****Scope of supply – basic machine****Drive Unit**

- Liquid-cooled Cummins 4-cylinder diesel engine, QSB4.5-C173, 173 hp (129 kW) at 2,000rpm
- Engine complies with the applicable exhaust emission standards of the European Union (COM) 4 and USA (EPA, CARB) Tier 4f
- Electronic engine management

**Undercarriage**

- Hydrostatic traction drive (separate drives for powered wheels) with electronic traction control
- 2 powered rear wheels with tubeless tyres 14.00 R 25
- 4 front wheels of solid elastic rubber, 540/300-390, mounted on bogies
- Second steering axle, powered (6x4)
- Extremely small turning radius (11 ft. 5 in. (3.5 m) outside) thanks to "Pivot Steer"
- Service brake (multiple-disk brake, hydraulically pressurized) and hydraulically actuated parking brake

**Material Feed, Conveyors and Augers**

- Wide push-rollers, can be displaced forwards by 6 in. (150mm)
- 14.3 tons (13 tonnes) material hopper
- Hopper apron hydraulically operated
- 4 separate hydraulic drives for conveyors and augers
- Mechanical sensors for controlling the conveyors, conveyors can briefly be reversed
- Sonic sensors for controlling the augers
- Augers hydraulically adjustable in height, complete with limiting plates for the auger tunnel and bracing
- Manual auger override
- Automatic filling function for the auger tunnel during breaks in paving
- 3 left hand and 3 right hand 1 ft. (30.5 cm) stackable augers for a total of 6 ft. of augers

**Electrical System**

- On-board voltage 24V

**Screed Heating**

- Three-phase AC generator, air-cooled with electronic generator management

- Screed is also heated when diesel engine is running at idle
- Screed heating with electronic temperature control

#### Operator's Platform

- 2 Luxury operator's seats including seat heating, with side paneling and armrests, can be pivoted outwards
- Operator's seats and console can be easily and conveniently adjusted for ergonomic working
- Modular ErgoPlus 3 paver operator's console; large high-contrast colour display ensures easy operation and monitoring of paver functions
- 2 ErgoPlus 3 screed consoles for the right and left-hand screed sides, with colour display for setting up and monitoring paver and screed functions

#### Miscellaneous

- Centralized lubrication system for tractor unit
- Machine documentation
- Crown is set hydraulically

#### Total price of basic configuration

Bolt-on extension	Pave width	Generator	Price

**Price list****SUPER 2000-3i (4f) / Extending Screed VF  
600-3 V****Scope of supply – basic machine****Drive Unit**

- Liquid-cooled Cummins 6-cylinder diesel engine, QSB6.7-C250, 250 hp (186kW) at 2,000rpm
- Engine complies with the applicable exhaust emission standards of the European Union (COM) 4 and USA (EPA) Tier 4f
- Electronic engine management

**Undercarriage**

- Hydrostatic traction drive
- Continuous rubber tracks, ground contact 9 ft. 10 in. x 1 ft. 6 in. (2,994 x 457 mm)
- Low-maintenance multiple-disk brakes, lock on automatically without oil pressure

**Material Feed, Conveyors and Augers**

- Wide push-rollers, oscillating, can be displaced forwards by 3 in. (75 mm) or 6 in. (150 mm)
- 16.5 tons (15 tonnes) material hopper
- Hopper apron hydraulically operated
- 4 separate hydraulic drives for conveyors and augers
- Mechanical sensors for controlling the conveyors, conveyors can briefly be reversed
- Sonic sensors for controlling the augers
- Augers reversible and hydraulically adjustable in height, complete with limiting plates for auger tunnel and bracing
- Manual auger override
- Automatic filling function for the auger tunnel during breaks in paving
- 3 left hand and 3 right hand 1 ft. (30.5 cm) stackable augers for a total of 6 ft. of augers

**Electrical System**

- On-board voltage 24V

**Screed Heating**

- Three-phase AC generator, oil-cooled with electronic generator management
- Screed is also heated when diesel engine is running at idle
- Screed heating with electronic temperature control

**Operator's Platform**

- 2 comfortable heated operator's seats, can be pivoted outwards

- Operator's seats and console can be easily and conveniently adjusted for ergonomic working
- Modular ErgoPlus paver operator's console; large high-contrast colour display ensures easy operation and monitoring of paver functions
- 2 ErgoPlus screed consoles for the right and left-hand screed sides, with colour display for setting up and monitoring paver and screed functions

#### Miscellaneous

- Centralized lubrication system for tractor unit with electronic level indication on the display
- Machine documentation
- Crown is set hydraulically

**Price list****SUPER 2003-3i (4f) / Carlson EZIV-10 Screed****Scope of supply – basic machine****Drive Unit**

- Liquid-cooled Cummins 6-cylinder diesel engine, QSB6.7-C240, 240 hp (179kW) at 2,000rpm
- Engine complies with the applicable exhaust emission standards of the European Union (COM) 4 and USA (EPA) Tier 4f
- Electronic engine management

**Undercarriage**

- Hydrostatic traction drive (separate drives for powered wheels) with electronic traction control
- 4 front wheels of solid elastic rubber, 540/300-390, mounted on bogies
- 2 powered wheels with tubeless tyres 445/95 R25
- Extremely small outside turning radius to not more than 18 ft. 4 in. (5.6 m) with "Pivot Steer"
- Service brake (multiple-disk brake, hydraulically pressurized) and hydraulically actuated parking brake

**Material Feed, Conveyors and Augers**

- Wide push-rollers, oscillating, can be displaced forwards by 3 in. (75 mm) or 6 in. (150 mm)
- 16.5 tons (15 tonnes) material hopper
- Hopper apron hydraulically operated
- 4 separate hydraulic drives for conveyors and augers
- Mechanical sensors for controlling the conveyors, conveyors can briefly be reversed
- Sonic sensors for controlling the augers
- Augers reversible and hydraulically adjustable in height, complete with limiting plates for auger tunnel and bracing
- Manual auger override
- Automatic filling function for the auger tunnel during breaks in paving
- 3 left hand and 3 right hand 1 ft. (30.5 cm) stackable augers for a total of 6 ft. of augers

**Electrical System**

- On-board voltage 24V

**Screed Heating**

- Three-phase AC generator, oil-cooled with electronic generator management

- Screed is also heated when diesel engine is running at idle
- Screed heating with electronic temperature control

#### Operator's Platform

- 2 comfortable heated operator's seats, can be pivoted outwards
- Operator's seats and console can be easily and conveniently adjusted for ergonomic working
- Modular ErgoPlus paver operator's console; large high-contrast colour display ensures easy operation and monitoring of paver functions
- 2 ErgoPlus screed consoles for the right and left-hand screed sides, with colour display for setting up and monitoring paver and screed functions

#### Miscellaneous

- Centralized lubrication system for tractor unit with electronic level indication on the display
- Machine documentation
- Crown is set hydraulically

<b>Total price of basic configuration</b>	<b>USD 520,331.00</b>

**Price list****SUPER 2003-3i (4f) / VR 600-2 V Extending  
Screed****Scope of supply – basic machine****Drive Unit**

- Liquid-cooled Cummins 6-cylinder diesel engine, QSB6.7-C240, 240 hp (179kW) at 2,000rpm
- Engine complies with the applicable exhaust emission standards of the European Union (COM) 4 and USA (EPA) Tier 4f
- Electronic engine management

**Undercarriage**

- Hydrostatic traction drive (separate drives for powered wheels) with electronic traction control
- 4 front wheels of solid elastic rubber, 540/300-390, mounted on bogies
- 2 powered wheels with tubeless tyres 445/95 R25
- Extremely small outside turning radius to not more than 18 ft. 4 in. (5.6 m) with "Pivot Steer"
- Service brake (multiple-disk brake, hydraulically pressurized) and hydraulically actuated parking brake

**Material Feed, Conveyors and Augers**

- Wide push-rollers, oscillating, can be displaced forwards by 3 in. (75 mm) or 6 in. (150 mm)
- 16.5 tons (15 tonnes) material hopper
- Hopper apron hydraulically operated
- 4 separate hydraulic drives for conveyors and augers
- Mechanical sensors for controlling the conveyors, conveyors can briefly be reversed
- Sonic sensors for controlling the augers
- Augers reversible and hydraulically adjustable in height, complete with limiting plates for auger tunnel and bracing
- Manual auger override
- Automatic filling function for the auger tunnel during breaks in paving
- 3 left hand and 3 right hand 1 ft. (30.5 cm) stackable augers for a total of 6 ft. of augers

**Electrical System**

- On-board voltage 24V

**Screed Heating**

- Three-phase AC generator, oil-cooled with electronic generator management

- Screed is also heated when diesel engine is running at idle
- Screed heating with electronic temperature control

#### Operator's Platform

- 2 comfortable heated operator's seats, can be pivoted outwards
- Operator's seats and console can be easily and conveniently adjusted for ergonomic working
- Modular ErgoPlus paver operator's console; large high-contrast colour display ensures easy operation and monitoring of paver functions
- 2 ErgoPlus screed consoles for the right and left-hand screed sides, with colour display for setting up and monitoring paver and screed functions

#### Miscellaneous

- Centralized lubrication system for tractor unit with electronic level indication on the display
- Machine documentation
- Crown is set hydraulically

**Price list****SUPER 700i (V) / AB 220 V Extending  
Screed****Scope of supply – basic machine****Drive**

- Water-cooled Deutz diesel engine, type TCD 2.9 L4 with 55.4 kW at 2,200 rpm
- The engine complies with the emission standards of the European Union Stage V and USA EPA Tier 4f
- Electronic engine management with ECO mode and variable-speed fan drive

**Undercarriage**

- Controlled hydrostatic traction drive, closed loop
- Crawler tracks with rubber pads, ground contact 1,500 mm x 180 mm
- Low-maintenance multiple-disk brakes, lock on automatically without oil pressure

**Material feed, conveyors and augers**

- Push-rollers, oscillating, can be displaced forwards by 100 mm and folded inwards to the basic width together with the hopper sides
- Hopper capacity 5.8 t, feed height 500 mm
- Hopper sides fold separately
- 3 separate hydrostatic drives on the conveyors and augers
- Mechanical sensor for controlling the conveyor
- Conveyor can briefly be reversed
- Augers can be reversed and adjusted in height
- Manual override for augers
- Automatic filling of the auger tunnel during interruptions in paving

**Electrical system**

- On-board voltage 24 V
- 4 working lights 24 V (2 x front, 2 x rear)

**Heating system**

- Three-phase A.C. generator with generator management
- Screed is also heated when diesel engine is idling

**Paver operator's platform**

- Ergonomically designed operator's workplace; operator platforms on the walkway behind the screed, with additional fold-down step for elevated operator position
- Paver operator's ErgoBasic console
- 2 ErgoBasic remote control units for the left and right sides of the screed

**Miscellaneous**

- Machine documentation

## Price list SP 15i

### Scope of supply – basic machine

- Engine: 4-CYLINDER DIESEL ENGINE TYPE DEUTZ TCD 4.1 L4
- Rated power at 2,100 r.p.m.: 95 kW / 127.4 HP / 129.2 PS
- Exhaust standard: EU Stage V / US EPA Tier 4f

#### MAIN FRAME

- Sturdy machine frame for accommodating two track units at the front and one track unit at the rear

#### DRIVE UNIT AND HYDRAULIC SYSTEM

- 58 gal / 220 l fuel tank
- 58 gal / 220 l hydraulic oil tank
- Electrical system (24 V)
- Pressure-and-flow-controlled hydraulic pump in the open circuit for driving the track units
- Pressure-and-flow-controlled hydraulic pump in the open circuit for driving the hydraulic or electric vibrators
- Pressure-controlled hydraulic pump (open circuit) for all cylinder functions
- A proportionally controlled hydraulic pump (closed circuit) for driving the auger conveyor or belt conveyor
- Digital control system with LCD display that provides the operator with all of the relevant information and allows parameters such as the free choice of language (D/GB/F/E/NL) to be adjusted via a menu.
- Proportional electrohydraulic levelling and steering by means of a PLC system including two leveling sensors, two steering sensors and one slope sensor
- Sensor mounting brackets, adjustable in height and range

#### ADVANCE DRIVE

- Three hydraulically driven track units, 4 ft 5 in / 1.34 m long; gear ratio 1:42; including towing device
- Continuously adjustable paving speed from 0 to 49 ft / min / 15 m / min
- Continuously adjustable transport speed from 0 to 115 ft / min / 35 m / min
- Three hydraulic leveling cylinders with a stroke of 3 ft 3 in / 1.00 m
- The rear track unit can be moved along the rear suspension in order to select the most favourable position for the particular application

#### SUSPENSION FOR MOULDS ATTACHED TO THE SIDE

- The offset paving molds can be mounted on the left or right side of the machine
- The mold mount can be telescoped outwards by 2 ft 3 in / 0.70 m per side

#### MISCELLANEOUS

- Water tank with 42 gal / 160 l capacity and additional water tank with 76 gal / 290 l capacity
- Pre-fitting for installing the WITOS FleetView control unit
- European type certification, EuroTest mark and CE conformity

Electrical and hydraulic preliminary equipment for attaching a trimmer (left or right). Includes all the electrical and hydraulic components in the machine up until the interface.	Standard	2212345	USD	0.00
<b>Trimmer</b>				
Trimmer for creating a datum surface before using offset molds. Basic width 2 ft / 0.60 m for mounting on left, material transport to the inside. Diameter 1 ft 8 in / 0.50 m, max. trim depth approx. 0.10 m with scraper. (Trimmer completely hydraulically adjustable in height through 1 ft 4 in / 0.40 m and side-to-side through 4 ft 3 in / 1.30 m.) Trimmer widening up to max. 5 ft 3 in / 1.60 m possible. For curb, curb gutter and rectangular profiles.	Standard	2888147	USD	0.00
Trimmer for creating a datum surface before using offset molds. Basic width 2 ft / 0.60 m for mounting on right, material transport to the inside. Diameter 1 ft 8 in / 0.50 m, max. trim depth approx. 0.10 m with scraper. (Trimmer completely hydraulically adjustable in height through 1 ft 4 in / 0.40 m and side-to-side through 4 ft 3 in / 1.30 m.) Trimmer widening up to max. 5 ft 3 in / 1.60 m possible. For curb, curb gutter and rectangular profiles.	Option	2888148	USD	45,125.00

<b>Crawler units</b>				
Two pivoting front track units (parallelogram arms). The parallelogram arm makes it possible to slew the front track units by 7 in / 180 mm inwards each as well as 2 ft 3 in / 680 mm outwards each	Standard	2133798	USD	0.00
<b>Crawler units</b>				
Three track units fitted with polyurethane track pads	Standard	2487561	USD	0.00
<b>Machine lighting</b>				
Lighting system consisting of 3 halogen working lights 24 V for illuminating the working area. The light output is approx. 1750 lumens per headlight. For protection against theft, installation is by plug-in tube masts on each of the track units.	Standard	2152687	USD	0.00
High-performance lighting system consisting of 3 LED working lights 24 V for optimum illumination of the working area. Extremely bright light, shock-resistant and durable. The light output is approx. 3000 lumens per headlight. For protection against theft, installation is by plug-in tube masts on the track units.	Option	2342924	USD	1,805.00
<b>Vibration</b>				
Hydraulic vibrator drive for up to 6 vibrators	Standard	2768002	USD	0.00
<b>Concrete feeding</b>				
Belt conveyor 16 ft 1 in / 4.90 m x 2 ft / 0.60 m, with reversible hydraulic drive. Permits lateral turning hydraulically, setting of the pitch angle and traversing in the lengthways direction	Standard	2131799	USD	0.00
Belt conveyor 18 ft 1 in / 5.50 m x 2 ft / 0.60 m in folding design with reversible hydraulic drive. Permits lateral turning hydraulically, setting of the pitch angle and traversing in the lengthways direction as well as the folding procedure.	Option	2152901	USD	17,792.00
Auger conveyor 15 ft 1 in x 1 ft 4 in with reversible hydraulic drive. Permits lateral turning hydraulically, setting of the pit	Option	2131802	USD	6,053.00
<b>Concrete feeding</b>				
Steel chute for guiding the concrete from the conveyor/auger into the funnel of the offset molds. Attachment option both on the conveyor belt, folding conveyor belt and on the charging auger	Standard	2153567	USD	0.00
Chute consisting of a steel flange and a rubber hose extension for guiding the concrete from the conveyor/auger into the funnel of the offset molds. Attachment option both on the conveyor belt, folding conveyor belt and on the charging auger	Option	2153568	USD	448.00

Equipment Options				
<b>Chassis options</b>				
Hydraulic positioning feature for the rear track unit out of the middle position by 2 ft 3 in / 0.675 m to the left or right	Standard	2133804	USD	0.00
<b>Equipment operator's platform</b>				
Weather umbrella for operator's platform	Standard	2153566	USD	0.00
<b>Trimmer equipment</b>				
Trimmer - extension 8 in wide, for mounting on the left side	Option	2139662	USD	3,406.00
One Trimmer - extension 1 ft 4 in wide, for mounting on the left side	Standard	2139663	USD	0.00
Trimmer - extension 8 in wide, for mounting on the right side	Option	2139664	USD	3,406.00
Trimmer - extension 1 ft 4 in wide, for mounting on the right side	Option	2139665	USD	4,194.00
<b>Water system</b>				
Hydraulically operated high-pressure cleaner for connection to the 510 l water tank.	Standard	2133815	USD	0.00
<b>Leveling</b>				
Two slab tracers for one-sided height scanning of existing reference surfaces	Option	87923	USD	556.00
Third height and steering sensor for tight radii, incl. suspension and changeover box	Standard	2134423	USD	0.00
<b>Leveling</b>				
The 3D leveling preliminary equipment includes the mechanical and electrical components needed to use a 3D leveling system from Leica, Topcon or Trimble. (Price without startup on the construction site).	Option	2182470	USD	12,906.00
Additional slope sensor is available when using a 3D leveling system by Topcon. Is essential if a Topcon 3D system is being operated with the machine.	Option	2638267	USD	4,166.00
<b>Wirtgen AutoPilot</b>				
AutoPilot 2.0 is a satellite-based navigation system for offset applications. It controls the steering, height and lateral tilt of the machine fully automatically and allows concrete profiles to be paved without stringlines. It does not require a digital terrain model to be created in advance, but is rather created by the user directly on the construction site using the corresponding rover, taking into account constraint points such as water inlets, hydrants, etc. The rover is an intelligent surveying tool that can record, save and edit position data. The objects created are stored on the corresponding tablet computer, which is then mounted on the machine without any further data transmission and provides the machine with the control data. The system is operated in combination with a laser receiver, an ultrasonic sensor, a slab tracer or a total station (tachymeter) for precise height control. Radio frequency: 902 - 928 MHz (e.g. for USA). Note that application with reduced satellite reception (e.g. in tree-lined avenues, inner-city areas or tunnel constructions) is only possible with limitations.	Option	2618722	USD	67,789.00

Purchasing the AutoPilot System 2.0 requires additional customer training. This is charged separately. The requirement for training must be defined more precisely and depends on previous knowledge. Costs can be arranged on request after clarifying the requirements beforehand.	Option	2680909	USD	0.00
<b>Wirtgen AutoPilot</b>				
Self-leveling rotation laser. Wavelength 635 nm (invisible) with 10 rotations per second (for use in combination with a laser receiver).	Option	2201314	USD	5,781.00
Proportional laser receiver for use in combination with a rotation laser with 468.4 ft pds / 635 nm and at least 10 rotations/second. Measuring range 24 in / 60 cm. Receiver including terminals for connecting to the sensor holder of the AutoPilot. The measuring radius of the laser to laser receiver combination is approx. 328 ft 1 in / 100 m.	Option	2201316	USD	10,749.00
Ultrasonic sensor for proximity-type scanning on a homogeneous sub-base. The sensor has 6 individual transponders which perform automatic temperature compensation and averaging for scanning uneven ground or detecting obstacles. The minimum distance from the sub-base is 8 in / 0.20 m, the maximum distance is 3 ft 3 in / 1.00 m.	Option	2201318	USD	4,533.00
The Leica iCON iCR80s total station with RTK915 radio is now also included in the elevation control options of AutoPilot 2.0 – It is a fully automatic and intuitively operated total station that guarantees maximum flexibility while maintaining maximum accuracy (1 mm). The vertically unlimited measuring range has a radius of 200 m and enables uninterrupted concrete paving. The equipment ensures that operations can be carried out accurately even under difficult weather conditions. Includes the Leica total station with a tripod, battery and charger, radio transmitter, radio receiver, stand and a 360 degree prism. Please check with the customer to ensure that the specified radio frequency range of 902-928MHz is approved in the country in question.	Option	2875441	USD	44,216.00
Additional tablet computer used to create the digital stringline and to inspect the objects that have already been concreted. The tablet can also be used as a replacement for the machine. Including all necessary equipment and a robust splash-proof case to safely store the materials.	Option	2657472	USD	7,858.00

<b>Machine lighting</b>				
LED floodlights for use in the 24 Volt electrical system, including a mast which can be mounted on the machine.	Option	2808872	USD	5,646.00
<b>Other devices</b>				
Large, spacious storage compartment for storing tools at the rear of the machine instead of the standard storage compartment.	Standard	2553350	USD	0.00
<b>Mold offset</b>				
Set of hydraulic components for telescoping the offset mold mount on left or right by 2 ft 4 in / 0.70 m	Standard	2134425	USD	0.00
Height-adjustable mold mount with 1 ft 4 in / 0.40 m lift for split offset mold	Standard	2134062	USD	0.00
Hydraulically operated quick-change system for connecting a one-piece offset paving mold to the machine.	Standard	2134064	USD	0.00
Additional adapter plate for quick-change system. Required for equipping any troughs with the quick-change system.	Option	2342927	USD	1,262.00
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	Option		USD	81.00
Spare part and application documentation English (EN)	Option		USD	14.00
<b>Individual options:</b>				
straight hydraulic vibrator		75721	USD/ea	1,282.00
hopper for curb and gutter molds		2869118	USD/ea	2,131.00
standard curb/curb and gutter mold - w/o hydraulics			USD/ea	3,668.00
simple sidewalk mold 4'			USD/ea	8,336.00
simple sidewalk mold 5'			USD/ea	10,004.00
simple sidewalk mold 6'			USD/ea	11,671.00
Static barrier mold up to 4' - including hydraulics			USD/ea	23,342.00
Static barrier mold up to 5' - including hydraulics			USD/ea	27,345.00

## Price list

### SP 25i - Offset

#### Scope of supply – basic machine

- Engine station, chassis rear section and telescoping chassis front section in driving direction and three track units
- Diesel engine: DEUTZ TCD 4.1 L4 with 4 cylinders
- Rated power at 2,100 r.p.m.: 115 kW / 154 HP / 156 PS
- Exhaust standard: EU Stage V / US EPA Tier 4f

#### MAIN FRAME

- Sturdy machine frame for accommodating two track units at the rear and one or two track units at the front
- Telescoping in length by 2 ft 3 in / 0.70 m to adjust the machine to site conditions or to allow mounting of a trimmer
- Telescoping in width by 2 ft 4 in / 0.715 m hydraulically at the rear by extending one or both rear track units to either improve machine stability in offset application when paving specific profiles, or to enable paving molds with a working width of up to 8 ft 2 in / 2.50 m to be mounted between the rear track units

#### DRIVE UNIT AND HYDRAULIC SYSTEM

- 99 gal / 375 l fuel tank.
- 66 gal / 250 l hydraulic oil tank
- Electrical system (24 V)
- Hydraulic pump system
- Pressure-and-flow-controlled hydraulic pump, open circuit, for driving the hydraulic or electric vibrators or for driving the track units in second gear
- Pressure-controlled hydraulic pump, open circuit, for all cylinder functions
- A proportionally controlled hydraulic pump (closed circuit) for driving the auger conveyor or belt conveyor
- Digital control system with LCD display that provides the operator with all of the relevant information and allows parameters such as the free choice of language (D/GB/F/E/NL) to be adjusted via a menu.
- Proportional electrohydraulic levelling and steering by means of a PLC system including two leveling sensors, two steering sensors and one slope sensor
- Sensor mounting brackets, adjustable in height and range

#### ADVANCE DRIVE

- Hydraulically driven track units, 5 ft 1 in / 1.56 m long, gear ratio 1:122, including towing device
- Continuously adjustable paving speed from 0 to 49 ft / min / 15 m / min
- Continuously adjustable transport speed from 0 to 115 ft / min / 35 m / min
- Hydraulic levelling cylinders with a stroke of 4 ft 1 in / 1.25 m

#### SUSPENSION FOR MOULDS ATTACHED TO THE SIDE

- The offset paving molds can be mounted on the left or right side of the machine

#### MISCELLANEOUS

- Pre-fitting for installing the WITOS FleetView control unit
- European type certification, EuroTest mark and CE conformity

List price ex subsidiary Wirtgen America

411,621.00

<b>Mandatory Options</b>				
<b>Paint</b>				
Painting in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7015.	<b>Standard</b>	<b>2229555</b>	<b>USD</b>	<b>0.00</b>
Monocolor special painting. Cream white color is replaced by a special color (RAL according to customer). The complete lower part of the machine is painted in slate grey RAL 7015.	<b>Option</b>	<b>2229559</b>	<b>USD</b>	<b>1,479.00</b>
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	<b>Standard</b>	<b>2456347</b>	<b>USD</b>	<b>0.00</b>
<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	<b>Standard</b>	<b>2770403</b>	<b>USD</b>	<b>0.00</b>
<b>Crawler units</b>				
4. track unit and two pivoting front crawler attachments. The parallelogram arms make it possible to pivot each of the front track units 1 ft 10 in / 560 mm inwards each as well as 2 ft 10 in / 870 mm outwards.	<b>Standard</b>	<b>2492572</b>	<b>USD</b>	<b>0.00</b>
<b>Crawler units</b>				
Four track units fitted with triple-grouser steel track pads	<b>In lieu of 2487565</b>	<b>2487564</b>	<b>USD</b>	<b>-5,266.00</b>
Four track units fitted with polyurethane track pads	<b>Standard</b>	<b>2487565</b>	<b>USD</b>	<b>0.00</b>
<b>Machine lighting</b>				
Lighting system consisting of 4 halogen working lights 24 V for illuminating the working area. The light output is approx. 1,750 lumens per headlight. For protection against theft, installation is by plug-in tube masts on each of the track units.	<b>Standard</b>	<b>2152928</b>	<b>USD</b>	<b>0.00</b>
High-performance lighting system consisting of 4 LED working lights 24 V for optimum illumination of the working area. Extremely bright light, shock-resistant and durable. The light output is approx. 3000 lumens per headlight. For protection against theft, installation is by plug-in tube masts on the track units.	<b>In lieu of 2152928</b>	<b>2342925</b>	<b>USD</b>	<b>2,416.00</b>

<b>Vibration</b>				
Hydraulic vibrator drive for up to 5 vibrators	Standard	2152471	USD	0.00
Electric vibrator drive with 10-kVA generator for up to 5 vibrators	Option	2152479	USD	9,446.00
Hydraulic or electric vibrator drive for connecting up to 5 vibrators. A ball valve enables you to switch between electric and hydraulic vibration.	Option	2773656	USD	16,272.00
<b>Concrete feeding</b>				
Belt conveyor 19 ft 8 in x 2 ft, in folding design, with reversible hydraulic drive. Permits lateral turning hydraulically, setting of the pitch angle and traversing in the lengthways direction as well as the folding procedure	Standard	2890297	USD	0.00
Auger conveyor 18 ft 8 in x 1 ft 4 in / 5.70 m x 0.40 m with reversible hydraulic drive. Permits lateral turning hydraulically, setting of the pitch angle and traversing in the lengthways direction.	In lieu of 2890297	2890298	USD	15,946.00
<b>Concrete feeding</b>				
Electrical and hydraulic preliminary equipment up to the interface inside the machine. Used to operate all conveyor belts and the charging auger with a length of 4500 mm	Standard	2511066	USD	0.00
Electrical and hydraulic preliminary equipment up to the interface inside the machine. Exclusively used to operate the charging auger with a length of 5700 mm	Option	2464305	USD	556.00
<b>Concrete feeding</b>				
Steel chute for guiding the concrete from the conveyor/auger into the funnel of the offset molds. Attachment option both on the conveyor belt, folding conveyor belt and on the charging auger	Standard	2153567	USD	0.00
Chute consisting of a steel flange and a rubber hose extension for guiding the concrete from the conveyor/auger into the funnel of the offset molds. Attachment option both on the conveyor belt, folding conveyor belt and on the charging auger	Option	2153568	USD	448.00
<b>Mold offset</b>				
Offset mold mount telescoping hydraulically to one side; stroke: 3 ft 7 in / 1.10 m	Standard	2146344	USD	0.00
Offset mold mount telescoping hydraulically to both sides; stroke: 3 ft 7 in / 1.10 m	Option	2148853	USD	4,940.00

Equipment Options				
<b>Chassis options</b>				
The extension element for telescoping device mounted between the machine frame and front track unit connection makes it possible to move the front track units sideways by 1.40 m in relation to the machine chassis. It is used for stabilizing the machine in large offset applications.	Option	2163878	USD	15,716.00
<b>Equipment operator's platform</b>				
Weather umbrella for operator's platform		2153630	USD	-5,673.00
Weather canopy for operator's platform, hydraulically telescoping in height	Standard	2145132	USD	0.00
<b>Lateral spreader auger</b>				
Cross-spreading auger, length 8 ft 2 in / 2.5 m, ø 1 ft 4 in / 0.4 m, stroke 2 ft / 0.6 m, hydraulic drive, loading from right or left, recommended with crash barrier trough, necessary for crash barrier trough and trimmer insert	Option	2153642	USD	21,212.00
<b>Trimmer equipment</b>				
Preliminary equipment for the subsequent installation of a trimmer, consisting of the necessary hydraulic supply lines and electrical components.	Standard	2214167	USD	0.00
Trimmer for creating a datum surface before using offset molds. Basic width 2 ft for mounting on left, material transport to the inside. Diameter 1 ft 8 in, max. trim depth approx. 4 in with scraper. (Trimmer completely hydraulically adjustable in height through 1 ft 4 in and side-to-side through 4 ft 3 in.) Trimmer widening up to max. 5 ft 3 in possible. Suitable for curb, curb gutter and rectangular profiles.	Option	2773688	USD	58,778.00
Trimmer - extension 8 in wide, for mounting on the left side	Option	2139662	USD	3,406.00
Trimmer - extension 1 ft 4 in wide, for mounting on the left side	Option	2139663	USD	4,194.00
Trimmer for creating a datum surface before using offset molds. Basic width 2 ft for mounting on right, material transport to the inside. Diameter 1 ft 8 in, max. trim depth approx. 4 in with scraper. (Trimmer completely hydraulically adjustable in height through 1 ft 4 in and side-to-side through 4 ft 3 in 4 ft 3 in.) Trimmer widening up to max. 5 ft 3 in possible. Suitable for curb, curb gutter and rectangular profiles.	Option	2773690	USD	58,371.00

Trimmer - extension 8 in wide, for mounting on the right side	Option	2139664	USD	3,406.00
Trimmer - extension 1 ft 4 in wide, for mounting on the right side	Option	2139665	USD	4,194.00
<b>Water system</b>				
High-pressure water cleaning system for optimum cleaning of the machine. Consisting of a hydraulically driven pump with a flow rate of 20 l/min at a pressure of 200 bar, a plastic tank with a capacity of 145 gal / 550 litres, a 49 ft 3 in / 15 m long hose and a spray gun with a handle. The water tank is located on one of the machine's front chassis columns, and includes a foldable attached ladder for filling the tank from above.	Standard	2638074	USD	0.00
<b>Water system</b>				
Additional water pump 24 V with 32 ft 10 in / 10 m hose with spray gun with handle (max. 6 gal/min / 25 l/min, max. 51 psi / 3.5 bar)	Option	2639292	USD	4,004.00
<b>Water system</b>				
Additional protected plastic water tank with a capacity of 145 gal for mounting on the fourth track unit at front.	Standard	2638444	USD	0.00
<b>Leveling</b>				
Two slab tracers for one-sided height scanning of existing reference surfaces	Option	87923	USD	556.00
Third height and steering sensor for tight radii, incl. suspension and changeover box	Option	2163871	USD	5,306.00
<b>Leveling</b>				
The 3D leveling preliminary equipment includes the mechanical and electrical components needed to use a 3D leveling system from Leica, Topcon or Trimble. (Price without startup on the construction site).	Option	2182471	USD	12,906.00
Additional slope sensor is available when using a 3D leveling system by Topcon. Is essential if a Topcon 3D system is being operated with the machine.	Option	2638267	USD	4,166.00

<b>Wirtgen AutoPilot</b>				
AutoPilot 2.0 is a satellite-based navigation system for offset applications. It controls the steering, height and lateral tilt of the machine fully automatically and allows concrete profiles to be paved without stringlines. It does not require a digital terrain model to be created in advance, but is rather created by the user directly on the construction site using the corresponding rover, taking into account constraint points such as water inlets, hydrants, etc. The rover is an intelligent surveying tool that can record, save and edit position data. The objects created are stored on the corresponding tablet computer, which is then mounted on the machine without any further data transmission and provides the machine with the control data. The system is operated in combination with a laser receiver, an ultrasonic sensor, a slab tracer or a total station (tachymeter) for precise height control. Radio frequency: 902 - 928 MHz (e.g. for USA). Note that application with reduced satellite reception (e.g. in tree-lined avenues, inner-city areas or tunnel constructions) is only possible with limitations.	Option	2618727	USD	67,789.00
<b>Wirtgen AutoPilot</b>				
Self-leveling rotation laser. Wavelength 635 nm (invisible) with 10 rotations per second (for use in combination with a laser receiver).	Option	2201314	USD	5,781.00
Proportional laser receiver for use in combination with a rotation laser with 468.4 ft pds / 635 nm and at least 10 rotations/second. Measuring range 24 in / 60 cm. Receiver including terminals for connecting to the sensor holder of the AutoPilot. The measuring radius of the laser to laser receiver combination is approx. 328 ft 1 in / 100 m.	Option	2201316	USD	10,749.00
Ultrasonic sensor for proximity-type scanning on a homogeneous sub-base. The sensor has 6 individual transponders which perform automatic temperature compensation and averaging for scanning uneven ground or detecting obstacles. The minimum distance from the sub-base is 8 in / 0.20 m, the maximum distance is 3 ft 3 in / 1.00 m.	Option	2201318	USD	4,533.00

The Leica iCON iCR80s total station with RTK915 radio is now also included in the elevation control options of AutoPilot 2.0 – It is a fully automatic and intuitively operated total station that guarantees maximum flexibility while maintaining maximum accuracy (1 mm). The vertically unlimited measuring range has a radius of 200 m and enables uninterrupted concrete paving. The equipment ensures that operations can be carried out accurately even under difficult weather conditions. Includes the Leica total station with a tripod, battery and charger, radio transmitter, radio receiver, stand and a 360 degree prism. Please check with the customer to ensure that the specified radio frequency range of 902-928MHz is approved in the country in question.	Option	2875441	USD	44,216.00
Additional tablet computer used to create the digital stringline and to inspect the objects that have already been concreted. The tablet can also be used as a replacement for the machine. Including all necessary equipment and a robust splash-proof case to safely store the materials.	Option	2657472	USD	7,858.00
<b>Additional vibrator drives</b>				
Extension of the hydraulic vibrator drive by another max. 5 vibrators to a total of 10 hydraulic vibrator drives. The frequency of each vibrator can be adjusted independently.	Standard	2152473	USD	0.00
Additional electric vibrator drive with 10-kVA generator for connecting a further max. 5 vibrators for a total of 10 vibrators. With two generators, the frequency of two groups of 5 vibrators each can be adjusted independently.	Option	2152480	USD	16,150.00
<b>Machine lighting</b>				
Two LED floodlights with four lighting elements for use in the 24 Volt electrical system, including two masts which can be mounted on the machine. Can only be used in combination with SP25i.	Option	2890815	USD	10,816.00
<b>Mold offset</b>				
Height adapter, with split offset molds it spans the gap between the trough mounting of the machine and the trough, at least one required per machine. Alternatively, the height-adjustable suspension can be used.	Option	2152692	USD	1,086.00
Height-adjustable mold mount with 1 ft 4 in / 0.40 m lift for split offset mold	Option	2183552	USD	7,804.00
Hydraulically operated quick-change system for connecting a one-piece offset paving mold to the machine.	Option	2191407	USD	4,519.00
Additional adapter plate for quick-change system. Required for equipping any troughs with the quick-change system.	Option	2342927	USD	1,262.00

<b>Stringline tensioning system</b>				
Stringline tensioning system consisting of 3280 ft wire rope, 1x tensioning winch, 200 steel pins with leveling wire suspension, adjustable in height and range	Option	55987	USD	4,166.00
Additional tensioning winch for stringline tensioning system	Option	79802	USD	909.00
Stringline tensioning system consisting of 4 x 984 ft / 4 x 300 m nylon rope, 4x tensioning winches, 200 posts, 200 rods, 200 clamps	Option	2153800	USD	4,004.00
Fibreglass rod as stringline replacement on corners with different radii, consisting of 196 ft 10 in fiberglass rod in 6 ft 7 in pieces, 50 clips for rod mounting and 15 connection pieces	Option	2153801	USD	1,466.00
<b>Export packaging</b>				
Export packaging	Standard	2163870	USD	0.00
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	Option		USD	81.00
Spare part and application documentation English (EN)	Option		USD	14.00
<b>Individual options:</b>				
straight hydraulic vibrator		75721	USD/ea	1,282.00
hopper for curb and gutter molds		2869118	USD/ea	2,131.00
standard curb/curb and gutter mold - w/o hydraulics*			USD/ea	3,668.00
simple sidewalk mold 4'*			USD/ea	8,336.00
simple sidewalk mold 5'*			USD/ea	10,004.00
simple sidewalk mold 6'*			USD/ea	11,671.00
Static barrier mold up to 4' - including hydraulics			USD/ea	23,342.00
Static barrier mold up to 5' - including hydraulics			USD/ea	27,345.00

\* height adjustable mold mount or height adapter needed!

## Price list

# SP 25i - 12 ft Inset

### Scope of supply – basic machine

- Engine station, chassis rear section and telescoping chassis front section in driving direction and three track units
- Diesel engine: DEUTZ TCD 4.1 L4 with 4 cylinders
- Rated power at 2,100 r.p.m.: 115 kW / 154 HP / 156 PS
- Exhaust standard: EU Stage V / US EPA Tier 4f

### MAIN FRAME

- Sturdy machine frame for accommodating two track units at the rear and one or two track units at the front
- Telescoping in length by 2 ft 3 in / 0.70 m to adjust the machine to site conditions or to allow mounting of a trimmer
- Telescoping in width by 2 ft 4 in / 0.715 m hydraulically at the rear by extending one or both rear track units to either improve machine stability in offset application when paving specific profiles, or to enable paving molds with a working width of up to 8 ft 2 in / 2.50 m to be mounted between the rear track units

### DRIVE UNIT AND HYDRAULIC SYSTEM

- 99 gal / 375 l fuel tank.
- 66 gal / 250 l hydraulic oil tank
- Electrical system (24 V)
- Hydraulic pump system
- Pressure-and-flow-controlled hydraulic pump, open circuit, for driving the hydraulic or electric vibrators or for driving the track units in second gear
- Pressure-controlled hydraulic pump, open circuit, for all cylinder functions
- A proportionally controlled hydraulic pump (closed circuit) for driving the auger conveyor or belt conveyor
- Digital control system with LCD display that provides the operator with all of the relevant information and allows parameters such as the free choice of language (D/GB/F/E/NL) to be adjusted via a menu.
- Proportional electrohydraulic levelling and steering by means of a PLC system including two leveling sensors, two steering sensors and one slope sensor
- Sensor mounting brackets, adjustable in height and range

### ADVANCE DRIVE

- Hydraulically driven track units, 5 ft 1 in / 1.56 m long, gear ratio 1:122, including towing device
- Continuously adjustable paving speed from 0 to 49 ft / min / 15 m / min
- Continuously adjustable transport speed from 0 to 115 ft / min / 35 m / min
- Hydraulic levelling cylinders with a stroke of 4 ft 1 in / 1.25 m

### SUSPENSION FOR MOULDS ATTACHED TO THE SIDE

- The offset paving molds can be mounted on the left or right side of the machine

### MISCELLANEOUS

- Pre-fitting for installing the WITOS FleetView control unit
- European type certification, EuroTest mark and CE conformity

List price ex subsidiary Wirtgen America

USD

457,059.00

Mandatory Options				
<b>Paint</b>				
Painting in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7015.	Standard	2229555	USD	0.00
Monocolor special painting. Cream white color is replaced by a special color (RAL according to customer). The complete lower part of the machine is painted in slate grey RAL 7015.	Option	2229559	USD	1,479.00
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	Standard	2456347	USD	0.00
<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	Standard	2770403	USD	0.00
<b>Crawler units</b>				
4. track unit and two pivoting front crawler attachments. The parallelogram arms make it possible to pivot each of the front track units 1 ft 10 in / 560 mm inwards each as well as 2 ft 10 in / 870 mm outwards.	Standard	2492572	USD	0.00
<b>Crawler units</b>				
Four track units fitted with triple-grouser steel track pads	In lieu of 2487565	2487564	USD	-5,266.00
Four track units fitted with polyurethane track pads	Standard	2487565	USD	0.00
<b>Machine lighting</b>				
Lighting system consisting of 4 halogen working lights 24 V for illuminating the working area. The light output is approx. 1,750 lumens per headlight. For protection against theft, installation is by plug-in tube masts on each of the track units.	Standard	2152928	USD	0.00
High-performance lighting system consisting of 4 LED working lights 24 V for optimum illumination of the working area. Extremely bright light, shock-resistant and durable. The light output is approx. 3000 lumens per headlight. For protection against theft, installation is by plug-in tube masts on the track units.	In lieu of 2152928	2342925	USD	2,416.00

<b>Vibration</b>				
Hydraulic vibrator drive for up to 5 vibrators	Standard	2152471	USD	0.00
Electric vibrator drive with 10-kVA generator for up to 5 vibrators	Option	2152479	USD	9,446.00
Hydraulic or electric vibrator drive for connecting up to 5 vibrators. A ball valve enables you to switch between electric and hydraulic vibration.	Option	2773656	USD	16,272.00
<b>Concrete feeding</b>				
Belt conveyor 19 ft 8 in x 2 ft, in folding design, with reversible hydraulic drive. Permits lateral turning hydraulically, setting of the pitch angle and traversing in the lengthways direction as well as the folding procedure	In lieu of 2737033	2890297	USD	46,984.00
Auger conveyor 18 ft 8 in x 1 ft 4 in / 5.70 m x 0.40 m with reversible hydraulic drive. Permits lateral turning hydraulically, setting of the pitch angle and traversing in the lengthways direction.	In lieu of 2737033	2890298	USD	62,931.00
Model without concrete feeding	Standard	2737033	USD	0.00
<b>Concrete feeding</b>				
Electrical and hydraulic preliminary equipment up to the interface inside the machine. Used to operate all conveyor belts and the charging auger with a length of 4500 mm	Standard	2511066	USD	0.00
Electrical and hydraulic preliminary equipment up to the interface inside the machine. Exclusively used to operate the charging auger with a length of 5700 mm	Option	2464305	USD	556.00
<b>Concrete feeding</b>				
Steel chute for guiding the concrete from the conveyor/auger into the funnel of the offset molds. Attachment option both on the conveyor belt, folding conveyor belt and on the charging auger	Option	2153567	USD	1,262.00
Model without chute.	Standard	2425777	USD	0.00
<b>Mold offset</b>				
Offset mold mount telescoping hydraulically to one side; stroke: 3 ft 7 in / 1.10 m	Option	2146344	USD	13,137.00
Offset mold mount telescoping hydraulically to both sides; stroke: 3 ft 7 in / 1.10 m	Option	2148853	USD	18,077.00
Model without suspension for offset molds.	Standard	2425779	USD	0.00

Equipment Options				
Chassis options				
The extension element for telescoping device mounted between the machine frame and front track unit connection makes it possible to move the front track units sideways by 1.40 m in relation to the machine chassis. It is used for stabilizing the machine in large offset applications.	Option	2163878	USD	15,716.00
Chassis options				
Frame extension elements for the two rear track units, required to be able to mount molds between 8 ft 2 in / 2.50 m and 11 ft 6 in / 3.50 m.	Standard	2153632	USD	0.00
Frame extension elements for the two front track units, required when using molds between 8 ft 2 in / 2.50 m and 11 ft 6 in / 3.50 m in conjunction with previously laid reinforcement.	Standard	2225029	USD	0.00
Equipment operator's platform				
Weather canopy for operator's platform, hydraulically telescoping in height	Standard	2145132	USD	0.00
Trimmer equipment				
Preliminary equipment for the subsequent installation of a trimmer, consisting of the necessary hydraulic supply lines and electrical components.	Standard	2214167	USD	0.00
Trimmer for creating a datum surface before using offset molds. Basic width 2 ft for mounting on left, material transport to the inside. Diameter 1 ft 8 in, max. trim depth approx. 4 in with scraper. (Trimmer completely hydraulically adjustable in height through 1 ft 4 in and side-to-side through 4 ft 3 in.) Trimmer widening up to max. 5 ft 3 in possible. Suitable for curb, curb gutter and rectangular profiles.	Option	2773688	USD	58,778.00
Trimmer - extension 8 in wide, for mounting on the left side	Option	2139662	USD	3,406.00
Trimmer - extension 1 ft 4 in wide, for mounting on the left side	Option	2139663	USD	4,194.00
Trimmer for creating a datum surface before using offset molds. Basic width 2 ft for mounting on right, material transport to the inside. Diameter 1 ft 8 in, max. trim depth approx. 4 in with scraper. (Trimmer completely hydraulically adjustable in height through 1 ft 4 in and side-to-side through 4 ft 3 in 4 ft 3 in.) Trimmer widening up to max. 5 ft 3 in possible. Suitable for curb, curb gutter and rectangular profiles.	Option	2773690	USD	58,371.00
Trimmer - extension 8 in wide, for mounting on the right side	Option	2139664	USD	3,406.00
Trimmer - extension 1 ft 4 in wide, for mounting on the right side	Option	2139665	USD	4,194.00

<b>Water system</b>				
High-pressure water cleaning system for optimum cleaning of the machine. Consisting of a hydraulically driven pump with a flow rate of 20 l/min at a pressure of 200 bar, a plastic tank with a capacity of 145 gal / 550 litres, a 49 ft 3 in / 15 m long hose and a spray gun with a handle. The water tank is located on one of the machine's front chassis columns, and includes a foldable attached ladder for filling the tank from above.	Standard	2638074	USD	0.00
<b>Water system</b>				
Additional water pump 24 V with 32 ft 10 in / 10 m hose with spray gun with handle (max. 6 gal/min / 25 l/min, max. 51 psi / 3.5 bar)	Option	2639292	USD	4,004.00
<b>Water system</b>				
Additional protected plastic water tank with a capacity of 145 gal for mounting on the fourth track unit at front.	Standard	2638444	USD	0.00
<b>Leveling</b>				
Two slab tracers for one-sided height scanning of existing reference surfaces	Option	87923	USD	556.00
Third height and steering sensor for tight radii, incl. suspension and changeover box	Option	2163871	USD	5,306.00
<b>Leveling</b>				
The 3D leveling preliminary equipment includes the mechanical and electrical components needed to use a 3D leveling system from Leica, Topcon or Trimble. (Price without startup on the construction site).	Option	2182471	USD	12,906.00
Additional slope sensor is available when using a 3D leveling system by Topcon. Is essential if a Topcon 3D system is being operated with the machine.	Option	2638267	USD	4,166.00
<b>Wirtgen AutoPilot</b>				
AutoPilot 2.0 is a satellite-based navigation system for offset applications. It controls the steering, height and lateral tilt of the machine fully automatically and allows concrete profiles to be paved without stringlines. It does not require a digital terrain model to be created in advance, but is rather created by the user directly on the construction site using the corresponding rover, taking into account constraint points such as water inlets, hydrants, etc. The rover is an intelligent surveying tool that can record, save and edit position data. The objects created are stored on the corresponding tablet computer, which is then mounted on the machine without any further data transmission and provides the machine with the control data. The system is operated in combination with a laser receiver, an ultrasonic sensor, a slab tracer or a total station (tachymeter) for precise height control. Radio frequency 902 – 928	Option	2618727	USD	67,789.00

<b>Wirtgen AutoPilot</b>				
Self-leveling rotation laser. Wavelength 635 nm (invisible) with 10 rotations per second (for use in combination with a laser receiver).	<b>Option</b>	<b>2201314</b>	<b>USD</b>	<b>5,781.00</b>
Proportional laser receiver for use in combination with a rotation laser with 468.4 ft pds / 635 nm and at least 10 rotations/second. Measuring range 24 in / 60 cm. Receiver including terminals for connecting to the sensor holder of the AutoPilot. The measuring radius of the laser to laser receiver combination is approx. 328 ft 1 in / 100 m.	<b>Option</b>	<b>2201316</b>	<b>USD</b>	<b>10,749.00</b>
Ultrasonic sensor for proximity-type scanning on a homogeneous sub-base. The sensor has 6 individual transponders which perform automatic temperature compensation and averaging for scanning uneven ground or detecting obstacles. The minimum distance from the sub-base is 8 in / 0.20 m, the maximum distance is 3 ft 3 in / 1.00 m.	<b>Option</b>	<b>2201318</b>	<b>USD</b>	<b>4,533.00</b>
The Leica iCON iCR80s total station with RTK915 radio is now also included in the elevation control options of AutoPilot 2.0 – It is a fully automatic and intuitively operated total station that guarantees maximum flexibility while maintaining maximum accuracy (1 mm). The vertically unlimited measuring range has a radius of 200 m and enables uninterrupted concrete paving. The equipment ensures that operations can be carried out accurately even under difficult weather conditions. Includes the Leica total station with a tripod, battery and charger, radio transmitter, radio receiver, stand and a 360 degree prism. Please check with the customer to ensure that the specified radio frequency range of 902-928MHz is approved in the country in question.	<b>option</b>	<b>2875441</b>	<b>USD</b>	<b>44,216.00</b>
Additional tablet computer used to create the digital stringline and to inspect the objects that have already been concreted. The tablet can also be used as a replacement for the machine. Including all necessary equipment and a robust splash-proof case to safely store the materials.	<b>Option</b>	<b>2657472</b>	<b>USD</b>	<b>7,858.00</b>
<b>Concrete molding</b>				
Paving mold series 1200i without crown, basic width 3.0 ft consisting of: Vibrator mount, forming sole with "edge slump control" (ESC). Working widths up to 12 ft are possible using optional expansion pieces.	<b>Standard</b>	<b>2372368</b>	<b>USD</b>	<b>0.00</b>

<b>Concrete equipment USA</b>				
Hydraulically lifting two-piece side plate with 4 hydraulic cylinders per side for paving moulds of the series 1200i. Prevents the concrete from emerging at the sides in the area of the paving moulds and makes it possible to start again along existing road surfaces by moving up the rear side plate. For paving thicknesses from 0 to 1 ft and 3 in.	Standard	2375058	USD	0.00
<b>Concrete molding</b>				
One Paving mold series 1200i - extension element 1.0 ft wide	Standard	2372017	USD	0.00
Two Paving mold series 1200i - extension element 1.5 ft wide	Standard	2372018	USD	0.00
One Paving mold series 1200i - extension element 2.0 ft wide	Standard	2372019	USD	0.00
One Paving mold series 1200i - extension element 3.0 ft wide	Standard	2425755	USD	0.00
Configuration with suspension for paving mold with a working width of more than 6.0 ft.	Standard	2372475	USD	0.00
<b>Spreading auger</b>				
Spreading auger - without crown, basic width 1.83 m / 6 ft, hydraulic drive with reversible sense of rotation, ø 400 mm / 15 3/4 in - in conjunction with molds with 1.83 m / 6 ft width (basic molds + extension elements). Recommended with concrete placed in advance.	Option	2226583	USD	21,253.00
<b>Extensions for spreader auger</b>				
Spreading auger - extension element 1.00 ft, right-hand pitch	Option	2226586	USD	1,154.00
Spreading auger - extension element 1.50 ft, right-hand pitch	Option	2233461	USD	1,534.00
Spreading auger - extension element 2.00 ft, right-hand pitch	Option	2226587	USD	1,669.00
Spreading auger - extension element 3.00 ft, right-hand pitch		2425757	USD	1,968.00
<b>Metering gates</b>				
Metering gate for molds 3.00 ft. The metering gate regulates the concrete level in the compaction compartment.	Option	2229398	USD	1,764.00
Hydraulic height adjustment for metering gate. Recommended with concrete placed in advance. Necessary in connection with a spreading auger.	Option	2229399	USD	3,732.00
<b>Extension for metering gates</b>				
Metering gate - extension element 1.00 ft	Option	2229395	USD	407.00
Metering gate - extension element 1.50 ft	Option	2400085	USD	624.00
Metering gate - extension element 2.00 ft	Option	2229396	USD	651.00
Metering gate - extension element 3.00 ft	Option	2425758	USD	909.00

<b>Additional vibrator drives</b>				
Extension of the hydraulic vibrator drive by another max. 5 vibrators to a total of 10 hydraulic vibrator drives. The frequency of each vibrator can be adjusted independently.	<b>Standard</b>	<b>2152473</b>	<b>USD</b>	<b>0.00</b>
Additional electric vibrator drive with 10-kVA generator for connecting a further max. 5 vibrators for a total of 10 vibrators. With two generators, the frequency of two groups of 5 vibrators each can be adjusted independently.	<b>Option</b>	<b>2152480</b>	<b>USD</b>	<b>16,150.00</b>
<b>Grout box auger USA</b>				
Grout box auger basic width 6 ft for use without crown, incl. one hydraulic drive. For distributing the sludge within the compaction compartment. Supplied expansion pieces allow the working width to be reduced to 5 ft. Working widths up to 12 ft are possible using optional expansion pieces.	<b>Option</b>	<b>2372038</b>	<b>USD</b>	<b>10,084.00</b>
<b>Extensions for grout box auger</b>				
Grout box auger - extension element 1.00 ft	<b>Option</b>	<b>2233751</b>	<b>USD</b>	<b>964.00</b>
Grout box auger - extension element 1.50 ft	<b>Option</b>	<b>2233752</b>	<b>USD</b>	<b>1,425.00</b>
Grout box auger - extension element 2.00 ft	<b>Option</b>	<b>2233753</b>	<b>USD</b>	<b>2,009.00</b>
Grout box auger - extension element 3.00 ft	<b>Option</b>	<b>2428073</b>	<b>USD</b>	<b>3,054.00</b>
<b>Tamper USA</b>				
Tamper bar basic width 6 ft for use without crown, incl. one hydraulic drive. For optimally incorporating the coarser components under the surface of the concrete. Working widths up to 12 ft are possible using optional expansion pieces. No reinstallation on working widths less than 6ft.	<b>Option</b>	<b>2372031</b>	<b>USD</b>	<b>7,939.00</b>
<b>Extensions for tamper</b>				
Tamper bar - extension element 1.00 ft	<b>Option</b>	<b>2273710</b>	<b>USD</b>	<b>109.00</b>
Tamper bar - extension element 1.50 ft	<b>Option</b>	<b>2273711</b>	<b>USD</b>	<b>122.00</b>
Tamper bar - extension element 2.00 ft	<b>Option</b>	<b>2372029</b>	<b>USD</b>	<b>122.00</b>
Tamper - extension element 3.00 ft	<b>Option</b>	<b>2425700</b>	<b>USD</b>	<b>149.00</b>
<b>Super smoother</b>				
Super smoother - basic width 2.00 m / 6.0 ft with controllable hydraulic drive, smoother length 3.00 m / 10 ft. Working widths up to 3.50 m / 12 ft are possible using optional expansion pieces.	<b>Option</b>	<b>2215757</b>	<b>USD</b>	<b>38,597.00</b>
<b>Extensions for super smoother</b>				
Super smoother - extension element 1.00 ft	<b>Option</b>	<b>2343340</b>	<b>USD</b>	<b>285.00</b>
Super smoother - extension element 2.00 ft	<b>Option</b>	<b>2343341</b>	<b>USD</b>	<b>366.00</b>

<b>Machine lighting</b>				
Two LED floodlights with four lighting elements for use in the 24 Volt electrical system, including two masts which can be mounted on the machine. Can only be used in combination with SP25i.	Option	2890815	USD	10,816.00
<b>Mold offset</b>				
Height adapter, with split offset molds it spans the gap between the trough mounting of the machine and the trough, at least one required per machine. Alternatively, the height-adjustable suspension can be used.	Option	2152692	USD	1,086.00
Height-adjustable mold mount with 1 ft 4 in / 0.40 m lift for split offset mold	Option	2183552	USD	7,804.00
Hydraulically operated quick-change system for connecting a one-piece offset paving mold to the machine.	Option	2191407	USD	4,519.00
Additional adapter plate for quick-change system. Required for equipping any troughs with the quick-change system.	Option	2342927	USD	1,262.00
<b>Stringline tensioning system</b>				
Stringline tensioning system consisting of 3280 ft wire rope, 1x tensioning winch, 200 steel pins with leveling wire suspension, adjustable in height and range	Option	55987	USD	4,166.00
Additional tensioning winch for stringline tensioning system	Option	79802	USD	909.00
Stringline tensioning system consisting of 4 x 984 ft / 4 x 300 m nylon rope, 4x tensioning winches, 200 posts, 200 rods, 200 clamps	Option	2153800	USD	4,004.00
Fibreglass rod as stringline replacement on corners with different radii, consisting of 196 ft 10 in fiberglass rod in 6 ft 7 in pieces, 50 clips for rod mounting and 15 connection pieces	Option	2153801	USD	1,466.00
<b>Export packaging</b>				
Export packaging	Standard	2163870	USD	0.00
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	Option		USD	81.00
Spare part and application documentation English (EN)	Option		USD	14.00
<b>Individual options:</b>				
bent hydraulic vibrator		75722	USD/ea	1,356.00
straight hydraulic vibrator		75721	USD/ea	1,282.00
hopper for curb and gutter molds		2869118	USD/ea	2,131.00
standard curb/curb and gutter mold - w/o hydraulics*			USD/ea	3,668.00
simple sidewalk mold 4'*			USD/ea	8,336.00
simple sidewalk mold 5'*			USD/ea	10,004.00
simple sidewalk mold 6'*			USD/ea	11,671.00
Static barrier mold up to 4' - including hydraulics			USD/ea	23,342.00
Static barrier mold up to 5' - including hydraulics			USD/ea	27,345.00

\* height adjustable mold mount or height adapter needed!

## Price list

### SW 16 TC

#### Scope of supply – basic machine

- High-performance binder spreader for soil stabilization and cold recycling as a trailer with tandem axle
- Volumetric dosing, fully automatic and independent of the transport speed
- Container with a capacity 16 m<sup>3</sup>, internal stiffeners and lockable side doors
- Pneumatic filling devices on both container sides with connection coupling, shut-off cock and ventilation valve
- Large ventilation pipe
- Display for "Container full" and "empty" by a visual signal
- Sensor-controlled chain conveyor made of drop-forged chain links and transport strips, 3 ft 1 in / 950 mm wide
- Hydraulic shut-off valve for sealing the container when filling, controlled by on-board electronics
- Filling chute with 2 integrated horizontal augers that are controlled automatically by a sensor
- On-board computer consisting of a programmable logic controller and a control terminal in the cab with color display. This unit permits exact output of the preselected spreading quantity in kg/m<sup>2</sup>, even at different transport speeds
- Closed on-board hydraulic with integrated hydraulic oil cooling
- Tandem-axle chassis with spring-loaded drawbar
- Manual parking brake
- Hydraulic support foot with hand pump
- Safety acceptance by the employers' professional liability insurance association
- Collecting trough and suspended weigher for checking the weights
- Technical documentation, 2 copies on paper and on USB stick

**List price ex subsidiary Wirtgen America**

**USD**

**236,509.00**

Mandatory Options				
<b>Paint</b>				
Standard paint: Container in cream (RAL 9001), lower part of the machine and spreading mechanism in slate grey (RAL 7015). (S015771)	Standard	2078241	USD	0.00
Single-color special paint. Cream color is replaced by a special color (RAL acc. to customer request). (S015772)	Option	2078243	USD	4,099.00
<b>On-board hydraulics drive</b>				
Drive of the complete spreading hydraulics driven by hydraulic pump via the power take-off shaft of the tractor vehicle (1000 r.p.m.) (S036174)	Standard	2418567	USD	0.00
Auxiliary diesel engine 12 volts. Use of the auxiliary diesel engine means the spreader operates fully independently of the carrier or towing vehicle. The engine has a power of 55.4 kW at 2,400 r.p.m. It includes an enclosure and comes with a hydraulic pump for operating the on-board hydraulic system on the spreader device. Includes brackets, holding devices, a diesel tank and a complete installation on the spreading grit container. Emission level EPA Tier 4f / EU Level V. Country-specific requirements are to be taken into account. (S051424)	Option	2779340	USD	39,751.00
<b>Drive adaptations</b>				
The wide-angle cardan shaft is used for spreading drive and is provided for a 1-3/8", 6-spline connection to the traction vehicle (truck). It offers good mobility for cornering, a high transmission power and economy during everyday use. (S015795)	Standard	2078771	USD	0.00
The wide-angle cardan shaft is used for spreader drive and is provided for a 1-3/4", 6-spline connection to the traction vehicle (truck). It offers good mobility for cornering, a high transmission power and economy during everyday use. (S015796)	Option	2078772	USD	190.00
The wide-angle cardan shaft is used for spreader drive and is provided for a 1-3/4", 20-spline connection to the traction vehicle (truck). It offers good mobility for cornering, a high transmission power and economy during everyday use. (S015797)	Option	2078773	USD	190.00
<b>Trailer drawbar</b>				
Low-mounting towing device (Hitch type) with drawbar eye 50 mm diameter. The low mounting offers a higher vertical load, better traction and driving stability. (S015784)	Standard	2078761	USD	0.00
Low-mounting towing device (Hitch type) with hitch ball towing system K 80 (diameter 3 in / 80 mm). The low mounting offers a higher vertical load, better traction and driving stability. (S015786)	Option	2094658	USD	584.00

<b>Road traffic registration</b>				
Machine not authorised for public roads - the binder spreader is not authorised for driving on public roads. The vehicle is not allowed to be driven to or from the field under its own power. (S032775)	Standard	2349729	USD	0.00
The data confirmation can be used as a basis for road approval in the corresponding country of use. (S047245)	Option	2670902	USD	1,167.00
<b>Brake system</b>				
Hydraulic brake system - If you are considering use on the public roads, please bear in mind the road traffic registration regulations in the country where the machine will be used when you select the brake system. (S015782)	Standard	2078886	USD	0.00
Compressed air dual-circuit brake system with manual controller - If you are considering use on the public roads, please bear in mind the road traffic registration regulations in the country where the machine will be used when you select the brake system. (S015783)	Option	2078887	USD	2,443.00
Combination brake system comprising a hydraulic brake and a compressed air brake. For maximum flexibility in selecting the tractor vehicle. - If you are considering use on the public roads, please bear in mind the road traffic registration regulations in the country where the machine will be used when you select the brake system. (S034601)	Option	2418562	USD	7,451.00
<b>Crawler units</b>				
Low-pressure tyres 700/50-26.5 with an outside diameter of 1,350 mm. The total width of the spreader is 2,760 mm. (S018096)	Standard	2671170	USD	0.00
Low-pressure tyres 800/40-26.5 with an outside diameter of 1,350 mm. The wide ground contact area of the tyres makes them ideal for difficult ground. The total width of the spreader is 2,960 mm. (S015792)	Option	2078889	USD	2,334.00
<b>Binder filling</b>				
The high-speed filling device size R 4" is used for faster filling of the binder container. It is supplied with a connector coupling, shut-off valve, stone screen, ventilation valve and R3" adapter (only supplied with Guillemín or Storz couplings). (S025145)	Standard	2290094	USD	0.00
<b>Binder distribution</b>				
The OptiPower chain conveyor drive is ideal for heavy binders. Two variable hydraulic motors and planetary gearboxes achieve an increased level of traction and a high conveying rate during binder transport. (S028086)	Standard	2293651	USD	0.00

<b>Binder spreader</b>				
Equipment of the machine with a universal spreading mechanism type DN 230-10 for soil stabilization or cold recycling - working width 7 ft 9 in / 2.36 m. The spreading material is output using a flexible rotary valve (10 cells). The metering feeders are self-cleaning. The working width is divided into three power-switchable subsections from 2 ft 8 in to 7 ft 9 in / 0.82 to 2.36 m. The output quantity at a transport speed of 1.2 mph / 2 km/h is approx. 0.6 lb/ft² to 8.6 lb/ft² / 3 to 42 kg/m² (assuming a bulk material density of 1.4 t/m³).	Standard	2351768	USD	0.00
<b>Additional devices</b>				
The vehicle is delivered without fenders. Please note that fenders must be fitted if an approval for driving on public roads is planned. (S047241)	Standard	2671293	USD	0.00
Long fenders for tandem axle with fixation parts. These are required, for example, for the authorization for driving on public roads. The wheel cover is also used as splash protection for the machine (S015794)	Option	2078256	USD	3,339.00
Short fenders for one axle with fixation parts. These are required, for example, for the authorization for driving on public roads. The wheel cover is also used as splash protection for the machine (S039203).	Option	2485541	USD	2,009.00
<b>Equipment Options</b>				
<b>Exhaust air filter</b>				
Dust collection system with compressor for filtering the waste air and reducing dust levels during the filling process. The system consists of 6 filter elements for a total air flow rate of 20,400 m³/h , an automatic purification system with electromagnetic control as well as a lockable, folding cover panel. - Compressed air is supplied via a separate compressor mounted on the binder spreader (HK450) (S041150)	Standard	2542341	USD	0.00
<b>Machine lighting</b>				
Working headlights with LED technology (4 pcs.) for illuminating the complete working area. All headlights are switched using the control terminal in the cab of the carrier or tractor vehicle. 2 headlights are mounted on the rear wall of the container and 1 headlight each on the right and left sides of the container. (S018581)	Standard	2173033	USD	0.00
<b>Printer</b>				
The needle printer is used for printing out all important working values. The data can be printed conveniently at adjustable intervals. (S015755)	Option	2078248	USD	1,330.00

<b>Camera system</b>				
The monitor system mounted on the rear of the vehicle is used for monitoring the working area at the rear. The pictures from the camera are displayed on a separate 7-inch color monitor in the cab. (S015819)	Option	2125804	USD	3,651.00
<b>Weighing system</b>				
Equipment of the machine with the active weighing device "Weightronic". For highly precise application of binder. Consisting of 4 weighing cells mounted between the frame and the binder container. The required spreading quantity is set using a separate control display. With the Weightronic, there is a continuous comparison between the actual and nominal values during spreading. Subsequent control of the spreading quantity is performed continuously and fully automatically. This means incorrect operation is almost excluded.(S032780)	Standard	2349725	USD	0.00
<b>Compressed air system</b>				
High-performance air compressor (8,000 liters/minute / 2113 gal/minute at max. 2 bar) incl. 15-meter / 50 ft high-pressure hose, hose roller and compressed air lance. For filling the binder spreader from an upright silo without its own compressor system, or for cleaning purposes. Drive via the machine hydraulics of the binder spreader. Not in conjunction with water misting system and compressor HK450. (S036499)	Option	2418729	USD	26,315.00
<b>Other devices</b>				
The storage compartments on the side with 3 lockable sheet metal doors on each side of the container offer enough room for carrying tools and implements for daily on-site operation securely and close to hand on the binder spreader. Gas springs support the opening and closing of the doors. (S015821)	Standard	2125806	USD	0.00
<b>Documentation</b>				
Additional set of technical documentation - UK country version (GB) (S029976)	Option		USD	68.00

## Price list

### SW 20 MC (4 axle)

#### Scope of supply – basic machine

- High-performance binder spreader for soil stabilization and cold recycling as a superstructure on a four-axle truck
- Volumetric dosing, fully automatic and independent of the transport speed
- Container with a capacity of 20 m<sup>3</sup>, internal stiffeners and lockable side doors
- Pneumatic filling devices on both container sides with connection coupling, shut-off cock and ventilation valve
- Large ventilation pipe
- Display for "Container full" and "empty" by a visual signal
- Sensor-controlled chain conveyor made of drop-forged chain links and transport strips, 3 ft 1 in / 950 mm wide
- "OptiPower" chain conveyor drive
- Hydraulic shut-off valve for sealing the container when filling, controlled by on-board electronics
- Filling chute with 2 integrated horizontal augers that are controlled automatically by a sensor
- On-board computer consisting of a programmable logic controller and a control terminal in the cab with color display. This unit permits exact output of the preselected spreading quantity in kg/m<sup>2</sup>, even at different transport speeds
- Closed on-board hydraulic with integrated hydraulic oil cooling
- Auxiliary frame produced especially for the particular carrier vehicle
- Safety acceptance by the employers' professional liability insurance association
- Collecting trough and suspended weigher for checking the weights
- Technical documentation, 2 copies on paper and on USB stick

List price ex subsidiary Wirtgen America

205,458.00

Mandatory Options				
Chassis variants				
Binder spreading superstructure without carrier vehicle. Customer provides a suitable carrier vehicle. Attention: The customer must fill in the Streumaster "Truck specifications" form and submit it with the order confirmation. The superstructure is delivered without rear lighting equipment and reversing alert if they are not originally present on the truck. (S032794)	Standard	2350866	USD	0.00
Installation				
Final assembly is carried out by the customer independently. The spreading tank is connected by the customer to the pre-existing or additionally ordered carrier vehicle. (S036175)	Standard	2418563	USD	0.00
Paint				
Standard paint: Container in cream (RAL 9001), lower part of the machine and spreading mechanism in slate grey (RAL 7015). (S015771)	Standard	2078241	USD	0.00
Single-color special paint. Cream color is replaced by a special color (RAL acc. to customer request). (S015772)	Option	2078243	USD	4,099.00
On-board hydraulics drive				
Drive of the entire spreader hydraulics driven by hydraulic pump via the auxiliary drive of the carrier vehicle (800- 2,500 1/min) (S032772)	Standard	2349726	USD	0.00
Auxiliary diesel engine 12 volts. Use of the auxiliary diesel engine means the spreader operates fully independently of the carrier or towing vehicle. The engine has a power of 55.4 kW at 2,400 r.p.m. It includes an enclosure and comes with a hydraulic pump for operating the on-board hydraulic system on the spreader device. Includes brackets, holding devices, a diesel tank and a complete installation on the spreading grit container. Emission level EPA Tier 4f / EU Level V. Country-specific requirements are to be taken into account. (S051424)	Option	2779340	USD	39,751.00
Road traffic registration				
Machine not authorised for public roads - the binder spreader is not authorised for driving on public roads. The vehicle is not allowed to be driven to or from the field under its own power. (S032775)	Standard	2349729	USD	0.00
Binder filling				
The high-speed filling device size R 4" is used for faster filling of the binder container. It is supplied with a connector coupling, shut-off valve, stone screen, ventilation valve and R3" adapter (only supplied with Guillemin or Storz couplings). (S025145)	Standard	2290094	USD	0.00

<b>Binder distribution</b>				
The OptiPower chain conveyor drive is ideal for heavy binders. Two variable hydraulic motors and planetary gearboxes achieve an increased level of traction and a high conveying rate during binder transport. (S028086)	Standard	2293651	USD	0.00
<b>Binder spreader</b>				
Equipment of the machine with a universal spreading mechanism type DN 230-10 for soil stabilization or cold recycling - working width 7 ft 9 in / 2.36 m. The spreading material is output using a flexible rotary valve (10 cells). The metering feeders are self-cleaning. The working width is divided into three power-switchable subsections from 2 ft 8 in to 7 ft 9 in / 0.82 to 2.36 m. The output quantity at a transport speed of 1.2 mph / 2 km/h is approx. 0.6 lb/ft² to 8.6 lb/ft² / 3 to 42 kg/m² (assuming a bulk weight of 8.3 lbs per gal / 1.00 kg per liter). (S032798)	Standard	2351768	USD	0.00
<b>Equipment Options</b>				
<b>Exhaust air filter</b>				
The dust separation filter is used for filtering the waste air and reducing dust levels during the filling procedure. It consists of 6 filter elements for an air flow rate of 20,400 m³/h / 720,419 cu ft/h in total, an automatic purification system with electromagnetic control as well as a lockable, folding cover panel. - The compressed air supply must be from the carrier or towing vehicle - (S018949)	Standard	2201451	USD	0.00
<b>Machine lighting</b>				
Working headlights with LED technology (4 pcs.) for illuminating the complete working area. All headlights are switched using the control terminal in the cab of the carrier or tractor vehicle. 2 headlights are mounted on the rear wall of the container and 1 headlight each on the right and left sides of the container. (S018581)	Standard	2173033	USD	0.00
<b>Printer</b>				
The needle printer is used for printing out all important working values. The data can be printed conveniently at adjustable intervals. (S015755)	Option	2078248	USD	1,330.00
<b>Camera system</b>				
The monitor system mounted on the rear of the vehicle is used for monitoring the working area at the rear. The pictures from the camera are displayed on a separate 7-inch color monitor in the cab. (S015819)	Option	2125804	USD	3,651.00

<b>Weighing system</b>				
Equipment of the machine with the active weighing device "Weightronic". For highly precise application of binder. Consisting of 4 weighing cells mounted between the frame and the binder container. The required spreading quantity is set using a separate control display. With the Weightronic, there is a continuous comparison between the actual and nominal values during spreading. Subsequent control of the spreading quantity is performed continuously and fully automatically. This means incorrect operation is almost excluded.(S032780)	<b>Standard</b>	<b>2349725</b>	<b>USD</b>	<b>0.00</b>
<b>Compressed air system</b>				
High-performance air compressor (8,000 liters/minute / 2113 gal/minute at max. 2 bar) incl. 15-meter / 50 ft high-pressure hose, hose roller and compressed air lance. For filling the binder spreader from an upright silo without its own compressor system, or for cleaning purposes. Drive via the machine hydraulics of the binder spreader. Not in conjunction with water misting system and compressor HK450. (S036499)	<b>Option</b>	<b>2418729</b>	<b>USD</b>	<b>26,315.00</b>
<b>Water system</b>				
The high-pressure cleaner with 15 m high-pressure hose and cleaning gun is used for filling the machine, and achieves a flow rate of approx. 15 l/min at max. 200 bar operational pressure. Drive via the on-board hydraulic system of the binder spreader. Only in conjunction with water tank. Not in conjunction with rotary compactor. (S015817)	<b>Option</b>	<b>2125694</b>	<b>USD</b>	<b>5,768.00</b>
The water sprinkling system generates a wall of spray mist which reduces the amount of dust given off by the binder to a minimum when spreading. The device with nozzle bar on the rear of the binder spreader is driven by a hydraulic water pump (feed quantity approx. 30 l/min.). Only in conjunction with water tank. Not in conjunction with rotary compactor. (S015815)	<b>Option</b>	<b>2137853</b>	<b>USD</b>	<b>8,048.00</b>
Water tank with 800 l content for supplying the water sprinkling system and/or the high-pressure cleaner. (S026493)	<b>Option</b>	<b>2233748</b>	<b>USD</b>	<b>5,537.00</b>
<b>Other devices</b>				
Side underbody guard on both sides with fastening components for the truck. This is required, for example, for the authorization for driving on public roads. (S015793)	<b>Option</b>	<b>2078255</b>	<b>USD</b>	<b>2,090.00</b>
Long fenders for tandem axle with fixation parts. These are required, for example, for the authorization for driving on public roads. The wheel cover is also used as splash protection for the machine (S015794)	<b>Option</b>	<b>2078256</b>	<b>USD</b>	<b>3,339.00</b>

Short fenders for one axle with fixation parts. These are required, for example, for the authorization for driving on public roads. The wheel cover is also used as splash protection for the machine (S039203).	Option	2485541	USD	2,009.00
Rear fenders made from steel sheet for covering the rear axle tyres. (S026271)	Option	2227471	USD	5,686.00
<b>Other devices</b>				
The storage compartments on the side with 3 lockable sheet metal doors on each side of the container offer enough room for carrying tools and implements for daily on-site operation securely and close to hand on the binder spreader. Gas springs support the opening and closing of the doors. (S015821)	Standard	2125806	USD	0.00
<b>Vehicles and auxiliary equipment</b>				
Rockinger trailer hitch type 400 G 150 DIN 74051 D-value 130 kN, Dc-value 90 kN, V-value 35 kN, permitted vertical load 1000 kg. Diameter bolt / drawbar eye 40 mm, hole pattern 160 x 100 mm. Only in conjunction with frame extension. (S015836)	Option	2089914	USD	841.00
Rockinger trailer hitch type 500 G 6 DIN 74051, D-value 190 kN, Dc-value 135 kN, V-value 72.5 kN, permitted vertical load 1000 kg. Diameter bolt/drawbar eye 50 mm, hole pattern 160 x 100 mm. Only in conjunction with frame extension. (S015837)	Option	2137907	USD	1,886.00
The truck frame overhang is extended towards the rear, including installation of the customer's own rear trailer coupling and electrical power cables. This means it is possible to tow a low-loader trailer on public roads. - Only for factory fitting, only for MC models with spreading mechanism DN 230 - (S015759)	Option	2089911	USD	5,496.00
Filling chute for binder spreader device in truck with frame overhang (at least 1500 mm / 59 in). Truck must be equipped with trailer coupling, compressed air lines and electrical power cables with a 24 volt, 7-pin socket. Only in conjunction with DN230 (S039159)	Option	2485557	USD	2,036.00
Hydraulic connections on the frame extension for operating the drive-up ramps of a low-loader, incorporated in the hydraulic system of the spreading. - Only possible with truck frame extension - (S015822)	Option	2089912	USD	1,154.00
<b>Documentation</b>				
Additional set of technical documentation - UK country version (GB) (029980)	Option		USD	68.00

## Price list

# W 100 Ri

### Scope of supply – basic machine

- Engine: 6-CYLINDER DIESEL ENGINE TYPEDEUTZ TCD 6.1 L6 AG 5
- Rated engine power 2300 r.p.m.: 160 kW / 214.6 HP / 217.5 PS
- Exhaust standard: EU Stage V / US EPA Tier 4f
- Standard milling width: 3 ft 3 in / 1000 mm
- Theoretical milling depth: 1 ft / 300 mm

### SCOPE OF SUPPLY OF THE BASIC MACHINE

- Engine cover with noise insulation and flexibly decoupled engine mounting for especially quiet running and low noise emissions

### MILLING DRUM UNIT

- Automatically activating, hydraulic drive belt tensioner for reliable power transmission to the milling drum
- Hydraulically lifting side plate right and left
- Round milling drum housing and straight left side plate for optimum material transport, making for low left-over amounts when lifting out the milling drum
- The right-hand side of the milling drum housing can be easily opened for maintenance or drum change
- Optimized for quick change of the milling drum, including by using centering pins with the side door of the milling drum housing
- With automatic electrical safety shut-off for the milling drum

### LOADING OF MILLED MATERIAL

- Machine prepared for optional material loading by discharge conveyor
- Conveyor speed continuously variable
- Conveyor slewing angle right/left 25 degrees each for significantly improved loading procedures

### OPERATOR'S PLATFORM

- Operator's platform with ergonomically arranged operator's seat, control panel arranged on the right and digital milling depth indicator in the control display
- Steering console with adjustable rake and reach for ideal adaptation of the operator's platform to the operator
- Three mirrors
- Machine design permits unobstructed view of the milled edge at the right and left as well as the working area in front of the milling drum on the right
- Conveniently accessible ladder/footstep to the operator's platform with night-time lighting and especially low, folding bottom edge of the latter/footstep
- Robust anti-vandalism protection for the controls

### TRACK UNIT AND HEIGHT ADJUSTMENT

- Precise machine height adjustment in 0.04 or 0.2 in / 1 or 5 mm steps from the machine control panel
- Infinitely variable, hydraulic all-wheel drive with three speed ranges
- Digital load control, manual engageable, hydraulic differential lock (by flow distributor)
- Wide solid rubber tires for the lowest ground pressures and optimum traction
- For milling along curb edges, the rear right support wheel can be swiveled hydraulically from the operator's platform in front of the milling drum.
- Hydraulic spring-loaded brake
- Proportional height adjustment at rear

### MISCELLANEOUS

- Flexible weight concept by optional additional weights
- Particularly low machine center of gravity for high stability of the machine
- Robust and easily maintained machine chassis with optimum ground clearance and short overhangs
- Towing device

- Reversing horn
- Large tool package with lockable tool box and additional storage space for two pick containers
- Pre-fitting for installing the WITOS FleetView control unit
- European type certification, EuroTest mark and CE conformity

**List price ex subsidiary Wirtgen America** **USD** **371,097.00**

#### Mandatory Options

##### Milling drum housing

Wear-resistant milling drum housing FB1000 (3 ft 3 in) without milling drum	<b>Standard</b>	<b>2365918</b>	<b>USD</b>	<b>0.00</b>
Wear-resistant milling drum housing FB1000 (3 ft 3 in) FCS-Light, with pre-fitting for quick and easy milling drum changes with different tool spacings while keeping the same working widths, without milling drum.	<b>Option</b>	<b>2365919</b>	<b>USD</b>	<b>7,491.00</b>
Wear-resistant milling drum housing FB600 (3 ft 3 in) FCS with pre-fitting enabling a quick and easy change of the milling drums with varying spacings and milling widths, without milling drum.	<b>Option</b>	<b>2459677</b>	<b>USD</b>	<b>9,989.00</b>

##### Milling drums / milling units

Milling drum with milling width 1000 mm / (3 ft, 3 in) milling depth max. 300 mm / 1 ft, tool spacing 15 mm / 0.6 in, equipped with quick-change toolholder system HT22 and 100 picks. For a wide range of applications, e.g. removal of surface and binder layer or complete removal of road surfaces.	<b>Standard</b>	<b>2311420</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

##### Material depressor / milling unit seal front

Front milling drum unit seal FB1000 (3 ft 3 in) with hydraulic height and contact pressure adjustment. An overload sensor with lifting function lifts the seal briefly in case of a collision and thus prevents damage.	<b>Standard</b>	<b>2365926</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

##### OPERATOR'S PLATFORM

Standard operator's seat with shock absorption and lengthways adjustment	<b>Standard</b>	<b>2365928</b>	<b>USD</b>	<b>0.00</b>
Comfort operator's seat incl. seat heating. The operator's seat has shock absorption, lengthways adjustment and can be swiveled through 20 degrees.	<b>Option</b>	<b>2365929</b>	<b>USD</b>	<b>1,072.00</b>

##### OPERATOR'S PLATFORM

Flexibly mounted operator's platform, without weather canopy.	<b>Standard</b>	<b>2365930</b>	<b>USD</b>	<b>0.00</b>
Operator's platform with weather canopy and lateral weather protection elements. The weather canopy can be adjusted in height hydraulically. The transparent weather protection elements on the side on the roof and the right of the operator's platform protect the operator against the effects of weather driving in from the sides, and ensure additional comfort when working. (FB1000)	<b>Option</b>	<b>2436568</b>	<b>USD</b>	<b>9,310.00</b>

<b>Milling depth regulation</b>				
LEVEL PRO PLUS leveling system. The measurement is made using cylinder sensors on the side plate right and left. The milling depth is displayed and set intuitively on the LEVEL PRO PLUS control display. The milling depth is regulated automatically. Incl. pre-fitting for additional sensors (e.g. Rapid Slope).	Standard	2365933	USD	0.00
<b>Hydraulic connection</b>				
Machine with hydraulic pre-fitting for a discharge conveyor with screw coupling. Each contains the coupling element on the machine side and the discharge conveyor side.	Standard	2370564	USD	0.00
Machine with hydraulic pre-fitting for a discharge conveyor with quick-change coupling. For quick change of the discharge conveyor. Each contains the coupling element on the machine side and the discharge conveyor side.	Option	2370565	USD	1,126.00
<b>Material transport</b>				
Discharge conveyor 7,350 mm / 24 ft 1 in long with conveyor belt width 500 mm / 1 ft 8 in and hydraulic folding device for shortening the transport length or simplified maneuvering in narrow fields. Including an LED working light for illuminating the ejection area. Discharge conveyor including mechanical installation and removal assistance.	Standard	2370568	USD	0.00
<b>Paint</b>				
Painting in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7015.	Standard	2370429	USD	0.00
Film coating in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7019	Option	2893663	USD	2,158.00
The film coating is applied in RAL colors and design according to the customer's wishes. Film coating provides protection against mechanical and weather-related damage and can be removed without leaving any marks, if required	Option	2893664	USD	2,918.00
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	Standard	2456347	USD	0.00
<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The	Standard	2770403	USD	0.00

<b>Machine lighting</b>				
Lighting system consisting of 1 LED strip, 3 halogen and 8 LED working lights. The headlights illuminate the area in front of the machine, the left machine side, the area in front of the milling drum unit, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 16,700 lumen in total.	Standard	2487612	USD	0.00
High-performance lighting system consisting of 2 LED strips, 1 halogen and 12 LED working lights. The headlights illuminate the area in front of the machine, the rear of the machine, the left machine side from the front and rear, the area in front of the milling drum unit, the wheel arch, the weather canopy, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 23,300 lumen in total. LED working lights are extremely bright, shock-resistant and durable.	Option	2487613	USD	964.00
<b>Crawler units</b>				
The machine is equipped with a front axle for using a milling unit with a width of 1.000 mm / 1.200 mm.	Standard	2589208	USD	0.00
<b>Equipment Options</b>				
<b>Additional weight</b>				
Additional weight 400 kg / 881 lb for four-wheel machine. 100 kg / 220 lb additional weight can be mounted in each rim. The additional weight can improve working under extreme conditions, although does increase the transport weight of the machine.	Option	2462950	USD	5,605.00
<b>Advance drive</b>				
Machine (FB1000 / FB1200) equipped for increased transfer speed with more powerful hydraulic components (up to 7,5 km/h / 4,5 mph). Construction site operations are significantly faster due to the increased transfer speed of the machine.	Standard	2370563	USD	0.00
Machine equipped with precision steering (FB1000/1200). Proportional push-buttons on the multi-function armrest enable the machine to be steered more precisely.	Standard	2478483	USD	0.00
Equipment of the machine with precision steering (FB600). Pushbuttons on the multi-function armrests with a proportional response permit more precise steering of the machine.	Option	2592468	USD	1,344.00

<b>Milling drum assembly options</b>				
Overload sensor on the scraper FB1000/1200 for automatic lifting function in case of obstacles. Effectively prevents the scraper from sinking into the loose sub-base, as well as getting stuck on obstacles.	Option	2478481	USD	1,819.00
Active floating position on the side plate right and left by continuous comparison between the milling depth and position of the side plate. If required, the side plate is lifted briefly to prevent tilting or sinking into a soft sub-base. (Only possible in conjunction with LEVEL PRO PLUS.)	Option	2478486	USD	1,737.00
<b>Device for milling drum change</b>				
Milling drum assembly trolley for milling drums up to FB1300 (4 ft 3 in), for straightforward milling drum change	Option	105240	USD	2,741.00
Assembly aid for the fast milling drum change	Option	101056	USD	1,330.00
<b>Additional milling units</b>				
FCS milling unit FB400 (15,75") LA15, with quick-change toolholder system HT22, milling depth max. 0 ft 11 in / 300 mm, equipped with 59 RS picks, including scraper bottom part FB400 (15,75")	Option	2478482	USD	18,321.00
FCS milling unit FB500 (20") LA15, with quick-change toolholder system HT22, milling depth max. 0 ft 11 in / 300 mm, equipped with 65 RS picks, including scraper bottom part FB500 (20")	Option	2478484	USD	19,176.00
<b>Cold-start device</b>				
Electrical preheating of the fuel filter to maintain the flow of fuel at low outside temperatures. Serves to guarantee machine operation at temperatures below 0 32 degrees Fahrenheit (0 degrees Celsius).	Option	2468568	USD	407.00
<b>Options for belt conveyor</b>				
Hydraulic coupler on conveyor side for mounting on an additional discharge conveyor. For use on a machine pre-equipped with screw coupling.	Option	2370616	USD	176.00

<b>Lateral slope control</b>				
Expansion of the LEVEL PRO PLUS leveling system by a RAPID SLOPE sensor. Ideal, for example for aligning the machine in a defined lateral tilt on a one-sided reference.	Option	2370620	USD	4,166.00
Expansion of the LEVEL PRO PLUS leveling system by a leveling boom that can be moved out on the left side. The boom can be moved out hydraulically if required by up to 43 in / 1,080 mm and mechanically by a further 40 in / 1,020 mm. Including sensor and cable as well as LED position lights for indicating the moved-out boom.	Option	2417339	USD	5,727.00
<b>Water system / spraying agent system</b>				
Hydraulically driven water filler pump. For rapid filling of the water tank. The filler pump is located in an easily accessible position and is protected in the storage compartment at the ladder/footstep to the operator's platform.	Option	2511836	USD	2,823.00
<b>Pick changing aids</b>				
Hydraulically driven pick ejector, including the holder and required electrical and hydraulic connections. Ideal for convenient, fast and low-noise pick changes.	Option	2370621	USD	3,610.00
<b>Wirtgen information and diagnostic system</b>				
Equipment of the machine with job data acquisition. The information is shown in the control display.	Standard	2410294	USD	0.00
<b>Camera system</b>				
Monitor system as maneuvering aid with two cameras and screen. A camera is mounted on the discharge conveyor and displays the loading of the truck. The 2nd camera shows the area in front of the milling drum housing. The camera images are displayed on the screen.	Option	2487627	USD	5,171.00
<b>Other devices</b>				
License plate holder with LED lighting to comply with country-specific regulations.	Option	2655778	USD	461.00
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	Option		USD	81.00
Spare part and application documentation English (EN)	Option		USD	14.00

## Price list

# W 100 Xfi - FCS

### Scope of supply – basic machine

- Engine: 6-CYLINDER DIESEL ENGINE TYPE CUMMINS QSL9 C-300
- Rated engine power 2100 r.p.m.: 248 kW / 333 HP / 337 PS
- Maximum power at 1900 r.p.m.: 257 kW / 345 HP / 350 PS
- Exhaust standard: US EPA Tier 4f
- Standard milling width: 3 ft 3 in / 1000 mm
- Theoretical milling depth: 1 ft 1 in / 330 mm

### STANDARD EQUIPMENT

- Base machine with engine
- Mechanically opening engine hood with noise insulation
- Radiator with temperature-dependent fan speed
- Highly effective noise insulation throughout the engine compartment
- Automatic engine speed adjustment depending on machine load
- Elastically mounted engine station with low vibration and low noise

### MILLING DRUM HOUSING

- The right-hand side of the milling drum housing can be easily opened for maintenance or drum change
- Hydraulically operated rear scraper with mechanical locking

### LOADING OF MILLED MATERIAL

- Discharge conveyor swing angle: 60 degrees left – 60 degrees right
- Hydraulically foldable discharge conveyor with two swing speeds, including adjustable conveyor speed for precise loading

### MACHINE CONTROL AND LEVELLING SYSTEM

- Digital milling depth indicator on machine control panel
- LEVEL PRO PLUS leveling system right and left
- RAPID SLOPE cross-slope sensor for LEVEL PRO ACTIVE leveling system
- Precise machine height adjustment in increments of 1 or 5 mm via the machine's main control panel
- Digital load control, can be engaged manually, hydraulic differential lock (via flow divider)

### OPERATOR'S PLATFORM

- Hydraulically extendable operator's platform for optimum view of the working area
- Steering console with adjustable rake and reach for ideal adaptation of the operator's platform to the operator
- Slender machine design permits unobstructed view of the milled edge as well as the working area in front of the milling drum on the right
- Conveniently accessible ladder/footstep to the operator's platform with night-time lighting and especially low bottom edge of the latter/footstep
- Robust anti-vandalism protection for the controls
- Mirror package consisting of front left and right rear-view mirrors and a forward-facing mirror to the left of the operator's platform
- Reversing horn with clearly audible signal
- Illuminated control panel / nighttime design
- Scraper height indicator on control panel

### TRACK UNIT AND HEIGHT ADJUSTMENT

- Dual-speed hydraulic height adjustment of front and rear track units

### MISCELLANEOUS

- Large tool package
- Towing device
- Generously sized water and diesel tanks

- Comprehensive safety package with several EMERGENCY STOP switches
- Pre-fitting for installing the WITOS FleetView control unit
- European type certification, EuroTest mark and CE conformity

**List price ex subsidiary Wirtgen America**

**USD**

**587,724.00**

## **Mandatory Options**

### **Crawler units**

Configuration with 4 driven track units. The two front track units are steered. The track unit at the rear right is hydraulically slewing and also steers. Traveling speed max. 3.6 mph / 5.8 km/h.

**Standard**

**2777141**

**USD**

**0.00**

### **Milling drum housing**

Wear-resistant milling drum housing FB1000 (3 ft 3 in) FCS with pre-fitting enabling a quick and easy change of the milling drums with varying spacings and milling widths, without milling drum.

**Standard**

**2336166**

**USD**

**0.00**

### **Milling drums / milling units**

FCS milling drum with milling width 1000 mm / 3 ft / 3 in, tool spacing 15 mm / 19/32 in, equipped with quick-change toolholder system HT22 and 99 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.

**Standard**

**2308062**

**USD**

**0.00**

### **OPERATOR'S PLATFORM**

Standard operator's seat with shock absorption and lengthways adjustment

**Standard**

**2412488**

**USD**

**0.00**

### **Hydraulic connection**

Machine with hydraulic pre-fitting for a discharge conveyor with screw coupling. Each contains the coupling element on the machine side and the discharge conveyor side.

**Standard**

**2412477**

**USD**

**0.00**

### **Material transport**

Discharge conveyor 26 ft 9 in / 8,150 mm long with conveyor belt width 2 ft / 600 mm and hydraulic folding device for shortening the transport length or simplified maneuvering in narrow fields.

**Standard**

**2336175**

**USD**

**0.00**

<b>Paint</b>				
Painting in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7015.	Standard	2863379	USD	0.00
Film coating in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7019	Option	2863382	USD	2,456.00
The film coating is applied in RAL colors and design according to the customer's wishes. Film coating provides protection against mechanical and weather-related damage and can be removed without leaving any marks, if required	Option	2863384	USD	3,298.00
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	Standard	2456347	USD	0.00
<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	Standard	2770403	USD	0.00
<b>Machine lighting</b>				
Lighting system consisting of 4 halogen and 8 LED working lights. The headlights illuminate the area in front of the machine, both machine sides, the area in front of the milling drum unit, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 19,500 lumen in total.	Standard	2487614	USD	0.00
High-performance lighting system consisting of 1 halogen and 14 LED working lights. The headlights illuminate the area in front of and behind the machine, both machine sides, the area in front of the milling drum unit, the loading area, the weather canopy, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 26,300 lumen in total. LED working lights are extremely bright, shock-resistant and durable.	Option	2487615	USD	977.00

Equipment Options				
<b>Exhaust air filter</b>				
VCS – vacuum cutting system on the discharge conveyor for the extraction of fine material particles and water vapor from the sealed milling drum unit.	Option	2336913	USD	8,604.00
<b>Advance drive</b>				
Equipment of the machine with precision steering. Pushbuttons on the multi-function armrests with a proportional response permit more precise steering of the machine.	Standard	2478488	USD	0.00
<b>Equipment operator's platform</b>				
Operator's platform with weather canopy. The weather canopy is hydraulically adjustable in height and provides additional comfort during on-site operation. Including LED working light for illuminating the footstep. (Only in conjunction with electrohydraulic unit.)	Option	2336173	USD	8,496.00
<b>Milling drum assembly options</b>				
Overload sensor on the scraper FB1000 for automatic lifting function in case of obstacles. Effectively prevents the scraper from sinking into the loose sub-base, as well as getting stuck on obstacles.	Option	2478485	USD	2,823.00
Active floating position on the side plate right and left by continuous comparison between the milling depth and position of the side plate. If required, the side plate is lifted briefly to prevent tilting or sinking into a soft sub-base. (Only possible in conjunction with LEVEL PRO PLUS.)	Standard	2478486	USD	0.00
<b>Side milling ring</b>				
Pre-fitting for using a deep milling unit, including all necessary electro, hydraulic and water connections.	Option	2596465	USD	2,171.00
<b>Additional milling units</b>				
FCS tandem scraper FB1000 (39") with necessary hydraulic and electrical systems. For the use of milling drums smaller than FB1000 (39"). The min. milling width for material loading onto the loading belt is	Standard	2351463	USD	0.00
FCS milling unit FB300 (12") LA15, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 61 RS picks, including scraper bottom part FB300 (12")	Option	2308611	USD	15,607.00
FCS milling unit FB600 (24") LA12, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 79 picks, including scraper bottom part FB600 (24")	Option	2308615	USD	25,243.00
<b>Cold-start device</b>				
Electrical preheating of the fuel filter to maintain the flow of fuel at low outside temperatures. Serves to guarantee machine operation at temperatures below 0 32 degrees Fahrenheit (0 degrees Celsius).	Option	2377357	USD	774.00

<b>Options for belt conveyor</b>				
Signal lights for visual "stop" and "go" instructions for the truck driver without the use of a horn. The signal lights can be folded in hydraulically from the operator's platform.	Option	2409818	USD	6,664.00
<b>Leveling</b>				0.00
Expansion of the LEVEL PRO PLUS leveling system by a SONIC SKI sensor. Ideal for contact-free wire and soil scanning. Including connection cable and holder.	Option	2352878	USD	5,971.00
<b>Leveling</b>				
Expansion of the leveling system for multiplex system package 3-way right, including 2 x ultrasonic sensors, and connection cable. (FB1000/1200)	Option	2544246	USD	4,275.00
Expansion of the leveling system to make multiplex system package 3-way right and 3-way left, including 4 x ultrasonic sensors and connection cable. (FB1000/1200)	Option	2544249	USD	8,550.00
<b>Attachments</b>				
Battery-operated electro-hydraulic unit for operation of the machine hydraulics with the diesel engine switched off. (e.g. height adjustment of weather canopy, milling drum rotation device and hydraulic pick extractor drift)	Standard	2412494	USD	0.00
<b>Water system</b>				
Hydraulically operated high-pressure water cleaner with a maximum performance of 15 l/min at 150 bar pressure. Ideal for daily cleaning of the machine.	Option	2336231	USD	4,071.00
<b>Pick changing aids</b>				
Milling drum rotation device with electrohydraulic milling drum drive for slowly turning the milling drum during pick replacement.	Standard	2352893	USD	0.00
<b>Wirtgen information and diagnostic system</b>				
Equipment of the machine with job data acquisition. The information is shown in the control display.	Standard	2410294	USD	0.00
<b>Camera system</b>				
Monitor system as maneuvering aid with 2 cameras and screen. A camera is mounted on the discharge conveyor and displays the loading of the truck. The 2nd camera shows the area in front of the milling drum housing. The camera images are displayed	Option	2487637	USD	5,727.00
<b>Other devices</b>				
License plate holder with LED lighting to comply with country-specific regulations.	Option	2659037	USD	461.00
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	Option		USD	81.00
Spare part and application documentation English (EN)	Option		USD	14.00

## Price list

# W 120 Ri

### Scope of supply – basic machine

- Engine: 6-CYLINDER DIESEL ENGINE TYPEDEUTZ TCD 6.1 L6 AG 5
- Rated engine power 2300 r.p.m.: 160 kW / 214.6 HP / 217.5 PS
- Exhaust standard: EU Stage V / US EPA Tier 4f
- Standard milling width: 3 ft 11 in / 1200 mm
- Theoretical milling depth: 1 ft / 300 mm

#### SCOPE OF SUPPLY OF THE BASIC MACHINE

- Engine cover with noise insulation and flexibly decoupled engine mounting for especially quiet running and low noise emissions

#### MILLING DRUM UNIT

- Automatically activating, hydraulic drive belt tensioner for reliable power transmission to the milling drum
- Hydraulically lifting side plate right and left
- Round milling drum housing and straight left side plate for optimum material transport, making for low left-over amounts when lifting out the milling drum
- The right-hand side of the milling drum housing can be easily opened for maintenance or drum change
- Optimized for quick change of the milling drum, including by using centering pins with the side door of the milling drum housing
- With automatic electrical safety shut-off for the milling drum

#### LOADING OF MILLED MATERIAL

- Machine prepared for optional material loading by discharge conveyor
- Conveyor speed continuously variable
- Conveyor slewing angle right/left 25 degrees each for significantly improved loading procedures

#### OPERATOR'S PLATFORM

- Operator's platform with ergonomically arranged operator's seat, control panel arranged on the right and digital milling depth indicator in the control display
- Steering console with adjustable rake and reach for ideal adaptation of the operator's platform to the operator
- Three mirrors
- Machine design permits unobstructed view of the milled edge at the right and left as well as the working area in front of the milling drum on the right
- Conveniently accessible ladder/footstep to the operator's platform with night-time lighting and especially low, folding bottom edge of the latter/footstep
- Robust anti-vandalism protection for the controls

#### TRACK UNIT AND HEIGHT ADJUSTMENT

- Precise machine height adjustment in 0.04 or 0.2 in / 1 or 5 mm steps from the machine control panel
- Infinitely variable, hydraulic all-wheel drive with three speed ranges
- Digital load control, manual engageable, hydraulic differential lock (by flow distributor)
- Wide solid rubber tires for the lowest ground pressures and optimum traction
- For milling along curb edges, the rear right support wheel can be swiveled hydraulically from the operator's platform in front of the milling drum.
- Hydraulic spring-loaded brake
- Proportional height adjustment at rear

#### MISCELLANEOUS

- Flexible weight concept by optional additional weights
- Particularly low machine center of gravity for high stability of the machine
- Robust and easily maintained machine chassis with optimum ground clearance and short overhangs
- Towing device

- Reversing horn
- Large tool package with lockable tool box and additional storage space for two pick containers
- Pre-fitting for installing the WITOS FleetView control unit
- European type certification, EuroTest mark and CE conformity

**List price ex subsidiary Wirtgen America** **USD** **379,783.00**

#### Mandatory Options

##### Milling drum housing

Wear-resistant milling drum housing FB1200 (3 ft 11 in) without milling drum	<b>Standard</b>	<b>2365921</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

Wear-resistant milling drum housing FB1200 (3 ft 11 in) FCS-Light, with pre-fitting enabling a quick and easy change of milling drums with varying spacings and equal milling widths, without milling drum.	<b>Option</b>	<b>2365922</b>	<b>USD</b>	<b>7,491.00</b>
---	---------------	----------------	------------	-----------------

##### Milling drums / milling units

Milling drum with milling width 1200 mm / (3 ft 11 in), tool spacing 18 mm / 45/64 in, equipped with quick-change toolholder system HT22 and 101 picks. For a wide range of applications, e.g. removal of surface and binder layer or complete removal of road surfaces.	<b>Standard</b>	<b>2371942</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

##### Material depressor / milling unit seal front

Front milling drum unit seal FB1200 (3 ft 11 in) with hydraulic height and contact pressure adjustment. An overload sensor with lifting function lifts the seal briefly in case of a collision and thus prevents damage.	<b>Standard</b>	<b>2365927</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

##### OPERATOR'S PLATFORM

Standard operator's seat with shock absorption and lengthways adjustment	<b>Standard</b>	<b>2365928</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

Comfort operator's seat incl. seat heating. The operator's seat has shock absorption, lengthways adjustment and can be swiveled through 20 degrees.	<b>Option</b>	<b>2365929</b>	<b>USD</b>	<b>1,072.00</b>
---	---------------	----------------	------------	-----------------

##### OPERATOR'S PLATFORM

Flexibly mounted operator's platform, without weather canopy.	<b>Standard</b>	<b>2365930</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

Operator's platform with weather canopy and lateral weather protection elements. The weather canopy can be adjusted in height hydraulically. The transparent weather protection elements on the side on the roof and the right of the operator's platform protect the operator against the effects of weather driving in from the sides, and ensure additional comfort when working. (FB1000)	<b>Option</b>	<b>2436568</b>	<b>USD</b>	<b>9,310.00</b>
---	---------------	----------------	------------	-----------------

Operator's platform with weather canopy and lateral weather protection elements. The weather canopy can be adjusted in height hydraulically. The transparent weather protection elements on the side on the roof and the right of the operator's platform protect the operator against the effects of weather driving in from the sides, and ensure additional comfort when working. (FB1200)	<b>Option</b>	<b>2523456</b>	<b>USD</b>	<b>9,581.00</b>
<b>Milling depth regulation</b>				
LEVEL PRO PLUS leveling system. The measurement is made using cylinder sensors on the side plate right and left. The milling depth is displayed and set intuitively on the LEVEL PRO PLUS control display. The milling depth is regulated automatically. Incl. pre-fitting for additional sensors (e.g. Rapid Slope).	<b>Standard</b>	<b>2365933</b>	<b>USD</b>	<b>0.00</b>
<b>Hydraulic connection</b>				
Machine with hydraulic pre-fitting for a discharge conveyor with screw coupling. Each contains the coupling element on the machine side and the discharge conveyor side.	<b>Standard</b>	<b>2370564</b>	<b>USD</b>	<b>0.00</b>
Machine with hydraulic pre-fitting for a discharge conveyor with quick-change coupling. For quick change of the discharge conveyor. Each contains the coupling element on the machine side and the discharge conveyor side.	<b>Option</b>	<b>2370565</b>	<b>USD</b>	<b>1,126.00</b>
<b>Material transport</b>				
Discharge conveyor 7,350 mm / 24 ft 1 in long with conveyor belt width 500 mm / 1 ft 8 in and hydraulic folding device for shortening the transport length or simplified maneuvering in narrow fields. Including an LED working light for illuminating the ejection area. Discharge conveyor including mechanical installation and removal assistance.	<b>Standard</b>	<b>2370568</b>	<b>USD</b>	<b>0.00</b>
<b>Paint</b>				
Painting in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7015.	<b>Standard</b>	<b>2459686</b>	<b>USD</b>	<b>0.00</b>
Film coating in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7019	<b>Option</b>	<b>2893665</b>	<b>USD</b>	<b>2,158.00</b>
The film coating is applied in RAL colors and design according to the customer's wishes. Film coating provides protection against mechanical and weather-related damage and can be removed without leaving any marks, if required	<b>Option</b>	<b>2893666</b>	<b>USD</b>	<b>2,918.00</b>
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	<b>Standard</b>	<b>2456347</b>	<b>USD</b>	<b>0.00</b>

<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	<b>Standard</b>	<b>2770403</b>	<b>USD</b>	<b>0.00</b>
<b>Machine lighting</b>				
Lighting system consisting of 1 LED strip, 3 halogen and 8 LED working lights. The headlights illuminate the area in front of the machine, the left machine side, the area in front of the milling drum unit, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 16,700 lumen in total.	<b>Standard</b>	<b>2487612</b>	<b>USD</b>	<b>0.00</b>
High-performance lighting system consisting of 2 LED strips, 1 halogen and 12 LED working lights. The headlights illuminate the area in front of the machine, the rear of the machine, the left machine side from the front and rear, the area in front of the milling drum unit, the wheel arch, the weather canopy, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 23,300 lumen in total. LED working lights are extremely bright, shock-resistant and durable.	<b>Option</b>	<b>2487613</b>	<b>USD</b>	<b>964.00</b>
<b>Crawler units</b>				
The machine is equipped with a front axle for using a milling unit with a width of 1.000 mm / 1.200 mm.	<b>Standard</b>	<b>2589208</b>	<b>USD</b>	<b>0.00</b>
<b>Equipment Options</b>				
<b>Additional weight</b>				
Additional weight 400 kg / 881 lb for four-wheel machine. 100 kg / 220 lb additional weight can be mounted in each rim. The additional weight can improve working under extreme conditions, although does increase the transport weight of the machine.	<b>Option</b>	<b>2462950</b>	<b>USD</b>	<b>5,605.00</b>

<b>Advance drive</b>				
Machine (FB1000 / FB1200) equipped for increased transfer speed with more powerful hydraulic components (up to 7,5 km/h / 4,5 mph). Construction site operations are significantly faster due to the increased transfer speed of the machine.	Standard	2370563	USD	0.00
Machine equipped with precision steering (FB1000/1200). Proportional push-buttons on the multi-function armrest enable the machine to be steered more precisely.	Standard	2478483	USD	0.00
<b>Milling drum assembly options</b>				
Overload sensor on the scraper FB1000/1200 for automatic lifting function in case of obstacles. Effectively prevents the scraper from sinking into the loose sub-base, as well as getting stuck on obstacles.	Option	2478481	USD	1,819.00
Active floating position on the side plate right and left by continuous comparison between the milling depth and position of the side plate. If required, the side plate is lifted briefly to prevent tilting or sinking into a soft sub-base. (Only possible in conjunction with LEVEL PRO PLUS.)	Option	2478486	USD	1,737.00
<b>Device for milling drum change</b>				
Milling drum assembly trolley for milling drums up to FB1300 (4 ft 3 in), for straightforward milling drum change	Option	105240	USD	2,741.00
Assembly aid for the fast milling drum change	Option	101056	USD	1,330.00
<b>Cold-start device</b>				
Electrical preheating of the fuel filter to maintain the flow of fuel at low outside temperatures. Serves to guarantee machine operation at temperatures below 0 32 degrees Fahrenheit (0 degrees Celsius).	Option	2468568	USD	407.00
<b>Options for belt conveyor</b>				
Hydraulic coupler on conveyor side for mounting on an additional discharge conveyor. For use on a machine pre-equipped with screw coupling.	Option	2370616	USD	176.00
<b>Lateral slope control</b>				
Expansion of the LEVEL PRO PLUS leveling system by a RAPID SLOPE sensor. Ideal, for example for aligning the machine in a defined lateral tilt on a one-sided reference.	Option	2370620	USD	4,166.00

Expansion of the LEVEL PRO PLUS leveling system by a leveling boom that can be moved out on the left side. The boom can be moved out hydraulically if required by up to 43 in / 1,080 mm and mechanically by a further 40 in / 1,020 mm. Including sensor and cable as well as LED position lights for indicating the moved-out boom.	Option	2417339	USD	5,727.00
<b>Water system / spraying agent system</b>				
Hydraulically driven water filler pump. For rapid filling of the water tank. The filler pump is located in an easily accessible position and is protected in the storage compartment at the ladder/footstep to the operator's platform.	Option	2511836	USD	2,823.00
<b>Pick changing aids</b>				
Hydraulically driven pick ejector, including the holder and required electrical and hydraulic connections. Ideal for convenient, fast and low-noise pick changes.	Option	2370621	USD	3,610.00
<b>Wirtgen information and diagnostic system</b>				
Equipment of the machine with job data acquisition. The information is shown in the control display.	Standard	2410294	USD	0.00
<b>Camera system</b>				
Monitor system as maneuvering aid with two cameras and screen. A camera is mounted on the discharge conveyor and displays the loading of the truck. The 2nd camera shows the area in front of the milling drum housing. The camera images are displayed on the screen.	Option	2487627	USD	5,171.00
<b>Other devices</b>				
License plate holder with LED lighting to comply with country-specific regulations.	Option	2655778	USD	461.00
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	Option		USD	81.00
Spare part and application documentation English (EN)	Option		USD	14.00

## Price list

# W 120 Xfi - FCS

### Scope of supply – basic machine

- Engine: 6-CYLINDER DIESEL ENGINE TYPE CUMMINS QSL9 C-300
- Rated engine power 2100 r.p.m.: 248 kW / 333 HP / 337 PS
- Maximum power at 1900 r.p.m.: 257 kW / 345 HP / 350 PS
- Exhaust standard: US EPA Tier 4f
- Standard milling width: 3 ft 11 in / 1200 mm
- Theoretical milling depth: 1 ft 1 in / 330 mm

### STANDARD EQUIPMENT

- Base machine with engine
- Mechanically opening engine hood with noise insulation
- Radiator with temperature-dependent fan speed
- Highly effective noise insulation throughout the engine compartment
- Automatic engine speed adjustment depending on machine load
- Elastically mounted engine station with low vibration and low noise

### MILLING DRUM HOUSING

- The right-hand side of the milling drum housing can be easily opened for maintenance or drum change
- Hydraulically operated rear scraper with mechanical locking

### LOADING OF MILLED MATERIAL

- Discharge conveyor swing angle: 60 degrees left – 60 degrees right
- Hydraulically foldable discharge conveyor with two swing speeds, including adjustable conveyor speed for precise loading

### MACHINE CONTROL AND LEVELLING SYSTEM

- Digital milling depth indicator on machine control panel
- LEVEL PRO PLUS leveling system right and left
- RAPID SLOPE cross-slope sensor for LEVEL PRO ACTIVE leveling system
- Precise machine height adjustment in increments of 1 or 5 mm via the machine's main control panel
- Digital load control, can be engaged manually, hydraulic differential lock (via flow divider)

### OPERATOR'S PLATFORM

- Hydraulically extendable operator's platform for optimum view of the working area
- Steering console with adjustable rake and reach for ideal adaptation of the operator's platform to the operator
- Slender machine design permits unobstructed view of the milled edge as well as the working area in front of the milling drum on the right
- Conveniently accessible ladder/footstep to the operator's platform with night-time lighting and especially low bottom edge of the latter/footstep
- Robust anti-vandalism protection for the controls
- Mirror package consisting of front left and right rear-view mirrors and a forward-facing mirror to the left of the operator's platform
- Reversing horn with clearly audible signal
- Illuminated control panel / nighttime design
- Scraper height indicator on control panel

### TRACK UNIT AND HEIGHT ADJUSTMENT

- Dual-speed hydraulic height adjustment of front and rear track units

### MISCELLANEOUS

- Large tool package
- Towing device
- Generously sized water and diesel tanks

- Comprehensive safety package with several EMERGENCY STOP switches
- Pre-fitting for installing the WITOS FleetView control unit
- European type certification, EuroTest mark and CE conformity

**List price ex subsidiary Wirtgen America**

**USD**

**597,184.00**

### **Mandatory Options**

#### **Crawler units**

Configuration with 4 driven track units. The two front track units are steered. The track unit at the rear right is hydraulically slewing and also steers. Traveling speed max. 3.6 mph / 5.8 km/h.

**Standard**

**2777141**

**USD**

**0.00**

#### **Milling drum housing**

Wear-resistant milling drum housing FB1200 (3 ft 11 in) FCS, with pre-fitting for quick and easy milling drum change, without milling drum

**Standard**

**2336168**

**USD**

**0.00**

#### **Milling drums / milling units**

FCS milling drum with milling width 1200 mm / 3 ft / 11 in, tool spacing 15 mm / 19/32 in, equipped with quick-change toolholder system HT22 and 109 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.

**Standard**

**2308142**

**USD**

**0.00**

### **OPERATOR'S PLATFORM**

Standard operator's seat with shock absorption and lengthways adjustment

**Standard**

**2412488**

**USD**

**0.00**

Comfort operator's seat incl. seat heating. The operator's seat has shock absorption, lengthways adjustment and can be swiveled through a total of 50 degrees.

**Option**

**2412489**

**USD**

**1,208.00**

### **Hydraulic connection**

Machine with hydraulic pre-fitting for a discharge conveyor with screw coupling. Each contains the coupling element on the machine side and the discharge conveyor side.

**Standard**

**2412477**

**USD**

**0.00**

### **Material transport**

Discharge conveyor 26 ft 9 in / 8,150 mm long with conveyor belt width 2 ft / 600 mm and hydraulic folding device for shortening the transport length or simplified maneuvering in narrow fields.

**Standard**

**2336175**

**USD**

**0.00**

<b>Paint</b>				
Painting in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7015.	Standard	2863386	USD	0.00
Film coating in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7019	Option	2863387	USD	2,456.00
The film coating is applied in RAL colors and design according to the customer's wishes. Film coating provides protection against mechanical and weather-related damage and can be removed without leaving any marks, if required	Option	2863414	USD	3,298.00
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	Standard	2456347	USD	0.00
<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	Standard	2770403	USD	0.00
<b>Machine lighting</b>				
Lighting system consisting of 4 halogen and 8 LED working lights. The headlights illuminate the area in front of the machine, both machine sides, the area in front of the milling drum unit, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 19,500 lumen in total.	Standard	2487614	USD	0.00
High-performance lighting system consisting of 1 halogen and 14 LED working lights. The headlights illuminate the area in front of and behind the machine, both machine sides, the area in front of the milling drum unit, the loading area, the weather canopy, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 26,300 lumen in total. LED working lights are extremely bright, shock-resistant and durable.	Option	2487615	USD	977.00

Equipment Options				
<b>Exhaust air filter</b>				
VCS – vacuum cutting system on the discharge conveyor for the extraction of fine material particles and water vapor from the sealed milling drum unit.	Option	2336913	USD	8,604.00
<b>Advance drive</b>				
Equipment of the machine with precision steering. Pushbuttons on the multi-function armrests with a proportional response permit more precise steering of the machine.	Standard	2478488	USD	0.00
<b>Equipment operator's platform</b>				
Operator's platform with weather canopy. The weather canopy is hydraulically adjustable in height and provides additional comfort during on-site operation. Including LED working light for illuminating the footstep. (Only in conjunction with electrohydraulic unit.)	Option	2336173	USD	8,496.00
<b>Milling drum assembly options</b>				
Active floating position on the side plate right and left by continuous comparison between the milling depth and position of the side plate. If required, the side plate is lifted briefly to prevent tilting or sinking into a soft sub-base. (Only possible in conjunction with LEVEL PRO PLUS.)	Standard	2478486	USD	0.00
<b>Additional milling units</b>				
FCS tandem scraper FB1200 (3 ft 11 in) with necessary hydraulic and electrical systems. For the use of milling drums smaller than FB1200 (3 ft 11 in). The min. milling width for material loading onto the loading belt is FB750	Standard	2351465	USD	0.00
FCS milling unit FB300 (12") LA15, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 61 RS picks, including scraper bottom part FB300 (12")	Option	2308611	USD	15,607.00
FCS milling unit FB600 (24") LA12, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 79 picks, including scraper bottom part FB600 (24")	Option	2308615	USD	25,243.00
FCS milling unit FB900 (2 ft 11 in) LA15, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 102 RS picks, including scraper bottom part FB900 (2 ft 11 in)	Option	2308616	USD	39,452.00
<b>Cold-start device</b>				
Electrical preheating of the fuel filter to maintain the flow of fuel at low outside temperatures. Serves to guarantee machine operation at temperatures below 0 32 degrees Fahrenheit (0 degrees Celsius).	Option	2377357	USD	774.00

<b>Options for belt conveyor</b>				
Signal lights for visual "stop" and "go" instructions for the truck driver without the use of a horn. The signal lights can be folded in hydraulically from the operator's platform.	Option	2409818	USD	6,664.00
<b>Leveling</b>				
Expansion of the LEVEL PRO PLUS leveling system by a SONIC SKI sensor. Ideal for contact-free wire and soil scanning. Including connection cable and holder.	Option	2352878	USD	5,971.00
<b>Leveling</b>				
Expansion of the leveling system for multiplex system package 3-way right, including 2 x ultrasonic sensors, and connection cable. (FB1000/1200)	Option	2544246	USD	4,275.00
Expansion of the leveling system to make multiplex system package 3-way right and 3-way left, including 4 x ultrasonic sensors and connection cable. (FB1000/1200)	Option	2544249	USD	8,550.00
<b>Attachments</b>				
Battery-operated electro-hydraulic unit for operation of the machine hydraulics with the diesel engine switched off. (e.g. height adjustment of weather canopy, milling drum rotation device and hydraulic pick extractor drift)	Standard	2412494	USD	0.00
<b>Water system</b>				
Hydraulically operated high-pressure water cleaner with a maximum performance of 15 l/min at 150 bar pressure. Ideal for daily cleaning of the machine.	Option	2336231	USD	4,071.00
<b>Pick changing aids</b>				
Milling drum rotation device with electrohydraulic milling drum drive for slowly turning the milling drum during pick replacement.	Standard	2352893	USD	0.00
<b>Wirtgen information and diagnostic system</b>				
Equipment of the machine with job data acquisition. The information is shown in the control display.	Standard	2410294	USD	0.00
<b>Camera system</b>				
Monitor system as maneuvering aid with 2 cameras and screen. A camera is mounted on the discharge conveyor and displays the loading of the truck. The 2nd camera shows the area in front of the milling drum housing. The camera images are displayed on the screen.	Option	2487637	USD	5,727.00
<b>Other devices</b>				
License plate holder with LED lighting to comply with country-specific regulations.	Option	2659037	USD	461.00
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	Option		USD	81.00
Spare part and application documentation English (EN)	Option		USD	14.00

<b>Equipment operator's platform</b>				
Operator's platform with weather canopy. The weather canopy is hydraulically adjustable in height and provides additional comfort during on-site operation. Including LED working light for illuminating the footstep. (Only in conjunction with electrohydraulic unit.)	Option	2336173	USD	8,496.00
<b>Milling drum assembly options</b>				
Active floating position on the side plate right and left by continuous comparison between the milling depth and position of the side plate. If required, the side plate is lifted briefly to prevent tilting or sinking into a soft sub-base. (Only possible in conjunction with LEVEL PRO PLUS.)	Standard	2478486	USD	0.00
<b>Cold-start device</b>				
Electrical preheating of the fuel filter to maintain the flow of fuel at low outside temperatures. Serves to guarantee machine operation at temperatures below 0 32 degrees Fahrenheit (0 degrees Celsius).	Option	2377357	USD	774.00
<b>Options for belt conveyor</b>				
Signal lights for visual "stop" and "go" instructions for the truck driver without the use of a horn. The signal lights can be folded in hydraulically from the operator's platform.	Option	2409818	USD	6,664.00
<b>Leveling</b>				
Expansion of the LEVEL PRO PLUS leveling system by a SONIC SKI sensor. Ideal for contact-free wire and soil scanning. Including connection cable and holder.	Option	2352878	USD	5,971.00
<b>Leveling</b>				
Expansion of the leveling system for multiplex system package 3-way right, including 2 x ultrasonic sensors, and connection cable. (FB1000/1200)	Option	2544246	USD	4,275.00
Expansion of the leveling system to make multiplex system package 3-way right and 3-way left, including 4 x ultrasonic sensors and connection cable. (FB1000/1200)	Option	2544249	USD	8,550.00
<b>Attachments</b>				
Battery-operated electro-hydraulic unit for operation of the machine hydraulics with the diesel engine switched off. (e.g. height adjustment of weather canopy, milling drum rotation device and hydraulic pick extractor drift)	Standard	2412494	USD	0.00
<b>Water system</b>				
Hydraulically operated high-pressure water cleaner with a maximum performance of 15 l/min at 150 bar pressure. Ideal for daily cleaning of the machine.	Option	2336231	USD	4,071.00

<b>Pick changing aids</b>				
Milling drum rotation device with electrohydraulic milling drum drive for slowly turning the milling drum during pick replacement.	Standard	2352893	USD	0.00
<b>Wirtgen information and diagnostic system</b>				
Equipment of the machine with job data acquisition. The information is shown in the control display.	Standard	2410294	USD	0.00
<b>Camera system</b>				
Monitor system as maneuvering aid with 2 cameras and screen. A camera is mounted on the discharge conveyor and displays the loading of the truck. The 2nd camera shows the area in front of the milling drum housing. The camera images are displayed on the screen.	Option	2487637	USD	5,727.00
<b>Other devices</b>				
License plate holder with LED lighting to comply with country-specific regulations.	Option	2659037	USD	461.00
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	Option		USD	81.00
Spare part and application documentation English (EN)	Option		USD	14.00

## Price list

### W 120 XT<sub>i</sub>

#### Scope of supply – basic machine

- Engine: 6-CYLINDER DIESEL ENGINE TYPE CUMMINS QSL9 C-300
- Rated engine power 2100 r.p.m.: 248 kW / 333 HP / 337 PS
- Maximum power at 1900 r.p.m.: 257 kW / 345 HP / 350 PS
- Exhaust standard: EU Stage 4 / US EPA Tier 4f
- Standard milling width: 3 ft 11 in / 1200 mm
- Theoretical milling depth: 1 ft 1 in / 330 mm

#### STANDARD EQUIPMENT

- Base machine with engine
- Mechanically opening engine hood with noise insulation
- Radiator with temperature-dependent fan speed
- Highly effective noise insulation throughout the engine compartment
- Automatic engine speed adjustment depending on machine load

#### MILLING DRUM HOUSING

- The right-hand side of the milling drum housing can be easily opened for maintenance or drum change
- Hydraulically operated rear scraper with mechanical locking

#### LOADING OF MILLED MATERIAL

- Discharge conveyor swing angle: 60 degrees left – 60 degrees right
- Hydraulically foldable discharge conveyor with two swing speeds, including adjustable conveyor speed for precise loading

#### MACHINE CONTROL AND LEVELLING SYSTEM

- Digital milling depth indicator on machine control panel
- LEVEL PRO PLUS leveling system right and left
- RAPID SLOPE cross-slope sensor for LEVEL PRO ACTIVE leveling system
- Precise machine height adjustment in increments of 1 or 5 mm via the machine's main control panel
- Digital load control, can be engaged manually, hydraulic differential lock (via flow divider)

#### OPERATOR'S PLATFORM

- Hydraulically extendable operator's platform for optimum view of the working area
- Slender machine design permits unobstructed view of the milled edge as well as the working area in front of the milling drum on the right
- Mirror package consisting of front left and right rear-view mirrors and a forward-facing mirror to the left of the operator's platform
- Reversing horn with clearly audible signal
- Scraper height indicator on control panel

#### TRACK UNIT AND HEIGHT ADJUSTMENT

- Dual-speed hydraulic height adjustment of front and rear track units

#### MISCELLANEOUS

- Large tool package
- Towing device
- Comprehensive safety package with several EMERGENCY STOP switches
- European type certification, EuroTest mark and CE conformity

List price ex subsidiary Wirtgen America

526,829.00

Mandatory Options				
<b>Crawler units</b>				
Configuration with 4 driven track units. The two front track units are steered. The track unit at the rear right is hydraulically slewing and also steers. Traveling speed max. 3.6 mph / 5.8 km/h.	Standard	2777141	USD	0.00
<b>Milling drum housing</b>				
Wear-resistant milling drum housing FB1200 (3 ft 11 in) without milling drum	Standard	2336167	USD	0.00
<b>Milling drums / milling units</b>				
Milling drum with milling width 1200 mm / 3 ft / 11 in, tool spacing 15 mm / 19/32 in, equipped with quick-change toolholder system HT22 and 115 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.	Standard	2308578	USD	0.00
<b>OPERATOR'S PLATFORM</b>				
Standard operator's seat with shock absorption and lengthways adjustment	Standard	2412488	USD	0.00
Comfort operator's seat incl. seat heating. The operator's seat has shock absorption, lengthways adjustment and can be swiveled through a total of 50 degrees.	Option	2412489	USD	1,208.00
<b>Hydraulic connection</b>				
Machine with hydraulic pre-fitting for a discharge conveyor with screw coupling. Each contains the coupling element on the machine side and the discharge conveyor side.	Standard	2412477	USD	0.00
<b>Material transport</b>				
Discharge conveyor 26 ft 9 in / 8,150 mm long with conveyor belt width 2 ft / 600 mm and hydraulic folding device for shortening the transport length or simplified maneuvering in narrow fields.	Standard	2336175	USD	0.00
<b>Paint</b>				
Film coating in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7019	Standard	2763472	USD	0.00
The film coating is applied in RAL colors and design according to the customer's wishes. Film coating provides protection against mechanical and weather-related damage and can be removed without leaving any marks, if required	Option	2763473	USD	855.00

<b>Technical documentation</b>				
Technical documentation - North America country version (US)	<b>Standard</b>	<b>2456347</b>	<b>USD</b>	<b>0.00</b>
<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	<b>Standard</b>	<b>2770403</b>	<b>USD</b>	<b>0.00</b>
<b>Machine lighting</b>				
Lighting system consisting of 4 halogen and 8 LED working lights. The headlights illuminate the area in front of the machine, both machine sides, the area in front of the milling drum unit, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 19,500 lumen in total.	<b>Standard</b>	<b>2487614</b>	<b>USD</b>	<b>0.00</b>
High-performance lighting system consisting of 1 halogen and 14 LED working lights. The headlights illuminate the area in front of and behind the machine, both machine sides, the area in front of the milling drum unit, the loading area, the weather canopy, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 26,300 lumen in total. LED working lights are extremely bright, shock-resistant and durable.	<b>Option</b>	<b>2487615</b>	<b>USD</b>	<b>977.00</b>
<b>Equipment Options</b>				
<b>Exhaust air filter</b>				
VCS – vacuum cutting system on the discharge conveyor for the extraction of fine material particles and water vapor from the sealed milling drum unit.	<b>Option</b>	<b>2336913</b>	<b>USD</b>	<b>8,604.00</b>
<b>Advance drive</b>				
Equipment of the machine with precision steering. Pushbuttons on the multi-function armrests with a proportional response permit more precise steering of the machine.	<b>Option</b>	<b>2478488</b>	<b>USD</b>	<b>1,791.00</b>

<b>Equipment operator's platform</b>				
Operator's platform with weather canopy. The weather canopy is hydraulically adjustable in height and provides additional comfort during on-site operation. Including LED working light for illuminating the footstep. (Only in conjunction with electrohydraulic unit.)	Option	2336173	USD	8,496.00
<b>Milling drum assembly options</b>				
Active floating position on the side plate right and left by continuous comparison between the milling depth and position of the side plate. If required, the side plate is lifted briefly to prevent tilting or sinking into a soft sub-base. (Only possible in conjunction with LEVEL PRO PLUS.)	Standard	2478486	USD	0.00
<b>Cold-start device</b>				
Electrical preheating of the fuel filter to maintain the flow of fuel at low outside temperatures. Serves to guarantee machine operation at temperatures below 0 32 degrees Fahrenheit (0 degrees Celsius).	Option	2377357	USD	774.00
<b>Options for belt conveyor</b>				
Signal lights for visual "stop" and "go" instructions for the truck driver without the use of a horn. The signal lights can be folded in hydraulically from the operator's platform.	Option	2409818	USD	6,664.00
<b>Leveling</b>				
Expansion of the LEVEL PRO PLUS leveling system by a SONIC SKI sensor. Ideal for contact-free wire and soil scanning. Including connection cable and holder.	Option	2352878	USD	5,971.00
<b>Leveling</b>				
Expansion of the leveling system for multiplex system package 3-way right, including 2 x ultrasonic sensors, and connection cable. (FB1000/1200)	Option	2544246	USD	4,275.00
Expansion of the leveling system to make multiplex system package 3-way right and 3-way left, including 4 x ultrasonic sensors and connection cable. (FB1000/1200)	Option	2544249	USD	8,550.00
<b>Attachments</b>				
Battery-operated electro-hydraulic unit for operation of the machine hydraulics with the diesel engine switched off. (e.g. height adjustment of weather canopy, milling drum rotation device and hydraulic pick extractor drift)	Option	2412494	USD	3,515.00
<b>Water system</b>				
Hydraulically operated high-pressure water cleaner with a maximum performance of 15 l/min at 150 bar pressure. Ideal for daily cleaning of the machine.	Option	2336231	USD	4,071.00

<b>Pick changing aids</b>				
Integrated air compressor system with pressure accumulator and filling points. Precondition for operation of compressed air tools (e.g. pneumatic hammers).	<b>Option</b>	<b>2353106</b>	<b>USD</b>	<b>6,474.00</b>
Hydraulically driven pick extractor drift, complete with holder and corresponding electrical and hydraulic connectors. Ideal for convenient and quiet pick change.	<b>Option</b>	<b>2352889</b>	<b>USD</b>	<b>3,610.00</b>
Milling drum rotation device with electrohydraulic milling drum drive for slowly turning the milling drum during pick replacement.	<b>Option</b>	<b>2352893</b>	<b>USD</b>	<b>3,515.00</b>
<b>Wirtgen information and diagnostic system</b>				
Equipment of the machine with job data acquisition. The information is shown in the control display.	<b>Option</b>	<b>2410294</b>	<b>USD</b>	<b>1,154.00</b>
<b>Camera system</b>				
Monitor system as maneuvering aid with 2 cameras and screen. A camera is mounted on the discharge conveyor and displays the loading of the truck. The 2nd camera shows the area in front of the milling drum housing. The camera images are displayed on the screen.	<b>Option</b>	<b>2487637</b>	<b>USD</b>	<b>5,727.00</b>
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	<b>Option</b>		<b>USD</b>	<b>81.00</b>

##### Milling drums / milling units

Milling drum with milling width 1300 / 4 ft / 3 in, tool spacing 15 mm / 19/32 in, equipped with quick-change toolholder system HT22 and 121 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.	<b>Standard</b>	<b>2308581</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

##### OPERATOR'S PLATFORM

Standard operator's seat with shock absorption and lengthways adjustment	<b>Standard</b>	<b>2412488</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

##### Hydraulic connection

Machine with hydraulic pre-fitting for a discharge conveyor with screw coupling. Each contains the coupling element on the machine side and the discharge conveyor side.	<b>Standard</b>	<b>2412477</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

##### Material transport

Discharge conveyor 26 ft 9 in / 8,150 mm long with conveyor belt width 2 ft / 600 mm and hydraulic folding device for shortening the transport length or simplified maneuvering in narrow fields.	<b>Standard</b>	<b>2336175</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

##### Paint

Painting in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7015.	<b>Standard</b>	<b>2863418</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

Film coating in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7019	<b>Option</b>	<b>2863419</b>	<b>USD</b>	<b>2,456.00</b>
The film coating is applied in RAL colors and design according to the customer's wishes. Film coating provides protection against mechanical and weather-related damage and can be removed without leaving any marks, if required	<b>Option</b>	<b>2863420</b>	<b>USD</b>	<b>3,298.00</b>
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	<b>Standard</b>	<b>2456347</b>	<b>USD</b>	<b>0.00</b>
<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	<b>Standard</b>	<b>2770403</b>	<b>USD</b>	<b>0.00</b>
<b>Machine lighting</b>				
Lighting system consisting of 4 halogen and 8 LED working lights. The headlights illuminate the area in front of the machine, both machine sides, the area in front of the milling drum unit, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 19,500 lumen in total.	<b>Standard</b>	<b>2487614</b>	<b>USD</b>	<b>0.00</b>
High-performance lighting system consisting of 1 halogen and 14 LED working lights. The headlights illuminate the area in front of and behind the machine, both machine sides, the area in front of the milling drum unit, the loading area, the weather canopy, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 26,300 lumen in total. LED working lights are extremely bright, shock-resistant and durable.	<b>Option</b>	<b>2487615</b>	<b>USD</b>	<b>977.00</b>
<b>Equipment Options</b>				
<b>Exhaust air filter</b>				
VCS – vacuum cutting system on the discharge conveyor for the extraction of fine material particles and water vapor from the sealed milling drum unit.	<b>Option</b>	<b>2336913</b>	<b>USD</b>	<b>8,604.00</b>
<b>Advance drive</b>				
Equipment of the machine with precision steering. Pushbuttons on the multi-function armrests with a proportional response permit more precise steering of the machine.	<b>Standard</b>	<b>2478488</b>	<b>USD</b>	<b>0.00</b>

<b>Equipment operator's platform</b>				
Operator's platform with weather canopy. The weather canopy is hydraulically adjustable in height and provides additional comfort during on-site operation. Including LED working light for illuminating the footstep. (Only in conjunction with electrohydraulic unit.)	Option	2336173	USD	8,496.00
<b>Milling drum assembly options</b>				
Active floating position on the side plate right and left by continuous comparison between the milling depth and position of the side plate. If required, the side plate is lifted briefly to prevent tilting or sinking into a soft sub-base. (Only possible in conjunction with LEVEL PRO PLUS.)	Standard	2478486	USD	0.00
<b>Cold-start device</b>				
Electrical preheating of the fuel filter to maintain the flow of fuel at low outside temperatures. Serves to guarantee machine operation at temperatures below 0 32 degrees Fahrenheit (0 degrees Celsius).	Option	2377357	USD	774.00
<b>Options for belt conveyor</b>				
Signal lights for visual "stop" and "go" instructions for the truck driver without the use of a horn. The signal lights can be folded in hydraulically from the operator's platform.	Option	2409818	USD	6,664.00
<b>Leveling</b>				
Expansion of the LEVEL PRO PLUS leveling system by a SONIC SKI sensor. Ideal for contact-free wire and soil scanning. Including connection cable and holder.	Option	2352878	USD	5,971.00
<b>Leveling</b>				
Expansion of the leveling system for multiplex system package 3-way right, including 2 x ultrasonic sensors, and connection cable. (FB1000/1200)	Option	2544246	USD	4,275.00
Expansion of the leveling system to make multiplex system package 3-way right and 3-way left, including 4 x ultrasonic sensors and connection cable. (FB1000/1200)	Option	2544249	USD	8,550.00
<b>Attachments</b>				
Battery-operated electro-hydraulic unit for operation of the machine hydraulics with the diesel engine switched off. (e.g. height adjustment of weather canopy, milling drum rotation device and hydraulic pick extractor drift)	Standard	2412494	USD	0.00

<b>Water system</b>				
Hydraulically operated high-pressure water cleaner with a maximum performance of 15 l/min at 150 bar pressure. Ideal for daily cleaning of the machine.	Option	2336231	USD	4,071.00
<b>Pick changing aids</b>				
Milling drum rotation device with electrohydraulic milling drum drive for slowly turning the milling drum during pick replacement.	Standard	2352893	USD	0.00
<b>Wirtgen information and diagnostic system</b>				
Equipment of the machine with job data acquisition. The information is shown in the control display.	Standard	2410294	USD	0.00
<b>Camera system</b>				
Monitor system as maneuvering aid with 2 cameras and screen. A camera is mounted on the discharge conveyor and displays the loading of the truck. The 2nd camera shows the area in front of the milling drum housing. The camera images are displayed on the screen.	Option	2487637	USD	5,727.00
<b>Other devices</b>				
License plate holder with LED lighting to comply with country-specific regulations.	Option	2659037	USD	461.00
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	Option		USD	81.00
Spare part and application documentation English (EN)	Option		USD	14.00

## Price list

### W 150 Xfi - 1200mm

#### Scope of supply – basic machine

- Engine: 6-CYLINDER DIESEL ENGINE: CUMMINS QSL 9 C-380 AG4f
- Rated engine power 2100 r.p.m.: 283 kW / 380 HP / 385 PS
- Maximum power at 1900 r.p.m.: 298 kW / 400 HP / 405 PS
- Exhaust standard: US EPA Tier 4f
- Standard milling width: 4ft 11 in / 1,500 mm
- Theoretical milling depth: 1 ft 1 in / 330 mm

#### STANDARD EQUIPMENT

- Base machine with engine
- Machine chassis with wasp waist on the right side (zero edge)
- Electrohydraulically opening engine cowling
- Radiator with temperature-dependent fan speed
- Additional control switch for scraper blade, bottom right
- Elastically mounted engine station with low vibration and low noise
- Three milling drum rotation speeds with electric on/off function 106 r.p.m. - 96 r.p.m. - 86 r.p.m.
- Air compressor system

#### MILLING DRUM HOUSING

- The right-hand side of the milling drum housing can be easily opened for maintenance or drum change
- Hydraulic material depressor with conveyor lifting function
- Hydraulically opening scraper plate with convenience locking
- Exchangeable wearing segments on the side plate

#### LOADING OF MILLED MATERIAL

- Discharge conveyor slewing angle left 60 degrees - right 60 degrees
- Hydraulically foldable discharge conveyor with two swing speeds, including adjustable conveyor speed for precise loading

#### MACHINE CONTROL AND LEVELLING SYSTEM

- LEVEL PRO PLUS leveling system right and left
- RAPID SLOPE cross-slope sensor for LEVEL PRO ACTIVE leveling system
- Jog mode for height adjustment
- Load-dependent advance control
- 4-track drive with manually activated, electronic anti-slip control
- 4 selectable steering modes
- Automatic water management
- Automatic engine speed control

#### OPERATOR'S PLATFORM

- Convenient control panel with practical switches
- Multi-function armrest including color operating display for one-handed operation of most machine functions.
- Digital multi-function display for all important operating conditions
- Scraper height indicator on control panel
- Operating panel nighttime lighting
- Robust anti-vandalism protection for the controls
- Adjustable steering wheel position
- Optimally positionable operator's seat

- Footstep right and left with conveniently folding ladder
- Two mirrors front, one mirror middle and one mirror in rear area of the machine

#### TRACK UNIT AND HEIGHT ADJUSTMENT

- Fourfold full-floating axle for high machine stability
- PTS – automatic alignment of the machine parallel to the pavement surface
- ISC – intelligent track speed control including hydraulic four-track drive
- Reversing with the milling drum rotating. Simple and fast maneuvering
- Equipped with extremely wear-resistant 2-piece polyurethane track pads

#### MISCELLANEOUS

- Large tool package
- Generously sized water and diesel tanks
- Total of 3 EMERGENCY STOP switches at sensible positions on the machine
- "Welcome" and "Go home" lights feature including LED lighting in the area of the operator's platform and access
- Pre-fitting for installing the WITOS FleetView control unit
- European type certification, EuroTest mark and CE conformity

<b>List price ex subsidiary Wirtgen America</b>	<b>USD</b>	<b>640,761.00</b>
---	------------	-------------------

#### Mandatory Options

##### Milling drum housing

Wear-resistant milling drum housing FB1500 (4 ft 11 in), with pre-fitting enabling a quick and easy change of the milling drums with varying spacings and milling widths, without milling drum.	<b>Standard</b>	<b>2400857</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

##### Milling drums / milling units

FCS milling unit FB1200 (3 ft 11 in) LA15, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 109 picks, including scraper bottom part FB1200 (3 ft 11 in)	<b>Standard</b>	<b>2409827</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

##### OPERATOR'S PLATFORM

Standard operator's seat with shock absorption and lengthways adjustment	<b>Standard</b>	<b>2412488</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

##### Hydraulic connection

Machine with hydraulic pre-fitting for a discharge conveyor with screw coupling. Each contains the coupling element on the machine side and the discharge conveyor side.	<b>Standard</b>	<b>2412477</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

##### Material transport

Discharge conveyor 26 ft 9 in / 8,150 mm long with conveyor belt width 2 ft / 600 mm and hydraulic folding device for shortening the transport length or simplified maneuvering in narrow fields.	<b>Standard</b>	<b>2336175</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

<b>Paint</b>				
Painting in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7015.	Standard	2863423	USD	0.00
Film coating in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7019	Option	2863424	USD	2,456.00
The film coating is applied in RAL colors and design according to the customer's wishes. Film coating provides protection against mechanical and weather-related damage and can be removed without leaving any marks, if required	Option	2863426	USD	3,298.00
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	Standard	2456347	USD	0.00
<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	Standard	2770403	USD	0.00
<b>Machine lighting</b>				
Lighting system consisting of 8 halogen and 6 LED working lights. The headlights illuminate the area in front of and behind the machine, both machine sides, the area in front of the milling drum unit and on the chassis unit, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 21,100 lumens in total.	Standard	2450350	USD	0.00
High-performance lighting system consisting of 1 halogen and 17 LED working lights. The headlights illuminate the area in front of and behind the machine, both machine sides, the area in front of the milling drum unit and on the chassis unit, the area of the wasp waist, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 29,900 lumens in total. LED working lights are extremely bright, shock-resistant and durable.	Option	2450351	USD	2,185.00

<b>Additional devices</b>				
Battery-operated electrohydraulic unit. Weather canopy and engine cover can be lifted with the hydraulic unit.	Standard	2400778	USD	0.00
Battery-operated electrohydraulic unit for milling drum rotation device and hydraulic pick ejector. Weather canopy and engine cover can be lifted with the hydraulic unit. Furthermore, emergency functions such as raising the crawler units, releasing the parking brake, and other cylinder functions can be operated even when the engine is switched off.	Option	2400779	USD	1,805.00
<b>Equipment Options</b>				
<b>Exhaust air filter</b>				
VCS – vacuum cutting system on the discharge conveyor for the extraction of fine material particles and water vapor from the sealed milling drum unit.	Option	2441379	USD	8,604.00
<b>Advance drive</b>				
Equipment of the machine with precision steering. Pushbuttons on the multi-function armrests with a proportional response permit more precise steering of the machine.	Standard	2400798	USD	0.00
<b>Equipment operator's platform</b>				
Operator's platform equipped with weather canopy as well as windscreen and rear window. The side parts of the roof shell can be pulled out and the windows are movable. The complete roof can be folded in electro-hydraulically using a battery operated hydraulic pump for simplified machine transport. In addition, operation with a hand pump is possible. The operator's seat is surrounded by impact and abrasion-resistant Plexiglas panels.	Option	2400795	USD	13,721.00
Additional control unit for ground operation of the machine. Enables the ground crew to control important machine functions on the left side of the machine additionally.	Standard	2400803	USD	0.00
Heating with fan and air outlet openings in the footwell of the operator's platform.	Option	2400791	USD	1,357.00
<b>Milling drum assembly options</b>				
Overload sensor on the scraper for automatic lifting function in case of obstacles. Effectively prevents the scraper from sinking into the loose sub-base, as well as getting stuck on obstacles.	Standard	2483584	USD	0.00
<b>Device for milling drum change</b>				
Milling drum assembly trolley for milling drums up to FB1500 (4 ft 11 in), for straightforward milling drum change	Option	2125929	USD	5,266.00
<b>Additional milling units</b>				
FCS milling unit FB600 (24") LA12, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 79 picks, including scraper bottom part FB600 (24")	Option	2417852	USD	27,536.00
FCS milling unit FB900 (2 ft 11 in) LA15, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 102 RS picks, including scraper bottom part FB900 (2 ft 11 in)	Option	2417854	USD	32,571.00

FCS milling unit FB1200 (3 ft 11 in) LA15, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 109 picks, including scraper bottom part FB1200 (3 ft 11 in)	Option	2409827	USD	37,769.00
<b>Cold-start device</b>				
Electrical preheating of the fuel filter to maintain the flow of fuel at low outside temperatures. Serves to guarantee machine operation at temperatures below 0 32 degrees Fahrenheit (0 degrees Celsius).	Option	2400772	USD	774.00
<b>Options for belt conveyor</b>				
Signal lights for visual "stop" and "go" instructions for the truck driver without the use of a horn. The signal lights can be folded in hydraulically from the operator's platform.	Option	2458620	USD	6,664.00
<b>Leveling</b>				
Expansion of the LEVEL PRO PLUS leveling system by a SONIC SKI sensor. Ideal for contact-free wire and soil scanning. Including connection cable and holder.	Option	2410276	USD	5,890.00
<b>Leveling</b>				
Expansion of the leveling system for scanning the surface in front of the milling drum unit. A ski in a mobile mounting scans the height using a position measuring system. The surface shortly ahead of the milling drum unit can thus be taken as a reference if scanning using the side plate is not possible. The scanning can be hydraulically activated from the operator's seat.	Standard	2400801	USD	0.00
<b>Additional control unit LEVEL PRO</b>				
Expansion LEVEL PRO PLUS with an additional operating display, including required connection cable and holder.	Option	2400802	USD	2,891.00
<b>Leveling</b>				
Multiplex pre-fitting comprising 4 sensor sockets and holder for expanding the leveling system with one or two multiplex systems. Permits trouble-free connection of at most 2 multiplex sensors per machine side at a later point.	Option	2459795	USD	1,425.00
Expansion of the leveling system for multiplex system package 3-way right, including 2 x ultrasonic sensors, and connection cable.	Option	2410282	USD	3,800.00
Expansion of the leveling system to make multiplex system package 3-way right and 3-way left, including 4 x ultrasonic sensors and connection cable.	Option	2410283	USD	7,600.00
<b>Water system</b>				
Hydraulically operated high-pressure water cleaner with a maximum performance of 15 l/min / 3 gall 8 pt/min at 150 bar / 2175 psi pressure. Ideal for daily cleaning of the machine, including high pressure lance and 15 m / 50 ft hose.	Option	2438190	USD	2,538.00

<b>Pick changing aids</b>				
Milling drum rotation device with electrohydraulic milling drum drive for slowly turning the milling drum during pick replacement.	Option	2410287	USD	3,054.00
Pneumatic hammer with two pick extractor and inserter tools each as well as 5 m / 16 ft 5 in hose and holder.	Standard	2400775	USD	0.00
Additional folding seat on the rear right chassis unit for additional comfort during the pick change. The entire milling drum can easily be reached from a sitting position.	Option	2411373	USD	977.00
<b>Wirtgen information and diagnostic system</b>				
The actual milling depth is measured by a differential method between sensors on the side plate and sensors on the scraper. The actual milling depth is displayed in the Info menu of the LEVEL PRO PLUS display.	Option	2410291	USD	1,059.00
Equipment of the machine with job data acquisition. The information is shown in the control display.	Option	2410294	USD	1,154.00
<b>Camera system</b>				
Monitor system as maneuvering aid with 2 cameras and screen. Each of these shows the area behind the machine as well as the area at the discharge conveyor.	Standard	2410296	USD	0.00
Monitor system as maneuvering aid with 5 cameras and 2 displays. The cameras show the area behind the machine, the area in front of the loading conveyor, the side plate, the track unit at the front left, the left milled edge, the left side of the machine and the milled surface behind the milling drum unit. 2 additional LED lamps illuminate the camera area and are included in the scope of supply.	In lieu of 2410296	2410297	USD	7,288.00
<b>Other devices</b>				
License plate holder with LED lighting to comply with country-specific regulations.	Option	2659026	USD	461.00
<b>Other devices</b>				
Large sized storage compartment for 10 pick containers on the rear of the machine instead of the standard storage compartment.	Option	2409814	USD	1,086.00
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	Option		USD	81.00
Spare part and application documentation English (EN)	Option		USD	14.00
Date: 11/23/2020				

**Price list****W 150 Xfi - 1500mm****Scope of supply – basic machine**

- Engine: 6-CYLINDER DIESEL ENGINE: CUMMINS QSL 9 C-380 AG4f

<b>Equipment Options</b>				
<b>Exhaust air filter</b>				
VCS – vacuum cutting system on the discharge conveyor for the extraction of fine material particles and water vapor from the sealed milling drum unit.	<b>Option</b>	<b>2441379</b>	<b>USD</b>	<b>8,604.00</b>
<b>Advance drive</b>				
Equipment of the machine with precision steering. Pushbuttons on the multi-function armrests with a proportional response permit more precise steering of the machine.	<b>Standard</b>	<b>2400798</b>	<b>USD</b>	<b>0.00</b>
<b>Equipment operator's platform</b>				
Operator's platform equipped with weather canopy as well as windscreen and rear window. The side parts of the roof shell can be pulled out and the windows are movable. The complete roof can be folded in electro-hydraulically using a battery operated hydraulic pump for simplified machine transport. In addition, operation with a hand pump is possible. The operator's seat is surrounded by impact and abrasion-resistant Plexiglas panels.	<b>Option</b>	<b>2400795</b>	<b>USD</b>	<b>13,721.00</b>
Additional control unit for ground operation of the machine. Enables the ground crew to control important machine functions on the left side of the machine additionally.	<b>Standard</b>	<b>2400803</b>	<b>USD</b>	<b>0.00</b>
Heating with fan and air outlet openings in the footwell of the operator's platform.	<b>Option</b>	<b>2400791</b>	<b>USD</b>	<b>1,357.00</b>

<b>Milling drum assembly options</b>				
Overload sensor on the scraper for automatic lifting function in case of obstacles. Effectively prevents the scraper from sinking into the loose sub-base, as well as getting stuck on obstacles.	<b>Standard</b>	<b>2483584</b>	<b>USD</b>	<b>0.00</b>
Active floating position on the side plate right and left by continuous comparison between the milling depth and position of the side plate. If required, the side plate is lifted briefly to prevent tilting or sinking into a soft sub-base. (Only possible in conjunction with LEVEL PRO PLUS.)	<b>Option</b>	<b>2478486</b>	<b>USD</b>	<b>1,737.00</b>
<b>Device for milling drum change</b>				
Milling drum assembly trolley for milling drums up to FB1500 (4 ft 11 in), for straightforward milling drum change	<b>Option</b>	<b>2125929</b>	<b>USD</b>	<b>5,266.00</b>
<b>Additional milling units</b>				
FCS milling unit FB600 (24") LA12, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 79 picks, including scraper bottom part FB600 (24")	<b>Option</b>	<b>2417852</b>	<b>USD</b>	<b>27,536.00</b>
FCS milling unit FB900 (2 ft 11 in) LA15, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 102 RS picks, including scraper bottom part FB900 (2 ft 11 in)	<b>Option</b>	<b>2417854</b>	<b>USD</b>	<b>32,571.00</b>
FCS milling unit FB1200 (3 ft 11 in) LA15, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 109 picks, including scraper bottom part FB1200 (3 ft 11 in)	<b>Option</b>	<b>2409827</b>	<b>USD</b>	<b>37,769.00</b>
<b>Cold-start device</b>				
Electrical preheating of the fuel filter to maintain the flow of fuel at low outside temperatures. Serves to guarantee machine operation at temperatures below 0 32 degrees Fahrenheit (0 degrees Celsius).	<b>Option</b>	<b>2400772</b>	<b>USD</b>	<b>774.00</b>
<b>Options for belt conveyor</b>				
Signal lights for visual "stop" and "go" instructions for the truck driver without the use of a horn. The signal lights can be folded in hydraulically from the operator's platform.	<b>Option</b>	<b>2458620</b>	<b>USD</b>	<b>6,664.00</b>

<b>Leveling</b>				
Expansion of the LEVEL PRO PLUS leveling system by a SONIC SKI sensor. Ideal for contact-free wire and soil scanning. Including connection cable and holder.	Option	2410276	USD	5,890.00
<b>Leveling</b>				
Expansion of the leveling system for scanning the surface in front of the milling drum unit. A ski in a mobile mounting scans the height using a position measuring system. The surface shortly ahead of the milling drum unit can thus be taken as a reference if scanning using the side plate is not possible. The scanning can be hydraulically activated from the operator's seat.	Standard	2400801	USD	0.00
<b>Additional control unit LEVEL PRO</b>				
Expansion LEVEL PRO PLUS with an additional operating display, including required connection cable and holder.	Option	2400802	USD	2,891.00
<b>Leveling</b>				
Multiplex pre-fitting comprising 4 sensor sockets and holder for expanding the leveling system with one or two multiplex systems. Permits trouble-free connection of at most 2 multiplex sensors per machine side at a later point.	Option	2459795	USD	1,425.00
Expansion of the leveling system for multiplex system package 3-way right, including 2 x ultrasonic sensors, and connection cable.	Option	2410282	USD	3,800.00
Expansion of the leveling system to make multiplex system package 3-way right and 3-way left, including 4 x ultrasonic sensors and connection cable.	Option	2410283	USD	7,600.00
<b>Water system</b>				
Hydraulically operated high-pressure water cleaner with a maximum performance of 15 l/min / 3 gall 8 pt/min at 150 bar / 2175 psi pressure. Ideal for daily cleaning of the machine, including high pressure lance and 15 m / 50 ft hose.	Option	2438190	USD	2,538.00
<b>Pick changing aids</b>				
Milling drum rotation device with electrohydraulic milling drum drive for slowly turning the milling drum during pick replacement.	Option	2410287	USD	3,054.00
Pneumatic hammer with two pick extractor and inserter tools each as well as 5 m / 16 ft 5 in hose and holder.	Standard	2400775	USD	0.00
Additional folding seat on the rear right chassis unit for additional comfort during the pick change. The entire milling drum can easily be reached from a sitting position.	Option	2411373	USD	977.00

<b>Wirtgen information and diagnostic system</b>				
The actual milling depth is measured by a differential method between sensors on the side plate and sensors on the scraper. The actual milling depth is displayed in the Info menu of the LEVEL PRO PLUS display.	<b>Option</b>	<b>2410291</b>	<b>USD</b>	<b>1,059.00</b>
Equipment of the machine with job data acquisition. The information is shown in the control display.	<b>Option</b>	<b>2410294</b>	<b>USD</b>	<b>1,154.00</b>
<b>Camera system</b>				
Monitor system as maneuvering aid with 2 cameras and screen. Each of these shows the area behind the machine as well as the area at the discharge conveyor.	<b>Standard</b>	<b>2410296</b>	<b>USD</b>	<b>0.00</b>
Monitor system as maneuvering aid with 5 cameras and 2 displays. The cameras show the area behind the machine, the area in front of the loading conveyor, the side plate, the track unit at the front left, the left milled edge, the left side of the machine and the milled surface behind the milling drum unit. 2 additional LED lamps illuminate the camera area and are included in the scope of supply.	<b>In lieu of 2410296</b>	<b>2410297</b>	<b>USD</b>	<b>7,288.00</b>
<b>Other devices</b>				
License plate holder with LED lighting to comply with country-specific regulations.	<b>Option</b>	<b>2659026</b>	<b>USD</b>	<b>461.00</b>
<b>Other devices</b>				
Large sized storage compartment for 10 pick containers on the rear of the machine instead of the standard storage compartment.	<b>Option</b>	<b>2409814</b>	<b>USD</b>	<b>1,086.00</b>
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	<b>Option</b>		<b>USD</b>	<b>81.00</b>
Spare part and application documentation English (EN)	<b>Option</b>		<b>USD</b>	<b>14.00</b>

## Price list

### W 200 Hi

#### Scope of supply – basic machine

- 6-CYLINDER DIESEL ENGINE TYPE CUMMINS QSX 15
- Maximum power at 1900 r.p.m.: 455 kW / 610 HP / 619 PS
- Exhaust standard: EU Stage 4 / US EPA Tier 4f
- Standard milling width: 6 ft 10 in / 2100 mm
- Theoretical milling depth: 1 ft / 300 mm

#### STANDARD EQUIPMENT

- Base machine with engine
- Machine chassis with double-sided wasp waist
- Hydraulically opening, soundproof engine cover
- Air compressor system
- Battery-operated hydraulic unit for auxiliary drive
- Cooling system with temperature-controlled fan speed
- Storage compartments for pick containers

#### MILLING DRUM HOUSING

- Milling drum housing with infinitely variable lateral shift function permits milling up to the edge on the right or left side of the machine. The total adjustment range is 2 ft 7 in / 800 mm. (1 ft 4 in left / 1 ft 4 in right / 400 mm left / 400 mm right)
- Hydrostatic drive of the milling drum
- Three electrically selectable milling drum speeds
- Hydraulic material depressor with conveyor lifting function
- Hydraulically movable and positionable scraper plate
- Hydraulically lifting side plate, 1 ft 5 in / 420 mm clearance right and left
- Triple-divided water sprinkling strip in the milling drum unit, segments individually switchable

#### LOADING OF MILLED MATERIAL

- Conveyor system with manually or automatically adjustable conveying speed
- Water spray system in the primary conveyor
- Slewing angle discharge conveyor  $\pm 60^\circ$

#### MACHINE CONTROL AND LEVELLING SYSTEM

- Multi-function control display showing important machine operating conditions
- Comprehensive machine diagnostics displayed on the control screen
- Milling power control with automatic on/off function
- Two exterior panels for operating functions by ground crew
- LEVEL PRO PLUS leveling system right and left
- RAPID SLOPE cross-slope sensor for LEVEL PRO ACTIVE leveling system

#### OPERATOR'S PLATFORM

- Fully anti-vibration mounted operator's platform
- Convenient, individually adjustable control panel
- Convenient access to the operator's platform, left and right
- Lockable control panel covers
- Two mirrors at the front, one mirror at the rear of the machine

#### TRACK UNIT AND HEIGHT ADJUSTMENT

- PTS – automatic alignment of the machine parallel to the pavement surface
- ISC – intelligent track speed control including hydraulic four-track drive
- Fourfold full-floating axle for high machine stability

- Freely selectable steering functions for the four-track steering
- Extremely wear-resistant, two-piece EPS polyurethane track pads

#### MISCELLANEOUS

- Lighting system including 5 halogen floodlights and 4 LED lights in the area of the milling unit
- "Welcome" and "Go home" lights feature including LED lighting in the area of the operator's platform and access
- Large tool kit in lockable tool box
- A total of six EMERGENCY STOP switches in appropriate positions on the machine
- High-pressure water system with automatic on/off function, 261 psi / 18 bar, 17 gal.min / 67 l/min
- Pre-fitting for installing the WITOS FleetView control unit "WIRTGEN Road Technologies Telematics and on-site Solutions" (WITOS) is the intelligent telematics system of the WIRTGEN Road Technologies for efficient fleet and service management worldwide
- European type certification, EuroTest mark and CE conformity

**List price ex subsidiary Wirtgen America** **USD** **861,039.00**

#### Mandatory Options

##### Milling drum housing

Wear-resistant milling drum housing FB2100 (6 ft 11 in) without milling drum	<b>Standard</b>	<b>2193939</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

##### Milling drums / milling units

Milling drum with milling width 2100 mm / 6 ft / 11 in, milling depth max. 300 mm / 0 ft 11 in, tool spacing 15 mm / 19/32 in, equipped with quick-change toolholder system HT22 and 190 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.	<b>Standard</b>	<b>2314413</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

#### OPERATOR'S PLATFORM

Flexibly mounted operator's platform with clearly laid-out control panel and control display as well as a large storage compartment (approx. 250 l / 66 gal) on the operator's platform and single stand-up seats on the right and left. The storage compartment has a variable, removable false floor and a lockable lid which can also be used as a seat. It is used for storing tools, pick elements, a coolbox, etc.	<b>Standard</b>	<b>2488411</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

Flexibly mounted operator's platform with clear control panels and control display as well as comfortable adjustable operator's seats right and left.	<b>In lieu of 2488411</b>	<b>2446210</b>	<b>USD</b>	<b>1,425.00</b>
---	---------------------------	----------------	------------	-----------------

#### OPERATOR'S PLATFORM

Complete mirror set: 2 mirrors front and one mirror on rear of the machine	<b>Standard</b>	<b>2276347</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

Complete mirror set, partial from operator's platform electrically folding as well as additionally heated and with truck stop and go indication	<b>Option</b>	<b>2276348</b>	<b>USD</b>	<b>5,510.00</b>
---	---------------	----------------	------------	-----------------

#### Material transport

Heavy-duty 25 ft 11 in / 7,900 mm long discharge conveyor with conveyor belt system 2 ft 9 in / 850 mm and hydraulic folding device for shortening the transport length	<b>Standard</b>	<b>2446319</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

<b>Water tank filling</b>				
Additional water tank filling from the rear of the machine using a shut-off cock.	Standard	2193960	USD	0.00
Additional water tank filling from the rear of the machine with a powerful, hydraulically operated filler pump	Option	2448383	USD	3,596.00
<b>Paint</b>				
Painting in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7015.	Standard	2446558	USD	0.00
Monocolor special painting. Cream white color is replaced by a special color (RAL according to customer). The complete lower part of the machine is painted in slate grey RAL 7015.	Option	2446559	USD	2,429.00
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	Standard	2456347	USD	0.00
<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	Standard	2770403	USD	0.00
<b>Machine lighting</b>				
Halogen lighting system 24 V. Consisting of 6 additional halogen working lights for illuminating the working area. The light output is approx. 1,750 lumens per headlight. Including 3 rotary beacons.	Standard	2346607	USD	0.00
Powerful LED lighting system 24 V. Consisting of 6 additional LED working lights for optimum illumination of the working area. LED working lights are extremely bright, shock-resistant and durable. The light output is approx. 3,000 lumens per headlight (halogen approx. 1,750 lumens). Including 3 LED rotary beacons.	Option	2346608	USD	4,261.00
<b>Equipment Options</b>				
<b>Additional weight</b>				
Additional weight 2,425 lbs / 1,100 kg	Standard	2346424	USD	0.00
Large sized storage compartment for 29 pick containers mounted on the rear of the machine instead of the standard storage compartment.	Option	2221603	USD	3,393.00
<b>Exhaust air filter</b>				
VCS extraction system on the discharge conveyor, for extraction of fine material particles and water vapor from the sealed milling unit. For version with long discharge conveyor.	Standard	2566917	USD	0.00

<b>Equipment operator's platform</b>				
Operator's platform equipped with weather canopy including windscreen and rear window. The canopy is equipped with extensions on both sides and protects the entire operator's platform from rain and sunlight. The canopy itself is made of highly durable GFRP and the windscreen and rear window are scratch-resistant laminated protective glass. The canopy can be folded up electrohydraulically to facilitate machine transport.	Option	2492942	USD	14,915.00
Hot air heating in the footwell area of the operator's platform	Option	2174234	USD	1,764.00
<b>Device for milling drum change</b>				
Milling drum mounting and transport cart for milling drums from FB1500 (4 ft 11 in) to FB2500 (8 ft 2 in)	Option	2312515	USD	6,541.00
<b>Cold-start device</b>				
Electrical preheating of the fuel filter to maintain the flow of fuel at low outside temperatures. Serves to guarantee machine operation at temperatures below 0 32 degrees Fahrenheit (0 degrees Celsius).	Option	2344691	USD	1,384.00
<b>Leveling</b>				
Expansion of leveling system by one ultrasonic sensor for scanning in front of the milling drum right or left. Including connection cable and holder.	Standard	2286567	USD	0.00
Expansion of leveling system by two ultrasonic sensors for scanning in front of the milling drum right and left. Including connection cable and holder.	In lieu of 2286567	2283608	USD	1,181.00
<b>Additional control unit LEVEL PRO</b>				
Expansion LEVEL PRO with an additional operating display, including required connection cable	Standard	2137348	USD	0.00
<b>Leveling</b>				
Pre-fitting for multiplex system comprising 4 sensors sockets for expanding the leveling system with one or two multiplex systems. Permits trouble-free connection of at most 2 multiplex sensors per machine side at a later point.	Standard	2436230	USD	0.00
Expansion leveling system for multiplex system package 3-way right, including 2 x ultrasonic sensors, connection cable and holder	Option	2436231	USD	3,149.00
Expansion of leveling system to make multiplex system package 3-way right and 3-way left, including 4 x ultrasonic sensors, connection cable and holder	Option	2436232	USD	6,650.00
<b>Water system</b>				
Powerful, hydraulically operated high pressure water cleaner with a maximum output of 15 l/min (4 gpm) at a pressure of 150 bar (2175 psi).	Option	2193973	USD	2,538.00
<b>Pick changing aids</b>				
Hydraulically driven pick ejector, including the holder and required electrical and hydraulic connections. Ideal for convenient, fast and low-noise pick changes.	Option	2178052	USD	3,610.00

Pneumatic hammer with two pick extractor and inserter tools each as well as 5.00 m / 16 ft 5 in hose.	Standard	2137372	USD	0.00
Fold-open seats on the rear track units for the pick change, with integrated storage compartment for pick change tools and 4 pick containers	Standard	2283946	USD	0.00
<b>Diesel tank filling systems</b>				
Electrically operated diesel suction and pressure pump for the diesel tank filling with 5.00 m suction hose.	Option	2125976	USD	936.00
<b>Wirtgen information and diagnostic system</b>				
The actual milling depth is measured by a differential method between sensors on the side plate and sensors on the scraper. The actual milling depth is displayed in the Info menu of the LEVEL PRO display.	Standard	2219502	USD	0.00
<b>Camera system</b>				
Monitor system as maneuvering aid with 2 cameras. Each of these shows the area behind the machine as well as the area in front of the loading conveyor. The camera images are displayed on the machine control display.	Option	2526011	USD	2,796.00
Monitor system as maneuvering aid with 2 cameras. Camera 1 is installed on the rear of the machine pointing to the rear and camera 2 is installed between the front track units pointing to the front. The camera images are displayed on the machine control display	Standard	2286626	USD	0.00
Extensive monitor system consisting of a total of 6 cameras and an additional monitor. Cameras 1 and 2 show the areas behind the machine as well as ahead of the load belt, and thus facilitate maneuvering and loading. Cameras 3-6 show the area in front of the milling drum unit, the milled area behind the milling unit as well as the side plate and the front right and left chassis units, thereby facilitating the working process. Camera images 1-2 are displayed in the machine control display, camera images 3-6 are output on the additional monitor.	Option	2530073	USD	9,758.00
<b>Other devices</b>				
License plate holder with LED lighting to comply with country-specific regulations.	Option	2658169	USD	461.00
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	Option		USD	81.00
Spare part and application documentation English (EN)	Option		USD	14.00

## Price list

### W 200 Fi

#### Scope of supply – basic machine

- 6-CYLINDER DIESEL ENGINE TYPE CUMMINS QSX 15
- Maximum power at 1900 r.p.m.: 455 kW / 610 HP / 619 PS
- Exhaust standard: EU Stage V / US EPA Tier 4f
- Standard milling width: 6 ft 7 in / 2,000 mm
- Theoretical milling depth: 1 ft 1 in / 330 mm

#### STANDARD EQUIPMENT

- Base machine with engine
- Machine frame featuring a single wasp waist at the rear right and a dual wasp waist at the front
- Hydraulically opening, soundproof engine cover
- Air compressor system
- Two cooling fans to minimize power consumption of the cooling system

#### MILLING DRUM HOUSING

- Adjustment of material depressor contact pressure via the control panel or automatically via the MILL ASSIST feature to reduce chunk formation
- Electrical adjustment of scraper contact pressure via the control panel
- Automatically controlled locking feature of scraper
- Single-piece water spray bar in the milling drum unit for reliable pick cooling and to prevent dust development
- Automatic control of the water quantity via the MILL ASSIST feature
- Height adjustment stroke increased by 150 mm to facilitate pick replacement and the exchange of milling drum units
- Pre-fitting to allow the quick exchange of milling drum units.
- Hydraulically lifting side plates, clearance right 450 mm (1 ft 6 in), clearance left 330 mm (1 ft 1 in)

#### LOADING OF MILLED MATERIAL

- Increased conveyor swing angles of 65° each to the left and right
- Discharge conveyor with adjustable conveying speed
- Boost feature for a temporary increase of the belt speed and conveying performance of the discharge conveyor by 20%
- Water spray system in the primary conveyor
- Larger conveyor pump for a constant belt speed even at a low engine speed of 1300 rpm

#### MACHINE CONTROL AND LEVELLING SYSTEM

- User-friendly control panel including 7" color screen
- LEVEL PRO ACTIVE leveling system with numerous automated and complementary operator relieving features
- LEVEL PRO ACTIVE - automatic height control in transport mode
- LEVEL PRO ACTIVE - ramp milling and auto-start feature for the second milling cut
- RAPID SLOPE cross-slope sensor for LEVEL PRO ACTIVE leveling system
- MILL ASSIST assistance system for automatic adjustment of the milling drum speed in accordance with the main area of application and the parameters selected in terms of engine load, advance rate, milling volume and quality of the milling pattern.
- Comprehensive machine diagnostics on the control panel including, for example, a diagnostic system for the CAN bus
- Voltmeter integrated into the control panel for voltage measurement in the event of a malfunction
- Two control panels for operating functions performed by ground crew

#### OPERATOR'S PLATFORM

- Convenient access to the operator's platform, left and right

- Anti-vibration mounted operator's platform across the full width of the machine including fold-out railing, right
- Electrical control cabinet on the operator's platform for optimum accessibility and fast troubleshooting
- Two mirrors at the front, one mirror at the rear of the machine

#### TRACK UNIT AND HEIGHT ADJUSTMENT

- PTS – automatic alignment of the machine parallel to the pavement surface
- ISC – intelligent track speed control including hydraulic four-track drive
- Fourfold full-floating axle for high machine stability
- High travel speed of up to 100 m / min at low engine speeds (1,350 rpm), reduced diesel consumption and low noise emissions.
- Lifting speed of the height adjustment feature increased by 60%

#### MISCELLANEOUS

- "Welcome" and "Go home" lights feature in the area of the operator's platform and access
- Large storage compartment on the machine for pick containers
- High-pressure water system with automatic on/off function, 261 psi / 18 bar, 17 gal.min / 67 l/min
- Good accessibility to all maintenance points on the engine station
- Pneumatic hammer with pick extractor/insertor
- Large tool kit in lockable tool box
- A total of six EMERGENCY STOP switches in appropriate positions on the machine
- Pre-fitting for installing the WITOS FleetView control unit
- European type certification, EuroTest mark and CE conformity

**List price ex subsidiary Wirtgen America**

**USD**

**693,676.00**

#### Mandatory Options

##### Milling drum housing

Wear-resistant milling drum housing FB2200 (7 ft 3 in) without milling drum	<b>Standard</b>	<b>2598404</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

##### Milling drums / milling units

Milling drum with milling width 2200 mm (7 ft 3 in), milling depth max. 330 mm / 1 ft 1 in, tool spacing 18 mm / 45/64 in, equipped with quick-change toolholder system HT22 and 155 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.	<b>Standard</b>	<b>2305117</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

##### OPERATOR'S PLATFORM

Flexibly mounted operator's platform with clear control panels and a simple stand-up seat.	<b>Standard</b>	<b>2600317</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

##### Material transport

Heavy-duty 7,900 mm (25 ft 11 in) long discharge conveyor with conveyor belt system 850 mm (2 ft 9 in) and hydraulic folding device for shortening the transport length	<b>Standard</b>	<b>2598432</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

##### Crawler units

Four track units type B1, 260 mm wide and 1,565 mm long, with extremely wear-resistant, two-piece EPS polyurethane track pads.	<b>Standard</b>	<b>2663715</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

<b>Water tank filling</b>				
Additional water tank filling from the rear of the machine using a shut-off cock.	<b>Standard</b>	<b>2549116</b>	<b>USD</b>	<b>0.00</b>
<b>Paint</b>				
Painting in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7015.	<b>Standard</b>	<b>2668740</b>	<b>USD</b>	<b>0.00</b>
Film coating in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7019	<b>Option</b>	<b>2779483</b>	<b>USD</b>	<b>2,972.00</b>
The film coating is applied in RAL colors and design according to the customer's wishes. Film coating provides protection against mechanical and weather-related damage and can be removed without leaving any marks, if required	<b>Option</b>	<b>2728786</b>	<b>USD</b>	<b>4,126.00</b>
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	<b>Standard</b>	<b>2456347</b>	<b>USD</b>	<b>0.00</b>
<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	<b>Standard</b>	<b>2770403</b>	<b>USD</b>	<b>0.00</b>
The WIRTGEN PERFORMANCE TRACKER WPT is a laser and satellite-supported measuring system for precise milling performance determination for machines with FB2000 or FB2200 without a weather canopy or with an operator's cabin. Two laser scanners measure the actual milling width and milling depth over the distance of the milling path. The milling performance results are automatically sent to the corresponding users via the WITOS interface with precise GPS machine position data and consumption data such as diesel consumption, water consumption, tool consumption and truck loads, in an evaluation and then by e-mail. The milling performance reports that include an image of the milling position can also be used as an allowance report. The usability of WITOS hardware components for the existing mobile radio standard is guaranteed for 3 years from the date of delivery.	<b>Option</b>	<b>2781330</b>	<b>USD</b>	<b>47,066.00</b>

<b>Machine lighting</b>				
Standard lighting system consisting of 18 LED working lights for optimum illumination of the working area. The light output is approx. 20,600 lumens in total.	Standard	2598442	USD	0.00
<b>Equipment Options</b>				
<b>Additional weight</b>				
Two-piece additional weight at the rear of the machine totaling 1,600 kg (3,527 lbs) which enables the machine to be individually ballasted. The individual weights of 850 kg and 750 kg can be easily and quickly inserted and fastened to the rear of the machine.	Option	2598492	USD	6,731.00
<b>Additional weight</b>				
Storage compartment on both the rear track units for 8 pick containers	Option	2598662	USD	1,099.00
<b>Milling drum assembly options</b>				
Milling drum rotation device with electro-hydraulic milling drum drive for slowly turning the milling drum during pick replacement. The diesel engine can be switched off in this case.	Standard	2598658	USD	0.00
Two wear protection rollers that can be attached to the side plates (left or right). The rollers protect the asphalt, curbs, and other surfaces from damage and prevent excessive wear to the side plates.	Option	2662818	USD	801.00
The mounting aid makes it much easier to change the milling drum assembly. Two extended wire ropes from the discharge conveyor are reattached and pull the primary conveyor out of the milling drum housing. This enables the aggregate to be changed without any additional effort. It saves time and work whenever the milling drum assembly needs to be changed.	Option	2598534	USD	448.00
Transport roller set consisting of 4 heavy-duty rollers for easy removal of milling units from FB1500 to FB3800 on level surfaces.	Option	2762958	USD	5,320.00
<b>Options for belt conveyor</b>				
VCS – vacuum cutting system on the discharge conveyor for the extraction of fine material particles and water vapor from the sealed milling drum unit.	Standard	2598495	USD	0.00
Support device for positioning the discharge conveyor on the flat bed truck	Standard	60603	USD	0.00
Semi-automatic ACTIVE CONVEYOR swing angle control that guides the discharge conveyor in construction site situations where milling is carried out at intersections or roundabouts	Option	2598541	USD	1,235.00

<b>Additional control unit LEVEL PRO</b>				
2 Additional 5" control panel for controlling the LEVEL PRO ACTIVE leveling system. Up to two additional control panels can be mounted in the rear lower area of the machines	<b>Standard</b>	<b>2598631</b>	<b>USD</b>	<b>0.00</b>
Additional 2" control panel that can be programmed with up to 16 individually selected functions. Up to two additional control panels can be mounted on the outside railing of the operator's platform	<b>Option</b>	<b>2598664</b>	<b>USD</b>	<b>1,995.00</b>
Two additional 2" control panels that can each be programmed with up to 16 individually selected functions. Up to two additional control panels can be mounted on the outside railing of the operator's platform	<b>Option</b>	<b>2767151</b>	<b>USD</b>	<b>3,990.00</b>
User-specific saving of individually adjustable machine settings such as the display configuration or the assignment of favorites buttons. The data can be saved on five different SMART KEY key fobs with tokens.	<b>Option</b>	<b>2779480</b>	<b>USD</b>	<b>1,235.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with one hydraulic cylinder sensor for scanning a reference surface to the right of the milling drum.	<b>Standard</b>	<b>2598629</b>	<b>USD</b>	<b>0.00</b>
Extension of the LEVEL PRO ACTIVE leveling system with two hydraulic cylinder sensors for scanning a reference surface to the left and the right of the milling drum.	<b>In lieu of 2598629</b>	<b>2598630</b>	<b>USD</b>	<b>2,484.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with multiplex scanning on the right. Two additional ultrasonic sensors scan reference surfaces in front of and behind the machine. During machine transport, the sensors and cables are securely stowed in a corresponding transport box.	<b>Option</b>	<b>2598636</b>	<b>USD</b>	<b>5,157.00</b>
Extension of the LEVEL PRO ACTIVE leveling system with multiplex scanning on the left and right. Four additional ultrasonic sensors scan reference surfaces in front of and behind the machine. During machine transport, the sensors and cables are securely stowed in a corresponding transport box.	<b>Option</b>	<b>2598641</b>	<b>USD</b>	<b>10,016.00</b>

<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with pre-fitting for 3D milling with machines without a weather canopy. The pre-fitting equipment consists of robust and exactly positioned mounting adapters for a 3D system as well as sensor sockets for connecting the sensors to the LEVEL PRO ACTIVE system.	<b>Option</b>	<b>2662822</b>	<b>USD</b>	<b>8,496.00</b>
<b>Camera system</b>				
Two-fold camera system with one camera at the discharge conveyor and one camera with a view of the rear area. The camera images are displayed on the standard 7" control panel on the operator's platform.	<b>Standard</b>	<b>2598677</b>	<b>USD</b>	<b>0.00</b>
<b>Other devices</b>				
Electrical diesel suction and pressure pump with 7.50 m (24 ft 7 in) suction hose. The machine can be refueled with up to 50 l/min (13 gal/min) from external diesel tanks.	<b>Option</b>	<b>2598663</b>	<b>USD</b>	<b>936.00</b>
Hydraulically powered sweeping unit consisting of a central brush and side brushes on both sides used to sweep the milled surface behind the machine. The direction in which the brushes rotate can be changed depending on the desired direction of sweeping. The unit can be folded up hydraulically from the operator's platform during transport or when maneuvering. It is operated via the 2" control panel that comes with the unit.	<b>Option</b>	<b>2779365</b>	<b>USD</b>	<b>45,437.00</b>
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	<b>Option</b>		<b>USD</b>	<b>81.00</b>
Spare part and application documentation English (EN)	<b>Option</b>		<b>USD</b>	<b>14.00</b>

## Price list

### W 207 Fi

#### Scope of supply – basic machine

- 6-CYLINDER DIESEL ENGINE TYPE CUMMINS QSX 15
- Maximum power at 1900 r.p.m.: 470 kW / 630 HP / 639 PS
- Exhaust standard: EU Stage V / US EPA Tier 4f
- Standard milling width: 6 ft 7 in / 2,000 mm
- Theoretical milling depth: 1 ft 1 in / 330 mm

#### STANDARD EQUIPMENT

- Base machine with engine
- Machine frame featuring a single wasp waist at the rear right and a dual wasp waist at the front
- Hydraulically opening, soundproof engine cover
- Air compressor system
- Two cooling fans to minimize power consumption of the cooling system

#### MILLING DRUM HOUSING

- Adjustment of material depressor contact pressure via the control panel or automatically via the MILL ASSIST feature to reduce chunk formation
- Electrical adjustment of scraper contact pressure via the control panel
- Automatically controlled locking feature of scraper
- Single-piece water spray bar in the milling drum unit for reliable pick cooling and to prevent dust development
- Automatic control of the water quantity via the MILL ASSIST feature
- Height adjustment stroke increased by 150 mm to facilitate pick replacement and the exchange of milling drum units
- Pre-fitting to allow the quick exchange of milling drum units.
- Hydraulically lifting side plates, clearance right 450 mm (1 ft 6 in), clearance left 330 mm (1 ft 1 in)

#### LOADING OF MILLED MATERIAL

- Increased conveyor swing angles of 65° each to the left and right
- Discharge conveyor with adjustable conveying speed
- Boost feature for a temporary increase of the belt speed and conveying performance of the discharge conveyor by 20%
- Water spray system in the primary conveyor
- Larger conveyor pump for a constant belt speed even at a low engine speed of 1300 rpm

#### MACHINE CONTROL AND LEVELLING SYSTEM

- User-friendly control panel including 7" color screen
- LEVEL PRO ACTIVE leveling system with numerous automated and complementary operator relieving features
- LEVEL PRO ACTIVE - automatic height control in transport mode
- LEVEL PRO ACTIVE - ramp milling and auto-start feature for the second milling cut
- RAPID SLOPE cross-slope sensor for LEVEL PRO ACTIVE leveling system
- MILL ASSIST assistance system for automatic adjustment of the milling drum speed in accordance with the main area of application and the parameters selected in terms of engine load, advance rate, milling volume and quality of the milling pattern.
- Comprehensive machine diagnostics on the control panel including, for example, a diagnostic system for the CAN bus
- Voltmeter integrated into the control panel for voltage measurement in the event of a malfunction
- Two control panels for operating functions performed by ground crew

#### OPERATOR'S PLATFORM

- Convenient access to the operator's platform, left and right

- Anti-vibration mounted operator's platform across the full width of the machine including fold-out railing, right
- Electrical control cabinet on the operator's platform for optimum accessibility and fast troubleshooting
- Two mirrors at the front, one mirror at the rear of the machine

#### TRACK UNIT AND HEIGHT ADJUSTMENT

- PTS – automatic alignment of the machine parallel to the pavement surface
- ISC – intelligent track speed control including hydraulic four-track drive
- Fourfold full-floating axle for high machine stability
- High travel speed of up to 100 m / min at low engine speeds (1,350 rpm), reduced diesel consumption and low noise emissions.
- Lifting speed of the height adjustment feature increased by 60%

#### MISCELLANEOUS

- "Welcome" and "Go home" lights feature in the area of the operator's platform and access
- Large storage compartment on the machine for pick containers
- High-pressure water system with automatic on/off function, 261 psi / 18 bar, 17 gal.min / 67 l/min
- Good accessibility to all maintenance points on the engine station
- Pneumatic hammer with pick extractor/insertor
- Large tool kit in lockable tool box
- A total of six EMERGENCY STOP switches in appropriate positions on the machine
- Pre-fitting for installing the WITOS FleetView control unit
- European type certification, EuroTest mark and CE conformity

**List price ex subsidiary Wirtgen America** **USD** **760,651.00**

#### Mandatory Options

##### Milling drum housing

FB2200 (7 ft 3 in) MCS BASIC quick-change milling drum unit that enables milling drums of the same milling width to be changed particularly quickly.	<b>Standard</b>	<b>2598417</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

##### Milling drums / milling units

Milling drum MCS BASIC with milling width 2200 mm / 7 ft 3 in, milling depth max. 350 mm / 1 ft 2 in, tool spacing 15 mm / 19/32 in, equipped with quick-change toolholder system HT22 and 176 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.	<b>Standard</b>	<b>2611269</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

##### OPERATOR'S PLATFORM

Flexibly mounted operator's platform with clear control panels and a simple stand-up seat.	<b>Standard</b>	<b>2600317</b>	<b>USD</b>	<b>0.00</b>
Anti-vibration-mounted operator's platform with easy-to-read control panels and simple stand-up seat. A hydraulically height-adjustable weather canopy protects the operator from the wind and weather.	<b>Option</b>	<b>2600319</b>	<b>USD</b>	<b>15,838.00</b>

<b>Material transport</b>				
Heavy-duty 7,900 mm (25 ft 11 in) long discharge conveyor with conveyor belt system 850 mm (2 ft 9 in) and hydraulic folding device for shortening the transport length	Standard	2598432	USD	0.00
<b>Crawler units</b>				
Four track units type B3, 300 mm wide and 1,730 mm long, with extremely wear-resistant, two-piece EPS polyurethane track pads.	Standard	2663716	USD	0.00
<b>Water tank filling</b>				
Additional water tank filling from the rear of the machine using a shut-off cock.	Standard	2549116	USD	0.00
Additional water tank filling from the rear of the machine with a powerful, hydraulically operated filler pump	Option	2598434	USD	3,909.00
<b>Paint</b>				
Painting in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7015.	Standard	2668745	USD	0.00
Film coating in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7019	Option	2779484	USD	2,972.00
The film coating is applied in RAL colors and design according to the customer's wishes. Film coating provides protection against mechanical and weather-related damage and can be removed without leaving any marks, if required	Option	2728788	USD	4,126.00
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	Standard	2456347	USD	0.00
<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of	Standard	2770403	USD	0.00

The WIRTGEN PERFORMANCE TRACKER WPT is a laser and satellite-supported measuring system for precise milling performance determination for machines with FB2000 or FB2200 without a weather canopy or with an operator's cabin. Two laser scanners measure the actual milling width and milling depth over the distance of the milling path. The milling performance results are automatically sent to the corresponding users via the WITOS interface with precise GPS machine position data and consumption data such as diesel consumption, water consumption, tool consumption and truck loads, in an evaluation and then by e-mail. The milling performance reports that include an image of the milling position can also be used as an allowance report. The usability of WITOS	<b>Option</b>	<b>2781330</b>	<b>USD</b>	<b>47,066.00</b>
<b>Machine lighting</b>				
Extended lighting system consisting of 21 extremely powerful LED working lights for optimum illumination of the working area. The light output is approx. 37,600 lumens in total.	<b>Standard</b>	<b>2598443</b>	<b>USD</b>	<b>0.00</b>
<b>Equipment Options</b>				
<b>Additional weight</b>				
Two-piece additional weight at the rear of the machine totaling 1,600 kg (3,527 lbs) which enables the machine to be individually ballasted. The individual weights of 850 kg and 750 kg can be easily and quickly inserted and fastened to the rear of the machine.	<b>Standard</b>	<b>2598492</b>	<b>USD</b>	<b>0.00</b>
<b>Additional weight</b>				
Large sized storage compartment for 69 pick containers mounted at the rear of the machine instead of the standard storage compartment. The storage compartment is splash-proof and additionally contains a completely sealed area to safely store electronic components such as leveling sensors or tool extractors.	<b>Option</b>	<b>2598494</b>	<b>USD</b>	<b>3,216.00</b>
Storage compartment on both the rear track units for 8 pick containers	<b>Standard</b>	<b>2598662</b>	<b>USD</b>	<b>0.00</b>
<b>Milling drum assembly options</b>				
The actual milling depth is determined by calculating the difference in readings from sensors on the side plate and sensors on the scraper. The actual milling depth is displayed on the LEVEL PRO ACTIVE panel.	<b>Standard</b>	<b>2598665</b>	<b>USD</b>	<b>0.00</b>
Overload sensors automatically lift the scraper whenever obstacles are detected that could damage the scraper.	<b>Option</b>	<b>2598528</b>	<b>USD</b>	<b>1,615.00</b>
Active floating position for the side plates on the left and right by continuously adjusting the milling depth and position of the plates. If necessary, the side plates can be briefly raised to prevent them from sinking into the soft ground.	<b>Standard</b>	<b>2598531</b>	<b>USD</b>	<b>0.00</b>

MCS BASIC extended with a hydraulically opening side door on the milling drum unit FB2200 (7 ft 3 in). With additional hydraulic cylinders, the side door can be easily unlocked and opened when changing the milling drum. This enables milling drums in MCS BASIC to be changed even faster.	<b>Standard</b>	<b>2688482</b>	<b>USD</b>	<b>0.00</b>
Electrically switchable sectional water spray bar in the milling drum unit FB2200 (7 ft 3 in). Four areas can be controlled as required from the control panel (automatically controlled with WPT). This significantly reduces water consumption.	<b>Standard</b>	<b>2610096</b>	<b>USD</b>	<b>0.00</b>
Two wear protection rollers that can be attached to the side plates (left or right). The rollers protect the asphalt, curbs, and other surfaces from damage and prevent excessive wear to the side plates.	<b>Option</b>	<b>2662818</b>	<b>USD</b>	<b>801.00</b>
The mounting aid makes it much easier to change the milling drum assembly. Two extended wire ropes from the discharge conveyor are reattached and pull the primary conveyor out of the milling drum housing. This enables the aggregate to be changed without any additional effort. It saves time and work whenever the milling drum assembly needs to be changed.	<b>Option</b>	<b>2598534</b>	<b>USD</b>	<b>448.00</b>
Milling drum mounting and transport cart for milling drums from FB1500 (4 ft 11 in) to FB2500 (8 ft 2 in)	<b>Option</b>	<b>2312515</b>	<b>USD</b>	<b>6,541.00</b>
Transport roller set consisting of 4 heavy-duty rollers for easy removal of milling units from FB1500 to FB3800 on level surfaces.	<b>Option</b>	<b>2762958</b>	<b>USD</b>	<b>5,320.00</b>
<b>Options for belt conveyor</b>				
VCS – vacuum cutting system on the discharge conveyor for the extraction of fine material particles and water vapor from the sealed milling drum unit.	<b>Standard</b>	<b>2598495</b>	<b>USD</b>	<b>0.00</b>
Support device for positioning the discharge conveyor on the flat bed truck	<b>Standard</b>	<b>60603</b>	<b>USD</b>	<b>0.00</b>
Semi-automatic ACTIVE CONVEYOR swing angle control that guides the discharge conveyor in construction site situations where milling is carried out at intersections or roundabouts	<b>Option</b>	<b>2598541</b>	<b>USD</b>	<b>1,235.00</b>

<b>Additional control unit LEVEL PRO</b>				
Two Additional 7" control panel that displays the machine control and controls the LEVEL PRO ACTIVE levelling system. Up to two additional control panels can be mounted in the rear lower area of the machines	<b>Standard</b>	<b>2598632</b>	<b>USD</b>	<b>0.00</b>
Additional 2" control panel that can be programmed with up to 16 individually selected functions. Up to two additional control panels can be mounted on the outside railing of the operator's platform	<b>Standard</b>	<b>2598664</b>	<b>USD</b>	<b>0.00</b>
Two additional 2" control panels that can each be programmed with up to 16 individually selected functions. Up to two additional control panels can be mounted on the outside railing of the operator's platform	<b>Option</b>	<b>2767151</b>	<b>USD</b>	<b>3,990.00</b>
User-specific saving of individually adjustable machine settings such as the display configuration or the assignment of favorites buttons. The data can be saved on five different SMART KEY key fobs with tokens.	<b>Option</b>	<b>2779480</b>	<b>USD</b>	<b>1,235.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE levelling system with levelling boom. Premounted and adjustable hydraulic cylinders on the left and right allow the use of a Sonic-Ski sensor that is able to scan a reference object up to 1,900 mm away from the milling edge. During machine transport, the sensor and cables are securely stowed in the corresponding transport boxes.	<b>Option</b>	<b>2600969</b>	<b>USD</b>	<b>10,776.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with two hydraulic cylinder sensors for scanning a reference surface to the left and the right of the milling drum.	<b>Standard</b>	<b>2598630</b>	<b>USD</b>	<b>0.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with multiplex scanning on the right. Two additional ultrasonic sensors scan reference surfaces in front of and behind the machine. During machine transport, the sensors and cables are securely stowed in a corresponding transport box.	<b>Option</b>	<b>2598636</b>	<b>USD</b>	<b>5,157.00</b>

Extension of the LEVEL PRO ACTIVE leveling system with multiplex scanning on the left and right. Four additional ultrasonic sensors scan reference surfaces in front of and behind the machine. During machine transport, the sensors and cables are securely stowed in a corresponding transport box.	<b>Option</b>	<b>2598641</b>	<b>USD</b>	<b>10,016.00</b>
<b>Water system</b>				
Powerful, hydraulically operated high pressure water cleaner with a maximum output of 15 l/min (4 gpm) at a pressure of 150 bar (2175 psi).	<b>Option</b>	<b>2598657</b>	<b>USD</b>	<b>2,538.00</b>
<b>Pick changing aids</b>				
Hydraulically driven pick ejector, including the holder and required electrical and hydraulic connections. Ideal for convenient, fast and low-noise pick changes.	<b>Standard</b>	<b>2650081</b>	<b>USD</b>	<b>0.00</b>
<b>Camera system</b>				
Four-fold camera system with an additional 10" control panel for an optimised view of the work processes being executed in front of and behind the machine as well as of the side plates, on the right and left. The camera images are displayed on the 10" control panel on the operator's platform.	<b>Standard</b>	<b>2598678</b>	<b>USD</b>	<b>0.00</b>
Eight-fold camera system with an additional 10" control panel for an optimised view of the work processes being executed in front of and behind the machine, of the side plates on the right and left and of the milled surface behind the milling drum unit. The camera images are displayed on the 10" control panel on the operator's platform.	<b>In lieu of 2598678</b>	<b>2598679</b>	<b>USD</b>	<b>4,004.00</b>
<b>Other devices</b>				
Electrical preheating of the fuel filter to maintain the flow of fuel at low outside temperatures. Serves to guarantee machine operation at temperatures below 0 32 degrees Fahrenheit (0 degrees Celsius).	<b>Option</b>	<b>2622716</b>	<b>USD</b>	<b>597.00</b>
Electrical diesel suction and pressure pump with 7.50 m (24 ft 7 in) suction hose. The machine can be refueled with up to 50 l/min (13 gal/min) from external diesel tanks.	<b>Option</b>	<b>2598663</b>	<b>USD</b>	<b>936.00</b>
License plate holder with LED lighting	<b>Option</b>	<b>2654224</b>	<b>USD</b>	<b>489.00</b>
Hydraulically powered sweeping unit consisting of a central brush and side brushes on both sides used to sweep the milled surface behind the machine. The direction in which the brushes rotate can be changed depending on the desired direction of sweeping. The unit can be folded up hydraulically from the operator's platform during transport or when maneuvering. It is operated via the 2" control panel that comes with the unit.	<b>Option</b>	<b>2779365</b>	<b>USD</b>	<b>45,437.00</b>
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	<b>Option</b>		<b>USD</b>	<b>81.00</b>
Spare part and application documentation English (EN)	<b>Option</b>		<b>USD</b>	<b>14.00</b>

**Price list****W 210 Fi - 2200 mm milling drum****Scope of supply – basic machine**

- Engine: 6-cylinder diesel engine: CATERPILLAR C18 ATAAC
- Rated power at 1,950 r.p.m.: 563 kW / 755 HP / 766 PS
- Exhaust standard: EU Stage V / US EPA Tier 4f
- Standard milling width: 6 ft 7 in / 2,000 mm
- Theoretical milling depth: 1 ft 1 in / 330 mm

**STANDARD EQUIPMENT**

- Base machine with engine
- Machine frame featuring a single wasp waist at the rear right and a dual wasp waist at the front
- DUAL SHIFT two-speed powershift transmission for efficient engine speeds combined with powerful milling drum speeds.
- Automatic pressure adjustment of the hydraulic pump for cylinder functions in accordance with performance requirements for reduced diesel consumption
- Hydraulically opening, soundproof engine cover
- Air compressor system
- Battery-operated hydraulic unit for auxiliary drive
- Two cooling fans to minimize power consumption of the cooling system

**MILLING DRUM HOUSING**

- Adjustment of material depressor contact pressure via the control panel or automatically via the MILL ASSIST feature to reduce chunk formation
- Electrical adjustment of scraper contact pressure via the control panel
- Automatically controlled locking feature of scraper
- Milling drum rotation device with electro-hydraulic milling drum drive for slowly turning the milling drum during pick replacement.
- Single-piece water spray bar in the milling drum unit for reliable pick cooling and to prevent dust development
- Automatic control of the water quantity via the MILL ASSIST feature
- Height adjustment stroke increased by 150 mm to facilitate pick replacement and the exchange of milling drum units
- Pre-fitting to allow the quick exchange of milling drum units.
- Hydraulically lifting side plates, clearance right 450 mm (1 ft 6 in), clearance left 330 mm (1 ft 1 in)

**LOADING OF MILLED MATERIAL**

- Increased conveyor swing angles of 65° each to the left and right
- Discharge conveyor with adjustable conveying speed and two slewing speeds for precise loading
- Boost feature for a temporary increase of the belt speed and conveying performance of the discharge conveyor by 20%
- Water spray system in the primary conveyor
- Larger conveyor pump for a constant belt speed even at a low engine speed of 1300 rpm

**MACHINE CONTROL AND LEVELLING SYSTEM**

- User-friendly control panel including 7" color screen
- LEVEL PRO ACTIVE leveling system with numerous automated and complementary operator relieving features
- LEVEL PRO ACTIVE - automatic height control in transport mode
- LEVEL PRO ACTIVE - ramp milling and auto-start feature for the second milling cut
- RAPID SLOPE cross-slope sensor for LEVEL PRO ACTIVE leveling system
- MILL ASSIST assistance system for automatic adjustment of the milling drum speed in accordance with the main area of application and the parameters selected in terms of engine load, advance rate, milling volume and quality of the milling pattern.

- Automatic start-stop feature of the milling drum to reduce diesel consumption
- Comprehensive machine diagnostics on the control panel including, for example, a diagnostic system for the CAN bus
- Voltmeter integrated into the control panel for voltage measurement in the event of a malfunction
- Two control panels for operating functions performed by ground crew

#### **OPERATOR 'S PLATFORM**

- Convenient access to the operator's platform, left and right
- Anti-vibration mounted operator's platform across the full width of the machine including fold-out railing, right
- Electrical control cabinet on the operator's platform for optimum accessibility and fast troubleshooting
- Electrical level indicator for the water tank on the external control panels
- Time display on the main control panel and on the exterior control panels
- Two mirrors at the front, one mirror at the rear of the machine

#### **TRACK UNIT AND HEIGHT ADJUSTMENT**

- PTS – automatic alignment of the machine parallel to the pavement surface
- ISC – intelligent track speed control including hydraulic four-track drive
- Fourfold full-floating axle for high machine stability
- High travel speed of up to 100 m / min at low engine speeds (1,350 rpm), reduced diesel consumption and low noise emissions.
- Lifting speed of the height adjustment feature increased by 60%

#### **MISCELLANEOUS**

- "Welcome" and "Go home" lights feature in the area of the operator's platform and access
- Large storage compartment on the machine for pick containers
- High-pressure water system with automatic on/off function, 261 psi / 18 bar, 17 gal.min / 67 l/min
- Good accessibility to all maintenance points on the engine station
- Pneumatic hammer with pick extractor/insertor
- Large tool kit in lockable tool box
- A total of six EMERGENCY STOP switches in appropriate positions on the machine
- Pre-fitting for installing the WITOS FleetView control unit
- European type certification, EuroTest mark and CE conformity

**List price ex subsidiary Wirtgen America**

**USD**

**850,399.00**

Mandatory Options				
Milling drum housing				
FB2200 (7 ft 3 in) MCS BASIC quick-change milling drum unit that enables milling drums of the same milling width to be changed particularly quickly.	Standard	2598417	USD	0.00
Milling drums / milling units				
Milling drum MCS BASIC with milling width 2200 mm / 7 ft / 3 in, milling depth max. 350 mm / 1 ft 2 in, tool spacing 15 mm / 19/32 in, equipped with quick-change toolholder system HT22 and 176 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.	Standard	2611269	USD	0.00
OPERATOR'S PLATFORM				
Anti-vibration-mounted operator's platform with easy-to-read control panels, functional stand-up seat and a large, lockable storage compartment with a capacity of approx 69 gal / 260 liters	Standard	2662840	USD	0.00
Anti-vibration-mounted operator's platform with easy-to-read control panels, functional stand-up seat and a large, lockable storage compartment with a capacity of approx 69 gal/260 liters. A hydraulically height-adjustable weather canopy with transparent side weather protection elements protects the operator from the wind and weather.	In lieu of 2662840	2598429	USD	16,041.00
Material transport				
Heavy-duty 7,900 mm (25 ft 11 in) long discharge conveyor with conveyor belt system 850 mm (2 ft 9 in) and hydraulic folding device for shortening the transport length	Standard	2598432	USD	0.00
Water tank filling				
Additional water tank filling from the rear of the machine using a shut-off cock.	Standard	2549116	USD	0.00
Additional water tank filling from the rear of the machine with a powerful, hydraulically operated filler pump	Option	2598434	USD	3,909.00
Paint				
Painting in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7015.	Standard	2598435	USD	0.00
Film coating in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7019	Option	2779482	USD	2,972.00
The film coating is applied in RAL colors and design according to the customer's wishes. Film coating provides protection against mechanical and weather-related damage and can be removed without leaving any marks, if required	Option	2728766	USD	4,126.00

<b>Technical documentation</b>				
Technical documentation - North America country version (US)	<b>Standard</b>	<b>2456347</b>	<b>USD</b>	<b>0.00</b>
<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	<b>Standard</b>	<b>2770403</b>	<b>USD</b>	<b>0.00</b>
The WIRTGEN PERFORMANCE TRACKER WPT is a laser and satellite-supported measuring system for precise milling performance determination for machines with FB2000 or FB2200 without a weather canopy or with an operator's cabin. Two laser scanners measure the actual milling width and milling depth over the distance of the milling path. The milling performance results are automatically sent to the corresponding users via the WITOS interface with precise GPS machine position data and consumption data such as diesel consumption, water consumption, tool consumption and truck loads, in an evaluation and then by e-mail. The milling performance reports that include an image of the milling position can also be used as an allowance report. The usability of WITOS hardware components for the existing mobile radio standard is guaranteed for 3 years from the date of delivery.	<b>Option</b>	<b>2781330</b>	<b>USD</b>	<b>47,066.00</b>
<b>Machine lighting</b>				
Extended lighting system consisting of 21 extremely powerful LED working lights for optimum illumination of the working area. The light output is approx. 37,600 lumens in total.	<b>Standard</b>	<b>2598443</b>	<b>USD</b>	<b>0.00</b>
Extended lighting system with 19 particularly powerful LED working lights for optimum illumination of the working area. The light output of the working lights amounts to a total of 34,000 lumens. The additional lighting balloon is operated via the 24V power supply of the machine and achieves an additional luminous power of 16,000 lumens.	<b>In lieu of 2598443</b>	<b>2653969</b>	<b>USD</b>	<b>4,818.00</b>

Equipment Options				
<b>Additional weight</b>				
Two-piece additional weight at the rear of the machine totaling 1,600 kg (3,527 lbs) which enables the machine to be individually ballasted. The individual weights of 850 kg and 750 kg can be easily and quickly inserted and fastened to the rear of the machine.	Standard	2598492	USD	0.00
<b>Additional weight</b>				
Large sized storage compartment for 69 pick containers mounted at the rear of the machine instead of the standard storage compartment. The storage compartment is splash-proof and additionally contains a completely sealed area to safely store electronic components such as leveling sensors or tool extractors.	Option	2598494	USD	3,216.00
Storage compartment on both the rear track units for 8 pick containers	Standard	2598662	USD	0.00
<b>Equipment operator's platform</b>				
A powerful hot-air heating system with intelligently arranged air vents close to the operator's hands and feet offers maximum comfort on the operator's platform	Option	2598527	USD	3,868.00
Operator's platform equipped with a height-adjustable stand-up seat for greater operator comfort	Option	2688479	USD	1,086.00
<b>Milling drum assembly options</b>				
The actual milling depth is determined by calculating the difference in readings from sensors on the side plate and sensors on the scraper. The actual milling depth is displayed on the LEVEL PRO ACTIVE panel.	Standard	2598665	USD	0.00
Overload sensors automatically lift the scraper whenever obstacles are detected that could damage the scraper.	Option	2598528	USD	1,615.00
Active floating position for the side plates on the left and right by continuously adjusting the milling depth and position of the plates. If necessary, the side plates can be briefly raised to prevent them from sinking into the soft ground.	Standard	2598531	USD	0.00
MCS BASIC extended with a hydraulically opening side door on the milling drum unit FB2000 (6 ft 7 in). With additional hydraulic cylinders, the side door can be easily unlocked and opened when changing the milling drum. This enables milling drums in MCS BASIC to be changed even faster.	Option	2614824	USD	9,446.00
MCS BASIC extended with a hydraulically opening side door on the milling drum unit FB2200 (7 ft 3 in). With additional hydraulic cylinders, the side door can be easily unlocked and opened when changing the milling drum. This enables milling drums in MCS BASIC to be changed even faster.	Standard	2688482	USD	0.00

Electrically switchable sectional water spray bar in the milling drum unit FB2200 (7 ft 3 in). Four areas can be controlled as required from the control panel (automatically controlled with WPT). This significantly reduces water consumption.	<b>Standard</b>	<b>2610096</b>	<b>USD</b>	<b>0.00</b>
Two wear protection rollers that can be attached to the side plates (left or right). The rollers protect the asphalt, curbs, and other surfaces from damage and prevent excessive wear to the side plates.	<b>Option</b>	<b>2662818</b>	<b>USD</b>	<b>801.00</b>
The mounting aid makes it much easier to change the milling drum assembly. Two extended wire ropes from the discharge conveyor are reattached and pull the primary conveyor out of the milling drum housing. This enables the aggregate to be changed without any additional effort. It saves time and work whenever the milling drum assembly needs to be changed.	<b>Option</b>	<b>2598534</b>	<b>USD</b>	<b>448.00</b>
Milling drum mounting and transport cart for milling drums from FB1500 (4 ft 11 in) to FB2500 (8 ft 2 in)	<b>Option</b>	<b>2312515</b>	<b>USD</b>	<b>6,541.00</b>
Transport roller set consisting of 4 heavy-duty rollers for easy removal of milling units from FB1500 to FB3800 on level surfaces.	<b>Option</b>	<b>2762958</b>	<b>USD</b>	<b>5,320.00</b>
<b>Options for belt conveyor</b>				
VCS – vacuum cutting system on the discharge conveyor for the extraction of fine material particles and water vapor from the sealed milling drum unit.	<b>Standard</b>	<b>2598495</b>	<b>USD</b>	<b>0.00</b>
Signal lights for visual "stop" and "go" instructions for the truck driver without the use of a horn. The signal lights can be folded in hydraulically from the operator's platform.	<b>Option</b>	<b>2598539</b>	<b>USD</b>	<b>4,913.00</b>
Support device for positioning the discharge conveyor on the flat bed truck	<b>Standard</b>	<b>60603</b>	<b>USD</b>	<b>0.00</b>
Semi-automatic ACTIVE CONVEYOR swing angle control that guides the discharge conveyor in construction site situations where milling is carried out at intersections or roundabouts	<b>Option</b>	<b>2598541</b>	<b>USD</b>	<b>1,235.00</b>
<b>Additional control unit LEVEL PRO</b>				
Additional 5" control panel for controlling the LEVEL PRO ACTIVE leveling system. Up to two additional control panels can be mounted in the rear lower area of the machines	<b>Option</b>	<b>2598631</b>	<b>USD</b>	<b>2,361.00</b>

2 Additional 7" control panel that displays the machine control and controls the LEVEL PRO ACTIVE levelling system. Up to two additional control panels can be mounted in the rear lower area of the machines	Standard	2598632	USD	0.00
Additional 2" control panel that can be programmed with up to 16 individually selected functions. Up to two additional control panels can be mounted on the outside railing of the operator's platform	Standard	2598664	USD	0.00
Two additional 2" control panels that can each be programmed with up to 16 individually selected functions. Up to two additional control panels can be mounted on the outside railing of the operator's platform	Option	2767151	USD	3,990.00
User-specific saving of individually adjustable machine settings such as the display configuration or the assignment of favorites buttons. The data can be saved on five different SMART KEY key fobs with tokens.	Option	2779470	USD	1,235.00
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE levelling system with levelling boom. Premounted and adjustable hydraulic cylinders on the left and right allow the use of a Sonic-Ski sensor that is able to scan a reference object up to 1,900 mm away from the milling edge. During machine transport, the sensor and cables are securely stowed in the corresponding transport boxes.	Option	2600969	USD	10,776.00
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with two hydraulic cylinder sensors for scanning a reference surface to the left and the right of the milling drum.	Standard	2598630	USD	0.00
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with multiplex scanning on the right. Two additional ultrasonic sensors scan reference surfaces in front of and behind the machine. During machine transport, the sensors and cables are securely stowed in a corresponding transport box.	Option	2598636	USD	5,157.00
Extension of the LEVEL PRO ACTIVE leveling system with multiplex scanning on the left and right. Four additional ultrasonic sensors scan reference surfaces in front of and behind the machine. During machine transport, the sensors and cables are securely stowed in a corresponding transport box.	Option	2598641	USD	10,016.00
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with pre-fitting for 3D milling with machines without a weather canopy. The pre-fitting equipment consists of robust and exactly positioned mounting adapters for a 3D system as well as sensor sockets for connecting the sensors to the LEVEL PRO ACTIVE system.	Option	2662822	USD	8,496.00

Extension of the LEVEL PRO ACTIVE leveling system with two linear laser sensors that can be installed using the pre-fitting equipment for 3D leveling.	<b>Option</b>	<b>2662826</b>	<b>USD</b>	<b>12,879.00</b>
<b>Water system</b>				
Powerful, hydraulically operated high pressure water cleaner with a maximum output of 15 l/min (4 gpm) at a pressure of 150 bar (2175 psi).	<b>Option</b>	<b>2598657</b>	<b>USD</b>	<b>2,538.00</b>
<b>Pick changing aids</b>				
Hydraulically driven pick ejector, including the holder and required electrical and hydraulic connections. Ideal for convenient, fast and low-noise pick changes.	<b>Standard</b>	<b>2598659</b>	<b>USD</b>	<b>0.00</b>
<b>Camera system</b>				
Four-fold camera system with an additional 10" control panel for an optimised view of the work processes being executed in front of and behind the machine as well as of the side plates, on the right and left. The camera images are displayed on the 10" control panel on the operator's platform.	<b>Standard</b>	<b>2598678</b>	<b>USD</b>	<b>0.00</b>
Eight-fold camera system with an additional 10" control panel for an optimised view of the work processes being executed in front of and behind the machine, of the side plates on the right and left and of the milled surface behind the milling drum unit. The camera images are displayed on the 10" control panel on the operator's platform.	<b>In lieu of 2598678</b>	<b>2598679</b>	<b>USD</b>	<b>4,004.00</b>
<b>Other devices</b>				
Dual starter system for maximum starting reliability with an additional automatic engine stop function that reduces diesel consumption.	<b>Option</b>	<b>2647215</b>	<b>USD</b>	<b>4,913.00</b>
Electrical diesel suction and pressure pump with 7.50 m (24 ft 7 in) suction hose. The machine can be refueled with up to 50 l/min (13 gal/min) from external diesel tanks.	<b>Option</b>	<b>2598663</b>	<b>USD</b>	<b>936.00</b>
License plate holder with LED lighting	<b>Option</b>	<b>2654224</b>	<b>USD</b>	<b>489.00</b>
Hydraulically powered sweeping unit consisting of a central brush and side brushes on both sides used to sweep the milled surface behind the machine. The direction in which the brushes rotate can be changed depending on the desired direction of sweeping. The unit can be folded up hydraulically from the operator's platform during transport or when maneuvering. It is operated via the 2" control panel that comes with the unit.	<b>Option</b>	<b>2779365</b>	<b>USD</b>	<b>45,437.00</b>
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	<b>Option</b>		<b>USD</b>	<b>81.00</b>
Spare part and application documentation English (EN)	<b>Option</b>		<b>USD</b>	<b>14.00</b>

## Price list

# W 210 Fi - 2500 mm milling drum

### Scope of supply – basic machine

- Engine: 6-cylinder diesel engine: CATERPILLAR C18 ATAAC
- Rated power at 1,950 r.p.m.: 563 kW / 755 HP / 766 PS
- Exhaust standard: EU Stage V / US EPA Tier 4f
- Standard milling width: 6 ft 7 in / 2,000 mm
- Theoretical milling depth: 1 ft 1 in / 330 mm

### STANDARD EQUIPMENT

- Base machine with engine
- Machine frame featuring a single wasp waist at the rear right and a dual wasp waist at the front
- DUAL SHIFT two-speed powershift transmission for efficient engine speeds combined with powerful milling drum speeds.
- Automatic pressure adjustment of the hydraulic pump for cylinder functions in accordance with performance requirements for reduced diesel consumption
- Hydraulically opening, soundproof engine cover
- Air compressor system
- Battery-operated hydraulic unit for auxiliary drive
- Two cooling fans to minimize power consumption of the cooling system

### MILLING DRUM HOUSING

- Adjustment of material depressor contact pressure via the control panel or automatically via the MILL ASSIST feature to reduce chunk formation
- Electrical adjustment of scraper contact pressure via the control panel
- Automatically controlled locking feature of scraper
- Milling drum rotation device with electro-hydraulic milling drum drive for slowly turning the milling drum during pick replacement.
- Single-piece water spray bar in the milling drum unit for reliable pick cooling and to prevent dust development
- Automatic control of the water quantity via the MILL ASSIST feature
- Height adjustment stroke increased by 150 mm to facilitate pick replacement and the exchange of milling drum units
- Pre-fitting to allow the quick exchange of milling drum units.
- Hydraulically lifting side plates, clearance right 450 mm (1 ft 6 in), clearance left 330 mm (1 ft 1 in)

### LOADING OF MILLED MATERIAL

- Increased conveyor swing angles of 65° each to the left and right
- Discharge conveyor with adjustable conveying speed and two slewing speeds for precise loading
- Boost feature for a temporary increase of the belt speed and conveying performance of the discharge conveyor by 20%
- Water spray system in the primary conveyor
- Larger conveyor pump for a constant belt speed even at a low engine speed of 1300 rpm

### MACHINE CONTROL AND LEVELLING SYSTEM

- User-friendly control panel including 7" color screen
- LEVEL PRO ACTIVE leveling system with numerous automated and complementary operator relieving features
- LEVEL PRO ACTIVE - automatic height control in transport mode
- LEVEL PRO ACTIVE - ramp milling and auto-start feature for the second milling cut
- RAPID SLOPE cross-slope sensor for LEVEL PRO ACTIVE leveling system
- MILL ASSIST assistance system for automatic adjustment of the milling drum speed in accordance with the main area of application and the parameters selected in terms of engine load, advance rate, milling volume and quality of the milling pattern.

- Automatic start-stop feature of the milling drum to reduce diesel consumption
- Comprehensive machine diagnostics on the control panel including, for example, a diagnostic system for the CAN bus
- Voltmeter integrated into the control panel for voltage measurement in the event of a malfunction
- Two control panels for operating functions performed by ground crew

#### **OPERATOR 'S PLATFORM**

- Convenient access to the operator's platform, left and right
- Anti-vibration mounted operator's platform across the full width of the machine including fold-out railing, right
- Electrical control cabinet on the operator's platform for optimum accessibility and fast troubleshooting
- Electrical level indicator for the water tank on the external control panels
- Time display on the main control panel and on the exterior control panels
- Two mirrors at the front, one mirror at the rear of the machine

#### **TRACK UNIT AND HEIGHT ADJUSTMENT**

- PTS – automatic alignment of the machine parallel to the pavement surface
- ISC – intelligent track speed control including hydraulic four-track drive
- Fourfold full-floating axle for high machine stability
- High travel speed of up to 100 m / min at low engine speeds (1,350 rpm), reduced diesel consumption and low noise emissions.
- Lifting speed of the height adjustment feature increased by 60%

#### **MISCELLANEOUS**

- "Welcome" and "Go home" lights feature in the area of the operator's platform and access
- Large storage compartment on the machine for pick containers
- High-pressure water system with automatic on/off function, 261 psi / 18 bar, 17 gal.min / 67 l/min
- Good accessibility to all maintenance points on the engine station
- Pneumatic hammer with pick extractor/insertor
- Large tool kit in lockable tool box
- A total of six EMERGENCY STOP switches in appropriate positions on the machine
- Pre-fitting for installing the WITOS FleetView control unit
- European type certification, EuroTest mark and CE conformity

**List price ex subsidiary Wirtgen America**

**USD**

**876,063.00**

Mandatory Options				
Milling drum housing				
FB2500 (8 ft 2 in) MCS BASIC quick-change milling drum unit that enables milling drums of the same milling width to be changed particularly quickly.	Standard	2602549	USD	0.00
Milling drums / milling units				
Milling drum MCS BASIC with milling width 2500 mm / 8 ft / 2 in, milling depth max. 350 mm / 1 ft 2 in, tool spacing 15 mm / 19/32 in, equipped with quick-change toolholder system HT22 and 193 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.	Standard	2661532	USD	0.00
OPERATOR'S PLATFORM				
Anti-vibration-mounted operator's platform with easy-to-read control panels, functional stand-up seat and a large, lockable storage compartment with a capacity of approx 69 gal / 260 liters	Standard	2662840	USD	0.00
Anti-vibration-mounted operator's platform with easy-to-read control panels, functional stand-up seat and a large, lockable storage compartment with a capacity of approx 69 gal/260 liters. A hydraulically height-adjustable weather canopy with transparent side weather protection elements protects the operator from the wind and weather.	In lieu of 2662840	2598429	USD	16,041.00
Material transport				
Heavy-duty 7,900 mm (25 ft 11 in) long discharge conveyor with conveyor belt system 850 mm (2 ft 9 in) and hydraulic folding device for shortening the transport length	Standard	2598432	USD	0.00
Water tank filling				
Additional water tank filling from the rear of the machine using a shut-off cock.	Standard	2549116	USD	0.00
Additional water tank filling from the rear of the machine with a powerful, hydraulically operated filler pump	Option	2598434	USD	3,909.00
Paint				
Painting in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7015.	Standard	2598435	USD	0.00
Film coating in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7019	Option	2779482	USD	2,972.00
The film coating is applied in RAL colors and design according to the customer's wishes. Film coating provides protection against mechanical and weather-related damage and can be removed without leaving any marks, if required	Option	2728766	USD	4,126.00

<b>Technical documentation</b>

Equipment Options				
Additional weight				
Two-piece additional weight at the rear of the machine totaling 1,600 kg (3,527 lbs) which enables the machine to be individually ballasted. The individual weights of 850 kg and 750 kg can be easily and quickly inserted and fastened to the rear of the machine.	Standard	2598492	USD	0.00
Additional weight				
Large sized storage compartment for 69 pick containers mounted at the rear of the machine instead of the standard storage compartment. The storage compartment is splash-proof and additionally contains a completely sealed area to safely store electronic components such as leveling sensors or tool extractors.	Option	2598494	USD	3,216.00
Storage compartment on both the rear track units for 8 pick containers	Standard	2598662	USD	0.00
Equipment operator's platform				
A powerful hot-air heating system with intelligently arranged air vents close to the operator's hands and feet offers maximum comfort on the operator's platform	Option	2598527	USD	3,868.00
Operator's platform equipped with a height-adjustable stand-up seat for greater operator comfort	Option	2688479	USD	1,086.00
Milling drum assembly options				
The actual milling depth is determined by calculating the difference in readings from sensors on the side plate and sensors on the scraper. The actual milling depth is displayed on the LEVEL PRO ACTIVE panel.	Standard	2598665	USD	0.00
Overload sensors automatically lift the scraper whenever obstacles are detected that could damage the scraper.	Option	2598528	USD	1,615.00
Active floating position for the side plates on the left and right by continuously adjusting the milling depth and position of the plates. If necessary, the side plates can be briefly raised to prevent them from sinking into the soft ground.	Standard	2598531	USD	0.00
MCS BASIC extended with a hydraulically opening side door on the milling drum unit FB2500 (8 ft 2 in). With additional hydraulic cylinders, the side door can be easily unlocked and opened when changing the milling drum. This enables milling drums in MCS BASIC to be changed even faster.	Standard	2688484	USD	6,960.00

Sectional, electrically controlled water spray bar in the milling drum assembly FB2500 (8 ft 2 in). Four areas can be controlled from the control panel as needed. This reduces water consumption enormously.	<b>Standard</b>	<b>2610097</b>	<b>USD</b>	<b>2,130.00</b>
Two wear protection rollers that can be attached to the side plates (left or right). The rollers protect the asphalt, curbs, and other surfaces from damage and prevent excessive wear to the side plates.	<b>Option</b>	<b>2662818</b>	<b>USD</b>	<b>801.00</b>
The mounting aid makes it much easier to change the milling drum assembly. Two extended wire ropes from the discharge conveyor are reattached and pull the primary conveyor out of the milling drum housing. This enables the aggregate to be changed without any additional effort. It saves time and work whenever the milling drum assembly needs to be changed.	<b>Option</b>	<b>2598534</b>	<b>USD</b>	<b>448.00</b>
Milling drum mounting and transport cart for milling drums from FB1500 (4 ft 11 in) to FB2500 (8 ft 2 in)	<b>Option</b>	<b>2312515</b>	<b>USD</b>	<b>6,541.00</b>
Transport roller set consisting of 4 heavy-duty rollers for easy removal of milling units from FB1500 to FB3800 on level surfaces.	<b>Option</b>	<b>2762958</b>	<b>USD</b>	<b>5,320.00</b>
<b>Options for belt conveyor</b>				
VCS – vacuum cutting system on the discharge conveyor for the extraction of fine material particles and water vapor from the sealed milling drum unit.	<b>Standard</b>	<b>2598495</b>	<b>USD</b>	<b>0.00</b>
Signal lights for visual "stop" and "go" instructions for the truck driver without the use of a horn. The signal lights can be folded in hydraulically from the operator's platform.	<b>Option</b>	<b>2598539</b>	<b>USD</b>	<b>4,913.00</b>
Support device for positioning the discharge conveyor on the flat bed truck	<b>Standard</b>	<b>60603</b>	<b>USD</b>	<b>0.00</b>
Semi-automatic ACTIVE CONVEYOR swing angle control that guides the discharge conveyor in construction site situations where milling is carried out at intersections or roundabouts	<b>Option</b>	<b>2598541</b>	<b>USD</b>	<b>1,235.00</b>
<b>Additional control unit LEVEL PRO</b>				
Additional 5" control panel for controlling the LEVEL PRO ACTIVE leveling system. Up to two additional control panels can be mounted in the rear lower area of the machines	<b>Option</b>	<b>2598631</b>	<b>USD</b>	<b>2,361.00</b>
2 Additional 7" control panel that displays the machine control and controls the LEVEL PRO ACTIVE levelling system. Up to two additional control panels can be mounted in the rear lower area of the machines	<b>Standard</b>	<b>2598632</b>	<b>USD</b>	<b>0.00</b>
Additional 2" control panel that can be programmed with up to 16 individually selected functions. Up to two additional control panels can be mounted on the outside railing of the operator's platform	<b>Standard</b>	<b>2598664</b>	<b>USD</b>	<b>0.00</b>

Two additional 2" control panels that can each be programmed with up to 16 individually selected functions. Up to two additional control panels can be mounted on the outside railing of the operator's platform	<b>Option</b>	<b>2767151</b>	<b>USD</b>	<b>3,990.00</b>
User-specific saving of individually adjustable machine settings such as the display configuration or the assignment of favorites buttons. The data can be saved on five different SMART KEY key fobs with tokens.	<b>Option</b>	<b>2779470</b>	<b>USD</b>	<b>1,235.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE levelling system with levelling boom. Premounted and adjustable hydraulic cylinders on the left and right allow the use of a Sonic-Ski sensor that is able to scan a reference object up to 1,900 mm away from the milling edge. During machine transport, the sensor and cables are securely stowed in the corresponding transport boxes.	<b>Option</b>	<b>2600969</b>	<b>USD</b>	<b>10,776.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with two hydraulic cylinder sensors for scanning a reference surface to the left and the right of the milling drum.	<b>Standard</b>	<b>2598630</b>	<b>USD</b>	<b>0.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with multiplex scanning on the right. Two additional ultrasonic sensors scan reference surfaces in front of and behind the machine. During machine transport, the sensors and cables are securely stowed in a corresponding transport box.	<b>Option</b>	<b>2598636</b>	<b>USD</b>	<b>5,157.00</b>
Extension of the LEVEL PRO ACTIVE leveling system with multiplex scanning on the left and right. Four additional ultrasonic sensors scan reference surfaces in front of and behind the machine. During machine transport, the sensors and cables are securely stowed in a corresponding transport box.	<b>Option</b>	<b>2598641</b>	<b>USD</b>	<b>10,016.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with pre-fitting for 3D milling with machines without a weather canopy. The pre-fitting equipment consists of robust and exactly positioned mounting adapters for a 3D system as well as sensor sockets for connecting the sensors to the LEVEL PRO ACTIVE system.	<b>Option</b>	<b>2662822</b>	<b>USD</b>	<b>8,496.00</b>
Extension of the LEVEL PRO ACTIVE leveling system with two linear laser sensors that can be installed using the pre-fitting equipment for 3D leveling.	<b>Option</b>	<b>2662826</b>	<b>USD</b>	<b>12,879.00</b>

<b>Water system</b>				
Powerful, hydraulically operated high pressure water cleaner with a maximum output of 15 l/min (4 gpm) at a pressure of 150 bar (2175 psi).	<b>Option</b>	<b>2598657</b>	<b>USD</b>	<b>2,538.00</b>
<b>Pick changing aids</b>				
Hydraulically driven pick ejector, including the holder and required electrical and hydraulic connections. Ideal for convenient, fast and low-noise pick changes.	<b>Standard</b>	<b>2598659</b>	<b>USD</b>	<b>0.00</b>
<b>Camera system</b>				
Four-fold camera system with an additional 10" control panel for an optimised view of the work processes being executed in front of and behind the machine as well as of the side plates, on the right and left. The camera images are displayed on the 10" control panel on the operator's platform.	<b>Standard</b>	<b>2598678</b>	<b>USD</b>	<b>0.00</b>
Eight-fold camera system with an additional 10" control panel for an optimised view of the work processes being executed in front of and behind the machine, of the side plates on the right and left and of the milled surface behind the milling drum unit. The camera images are displayed on the 10" control panel on the operator's platform.	<b>In lieu of 2598678</b>	<b>2598679</b>	<b>USD</b>	<b>4,004.00</b>
<b>Other devices</b>				
Dual starter system for maximum starting reliability with an additional automatic engine stop function that reduces diesel consumption.	<b>Option</b>	<b>2647215</b>	<b>USD</b>	<b>4,913.00</b>
Electrical diesel suction and pressure pump with 7.50 m (24 ft 7 in) suction hose. The machine can be refueled with up to 50 l/min (13 gal/min) from external diesel tanks.	<b>Option</b>	<b>2598663</b>	<b>USD</b>	<b>936.00</b>
License plate holder with LED lighting	<b>Option</b>	<b>2654224</b>	<b>USD</b>	<b>489.00</b>
Hydraulically powered sweeping unit consisting of a central brush and side brushes on both sides used to sweep the milled surface behind the machine. The direction in which the brushes rotate can be changed depending on the desired direction of sweeping. The unit can be folded up hydraulically from the operator's platform during transport or when maneuvering. It is operated via the 2" control panel that comes with the unit.	<b>Option</b>	<b>2779365</b>	<b>USD</b>	<b>45,437.00</b>
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	<b>Option</b>		<b>USD</b>	<b>81.00</b>
Spare part and application documentation English (EN)	<b>Option</b>		<b>USD</b>	<b>14.00</b>

**Price list****W 220 Fi - 2200 mm milling drum****Scope of supply – basic machine**

- Engine: 6-cylinder diesel engine: CATERPILLAR C18 ATAAC
- Rated power at 1,950 r.p.m.: 597 KW / 801 HP / 812 PS
- Exhaust standard: EU Stage V / US EPA Tier 4f
- Standard milling width: 7 ft 3 in / 2,200 mm
- Maximum milling depth: 1 ft 2 in / 350 mm

**STANDARD EQUIPMENT**

- Base machine with engine
- Machine frame featuring a single wasp waist at the rear right and a dual wasp waist at the front
- DUAL SHIFT two-speed powershift transmission for efficient engine speeds combined with powerful milling drum speeds.
- Automatic pressure adjustment of the hydraulic pump for cylinder functions in accordance with performance requirements for reduced diesel consumption
- Hydraulically opening, soundproof engine cover
- Air compressor system
- Battery-operated hydraulic unit for auxiliary drive
- Two cooling fans to minimize power consumption of the cooling system

**MILLING DRUM HOUSING**

- Adjustment of material depressor contact pressure via the control panel or automatically via the MILL ASSIST feature to reduce chunk formation
- Electrical adjustment of scraper contact pressure via the control panel
- Automatically controlled locking feature of scraper
- Milling drum rotation device with electro-hydraulic milling drum drive for slowly turning the milling drum during pick replacement.
- Single-piece water spray bar in the milling drum unit for reliable pick cooling and to prevent dust development
- Automatic control of the water quantity via the MILL ASSIST feature
- Height adjustment stroke increased by 200 mm to facilitate pick replacement and the exchange of milling drum units
- Pre-fitting to allow the quick exchange of milling drum units.
- Hydraulically lifting side plates, clearance right 450 mm (1 ft 6 in), clearance left 330 mm (1 ft 1 in)

**LOADING OF MILLED MATERIAL**

- Increased conveyor swing angles of 65° each to the left and right
- Discharge conveyor with adjustable conveying speed and two slewing speeds for precise loading
- Boost feature for a temporary increase of the belt speed and conveying performance of the discharge conveyor by 20%
- Water spray system in the primary conveyor
- Larger conveyor pump for a constant belt speed even at a low engine speed of 1300 rpm

**MACHINE CONTROL AND LEVELLING SYSTEM**

- User-friendly control panel including 7" color screen
- LEVEL PRO ACTIVE leveling system with numerous automated and complementary operator relieving features
- LEVEL PRO ACTIVE - automatic height control in transport mode
- LEVEL PRO ACTIVE - ramp milling and auto-start feature for the second milling cut
- RAPID SLOPE cross-slope sensor for LEVEL PRO ACTIVE leveling system
- MILL ASSIST assistance system for automatic adjustment of the milling drum speed in accordance with the main area of application and the parameters selected in terms of engine load, advance rate, milling volume and quality of the milling pattern.

- Automatic start-stop feature of the milling drum to reduce diesel consumption
- Comprehensive machine diagnostics on the control panel including, for example, a diagnostic system for the CAN bus
- Voltmeter integrated into the control panel for voltage measurement in the event of a malfunction
- Two control panels for operating functions performed by ground crew

#### OPERATOR 'S PLATFORM

- Convenient access to the operator's platform, left and right
- Anti-vibration mounted operator's platform across the full width of the machine including fold-out railing, right
- Electrical control cabinet on the operator's platform for optimum accessibility and fast troubleshooting
- Electrical level indicator for the water tank on the external control panels
- Time display on the main control panel and on the exterior control panels
- Two mirrors at the front, one mirror at the rear of the machine

#### TRACK UNIT AND HEIGHT ADJUSTMENT

- PTS – automatic alignment of the machine parallel to the pavement surface
- ISC – intelligent track speed control including hydraulic four-track drive
- Fourfold full-floating axle for high machine stability
- High travel speed of up to 88 m / min at low engine speeds (1,350 rpm), reduced diesel consumption and low noise emissions.

#### MISCELLANEOUS

- "Welcome" and "Go home" lights feature in the area of the operator's platform and access
- Large storage compartment on the machine for pick containers
- High-pressure water system with automatic on/off function, 261 psi / 18 bar, 17 gal.min / 67 l/min
- Good accessibility to all maintenance points on the engine station
- Pneumatic hammer with pick extractor/insertor
- Large tool kit in lockable tool box
- A total of six EMERGENCY STOP switches in appropriate positions on the machine
- Pre-fitting for installing the WITOS FleetView control unit
- European type certification, EuroTest mark and CE conformity

<b>List price ex subsidiary Wirtgen America</b>	<b>USD</b>	<b>930,050.00</b>
---	------------	-------------------

#### Mandatory Options

##### Milling drum housing

Wear-resistant, weight-optimized milling drum housing MCS BASIC FB2200 (7 ft 3 in) with pre-fitting enabling a quick and easy change of the milling drums with varying spacings, without milling drum.	<b>Standard</b>	<b>2667113</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

##### Milling drums / milling units

Milling drum MCS BASIC with milling width 2200 mm / 7 ft / 3 in, milling depth max. 320 mm / 1ft / 0,5 in, tool spacing 15 mm / 19/32 in, equipped with quick-change toolholder system HT22 and 180 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.	<b>Standard</b>	<b>2679870</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

##### OPERATOR'S PLATFORM

Anti-vibration-mounted operator's platform with easy-to-read control panels, functional stand-up seat and a large, lockable storage compartment with a capacity of approx 69 gal / 260 liters	<b>Standard</b>	<b>2700694</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

Anti-vibration-mounted operator's platform with easy-to-read control panels, functional stand-up seat and a large, lockable storage compartment with a capacity of approx 69 gal/260 liters. A hydraulically height-adjustable weather canopy with transparent side weather protection elements protects the operator from the wind and weather.	<b>In lieu of 2700694</b>	<b>2700695</b>	<b>USD</b>	<b>16,041.00</b>
<b>Material transport</b>				
Heavy-duty 26 ft 9 in (8,150 mm) long discharge conveyor with 3 ft 3 in (1,000 mm) conveyor belt system and hydraulic folding device to shorten the transport length	<b>Standard</b>	<b>2667116</b>	<b>USD</b>	<b>0.00</b>
Robust 26 ft 9 in / 8,150 mm long discharge conveyor with conveyor belt system 3 ft 3 in / 1,000 mm	<b>Option</b>	<b>2718941</b>	<b>USD</b>	<b>-13,965.00</b>
<b>Water tank filling</b>				
Additional water tank filling from the rear of the machine using a shut-off cock.	<b>Standard</b>	<b>2667152</b>	<b>USD</b>	<b>0.00</b>
Additional water tank filling from the rear of the machine with a powerful, hydraulically operated filler pump	<b>Option</b>	<b>2667153</b>	<b>USD</b>	<b>3,909.00</b>
<b>Paint</b>				
Film coating in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7019	<b>Standard</b>	<b>2700380</b>	<b>USD</b>	<b>0.00</b>
The film coating is applied in RAL colors and design according to the customer's wishes. Film coating provides protection against mechanical and weather-related damage and can be removed without leaving any marks, if required	<b>Option</b>	<b>2700381</b>	<b>USD</b>	<b>1,154.00</b>
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	<b>Standard</b>	<b>2456347</b>	<b>USD</b>	<b>0.00</b>
<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	<b>Standard</b>	<b>2770403</b>	<b>USD</b>	<b>0.00</b>

The WIRTGEN PERFORMANCE TRACKER WPT is a laser and satellite-supported measuring system for precise milling performance determination for machines with FB2000, FB 220 or FB2500 without a weather canopy or with an operator's cabin. Two laser scanners measure the actual milling width and milling depth over the distance of the milling path. The milling performance results are automatically sent to the corresponding users via the WITOS interface with precise GPS machine position data and consumption data such as diesel consumption, water consumption, tool consumption and truck loads, in an evaluation and then by e-mail. The milling performance reports that include an image of the milling position can also be used as an allowance report. The usability of WITOS hardware components for the existing mobile radio standard is guaranteed for 3 years from the date of delivery.	<b>Option</b>	<b>2787665</b>	<b>USD</b>	<b>47,066.00</b>
<b>Machine lighting</b>				<b>0.00</b>
Extended lighting system consisting of 21 extremely powerful LED working lights for optimum illumination of the working area. Total light output of the working lights is approx. 43,600 lumens	<b>Standard</b>	<b>2667172</b>	<b>USD</b>	<b>0.00</b>
Extended lighting system consisting of 21 extremely powerful LED working lights for optimum illumination of the working area. Total light output of the working lights is approximately 43,600 lumens. The additional lighting balloon is powered via the machine's 24V electrical power supply and achieves an additional light output of 50,000 lumens	<b>In lieu of 266172</b>	<b>2667173</b>	<b>USD</b>	<b>4,818.00</b>
<b>Equipment Options</b>				
<b>Additional weight</b>				
Two additional weights located at the rear of the machine with a total weight of 1.500 kg (3,307 lbs) for individual machine ballasting. The individual weights, each weighing 750 kg (1,653 lbs), can be easily and quickly inserted and fastened to the rear of the machine.	<b>Option</b>	<b>2667175</b>	<b>USD</b>	<b>6,731.00</b>
<b>Additional weight</b>				
Large, generously sized storage compartment for 72 pick containers at the rear of the machine instead of the standard storage compartment. The storage compartment is lockable, splash-proof and additionally contains a completely sealed area to safely store electronic components, such as levelling sensors or pick ejectors	<b>Option</b>	<b>2667177</b>	<b>USD</b>	<b>3,216.00</b>
Storage compartment close to both rear track units for 10 pick containers	<b>Standard</b>	<b>2700383</b>	<b>USD</b>	<b>0.00</b>

<b>Equipment operator's platform</b>				
A powerful hot-air heating system with intelligently arranged air vents close to the operator's hands and feet offers maximum comfort on the operator's platform	<b>Option</b>	<b>2745118</b>	<b>USD</b>	<b>3,868.00</b>
Operator's platform equipped with a height-adjustable stand-up seat for greater operator comfort	<b>Standard</b>	<b>2688479</b>	<b>USD</b>	<b>0.00</b>
<b>Milling drum assembly options</b>				
The actual milling depth is determined by calculating the difference in readings from sensors on the side plate and sensors on the scraper. The actual milling depth is displayed on the LEVEL PRO ACTIVE panel.	<b>Standard</b>	<b>2598665</b>	<b>USD</b>	<b>0.00</b>
Overload sensors automatically lift the scraper whenever obstacles are detected that could damage the scraper.	<b>Option</b>	<b>2667192</b>	<b>USD</b>	<b>1,615.00</b>
Active floating position for the side plates on the left and right by continuously adjusting the milling depth and position of the plates. If necessary, the side plates can be briefly raised to prevent them from sinking into the soft ground.	<b>Standard</b>	<b>2598531</b>	<b>USD</b>	<b>0.00</b>
Extension of MCS BASIC with one hydraulically opening side panel on the milling drum unit FB2200/FB2500 (7 ft 3 in/8 ft 2 in). An additional hydraulic cylinder enables the MCS side panel to be easily opened when changing milling drums. This enables MCS BASIC milling drums to be changed even faster.	<b>Standard</b>	<b>2667195</b>	<b>USD</b>	<b>0.00</b>
Electrically switchable sectional water spray bar in the milling drum unit FB2200 (7 ft 3 in). Four areas can be controlled as required from the control panel (automatically controlled with WPT). This significantly reduces water consumption.	<b>Standard</b>	<b>2667199</b>	<b>USD</b>	<b>0.00</b>
Two wear protection rollers that can be attached to the side plates (left or right). The rollers protect the asphalt, curbs, and other surfaces from damage and prevent excessive wear to the side plates.	<b>Option</b>	<b>2662818</b>	<b>USD</b>	<b>801.00</b>
The mounting aid makes it much easier to change the milling drum assembly. Two extended wire ropes from the discharge conveyor are reattached and pull the primary conveyor out of the milling drum housing. This enables the aggregate to be changed without any additional effort. It saves time and work whenever the milling drum assembly needs to be changed.	<b>Standard</b>	<b>2685194</b>	<b>USD</b>	<b>0.00</b>
Transport carriage for milling drum units from FB2200 (7 ft 3 in) to FB4400 (14 ft 5 in) to make it easier to change milling drum units and handle them in the workshop or on the job site.	<b>Option</b>	<b>2282163</b>	<b>USD</b>	<b>17,684.00</b>

Milling drum mounting and transport cart for milling drums from FB1500 (4 ft 11 in) to FB2500 (8 ft 2 in)	<b>Option</b>	<b>2312515</b>	<b>USD</b>	<b>6,541.00</b>
Transport roller set consisting of 4 heavy-duty rollers for easy removal of milling units from FB1500 to FB3800 on level surfaces.	<b>Option</b>	<b>2762958</b>	<b>USD</b>	<b>5,320.00</b>
<b>Options for belt conveyor</b>				
VCS – vacuum cutting system on the discharge conveyor for the extraction of fine material particles and water vapor from the sealed milling drum unit.	<b>Standard</b>	<b>2667207</b>	<b>USD</b>	<b>0.00</b>
Signal lights for visual "stop" and "go" instructions for the truck driver without the use of a horn. The signal lights can be folded in hydraulically from the operator's platform.	<b>Option</b>	<b>2598539</b>	<b>USD</b>	<b>4,913.00</b>
Semi-automatic ACTIVE CONVEYOR swing angle control that guides the discharge conveyor in construction site situations where milling is carried out at intersections or roundabouts	<b>Standard</b>	<b>2703705</b>	<b>USD</b>	<b>0.00</b>
Support device for positioning the discharge conveyor on the flat bed truck	<b>Standard</b>	<b>60603</b>	<b>USD</b>	<b>0.00</b>
<b>Additional control unit LEVEL PRO</b>				
Additional 5" control panel for controlling the LEVEL PRO ACTIVE leveling system. Up to two additional control panels can be mounted in the rear lower area of the machines	<b>Option</b>	<b>2598631</b>	<b>USD</b>	<b>2,361.00</b>
2 Additional 7" control panel that displays the machine control and controls the LEVEL PRO ACTIVE levelling system. Up to two additional control panels can be mounted in the rear lower area of the machines	<b>Standard</b>	<b>2598632</b>	<b>USD</b>	<b>0.00</b>
Additional 2" control panel that can be programmed with up to 16 individually selected functions. Up to two additional control panels can be mounted on the outside railing of the operator's platform	<b>Standard</b>	<b>2598664</b>	<b>USD</b>	<b>0.00</b>
Two additional 2" control panels that can each be programmed with up to 16 individually selected functions. Up to two additional control panels can be mounted on the outside railing of the operator's platform	<b>Option</b>	<b>2767151</b>	<b>USD</b>	<b>3,990.00</b>
User-specific saving of individually adjustable machine settings such as the display configuration or the assignment of favorites buttons. The data can be saved on five different SMART KEY key fobs with tokens.	<b>Standard</b>	<b>2779470</b>	<b>USD</b>	<b>0.00</b>

<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE levelling system with levelling boom. Premounted and adjustable hydraulic cylinders on the left and right allow the use of a Sonic-Ski sensor that is able to scan a reference object up to 1,900 mm away from the milling edge. During machine transport, the sensor and cables are securely stowed in the corresponding transport boxes.	<b>Option</b>	<b>2667237</b>	<b>USD</b>	<b>10,776.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with two hydraulic cylinder sensors for scanning a reference surface to the left and the right of the milling drum.	<b>Standard</b>	<b>2667241</b>	<b>USD</b>	<b>0.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with multiplex scanning on the right. Two additional ultrasonic sensors scan reference surfaces in front of and behind the machine. During machine transport, the sensors and cables are securely stowed in a corresponding transport box.	<b>Option</b>	<b>2673212</b>	<b>USD</b>	<b>5,157.00</b>
Extension of the LEVEL PRO ACTIVE leveling system with multiplex scanning on the left and right. Four additional ultrasonic sensors scan reference surfaces in front of and behind the machine. During machine transport, the sensors and cables are securely stowed in a corresponding transport box.	<b>Option</b>	<b>2673213</b>	<b>USD</b>	<b>10,016.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with pre-fitting for 3D milling with machines without a weather canopy. The pre-fitting equipment consists of robust and exactly positioned mounting adapters for a 3D system as well as sensor sockets for connecting the sensors to the LEVEL PRO ACTIVE system.	<b>Option</b>	<b>2667342</b>	<b>USD</b>	<b>8,496.00</b>
Extension of the LEVEL PRO ACTIVE leveling system with pre-fitting for 3D milling with machines with a weather canopy. The pre-fitting equipment consists of robust and exactly positioned mounting adapters for a 3D system as well as sensor sockets for connecting the sensors to the LEVEL PRO ACTIVE system.	<b>Option</b>	<b>2667343</b>	<b>USD</b>	<b>2,131.00</b>
<b>Water system</b>				
Powerful, hydraulically operated high pressure water cleaner with a maximum output of 15 l/min (4 gpm) at a pressure of 150 bar (2175 psi).	<b>Option</b>	<b>2667357</b>	<b>USD</b>	<b>2,538.00</b>

<b>Pick changing aids</b>				
One hydraulically powered pick ejector, including the required electrical and hydraulic connections. Ideal for convenient, fast and low-noise pick changes.	<b>Standard</b>	<b>2745119</b>	<b>USD</b>	<b>0.00</b>
Two hydraulically powered pick ejectors, including the required electrical and hydraulic connections. Ideal for convenient, fast and low-noise pick changes.	<b>In lieu of 2745119</b>	<b>2793518</b>	<b>USD</b>	<b>2,484.00</b>
<b>Camera system</b>				
Two-fold camera system with one camera at the discharge conveyor and one camera with a view of the rear area. The camera images are displayed on the standard 7" control panel on the operator's platform.	<b>In lieu of 2673434</b>	<b>2673433</b>	<b>USD</b>	<b>-4,031.00</b>
Four-fold camera system with an additional 10" control panel for an optimised view of the work processes being executed in front of and behind the machine as well as of the side plates, on the right and left. The camera images are displayed on the 10" control panel on the operator's platform.	<b>Standard</b>	<b>2673434</b>	<b>USD</b>	<b>0.00</b>
Eight-fold camera system with an additional 10" control panel for an optimised view of the work processes being executed in front of and behind the machine, of the side plates on the right and left and of the milled surface behind the milling drum unit. The camera images are displayed on the 10" control panel on the operator's platform.	<b>In lieu of 2673434</b>	<b>2673435</b>	<b>USD</b>	<b>4,004.00</b>
<b>Other devices</b>				
Dual starter system for maximum starting reliability with an additional automatic engine stop function that reduces diesel consumption.	<b>Option</b>	<b>2745138</b>	<b>USD</b>	<b>4,913.00</b>
Electrical diesel suction and pressure pump with 7.50 m (24 ft 7 in) suction hose. The machine can be refueled with up to 50 l/min (13 gal/min) from external diesel tanks.	<b>Option</b>	<b>2673456</b>	<b>USD</b>	<b>936.00</b>
License plate holder with LED lighting	<b>Option</b>	<b>2654224</b>	<b>USD</b>	<b>489.00</b>
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	<b>Option</b>		<b>USD</b>	<b>81.00</b>
Spare part and application documentation English (EN)	<b>Option</b>		<b>USD</b>	<b>14.00</b>

## Price list

# W 220 Fi - 2500 mm milling drum

### Scope of supply – basic machine

- Engine: 6-cylinder diesel engine: CATERPILLAR C18 ATAAC
- Rated power at 1,950 r.p.m.: 597 KW / 801 HP / 812 PS
- Exhaust standard: EU Stage V / US EPA Tier 4f
- Standard milling width: 7 ft 3 in / 2,200 mm
- Maximum milling depth: 1 ft 2 in / 350 mm

### STANDARD EQUIPMENT

- Base machine with engine
- Machine frame featuring a single wasp waist at the rear right and a dual wasp waist at the front
- DUAL SHIFT two-speed powershift transmission for efficient engine speeds combined with powerful milling drum speeds.
- Automatic pressure adjustment of the hydraulic pump for cylinder functions in accordance with performance requirements for reduced diesel consumption
- Hydraulically opening, soundproof engine cover
- Air compressor system
- Battery-operated hydraulic unit for auxiliary drive
- Two cooling fans to minimize power consumption of the cooling system

### MILLING DRUM HOUSING

- Adjustment of material depressor contact pressure via the control panel or automatically via the MILL ASSIST feature to reduce chunk formation
- Electrical adjustment of scraper contact pressure via the control panel
- Automatically controlled locking feature of scraper
- Milling drum rotation device with electro-hydraulic milling drum drive for slowly turning the milling drum during pick replacement.
- Single-piece water spray bar in the milling drum unit for reliable pick cooling and to prevent dust development
- Automatic control of the water quantity via the MILL ASSIST feature
- Height adjustment stroke increased by 200 mm to facilitate pick replacement and the exchange of milling drum units
- Pre-fitting to allow the quick exchange of milling drum units.
- Hydraulically lifting side plates, clearance right 450 mm (1 ft 6 in), clearance left 330 mm (1 ft 1 in)

### LOADING OF MILLED MATERIAL

- Increased conveyor swing angles of 65° each to the left and right
- Discharge conveyor with adjustable conveying speed and two slewing speeds for precise loading
- Boost feature for a temporary increase of the belt speed and conveying performance of the discharge conveyor by 20%
- Water spray system in the primary conveyor
- Larger conveyor pump for a constant belt speed even at a low engine speed of 1300 rpm

### MACHINE CONTROL AND LEVELLING SYSTEM

- User-friendly control panel including 7" color screen
- LEVEL PRO ACTIVE leveling system with numerous automated and complementary operator relieving features
- LEVEL PRO ACTIVE - automatic height control in transport mode
- LEVEL PRO ACTIVE - ramp milling and auto-start feature for the second milling cut
- RAPID SLOPE cross-slope sensor for LEVEL PRO ACTIVE leveling system
- MILL ASSIST assistance system for automatic adjustment of the milling drum speed in accordance with the main area of application and the parameters selected in terms of engine load, advance rate, milling volume and quality of the milling pattern.

- Automatic start-stop feature of the milling drum to reduce diesel consumption
- Comprehensive machine diagnostics on the control panel including, for example, a diagnostic system for the CAN bus
- Voltmeter integrated into the control panel for voltage measurement in the event of a malfunction
- Two control panels for operating functions performed by ground crew

#### OPERATOR 'S PLATFORM

- Convenient access to the operator's platform, left and right
- Anti-vibration mounted operator's platform across the full width of the machine including fold-out railing, right
- Electrical control cabinet on the operator's platform for optimum accessibility and fast troubleshooting
- Electrical level indicator for the water tank on the external control panels
- Time display on the main control panel and on the exterior control panels
- Two mirrors at the front, one mirror at the rear of the machine

#### TRACK UNIT AND HEIGHT ADJUSTMENT

- PTS – automatic alignment of the machine parallel to the pavement surface
- ISC – intelligent track speed control including hydraulic four-track drive
- Fourfold full-floating axle for high machine stability
- High travel speed of up to 88 m / min at low engine speeds (1,350 rpm), reduced diesel consumption and low noise emissions.

#### MISCELLANEOUS

- "Welcome" and "Go home" lights feature in the area of the operator's platform and access
- Large storage compartment on the machine for pick containers
- High-pressure water system with automatic on/off function, 261 psi / 18 bar, 17 gal.min / 67 l/min
- Good accessibility to all maintenance points on the engine station
- Pneumatic hammer with pick extractor/insertor
- Large tool kit in lockable tool box
- A total of six EMERGENCY STOP switches in appropriate positions on the machine
- Pre-fitting for installing the WITOS FleetView control unit
- European type certification, EuroTest mark and CE conformity

<b>List price ex subsidiary Wirtgen America</b>	<b>USD</b>	<b>954,954.00</b>
---	------------	-------------------

#### Mandatory Options

##### Milling drum housing

Wear-resistant milling drum housing MCS BASIC FB2500 (8 ft 2 in) with pre-fitting enabling a quick and easy change of the milling drums with varying spacings, without milling drum.	<b>Standard</b>	<b>2782697</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

##### Milling drums / milling units

Milling drum MCS BASIC with milling width 2500 mm / 8 ft / 2 in, milling depth max. 350 mm / 1 ft 2 in, tool spacing 15 mm / 19/32 in, equipped with quick-change toolholder system HT22 and 196 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.	<b>Standard</b>	<b>2679915</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

<b>OPERATOR'S PLATFORM</b>				
Anti-vibration-mounted operator's platform with easy-to-read control panels, functional stand-up seat and a large, lockable storage compartment with a capacity of approx 69 gal / 260 liters	<b>Standard</b>	<b>2700694</b>	<b>USD</b>	<b>0.00</b>
Anti-vibration-mounted operator's platform with easy-to-read control panels, functional stand-up seat and a large, lockable storage compartment with a capacity of approx 69 gal/260 liters. A hydraulically height-adjustable weather canopy with transparent side weather protection elements protects the operator from the wind and weather.	<b>In lieu of 2700694</b>	<b>2700695</b>	<b>USD</b>	<b>16,041.00</b>
<b>Material transport</b>				
Heavy-duty 26 ft 9 in (8,150 mm) long discharge conveyor with 3 ft 3 in (1,000 mm) conveyor belt system and hydraulic folding device to shorten the transport length	<b>Standard</b>	<b>2667116</b>	<b>USD</b>	<b>0.00</b>
Robust 26 ft 9 in / 8,150 mm long discharge conveyor with conveyor belt system 3 ft 3 in / 1,000 mm	<b>Option</b>	<b>2718941</b>	<b>USD</b>	<b>-13,965.00</b>
<b>Water tank filling</b>				
Additional water tank filling from the rear of the machine using a shut-off cock.	<b>Standard</b>	<b>2667152</b>	<b>USD</b>	<b>0.00</b>
Additional water tank filling from the rear of the machine with a powerful, hydraulically operated filler pump	<b>Option</b>	<b>2667153</b>	<b>USD</b>	<b>3,909.00</b>
<b>Paint</b>				
Film coating in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7019	<b>Standard</b>	<b>2700380</b>	<b>USD</b>	<b>0.00</b>
The film coating is applied in RAL colors and design according to the customer's wishes. Film coating provides protection against mechanical and weather-related damage and can be removed without leaving any marks, if required	<b>Option</b>	<b>2700381</b>	<b>USD</b>	<b>1,154.00</b>
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	<b>Standard</b>	<b>2456347</b>	<b>USD</b>	<b>0.00</b>

<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	<b>Standard</b>	<b>2770403</b>	<b>USD</b>	<b>0.00</b>
The WIRTGEN PERFORMANCE TRACKER WPT is a laser and satellite-supported measuring system for precise milling performance determination for machines with FB2000, FB 220 or FB2500 without a weather canopy or with an operator's cabin. Two laser scanners measure the actual milling width and milling depth over the distance of the milling path. The milling performance results are automatically sent to the corresponding users via the WITOS interface with precise GPS machine position data and consumption data such as diesel consumption, water consumption, tool consumption and truck loads, in an evaluation and then by e-mail. The milling performance reports that include an image of the milling position can also be used as an allowance report. The usability of WITOS hardware components for the existing mobile radio standard is guaranteed for 3 years from the date of delivery.	<b>Option</b>	<b>2787665</b>	<b>USD</b>	<b>47,066.00</b>
<b>Machine lighting</b>				<b>0.00</b>
Extended lighting system consisting of 21 extremely powerful LED working lights for optimum illumination of the working area. Total light output of the working lights is approx. 43,600 lumens	<b>Standard</b>	<b>2667172</b>	<b>USD</b>	<b>0.00</b>
Extended lighting system consisting of 21 extremely powerful LED working lights for optimum illumination of the working area. Total light output of the working lights is approximately 43,600 lumens. The additional lighting balloon is powered via the machine's 24V electrical power supply and achieves an additional light output of 50,000 lumens	<b>In lieu of 266172</b>	<b>2667173</b>	<b>USD</b>	<b>4,818.00</b>

Equipment Options				
<b>Additional weight</b>				
Two additional weights located at the rear of the machine with a total weight of 1.500 kg (3,307 lbs) for individual machine ballasting. The individual weights, each weighing 750 kg (1,653 lbs), can be easily and quickly inserted and fastened to the rear of the machine.	Option	2667175	USD	6,731.00
<b>Additional weight</b>				
Large, generously sized storage compartment for 72 pick containers at the rear of the machine instead of the standard storage compartment. The storage compartment is lockable, splash-proof and additionally contains a completely sealed area to safely store electronic components, such as levelling sensors or pick ejectors	Option	2667177	USD	3,216.00
Storage compartment close to both rear track units for 10 pick containers	Standard	2700383	USD	0.00
<b>Equipment operator's platform</b>				
A powerful hot-air heating system with intelligently arranged air vents close to the operator's hands and feet offers maximum comfort on the operator's platform	Option	2745118	USD	3,868.00
Operator's platform equipped with a height-adjustable stand-up seat for greater operator comfort	Standard	2688479	USD	0.00
<b>Milling drum assembly options</b>				
The actual milling depth is determined by calculating the difference in readings from sensors on the side plate and sensors on the scraper. The actual milling depth is displayed on the LEVEL PRO ACTIVE panel.	Standard	2598665	USD	0.00
Overload sensors automatically lift the scraper whenever obstacles are detected that could damage the scraper.	Option	2667192	USD	1,615.00
Active floating position for the side plates on the left and right by continuously adjusting the milling depth and position of the plates. If necessary, the side plates can be briefly raised to prevent them from sinking into the soft ground.	Standard	2598531	USD	0.00
Extension of MCS BASIC with one hydraulically opening side panel on the milling drum unit FB2200/FB2500 (7 ft 3 in/8 ft 2 in). An additional hydraulic cylinder enables the MCS side panel to be easily opened when changing milling drums. This enables MCS BASIC milling drums to be changed even faster.	Standard	2667195	USD	0.00
Electrically switchable sectional water spray bar in the milling drum assembly FB2500 (8 ft 2 in). Four areas can be controlled as required from the control panel (automatically controlled with WPT). This reduces water consumption enormously.	Standard	2667200	USD	0.00

Two wear protection rollers that can be attached to the side plates (left or right). The rollers protect the asphalt, curbs, and other surfaces from damage and prevent excessive wear to the side plates.	<b>Option</b>	<b>2662818</b>	<b>USD</b>	<b>801.00</b>
The mounting aid makes it much easier to change the milling drum assembly. Two extended wire ropes from the discharge conveyor are reattached and pull the primary conveyor out of the milling drum housing. This enables the aggregate to be changed without any additional effort. It saves time and work whenever the milling drum assembly needs to be changed.	<b>Standard</b>	<b>2685194</b>	<b>USD</b>	<b>0.00</b>
Transport carriage for milling drum units from FB2200 (7 ft 3 in) to FB4400 (14 ft 5 in) to make it easier to change milling drum units and handle them in the workshop or on the job site.	<b>Option</b>	<b>2282163</b>	<b>USD</b>	<b>17,684.00</b>
Milling drum mounting and transport cart for milling drums from FB1500 (4 ft 11 in) to FB2500 (8 ft 2 in)	<b>Option</b>	<b>2312515</b>	<b>USD</b>	<b>6,541.00</b>
Transport roller set consisting of 4 heavy-duty rollers for easy removal of milling units from FB1500 to FB3800 on level surfaces.	<b>Option</b>	<b>2762958</b>	<b>USD</b>	<b>5,320.00</b>
<b>Options for belt conveyor</b>				
VCS – vacuum cutting system on the discharge conveyor for the extraction of fine material particles and water vapor from the sealed milling drum unit.	<b>Standard</b>	<b>2667207</b>	<b>USD</b>	<b>0.00</b>
Signal lights for visual "stop" and "go" instructions for the truck driver without the use of a horn. The signal lights can be folded in hydraulically from the operator's platform.	<b>Option</b>	<b>2598539</b>	<b>USD</b>	<b>4,913.00</b>
Semi-automatic ACTIVE CONVEYOR swing angle control that guides the discharge conveyor in construction site situations where milling is carried out at intersections or roundabouts	<b>Standard</b>	<b>2703705</b>	<b>USD</b>	<b>0.00</b>
Support device for positioning the discharge conveyor on the flat bed truck	<b>Standard</b>	<b>60603</b>	<b>USD</b>	<b>0.00</b>
<b>Additional control unit LEVEL PRO</b>				
Additional 5" control panel for controlling the LEVEL PRO ACTIVE leveling system. Up to two additional control panels can be mounted in the rear lower area of the machines	<b>Option</b>	<b>2598631</b>	<b>USD</b>	<b>2,361.00</b>
2 Additional 7" control panel that displays the machine control and controls the LEVEL PRO ACTIVE levelling system. Up to two additional control panels can be mounted in the rear lower area of the machines	<b>Standard</b>	<b>2598632</b>	<b>USD</b>	<b>0.00</b>

Additional 2" control panel that can be programmed with up to 16 individually selected functions. Up to two additional control panels can be mounted on the outside railing of the operator's platform	<b>Standard</b>	<b>2598664</b>	<b>USD</b>	<b>0.00</b>
Two additional 2" control panels that can each be programmed with up to 16 individually selected functions. Up to two additional control panels can be mounted on the outside railing of the operator's platform	<b>Option</b>	<b>2767151</b>	<b>USD</b>	<b>3,990.00</b>
User-specific saving of individually adjustable machine settings such as the display configuration or the assignment of favorites buttons. The data can be saved on five different SMART KEY key fobs with tokens.	<b>Standard</b>	<b>2779470</b>	<b>USD</b>	<b>0.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE levelling system with levelling boom. Premounted and adjustable hydraulic cylinders on the left and right allow the use of a Sonic-Ski sensor that is able to scan a reference object up to 1,900 mm away from the milling edge. During machine transport, the sensor and cables are securely stowed in the corresponding transport boxes.	<b>Option</b>	<b>2667237</b>	<b>USD</b>	<b>10,776.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with two hydraulic cylinder sensors for scanning a reference surface to the left and the right of the milling drum.	<b>Standard</b>	<b>2667241</b>	<b>USD</b>	<b>0.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with multiplex scanning on the right. Two additional ultrasonic sensors scan reference surfaces in front of and behind the machine. During machine transport, the sensors and cables are securely stowed in a corresponding transport box.	<b>Option</b>	<b>2673212</b>	<b>USD</b>	<b>5,157.00</b>
Extension of the LEVEL PRO ACTIVE leveling system with multiplex scanning on the left and right. Four additional ultrasonic sensors scan reference surfaces in front of and behind the machine. During machine transport, the sensors and cables are securely stowed in a corresponding transport box.	<b>Option</b>	<b>2673213</b>	<b>USD</b>	<b>10,016.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with pre-fitting for 3D milling with machines without a weather canopy. The pre-fitting equipment consists of robust and exactly positioned mounting adapters for a 3D system as well as sensor sockets for connecting the sensors to the LEVEL PRO ACTIVE system.	<b>Option</b>	<b>2667342</b>	<b>USD</b>	<b>8,496.00</b>

Extension of the LEVEL PRO ACTIVE leveling system with pre-fitting for 3D milling with machines with a weather canopy. The pre-fitting equipment consists of robust and exactly positioned mounting adapters for a 3D system as well as sensor sockets for connecting the sensors to the LEVEL PRO ACTIVE system.	Option	2667343	USD	2,131.00
<b>Water system</b>				
Powerful, hydraulically operated high pressure water cleaner with a maximum output of 15 l/min (4 gpm) at a pressure of 150 bar (2175 psi).	Option	2667357	USD	2,538.00
<b>Pick changing aids</b>				
One hydraulically powered pick ejector, including the required electrical and hydraulic connections. Ideal for convenient, fast and low-noise pick changes.	Standard	2745119	USD	0.00
Two hydraulically powered pick ejectors, including the required electrical and hydraulic connections. Ideal for convenient, fast and low-noise pick changes.	In lieu of 2745119	2793518	USD	2,484.00
<b>Camera system</b>				
Two-fold camera system with one camera at the discharge conveyor and one camera with a view of the rear area. The camera images are displayed on the standard 7" control panel on the operator's platform.	In lieu of 2673434	2673433	USD	-4,031.00
Four-fold camera system with an additional 10" control panel for an optimised view of the work processes being executed in front of and behind the machine as well as of the side plates, on the right and left. The camera images are displayed on the 10" control panel on the operator's platform.	Standard	2673434	USD	0.00
Eight-fold camera system with an additional 10" control panel for an optimised view of the work processes being executed in front of and behind the machine, of the side plates on the right and left and of the milled surface behind the milling drum unit. The camera images are displayed on the 10" control panel on the operator's platform.	In lieu of 2673434	2673435	USD	4,004.00
<b>Other devices</b>				
Dual starter system for maximum starting reliability with an additional automatic engine stop function that reduces diesel consumption.	Option	2745138	USD	4,913.00
Electrical diesel suction and pressure pump with 7.50 m (24 ft 7 in) suction hose. The machine can be refueled with up to 50 l/min (13 gal/min) from external diesel tanks.	Option	2673456	USD	936.00
License plate holder with LED lighting	Option	2654224	USD	489.00
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	Option		USD	81.00
Spare part and application documentation English (EN)	Option		USD	14.00

**Price list****W 250 Fi - 2200 mm milling drum****Scope of supply – basic machine**

- Engine: 2x 6-cylinder diesel engines type Cummins L9 and X15
- Rated power at 2,100 r.p.m.: 742 kW / 995 HP / 1,009 PS
- Exhaust standard: EU Stage V / US EPA Tier 4f
- Standard milling width: 7 ft 3 in / 2,200 mm
- Theoretical milling depth: 1 ft 2 in / 350 mm

**STANDARD EQUIPMENT**

- Base machine with dual motor drive
- Machine frame featuring a single wasp waist at the rear right and a dual wasp waist at the front
- Automatic pressure adjustment of the hydraulic pump for cylinder functions in accordance with performance requirements for reduced diesel consumption
- Hydraulically opening, soundproof engine cover
- Air compressor system
- Battery-operated hydraulic unit for auxiliary drive
- Two cooling fans to minimize power consumption of the cooling system

**MILLING DRUM HOUSING**

- Adjustment of material depressor contact pressure via the control panel or automatically via the MILL ASSIST feature to reduce chunk formation
- Electrical adjustment of scraper contact pressure via the control panel
- Automatically controlled locking feature of scraper
- Milling drum rotation device with electro-hydraulic milling drum drive for slowly turning the milling drum during pick replacement.
- Single-piece water spray bar in the milling drum unit for reliable pick cooling and to prevent dust development
- Automatic control of the water quantity via the MILL ASSIST feature
- Height adjustment stroke increased by 200 mm to facilitate pick replacement and the exchange of milling drum units
- Pre-fitting to allow the quick exchange of milling drum units.
- Hydraulically lifting side plate, right clearance 1 ft 6 in / 450 mm and left clearance 1 ft 2 in / 350 mm

**LOADING OF MILLED MATERIAL**

- Increased conveyor swing angles of 65° each to the left and right
- Discharge conveyor with adjustable conveying speed and two slewing speeds for precise loading
- Boost feature for a temporary increase of the belt speed and conveying performance of the discharge conveyor by 20%
- Water spray system in the primary conveyor
- Larger conveyor pump for a constant belt speed even at a low engine speed of 1300 rpm

**MACHINE CONTROL AND LEVELLING SYSTEM**

- User-friendly control panel including 7" color screen
- LEVEL PRO ACTIVE leveling system with numerous automated and complementary operator relieving features
- LEVEL PRO ACTIVE - automatic height control in transport mode
- LEVEL PRO ACTIVE - ramp milling and auto-start feature for the second milling cut
- RAPID SLOPE cross-slope sensor for LEVEL PRO ACTIVE leveling system
- MILL ASSIST assistance system for automatic adjustment of the milling drum speed in accordance with the main area of application and the parameters selected in terms of engine load, advance rate, milling volume and quality of the milling pattern.
- Comprehensive machine diagnostics on the control panel including, for example, a diagnostic system for the CAN bus

- Voltmeter integrated into the control panel for voltage measurement in the event of a malfunction
- Two control panels for operating functions performed by ground crew

#### OPERATOR'S PLATFORM

- Convenient access to the operator's platform, left and right
- Anti-vibration mounted operator's platform across the full width of the machine including fold-out railing, right
- Electrical control cabinet on the operator's platform for optimum accessibility and fast troubleshooting
- Electrical level indicator for the water tank on the external control panels
- Time display on the main control panel and on the exterior control panels
- Two mirrors at the front, one mirror at the rear of the machine

#### TRACK UNIT AND HEIGHT ADJUSTMENT

- PTS – automatic alignment of the machine parallel to the pavement surface
- ISC – intelligent track speed control including hydraulic four-track drive
- Fourfold full-floating axle for high machine stability
- High travel speed of up to 88 m / min at low engine speeds (1,350 rpm), reduced diesel consumption and low noise emissions.

#### MISCELLANEOUS

- "Welcome" and "Go home" lights feature in the area of the operator's platform and access
- Large storage compartment on the machine for pick containers
- High-pressure water system with automatic on/off function, 261 psi / 18 bar, 17 gal.min / 67 l/min
- Good accessibility to all maintenance points on the engine station
- Pneumatic hammer with pick extractor/insertor
- Large tool kit in lockable tool box
- A total of six EMERGENCY STOP switches in appropriate positions on the machine
- Pre-fitting for installing the WITOS FleetView control unit
- European type certification, EuroTest mark and CE conformity

List price ex subsidiary Wirtgen America

USD

1,047,443.00

#### Mandatory Options

##### Milling drum housing

Wear-resistant milling drum housing MCS BASIC FB2200 (7 ft 3 in), with pre-fitting to quickly and easily change milling drums of varying tool spacings, without milling drum.	Standard	2667109	USD	0.00
---	----------	---------	-----	------

##### Milling drums / milling units

Milling drum MCS BASIC with milling width 2200 mm / 7 ft / 3 in, milling depth max. 320 mm / 1ft / 0,5 in, tool spacing 15 mm / 19/32 in, equipped with quick-change toolholder system HT22 and 180 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.	Standard	2679870	USD	0.00
--	----------	---------	-----	------

<b>OPERATOR'S PLATFORM</b>				
Anti-vibration-mounted operator's platform with easy-to-read control panels, functional stand-up seat and a large, lockable storage compartment with a capacity of approx 69 gal / 260 liters	<b>Standard</b>	<b>2667135</b>	<b>USD</b>	<b>0.00</b>
Anti-vibration-mounted operator's platform with easy-to-read control panels, functional stand-up seat and a large, lockable storage compartment with a capacity of approx 69 gal/260 liters. A hydraulically height-adjustable weather canopy with transparent side weather protection elements protects the operator from the wind and weather.	<b>In lieu of 2667135</b>	<b>2667138</b>	<b>USD</b>	<b>16,041.00</b>
<b>Material transport</b>				
Robust 26 ft 9 in (8,150 mm) long discharge conveyor with conveyor belt system 3 ft 7 in (1,100 mm) and hydraulic folding device for shortening the transport length	<b>Standard</b>	<b>2667148</b>	<b>USD</b>	<b>0.00</b>
Heavy-duty 26 ft 9 in (8,150 mm) long double discharge conveyor with 3 ft 3 in (1,000 mm) conveyor belt system and hydraulic folding device to shorten the transport length. An additional shroud on the upper part of the discharge conveyor guides the flow of material, enabling controlled loading and minimizing wear and tear.	<b>Option</b>	<b>2667149</b>	<b>USD</b>	<b>23,397.00</b>
<b>Water tank filling</b>				
Additional water tank filling from the rear of the machine using a shut-off cock.	<b>Standard</b>	<b>2667152</b>	<b>USD</b>	<b>0.00</b>
Additional water tank filling from the rear of the machine with a powerful, hydraulically operated filler pump	<b>Option</b>	<b>2667153</b>	<b>USD</b>	<b>3,909.00</b>
<b>Paint</b>				
Film coating in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7019	<b>Standard</b>	<b>2667167</b>	<b>USD</b>	<b>0.00</b>
The film coating is applied in RAL colors and design according to the customer's wishes. Film coating provides protection against mechanical and weather-related damage and can be removed without leaving any marks, if required	<b>Option</b>	<b>2667169</b>	<b>USD</b>	<b>1,154.00</b>
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	<b>Standard</b>	<b>2456347</b>	<b>USD</b>	<b>0.00</b>

Support device for positioning the discharge conveyor on the flat bed truck	<b>Standard</b>	<b>60603</b>	<b>USD</b>	<b>0.00</b>
<b>Additional control unit LEVEL PRO</b>				
Additional 5" control panel for controlling the LEVEL PRO ACTIVE leveling system. Up to two additional control panels can be mounted in the rear lower area of the machines	<b>Option</b>	<b>2598631</b>	<b>USD</b>	<b>2,361.00</b>
2 Additional 7" control panel that displays the machine control and controls the LEVEL PRO ACTIVE levelling system. Up to two additional control panels can be mounted in the rear lower area of the machines	<b>Standard</b>	<b>2598632</b>	<b>USD</b>	<b>0.00</b>
Additional 2" control panel that can be programmed with up to 16 individually selected functions. Up to two additional control panels can be mounted on the outside railing of the operator's platform	<b>Standard</b>	<b>2598664</b>	<b>USD</b>	<b>0.00</b>

Two additional 2" control panels that can each be programmed with up to 16 individually selected functions. Up to two additional control panels can be mounted on the outside railing of the operator's platform	<b>Option</b>	<b>2767151</b>	<b>USD</b>	<b>3,990.00</b>
User-specific saving of individually adjustable machine settings such as the display configuration or the assignment of favorites buttons. The data can be saved on five different SMART KEY key fobs with tokens.	<b>Standard</b>	<b>2779470</b>	<b>USD</b>	<b>0.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE levelling system with levelling boom. Premounted and adjustable hydraulic cylinders on the left and right allow the use of a Sonic-Ski sensor that is able to scan a reference object up to 1,900 mm away from the milling edge. During machine transport, the sensor and cables are securely stowed in the corresponding transport boxes.	<b>Option</b>	<b>2667237</b>	<b>USD</b>	<b>10,776.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with two hydraulic cylinder sensors for scanning a reference surface to the left and the right of the milling drum.	<b>Standard</b>	<b>2667241</b>	<b>USD</b>	<b>0.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with multiplex scanning on the right. Two additional ultrasonic sensors scan reference surfaces in front of and behind the machine. During machine transport, the sensors and cables are securely stowed in a corresponding transport box.	<b>Option</b>	<b>2673212</b>	<b>USD</b>	<b>5,157.00</b>
Extension of the LEVEL PRO ACTIVE leveling system with multiplex scanning on the left and right. Four additional ultrasonic sensors scan reference surfaces in front of and behind the machine. During machine transport, the sensors and cables are securely stowed in a corresponding transport box.	<b>Option</b>	<b>2673213</b>	<b>USD</b>	<b>10,016.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with pre-fitting for 3D milling with machines without a weather canopy. The pre-fitting equipment consists of robust and exactly positioned mounting adapters for a 3D system as well as sensor sockets for connecting the sensors to the LEVEL PRO ACTIVE system.	<b>Option</b>	<b>2667342</b>	<b>USD</b>	<b>8,496.00</b>
Extension of the LEVEL PRO ACTIVE leveling system with two linear laser sensors that can be installed using the pre-fitting equipment for 3D leveling.	<b>Option</b>	<b>2662826</b>	<b>USD</b>	<b>12,879.00</b>

<b>Water system</b>				
Powerful, hydraulically operated high pressure water cleaner with a maximum output of 15 l/min (4 gpm) at a pressure of 150 bar (2175 psi).	<b>Option</b>	<b>2667357</b>	<b>USD</b>	<b>2,538.00</b>
<b>Pick changing aids</b>				
One hydraulically powered pick ejector, including the required electrical and hydraulic connections. Ideal for convenient, fast and low-noise pick changes.	<b>Standard</b>	<b>2667497</b>	<b>USD</b>	<b>0.00</b>
Two hydraulically powered pick ejectors, including the required electrical and hydraulic connections. Ideal for convenient, fast and low-noise pick changes.	<b>In lieu of 2667497</b>	<b>2793479</b>	<b>USD</b>	<b>2,484.00</b>
<b>Camera system</b>				
Two-fold camera system with one camera at the discharge conveyor and one camera with a view of the rear area. The camera images are displayed on the standard 7" control panel on the operator's platform.	<b>In lieu of 2673434</b>	<b>2673433</b>	<b>USD</b>	<b>-4,031.00</b>
Four-fold camera system with an additional 10" control panel for an optimised view of the work processes being executed in front of and behind the machine as well as of the side plates, on the right and left. The camera images are displayed on the 10" control panel on the operator's platform.	<b>Standard</b>	<b>2673434</b>	<b>USD</b>	<b>0.00</b>
Eight-fold camera system with an additional 10" control panel for an optimised view of the work processes being executed in front of and behind the machine, of the side plates on the right and left and of the milled surface behind the milling drum unit. The camera images are displayed on the 10" control panel on the operator's platform.	<b>In lieu of 2673434</b>	<b>2673435</b>	<b>USD</b>	<b>4,004.00</b>
<b>Other devices</b>				
Electrical preheating of the fuel filter to maintain the flow of fuel at low outside temperatures. Serves to guarantee machine operation at temperatures below 0 32 degrees Fahrenheit (0 degrees Celsius).	<b>Option</b>	<b>2673455</b>	<b>USD</b>	<b>1,384.00</b>
Electrical diesel suction and pressure pump with 7.50 m (24 ft 7 in) suction hose. The machine can be refueled with up to 50 l/min (13 gal/min) from external diesel tanks.	<b>Option</b>	<b>2673456</b>	<b>USD</b>	<b>936.00</b>
License plate holder with LED lighting	<b>Option</b>	<b>2654224</b>	<b>USD</b>	<b>489.00</b>
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	<b>Option</b>		<b>USD</b>	<b>81.00</b>
Spare part and application documentation English (EN)	<b>Option</b>		<b>USD</b>	<b>14.00</b>

## Price list

# W 250 Fi - 2500 mm milling drum

### Scope of supply – basic machine

- Engine: 2x 6-cylinder diesel engines type Cummins L9 and X15
- Rated power at 2,100 r.p.m.: 742 kW / 995 HP / 1,009 PS
- Exhaust standard: EU Stage V / US EPA Tier 4f
- Standard milling width: 7 ft 3 in / 2,200 mm
- Theoretical milling depth: 1 ft 2 in / 350 mm

### STANDARD EQUIPMENT

- Base machine with dual motor drive
- Machine frame featuring a single wasp waist at the rear right and a dual wasp waist at the front
- Automatic pressure adjustment of the hydraulic pump for cylinder functions in accordance with performance requirements for reduced diesel consumption
- Hydraulically opening, soundproof engine cover
- Air compressor system
- Battery-operated hydraulic unit for auxiliary drive
- Two cooling fans to minimize power consumption of the cooling system

### MILLING DRUM HOUSING

- Adjustment of material depressor contact pressure via the control panel or automatically via the MILL ASSIST feature to reduce chunk formation
- Electrical adjustment of scraper contact pressure via the control panel
- Automatically controlled locking feature of scraper
- Milling drum rotation device with electro-hydraulic milling drum drive for slowly turning the milling drum during pick replacement.
- Single-piece water spray bar in the milling drum unit for reliable pick cooling and to prevent dust development
- Automatic control of the water quantity via the MILL ASSIST feature
- Height adjustment stroke increased by 200 mm to facilitate pick replacement and the exchange of milling drum units
- Pre-fitting to allow the quick exchange of milling drum units.
- Hydraulically lifting side plate, right clearance 1 ft 6 in / 450 mm and left clearance 1 ft 2 in / 350 mm

### LOADING OF MILLED MATERIAL

- Increased conveyor swing angles of 65° each to the left and right
- Discharge conveyor with adjustable conveying speed and two slewing speeds for precise loading
- Boost feature for a temporary increase of the belt speed and conveying performance of the discharge conveyor by 20%
- Water spray system in the primary conveyor
- Larger conveyor pump for a constant belt speed even at a low engine speed of 1300 rpm

### MACHINE CONTROL AND LEVELLING SYSTEM

- User-friendly control panel including 7" color screen
- LEVEL PRO ACTIVE leveling system with numerous automated and complementary operator relieving features
- LEVEL PRO ACTIVE - automatic height control in transport mode
- LEVEL PRO ACTIVE - ramp milling and auto-start feature for the second milling cut
- RAPID SLOPE cross-slope sensor for LEVEL PRO ACTIVE leveling system
- MILL ASSIST assistance system for automatic adjustment of the milling drum speed in accordance with the main area of application and the parameters selected in terms of engine load, advance rate, milling volume and quality of the milling pattern.

- Comprehensive machine diagnostics on the control panel including, for example, a diagnostic system for the CAN bus
- Voltmeter integrated into the control panel for voltage measurement in the event of a malfunction
- Two control panels for operating functions performed by ground crew

#### OPERATOR 'S PLATFORM

- Convenient access to the operator's platform, left and right
- Anti-vibration mounted operator's platform across the full width of the machine including fold-out railing, right
- Electrical control cabinet on the operator's platform for optimum accessibility and fast troubleshooting
- Electrical level indicator for the water tank on the external control panels
- Time display on the main control panel and on the exterior control panels
- Two mirrors at the front, one mirror at the rear of the machine

#### TRACK UNIT AND HEIGHT ADJUSTMENT

- PTS – automatic alignment of the machine parallel to the pavement surface
- ISC – intelligent track speed control including hydraulic four-track drive
- Fourfold full-floating axle for high machine stability
- High travel speed of up to 88 m / min at low engine speeds (1,350 rpm), reduced diesel consumption and low noise emissions.

#### MISCELLANEOUS

- "Welcome" and "Go home" lights feature in the area of the operator's platform and access
- Large storage compartment on the machine for pick containers
- High-pressure water system with automatic on/off function, 261 psi / 18 bar, 17 gal.min / 67 l/min
- Good accessibility to all maintenance points on the engine station
- Pneumatic hammer with pick extractor/insertor
- Large tool kit in lockable tool box
- A total of six EMERGENCY STOP switches in appropriate positions on the machine
- Pre-fitting for installing the WITOS FleetView control unit
- European type certification, EuroTest mark and CE conformity

List price ex subsidiary Wirtgen America

USD

1,068,601.00

#### Mandatory Options

##### Milling drum housing

Wear-resistant milling drum housing MCS BASIC FB2500 (8 ft 2 in) with pre-fitting enabling a quick and easy change of the milling drums with varying spacings, without milling drum.	Standard	2674057	USD	0.00
--	----------	---------	-----	------

##### Milling drums / milling units

Milling drum MCS BASIC with milling width 2500 mm / 8 ft 2 in, milling depth max. 350 mm / 1 ft 2 in, tool spacing 15 mm / 19/32 in, equipped with quick-change toolholder system HT22 and 196 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.	Standard	2679915	USD	0.00
---	----------	---------	-----	------

<b>OPERATOR'S PLATFORM</b>				
Anti-vibration-mounted operator's platform with easy-to-read control panels, functional stand-up seat and a large, lockable storage compartment with a capacity of approx 69 gal / 260 liters	<b>Standard</b>	<b>2667135</b>	<b>USD</b>	<b>0.00</b>
Anti-vibration-mounted operator's platform with easy-to-read control panels, functional stand-up seat and a large, lockable storage compartment with a capacity of approx 69 gal/260 liters. A hydraulically height-adjustable weather canopy with transparent side weather protection elements protects the operator from the wind and weather.	<b>In lieu of 2667135</b>	<b>2667138</b>	<b>USD</b>	<b>16,041.00</b>
<b>Material transport</b>				
Robust 26 ft 9 in (8,150 mm) long discharge conveyor with conveyor belt system 3 ft 7 in (1,100 mm) and hydraulic folding device for shortening the transport length	<b>Standard</b>	<b>2667148</b>	<b>USD</b>	<b>0.00</b>
Heavy-duty 26 ft 9 in (8,150 mm) long double discharge conveyor with 3 ft 3 in (1,000 mm) conveyor belt system and hydraulic folding device to shorten the transport length. An additional shroud on the upper part of the discharge conveyor guides the flow of material, enabling controlled loading and minimizing wear and tear.	<b>Option</b>	<b>2667149</b>	<b>USD</b>	<b>23,397.00</b>
<b>Water tank filling</b>				
Additional water tank filling from the rear of the machine using a shut-off cock.	<b>Standard</b>	<b>2667152</b>	<b>USD</b>	<b>0.00</b>
Additional water tank filling from the rear of the machine with a powerful, hydraulically operated filler pump	<b>Option</b>	<b>2667153</b>	<b>USD</b>	<b>3,909.00</b>
<b>Paint</b>				
Film coating in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7019	<b>Standard</b>	<b>2667167</b>	<b>USD</b>	<b>0.00</b>
The film coating is applied in RAL colors and design according to the customer's wishes. Film coating provides protection against mechanical and weather-related damage and can be removed without leaving any marks, if required	<b>Option</b>	<b>2667169</b>	<b>USD</b>	<b>1,154.00</b>
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	<b>Standard</b>	<b>2456347</b>	<b>USD</b>	<b>0.00</b>

<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	<b>Standard</b>	<b>2770403</b>	<b>USD</b>	<b>0.00</b>
The WIRTGEN PERFORMANCE TRACKER WPT is a laser and satellite-supported measuring system for precise milling performance determination for machines with FB2000, FB 220 or FB2500 without a weather canopy or with an operator's cabin. Two laser scanners measure the actual milling width and milling depth over the distance of the milling path. The milling performance results are automatically sent to the corresponding users via the WITOS interface with precise GPS machine position data and consumption data such as diesel consumption, water consumption, tool consumption and truck loads, in an evaluation and then by e-mail. The milling performance reports that include an image of the milling position can also be used as an allowance report. The usability of WITOS hardware components for the existing mobile radio standard is guaranteed for 3 years from the date of delivery.	<b>Option</b>	<b>2787665</b>	<b>USD</b>	<b>47,066.00</b>
<b>Machine lighting</b>				
Extended lighting system consisting of 21 extremely powerful LED working lights for optimum illumination of the working area. Total light output of the working lights is approx. 43,600 lumens	<b>Standard</b>	<b>2667172</b>	<b>USD</b>	<b>0.00</b>
Extended lighting system consisting of 21 extremely powerful LED working lights for optimum illumination of the working area. Total light output of the working lights is approximately 43,600 lumens. The additional lighting balloon is powered via the machine's 24V electrical power supply and achieves an additional light output of 50,000 lumens	<b>In lieu of 2667172</b>	<b>2667173</b>	<b>USD</b>	<b>4,818.00</b>

Equipment Options				
<b>Additional weight</b>				
Two additional weights located at the rear of the machine with a total weight of 1.500 kg (3,307 lbs) for individual machine ballasting. The individual weights, each weighing 750 kg (1,653 lbs), can be easily and quickly inserted and fastened to the rear of the machine.	Option	2667175	USD	6,731.00
<b>Additional weight</b>				
Large, generously sized storage compartment for 72 pick containers at the rear of the machine instead of the standard storage compartment. The storage compartment is lockable, splash-proof and additionally contains a completely sealed area to safely store electronic components, such as levelling sensors or pick ejectors	Option	2667177	USD	3,216.00
Storage compartment close to both rear track units for 10 pick containers	Standard	2667178	USD	0.00
<b>Equipment operator's platform</b>				
A powerful hot-air heating system with intelligently arranged air vents close to the operator's hands and feet offers maximum comfort on the operator's platform	Option	2667179	USD	3,868.00
Operator's platform equipped with a height-adjustable stand-up seat for greater operator comfort	Standard	2688479	USD	0.00
<b>Milling drum assembly options</b>				
The actual milling depth is determined by calculating the difference in readings from sensors on the side plate and sensors on the scraper. The actual milling depth is displayed on the LEVEL PRO ACTIVE panel.	Standard	2598665	USD	0.00
Overload sensors automatically lift the scraper whenever obstacles are detected that could damage the scraper.	Option	2667192	USD	1,615.00
Active floating position for the side plates on the left and right by continuously adjusting the milling depth and position of the plates. If necessary, the side plates can be briefly raised to prevent them from sinking into the soft ground.	Standard	2598531	USD	0.00
Extension of MCS BASIC with one hydraulically opening side panel on the milling drum unit FB2200/FB2500 (7 ft 3 in/8 ft 2 in). An additional hydraulic cylinder enables the MCS side panel to be easily opened when changing milling drums. This enables MCS BASIC milling drums to be changed even faster.	Standard	2667195	USD	0.00
Electrically switchable sectional water spray bar in the milling drum assembly FB2500 (8 ft 2 in). Four areas can be controlled as required from the control panel (automatically controlled with WPT). This reduces water consumption enormously.	Standard	2667200	USD	0.00

Two wear protection rollers that can be attached to the side plates (left or right). The rollers protect the asphalt, curbs, and other surfaces from damage and prevent excessive wear to the side plates.	<b>Option</b>	<b>2662818</b>	<b>USD</b>	<b>801.00</b>
The mounting aid makes it much easier to change the milling drum assembly. Two extended wire ropes from the discharge conveyor are reattached and pull the primary conveyor out of the milling drum housing. This enables the aggregate to be changed without any additional effort. It saves time and work whenever the milling drum assembly needs to be changed.	<b>Standard</b>	<b>2685194</b>	<b>USD</b>	<b>0.00</b>
Transport carriage for milling drum units from FB2200 (7 ft 3 in) to FB4400 (14 ft 5 in) to make it easier to change milling drum units and handle them in the workshop or on the job site.	<b>Option</b>	<b>2282163</b>	<b>USD</b>	<b>17,684.00</b>
Milling drum mounting and transport cart for milling drums from FB1500 (4 ft 11 in) to FB2500 (8 ft 2 in)	<b>Option</b>	<b>2312515</b>	<b>USD</b>	<b>6,541.00</b>
Transport roller set consisting of 4 heavy-duty rollers for easy removal of milling units from FB1500 to FB3800 on level surfaces.	<b>Option</b>	<b>2762958</b>	<b>USD</b>	<b>5,320.00</b>
<b>Options for belt conveyor</b>				
VCS – vacuum cutting system on the discharge conveyor for the extraction of fine material particles and water vapor from the sealed milling drum unit.	<b>Standard</b>	<b>2667207</b>	<b>USD</b>	<b>0.00</b>
Signal lights for visual "stop" and "go" instructions for the truck driver without the use of a horn. The signal lights can be folded in hydraulically from the operator's platform.	<b>Option</b>	<b>2598539</b>	<b>USD</b>	<b>4,913.00</b>
Semi-automatic ACTIVE CONVEYOR swing angle control that guides the discharge conveyor in construction site situations where milling is carried out at intersections or roundabouts	<b>Standard</b>	<b>2703705</b>	<b>USD</b>	<b>0.00</b>
Support device for positioning the discharge conveyor on the flat bed truck	<b>Standard</b>	<b>60603</b>	<b>USD</b>	<b>0.00</b>
<b>Additional control unit LEVEL PRO</b>				
Additional 5" control panel for controlling the LEVEL PRO ACTIVE leveling system. Up to two additional control panels can be mounted in the rear lower area of the machines	<b>Option</b>	<b>2598631</b>	<b>USD</b>	<b>2,361.00</b>
2 Additional 7" control panel that displays the machine control and controls the LEVEL PRO ACTIVE levelling system. Up to two additional control panels can be mounted in the rear lower area of the machines	<b>Standard</b>	<b>2598632</b>	<b>USD</b>	<b>0.00</b>

Additional 2" control panel that can be programmed with up to 16 individually selected functions. Up to two additional control panels can be mounted on the outside railing of the operator's platform	<b>Standard</b>	<b>2598664</b>	<b>USD</b>	<b>0.00</b>
Two additional 2" control panels that can each be programmed with up to 16 individually selected functions. Up to two additional control panels can be mounted on the outside railing of the operator's platform	<b>Option</b>	<b>2767151</b>	<b>USD</b>	<b>3,990.00</b>
User-specific saving of individually adjustable machine settings such as the display configuration or the assignment of favorites buttons. The data can be saved on five different SMART KEY key fobs with tokens.	<b>Standard</b>	<b>2779470</b>	<b>USD</b>	<b>0.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE levelling system with levelling boom. Premounted and adjustable hydraulic cylinders on the left and right allow the use of a Sonic-Ski sensor that is able to scan a reference object up to 1,900 mm away from the milling edge. During machine transport, the sensor and cables are securely stowed in the corresponding transport boxes.	<b>Option</b>	<b>2667237</b>	<b>USD</b>	<b>10,776.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with two hydraulic cylinder sensors for scanning a reference surface to the left and the right of the milling drum.	<b>Standard</b>	<b>2667241</b>	<b>USD</b>	<b>0.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with multiplex scanning on the right. Two additional ultrasonic sensors scan reference surfaces in front of and behind the machine. During machine transport, the sensors and cables are securely stowed in a corresponding transport box.	<b>Option</b>	<b>2673212</b>	<b>USD</b>	<b>5,157.00</b>
Extension of the LEVEL PRO ACTIVE leveling system with multiplex scanning on the left and right. Four additional ultrasonic sensors scan reference surfaces in front of and behind the machine. During machine transport, the sensors and cables are securely stowed in a corresponding transport box.	<b>Option</b>	<b>2673213</b>	<b>USD</b>	<b>10,016.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with pre-fitting for 3D milling with machines without a weather canopy. The pre-fitting equipment consists of robust and exactly positioned mounting adapters for a 3D system as well as sensor sockets for connecting the sensors to the LEVEL PRO ACTIVE system.	<b>Option</b>	<b>2667342</b>	<b>USD</b>	<b>8,496.00</b>
Extension of the LEVEL PRO ACTIVE leveling system with two linear laser sensors that can be installed using the pre-fitting equipment for 3D leveling.	<b>Option</b>	<b>2662826</b>	<b>USD</b>	<b>12,879.00</b>

<b>Water system</b>				
Powerful, hydraulically operated high pressure water cleaner with a maximum output of 15 l/min (4 gpm) at a pressure of 150 bar (2175 psi).	<b>Option</b>	<b>2667357</b>	<b>USD</b>	<b>2,538.00</b>
<b>Pick changing aids</b>				
One hydraulically powered pick ejector, including the required electrical and hydraulic connections. Ideal for convenient, fast and low-noise pick changes.	<b>Standard</b>	<b>2667497</b>	<b>USD</b>	<b>0.00</b>
Two hydraulically powered pick ejectors, including the required electrical and hydraulic connections. Ideal for convenient, fast and low-noise pick changes.	<b>In lieu of 2667497</b>	<b>2793479</b>	<b>USD</b>	<b>2,484.00</b>
<b>Camera system</b>				
Two-fold camera system with one camera at the discharge conveyor and one camera with a view of the rear area. The camera images are displayed on the standard 7" control panel on the operator's platform.	<b>In lieu of 2673434</b>	<b>2673433</b>	<b>USD</b>	<b>-4,031.00</b>
Four-fold camera system with an additional 10" control panel for an optimised view of the work processes being executed in front of and behind the machine as well as of the side plates, on the right and left. The camera images are displayed on the 10" control panel on the operator's platform.	<b>Standard</b>	<b>2673434</b>	<b>USD</b>	<b>0.00</b>
Eight-fold camera system with an additional 10" control panel for an optimised view of the work processes being executed in front of and behind the machine, of the side plates on the right and left and of the milled surface behind the milling drum unit. The camera images are displayed on the 10" control panel on the operator's platform.	<b>In lieu of 2673434</b>	<b>2673435</b>	<b>USD</b>	<b>4,004.00</b>
<b>Other devices</b>				
Electrical preheating of the fuel filter to maintain the flow of fuel at low outside temperatures. Serves to guarantee machine operation at temperatures below 0 32 degrees Fahrenheit (0 degrees Celsius).	<b>Option</b>	<b>2673455</b>	<b>USD</b>	<b>1,384.00</b>
Electrical diesel suction and pressure pump with 7.50 m (24 ft 7 in) suction hose. The machine can be refueled with up to 50 l/min (13 gal/min) from external diesel tanks.	<b>Option</b>	<b>2673456</b>	<b>USD</b>	<b>936.00</b>
License plate holder with LED lighting	<b>Option</b>	<b>2654224</b>	<b>USD</b>	<b>489.00</b>
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	<b>Option</b>		<b>USD</b>	<b>81.00</b>
Spare part and application documentation English (EN)	<b>Option</b>		<b>USD</b>	<b>14.00</b>

## Price list

# W 250 Fi - 3800 mm milling drum

### Scope of supply – basic machine

- Engine: 2x 6-cylinder diesel engines type Cummins L9 and X15
- Rated power at 2,100 r.p.m.: 742 kW / 995 HP / 1,009 PS
- Exhaust standard: EU Stage V / US EPA Tier 4f
- Standard milling width: 7 ft 3 in / 2,200 mm
- Theoretical milling depth: 1 ft 2 in / 350 mm

### STANDARD EQUIPMENT

- Base machine with dual motor drive
- Machine frame featuring a single wasp waist at the rear right and a dual wasp waist at the front
- Automatic pressure adjustment of the hydraulic pump for cylinder functions in accordance with performance requirements for reduced diesel consumption
- Hydraulically opening, soundproof engine cover
- Air compressor system
- Battery-operated hydraulic unit for auxiliary drive
- Two cooling fans to minimize power consumption of the cooling system

### MILLING DRUM HOUSING

- Adjustment of material depressor contact pressure via the control panel or automatically via the MILL ASSIST feature to reduce chunk formation
- Electrical adjustment of scraper contact pressure via the control panel
- Automatically controlled locking feature of scraper
- Milling drum rotation device with electro-hydraulic milling drum drive for slowly turning the milling drum during pick replacement.
- Single-piece water spray bar in the milling drum unit for reliable pick cooling and to prevent dust development
- Automatic control of the water quantity via the MILL ASSIST feature
- Height adjustment stroke increased by 200 mm to facilitate pick replacement and the exchange of milling drum units
- Pre-fitting to allow the quick exchange of milling drum units.
- Hydraulically lifting side plate, right clearance 1 ft 6 in / 450 mm and left clearance 1 ft 2 in / 350 mm

### LOADING OF MILLED MATERIAL

- Increased conveyor swing angles of 65° each to the left and right
- Discharge conveyor with adjustable conveying speed and two slewing speeds for precise loading
- Boost feature for a temporary increase of the belt speed and conveying performance of the discharge conveyor by 20%
- Water spray system in the primary conveyor
- Larger conveyor pump for a constant belt speed even at a low engine speed of 1300 rpm

### MACHINE CONTROL AND LEVELLING SYSTEM

- User-friendly control panel including 7" color screen
- LEVEL PRO ACTIVE leveling system with numerous automated and complementary operator relieving features
- LEVEL PRO ACTIVE - automatic height control in transport mode
- LEVEL PRO ACTIVE - ramp milling and auto-start feature for the second milling cut
- RAPID SLOPE cross-slope sensor for LEVEL PRO ACTIVE leveling system
- MILL ASSIST assistance system for automatic adjustment of the milling drum speed in accordance with the main area of application and the parameters selected in terms of engine load, advance rate, milling volume and quality of the milling pattern.

- Comprehensive machine diagnostics on the control panel including, for example, a diagnostic system for the CAN bus
- Voltmeter integrated into the control panel for voltage measurement in the event of a malfunction
- Two control panels for operating functions performed by ground crew

#### OPERATOR 'S PLATFORM

- Convenient access to the operator's platform, left and right
- Anti-vibration mounted operator's platform across the full width of the machine including fold-out railing, right
- Electrical control cabinet on the operator's platform for optimum accessibility and fast troubleshooting
- Electrical level indicator for the water tank on the external control panels
- Time display on the main control panel and on the exterior control panels
- Two mirrors at the front, one mirror at the rear of the machine

#### TRACK UNIT AND HEIGHT ADJUSTMENT

- PTS – automatic alignment of the machine parallel to the pavement surface
- ISC – intelligent track speed control including hydraulic four-track drive
- Fourfold full-floating axle for high machine stability
- High travel speed of up to 88 m / min at low engine speeds (1,350 rpm), reduced diesel consumption and low noise emissions.

#### MISCELLANEOUS

- "Welcome" and "Go home" lights feature in the area of the operator's platform and access
- Large storage compartment on the machine for pick containers
- High-pressure water system with automatic on/off function, 261 psi / 18 bar, 17 gal.min / 67 l/min
- Good accessibility to all maintenance points on the engine station
- Pneumatic hammer with pick extractor/insertor
- Large tool kit in lockable tool box
- A total of six EMERGENCY STOP switches in appropriate positions on the machine
- Pre-fitting for installing the WITOS FleetView control unit
- European type certification, EuroTest mark and CE conformity

List price ex subsidiary Wirtgen America

USD

1,163,166.00

#### Mandatory Options

##### Milling drum housing

Wear-resistant milling drum housing MCS EXTEND FB3800 (12 ft 6 in) with pre-fitting enabling a quick and easy change of the milling drums with varying spacings and milling widths, without milling drum.	Standard	2667115	USD	0.00
---	----------	---------	-----	------

##### Milling drums / milling units

Multi-part MCS milling drum with milling width of 3,800 mm / 12 ft 6 in, milling depth of max. 350 mm / 1 ft 2 in, tool spacing of 15 mm / 19/32 in, equipped with HT22 toolholder system and 314 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.	Standard	2309342	USD	0.00
--	----------	---------	-----	------

<b>OPERATOR'S PLATFORM</b>				
Anti-vibration-mounted operator's platform with easy-to-read control panels, functional stand-up seat and a large, lockable storage compartment with a capacity of approx 69 gal / 260 liters	<b>Standard</b>	<b>2667135</b>	<b>USD</b>	<b>0.00</b>
Anti-vibration-mounted operator's platform with easy-to-read control panels, functional stand-up seat and a large, lockable storage compartment with a capacity of approx 69 gal/260 liters. A hydraulically height-adjustable weather canopy with transparent side weather protection elements protects the operator from the wind and weather.	<b>In lieu of 2667135</b>	<b>2667138</b>	<b>USD</b>	<b>16,041.00</b>
<b>Material transport</b>				
Robust 26 ft 9 in (8,150 mm) long discharge conveyor with conveyor belt system 3 ft 7 in (1,100 mm) and hydraulic folding device for shortening the transport length	<b>Standard</b>	<b>2667148</b>	<b>USD</b>	<b>0.00</b>
Heavy-duty 26 ft 9 in (8,150 mm) long double discharge conveyor with 3 ft 3 in (1,000 mm) conveyor belt system and hydraulic folding device to shorten the transport length. An additional shroud on the upper part of the discharge conveyor guides the flow of material, enabling controlled loading and minimizing wear and tear.	<b>Option</b>	<b>2667149</b>	<b>USD</b>	<b>23,397.00</b>
<b>Water tank filling</b>				
Additional water tank filling from the rear of the machine using a shut-off cock.	<b>Standard</b>	<b>2667152</b>	<b>USD</b>	<b>0.00</b>
Additional water tank filling from the rear of the machine with a powerful, hydraulically operated filler pump	<b>Option</b>	<b>2667153</b>	<b>USD</b>	<b>3,909.00</b>
<b>Paint</b>				
Film coating in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7019	<b>Standard</b>	<b>2667167</b>	<b>USD</b>	<b>0.00</b>
The film coating is applied in RAL colors and design according to the customer's wishes. Film coating provides protection against mechanical and weather-related damage and can be removed without leaving any marks, if required	<b>Option</b>	<b>2667169</b>	<b>USD</b>	<b>1,154.00</b>
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	<b>Standard</b>	<b>2456347</b>	<b>USD</b>	<b>0.00</b>

<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	<b>Standard</b>	<b>2770403</b>	<b>USD</b>	<b>0.00</b>
The WIRTGEN PERFORMANCE TRACKER WPT is a laser and satellite-supported measuring system for precise milling performance determination for machines with FB2000, FB 220 or FB2500 without a weather canopy or with an operator's cabin. Two laser scanners measure the actual milling width and milling depth over the distance of the milling path. The milling performance results are automatically sent to the corresponding users via the WITOS interface with precise GPS machine position data and consumption data such as diesel consumption, water consumption, tool consumption and truck loads, in an evaluation and then by e-mail. The milling performance reports that include an image of the milling position can also be used as an allowance report. The usability of WITOS hardware components for the existing mobile radio standard is guaranteed for 3 years from the date of delivery.	<b>Option</b>	<b>2787665</b>	<b>USD</b>	<b>47,066.00</b>
<b>Machine lighting</b>				
Extended lighting system consisting of 21 extremely powerful LED working lights for optimum illumination of the working area. Total light output of the working lights is approx. 43,600 lumens	<b>Standard</b>	<b>2667172</b>	<b>USD</b>	<b>0.00</b>
Extended lighting system consisting of 21 extremely powerful LED working lights for optimum illumination of the working area. Total light output of the working lights is approximately 43,600 lumens. The additional lighting balloon is powered via the machine's 24V electrical power supply and achieves an additional light output of 50,000 lumens	<b>In lieu of 2667172</b>	<b>2667173</b>	<b>USD</b>	<b>4,818.00</b>

Equipment Options				
<b>Additional weight</b>				
Two additional weights located at the rear of the machine with a total weight of 1.500 kg (3,307 lbs) for individual machine ballasting. The individual weights, each weighing 750 kg (1,653 lbs), can be easily and quickly inserted and fastened to the rear of the machine.	Option	2667175	USD	6,731.00
<b>Additional weight</b>				
Large, generously sized storage compartment for 72 pick containers at the rear of the machine instead of the standard storage compartment. The storage compartment is lockable, splash-proof and additionally contains a completely sealed area to safely store electronic components, such as levelling sensors or pick ejectors	Option	2667177	USD	3,216.00
Storage compartment close to both rear track units for 10 pick containers	Standard	2667178	USD	0.00
<b>Equipment operator's platform</b>				
A powerful hot-air heating system with intelligently arranged air vents close to the operator's hands and feet offers maximum comfort on the operator's platform	Option	2667179	USD	3,868.00
Operator's platform equipped with a height-adjustable stand-up seat for greater operator comfort	Standard	2688479	USD	0.00
<b>Milling drum assembly options</b>				
The actual milling depth is determined by calculating the difference in readings from sensors on the side plate and sensors on the scraper. The actual milling depth is displayed on the LEVEL PRO ACTIVE panel.	Standard	2598665	USD	0.00
Overload sensors automatically lift the scraper whenever obstacles are detected that could damage the scraper.	Option	2667192	USD	1,615.00
Active floating position for the side plates on the left and right by continuously adjusting the milling depth and position of the plates. If necessary, the side plates can be briefly raised to prevent them from sinking into the soft ground.	Standard	2598531	USD	0.00
Electrically switchable sectional water spray bar in the milling drum assembly FB3500/3800 (11 ft 6 in / 12 ft 6 in). Four areas can be controlled as required from the control panel (automatically controlled with WPT). This reduces water consumption enormously.	Standard	2667201	USD	0.00
Two wear protection rollers that can be attached to the side plates (left or right). The rollers protect the asphalt, curbs, and other surfaces from damage and prevent excessive wear to the side plates.	Option	2662818	USD	801.00

The mounting aid makes it much easier to change the milling drum assembly. Two extended wire ropes from the discharge conveyor are reattached and pull the primary conveyor out of the milling drum housing. This enables the aggregate to be changed without any additional effort. It saves time and work whenever the milling drum assembly needs to be changed.	<b>Standard</b>	<b>2685194</b>	<b>USD</b>	<b>0.00</b>
Transport carriage for milling drum units from FB2200 (7 ft 3 in) to FB4400 (14 ft 5 in) to make it easier to change milling drum units and handle them in the workshop or on the job site.	<b>Option</b>	<b>2282163</b>	<b>USD</b>	<b>17,684.00</b>
Milling drum mounting and transport cart for milling drums from FB1500 (4 ft 11 in) to FB2500 (8 ft 2 in)	<b>Option</b>	<b>2312515</b>	<b>USD</b>	<b>6,541.00</b>
Transport roller set consisting of 4 heavy-duty rollers for easy removal of milling units from FB1500 to FB3800 on level surfaces.	<b>Option</b>	<b>2762958</b>	<b>USD</b>	<b>5,320.00</b>
<b>Options for belt conveyor</b>				
VCS – vacuum cutting system on the discharge conveyor for the extraction of fine material particles and water vapor from the sealed milling drum unit.	<b>Standard</b>	<b>2667207</b>	<b>USD</b>	<b>0.00</b>
Signal lights for visual "stop" and "go" instructions for the truck driver without the use of a horn. The signal lights can be folded in hydraulically from the operator's platform.	<b>Option</b>	<b>2598539</b>	<b>USD</b>	<b>4,913.00</b>
Semi-automatic ACTIVE CONVEYOR swing angle control that guides the discharge conveyor in construction site situations where milling is carried out at intersections or roundabouts	<b>Standard</b>	<b>2703705</b>	<b>USD</b>	<b>0.00</b>
Support device for positioning the discharge conveyor on the flat bed truck	<b>Standard</b>	<b>60603</b>	<b>USD</b>	<b>0.00</b>
<b>Additional control unit LEVEL PRO</b>				
Additional 5" control panel for controlling the LEVEL PRO ACTIVE leveling system. Up to two additional control panels can be mounted in the rear lower area of the machines	<b>Option</b>	<b>2598631</b>	<b>USD</b>	<b>2,361.00</b>
2 Additional 7" control panel that displays the machine control and controls the LEVEL PRO ACTIVE levelling system. Up to two additional control panels can be mounted in the rear lower area of the machines	<b>Standard</b>	<b>2598632</b>	<b>USD</b>	<b>0.00</b>
Additional 2" control panel that can be programmed with up to 16 individually selected functions. Up to two additional control panels can be mounted on the outside railing of the operator's platform	<b>Standard</b>	<b>2598664</b>	<b>USD</b>	<b>0.00</b>

Two additional 2" control panels that can each be programmed with up to 16 individually selected functions. Up to two additional control panels can be mounted on the outside railing of the operator's platform	<b>Option</b>	<b>2767151</b>	<b>USD</b>	<b>3,990.00</b>
User-specific saving of individually adjustable machine settings such as the display configuration or the assignment of favorites buttons. The data can be saved on five different SMART KEY key fobs with tokens.	<b>Standard</b>	<b>2779470</b>	<b>USD</b>	<b>0.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE levelling system with levelling boom. Premounted and adjustable hydraulic cylinders on the left and right allow the use of a Sonic-Ski sensor that is able to scan a reference object up to 1,900 mm away from the milling edge. During machine transport, the sensor and cables are securely stowed in the corresponding transport boxes.	<b>Option</b>	<b>2667237</b>	<b>USD</b>	<b>10,776.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with two hydraulic cylinder sensors for scanning a reference surface to the left and the right of the milling drum.	<b>Standard</b>	<b>2667241</b>	<b>USD</b>	<b>0.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with multiplex scanning on the right. Two additional ultrasonic sensors scan reference surfaces in front of and behind the machine. During machine transport, the sensors and cables are securely stowed in a corresponding transport box.	<b>Option</b>	<b>2673212</b>	<b>USD</b>	<b>5,157.00</b>
Extension of the LEVEL PRO ACTIVE leveling system with multiplex scanning on the left and right. Four additional ultrasonic sensors scan reference surfaces in front of and behind the machine. During machine transport, the sensors and cables are securely stowed in a corresponding transport box.	<b>Option</b>	<b>2673213</b>	<b>USD</b>	<b>10,016.00</b>
<b>Leveling</b>				
Extension of the LEVEL PRO ACTIVE leveling system with multiplex scanning on the right. Two additional ultrasonic sensors scan reference surfaces in front of and behind the machine. During machine transport, the sensors and cables are securely stowed in a corresponding transport box. (FB3500/FB3800) (11 ft 6 in / 12 ft 6 in)	<b>Option</b>	<b>2790513</b>	<b>USD</b>	<b>6,406.00</b>
Extension of the LEVEL PRO ACTIVE leveling system with multiplex scanning on the right and left. Four additional ultrasonic sensors scan reference surfaces in front of	<b>Option</b>	<b>2790514</b>	<b>USD</b>	<b>12,309.00</b>

<b>Water system</b>				
Powerful, hydraulically operated high pressure water cleaner with a maximum output of 15 l/min (4 gpm) at a pressure of 150 bar (2175 psi).	<b>Option</b>	<b>2667357</b>	<b>USD</b>	<b>2,538.00</b>
<b>Pick changing aids</b>				
One hydraulically powered pick ejector, including the required electrical and hydraulic connections. Ideal for convenient, fast and low-noise pick changes.	<b>Standard</b>	<b>2667497</b>	<b>USD</b>	<b>0.00</b>
Two hydraulically powered pick ejectors, including the required electrical and hydraulic connections. Ideal for convenient, fast and low-noise pick changes.	<b>In lieu of 2667497</b>	<b>2793479</b>	<b>USD</b>	<b>2,484.00</b>
<b>Camera system</b>				
Two-fold camera system with one camera at the discharge conveyor and one camera with a view of the rear area. The camera images are displayed on the standard 7" control panel on the operator's platform.	<b>In lieu of 2673434</b>	<b>2673433</b>	<b>USD</b>	<b>-4,031.00</b>
Four-fold camera system with an additional 10" control panel for an optimised view of the work processes being executed in front of and behind the machine as well as of the side plates, on the right and left. The camera images are displayed on the 10" control panel on the operator's platform.	<b>Standard</b>	<b>2673434</b>	<b>USD</b>	<b>0.00</b>
Eight-fold camera system with an additional 10" control panel for an optimised view of the work processes being executed in front of and behind the machine, of the side plates on the right and left and of the milled surface behind the milling drum unit. The camera images are displayed on the 10" control panel on the operator's platform.	<b>In lieu of 2673434</b>	<b>2673435</b>	<b>USD</b>	<b>4,004.00</b>
<b>Other devices</b>				
Electrical preheating of the fuel filter to maintain the flow of fuel at low outside temperatures. Serves to guarantee machine operation at temperatures below 0 32 degrees Fahrenheit (0 degrees Celsius).	<b>Option</b>	<b>2673455</b>	<b>USD</b>	<b>1,384.00</b>
Electrical diesel suction and pressure pump with 7.50 m (24 ft 7 in) suction hose. The machine can be refueled with up to 50 l/min (13 gal/min) from external diesel tanks.	<b>Option</b>	<b>2673456</b>	<b>USD</b>	<b>936.00</b>
License plate holder with LED lighting	<b>Option</b>	<b>2654224</b>	<b>USD</b>	<b>489.00</b>
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	<b>Option</b>		<b>USD</b>	<b>81.00</b>
Spare part and application documentation English (EN)	<b>Option</b>		<b>USD</b>	<b>14.00</b>

## Price list

# W 35 XRi

### Scope of supply – basic machine

- Engine: 4-cylinder diesel engine type DEUTZ TCD 2.9 L4
- Rated engine power at 2100 - 2300 rpm: 45 kW / 60 HP / 61 PS
- Exhaust standard: US EPA Tier 4f
- Standard milling width: 1 ft 2 in / 350 mm
- Theoretical milling depth: 4 in / 110 mm

#### STANDARD EQUIPMENT

- Base machine with engine
- Robust machine chassis
- Wide opening engine cowlings, with gas spring support and highly effective noise insulation
- Radiator with temperature-dependent fan speed
- Integrated 72 gal / 275 liter water tank
- Integrated 18 gal / 70 liter diesel tank
- Loading and tie-down points integrated in the chassis

#### MILLING DRUM UNIT

- Water sprayingstrip with on/off function for pick cooling with water pump with load-dependent control
- Wide opening milling drum door with automatic electrical safety shut-down
- Right side plate in hinged configuration in conjunction with centering pin system on the milling drum holder for quick and easy change of milling drums
- The right-hand side plate can be easily lifted using the foot pedal on the operator's stand

#### MACHINE CONTROL AND LEVELLING SYSTEM

- WIDRIVE machine controller to reduce operator workload and increase performance

#### OPERATOR'S PLATFORM

- Flexibly mounted operator's platform on the top of the machine
- Multi-function armrest on right with up/down and front/back adjustment with joystick and various controls ergonomically arranged
- Display for important machine parameters on the left control panel
- Convenient operating console with practical switches
- Convenient footstep to the operator's platform
- Operator's platform with vibration damping
- Steering console with adjustable inclination
- Lockable control panel covers

#### TRACK UNIT AND HEIGHT ADJUSTMENT

- Hydraulic 3-wheel all-wheel drive with hydraulic flow distributor
- Two manually engageable milling speeds as well as one traveling gear
- Hydraulic, easy front wheel steering
- Hydraulic spring-loaded multi-disc brake
- Hydraulic height adjustment with two speeds at the rear track units
- Manually folding-in rear right wheel

#### MISCELLANEOUS

- Lockable toolbox with toolkit for maintenance and servicing
- Additional mount for a pick container
- Device for towing away for releasing the spring-loaded multi-disc brake
- Reversing horn

- Extensive safety package with EMERGENCY STOP switch
- Pre-fitting for installing the WITOS FleetView control unit
- European type certification, EuroTest mark and CE conformity

**List price ex subsidiary Wirtgen America**

**USD**

**171,054.00**

### **Mandatory Options**

#### **Milling drum housing**

Ancillary parts for milling drum housing for extending to FB350. For operation without discharge conveyor. With single closing cap. Without scraper and milling drum.	<b>Standard</b>	<b>2435407</b>	<b>USD</b>	<b>0.00</b>
Ancillary parts for milling drum housing for extending to FB350. For operation with discharge conveyor. Including scraper and scraper bottom part. Without milling drum.	<b>Option</b>	<b>2434106</b>	<b>USD</b>	<b>1,656.00</b>
Ancillary parts for milling drum housing for extending to FB500. For operation without discharge conveyor. With single closing cap. Without scraper and milling drum.	<b>Option</b>	<b>2430304</b>	<b>USD</b>	<b>2,565.00</b>
Ancillary parts for milling drum housing for extending to FB500. For operation with discharge conveyor. Including scraper and scraper bottom part. Without milling drum.	<b>Option</b>	<b>2430301</b>	<b>USD</b>	<b>4,587.00</b>

#### **Hydraulic connection**

Hydraulic drive with quick-release connection and additional hydraulic pump for operation of discharge conveyor or hydraulic jack hammer.	<b>Standard</b>	<b>2433900</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

#### **Milling drums / milling units**

Milling drum FB350 LA15, with welded pick holders HT08 with increased service life, milling depth max. 4 in / 110 mm, equipped with 31 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.	<b>Standard</b>	<b>2430057</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

#### **Milling depth regulation**

Mechanical milling depth indicator by a wire-rope sensor left and right connected to the wheel brackets. Separate display on the left and right by a milling depth gage.	<b>Standard</b>	<b>2435408</b>	<b>USD</b>	<b>0.00</b>
LEVEL PRO PLUS leveling system. The measurement is made using wire-rope sensors on the side plate right and left. The milling depth is displayed and set intuitively on the LEVEL PRO PLUS operating display. The milling depth is regulated automatically. Incl. pre-fitting for additional sensors (e.g. Rapid Slope cross-slope sensor).	<b>Option</b>	<b>2376183</b>	<b>USD</b>	<b>8,143.00</b>

<b>Paint</b>				
Painting in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7015.	Standard	2862807	USD	0.00
Film coating in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7019	Option	2893649	USD	1,561.00
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	Standard	2456347	USD	0.00
<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	Standard	2770403	USD	0.00
<b>Machine lighting</b>				
Lighting system consisting of 2 halogen and 4 LED working lights. The headlights illuminate the area in front of the machine and the area in front of the milling drum unit. The light output of the working lights is approx. 9,700 lumens in total.	Standard	2435593	USD	0.00
High-performance lighting system consisting of 1 halogen and 5 LED working lights. The headlights illuminate the area in front of the machine and the area in front of the milling drum unit. The light output of the working lights is approx. 10,300 lumens in total. LED working lights are extremely bright, shock-resistant and durable.	Option	2435594	USD	258.00
<b>Equipment Options</b>				
<b>Additional weight</b>				
Modular additional weight 3086 lbs / 1,400 kg for individual ballasting of the machine. The weight plates can be carried and easily mounted by one person.	Standard	2450844	USD	0.00
<b>Equipment operator's platform</b>				
Equipment of the operator's platform with a height adjustable stand-up seat for increasing operating comfort	Standard	2460736	USD	0.00

<b>Slot cutting ring</b>				
Ancillary parts and adapter with saw blade FB14 (5 in), milling depth max. 4 in / 100 mm, for the installation on zero edge right	Option	2074431	USD	2,131.00
Ancillary parts and adapter with saw blade FB19 (7 in), milling depth max. 4 in / 100 mm, for the installation on zero edge right	Option	2120815	USD	2,117.00
<b>Options for belt conveyor</b>				
Robust 6 ft 1 in / 1,870 mm long discharge conveyor with conveyor belt width 8 in / 250 mm. Includes comfortable rope winch height adjustment. Using a foldable roller unit, the discharge conveyor can be mounted and removed in just a few steps and is easy to transport on a construction site. When replacing the picks, the belt can simply be swung to the side without the hydraulic connections having to be disconnected.	Option	2605148	USD	7,139.00
<b>Leveling</b>				
Expansion of the LEVEL PRO PLUS leveling system for laser leveling. Including laser receiver with mount, pylon and cable - without laser transmitter.	Option	2368610	USD	15,091.00
<b>Lateral slope control</b>				
Expansion of the LEVEL PRO PLUS leveling system by a RAPID SLOPE cross-slope sensor. Ideal, for example for aligning the machine in a defined lateral tilt on a one-sided reference.	Option	2368617	USD	4,166.00
<b>Leveling</b>				
Pre-programmable height positions with automatic positioning. 3 freely selectable workings heights each on left and right can be predefined. E.g. for quickly moving to milling depths or lifting the machine out of the cut. The left and right positions can be moved to separately.	Standard	2435844	USD	0.00
<b>Attachments</b>				
Powerful hydraulic hammer including 32 ft 8 in / 10-m connecting hose for residual jobs	Option	2435414	USD	4,940.00
<b>Other devices</b>				
License plate holder with LED lighting to comply with country-specific regulations.	Option	2656383	USD	461.00

Additional milling drums				
Fine milling drum, with milling width 350 mm / 1 ft 2 in, milling depth max. 100 mm / 3 15/16 in, tool spacing 6 mm / 15/64 in, equipped with welded holder system HT5 and 57 picks. For applications with the maximum requirement on macro and micro-profile of the road surface, e.g. increase in grip by roughening, preparatory milling for thin-layer coverings or removal of markings on the road surface.	Option	187302	USD	5,836.00
Microfine milling drum FB350 (14") LA3, with welded pick holders HT4, milling depth max. 1.2 in / 30 mm, equipped with 117 picks	Option	187301	USD	8,672.00
Documentation				
Additional set of technical documentation - North America country version (US)	Option		USD	81.00
Spare part and application documentation English (EN)	Option		USD	14.00

## Price list W 50 Ri

### Scope of supply – basic machine

- Engine: 4-CYLINDER DIESEL ENGINE TYPE DEUTZ TCD 4.1 L4
- Rated engine power 2300 r.p.m.: 105 kW / 141 HP / 143 PS
- Exhaust standard: EU Stage V / US EPA Tier 4f
- Standard milling width: 1 ft 7 in / 500 mm
- Theoretical milling depth: 8 in / 210 mm

### STANDARD EQUIPMENT

- Engine cover with noise insulation and flexibly decoupled engine mounting for especially quiet running and low noise emissions

### MILLING DRUM UNIT

- Automatically activating, hydraulic drive belt tensioner for reliable power transmission to the milling drum
- Hydraulically lifting side plates with position measuring sensors in the hydraulic cylinders for measuring the milling depth.
- Round milling drum housing and straight left side plate for optimum material transport, making for low left-over amounts when lifting out the milling drum
- Prepared for using a scraper decoupled from the conveyor suspension for loading material using discharge conveyor
- The right-hand side of the milling drum housing can be easily opened for maintenance or drum change
- Optimized for quick change of the milling drum, including by using centering pins with the side door of the milling drum housing
- With automatic electrical safety shut-off for the milling drum

### LOADING OF MILLED MATERIAL

- Machine prepared for optional material loading by discharge conveyor
- Conveyor speed continuously variable
- Conveyor slewing angle right/left 30 degrees each for significantly improved loading procedures
- Slender conveyor suspension permits improved visibility to the rear

### OPERATOR'S PLATFORM

- Operator's platform with ergonomically arranged operator's seat, control panel arranged on the right and digital milling depth indicator in the control display
- Steering console with adjustable rake and reach for ideal adaptation of the operator's platform to the operator
- 2 rear-view mirrors left
- Machine design permits unobstructed view of the milled edge at the right and left as well as the working area in front of the milling drum on the right
- Conveniently accessible ladder/footstep to the operator's platform with night-time lighting and especially low, folding bottom edge of the latter/footstep
- Robust anti-vandalism protection for the controls

### TRACK UNIT AND HEIGHT ADJUSTMENT

- Precise machine height adjustment in 0.04 or 0.2 in / 1 or 5 mm steps from the machine control panel
- Infinitely variable, hydraulic all-wheel drive with three speed ranges
- Digital load control, can be engaged manually, hydraulic differential lock (via flow divider)
- Particularly wide solid rubber tires (1 ft / 300 mm) for the lowest ground pressures and optimum traction
- For milling along curb edges, the rear right support wheel can be swiveled hydraulically from the operator's platform in front of the milling drum. In addition, the machine does not have to be lowered.
- Hydraulic spring-loaded brake

- Proportional height adjustment at rear
- Additional machine controller for automatic milling of intermittent rumble strip sections. Only in combination with a rumble strip kit.

#### MISCELLANEOUS

- Optimized center of gravity position, irrespective of the filling levels of the water and fuel tanks
- Particularly low machine center of gravity for high stability of the machine
- Robust and easily maintained machine chassis with optimum ground clearance and short overhangs
- Towing device
- Reversing horn
- Large tool package with lockable tool box and additional storage space for two pick containers
- Pre-fitting for installing the WITOS FleetView control unit
- European type certification, EuroTest mark and CE conformity

**List price ex subsidiary Wirtgen America** **USD** **275,283.00**

#### Mandatory Options

##### Milling drum housing

Wear-resistant milling drum housing FB500 (20") with scraper system. For use with discharge conveyor.	Standard	2288339	USD	0.00
---	----------	---------	-----	------

##### Milling drums / milling units

Milling drum with milling width 500 mm / 1 ft 7 in, milling depth max. 210 mm / 8 in, tool spacing 15 mm / 19/32 in, equipped with welded pick holders HT08 with increased service life and 60 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.	Standard	2288343	USD	0.00
---	----------	---------	-----	------

##### Material depressor / milling unit seal front

Front milling drum unit seal FB500 (20") with hydraulic height and contact pressure adjustment. An overload sensor with control function lifts the seal briefly in case of a collision and thus prevents damage.	Standard	2288347	USD	0.00
--	----------	---------	-----	------

#### OPERATOR'S PLATFORM

Standard operator's seat with shock absorption and lengthways adjustment	Standard	2288348	USD	0.00
--	----------	---------	-----	------

Comfort operator's seat incl. seat heating. The operator's seat has shock absorption, lengthways adjustment and can be swiveled through 20 degrees.	Option	2288349	USD	1,072.00
---	--------	---------	-----	----------

##### Milling depth regulation

Digital milling depth indicator in the control display. The measurement is made using cylinder sensors in the lifting columns. Regulation is performed manually by the operator. With 3 freely assignable milling depth memory slots each for the left and right sides of the machine.	Standard	2288350	USD	0.00
--	----------	---------	-----	------

LEVEL PRO PLUS leveling system. The measurement is made using cylinder sensors on the side plate right and left. The milling depth is displayed and set intuitively on the LEVEL PRO PLUS control display. The milling depth is regulated automatically. Incl. pre-fitting for additional sensors (e.g. Rapid Slope).	Option	2288352	USD	9,975.00
<b>Hydraulic connection</b>				
Machine with hydraulic pre-fitting for a discharge conveyor with screw coupling. Each contains the coupling element on the machine side and the discharge conveyor side.	Standard	2288355	USD	0.00
<b>Material transport</b>				
Discharge conveyor 18 ft 4 in / 5,600 mm long with conveyor belt width 1 ft 2 in / 350 mm and hydraulic folding device for shortening the transport length or simplified maneuvering in narrow fields. Including mechanical installation and removal assistance.	Standard	2288359	USD	0.00
<b>Paint</b>				
Painting in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7015.	Standard	2288360	USD	0.00
Film coating in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7019	Option	2893655	USD	1,859.00
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	Standard	2456347	USD	0.00
<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	Standard	2770403	USD	0.00
<b>Machine lighting</b>				
Lighting system consisting of 1 LED strip, 3 halogen and 8 LED working lights. The headlights illuminate the area in front of the machine, the left machine side, the area in front of the milling drum unit, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 16,700 lumen in total.	Standard	2487449	USD	0.00

High-performance lighting system consisting of 2 LED strips, 1 halogen and 12 LED working lights. The headlights illuminate the area in front of the machine, the rear of the machine, the left machine side from the front and rear, the area in front of the milling drum unit, the wheel arch, the weather canopy, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 23,300 lumen in total. LED working lights are extremely bright, shock-resistant and durable.	Option	2487450	USD	964.00
<b>Crawler units</b>				0.00
Chassis with 4 driven wheeled track units for a quick and maneuverable change of field with optimum traction and better distribution of ground pressure. The front wheels are arranged slightly offset and so permit larger steering angles as well as greater comfort and safety when crossing lateral steps.	Standard	2286790	USD	0.00
<b>Equipment Options</b>				
<b>Additional weight</b>				
Machine equipment with an additional weight 838 lbs / 380 kg behind the front axle. The additional weight increases the machine traction.	Option	2288394	USD	2,171.00
<b>Advance drive</b>				
Equipment of the machine with 4-wheel chassis with precision steering. Pushbuttons on the multi-function armrests with a proportional response permit more precise steering of the machine. The right rear wheel also steers, thereby enabling the smallest turning circles within a compact space.	Standard	2478478	USD	0.00
Equipment of the machine for increased transport speed by using more powerful hydraulic components, (3-wheel up to 8 km/h / 5 mph, 4-wheel up to 12 km/h / 7.5 mph). Working in the field is significantly accelerated by an increased transport speed of the machine. Option only possible in conjunction with precision steering.	Standard	2478476	USD	0.00
<b>Equipment operator's platform</b>				
Operator's platform with weather canopy and lateral weather protection elements. The weather canopy can be adjusted in height hydraulically. The transparent weather protection elements on the side on the roof and the right of the operator's platform protect the operator against the effects of weather driving in from the sides, and ensure additional comfort when working.	Option	2309414	USD	9,351.00

<b>Milling drum assembly options</b>				
Overload sensor on the scraper FB500/600 for automatic lifting function in case of obstacles. Effectively prevents the scraper from sinking into the loose sub-base, as well as getting stuck on obstacles.	Option	2478474	USD	950.00
Active floating position on the side plate right and left by continuous comparison between the milling depth and position of the side plate. If required, the side plate is lifted briefly to prevent tilting or sinking into a soft sub-base. (Only possible in conjunction with LEVEL PRO PLUS.)	Option	2478486	USD	1,737.00
<b>Side milling ring</b>				
Side milling ring with protective cover and ancillary parts FB80 (3") cpl., with welded pick holders HT02, milling depth max. 0 ft 11 in / 300 mm, equipped with 30 picks	Option	2288386	USD	9,839.00
<b>Device for milling drum change</b>				
Milling drum assembly trolley for milling drums up to FB600 (24"), for straightforward milling drum change.	Option	177240	USD	692.00
<b>Additional milling units</b>				
FCS milling unit FB400 (15,75") LA15, with welded pick holders HT08, milling depth max. 8 in / 210 mm, equipped with 54 picks. Including corresponding scraper bottom parts.	Option	2288388	USD	7,247.00
FCS milling unit FB300 (12") LA15, with welded pick holders HT08, milling depth max. 8 in / 210 mm, equipped with 47 picks. Including corresponding scraper bottom parts.	Option	2288389	USD	6,229.00
<b>Cold-start device</b>				
Electrical preheating of the fuel filter to maintain the flow of fuel at low outside temperatures. Serves to guarantee machine operation at temperatures below 0 32 degrees Fahrenheit (0 degrees Celsius).	Option	2411669	USD	407.00
<b>Options for belt conveyor</b>				
Additional shortened discharge conveyor 3 ft 7 in / 1,100 mm long with conveyor belt system 1 ft 2 in / 350 mm. Including hydraulic conveyor cylinder and installation material. Ideal for loading wheel loader buckets and wheelbarrows or for depositing the milled material at the side.	Option	2288390	USD	11,726.00

<b>Lateral slope control</b>				
Expansion of the LEVEL PRO PLUS leveling system by a RAPID SLOPE sensor. Ideal, for example for aligning the machine in a defined lateral tilt on a one-sided reference.	Option	2547902	USD	4,166.00
Expansion of the LEVEL PRO PLUS leveling system by a leveling boom that can be moved out on the left side. The boom can be moved out hydraulically if required by up to 43 in / 1,080 mm and mechanically by a further 40 in / 1,020 mm. Including sensor and cable as well as LED position lights for indicating the moved-out boom.	Option	2288393	USD	5,727.00
<b>Attachments</b>				
Hydraulic control valves and hydraulic connection on machine rear for the use of a hydraulic hammer or further hydraulically driven additional devices.	Option	2363218	USD	977.00
<b>Attachments</b>				
Powerful hydraulic hammer with 33 ft / 10 m connection hose. Ideal for removing left-over areas.	Option	2288398	USD	4,940.00
<b>Water system / spraying agent system</b>				
Hydraulically driven water filler pump. For rapid filling of the water tank. The filler pump is located in an easily accessible position and is protected in the storage compartment at the ladder/footstep to the operator's platform.	Option	2288387	USD	2,877.00
<b>Pick changing aids</b>				
Hydraulically driven pick extractor drift, complete with holder and corresponding electrical and hydraulic connectors. Ideal for convenient and quiet pick change.	Option	2288399	USD	6,148.00
<b>Wirtgen information and diagnostic system</b>				
Equipment of the machine with job data acquisition. The information is shown in the control display.	Option	2410294	USD	1,154.00
<b>Camera system</b>				
Monitor system with 2 cameras and an additional screen. A camera is mounted on the discharge conveyor and displays the ejection area. The 2nd camera can be freely positioned on the machine using a magnetic base and spiral cable, and thus offers complete flexibility in use.	Option	2487626	USD	5,171.00

<b>Other devices</b>				
License plate holder with LED lighting to comply with country-specific regulations.	Option	2655776	USD	461.00
<b>Additional milling drums</b>				
Milling drum FB80 (3") with welded pick holders HT02, milling depth max. 8 in / 210 mm, equipped with 24 RS picks, for the installation in the milling drum housing with zero edge right	Option	2078806	USD	3,406.00
Milling drum with milling width 300 mm / 0 ft 11 in, milling depth max. 210 mm / 8 in, tool spacing 15 mm / 19/32 in, equipped with welded pick holders HT08 with increased service life and 47 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.	Option	2334037	USD	5,306.00
Milling drum with milling width 400 mm / 15 3/4 in, milling depth max. 210 mm / 8 in, tool spacing 15 mm / 19/32 in, equipped with welded pick holders HT08 with increased service life and 54 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.	Option	2334038	USD	6,012.00
Microfine milling drum FB500 (20") LA3, with welded pick holders HT4, milling depth max. 0.8 in / 20 mm, equipped with 166 mini-picks.	Option	178460	USD	12,106.00
Fine milling drum, with milling width 500 mm / 1 ft 8 in, milling depth max. 50 mm / 2 in, tool spacing 6 mm / 15/64 in, equipped with welded holder system HT5 and 84 picks. For applications with the maximum requirement on macro and micro-profile of the road surface, e.g. increase in grip by roughening, preparatory milling for thin-layer coverings or removal of markings on the road surface.	Option	177181	USD	9,147.00
FCS milling drum with milling width 500 mm / 1 ft 7 in, milling depth max. 210 mm / 8 in, tool spacing 20 mm / 25/32 in, equipped with welded pick holders HT08 and 54 picks. For applications with high requirements for milling volume, e.g. complete removal of road surfaces or concrete milling work.	Option	2389515	USD	6,107.00
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	Option	USD		81.00
Spare part and application documentation English (EN)	Option	USD		14.00

## Price list W 60 Ri

### Scope of supply – basic machine

- Engine: 4-CYLINDER DIESEL ENGINE TYPE DEUTZ TCD 4.1 L4
- Rated engine power 2300 r.p.m.: 105 kW / 141 HP / 143 PS
- Exhaust standard: EU Stage V / US EPA Tier 4f
- Standard milling width: 1 ft 7 in / 500 mm
- Theoretical milling depth: 8 in / 210 mm

### STANDARD EQUIPMENT

- Engine cover with noise insulation and flexibly decoupled engine mounting for especially quiet running and low noise emissions

### MILLING DRUM UNIT

- Automatically activating, hydraulic drive belt tensioner for reliable power transmission to the milling drum
- Hydraulically lifting side plates with position measuring sensors in the hydraulic cylinders for measuring the milling depth.
- Round milling drum housing and straight left side plate for optimum material transport, making for low left-over amounts when lifting out the milling drum
- Prepared for using a scraper decoupled from the conveyor suspension for loading material using discharge conveyor
- The right-hand side of the milling drum housing can be easily opened for maintenance or drum change
- Optimized for quick change of the milling drum, including by using centering pins with the side door of the milling drum housing
- With automatic electrical safety shut-off for the milling drum

### LOADING OF MILLED MATERIAL

- Machine prepared for optional material loading by discharge conveyor
- Conveyor speed continuously variable
- Conveyor slewing angle right/left 30 degrees each for significantly improved loading procedures
- Slender conveyor suspension permits improved visibility to the rear

### OPERATOR'S PLATFORM

- Operator's platform with ergonomically arranged operator's seat, control panel arranged on the right and digital milling depth indicator in the control display
- Steering console with adjustable rake and reach for ideal adaptation of the operator's platform to the operator
- 2 rear-view mirrors left
- Machine design permits unobstructed view of the milled edge at the right and left as well as the working area in front of the milling drum on the right
- Conveniently accessible ladder/footstep to the operator's platform with night-time lighting and especially low, folding bottom edge of the latter/footstep
- Robust anti-vandalism protection for the controls

### TRACK UNIT AND HEIGHT ADJUSTMENT

- Precise machine height adjustment in 0.04 or 0.2 in / 1 or 5 mm steps from the machine control panel
- Infinitely variable, hydraulic all-wheel drive with three speed ranges
- Digital load control, can be engaged manually, hydraulic differential lock (via flow divider)
- Particularly wide solid rubber tires (1 ft / 300 mm) for the lowest ground pressures and optimum traction
- For milling along curb edges, the rear right support wheel can be swiveled hydraulically from the operator's platform in front of the milling drum. In addition, the machine does not have to be lowered.
- Hydraulic spring-loaded brake

- Proportional height adjustment at rear
- Additional machine controller for automatic milling of intermittent rumble strip sections. Only in combination with a rumble strip kit.

#### MISCELLANEOUS

- Optimized center of gravity position, irrespective of the filling levels of the water and fuel tanks
- Particularly low machine center of gravity for high stability of the machine
- Robust and easily maintained machine chassis with optimum ground clearance and short overhangs
- Towing device
- Reversing horn
- Machine equipment with an additional weight 838 lbs / 380 kg behind the front axle. The additional weight increases the machine traction.
- Large tool package with lockable tool box and additional storage space for two pick containers
- Pre-fitting for installing the WITOS FleetView control unit
- European type certification, EuroTest mark and CE conformity

<b>List price ex subsidiary Wirtgen America</b>	<b>USD</b>	<b>280,467.00</b>
---	------------	-------------------

#### Mandatory Options

##### Milling drum housing

Wear-resistant milling drum housing FB600 (24") with scraper system. For use with discharge conveyor.	<b>Standard</b>	<b>2381026</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

##### Milling drums / milling units

Milling drum with milling width 600 mm / 23 5/8 in, milling depth max. 210 mm / 8 in, tool spacing 15 mm / 19/32 in, equipped with welded pick holders HT08 with increased service life and 70 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.	<b>Standard</b>	<b>2288345</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

##### Material depressor / milling unit seal front

Front milling drum unit seal FB600 (24") with hydraulic height and contact pressure adjustment. An overload sensor with lifting function lifts the seal briefly in case of a collision and thus prevents damage.	<b>Standard</b>	<b>2297529</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

#### OPERATOR'S PLATFORM

Standard operator's seat with shock absorption and lengthways adjustment	<b>Standard</b>	<b>2288348</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

Comfort operator's seat incl. seat heating. The operator's seat has shock absorption, lengthways adjustment and can be swiveled through 20 degrees.	<b>Option</b>	<b>2288349</b>	<b>USD</b>	<b>1,072.00</b>
---	---------------	----------------	------------	-----------------

##### Milling depth regulation

Digital milling depth indicator in the control display. The measurement is made using cylinder sensors in the lifting columns. Regulation is performed manually by the operator. With 3 freely assignable milling depth memory slots each for the left and right sides of the machine.	<b>Standard</b>	<b>2288350</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

LEVEL PRO PLUS leveling system. The measurement is made using cylinder sensors on the side plate right and left. The milling depth is displayed and set intuitively on the LEVEL PRO PLUS control display. The milling depth is regulated automatically. Incl. pre-fitting for additional sensors (e.g. Rapid Slope).	Option	2288352	USD	9,975.00
<b>Hydraulic connection</b>				
Machine with hydraulic pre-fitting for a discharge conveyor with screw coupling. Each contains the coupling element on the machine side and the discharge conveyor side.	Standard	2288355	USD	0.00
<b>Material transport</b>				
Discharge conveyor 18 ft 4 in / 5,600 mm long with conveyor belt width 1 ft 2 in / 350 mm and hydraulic folding device for shortening the transport length or simplified maneuvering in narrow fields. Including mechanical installation and removal assistance.	Standard	2288359	USD	0.00
<b>Paint</b>				
Painting in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7015.	Standard	2380455	USD	0.00
Film coating in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7019	Option	2893657	USD	1,859.00
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	Standard	2456347	USD	0.00
<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	Standard	2770403	USD	0.00

<b>Machine lighting</b>				
Lighting system consisting of 1 LED strip, 3 halogen and 8 LED working lights. The headlights illuminate the area in front of the machine, the left machine side, the area in front of the milling drum unit, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 16,700 lumen in total.	Standard	2487449	USD	0.00
High-performance lighting system consisting of 2 LED strips, 1 halogen and 12 LED working lights. The headlights illuminate the area in front of the machine, the rear of the machine, the left machine side from the front and rear, the area in front of the milling drum unit, the wheel arch, the weather canopy, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 23,300 lumen in total. LED working lights are extremely bright, shock-resistant and durable.	Option	2487450	USD	964.00
<b>Crawler units</b>				
Chassis with 4 driven wheeled track units for a quick and maneuverable change of field with optimum traction and better distribution of ground pressure. The front wheels are arranged slightly offset and so permit larger steering angles as well as greater comfort and safety when crossing lateral steps.	Standard	2286790	USD	0.00
<b>Equipment Options</b>				
<b>Additional weight</b>				
Equipment of the machine with an additional weight 620 kg / 1367 lbs on the underbody. For the W 50 Ri, only in conjunction with the additional weight 380 kg / 838 lbs. The additional weight increases the machine traction.	Option	2288395	USD	2,959.00
<b>Advance drive</b>				
Equipment of the machine with 4-wheel chassis with precision steering. Pushbuttons on the multi-function armrests with a proportional response permit more precise steering of the machine. The right rear wheel also steers, thereby enabling the smallest turning circles within a compact space.	Standard	2481423	USD	0.00
Equipment of the machine for increased transport speed by using more powerful hydraulic components, (3-wheel up to 8 km/h / 5 mph, 4-wheel up to 12 km/h / 7.5 mph). Working in the field is significantly accelerated by an increased transport speed of the machine. Option only possible in conjunction with precision steering.	Standard	2478476	USD	0.00

<b>Equipment operator's platform</b>				
Operator's platform with weather canopy and lateral weather protection elements. The weather canopy can be adjusted in height hydraulically. The transparent weather protection elements on the side on the roof and the right of the operator's platform protect the operator against the effects of weather driving in from the sides, and ensure additional comfort when working.	<b>Option</b>	<b>2309414</b>	<b>USD</b>	<b>9,351.00</b>
<b>Milling drum assembly options</b>				
Overload sensor on the scraper FB500/600 for automatic lifting function in case of obstacles. Effectively prevents the scraper from sinking into the loose sub-base, as well as getting stuck on obstacles.	<b>Option</b>	<b>2478474</b>	<b>USD</b>	<b>950.00</b>
Active floating position on the side plate right and left by continuous comparison between the milling depth and position of the side plate. If required, the side plate is lifted briefly to prevent tilting or sinking into a soft sub-base. (Only possible in conjunction with LEVEL PRO PLUS.)	<b>Option</b>	<b>2478486</b>	<b>USD</b>	<b>1,737.00</b>
<b>Side milling ring</b>				
Side milling ring with protective cover and ancillary parts FB80 (3") cpl., with welded pick holders HT02, milling depth max. 0 ft 11 in / 300 mm, equipped with 30 picks	<b>Option</b>	<b>2288386</b>	<b>USD</b>	<b>9,839.00</b>
<b>Device for milling drum change</b>				
Milling drum assembly trolley for milling drums up to FB600 (24"), for straightforward milling drum change.	<b>Option</b>	<b>177240</b>	<b>USD</b>	<b>692.00</b>
<b>Additional milling units</b>				
FCS milling unit FB500 (1 ft 6 in) LA15, with welded pick holders HT08, milling depth max. 8 in / 210 mm, equipped with 60 picks. Including corresponding scraper bottom parts.	<b>Option</b>	<b>2542455</b>	<b>USD</b>	<b>9,432.00</b>
FCS milling unit FB400 (15,75") LA15, with welded pick holders HT08, milling depth max. 8 in / 210 mm, equipped with 54 picks. Including corresponding scraper bottom parts.	<b>Option</b>	<b>2542456</b>	<b>USD</b>	<b>9,011.00</b>
<b>Cold-start device</b>				
Electrical preheating of the fuel filter to maintain the flow of fuel at low outside temperatures. Serves to guarantee machine operation at temperatures below 0 32 degrees Fahrenheit (0 degrees Celsius).	<b>Option</b>	<b>2411669</b>	<b>USD</b>	<b>407.00</b>

<b>Options for belt conveyor</b>				
Additional shortened discharge conveyor 3 ft 7 in / 1,100 mm long with conveyor belt system 1 ft 2 in / 350 mm. Including hydraulic conveyor cylinder and installation material. Ideal for loading wheel loader buckets and wheelbarrows or for depositing the milled material at the side.	Option	2288390	USD	11,726.00
<b>Lateral slope control</b>				
Expansion of the LEVEL PRO PLUS leveling system by a RAPID SLOPE sensor. Ideal, for example for aligning the machine in a defined lateral tilt on a one-sided reference.	Option	2547902	USD	4,166.00
Expansion of the LEVEL PRO PLUS leveling system by a leveling boom that can be moved out on the left side. The boom can be moved out hydraulically if required by up to 43 in / 1,080 mm and mechanically by a further 40 in / 1,020 mm. Including sensor and cable as well as LED position lights for indicating the moved-out boom.	Option	2288393	USD	5,727.00
<b>Attachments</b>				
Hydraulic control valves and hydraulic connection on machine rear for the use of a hydraulic hammer or further hydraulically driven additional devices.	Option	2363218	USD	977.00
<b>Attachments</b>				
Powerful hydraulic hammer with 33 ft / 10 m connection hose. Ideal for removing left-over areas.	Option	2288398	USD	4,940.00
<b>Water system / spraying agent system</b>				
Hydraulically driven water filler pump. For rapid filling of the water tank. The filler pump is located in an easily accessible position and is protected in the storage compartment at the ladder/footstep to the operator's platform.	Option	2288387	USD	2,877.00
<b>Pick changing aids</b>				
Hydraulically driven pick extractor drift, complete with holder and corresponding electrical and hydraulic connectors. Ideal for convenient and quiet pick change.	Option	2288399	USD	6,148.00
<b>Wirtgen information and diagnostic system</b>				
Equipment of the machine with job data acquisition. The information is shown in the control display.	Option	2410294	USD	1,154.00
<b>Camera system</b>				
Monitor system with 2 cameras and an additional screen. A camera is mounted on the discharge conveyor and displays the ejection area. The 2nd camera can be freely positioned on the machine using a magnetic base and spiral cable, and thus offers complete flexibility in use.	Option	2487626	USD	5,171.00

<b>Other devices</b>				
License plate holder with LED lighting to comply with country-specific regulations.	<b>Option</b>	<b>2655776</b>	<b>USD</b>	<b>461.00</b>
<b>Additional milling drums</b>				
Milling drum FB80 (3") with welded pick holders HT02, milling depth max. 8 in / 210 mm, equipped with 24 picks	<b>Option</b>	<b>2389524</b>	<b>USD</b>	<b>3,298.00</b>
Fine milling drum, with milling width 600 mm, milling depth max. 100 mm, tool spacing 6 mm / 15/64 in, equipped with welded holder system HT5 and 101 picks. For applications with the maximum requirement on macro and micro-profile of the road surface, e.g. increase in grip by roughening, preparatory milling for thin-layer coverings or removal of markings on the road surface.	<b>Option</b>	<b>2389522</b>	<b>USD</b>	<b>10,504.00</b>
Milling drum Eco-Cutter FB600 (24") LA20 with welded pick holders HT08 with increased service life. Milling depth max. 8 in / 210 mm, equipped with 58 picks.	<b>Option</b>	<b>2389521</b>	<b>USD</b>	<b>6,474.00</b>
Microfine milling drum FB500 (20") LA3, with welded pick holders HT4, milling depth max. 0.8 in / 20 mm, equipped with 166 mini-picks.	<b>Option</b>	<b>178460</b>	<b>USD</b>	<b>12,106.00</b>
Fine milling drum, with milling width 500 mm / 1 ft 8 in, milling depth max. 50 mm / 2 in, tool spacing 6 mm / 15/64 in, equipped with welded holder system HT5 and 84 picks. For applications with the maximum requirement on macro and micro-profile of the road surface, e.g. increase in grip by roughening, preparatory milling for thin-layer coverings or removal of markings on the road surface.	<b>Option</b>	<b>177181</b>	<b>USD</b>	<b>9,147.00</b>
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	<b>Option</b>		<b>USD</b>	<b>81.00</b>
Spare part and application documentation English (EN)	<b>Option</b>		<b>USD</b>	<b>14.00</b>

## Price list

# WR 200 XLi

### Scope of supply – basic machine

- Engine: 6-cylinder diesel engine: Mercedes-Benz OM 470 LA
- Power at 1,900 r.p.m.: 308 kW / 412 HP / 418 PS
- Maximum power at 1,700 r.p.m.: 320 kW / 429 HP / 435 PS
- Exhaust standard: EU Stage 4 / US EPA Tier 4f
- Standard milling width: 7 ft 10 in / 2,400 mm
- Theoretical milling depth: 1 ft 8 in / 500 mm

### STANDARD EQUIPMENT

- Base machine with engine
- Machine chassis with built-in water tank and clear view of the right milled edge
- The right wheels are positioned within the milling width for working flush with the edge
- Diesel engine power controller for optimum milling and mixing results
- Engine cooling system with temperature-controlled fan speed
- Air system with compressor max. 116 psi / 8 bar
- Lockable engine cover with built-in sound insulation package
- Mechanical milling drum drive via a drive belt with automatic belt tensioner
- Variable cutting speed by combination of 3 selectable engine speeds and 3 adjustable drive belt pulley arrangements to achieve optimum working results
- Synchronous rotation or counter-rotating mode possible, depending on working direction
- Hydraulically adjustable milling drum flap in front of the drum
- Hydraulically adjustable scraper plates behind the drum
- Infinitely variable working depth adjustment by lowering or raising the entire milling drum
- Automatic mixing chamber adjustment to the respective working depth (larger mixing chamber for lower working depths)
- Power-controlled lowering speed of the milling drum in starting mode

### MACHINE CONTROL AND LEVELLING SYSTEM

- Multifunctional color control display that shows important machine operating conditions
- Comprehensive machine diagnostics displayed on the control screen
- Programmable automatic system for initiating and completing the milling process at the particular working depth
- Automated features to reduce the machine operator's workload

### OPERATOR'S PLATFORM

- Comfortable, high-quality cabin with flexible mountings, with roof hatch and individually adjustable heating
- Ergonomic, air-cushioned operator's seat
- Roll-over protection system (ROPS and FOPS) integrated in the cab frame
- Large windows with an excellent view of the respective work area and built-in windshield wipers
- Recirculating and fresh air filters can be changed without tools
- Various shelves and storage compartments as well as 12 V and 24 V sockets
- In order to provide an ideal view over the zero edge, the operator's cabin can be shifted over the right-hand side of the machine.
- Rotation of the operator's platform through 90° offers optimum adaptation to the particular working situation
- Individually adjustable control panel with color display
- Reversing camera with graphical reversing assistant
- Mirrors on right and left in the front area of the machine
- Working lights integrated into the cab roof

**TRACK UNIT AND HEIGHT ADJUSTMENT**

- Infinitely adjustable, hydraulic all-wheel drive
- Four-way tilting of the lifting columns to compensate for uneven terrain
- Electrohydraulic, light all-wheel steering, with the "crab", "cornering" or "straight ahead" steering types

**MISCELLANEOUS**

- "Welcome and go home" lighting with LED lighting in the ladder area
- Extensive safety package with 3 EMERGENCY STOP switches
- Large tool kit in lockable tool box
- Pre-fitting for installing the WITOS FleetView control unit
- European type certification, EuroTest mark and CE conformity

**List price ex subsidiary Wirtgen America****USD****491,055.00****Mandatory Options****Milling drums / milling units**

DURAFORCE milling and mixing rotor with working width 2400 mm (7 ft 10 in), working depth max. 510 mm, tool spacing 20 mm, equipped with quick-change toolholder system HT22 and 170 RS picks with shank diameter D20 with exchangeable edge ring segments. For a wide range of applications in soil stabilization and cold recycling.	<b>Standard</b>	<b>2314431</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

**Spraying unit**

Machine without spraying system. The existing drum housing openings are locked by cover strips.	<b>Standard</b>	<b>2418106</b>	<b>USD</b>	<b>0.00</b>
A VARIO spraying system for the precise addition of water or bitumen emulsion, with an eccentric auger pump (max. 800 l/min), a flow-through meter and a spray bar. The nozzles of the spraying system are equipped with an adjustable nozzle cross-section for adjusting the spray pressure. The spray bar has a special, automatically operating nozzle cleaning function. Furthermore, the spraying width can be set individually. The quantities added are controlled by a microprocessor. Straightforward operation on a colour display. Including a push bar for pushing the tank truck. (FB2400)	<b>Option</b>	<b>2683246</b>	<b>USD</b>	<b>40,850.00</b>
System only suitable for the addition of large quantities of water in the soil stabilisation process. A spraying system for the addition of water (max. 475 gal/min / 1800 l/min) with centrifugal pump, hydraulically operated shut-off device, flow meter and spraying beam. The spraying width can be set individually. The quantities added are controlled by a microprocessor. The effective control range is between 400 and 1800 l/ min. Straightforward operation on a color display. Including a push bar for pushing a tanker vehicle. (FB2400)	<b>Option</b>	<b>2494986</b>	<b>USD</b>	<b>36,779.00</b>

<b>Paint</b>				
Painting in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7015.	Standard	2418129	USD	0.00
Monocolor special painting. Cream white color is replaced by a special color (RAL according to customer). The complete lower part of the machine is painted in slate grey RAL 7015.	Additional price instead of standard	2418132	USD	2,294.00
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	Standard	2456347	USD	0.00
<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	Standard	2770403	USD	0.00
<b>Machine lighting</b>				
Halogen lighting system 24 V. Consisting of 8 additional halogen working lights for illuminating the working area. The light output is approx. 1,750 lumens per headlight. Including 2 rotary beacons.	Standard	2184631	USD	0.00
Powerful LED / halogen lighting system 24 V. Consisting of 6 additional LED working lights and 2 additional halogen working lights with magnetic flux for optimum illumination of the working area. Also, the 6 standard halogen working lights on the cabin roof are replaced by 6 LED working lights. LED working lights are extremely bright, shock-resistant and durable. The light output is approx. 3,000 lumens per headlight (halogen approx. 1,750 lumens). Including 2 LED patrol lights.	Option	2184632	USD	4,058.00
<b>Equipment Options</b>				
<b>Equipment in cabin</b>				
Air-conditioner integrated in the cabin roof with automatic air conditioning, infinitely variable fan and recirculating air filters that can be changed without tools.	Standard	2297350	USD	0.00
Radio system with two speakers and antenna - radio with CD/MP3/USB/Bluetooth	Standard	2184420	USD	0.00

<b>Printer</b>				
Printer for logging the binder consumption and area coverage.	Option	2184421	USD	1,059.00
USB interface for providing job data as a CSV file for it to be individually evaluated by the machine operator.	Option	2883103	USD	1,439.00
<b>Lateral slope control</b>				
Expansion of leveling system with electronic cross-slope sensor; ideal, for example, for aligning the machine in a defined transverse inclination on a single-sided reference	Standard	2417051	USD	0.00
<b>Water system</b>				
Hydraulically operated high-pressure water cleaner with a maximum performance of 15 l/min at 150 bar pressure. Ideal for daily cleaning of the machine.	Option	2223766	USD	4,261.00
<b>Other devices</b>				
Battery-operated hydraulic unit for milling drum rotation device and hydraulic pick extractor drift as well as for auxiliary drive.	Option	2302704	USD	2,972.00
<b>Pick changing aids</b>				
Milling drum rotation device with electrohydraulic milling drum drive for slowly turning the milling drum during pick replacement. The diesel engine can be switched off in conjunction with the "electric hydraulic unit" option.	Option	2326246	USD	3,216.00
Pneumatic hammer with two pick extractor and inserter tools each as well as 5.00 m / 16 ft 5 in hose.	Option	60604	USD	475.00
Hydraulically driven pick ejector, including the holder and required electrical and hydraulic connections. Ideal for convenient, fast and low-noise pick changes.	Option	2322403	USD	3,610.00
Additional, lockable storage compartment for 8 pick containers, mounted on the left side of the machine.	Option	2658350	USD	1,601.00
<b>Camera system</b>				
Monitor system with 3 cameras and 7" color display, in addition to the reversing camera of the standard equipment. The 2nd camera is directed towards the area in front of the milling drum housing and the 3rd towards the rear rotor plate. The 4th camera permits good visibility of the left side of the machine. The camera images are displayed on the monitor in the operator's platform. For model without spraying system.	Option	2320392	USD	7,166.00

Monitor system with 3 cameras and 7" color display, in addition to the reversing camera of the standard equipment. The 2nd camera is directed towards the area in front of the milling drum housing and the 3rd towards the rear rotor plate. The 4th camera permits good visibility of the left side of the machine. The camera images are displayed on the monitor in the operator's platform. For model with spraying system.	Option	2505868	USD	7,166.00
<b>Other devices</b>				
License plate holder with LED lighting to comply with country-specific regulations.	Option	2657943	USD	461.00
<b>Miscellaneous</b>				
Additional push bar 9 ft 11 in / 3.00 m - for a second tank truck. Drawbar/ push-bar eye 1x inner diameter 1x inner diameter = 1.57 in / 40 mm and 1x inner diameter = 1.97 in / 50 mm.	Option	2269834	USD	746.00
Connection pipe for the intake manifolds of the dual ESL. The connection pipe is fixed to both pump intake manifolds using tank truck couplings and enables both pumps to be fed simultaneously from the tank truck. A 4" supply hose between the tank truck and the connection pipe is essential for achieving the increased flow-through quantities (max. 1600l/min), but is not delivered as part of this option.	Option	2775968	USD	1,588.00
Support arm for holding the push bar and feed lines whilst changing tankers	Option	2885796	USD	2,158.00
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	Option	USD	USD	81.00
Spare part and application documentation English (EN)	Option			14.00

## Price list

# WR 240i

### Scope of supply – basic machine

- Engine: 6-cylinder diesel engine: Cummins QSX 15
- Maximum power at 1,900 r.p.m.: 455 kW / 610 HP / 618 PS
- Exhaust standard: EU Stage V / US EPA Tier 4f
- Standard milling width: 7 ft 10 in / 2,400 mm
- Theoretical milling depth: 1 ft 8 in / 510 mm

#### STANDARD EQUIPMENT

- Base machine with engine
- Machine chassis with built-in water tank and clear view of the right milled edge
- The right wheels are positioned within the milling width for working flush with the edge
- Diesel engine power controller for optimum milling and mixing results
- Engine cooling system with temperature-controlled fan speed
- Air system with compressor max. 116 psi / 8 bar (not suitable for filling the S-Pack!)
- Lockable engine cover with built-in sound insulation package
- Mechanical milling drum drive via a drive belt with automatic belt tensioner
- Variable cutting speed by combination of 3 selectable engine speeds and 3 adjustable drive belt pulley arrangements to achieve optimum working results
- Synchronous rotation or counter-rotating mode possible, depending on working direction
- Hydraulically adjustable milling drum flap in front of the drum

**List price ex subsidiary Wirtgen America****USD****744,501.00****Mandatory Options****Milling drums / milling units**

DURAFORCE milling and mixing rotor with working width 2400 mm (7 ft 10 in), working depth max. 510 mm, tool spacing 20 mm, equipped with quick-change toolholder system HT22 and 170 RS picks with shank diameter D20 with exchangeable edge ring segments. For a wide range of applications in soil stabilization and cold recycling.

**Standard****2314431****USD****0.00****Spraying unit**

Machine without spraying system. The existing drum housing openings are locked by cover strips.

**Standard****2182574****USD****0.00**

A VARIO spraying system for the precise addition of water or bitumen emulsion, with an eccentric auger pump (max. 800 l/min), a flow-through meter and a spray bar. The nozzles of the spraying system are equipped with an adjustable nozzle cross-section for adjusting the spray pressure. The spray bar has a special, automatically operating nozzle cleaning function. Furthermore, the spraying width can be set individually. The quantities added are controlled by a microprocessor. Straightforward operation on a colour display. Including a push bar for pushing the tank truck. (FB2400)

**Option****2683238****USD****40,850.00**

System is suitable for precisely adding water and bitumen emulsion. Two VARIO spraying systems for separate addition of water and bitumen emulsion, with eccentric auger pumps (each max. 800 l/min), flow-through meters and spray bars. The nozzles of both spray bars are equipped with an adjustable nozzle cross-section for adjusting the spraying pressure. The spray bars have a special, automatically operating nozzle cleaning function. Furthermore, the spraying width can be set individually. The quantities added are controlled by a microprocessor. Straightforward operation on a colour display. Including two push bars for pushing tank trucks. (FB2400)

**Option****2683240****USD****79,054.00**

System is suitable for precisely adding water and bitumen emulsion or foam bitumen. Two spraying systems for the separate addition of binding agents. Water is added via an eccentric auger pump (max. 800 l/min), a flow-through meter and a spray bar. Foamed bitumen or bitumen emulsion is added via a second electrically heated bitumen spraying system consisting of a gear pump (max. 500 kg/min), a bitumen filter, a flow-through meter, a process water pump and monitor and a spray bar. The nozzles of the water spray bar is equipped with an adjustable nozzle cross-section for adjusting the spraying pressure. Both spray bars have a special, automatically operating nozzle cleaning function. Furthermore, the spraying width can be set individually. The quantities added are controlled by a microprocessor. Straightforward operation on a colour display. Including two push bars for pushing tank trucks. (FB2400)	Option	2683241	USD	178,586.00
System only suitable for the addition of large quantities of water in the soil stabilisation process. A spraying system for the addition of water (max. 475 gal/min / 1800 l/min) with centrifugal pump, hydraulically operated shut-off device, flow meter and spraying beam. The spraying width can be set individually. The quantities added are controlled by a microprocessor. The effective control range is between 400 and 1800 l/ min. Straightforward operation on a color display. Including a push bar for pushing a tanker vehicle. (FB2400)	Option	2494987	USD	36,779.00
<b>Binder spreader</b>				<b>0.00</b>
Model without binder spreader device	Standard	2406146	USD	0.00
Integrated spreading device S-Pack for dust-free discharge of binder in front of the milling and mixing rotor. Container volume 194 ft3 / 5.5 m3 (effectively fillable to 159 ft3 / 4.5 m3). Advance-dependent dosing of the spreading quantity from 0,3 lb/ft² to 8,2 lb/ft² / 1.5 to 40 kg/m². The spreading width can be divided into three segments. Operation is perfectly integrated into the machine control display.	Option	2223737	USD	153,724.00
<b>Paint</b>				
Painting in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7015.	Standard	2441058	USD	0.00
Monocolor special painting. Cream white color is replaced by a special color (RAL according to customer). The complete lower part of the machine is painted in slate grey RAL 7015.	Option	2441059	USD	2,294.00

<b>Technical documentation</b>				
Technical documentation - North America country version (US)	Standard	2456347	USD	0.00
<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	Standard	2770403	USD	0.00
<b>Machine lighting</b>				
Halogen lighting system 24 V. Consisting of 8 additional halogen working lights for illuminating the working area. The light output is approx. 1,750 lumens per headlight. Including 2 rotary beacons.	Standard	2184631	USD	0.00
Powerful LED / halogen lighting system 24 V. Consisting of 6 additional LED working lights and 2 additional halogen working lights with magnetic flux for optimum illumination of the working area. Also, the 6 standard halogen working lights on the cabin roof are replaced by 6 LED working lights. LED working lights are extremely bright, shock-resistant and durable. The light output is approx. 3,000 lumens per headlight (halogen approx. 1,750 lumens). Including 2 LED patrol lights.	Option	2184632	USD	4,058.00
<b>Exhaust air filter</b>				
Model without waste air filtering. Only for machines without integrated binder spreader (S-Pack).	Standard	2418221	USD	0.00
Advanced automatic waste air filtering for the integrated binder spreader device S-Pack. While the binder tank is being filled, the waste air is filtered by filter elements that are cleaned fully automatically by compressed air. The cleaning procedure is without dust in the closed system.	Option	2375580	USD	11,251.00
<b>Equipment Options</b>				
<b>Equipment in cabin</b>				
Air-conditioner integrated in the cabin roof with automatic air conditioning, infinitely variable fan and recirculating air filters that can be changed without tools.	Standard	2184409	USD	0.00
Radio system with two speakers and antenna - radio with CD/MP3/USB/Bluetooth	Standard	2184420	USD	0.00

<b>Control for binder addition</b>				
Equipment of the machine with an external dosing control unit. The additional operating display can be attached at the bottom left or right on the machine. For specific setting of important dosing parameters of the spraying strips and/or the S-pack.	Option	2418222	USD	3,990.00
<b>Printer</b>				
Printer for logging the binder consumption and area coverage.	Option	2184421	USD	1,059.00
USB interface for providing job data as a CSV file for it to be individually evaluated by the machine operator.	Option	2883103	USD	1,439.00
<b>Additional device for binder addition</b>				
Binder filling device used to constantly fill the "S-Pack" with lime/cement during the working process. The binder tanker vehicle (silo) must be able to be connected to the WR by means of a push rod. The silo also has to have adjustable pressurization. The volume flow generated by compressed air directs the required binder through a hose/pipe into the container of the "S-Pack". Short downtimes due to reduced filling breaks ensure that construction sites can be handled quickly and dust-free with high productivity levels. The scope of delivery includes the necessary binder line on the WR, a signal socket, level sensors, a traffic light system and a valve for monitoring the binder supply. The connecting hose between the tanker and the "S-Pack" is not included in the scope of delivery.	Option	2885521	USD	13,490.00
<b>Lateral slope control</b>				
Expansion of leveling system with electronic cross-slope sensor; ideal, for example, for aligning the machine in a defined transverse inclination on a single-sided reference	Standard	2417051	USD	0.00
<b>Water system</b>				
Hydraulically operated high-pressure water cleaner with a maximum performance of 15 l/min at 150 bar pressure. Ideal for daily cleaning of the machine.	Option	2184414	USD	4,261.00
<b>Water system</b>				
Additional water tank with a capacity of 250 gals / 950 liters, for holding large quantities of water for foamed bitumen manufacture.	Option	2185820	USD	8,862.00
<b>Other devices</b>				
Battery-operated hydraulic unit for milling drum rotation device and hydraulic pick extractor drift as well as for auxiliary drive.	Option	2201333	USD	2,972.00

<b>Pick changing aids</b>				
Milling drum rotation device with electrohydraulic milling drum drive for slowly turning the milling drum during pick replacement. The diesel engine can be switched off in conjunction with the "electric hydraulic unit" option.	Standard	2184416	USD	0.00
Pneumatic hammer with two pick extractor and inserter tools each as well as 5.00 m / 16 ft 5 in hose.	Option	60604	USD	475.00
Hydraulically driven pick ejector, including the holder and required electrical and hydraulic connections. Ideal for convenient, fast and low-noise pick changes.	Option	2210777	USD	3,610.00
Additional, lockable storage compartment for 8 pick containers, mounted on the left side of the machine.	Option	2658085	USD	1,547.00
<b>Camera system</b>				
Monitor system with 3 cameras and 7" color display, in addition to the reversing camera of the standard equipment. The 2nd camera is directed towards the area in front of the milling drum housing and the 3rd towards the rear rotor plate. The 4th camera permits good visibility of the left side of the machine. The camera images are displayed on the monitor in the operator's platform. For model without spraying system.	Standard	2184412	USD	0.00
<b>Other devices</b>				
License plate holder with LED lighting to comply with country-specific regulations.	Option	2657943	USD	461.00
<b>Miscellaneous</b>				
Additional push bar 9 ft 11 in / 3.00 m - for a second tank truck. Drawbar/ push-bar eye 1x inner diameter 1x inner diameter = 1.57 in / 40 mm and 1x inner diameter = 1.97 in / 50 mm.	Option	2269834	USD	746.00
Connection pipe for the through-line of the suspension to the spray bar. In conjunction with the suction hose option, this means working with the WM1000 is possible. Option only possible in conjunction with: ESL 1-way, dual ESL or ESL foamed bitumen.	Option	2223550	USD	3,203.00
Connection pipe for the intake manifolds of the dual ESL. The connection pipe is fixed to both pump intake manifolds using tank truck couplings and enables both pumps to be fed simultaneously from the tank truck. A 4" supply hose between the tank truck and the connection pipe is essential for achieving the increased flow-through quantities (max. 1600l/min), but is not delivered as part of this option.	Option	2775970	USD	1,683.00
Support arm for holding the push bar and feed lines whilst changing tankers	Option	2885796	USD	2,158.00
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	Option	USD	USD	81.00
Spare part and application documentation English (EN)	Option			14.00

## Price list

# WR 250i

### Scope of supply – basic machine

- Engine: 6-cylinder diesel engine: CATERPILLAR C18 ATAAC
- Rated power at 1,900 r.p.m.: 563 kW / 755 HP / 766 PS
- Exhaust standard: EU Stage V / US EPA Tier 4f
- Standard milling width: 7 ft 10 in / 2,400 mm
- Theoretical milling depth: 1 ft 10 in / 560 mm

### STANDARD EQUIPMENT

- Base machine with engine
- Machine chassis with built-in water tank and clear view of the right milled edge
- The right wheels are positioned within the milling width for working flush with the edge
- Diesel engine power controller for optimum milling and mixing results
- Engine cooling system with temperature-controlled fan speed
- Air system with compressor max. 116 psi / 8 bar (not suitable for filling the S-Pack!)
- Lockable engine cover with built-in sound insulation package
- Mechanical milling drum drive via a drive belt with automatic belt tensioner
- Variable cutting speed by a combination of 3 selectable motor speeds, 2 variable drive belt pulley arrangements and one milling drum gearbox with 2-gear stages for achieving optimum working results
- Synchronous rotation or counter-rotating mode possible, depending on working direction
- Hydraulically adjustable milling drum flap in front of the drum
- Hydraulically adjustable scraper plates behind the drum
- Infinitely variable working depth adjustment by lowering or raising the entire milling drum
- Automatic mixing chamber adjustment to the respective working depth (larger mixing chamber for lower working depths)
- Milling drum rotation device with hydraulic milling drum drive for slowly turning the milling drum in the pick change
- Power-controlled lowering speed of the milling drum in starting mode

### MACHINE CONTROL AND LEVELLING SYSTEM

- Multifunctional color control display that shows important machine operating conditions
- Comprehensive machine diagnostics displayed on the control screen
- Programmable automatic system for initiating and completing the milling process at the particular working depth
- Automated features to reduce the machine operator's workload

### OPERATOR'S PLATFORM

- Comfortable, high-quality cabin with flexible mountings, with roof hatch and individually adjustable heating
- Ergonomic, air-cushioned operator's seat
- Roll-over protection system (ROPS and FOPS) integrated in the cab frame
- Large windows with an excellent view of the respective work area and built-in windshield wipers
- Recirculating and fresh air filters can be changed without tools
- Various shelves and storage compartments as well as 12 V and 24 V sockets
- In order to provide an ideal view over the zero edge, the operator's cabin can be shifted over the right-hand side of the machine.
- Rotation of the operator's platform through 90° offers optimum adaptation to the particular working situation
- Individually adjustable control panel with color display
- Reversing camera with graphical reversing assistant

- Mirrors on right and left in the front area of the machine
- Working lights integrated into the cab roof
- Folding ladder to access the operator's platform

#### TRACK UNIT AND HEIGHT ADJUSTMENT

- Infinitely adjustable, hydraulic all-wheel drive
- Four-way tilting of the lifting columns to compensate for uneven terrain
- Electrohydraulic, light all-wheel steering, with the "crab", "cornering" or "straight ahead" steering types

#### MISCELLANEOUS

- "Welcome and go home" lighting with LED lighting in the ladder area
- Extensive safety package with 3 EMERGENCY STOP switches
- Large tool kit in lockable tool box
- Pre-fitting for installing the WITOS FleetView control unit
- European type certification, EuroTest mark and CE conformity

**USD**

**898,904.00**

#### Mandatory Options

##### Milling drum housing

Extremely wear-resistant FB2400 (7 ft 10 in) milling drum housing without milling drum. For pulverisation of asphalt pavement and abrasive material.

**Standard**

**2540058**

**USD**

**0.00**

##### Milling drums / milling units

DURAFORCE milling and mixing rotor with working width 2400 mm (7ft 10 in), working depth max. 560 mm (1ft 10 in), tool spacing 30 mm x 2, equipped with quick-change toolholder system HT22 and 208 picks with shank diameter D20 with exchangeable edge ring segments. For a wide range of applications in soil stabilization and cold recycling.

**Standard**

**2314515**

**USD**

**0.00**

##### Spraying unit

Machine without spraying system. The existing drum housing openings are locked by cover strips.

**Standard**

**2182574**

**USD**

**0.00**

A VARIO spraying system for the precise addition of water or bitumen emulsion, with an eccentric auger pump (max. 800 l/min), a flow-through meter and a spray bar. The nozzles of the spraying system are equipped with an adjustable nozzle cross-section for adjusting the spray pressure. The spray bar has a special, automatically operating nozzle cleaning function. Furthermore, the spraying width can be set individually. The quantities added are controlled by a microprocessor. Straightforward operation on a colour display. Including a push bar for pushing the tank truck. (FB2400)

**Option**

**2683238**

**USD**

**40,850.00**

System is suitable for precisely adding water and bitumen emulsion. Two VARIO spraying systems for separate addition of water and bitumen emulsion, with eccentric auger pumps (each max. 800 l/min), flow-through meters and spray bars. The nozzles of both spray bars are equipped with an adjustable nozzle cross-section for adjusting the spraying pressure. The spray bars have a special, automatically operating nozzle cleaning function. Furthermore, the spraying width can be set individually. The quantities added are controlled by a microprocessor. Straightforward operation on a colour display. Including two push bars for pushing tank trucks. (FB2400)	<b>Option</b>	<b>2683240</b>	<b>USD</b>	<b>79,054.00</b>
System is suitable for precisely adding water and bitumen emulsion or foam bitumen. Two spraying systems for the separate addition of binding agents. Water is added via an eccentric auger pump (max. 800 l/min), a flow-through meter and a spray bar. Foamed bitumen or bitumen emulsion is added via a second electrically heated bitumen spraying system consisting of a gear pump (max. 500 kg/min), a bitumen filter, a flow-through meter, a process water pump and monitor and a spray bar. The nozzles of the water spray bar is equipped with an adjustable nozzle cross-section for adjusting the spraying pressure. Both spray bars have a special, automatically operating nozzle cleaning function. Furthermore, the spraying width can be set individually. The quantities added are controlled by a microprocessor. Straightforward operation on a colour display. Including two push bars for pushing tank trucks. (FB2400)	<b>Option</b>	<b>2683241</b>	<b>USD</b>	<b>178,586.00</b>
System only suitable for the addition of large quantities of water in the soil stabilisation process. A spraying system for the addition of water (max. 475 gal/min / 1800 l/min) with centrifugal pump, hydraulically operated shut-off device, flow meter and spraying beam. The spraying width can be set individually. The quantities added are controlled by a microprocessor. The effective control range is between 400 and 1800 l/ min. Straightforward operation on a color display. Including a push bar for pushing a tanker vehicle. (FB2400)	<b>Option</b>	<b>2494987</b>	<b>USD</b>	<b>36,779.00</b>

<b>Binder spreader</b>				
Model without binder spreader device	Standard	2184406	USD	0.00
Integrated spreading device S-Pack for dust-free discharge of binder in front of the milling and mixing rotor. Container volume 194 ft <sup>3</sup> / 5.5 m <sup>3</sup> (effectively fillable to 159 ft <sup>3</sup> / 4.5 m <sup>3</sup> ). Advance-dependent dosing of the spreading quantity from 0,3 lb/ft <sup>2</sup> to 8,2 lb/ft <sup>2</sup> / 1.5 to 40 kg/m <sup>2</sup> . The spreading width can be divided into three segments. Operation is perfectly integrated into the machine control display.	Option	2375512	USD	149,489.00
<b>Paint</b>				
Painting in cream RAL 9001 with orange stripes. The entire base of the machine is painted in slate gray RAL 7015.	Standard	2470007	USD	0.00
Monocolor special painting. Cream white color is replaced by a special color (RAL according to customer). The complete lower part of the machine is painted in slate grey RAL 7015.	Option	2470008	USD	2,294.00
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	Standard	2456347	USD	0.00
<b>Telematics</b>				
WITOS FleetView (mobile phone standard 3, 4G) includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	Standard	2770403	USD	0.00
<b>Machine lighting</b>				
Halogen lighting system 24 V. Consisting of 8 additional halogen working lights for illuminating the working area. The light output is approx. 1,750 lumens per headlight. Including 2 rotary beacons.	Standard	2184631	USD	0.00
Powerful LED / halogen lighting system 24 V. Consisting of 6 additional LED working lights and 2 additional halogen working lights with magnetic flux for optimum illumination of the working area. Also, the 6 standard halogen working lights on the cabin roof are replaced by 6 LED working lights. LED working lights are extremely bright, shock-resistant and durable. The light output is approx. 3,000 lumens per headlight (halogen approx. 1,750 lumens). Including 2 LED patrol lights.	Option	2184632	USD	4,058.00

<b>Exhaust air filter</b>				
Model without waste air filtering. Only for machines without integrated binder spreader (S-Pack).	<b>Standard</b>	<b>2418221</b>	<b>USD</b>	<b>0.00</b>
Simple outgoing air filtering for the integrated binder spreader device S-Pack. While the binder tank is being filled, the outgoing air is filtered by a filter bag that can be emptied manually as required.	<b>Option</b>	<b>2375579</b>	<b>USD</b>	<b>4,764.00</b>
Advanced automatic waste air filtering for the integrated binder spreader device S-Pack. While the binder tank is being filled, the waste air is filtered by filter elements that are cleaned fully automatically by compressed air. The cleaning procedure is without dust in the closed system.	<b>option</b>	<b>2375580</b>	<b>USD</b>	<b>11,251.00</b>
<b>Equipment Options</b>				
<b>Equipment in cabin</b>				
Air-conditioner integrated in the cabin roof with automatic air conditioning, infinitely variable fan and recirculating air filters that can be changed without tools.	<b>Standard</b>	<b>2184409</b>	<b>USD</b>	<b>0.00</b>
Radio system with two speakers and antenna - radio with CD/MP3/USB/Bluetooth	<b>Standard</b>	<b>2184420</b>	<b>USD</b>	<b>0.00</b>
<b>Control for binder addition</b>				
Equipment of the machine with an external dosing control unit. The additional operating display can be attached at the bottom left or right on the machine. For specific setting of important dosing parameters of the spraying strips and/or the S-pack.	<b>Option</b>	<b>2418222</b>	<b>USD</b>	<b>3,990.00</b>
<b>Printer</b>				
Printer for logging the binder consumption and area coverage.	<b>Option</b>	<b>2184421</b>	<b>USD</b>	<b>1,059.00</b>
USB interface for providing job data as a CSV file for it to be individually evaluated by the machine operator.	<b>Option</b>	<b>2883103</b>	<b>USD</b>	<b>1,439.00</b>
<b>Additional device for binder addition</b>				
Binder filling device used to constantly fill the "S-Pack" with lime/cement during the working process. The binder tanker vehicle (silo) must be able to be connected to the WR by means of a push rod. The silo also has to have adjustable pressurization. The volume flow generated by compressed air directs the required binder through a hose/pipe into the container of the "S-Pack". Short downtimes due to reduced filling breaks ensure that construction sites can be handled quickly and dust-free with high productivity levels. The scope of delivery includes the necessary binder line on the WR, a signal socket, level sensors, a traffic light system and a valve for monitoring the binder supply. The connecting hose between the tanker and the "S-Pack" is not included in the scope of delivery.	<b>Option</b>	<b>2885521</b>	<b>USD</b>	<b>13,490.00</b>

<b>Lateral slope control</b>				
Expansion of leveling system with electronic cross-slope sensor; ideal, for example, for aligning the machine in a defined transverse inclination on a single-sided reference	Standard	2417051	USD	0.00
<b>Water system</b>				
Hydraulically operated high-pressure water cleaner with a maximum performance of 15 l/min at 150 bar pressure. Ideal for daily cleaning of the machine.	Option	2184414	USD	4,261.00
<b>Water system</b>				
Additional water tank with a capacity of 250 gals / 950 liters, for holding large quantities of water for foamed bitumen manufacture.	Option	2185820	USD	8,862.00
<b>Other devices</b>				
Battery-operated hydraulic unit for milling drum rotation device and hydraulic pick extractor drift as well as for auxiliary drive.	Option	2201333	USD	2,972.00
<b>Pick changing aids</b>				
Pneumatic hammer with two pick extractor and inserter tools each as well as 5.00 m / 16 ft 5 in hose.	Standard	60604	USD	0.00
Hydraulically driven pick ejector, including the holder and required electrical and hydraulic connections. Ideal for convenient, fast and low-noise pick changes.	Option	2210777	USD	3,610.00
Additional, lockable storage compartment for 8 pick containers, mounted on the left side of the machine.	Option	2658290	USD	1,601.00
<b>Camera system</b>				
Monitor system with 3 cameras and 7" color display, in addition to the reversing camera of the standard equipment. The 2nd camera is directed towards the area in front of the milling drum housing and the 3rd towards the rear rotor plate. The 4th camera permits good visibility of the left side of the machine. The camera images are displayed on the monitor in the operator's platform. For model without spraying system.	Standard	2184412	USD	0.00
<b>Other devices</b>				
License plate holder with LED lighting to comply with country-specific regulations.	Option	2657943	USD	461.00

<b>Miscellaneous</b>				
Additional push bar 9 ft 11 in / 3.00 m - for a second tank truck. Drawbar/ push-bar eye 1x inner diameter 1x inner diameter = 1.57 in / 40 mm and 1x inner diameter = 1.97 in / 50 mm.	<b>Option</b>	<b>2269834</b>	<b>USD</b>	<b>746.00</b>
Connection pipe for the through-line of the suspension to the spray bar. In conjunction with the suction hose option, this means working with the WM1000 is possible. Option only possible in conjunction with: ESL 1-way, dual ESL or ESL foamed bitumen.	<b>Option</b>	<b>2223550</b>	<b>USD</b>	<b>3,203.00</b>
Connection pipe for the intake manifolds of the dual ESL. The connection pipe is fixed to both pump intake manifolds using tank truck couplings and enables both pumps to be fed simultaneously from the tank truck. A 4" supply hose between the tank truck and the connection pipe is essential for achieving the increased flow-through quantities (max. 1600l/min), but is not delivered as part of this option.	<b>Option</b>	<b>2775970</b>	<b>USD</b>	<b>1,683.00</b>
Support arm for holding the push bar and feed lines whilst changing tankers	<b>Option</b>	<b>2885796</b>	<b>USD</b>	<b>2,158.00</b>
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	<b>Option</b>		<b>USD</b>	<b>81.00</b>
Spare part and application documentation English (EN)	<b>Option</b>		<b>USD</b>	<b>14.00</b>

## Price list

### WS 220

#### Scope of supply – basic machine

- Standard working width: 7 ft 1 in / 2150 mm
- Theoretical working depth: 1 ft 8 in / 500 mm

#### STANDARD EQUIPMENT

- Stabilizer for mounting on tractors with rear three-point linkage, ISO 730-1 category 3 (cat. III) and category 4 (cat. IV)
- The working depth is set using the tractor's rear power lift
- The rear rotor plate is adjusted hydraulically from the tractor
- The rotor plate is additionally fitted with a levelling blade with spring preload adjustment
- The stone guard is adjusted hydraulically from the tractor

#### DRIVE

- Mechanical drive via the tractor's driveshaft (driveshaft speed 1,000 rpm), bevel gearbox, two four-rib high-power V-belts with automatic belt tensioners and two spur gearboxes

#### MISCELLANEOUS

- CE Declaration of Conformity

List price ex subsidiary Wirtgen America

USD

126,106.00

#### Mandatory Options

##### Milling drum housing

Movable side plates on the drum housing that cover the milling and mixing rotor. During operation, the milling unit is kept at the pre-set milling depth by the side plates. In the process, the tractor's three-point connection is in a floating position and the machine moves on the skids. The skids are roughly 7 in / 170 mm wide which means they comply with the corresponding permissible transport widths. The milling depth is limited to the desired level with the help of mechanical stops.

Standard

2218261

USD

0.00

##### Milling drums / milling units

Milling and mixing rotor with working width 2150 mm / 7 ft / 1 in, working depth max. 500 mm / 1 ft 7 in, tool spacing 40 mm / 1 37/64 in, equipped with quick-change toolholder system HT22 and 98 picks with shank diameter D20. For a wide range of applications in soil stabilization and cold recycling.

<b>Paint</b>				
Painting in cream RAL 9001 with orange stripes.	Standard	2111590	USD	0.00
Single-color special paint. Cream color is replaced by a special color (RAL acc. to customer request).	Option	2111591	USD	774.00
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	Standard	2456347	USD	0.00
<b>Drive adaptations</b>				
Profile shaft on bevel gearbox with a 20-way external toothing for connecting the drive shaft to the WS220/WS250. Required for mounting the stabilizer to the John Deere 8320R tractor.	Standard	2047307	USD	0.00
Splined shaft on bevel gearbox with external toothing, 6 teeth, for connection of the drive shaft on the WS220/WS250	Option	2047308	USD	0.00
<b>Trailer drawbar</b>				
Lifting tackle for mounting the stabilizer on John-Deere series 8000 tractor vehicles with rear three-point mounting ISO 730-1 category 4 (CAT IV), including ball sleeves and spacer washers CAT IV for equipment pin 37, including hydraulic top link in reinforced version, with arrester hook CAT IV, yoke D45 and integrated load-holding valve. The length and pulling force of the top link are optimized for the attachment of the add-on stabilizer.	Standard	2136304	USD	0.00
<b>Equipment Options</b>				
<b>Milling drum assembly options</b>				
Additional 9.84 in / 250 mm-wide skids that prevent machine from sinking into the soft ground. Depending on country-specific requirements, the skids can be screwed off when transporting machines in order to comply with the permissible transport width.	Option	2616969	USD	2,551.00
<b>Additional spraying strip</b>				
Water spraying system FB2150 (7 ft 1 in), with 8 spray nozzles to spray water into the milling and mixing process. Distributor pipe for connecting the external water supply with shut-off valves to the individual nozzles	Option	2282384	USD	3,149.00

<b>Leveling</b>				
Digital milling depth display with an ultrasonic sensor, right or left mountable, the milling depth display is shown by one additional display in the cab.	<b>Option</b>	<b>2123664</b>	<b>USD</b>	<b>4,207.00</b>
Digital milling depth display, with two ultrasonic sensors right and left mounted, the milling depth display is shown by an additional display in the operator's cabin, changeover for the right or left side.	<b>Option</b>	<b>2123665</b>	<b>USD</b>	<b>5,904.00</b>
<b>Other devices</b>				
Drive shaft P600 1¾" for connecting the tractor-towed stabilizer to the tractor. Wirtgen recommends using this drive shaft as it offers great freedom of movement. Both ends of the propshaft with 20-way internal gearing. CAUTION: The drive shaft must be shortened to the length of the corresponding tractor vehicle/stabiliser combination before first use. Authorised when using a stabiliser on tractor vehicles up to a maximum of 280 kW/376 HP/381 PS.	<b>Standard</b>	<b>2539795</b>	<b>USD</b>	<b>0.00</b>
<b>Other devices</b>				
Hydraulic top link in reinforced version with arrester hook CAT IV, yoke end D32, yoke end D40 and integrated load-holding valve. The length and pulling force of the top link are optimized for the attachment of the add-on stabilizer.	<b>Option</b>	<b>2539799</b>	<b>USD</b>	<b>2,972.00</b>
<b>Pick changing aids</b>				
Pneumatic hammer with two pick extractor and inserter tools each as well as 7.00 m hose.	<b>Option</b>	<b>2123666</b>	<b>USD</b>	<b>461.00</b>

## RETAIL PRICE GUIDE

*EFFECTIVE FEBRUARY 1, 2021*

### ✓ Fast Delivery

*Over 1,500 attachments in stock*

### ✓ Excellent Dealer Support

*Thousands of parts in stock*

### ✓ Large Selection

*Attachments to fit Skid Steers, Excavators, Tractors, Mini-Machines, and Forklifts*

### ✓ Guaranteed Satisfaction

*Buy with the Blue Diamond® Attachments Satisfaction Guarantee*

## ***Online Parts & Accessories Store -BDAparts.com***

- ◆ Over thousands of parts and accessories in stock for quick delivery
- ◆ In stock UPS orders ship same day, (Must order by 12pm EST)
- ◆ Freight orders - 3 days lead time
- ◆ 24/7 - Order Anytime
- ◆ Dedicated Parts Sales and Support available  
[parts@bdattachments.com](mailto:parts@bdattachments.com) | 888-376-7027

## ***Rental Recommended Attachments***

- ◆ Rental Recommendation based on;
  - ◇ Heavily construction, resists damage
  - ◇ Hose routing that keeps hoses out of the way
  - ◇ Versatile, attaches to a variety of machines
  - ◇ Easy to use, minimal training is required

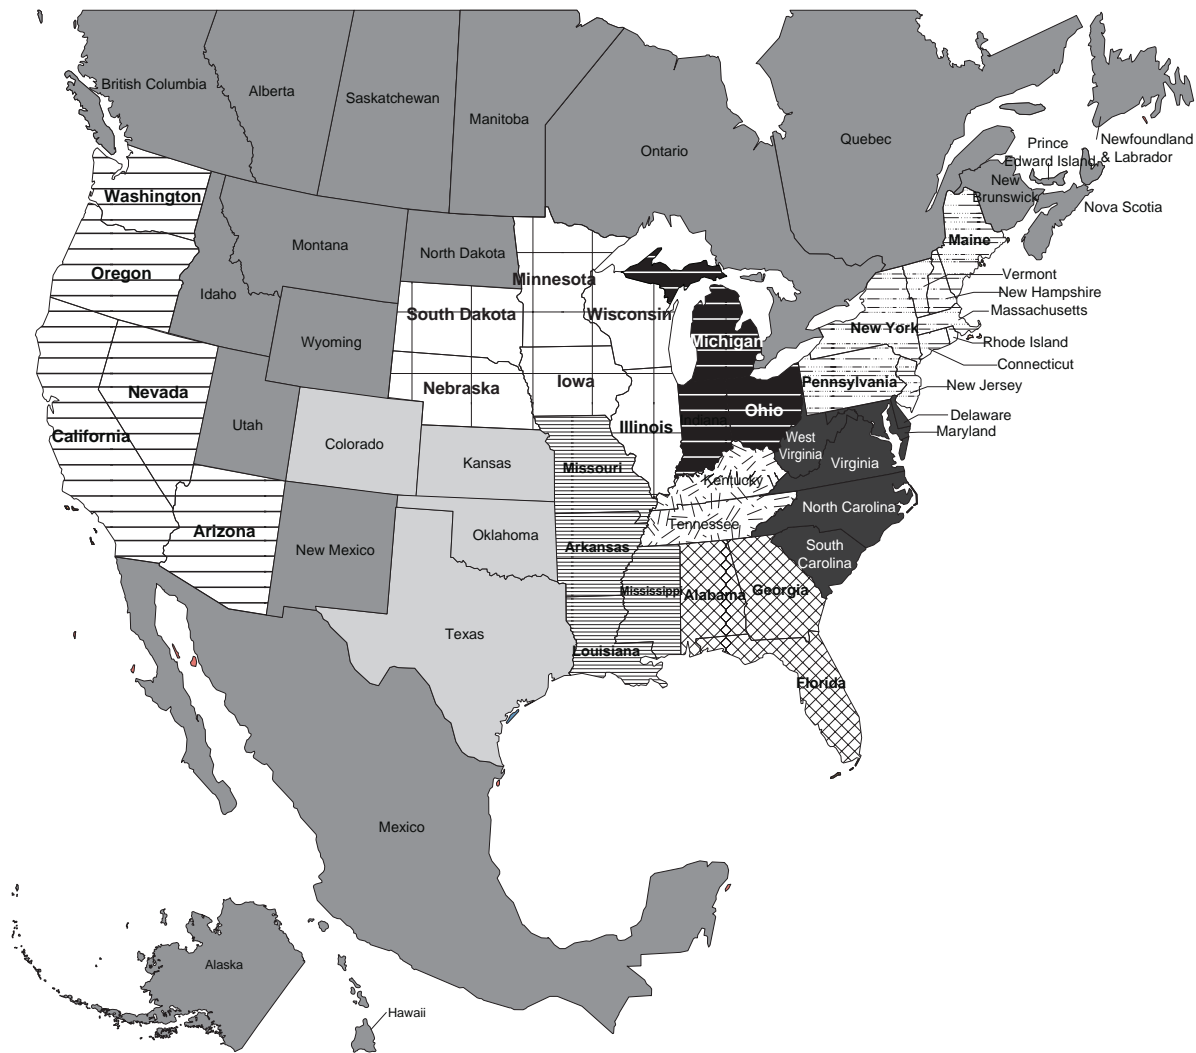

## ***Warranty Information***

- ◆ Available Monday-Friday 8am-5pm EST
- ◆ Easy claim filing online at [dealers.bluediamondattachments.com/warranty-policies/](http://dealers.bluediamondattachments.com/warranty-policies/)

## AUGER -ADAPTERS

PRODUCT #	MODEL	WEIGHT	RETAIL
205105	2" HEX FEMALE TO 2" 9/16 RD MALE	20 LBS	\$272.10
205110	2" HEX FEMALE TO 2" RD MALE	17 LBS	\$268.00
205111	2" HEX FEMALE TO 2 1/2" HEX MALE	35 LBS	\$585.00
205115	2" 9/16 RD FEMALE TO 2" HEX MALE	15 LBS	\$185.12
205120	2" 9/16 RD FEMALE TO 2" RD MALE	13 LBS	\$188.26
205125	2" RD FEMALE TO 2" HEX MALE	12 LBS	\$171.16
205130	2" RD FEMALE TO 2" 9/16 RD MALE	13 LBS	\$175.12
205135	2.5" HEX FEMALE TO 2" HEX MALE	43 LBS	\$403.00
205136	2 5/8" HEX FEMALE TO 2" HEX MALE	43 LBS	\$721.00
<i>First dimension fits drive, second dimension fits bit; cannot be reversed.</i>			

## AUGER -EXTENSION -FIXED

PRODUCT #	MODEL	WEIGHT	RETAIL
205375	FIXED, 2" HEX 48" LONG	58 LBS	\$371.40
205377	FIXED, 2 9/16" ROUND 48" LONG	77 LBS	\$268.00
205380	FIXED, 2" HEX 72" LONG	84 LBS	\$491.40
205370	FIXED, 2" HEX 24" LONG	32 LBS	\$291.86
205365	FIXED, 2" HEX 12" LONG	20 LBS	\$241.16
205369	FIXED, 2 9/16" ROUND 18" LONG	40 LBS	\$340.00
205371	FIXED, 2" ROUND 24" LONG	57 LBS	\$157.50
205382	FIXED, 2 9/16" ROUND 72" LONG	110 LBS	\$404.00
205372	FIXED, 2 9/16" ROUND 24" LONG	40 LBS	\$212.16
205367	FIXED, 2 9/16" ROUND 12" LONG	21 LBS	\$216.30
205373	FIXED, 2" ROUND 48" LONG	40 LBS	\$340.00
<i>Single hole allows it to be used at full-length only. 9" bits and larger.</i>			

## AUGER -EXTENSION -VARIABLE

PRODUCT #	MODEL	WEIGHT	RETAIL
205320	VARIABLE, 2" HEX 48" LONG	56 LBS	\$429.00
205325	VARIABLE, 2" HEX 72" LONG	77 LBS	\$499.07
205315	VARIABLE, 2" HEX 24" LONG	34 LBS	\$312.61
205347	VARIABLE, 2 9/16" ROUND 72"	84 LBS	\$446.00
205335	VARIABLE, 2 9/16" ROUND 48" LONG	74 LBS	\$391.86
205317	VARIABLE, 2 9/16" ROUND 24" LONG	40 LBS	\$282.56
205312	VARIABLE, 2 9/16" ROUND 12" LONG	21 LBS	\$231.16
205334	VARIABLE, 2" ROUND 48" LONG	46 LBS	\$492.48
<i>Hole every 12" allows it to be used in various positions, 9" and bigger bits only.</i>			

**AUGER BITS - HEAVY DUTY***Listed as 2" Hex Collars.**Also available in 2" Round & 2 9/16" Round Collars*

PRODUCT #	MODEL	WEIGHT	RETAIL
*105105	4" DIAMETER, HEAVY DUTY, W/2" HEX	37 LBS	\$320.00
*105110	6" DIAMETER, HEAVY DUTY, W/2" HEX	45 LBS	\$338.00
105115	8" DIAMETER, HEAVY DUTY, W/2" HEX	76 LBS	\$459.00
*105120	9" DIAMETER, HEAVY DUTY, W/2" HEX	85 LBS	\$470.00
105125	10" DIAMETER, HEAVY DUTY, W/2" HEX	100 LBS	\$532.00
*105130	12" DIAMETER, HEAVY DUTY, W/2" HEX	113 LBS	\$544.00
*105135	15" DIAMETER, HEAVY DUTY, W/2" HEX	132 LBS	\$717.00
105140	16" DIAMETER, HEAVY DUTY, W/2" HEX	136 LBS	\$779.00
*105145	18" DIAMETER, HEAVY DUTY, W/2" HEX	166 LBS	\$848.00
105147	20" DIAMETER, HEAVY DUTY, W/2" HEX	182 LBS	\$995.00
*105150	24" DIAMETER, HEAVY DUTY, W/2" HEX	210 LBS	\$1,117.00
*105155	30" DIAMETER, HEAVY DUTY, W/2" HEX	278 LBS	\$1,432.00
*105160	36" DIAMETER, HEAVY DUTY, W/2" HEX	372 LBS	\$1,751.00
<i>*Typically in Stock   Bolt-on teeth, fabricated head.</i>			

**AUGER BITS - HEAVY DUTY W/CAST HEAD***Listed as 2" Hex Collars.**Also available in 2" Round & 2 9/16" Round Collars*

PRODUCT #	MODEL	WEIGHT	RETAIL
*105205	6" DIAMETER, CAST HEAD, W/2" HEX	45 LBS	\$476.00
105208	8" DIAMETER, CAST HEAD, W/2" HEX	90 LBS	\$687.00
*105210	9" DIAMETER, CAST HEAD, W/2" HEX	98 LBS	\$732.00
105215	10" DIAMETER, CAST HEAD, W/2" HEX	113 LBS	\$762.00
105220	12" DIAMETER, CAST HEAD, W/2" HEX	128 LBS	\$773.00
*105225	15" DIAMETER, CAST HEAD, W/2" HEX	139 LBS	\$961.00
105230	16" DIAMETER, CAST HEAD, W/2" HEX	167 LBS	\$1,043.00
*105235	18" DIAMETER, CAST HEAD, W/2" HEX	204 LBS	\$1,163.00
105237	20" DIAMETER, CAST HEAD, W/2" HEX	231 LBS	\$1,488.00
*105239	24" DIAMETER, CAST HEAD, W/2" HEX	272 LBS	\$1,661.00
*105241	30" DIAMETER, CAST HEAD, W/2" HEX	312 LBS	\$2,061.00
*105243	36" DIAMETER, CAST HEAD, W/2" HEX	430 LBS	\$2,261.00
105245	42" DIAMETER, CAST HEAD, W/2" HEX	460 LBS	\$3,559.00
105250	48" DIAMETER, CAST HEAD, W/2" HEX	550 LBS	\$3,777.00
<i>*Typically in Stock   For difficult ground, push-in-teeth, cast head</i>			

**AUGER DRIVE -EXTREME DUTY - SERIES 2**

PRODUCT #	MODEL	BEST FLOW	WEIGHT	RETAIL
305705	EX1, W/2" HEX SHAFT	8-11 GPM	101 LBS	\$2,540.00
305708	EX2, W/2" HEX SHAFT	12-16 GPM	123 LBS	\$2,615.00
305712	EX3, W/2" HEX SHAFT	17-26 GPM	123 LBS	\$2,615.00
305715	EX4, W/2" HEX SHAFT	19-23 GPM	125 LBS	\$2,750.00

305725	EX5HF, W/2 1/2" HEX SHAFT	21-26 GPM		\$5,590.00
305728	EX6HF, W/2 1/2" HEX SHAFT	29-32 GPM		\$6,105.00
305730	EX7HF, W/2 1/2" HEX SHAFT	33-36 GPM		\$6,125.00
<i>Includes hoses, couplers &amp; mount. Planetary drive, 4-year warranty.</i>				

## AUGER BITS - TREE BIT

Listed as 2" Hex Collars.

Also available in 2" Round & 2 9/16" Round Collars

PRODUCT #	MODEL	WEIGHT	RETAIL
105405	18-9" DIAMETER, TREE, W/2" HEX	70 LBS	\$894.00
105410	24-12" DIAMETER, TREE, W/2" HEX	66 LBS	\$1,231.00
105415	30-15" DIAMETER, TREE, W/2" HEX	102 LBS	\$1,294.00
105420	36-18" DIAMETER, TREE, W/2" HEX	134 LBS	\$1,482.00
105425	42-18" DIAMETER, TREE, W/2" HEX	203 LBS	\$2,314.00
105430	48-24" DIAMETER, TREE, W/2" HEX	201 LBS	\$2,980.00
*Typically in Stock   Tapered			

## AUGER BITS - ROCK BIT

Listed as 2" Hex Collars.

Also available in 2" Round & 2 9/16" Round Collars

PRODUCT #	MODEL	WEIGHT	RETAIL
*105305	4" DIAMETER, ROCK, W/2" HEX	70 LBS	\$1,005.00
105310	6" DIAMETER, ROCK, W/2" HEX	66 LBS	\$1,030.00
*105320	9" DIAMETER, ROCK, W/2" HEX	102 LBS	\$2,147.00
105330	12" DIAMETER, ROCK, W/2" HEX	134 LBS	\$2,201.00
105340	16" DIAMETER, W/2" HEX	203 LBS	\$2,347.00
*105345	18" DIAMETER, ROCK, W/2" HEX	201 LBS	\$2,519.00
105350	24" DIAMETER, ROCK, W/2" HEX	291 LBS	\$3,033.00
*105355	30" DIAMETER, ROCK, W/2" HEX	340 LBS	\$3,377.00
*105360	36" DIAMETER, ROCK, W/2" HEX	395 LBS	3,897.00
*Typically in Stock   For solid rock (Requires minimum 3,000 lbs down pressure)			

## BACKHOE

PRODUCT #	MODEL	WEIGHT	RETAIL
130005	BACKHOE, HYD (NO BUCKET)	391 LBS	\$2,392.00
130009	8" BACKHOE BUCKET	103 LBS	\$733.00
130010	9" BACKHOE BUCKET	103 LBS	\$758.00
130015	12" BACKHOE BUCKET	139 LBS	\$797.00
130020	18" BACKHOE BUCKET	169 LBS	\$975.00
130025	24" BACKHOE BUCKET	202 LBS	\$1,064.00
130027	30" BACKHOE BUCKET	202 LBS	\$1,151.00
Features: 3 1/2" bore, 20" stroke cylinder, large capacity bucket (hose & couplers included)			

## BALE SQUEEZE -HYDRAULIC ROUND

PRODUCT #	MODEL	WEIGHT	RETAIL
111105	BALE SQUEEZE 2,000 CAPACITY	400 LBS	\$2,840.00
211110	OPTIONAL BOLT-ON GRIPPERS (REQUIRES 2)	60 LBS	\$143.00
Features: Handles round bales, hoses & couplers included. Opens to 70", Euro/Global mount available. Optional grippers help when handling wet or plastic wrapped bales.			

## BLADES- 6-WAY DOZER

PRODUCT #	MODEL	WEIGHT	RETAIL
123065	HEAVY DUTY 72", 62 1/4" ANGLED WIDTH	1,012 LBS	\$7,144.00
123070	HEAVY DUTY 84", 72 1/2" ANGLED WIDTH	1,040 LBS	\$7,295.00
123075	HEAVY DUTY 96", 82 7/8" ANGLED WIDTH	1,068 LBS	\$7,404.00
223700	TRIP SPRINGS KIT (SET OF 4)	12 LBS	\$218.05
200010	UNIVERSAL CONTROL HARNESS	2 LBS	\$267.66
216900	OEM 14-PIN HARNESS (SPECIFY MACHINE)	1 LBS	\$148.00
*216916	OEM 9-PIN JD HARNESS	2 LBS	\$210.00
*216905	OEM 8-PIN CAT HARNESS	3 LBS	\$294.00
*216950	OEM 7-PIN BOBCAT HARNESS	1 LBS	\$599.00
200011	OEM EXTENSION HARNESS	1 LBS	\$142.00
<i>*Requires PN 200011 OEM extension harness. Hose &amp; Couplers included.  22" high blade, blade trips by removing 2 pins &amp; adding trip springs. Height extensions available for snow</i>			

## BLADES- HEAVY DUTY MULTI-BLADE

PRODUCT #	MODEL	ANGLED WIDTH	WEIGHT	RETAIL
122010	60" MULTI-BLADE	49.2"	456 LBS	\$4,464.00
122015	72" MULTI-BLADE	59"	481 LBS	\$4,556.00
122020	84" MULTI-BLADE	68.8"	507 LBS	\$4,656.00
122025	96" MULTI-BLADE	78.6"	544 LBS	\$4,759.00
<i>For snow or light dirt work, trip lockout, variable down pressure, includes corner markers and oscillation. 30" High blade.</i>				

## BREAKERS, HYDRAULIC (HAMMERS)

PRODUCT #	MODEL	ENERGY CLASS	WEIGHT	RETAIL
135005	HB50	100	132 LBS	\$4,411.00
135009	HB95	200	209 LBS	\$5,121.00
135016	HB165	400	330 LBS	\$7,106.00
135021	HB210	500	463 LBS	\$9,331.00
135030	HB300	700	661 LBS	\$12,028.00
135040	HB400	1,000	882 LBS	\$13,073.00
135053	HB530	1,200	1,168 LBS	\$21,265.00
135209	HB95 MOUNT, SKID STEER		391 LBS	\$658.00
135212	HB165 MOUNT, SKID STEER		103 LBS	\$654.00
135220	HB210 MOUNT, SKID STEER		139 LBS	\$654.00
135230	HB300 MOUNT, SKID STEER		169 LBS	\$658.00
135240	HB400/530 MOUNT, SKID STEER		202 LBS	\$670.00
135425	HOSE KIT FOR HB95-210		15 LBS	\$385.00
135430	HOSE KIT FOR HB300		15 LBS	\$459.00
135435	HOSE KIT FOR 400-530		20 LBS	\$477.00
<i>Specify breaker, mount, tool, &amp; hoses. Note: Universal hose length may not fit all machines. Customer is responsible for any hose modifications. One free tool included with breaker purchase (see p. 60 for tools). 3 year warranty, monoblock design, self-regulated flow and pressure.</i>				

## BROOMS-ANGLE SEVERE DUTY

PRODUCT #	MODEL	ANGLED WIDTH	WEIGHT	RETAIL
116108	60" MANUAL, FULL ANGLE, WAFERS	52"	970 LBS	\$7,116.00
116113	72" MANUAL	62.4"	1,045 LBS	\$7,564.00
116118	84" MANUAL	72.8"	1,275 LBS	\$7,775.00
116123	96" MANUAL	83.18"	1,085 LBS	\$8,166.00
116110	60" HYDRAULIC, FULL ANGLE, WAFERS	52"	1,025 LBS	\$8,198.00
116115	72" HYDRAULIC	62.4"	917 LBS	\$8,431.00
116120	84" HYDRAULIC	72.8"	980 LBS	\$8,716.00
116125	96" HYDRAULIC	83.18"	1,030 LBS	\$9,023.00
216920	UNIVERSAL CONTROL HARNESS		2 LBS	\$412.20
216936	OEM 14-PIN WIRE HARNESS (DEERE ONLY)		2 LBS	\$494.00
216935	14-PIN HARNESS (EXCEPT DEERE)		2 LBS	\$488.00
216925	BOBCAT WIRE HARNESS		2 LBS	\$1,825.00
216930	CAT 8-PIN		2 LBS	\$488.00

Includes poly/steel bristles, couplers, floating quick attach. OEM harness sold separately.  
Flow range 15-25 GPM. 30° angle, 32" diameter bristles.

## BROOMS-ANGLE HEAVY DUTY - SERIES 2

PRODUCT #	MODEL	WEIGHT	RETAIL
116207	60" MANUAL ANGLE	755 LBS	\$4,719.00
116212	72" MANUAL ANGLE	815 LBS	\$4,741.00
116217	84" MANUAL ANGLE	875 LBS	\$5,169.00
116222	96" MANUAL ANGLE	980 LBS	\$5,620.00
116205	60" HYDRAULIC ANGLE (REQ WIRING HARNESS)	1,300 LBS	\$5,843.00
116210	72" HYDRAULIC ANGLE (REQ WIRING HARNESS)	1,450 LBS	\$6,007.00
116215	84" HYDRAULIC ANGLE (REQ WIRING HARNESS)	850 LBS	\$6,281.00
116220	96" HYDRAULIC ANGLE (REQ WIRING HARNESS)	1,015 LBS	\$6,528.00
316154	ANGLE HD 2 WATER KIT FOR 60"	20 LBS	\$1,600.00
316156	ANGLE HD 2 WATER KIT FOR 72"	20 LBS	\$1,620.00
316158	ANGLE HD 2 WATER KIT FOR 84"	20 LBS	\$1,640.00
316160	ANGLE HD 2 WATER KIT FOR 96"	20 LBS	\$1,680.00
200010	UNIVERSAL WIRE HARNESS	2 LBS	\$267.66
216900	*14 PIN HARNESS	2 LBS	\$115.00
216905	*CAT 8-PIN	2 LBS	\$271.00
216950	*BOBCAT 7-PIN	2 LBS	\$593.18
200011	OEM EXTENSION HARNESS	2 LBS	\$142.00

Includes poly/steel bristles, floating quick attach. Wiring harness sold separately.  
Flow range 15-25 GPM. 30° angle, 26" diameter bristles. \*REQ PN200011 extension.  
Water kit req's 116152 mounting bracket.

## BROOMS-PICK UP -SERIES 2

PRODUCT #	MODEL	WEIGHT	RETAIL
116512	60" PICKUP BROOM, SERIES 2	945 LBS	\$7,530.00
116517	72" PICKUP BROOM, SERIES 2	1,390 LBS	\$8,075.00
116522	84" PICKUP BROOM, SERIES 2	1,585 LBS	\$8,552.00
116527	96" PICKUP BROOM, SERIES 2	1,765 LBS	\$9,085.00
316571	PICKUP BROOM 2 WATER KIT FOR 60"	30 LBS	\$1,988.00
316573	PICKUP BROOM 2 WATER KIT FOR 72"	30 LBS	\$1,988.00
316576	PICKUP BROOM 2 WATER KIT FOR 84"	30 LBS	\$1,988.00
316579	PICKUP BROOM 2 WATER KIT FOR 96"	30 LBS	\$1,988.00
116555	GUTTER BRUSH	128 LBS	\$2,414.00
<i>Includes poly/steel bristles, hose &amp; couplers included. For construction &amp; road work. Flow range 15-25 GPM. 26" diameter bristles. Electrical wiring harness (200010) included for water kit.</i>			

## BROOMS-PUSH HEAVY DUTY & STANDARD DUTY

*Specify broom & mount. 11" bristle height.  
Does not angle.*

PRODUCT #	MODEL	WEIGHT	RETAIL
116032	60" STANDARD DUTY	146 LBS	\$1,476.00
116034	72" STANDARD DUTY	173 LBS	\$1,846.00
116016	60" PUSH HEAVY DUTY	206 LBS	\$1,720.00
116017	72" PUSH HEAVY DUTY	239 LBS	\$2,089.00
116019	96" PUSH HEAVY DUTY	315 LBS	\$2,825.00
116020	FORKLIFT MOUNT (HD MODEL REQ 116027)	52 LBS	\$407.00
116026	SKID STEER MOUNT (HD MODEL REQUIRES 116027)	187 LBS	\$630.00
116027	ADAPTER MOUNT PLATE FOR HD UNIT	33 LBS	\$249.00

## BRUSH CUTTERS - DUAL SPINDLE MOTOR

PRODUCT #	MODEL	REQ FLOW	WEIGHT	RETAIL
103920	84" DUAL 80CC MOTOR	15-22 GPM	1,865 LBS	\$14,277.00
103930	84" DUAL 125 CC MOTOR	23-30 GPM	1,865 LBS	\$14,516.00
<i>Includes couplers, direct drive, cuts 3" material. 1 year warranty.</i>				

## BRUSH CUTTERS - HEAVY DUTY

PRODUCT #	MODEL	REQ FLOW	WEIGHT	RETAIL
103004	60" HD BRUSH CUTTER	11-16 GPM	940 LBS	\$6,648.00
103007	60" HD BRUSH CUTTER	16-26 GPM	940 LBS	\$6,643.00
103012	72" HD BRUSH CUTTER	16-26 GPM	1,220 LBS	\$7,086.00

*Includes couplers, direct drive, 1/4" deck, cuts 3" material. 1 year warranty. 3 blades.  
MUST ONLY BE USED ON MACHINES WITH SAFETY WINDSHIELDS*

## BRUSH CUTTERS - EXTREME DUTY CLOSED / OPEN FRONT

PRODUCT #	MODEL	REQ FLOW	WEIGHT	RETAIL
103015	60" LOW FLOW-CLOSED FRONT	16-26 GPM	1,170 LBS	\$7,173.00
103020	72" LOW FLOW-CLOSED FRONT	16-26 GPM	1,617 LBS	\$8,539.00
103016	60" LOW FLOW-OPEN FRONT	16-26 GPM	1,220 LBS	\$8,384.00
103025	72" LOW FLOW-OPEN FRONT	16-26 GPM	1,547 LBS	\$9,683.00
103017	60" HIGH FLOW-OPEN FRONT	27-40 GPM	1,220 LBS	\$10,342.00
103023	72" HIGH FLOW-CLOSED FRONT	27-35 GPM	1,585 LBS	\$10,397.00
103024	72" HIGH FLOW-CLOSED FRONT	36-45 GPM	1,585 LBS	\$10,599.00
103030	72" HIGH FLOW-OPEN FRONT	27-35 GPM	1,555 LBS	\$11,553.00
103032	72" HIGH FLOW-OPEN FRONT	36-45 GPM	1,555 LBS	\$11,553.00

*Cuts up to 5" trees on low flow, 4 blades on 72" (Includes low flow couplers, direct drive, 1/4" deck, cutaway back. 1 year warranty. (High-flow req large couplers)*

## BRUSH CUTTERS - SEVERE DUTY

PRODUCT #	MODEL	REQ FLOW	WEIGHT	RETAIL
103120	72" SEVERE DUTY, 150CC	16-26 GPM	1,957 LBS	\$14,913.00
103125	72" SEVERE DUTY, 200CC	27-35 GPM	1,957 LBS	\$15,018.00
103130	72" SEVERE DUTY, 250CC	36-45 GPM	1,957 LBS	\$15,018.00

*Over 500 lb blade carrier, high torque piston motor, visible pressure gauge & 10" cut capacity.  
Includes couplers & female case drain.*

## BRUSH CUTTERS - SWING ARM

PRODUCT #	MODEL	REQ FLOW	WEIGHT	RETAIL
103870	BRUSH CUTTER SWING ARM	14-20	845 LBS	\$13,254.00
103875	BRUSH CUTTER SWING ARM	17-30	845 LBS	\$14,132.00
103885	UNIVERSAL WIRE HARNESS		65 LBS	\$643.00
103887	14 PIN WIRE HARNESS		54 LBS	\$363.00
103889	8-PIN WIRE HARNESS		54 LBS	

*Required wire harness & case drain.*

**BUCKETS- 4-IN-1**

Heavy duty cylinders, replaceable edge-on blade.  
Includes hose & couplers. Pilot operated check valve & teeth available.

PRODUCT #	MODEL	STRUCK CAP.	WEIGHT	RETAIL
108780	66" 4-IN-1, W/SMOOTH EDGE	13.9 CU FT	862 LBS	\$4,096.00

120540	10 FT WITHOUT FLOAT		985 LBS	\$7,573.00
14-Pin wiring harness included, specify machine.				

## SNOW PUSHER

PRODUCT #	MODEL	WEIGHT	RETAIL
120111	60" SNOW PUSHER, W/RUBBER EDGE	625 LBS	\$2,427.00
120113	72" SNOW PUSHER, W/RUBBER EDGE	650 LBS	\$2,862.00
120115	96" SNOW PUSHER, W/RUBBER EDGE	740 LBS	\$3,122.00
120120	120" SNOW PUSHER, W/RUBBER EDGE	863 LBS	\$3,427.00
120135	72" SNOW PUSHER, HEAVY DUTY	624 LBS	\$3,150.00
120150	96" SNOW PUSHER, HEAVY DUTY	770 LBS	\$3,569.00
120155	120" SNOW PUSHER, HEAVY DUTY	875 LBS	\$3,848.00
120114	72" SNOW PUSHER, PULL BACK OPTION, STD/HD	100 LBS	\$649.00
120117	96" SNOW PUSHER, PULL BACK OPTION, STD/HD	903 LBS	\$750.00
120122	120" SNOW PUSHER, PULL BACK OPTION, STD/HD	943 LBS	\$906.00
220330	OPTIONAL POLY SKID SHOW (REQ 2)	20 LBS	\$378.00
10-gauge moldboard with rubber edge, pullback option available for STD & HD models.			

## SNOW TIRES -STANDARD DUTY (ARTIC CLAW)

PRODUCT #	MODEL	WEIGHT	RETAIL
120255	STANDARD DUTY 100, 8 BOLT TIRE/WHEEL SET FOR 10X16.5 OR 12X16.5 TIRES	305 LBS	\$1,918.00

## SNOW TIRES -PRO SERIES

PRODUCT #	MODEL	WEIGHT	RETAIL
120200	SERIES 100, 8 BOLT TIRE, SET FOR 10, 12X16.5	330 LBS	\$2,413.00
120205	SERIES 150-S, 8 BOLT STUDDED TIRE, SET FOR 10, 12X16.5	288 LBS	\$2,518.00
120210	SERIES 200, 6 BOLT TIRE, SET FOR 10, 12X16.5	225 LBS	\$2,545.00
120215	SERIES 250-S, 6 BOLT STUDDED TIRE, SET FOR 10, 12X16.5	260 LBS	\$2,390.00
120220	SERIES 300-655, 6 BOLT TIRE, SET FOR BOBCAT TOOLCAT 6 ON 5.5 WHEEL	255 LBS	\$2,157.00
120225	SERIES 300-660, 6 BOLT TIRE, SET FOR BOBCAT TOOLCAT 6 ON 6 WHEEL	255 LBS	\$2,089.00
120230	SERIES 300-655-S, 6 BOLT STUDDED TIRE, SET FOR BOBCAT TOOLCAT 6 ON 5.5 WHEEL	225 LBS	\$2,339.00
120235	SERIES 350-660-S, 6 BOLT STUDDED TIRE/WHEEL SET FOR BOBCAT TOOLCAT 6 ON 6 WHEEL	225 LBS	\$2,416.00
120240	SERIES 400, 8 BOLT TIRE/WHEEL SET FOR 14X17.5	255 LBS	\$3,000.00
120245	SERIES 500, 8 BOLT TIRE/WHEEL SET FOR BOBCAT A300	400 LBS	\$3,882.00
120248	SERIES 500-36, 8 BOLT STUDDED TIRE/WHEEL SET FOR BOBCAT (14X17.5 TIRES ON 8X10.75 RIM)	420 LBS	\$3,071.00
120250	SERIES 550-S, 8 BOLT STUDDED TIRE/WHEEL SET FOR BOBCAT A300	250 LBS	\$4,063.00
<i>Incredible traction &amp; increased travel speed.</i>			

## SOD ROLLER

PRODUCT #	MODEL	WEIGHT	RETAIL
102200	36" WIDE ROLL FIXED WIDTH	225 LBS	\$961.00
102205	42" WIDE ROLL FIXED WIDTH	240 LBS	\$1,008.00
102215	50" WIDE ROLL FIXED WIDTH	255 LBS	\$1,062.00
302305	ADJUSTABLE, 36" - 48" WIDE ROLL	280 LBS	\$1,376.00

## STUMP GRINDER *High-torque piston motor, cuts moving forward and in reverse*

PRODUCT #	MODEL	WEIGHT	RETAIL
104110	24" WHEEL, STANDARD FLOW, 60CC, 16-20 GPM	640 LBS	\$10,455.00
104120	24" WHEEL, STANDARD FLOW, 75CC, 20-25 GPM	640 LBS	\$10,626.00
104130	24" WHEEL, STANDARD FLOW, 90CC, 25-29 GPM	640 LBS	\$10,737.00
104210	26" WHEEL, HIGH FLOW, 130CC, 29-33 GPM	718 LBS	\$11,498.00
104220	26" WHEEL, HIGH FLOW, 150CC, 33-39 GPM	718 LBS	\$11,604.00
104230	26" WHEEL, HIGH FLOW, 170CC, 39-45 GPM	718 LBS	\$11,763.00
<i>Host machine must have case drain. 1/2" coupler included, additional coupler sizes available see page 21, sold separately.</i>			

## STUMP GRINDER -SWING ARM

6 functions, push blade for back fill. Case drain & harness req.  
Choose coupler size from page 21, Sold separately.

PRODUCT #	MODEL	WEIGHT	RETAIL
104605	SWING ARM, HIGH FLOW, 130CC, 29-33 GPM	1,740 LBS	\$21,490.00
104610	SWING ARM, HIGH FLOW, 150CC, 33-39 GPM	1,740 LBS	\$21,699.00
104615	SWING ARM, HIGH FLOW, 170CC, 39-45 GPM	1,740 LBS	\$22,534.00
204450	14-PIN HARNESS	5 LBS	\$397.03
204455	UNIVERSIAL CONTROL HARNESS	5 LBS	\$1,285.00

## TRAILER SPOTTER

PRODUCT #	MODEL	WEIGHT	RETAIL
112010	SKID STEER MOUNT	118 LBS	\$399.00

Install your trailer hitch & move trailers (call for Euro/global mounts).

## TREE BOOM

PRODUCT #	MODEL	WEIGHT	RETAIL
112005	TREE BOOM, 3,500 LIFT CAP	169 LBS	\$605.00
112001	TREE BOOM, HEAVY DUTY, 6,000 LIFT CAP	365 LBS	\$1,560.00
112002	TREE BOOM, SEVERE DUTY, 6,000 LIFT CAP	400 LBS	\$1,903.00
212050	OPTIONAL CLEVIS W/SWIVEL HOOK, 6,000 LIFT CAP	4 LBS	\$185.00

## TREE GRUBBER -EXTREME DUTY

PRODUCT #	MODEL	WEIGHT	RETAIL
102100	TREE GRUBBER, EXTREME DUTY	285 LBS	\$1,025.00
102105	TREE GRUBBER, EXTREME DUTY, W/TEETH	345 LBS	\$1,305.00

## TREE PULLER

PRODUCT #	MODEL	WEIGHT	RETAIL
127006	TREE & POST PULLER, STANDARD DUTY	291 LBS	\$2,078.00
127010	TREE & POST PULLER, HEAVY DUTY	415 LBS	\$2,720.00

Clamp on the trunk of small trees and pull, includes hose & couplers.

## TREE SHEAR

PRODUCT #	MODEL	WEIGHT	RETAIL
128005	TREE SHEAR, CUTS TO 12"	1,123 LBS	\$6,625.00

T1 blade, rotates 90°, holds tree as it shears. Includes hoses & 1/2" couplers.

## TRENCHER - HIGH FLOW

PRODUCT #	MODEL	WEIGHT	RETAIL
131300-HF	TRENCHER, HIGH FLOW, 60" DEPTH, 6" COMBO		\$10,431.00
131305-HF	TRENCHER, HIGH FLOW, 60" DEPTH 8" COMBO		\$10,749.00
131310-HF	TRENCHER, HIGH FLOW, 60" DEPTH 12" COMBO		\$11,077.00

Includes crumbler, requires mount- see page 33 for pricing.

## TRENCHER

Planetary drive, flow range 13-25 GPM (36" Bar)  
16-30 GPM (48" Bar)

PRODUCT #	MODEL	WEIGHT	RETAIL
131110	TRENCHER, 36" DEPTH, 4" DIRT CHAIN	390 LBS	\$4,975.00
131115	TRENCHER, 36" DEPTH, 6" DIRT CHAIN	575 LBS	\$4,991.00
131120	TRENCHER, 36" DEPTH, 8" DIRT CHAIN	585 LBS	\$5,052.00
113125	TRENCHER, 36" DEPTH, 4" COMBO CHAIN	697 LBS	\$5,228.00
131130	TRENCHER, 36" DEPTH, 6" COMBO CHAIN	780 LBS	\$5,381.00
131135	TRENCHER, 36" DEPTH, 8" COMBO CHAIN	780 LBS	\$5,393.00
131140	TRENCHER, 36" DEPTH, 4" ROCK CHAIN	751 LBS	\$5,311.00
131145	TRENCHER, 36" DEPTH, 6" ROCK CHAIN	751 LBS	\$5,410.00
131150	TRENCHER, 36" DEPTH, 8" ROCK CHAIN	751 LBS	\$5,464.00
131210	TRENCHER, 48" DEPTH, 6" EARTH CHAIN	1,120 LBS	\$7,666.00
131215	TRENCHER, 48" DEPTH, 8" DEARTH CHAIN	1,120 LBS	\$7,832.00
131220	TRENCHER, 48" DEPTH, 10" EARTH CHAIN	1,120 LBS	\$8,024.00
131225	TRENCHER, 48" DEPTH, 12" EARTH CHAIN	1,120 LBS	\$8,479.00
131230	TRENCHER, 48" DEPTH, 6" COMBO CHAIN	1,075 LBS	\$8,084.00
131235	TRENCHER, 48" DEPTH, 8" COMBO CHAIN	1,120 LBS	\$8,238.00
131240		1,120 LBS	\$8,357.00
131245	TRENCHER, 48" DEPTH, 12" COMBO CHAIN	1,120 LBS	\$8,650.00
131250	TRENCHER, 48" DEPTH, 6" ROCK CHAIN	1,075 LBS	\$8,095.00
131255	TRENCHER, 48" DEPTH, 8" ROCK CHAIN	1,120 LBS	\$8,255.00
131260	TRENCHER, 48" DEPTH, 10" ROCK CHAIN	1,120 LBS	\$8,271.00
131265	TRENCHER, 48" DEPTH, 12" ROCK CHAIN	1,120 LBS	\$8,673.00
131005	TRENCHER MOUNT SKID STEER	146 LBS	\$582.00
131006	TRENCHER MOUNT, WIDE FRAME SIDE SHIFT	200 LBS	\$832.00
Includes hoses, couplers, & crumber. Specify base unit & mount. Side -shift mount is 75" wide & allows 60" of travel.			

## VIBRATORY ROLLER

PRODUCT #	MODEL	WEIGHT	RETAIL
124010	73" VIBRATORY ROLLER, SMOOTH	2,050 LBS	\$16,126.00
124015	73" VIBRATORY ROLLER, PAD FOOT	2,210 LBS	\$18,305.00
124030	84" VIBRATORY ROLLER, SMOOTH	2,300 LBS	\$17,569.00
124035	84" VIBRATORY ROLLER, PAD FOOT	2,450 LBS	\$19,607.00
Includes hoses & couplers.

111105	BALE SQUEEZE 2,000 CAPACITY	400 LBS	\$2,840.00
211110	OPTIONAL BOLT-ON GRIPPERS (REQUIRES 2)	60 LBS	\$143.00
Features: Handles round bales, hoses & couplers included. Opens to 70", Euro/Global mount available. Optional grippers help when handling wet or plastic wrapped bales.			

## BOX BLADE, COMPACT TRACTOR

PRODUCT #	MODEL	WEIGHT	RETAIL
426010	48" BOX BLADE, MED DUTY, HP 15-45	285 LBS	\$861.00
426015	60" BOX BLADE, MED DUTY, HP 15-45	342 LBS	\$989.00
426110	72" BOX BLADE, HEAVY DUTY, HP 30-70	496 LBS	\$1,362.00
426115	84" BOX BLADE, HEAVY DUTY, HP 30-70	524 LBS	\$1,524.00
426120	96" BOX BLADE, HEAVY DUTY, HP 30-70, QUICK HITCH	640 LBS	\$1,725.00
Adjustable ripper shanks, fits cat 1.			

## BLADE -GRADER -DUAL EDGE

PRODUCT #	MODEL	WEIGHT	RETAIL
423105	48" DUAL EDGE, W/REPLACEABLE CUT EDGE, 20-35 HP	460 LBS	\$1,506.00
423110	60" DUAL EDGE, W/REPLACEABLE CUT EDGE, 25-40 HP	519 LBS	\$1,672.00
423112	60" DUAL EDGE, W/REPLACEABLE CUT EDGE 25-55 HP	519 LBS	\$1,969.00
423115	72" DUAL EDGE, W/REPLACEABLE CUT EDGE, 30-55 HP	572 LBS	\$1,812.00
423117	72" DUAL EDGE, W/REPLACEABLE CUT EDGE & SHANKS	572 LBS	\$2,175.00
423120	84" DUAL EDGE, W/REPLACEABLE CUT EDGE, 35-70 HP	624 LBS	\$1,953.00
423122	84" DUAL EDGE, W/REPLACEABLE CUT EDGE & SHANKS	640 LBS	\$2,721.00
423127	96" DUAL EDGE, W/REPLACEABLE CUT EDGE & SHANKS	640 LBS	\$2,915.00

## BLADES-GRADER -HEAVY DUTY

PRODUCT #	MODEL	WEIGHT	RETAIL
423010	72" GRADER BLADE, HP 45-75	439 LBS	\$1,630.00
423015	84" GRADER BLADE, HP 55-75	469 LBS	\$1,694.00
423020	96" GRADER BLADE, HP 55-75	503 LBS	\$1,850.00
5 position angle moving forward & in reverse, 3 position tilt, fits cat 1 & 2.			

## BROOMS-ANGLE HEAVY DUTY - SERIES 2

PRODUCT #	MODEL	WEIGHT	RETAIL
116207	60" MANUAL ANGLE	755 LBS	\$4,719.00
116212	72" MANUAL ANGLE	815 LBS	\$4,741.00
116217	84" MANUAL ANGLE	875 LBS	\$5,169.00
116222	96" MANUAL ANGLE	980 LBS	\$5,620.00
116205	60" HYDRAULIC ANGLE (REQ WIRING HARNESS)	1,300 LBS	\$5,843.00
116210	72" HYDRAULIC ANGLE (REQ WIRING HARNESS)	1,450 LBS	\$6,007.00
116215	84" HYDRAULIC ANGLE (REQ WIRING HARNESS)	850 LBS	\$6,281.00
116220	96" HYDRAULIC ANGLE (REQ WIRING HARNESS)	1,015 LBS	\$6,528.00
316154	ANGLE HD 2 WATER KIT FOR 60"	20 LBS	\$1,600.00
316156	ANGLE HD 2 WATER KIT FOR 72"	20 LBS	\$1,620.00
316158	ANGLE HD 2 WATER KIT FOR 84"	20 LBS	\$1,640.00
316160	ANGLE HD 2 WATER KIT FOR 96"	20 LBS	\$1,680.00
200010	UNIVERSAL WIRE HARNESS	2 LBS	\$267.66
216900	*14 PIN HARNESS	2 LBS	\$115.00
216905	*CAT 8-PIN	2 LBS	\$271.00
216950	*BOBCAT 7-PIN	2 LBS	\$593.18
200011	OEM EXTENSION HARNESS	2 LBS	\$142.00
Includes poly/steel bristles, floating quick attach. Wiring harness sold separately. Flow range 15-25 GPM. 30° angle, 26" diameter bristles. *REQ PN200011 extension.			

## BUCKETS- DISPENSING *Carry and pour flowable materials*

PRODUCT #	MODEL	WEIGHT	RETAIL
110005	1/2 YARD DISPENSING BUCKET	393 LBS	\$1,192.00
110010	1/2 YARD DISPENSING BUCKET W/HYDRAULIC DOOR	403 LBS	\$1,710.00

108845	84" TRACTOR BUCKET, SMOOTH	20.1 CU FT	490 LBS	\$1,598.00
Available with Euro-Ag/Global & John Deere 400/500 mounts. Call for pricing.				

## CUTTER-TRACTOR -STD/ROUND BACK/HEAVY DUTY (WITH CHAINS & CLUTCH)

PRODUCT #	MODEL	WEIGHT	RETAIL
403010	4' CUTTER, STD, 14-45 HP, 1.5 CUTTING CAP	538 LBS	\$2,482.00
403115	6' CUTTER, RB HD, 40-80 HP, 2.5 CUTTING CAP	700 LBS	\$3,532.00
403120	7' CUTTER, RB HD, 55-95 HP, 2.5 CUTTING CAP	1,289 LBS	\$5,570.00
403125	8' CUTTER, HD, 40-80 HP, LIFT TYPE	1,250 LBS	\$7,353.00
403127	10' CUTTER, HD, 42 HP, LIFT TYPE	1,405 LBS	\$8,576.00
403129	8' CUTTER, HD, 42 HP, PULL TYPE	1,295 LBS	\$9,382.00
403130	10' CUTTER, HD, 52 HP, PULL TYPE	2,050 LBS	\$11,813.00

## CUTTER-TRACTOR - FLEX WING

PRODUCT #	MODEL	TIRES	WEIGHT	RETAIL
403150	12' FLEX WING, 35 HP, 2" CUTTING CAP	LAMINATED	2,760 LBS	\$18,266.00
403155	15' FLEX WING, 55 HP, 4" CUTTING CAP	LAMINATED	5,180 LBS	\$25,047.00
403157	15' FLEX WING, 55 HP, 4" CUTTING CAP	AIRCRAFT	5,180 LBS	\$25,090.00
403158	15' FLEX WING, 55 HP, 6" CUTTING CAP, W/LED LIGHTS	AIRCRAFT	5,600 LBS	\$27,942.00

## CUTTER-TRACTOR -MULTI PURPOSE *Listed w/universal skid steer mount. Mounts available to fit most tractors.*

PRODUCT #	MODEL	WEIGHT	RETAIL
403810	32" MULTI-PURPOSE CUTTER 9-14 GPM	369 LBS	\$6,850.00
403850	44" MULTI-PURPOSE CUTTER 9-14 GPM	504 LBS	\$6,987.00
403870	44" MULTI-PURPOSE CUTTER 15-20 GPM	504 LBS	\$7,098.00

## DISC HARROW -TRACTOR *18" Discs, sealed bearings, fits category 1.*

PRODUCT #	MODEL	WEIGHT	RETAIL
445010	60" DISC HARROW, 30-40 HP, 16 BLADES	650 LBS	\$2,688.00
445015	72" DISC HARROW, 35-45 HP, 20 BLADES	700 LBS	\$2,771.00
445020	84" DISC HARROW, 40-60 HP, 24 BLADES	750 LBS	\$3,067.00

## FINISHING MOWER -TRACTOR *Dual belt rear discharge.*

PRODUCT #	MODEL	WEIGHT	RETAIL
403510	48" FINISH MOWER, 20-50 HP	450 LBS	\$3,044.00
403515	60" FINISH MOWER, 25-50 HP	499 LBS	\$3,338.00
403520	72" FINISH MOWER, 30-50 HP	554 LBS	\$3,710.00
403525	84" FINISH MOWER, 35-60 HP	662 LBS	\$4,937.00

## FLAIL MOWER -TRACTOR *Standard duty fits category 1, HD fits category 2. Includes hoses. Couplers sold separately.*

PRODUCT #	MODEL	WEIGHT	RETAIL
403710	69" FLAIL MOWER, W/HYDRAULIC SIDESHIFT	908 LBS	\$5,614.00
403720	81" FLAIL MOWER, W/HYDRAULIC SIDESHIFT	957 LBS	\$5,981.00
403730	87" FLAIL MOWER, W/HYDRAULIC SIDESHIFT	1,063 LBS	\$6,553.00
403740	87" FLAIL MOWER, HD W/HYDRAULIC SIDESHIFT	1,726 LBS	\$9,031.00
403750	98" FLAIL MOWER, HD W/HYDRAULIC SIDESHIFT	1,907 LBS	\$10,413.00

## GRAPPLES -BUCKET (LIGHT, HEAVY, & SEVERE DUTY)

Available with Euro-Ag/Global & John Deere 400/500 mounts. Call for pricing.

PRODUCT #	MODEL	LIFT CAP.	WEIGHT	RETAIL
106065	66" GRAPPLE BUCKET, LIGHT DUTY, DUAL CLAMPS	11.07 CU FT	480 LBS	\$2,310.00
106077	60" GRAPPLE BUCKET,HD, DUAL CLAMPS	10.26 CU FT	740 LBS	\$2,658.00
106085	66" GRAPPLE BUCKET, HD, DUAL CLAMPS	11.07 CU FT	587 LBS	\$2,751.00
106095	72" GRAPPLE BUCKET, HD, DUAL CLAMPS	11.88 CU FT	613 LBS	\$2,834.00
106430	60" GRAPPLE BUCKET, SEVERE DUTY	10.26 CU FT	875 LBS	\$3,978.00
106445	66" GRAPPLE BUCKET, SEVERE DUTY	11.07 CU FT	910 LBS	\$4,719.00
106455	72" GRAPPLE BUCKET, SEVERE DUTY	11.88 CU FT	995 LBS	\$5,105.00
106457	72" GRAPPLE BUCKET, SEVERE DUTY W/TEETH	11.88 CU FT	1,066 LBS	\$4,871.00
106465	78" GRAPPLE BUCKET, SEVERE DUTY	12.69 CU FT	1,033 LBS	\$5,383.00
106475	84" GRAPPLE BUCKET, SEVERE DUTY	14.04 CU FT	1,066LBS	\$5,405.00
Severe duty has removable bolt-on sides for carrying logs.				

## GRAPPLE, TRACTOR

Hoses included w/1/2" flat face couplers. Available with Euro-Ag/Global & John Deere 400/500 mounts. Call for pricing.

PRODUCT #	MODEL	WEIGHT	RETAIL
107204	60" TRACTOR GRAPPLE RAKE W/DUAL CLAMPS	727 LBS	\$3,049.00
107207	66" TRACTOR GRAPPLE RAKE W/DUAL CLAMPS	756 LBS	\$3,115.00
107210	72" TRACTOR GRAPPLE RAKE W/DUAL CLAMPS	775 LBS	\$3,242.00

## BUCKET -ROCK -W/GRAPPLE

STD-dual grapples, lighter weight 3/8" top clamps, exposed cylinders & hoses  
 HD-dual grapples, covered cylinders & hoses, 1/2" top tines, solid top clamps

<b>250 gallon tack trailer</b> - 12-volt battery, single 7,000 lb double eye axle, electric brakes w/safety breakaway, single diesel burner, 24"x24" clean out port, insulated, (2) LED 4" red S/T/T lights (1 per side), spray system, hose reel, battery charger package, vip, 16" tires	\$ 24,728
<b>250 gallon tack truck mount</b> - 12-volt battery, single diesel burner, 24"x24" clean out port, insulated, spray system, hose reel, battery charger package, vip	\$ 18,015
<b>500 gallon tack trailer</b> - 12-volt battery, single diesel burner, insulated, electric brakes w/safety breakaway, tandem axle, 24"x24" clean out port, (2) LED 4" red S/T/T lights (1 per side), spray system, hose reel, battery charger package, vip	\$ 29,265
8' adjustable spray bar	\$ 2,463

electric start	\$ 250
in-cab control for spray bar	\$ 4,147
remote control for spray bar	\$ 338
reversing pump	\$ 5,125
<b>Lighting Options</b>	
night work lights (LED)	\$ 507
arrow board LED	\$ 1,956
arrow stick LED	\$ 1,522
backup lights	\$ 294
warning strobe (rotating beacon)	\$ 551
Extra Marker Lights for Quebec Trailers	\$ 121
<b>Tires</b>	
16" spare tire on wheel	\$ 353
17.5" Spare tire on wheel	\$ 713
spare tire holder	\$ 397
<b>Tack Tank Options</b>	
15 Gallon heated oil jacketed tack tank	\$ 7,375
15 gallon heated/insulated	\$ 4,478
15 gallon non-heated/non-insulated	\$ 2,412
30 Gallon heated Oil-Jacketed tack tank	\$ 7,816
30 gallon heated/insulated	\$ 4,647
30-Gallon non-heated/non-insulated	\$ 1,713
30 gallon insulated/non heated	\$ 2,471
Rejuvenator Spray System - 5.5 HP Motor	\$ 4,154
Rejuv spray system hose reel	\$ 912
<b>Compaction Equipment and Mounting Options</b>	
hoist with 12-volt winch	\$ 3,221
bomag bvp18/45-2	\$ 3,493
bomag bvp18/45-2w	\$ 3,882
plate compactor basket (24"x24")	\$ 375
vibco gr basket (30"x30")	\$ 507
Rear Hydraulic Plate Compactor Basket	\$ 2,096
VIBCO GR-1600 Roller	\$ 3,721
VIBCO GR-3200 Roller	\$ 13,257
<b>Other Equipment Options</b>	
24 hour timer	\$ 419
7 day timer	\$ 551
2ft trailer hitch	\$ 235
3ft trailer hitch	\$ 279
5lb extinguisher	\$ 279
10lb extinguisher	\$ 349
3" Pintle Eye	\$ 147
50/550 thermometer	\$ 537

10K drop leg jack	\$	404
Additional SRM24 12-Volt Battery	\$	382
backup alarm	\$	218
bifold loading doors	\$	1,659
cold weather package	\$	1,647
custom color match	\$	632
document holder	\$	125
emergency stop button	\$	471
flaming river disconnect switch	\$	351
hopper extensions	\$	581
hopper access step	\$	294
hour meter	\$	194
Hydraulic Loading Doors	\$	2,794
Hydraulic Unloading Door	\$	2,044
loading door gas assist shocks	\$	478
lockable battery boxes	\$	228
LP torch with 20lb bracket	\$	616
LP torch with 60lb bracket	\$	1,184
LP torch hose reel	\$	912
pendant bracket	\$	68
Pour pot mounting bracket	\$	209
Railing for Hopper Access Platform	\$	640
release agent basket	\$	360
Sight glass for diesel fuel tank	\$	121
slow moving vehicle stickers	\$	84
solar battery maintainer	\$	353
solvent tank	\$	485
tool box (25x10x10)	\$	471
Tool Holder - 2-position	\$	125
Tool Holder - 3-Positions	\$	141
tool holder - 5 positions	\$	266
tool holder fender clips (for 2 shovels)	\$	188
tread plate for open floor extension	\$	194
Upgrade to 9k Suspension - Tandem Axle Trailer	\$	1,431
Voltmeter	\$	84
washdown system with hose reel	\$	1,882
water tank	\$	891

## Price list

# SP 15i

### Scope of supply – basic machine

- Engine: 4-CYLINDER DIESEL ENGINE TYPE DEUTZ TCD 4.1 L4
- Rated power at 2,100 r.p.m.: 95 kW / 127.4 HP / 129.2 PS
- Exhaust standard: EU Stage 4 / US Tier 4f

### MAIN FRAME

- Sturdy machine frame for accommodating two track units at the front and one track unit at the rear

### DRIVE UNIT AND HYDRAULIC SYSTEM

- 58 gal / 220 l fuel tank
- 58 gal / 220 l hydraulic oil tank
- Electrical system (24 V)
- Pressure-and-flow-controlled hydraulic pump in the open circuit for driving the track units
- Pressure-and-flow-controlled hydraulic pump in the open circuit for driving the hydraulic or electric vibrators
- Pressure-controlled hydraulic pump in the open circuit for all cylinder functions
- Proportionally controlled hydraulic pump, closed circuit, for driving the auger conveyor or belt conveyor
- Digital control system with LCD display providing the operator with all pertinent information and allowing parameter settings, e.g. free choice of languages (D / GB / F / E / NL), to be made via a menu.
- Proportional electrohydraulic levelling and steering by means of a PLC system including two leveling sensors, two steering sensors and one slope sensor
- Sensor mounting brackets, adjustable in height and range

### ADVANCE DRIVE

- Three hydraulically driven track units, 4 ft 5 in / 1.34 m long; gear ratio 1:42; including towing device
- Continuously adjustable paving speed from 0 to 49 ft / min / 15 m / min
- Continuously adjustable transport speed from 0 to 115 ft / min / 35 m / min
- Three hydraulic leveling cylinders with a stroke of 3 ft 3 in / 1.00 m
- The rear track unit can be moved along the rear suspension in order to select the most favourable position for the particular application

### SUSPENSION FOR MOULDS ATTACHED TO THE SIDE

- The offset paving moulds can be mounted on the left or right side of the machine
- The mould mount can be telescoped outwards by 2 ft 3 in / 0.70 m per side

### MISCELLANEOUS

- Water tank with 42 gal / 160 l capacity and additional water tank with 76 gal / 290 l capacity
- Pre-fitting for installing the WITOS FleetView control unit

- European design type certification, EuroTest mark and CE conformity

### **Mandatory Options**

#### **Paint**

Painting in cream RAL 9001 with orange stripes. The complete lower part of the machine is painted in slate grey RAL 7015.	<b>Standard</b>	<b>2229554</b>	<b>USD</b>	<b>0.00</b>
Monocolor special painting. Cream white color is replaced by a special color (RAL according to customer). The complete lower part of the machine is painted in slate grey RAL 7015.	<b>Option</b>	<b>2229556</b>	<b>USD</b>	<b>1,425.00</b>
Two-color special painting. Cream color is replaced by two special colors (each RAL acc. to customer request). The complete lower part of the machine is painted in slate gray RAL 7015.	<b>Option</b>	<b>2229557</b>	<b>USD</b>	<b>8,224.00</b>
Multi-color special painting. Cream color is replaced by a maximum of two special colors (RAL acc. to customer request). In addition, the lower part of the machine is painted in one special color (RAL acc. to customer request).	<b>Option</b>	<b>2229558</b>	<b>USD</b>	<b>23,180.00</b>

#### **Technical documentation**

Technical documentation - North America country version (US)	<b>Standard</b>	<b>2456347</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

#### **Service documentation**

Spare part and application documentation English (EN)	<b>Standard</b>	<b>2456404</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

#### **Warranty**

Standard warranty 12 months or 1000 engine operational hours	<b>Standard</b>	<b>100772</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	---------------	------------	-------------

#### **Telematics**

WITOS FleetView includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	<b>Standard</b>	<b>2483436</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

#### **Trimmer**

Trimmer for creating a datum surface before using offset molds. Basic width 2 ft / 0.60 m for mounting on left, material transport to the inside. Diameter 1 ft 8 in / 0.50 m, max. trim depth approx. 0.10 m with	<b>Standard</b>	<b>2133789</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

#### **Crawler units**

Two pivoting front track units (parallelogram arms). The parallelogram arm makes it possible to slew the front track units by 7 in / 180 mm inwards each as well as 2 ft 3 in / 680 mm outwards each	<b>Standard</b>	<b>2133798</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

<b>Crawler units</b>				
Three track units fitted with polyurethane track pads	Standard	2487561	USD	0.00
<b>Machine lighting</b>				
Lighting system consisting of 3 halogen working lights 24 V for illuminating the working area. The light output is approx. 1750 lumens per headlight. For protection against theft, installation is by plug-in tube masts on each of the track units.	Standard	2152687	USD	0.00
High-performance lighting system consisting of 3 LED working lights 24 V for optimum illumination of the working area. Extremely bright light, shock-resistant and durable. The light output is approx. 3000 lumens per headlight. For protection against theft, installation is by plug-in tube masts on the track units.	Option	2342924	USD	1,737.00
<b>Vibration</b>				
Hydraulic vibrator drive for up to 5 vibrators	Standard	2133795	USD	0.00
Hydraulic vibrator, straight	Option	75721	USD	1,294.00
Hydraulic vibrator, bent	Option	75722	USD	1,294.00
<b>Concrete compacting</b>				
Model without vibrator	Standard	2302880	USD	0.00
<b>Concrete feeding</b>				
Belt conveyor 16 ft 1 in / 4.90 m x 2 ft / 0.60 m, with reversible hydraulic drive. Permits lateral turning hydraulically, setting of the pitch angle and traversing in the lengthways direction	Standard	2131799	USD	0.00
Belt conveyor 18 ft 1 in / 5.50 m x 2 ft / 0.60 m in folding design with reversible hydraulic drive. Permits lateral turning hydraulically, setting of the pitch angle and traversing in the lengthways direction as well as the folding procedure.	Option	2152901	USD	17,073.00
Charging auger 15 ft 1 in x 1 ft 4 in with reversible hydraulic drive. Permits lateral turning hydraulically, setting of the pitch angle and traversing in the lengthways direction	Option	2131802	USD	5,809.00
<b>Concrete feeding</b>				
Steel chute for guiding the concrete from the conveyor/auger into the funnel of the offset molds. Attachment option both on the conveyor belt, folding conveyor belt and on the charging auger	Standard	2153567	USD	0.00
Chute consisting of a steel flange and a rubber hose extension for guiding the concrete from the conveyor/auger into the funnel of the offset molds. Attachment option both on the conveyor belt, folding conveyor belt and on the charging auger	Option	2153568	USD	434.00
<b>Concrete molding</b>				
Model without offset molds	Standard	2094303	USD	0.00
Hopper for C&G mold	Option	2150660	USD	2,382.00

Equipment Options				
Chassis options				
Hydraulic positioning feature for the rear track unit out of the middle position by 2 ft 3 in / 0.675 m to the left or right	Standard	2133804	USD	0.00
Equipment operator's platform				
Umbrella for operator's platform	Standard	2153566	USD	0.00
Trimmer equipment				
Trimmer - extension, 8 in wide, for mounting on the left side	Option	2139662	USD	3,257.00
Trimmer - extension, 1 ft 4 in wide, for mounting on the left side	Standard	2139663	USD	0.00
Water system				
Hydraulically operated high-pressure cleaner for connection to the 510 l water tank.	Standard	2133815	USD	0.00
Leveling				
Two slab tracers for one-sided height scanning of existing reference surfaces	Option	87923	USD	529.00
Third height and steering sensor for tight radii, incl. suspension and changeover box	Standard	2134423	USD	0.00
Leveling				
The 3D leveling pre-fitting includes the mechanical and electrical components needed to use a 3D leveling system. Please specify 3D system manufacturer. (Price without startup on the construction site).	Option	2144823	USD	12,391.00
Wirtgen AutoPilot				
AutoPilot 2.0 is a satellite-based navigation system for offset applications. It controls the steering, height and lateral tilt of the machine fully automatically and allows concrete profiles to be paved without stringlines. It does not require a digital terrain model to be created in advance, but is rather created by the user directly on the construction site using the corresponding rover, taking into account constraint points such as water inlets, hydrants, etc. The rover is an intelligent surveying tool that can record, save and edit position data. The objects created are stored on the corresponding tablet computer, which is then mounted on the machine without any further data transmission and provides the machine with the control data. The system is operated in combination with a laser receiver, an ultrasonic sensor, a slab tracer or a total station (tachymeter) for precise height control. Radio frequency: 868 - 870 MHz (e.g. for Europe). Note that application with reduced satellite reception (e.g. in tree-lined avenues, inner-city areas or tunnel constructions) is only possible	Option	2618721	USD	65,061.00

AutoPilot 2.0 is a satellite-based navigation system for offset applications. It controls the steering, height and lateral tilt of the machine fully automatically and allows concrete profiles to be paved without stringlines. It does not require a digital terrain model to be created in advance, but is rather created by the user directly on the construction site using the corresponding rover, taking into account constraint points such as water inlets, hydrants, etc. The rover is an intelligent surveying tool that can record, save and edit position data. The objects created are stored on the corresponding tablet computer, which is then mounted on the machine without any further data transmission and provides the machine with the control data. The system is operated in combination with a laser receiver, an ultrasonic sensor, a slab tracer or a total station (tachymeter) for precise height control. Radio frequency: 902 - 928 MHz (e.g. for USA). Note that application with reduced satellite reception (e.g. in tree-lined avenues, inner-city areas or tunnel constructions) is only possible with	Option	2618722	USD	65,061.00
Purchasing the AutoPilot System 2.0 requires additional customer training. This is charged separately. The requirement for training must be defined more precisely and depends on previous knowledge. Costs can be arranged on request after clarifying the requirements beforehand.	Option	2680909	USD	0.00
<b>Wirtgen AutoPilot</b>				
Self-leveling rotation laser. Wavelength 635 nm (invisible) with 10 rotations per second (for use in combination with a laser receiver).	Option	2201314	USD	5,551.00
Proportional laser receiver for use in combination with a rotation laser with 468.4 ft pds / 635 nm and at least 10 rotations/second. Measuring range 24 in / 60 cm. Receiver including terminals for connecting to the sensor holder of the AutoPilot. The measuring radius of the laser to laser receiver combination is approx. 328 ft 1 in / 100 m.	Option	2201316	USD	10,314.00
Ultrasonic sensor for proximity-type scanning on a homogeneous sub-base. The sensor has 6 individual transponders which perform automatic temperature compensation and averaging for scanning uneven ground or detecting obstacles. The minimum distance from the sub-base is 8 in / 0.20 m, the maximum distance is 3 ft 3 in / 1.00 m.	Option	2201318	USD	4,356.00
Expansion to the elevation control options of the AutoPilot 2.0 with the total station Leica iCON robot 50 – The fully automatic and intuitively operated total station for maximum flexibility with maximum accuracy (0.04 in / 1 mm). The vertically unlimited measuring range has a radius of 656 ft 2 in / 200 m for concrete paving without interruption. The equipment allows precise on-site operation even under difficult weather conditions. Contains the Leica total station incl. tripod, battery and charger, radio transmitter, radio receiver, stand and a 360 degree prism.	Option	2655154	USD	38,624.00

Additional tablet computer used to create the digital stringline and to inspect the objects that have already been concreted. The tablet can also be used as a replacement for the machine. Including all necessary equipment and a robust splash-proof case to safely store the materials.	Option	2657472	USD	7,546.00
<b>Other devices</b>				
Large, spacious storage compartment for storing tools at the rear of the machine instead of the standard storage compartment.	Standard	2553350	USD	0.00
<b>Mold offset</b>				
One set of hydraulic components for telescoping the offset mould mount on left or right by 2 ft 4 in / 0.70 m	Standard	2134425	USD	0.00
Height-adjustable mould mount with 1 ft 4 in / 0.40 m lift for split offset mold	Standard	2134062	USD	0.00
Hydraulically operated quick-change system for connecting an EV offset mold to the machine.	Standard	2134064	USD	0.00
Additional adapter plate for quick-change system. Required for equipping any troughs with the quick-change system.	Option	2342927	USD	1,208.00
Hydraulically operated quick-change system for connecting an AV offset mold to the machine.	Option	2668513	USD	3,149.00
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	Option		USD	81.00

<sup>1</sup>Option must be ordered from headquarters.

Date: 3/8/2019

## Price list

### SP 25i

#### Scope of supply – basic machine

- Engine station, chassis rear section and telescoping chassis front section in driving direction and three track units
- Diesel engine: DEUTZ TCD 4.1 L4 with 4 cylinders
- Rated power at 2,100 r.p.m.: 115 kW / 154 HP / 156 PS
- Exhaust standard: EU Stage 4 / US Tier 4f

#### MAIN FRAME

- Stable machine frame for attaching two track units at the rear and one or two track units at the front
- Extendable by 2 ft 3 in / 0.70 m in length, in order to allow the machine to adapt to conditions on the construction site or to allow a trimmer set to be fitted.
- Extendable in width by 2 ft 4 in / 0.715 m hydraulically in the area of each rear crawler unit by one or both track units moving out, therefore either the machine stability is improved in the offset process when paving certain profiles, or the machine can be equipped with molds between the rear track units for a working width up to 8 ft 2 in / 2.5 m.

#### DRIVE UNIT AND HYDRAULIC SYSTEM

- 99 gal / 375 l fuel tank.
- 66 gal / 250 l hydraulic oil tank
- Electrical system (24 V)
- Hydraulic pump system
- A hydraulic pump controlled by pressure and delivery flow, open circuit, for driving the hydraulic or electrical vibrators or for driving the track units in 2nd gear.
- A pressure-controlled hydraulic pump, open circuit, for all cylinder functions.
- Proportionally controlled hydraulic pump, closed circuit, for driving the auger conveyor or belt conveyor
- Digital control system with LCD display providing the operator with all pertinent information and allowing parameter settings, e.g. free choice of languages (D / GB / F / E / NL), to be made via a menu.
- Proportional electrohydraulic levelling and steering by means of a PLC system including two leveling sensors, two steering sensors and one slope sensor
- Sensor mounting brackets, adjustable in height and range

#### ADVANCE DRIVE

- Hydraulically driven track units, 5 ft 1 in / 1.56 m long, gear ratio 1:122, including towing device
- Continuously adjustable paving speed from 0 to 49 ft / min / 15 m / min
- Continuously adjustable transport speed from 0 to 115 ft / min / 35 m / min
- Hydraulic levelling cylinders with a stroke of 4 ft 1 in / 1.25 m

## SUSPENSION FOR MOULDS ATTACHED TO THE SIDE

- The offset paving moulds can be mounted on the left or right side of the machine

## MISCELLANEOUS

- Pre-fitting for installing the WITOS FleetView control unit
- European design type certification, EuroTest mark and CE conformity

**List price ex subsidiary Wirtgen America**

**USD 375,236.00**

### Crawler units

4. crawler unit and two pivoting front crawler attachments. The parallelogram arms make it possible to pivot each of the front track units 1 ft 10 in / 560 mm inwards each as well as 2 ft 10 in / 870 mm outwards.	<b>Standard</b>	<b>2492572</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

<b>Crawler units</b>				
Four track units fitted with polyurethane track pads	Standard	2487565	USD	0.00
<b>Machine lighting</b>				
Lighting system consisting of 4 halogen working lights 24 V for illuminating the working area. The light output is approx. 1,750 lumens per headlight. For protection against theft, installation is by plug-in tube masts on each of the track units.	Standard	2152928	USD	0.00
<b>Vibration</b>				
Hydraulic vibrator drive for up to 5 vibrators	Standard	2152471	USD	0.00
<b>Concrete compacting</b>				
Model without vibrator	Standard	2302880	USD	0.00
<b>Concrete feeding</b>				
Belt conveyor 19 ft 8 in x 2 ft, in folding design, with reversible hydraulic drive. Permits lateral turning hydraulically, setting of the pitch angle and traversing in the lengthways direction as well as the folding procedure	Standard	2153770	USD	0.00
<b>Concrete feeding</b>				
Steel chute for guiding the concrete from the conveyor/auger into the funnel of the offset molds. Attachment option both on the conveyor belt, folding conveyor belt and on the charging auger	Standard	2153567	USD	0.00
Chute consisting of a steel flange and a rubber hose extension for guiding the concrete from the conveyor/auger into the funnel of the offset molds. Attachment option both on the conveyor belt, folding conveyor belt and on the charging auger	Option	2153568	USD	434.00
<b>Mold offset</b>				
Hydraulically telescoping suspension for offset molds in one direction, stroke: 3 ft 7 in / 1.10 m	Standard	2146344	USD	0.00
Hydraulically telescoping suspension for offset molds in both directions, stroke: 3 ft 7 in / 1.10 m	Option	2148853	USD	4,736.00
Model without suspension for offset molds.	Option	2425779	USD	-12,608.00
<b>Concrete molding</b>				
Offset molds left or right, for curb edges, hard shoulders, pedestrian and cycle paths up to 2 ft wide (max. height of 1 ft 4 in). (Attention: profile to be created must be specified in form TEI #2170960.)	Standard	2144827	USD	0.00
Model without offset molds	Option	2094303	USD	-8,740.00

Equipment Options				
Chassis options				
The sliding piece mounted between the chassis and front crawler unit connection makes it possible to move the front track units sideways by 1.40 m in relation to the machine chassis. It is used for stabilizing the machine in large offset applications.	Option	2163878	USD	15,078.00
Chassis options				
Frame extension elements for the two rear track units, required to be able to mount molds between 8 ft 2 in / 2.50 m and 11 ft 6 in / 3.50 m.	Option	2153632	USD	10,111.00
Frame extension elements for the two front track units, required when using molds between 8 ft 2 in / 2.50 m and 11 ft 6 in / 3.50 m in conjunction with previously laid reinforcement.	Option	2225029	USD	7,152.00
Equipment operator's platform				
Umbrella for operator's platform	Standard	2153630	USD	0.00
Lateral spreader auger				
Lateral spreading auger, length 8 ft 2 in / 2.5 m, ø 1 ft 4 in / 0.4 m, stroke 2 ft / 0.6 m, hydraulic drive, loading from right or left, recommended with crash barrier trough, necessary for crash barrier trough and trimmer insert	Option	2153642	USD	20,357.00
Trimmer equipment				
Trimmer for creating a datum surface before using offset molds. Basic width 2 ft / 0.60 m for mounting on left, material transport to the inside. Diameter 1 ft 8 in / 0.50 m, max. trim depth approx. 0.10 m with scraper. (Trimmer completely hydraulically adjustable in height through 1 ft 4 in / 0.40 m and side-to-side through 4 ft 3 in / 1.30 m.) Trimmer widening up to max. 5 ft 3 in / 1.60 m possible. For curb, curb gutter and rectangular profiles.	Option	2145133	USD	57,461.00
Trimmer for creating a datum surface before using offset molds. Basic width 2 ft / 0.60 m for mounting on right, material transport to the inside. Diameter 1 ft 8 in / 0.50 m, max. trim depth approx. 0.10 m with scraper. (Trimmer completely hydraulically adjustable in height through 1 ft 4 in / 0.40 m and side-to-side through 4 ft 3 in / 1.30 m.) Trimmer widening up to max. 5 ft 3 in / 1.60 m possible. For curb, curb gutter and rectangular profiles.	Option	2145134	USD	57,081.00
Water system				
High-pressure water cleaning system for optimum cleaning of the machine. Consisting of a hydraulically driven pump with a flow rate of 20 l/min at a pressure of 200 bar, a plastic tank with a capacity of 154 gal / 550 litres, a 49 ft 3 in / 15 m long hose and a spray gun with a handle. The water tank is located on one of the machine's front chassis columns, and includes a foldable attached ladder for filling the tank from above.	Option	2638074	USD	9,527.00

<b>Leveling</b>				
Two slab tracers for one-sided height scanning of existing reference surfaces	<b>Option</b>	<b>87923</b>	<b>USD</b>	<b>529.00</b>
Third height and steering sensor for tight radii, incl. suspension and changeover box	<b>Option</b>	<b>2163871</b>	<b>USD</b>	<b>5,089.00</b>
<b>Leveling</b>				
The 3D leveling pre-fitting includes the mechanical and electrical components needed to use a 3D leveling system. Please specify 3D system manufacturer. (Price without startup on the construction site).	<b>Option</b>	<b>2144823</b>	<b>USD</b>	<b>12,391.00</b>
<b>Wirtgen AutoPilot</b>				
AutoPilot 2.0 is a satellite-based navigation system for offset applications. It controls the steering, height and lateral tilt of the machine fully automatically and allows concrete profiles to be paved without stringlines. It does not require a digital terrain model to be created in advance, but is rather created by the user directly on the construction site using the corresponding rover, taking into account constraint points such as water inlets, hydrants, etc. The rover is an intelligent surveying tool that can record, save and edit position data. The objects created are stored on the corresponding tablet computer, which is then mounted on the machine without any further data transmission and provides the machine with the control data. The system is operated in combination with a laser receiver, an ultrasonic sensor, a slab tracer or a total station (tachymeter) for precise height control. Radio frequency: 902 - 928 MHz (e.g. for USA). Note that application with reduced satellite reception (e.g. in tree-lined avenues, inner-city areas or tunnel constructions) is only possible with limitations.	<b>Option</b>	<b>2618727</b>	<b>USD</b>	<b>65,061.00</b>
<b>Wirtgen AutoPilot</b>				
Self-leveling rotation laser. Wavelength 635 nm (invisible) with 10 rotations per second (for use in combination with a laser receiver).	<b>Option</b>	<b>2201314</b>	<b>USD</b>	<b>5,551.00</b>
Proportional laser receiver for use in combination with a rotation laser with 468.4 ft pds / 635 nm and at least 10 rotations/second. Measuring range 24 in / 60 cm. Receiver including terminals for connecting to the sensor holder of the AutoPilot. The measuring radius of the laser to laser receiver combination is approx. 328 ft 1 in / 100 m.	<b>Option</b>	<b>2201316</b>	<b>USD</b>	<b>10,314.00</b>
Ultrasonic sensor for proximity-type scanning on a homogeneous sub-base. The sensor has 6 individual transponders which perform automatic temperature compensation and averaging for scanning uneven ground or detecting obstacles. The minimum distance from the sub-base is 8 in / 0.20 m, the maximum distance is 3 ft 3 in / 1.00 m.	<b>Option</b>	<b>2201318</b>	<b>USD</b>	<b>4,356.00</b>

Expansion to the elevation control options of the AutoPilot 2.0 with the total station Leica iCON robot 50 – The fully automatic and intuitively operated total station for maximum flexibility with maximum accuracy (0.04 in / 1 mm). The vertically unlimited measuring range has a radius of 656 ft 2 in / 200 m for concrete paving without interruption. The equipment allows precise on-site operation even under difficult weather conditions. Contains the Leica total station incl. tripod, battery and charger, radio transmitter, radio receiver, stand and a 360 degree prism.	Option	2655154	USD	38,624.00
Additional tablet computer used to create the digital stringline and to inspect the objects that have already been concreted. The tablet can also be used as a replacement for the machine. Including all necessary equipment and a robust splash-proof case to safely store the materials.	Option	2657472	USD	7,546.00
<b>Concrete molding</b>				
Paving mold series 1200i without central crown, basic width 3.0 ft consisting of: Vibrator mount, forming sole with "edge slump control" (ESC). Working widths up to 12 ft are possible using optional expansion pieces.	Option	2372368	USD	30,400.00
<b>Concrete molding</b>				
Paving mold series 1200i - extension element 1.0 ft wide	Option	2372017	USD	3,691.00
Paving mold series 1200i - extension element 1.5 ft wide	Option	2372018	USD	4,166.00
Paving mold series 1200i - extension element 2.0 ft wide	Option	2372019	USD	4,546.00
Paving mold series 1200i - extension element 3.0 ft wide	Option	2425755	USD	5,401.00
Configuration with suspension for paving mold with a working width of more than 6.0 ft.	Option	2372475	USD	3,244.00
<b>Spreading auger</b>				
Spreading auger - without central crown, basic width 1.83 m / 6 ft, hydraulic drive with reversible sense of rotation, ø 400 mm / 15 3/4 in - in conjunction with molds with 1.83 m / 6 ft width (basic molds + extension elements). Recommended with concrete placed in advance.	Option	2226583	USD	20,398.00
<b>Extensions for spreader auger</b>				
Spreading auger - extension element 1.00 ft, right-hand pitch	Option	2226586	USD	1,113.00
Spreading auger - extension element 1.50 ft, right-hand pitch	Option	2233461	USD	1,479.00
Spreading auger - extension element 2.00 ft, right-hand pitch	Option	2226587	USD	1,601.00
Spreading auger - extension element 3.00 ft, right-hand pitch	Option	2425757	USD	1,886.00

<b>Metering gates</b>				
Metering gate for molds 3.00 ft. The metering gate regulates the concrete level in the compaction compartment.	Option	2229398	USD	1,696.00
<b>Additional vibrator drives</b>				
Extension of the hydraulic vibrator drive by another max. 5 pcs. vibrators to a total of 10 hydraulic vibrator drives. The frequency of each vibrator can be adjusted separately.	Option	2152473	USD	3,162.00
<b>Additional vibrators</b>				
Hydraulic vibrator, straight	Option	75721	USD	1,294.00
Hydraulic vibrator, bent	Option	75722	USD	1,294.00
<b>Grout box auger USA</b>				
Grout box auger basic width 6 ft for use without central crown, incl. one hydraulic drive. For distributing the sludge within the compaction compartment. Supplied expansion pieces allow the working width to be reduced to 5 ft. Working widths up to 12 ft are possible using optional expansion pieces.	Option	2372038	USD	9,676.00
<b>Tamper USA</b>				
Tamper bar basic width 6 ft for use without central crown, incl. one hydraulic drive. For optimally incorporating the coarser components under the surface of the concrete. Working widths up to 12 ft are possible using optional expansion pieces. No reinstallation on working widths less than 6ft.	Option	2372031	USD	4,506.00
<b>Super smoother</b>				
Super smoother - basic width 2.00 m / 6.0 ft with controllable hydraulic drive, smoother length 3.00 m / 10 ft. Working widths up to 3.50 m / 12 ft are possible using optional expansion pieces.	Option	2215757	USD	37,036.00
<b>Offset molds</b>				
Offset molds left or right, for curb edges, hard shoulders, pedestrian and cycle paths up to 2 ft wide (max. height of 1 ft 4 in). (Attention: profile to be created must be specified in form TEI #2170960.)	Option	2144827	USD	8,754.00
<b>Mold offset</b>				
Hydraulically operated quick-change system for connecting an EV offset mold to the machine.	Option	2191407	USD	4,343.00
<b>Sideplates for offset moulds</b>				
One set of hydraulic components for adjusting the side plates of an EV offset mold	Option	2134795	USD	5,225.00
<b>Stringline tensioning system</b>				
Stringline tensioning system consisting of 3280 ft 10 in wire rope, 1x tensioning winch, 200 steel pins with leveling wire suspension, adjustable in height and range	Option	55987	USD	3,990.00
Second tensioning winch for leveling the machine using two steel wire ropes	Option	79802	USD	882.00

Stringline tensioning system consisting of 4 x 984 ft / 4 x 300 m nylon rope, 4x tensioning winches, 200 posts, 200 rods, 200 clamps	Option	2153800	USD	6,148.00
Fibreglass rod as stringline replacement on corners with different radii, consisting of 196 ft 10 in fiberglass rod in 6 ft 7 in pieces, 50 clips for rod mounting and 15 connection pieces	Option	2153801	USD	1,411.00
<b>Export packaging</b>				
Export packaging	Option	2163870	USD	3,013.00
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	Option		USD	81.00

<sup>1</sup>Option must be ordered from headquarters.

Date: 3/6/2019

## Price list

# SW 16 MC (3 axle)

### Scope of supply – basic machine

- Container with a capacity of 565 ft<sup>3</sup> / 16 m<sup>3</sup>, internal stiffeners and lockable side doors
- Volumetric dosing, fully automatic and independent of the transport speed
- Pneumatic filling devices on both container sides with connection coupling, shut-off cock and ventilation valve
- Large ventilation pipe
- Display for "Container full" and "empty" by a visual signal
- Sensor-controlled chain conveyor made of drop-forged chain links and transport strips, 3 ft 1 in / 950 mm wide
- Hydraulic shut-off valve for sealing the container when filling, controlled by on-board electronics
- Filling chute with 2 integrated horizontal augers that are controlled automatically by a sensor
- On-board computer consisting of a programmable logic controller and a control terminal in the cab with color display. This unit permits exact output of the preselected spreading quantity in kg/m<sup>2</sup>, even at different transport speeds
- Closed on-board hydraulic with integrated hydraulic oil cooling
- Auxiliary frame produced especially for the particular carrier vehicle
- Safety acceptance by the employers' professional liability insurance association
- Collecting trough and suspended weigher for checking the weights
- Technical documentation, 2 copies on paper and on USB stick

List price ex subsidiary Wirtgen America

USD 150,643.00

Mandatory Options				
Chassis variants				
Binder spreading superstructure without carrier vehicle. Customer provides a suitable carrier vehicle. Attention: The customer must fill in the Streumaster "Truck specifications" form and submit it with the order confirmation. The superstructure is delivered without rear lighting equipment and reversing alert if they are not originally present on the truck. (S032794)	Standard	2350866	USD	0.00
Crawler units				
Front axle tyres 315/80 R22.5. Rear axle tyres 385/65 R22.5 (S041149)	Standard	2542312	USD	0.00
Installation				
Final assembly is carried out by the customer independently. The spreading tank is connected by the customer to the pre-existing or additionally ordered carrier vehicle. (S036175)	Standard	2418563	USD	0.00
Installation in the factory Streumaster (S015736)	Option	2078237	USD	8,374.00
Paint				
Standard paint: Container in cream (RAL 9001), lower part of the machine and spreading mechanism in slate grey (RAL 7015). (S015771)	Standard	2078241	USD	0.00
Single-color special paint. Cream color is replaced by a special color (RAL acc. to customer request). (S015772)	Option	2078243	USD	3,936.00
Warranty				
Standard warranty 12 months or 1000 operational hours. (S032834)	Standard	2352900	USD	0.00
On-board hydraulics drive				
Drive of the entire spreader hydraulics driven by hydraulic pump via the auxiliary drive of the carrier vehicle (800- 2,500 1/min) (S032772)	Standard	2349726	USD	0.00
Auxiliary diesel engine 12 volts. Use of the auxiliary diesel engine means the spreader operates fully independently of the carrier or towing vehicle. The engine has a power of 48.6 kW at 2,700 r.p.m. It includes an enclosure and comes with a hydraulic pump for operating the on-board hydraulic system on the spreader device. Includes brackets, holding devices, a diesel tank and a complete installation on the spreading grit container. Emission level EU Stage 3b / US Tier 4f. Country-specific specifications are to be taken into account. (S047244)	Option	2671245	USD	35,150.00

<b>Road traffic registration</b>				
Machine not authorised for public roads - the binder spreader is not authorised for driving on public roads. The vehicle is not allowed to be driven to or from the field under its own power. (S032775)	Standard	2349729	USD	0.00
<b>Binder filling</b>				
The pneumatic filling device size R 3" is used for filling the binder spreader. It is supplied with connection coupling, shut-off valve, stone screen and ventilation valve. (S025180)	Standard	2230267	USD	0.00
The high-speed filling device size R 4" is used for faster filling of the binder container. It is supplied with a connector coupling, shut-off valve, stone screen, ventilation valve and R3" adapter (only supplied with Guillemín or Storz couplings). (S025145)	Option	2290094	USD	2,836.00
The filling device size R 5" is used for faster filling of the binder container. It is supplied with connection coupling, shut-off valve, ventilation valve. (S037287)	Option	2489219	USD	3,257.00
<b>Binder distribution</b>				
Double-sided hydraulic chain conveyor drive for reliable and economical operation (S030072)	Standard	2293650	USD	0.00
<b>Binder spreader</b>				
Equipment of the machine with a universal spreading mechanism type DN 230-10 for soil stabilization or cold recycling - working width 7 ft 9 in / 2.36 m. The spreading material is output using a flexible rotary valve (10 cells). The metering feeders are self-cleaning. The working width is divided into three power-switchable subsections from 2 ft 8 in to 7 ft 9 in / 0.82 to 2.36 m. The output quantity at a transport speed of 1.2 mph / 2 km/h is approx. 0.6 lb/ft² to 8.6 lb/ft² / 3 to 42 kg/m² (assuming a bulk weight of 8.3 lbs per gal / 1.00 kg per liter). (S032798)	Standard	2351768	USD	0.00
<b>Equipment Options</b>				
<b>Exhaust air filter</b>				
The hose filter minimizes dust pollution when filling the container. The hose filter including connection hose to the connection port is supplied with bleeding and filter connection port as well as a blow-off flap on the container. (S027925)	Option	2260768	USD	2,850.00

The dust separation filter is used for filtering the waste air and reducing dust levels during the filling procedure. It consists of 6 filter elements for an air flow rate of 20,400 m³/h / 720,419 cu ft/h in total, an automatic purification system with electromagnetic control as well as a lockable, folding cover panel. - The compressed air supply must be from the carrier or towing vehicle - (S018949)	Option	2201451	USD	6,989.00
Dust collection system with compressor for filtering the waste air and reducing dust levels during the filling process. The system consists of 6 filter elements for a total air flow rate of 20,400 m³/h , an automatic purification system with electromagnetic control as well as a lockable, folding cover panel. - Compressed air is supplied via a separate compressor mounted on the binder spreader (HK450) (S041150)	Option	2542341	USD	16,204.00
<b>Machine lighting</b>				
Working headlights with LED technology (4 pcs.) for illuminating the complete working area. All headlights are switched using the control terminal in the cab of the carrier or tractor vehicle. 2 headlights are mounted on the rear wall of the container and 1 headlight each on the right and left sides of the container. (S018581)	Option	2173033	USD	2,253.00
<b>Printer</b>				
The needle printer is used for printing out all important working values. The data can be printed conveniently at adjustable intervals. (S015755)	Option	2078248	USD	1,276.00
<b>Camera system</b>				
The monitor system mounted on the rear of the vehicle is used for monitoring the working area at the rear. The pictures from the camera are displayed on a separate 7-inch color monitor in the cab. (S015819)	Option	2125804	USD	3,501.00

<b>Weighing system</b>				
Equipment of the machine with the active weighing device "Weightronic". For highly precise application of binder. Consisting of 4 weighing cells mounted between the frame and the binder container. The required spreading quantity is set using a separate control display. With the Weightronic, there is a continuous comparison between the actual and nominal values during spreading. Subsequent control of the spreading quantity is performed continuously and fully automatically. This means incorrect operation is almost excluded. (S032780)	Option	2349725	USD	16,041.00
<b>Compressed air system</b>				
High-performance air compressor (8,000 liters/minute / 2113 gal/minute at max. 2 bar) incl. 15-meter / 50 ft high-pressure hose, hose roller and compressed air lance. For filling the binder spreader from an upright silo without its own compressor system, or for cleaning purposes. Drive via the machine hydraulics of the binder spreader. Not in conjunction with water misting system and compressor HK450. (S036499)	Option	2418729	USD	25,256.00
<b>Other devices</b>				
Side underbody guard on both sides with fastening components for the truck. This is required, for example, for the authorization for driving on public roads. (S015793)	Option	2078255	USD	2,009.00
Long fenders for tandem axle with fixation parts. These are required, for example, for the authorization for driving on public roads. The wheel cover is also used as splash protection for the machine (S015794)	Option	2078256	USD	3,203.00
<b>Other devices</b>				
The storage compartments on the side with 2 lockable sheet metal doors on each side of the container offer enough room for carrying tools and implements for daily on-site operation securely and close to hand on the binder spreader. Gas springs support the opening and closing of the doors. (S015820)	Option	2125805	USD	9,446.00
<b>Vehicles and auxiliary equipment</b>				
Filling chute for binder spreader device in truck with frame overhang (at least 1500 mm / 59 in). Truck must be equipped with trailer coupling, compressed air lines and electrical power cables with a 24 volt, 7-pin socket. Only in conjunction with DN230 (S039159)	Option	2485557	USD	1,954.00
Hydraulic connections on the frame extension for operating the drive-up ramps of a low-loader, incorporated in the hydraulic system of the spreading. - Only possible with truck frame extension - (S015822)	Option	2089912	USD	1,113.00
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	Option		USD	81.00
Date: 3/6/2019				

## Price list

### SW 16 TC

#### Scope of supply – basic machine

- High-performance binder spreader for soil stabilization and cold recycling as a trailer with tandem axle
- Volumetric dosing, fully automatic and independent of the transport speed
- Container with a capacity 18 m<sup>3</sup>, internal stiffeners and lockable side doors
- Pneumatic filling devices on both container sides with connection coupling, shut-off cock and ventilation valve
- Large ventilation pipe
- Display for "Container full" and "empty" by a visual signal
- Sensor-controlled chain conveyor made of drop-forged chain links and transport strips, 3 ft 1 in / 950 mm wide
- Hydraulic shut-off valve for sealing the container when filling, controlled by on-board electronics
- Filling chute with 2 integrated horizontal augers that are controlled automatically by a sensor
- On-board computer consisting of a programmable logic controller and a control terminal in the cab with color display. This unit permits exact output of the preselected spreading quantity in kg/m<sup>2</sup>, even at different transport speeds
- Closed on-board hydraulic with integrated hydraulic oil cooling
- Tandem-axle chassis with spring-loaded drawbar
- Manual parking brake
- Hydraulic support foot with hand pump
- Safety acceptance by the employers' professional liability insurance association
- Collecting trough and suspended weigher for checking the weights
- Technical documentation, 2 copies on paper and on USB stick

List price ex subsidiary Wirtgen America

USD 227,525.00

Mandatory Options				
Paint				
Standard paint: Container in cream (RAL 9001), lower part of the machine and spreading mechanism in slate grey (RAL 7015). (S015771)	Standard	2078241	USD	0.00
Single-color special paint. Cream color is replaced by a special color (RAL acc. to customer request). (S015772)	Option	2078243	USD	3,936.00
Warranty				
Standard warranty 12 months or 1000 operational hours. (S032834)	Standard	2352900	USD	0.00
On-board hydraulics drive				
Drive of the complete spreading hydraulics driven by hydraulic pump via the power take-off shaft of the tractor vehicle (1000 r.p.m.) (S036174)	Standard	2418567	USD	0.00
Auxiliary diesel engine 12 volts. Use of the auxiliary diesel engine means the spreader operates fully independently of the carrier or towing vehicle. The engine has a power of 48.6 kW at 2,700 r.p.m. It includes an enclosure and comes with a hydraulic pump for operating the on-board hydraulic system on the spreader device. Includes brackets, holding devices, a diesel tank and a complete installation on the spreading grit container. Emission level EU Stage 3b / US Tier 4f. Country-specific specifications are to be taken into account. (S047244)	Option	2671245	USD	35,150.00
Drive adaptations				
The wide-angle cardan shaft is used for spreading drive and is provided for a 1-3/8", 6-spline connection to the traction vehicle (truck). It offers good mobility for cornering, a high transmission power and economy during everyday use. (S015795)	Standard	2078771	USD	0.00
The wide-angle cardan shaft is used for spreader drive and is provided for a 1-3/4", 6-spline connection to the traction vehicle (truck). It offers good mobility for cornering, a high transmission power and economy during everyday use. (S015796)	Option	2078772	USD	190.00
The wide-angle cardan shaft is used for spreader drive and is provided for a 1-3/4", 20-spline connection to the traction vehicle (truck). It offers good mobility for cornering, a high transmission power and economy during everyday use. (S015797)	Option	2078773	USD	190.00
Trailer drawbar				
Low-mounting towing device (Hitch type) with drawbar eye 50 mm diameter. The low mounting offers a higher vertical load, better traction and driving stability. (S015784)	Standard	2078761	USD	0.00
Low-mounting towing device (Hitch type) with hitch ball towing system K 80 (diameter 3 in / 80 mm). The low mounting offers a higher vertical load, better traction and driving stability. (S015786)	Option	2094658	USD	556.00

<b>Road traffic registration</b>				
Machine not authorised for public roads - the binder spreader is not authorised for driving on public roads. The vehicle is not allowed to be driven to or from the field under its own power. (S032775)	Standard	2349729	USD	0.00
The data confirmation can be used as a basis for road approval in the corresponding country of use. (S047245)	Option	2670902	USD	1,126.00
<b>Brake system</b>				
Hydraulic brake system - If you are considering use on the public roads, please bear in mind the road traffic registration regulations in the country where the machine will be used when you select the brake system. (S015782)	Standard	2078886	USD	0.00
Compressed air dual-circuit brake system with manual controller - If you are considering use on the public roads, please bear in mind the road traffic registration regulations in the country where the machine will be used when you select the brake system. (S015783)	Option	2078887	USD	2,348.00
Combination brake system comprising a hydraulic brake and a compressed air brake. For maximum flexibility in selecting the tractor vehicle. - If you are considering use on the public roads, please bear in mind the road traffic registration regulations in the country where the machine will be used when you select the brake system. (S034601)	Option	2418562	USD	7,152.00
<b>Crawler units</b>				
Low-pressure tyres 700/50-26.5 with an outside diameter of 1,350 mm. The total width of the spreader is 2,760 mm. (S018096)	Standard	2671170	USD	0.00
Low-pressure tyres 800/40-26.5 with an outside diameter of 1,350 mm. The wide ground contact area of the tyres makes them ideal for difficult ground. The total width of the spreader is 2,960 mm. (S015792)	Option	2078889	USD	2,239.00
<b>Binder filling</b>				
The high-speed filling device size R 4" is used for faster filling of the binder container. It is supplied with a connector coupling, shut-off valve, stone screen, ventilation valve and R3" adapter (only supplied with Guillemin or Storz couplings). (S025145)	Standard	2290094	USD	0.00
The filling device size R 5" is used for faster filling of the binder container. It is supplied with connection coupling, shut-off valve, ventilation valve. (S037287)	Option	2489219	USD	3,257.00
<b>Binder distribution</b>				
Double-sided hydraulic chain conveyor drive for reliable and economical operation (S030072)	Standard	2293650	USD	0.00
The OptiPower chain conveyor drive is ideal for heavy binders. Two variable hydraulic motors and planetary gearboxes achieve an increased level of traction and a high conveying rate during binder transport. (S028086)	Option	2293651	USD	8,048.00

<b>Binder spreader</b>				
Equipment of the machine with a universal spreading mechanism type DN 230-10 for soil stabilization or cold recycling - working width 7 ft 9 in / 2.36 m. The spreading material is output using a flexible rotary valve (10 cells). The metering feeders are self-cleaning. The working width is divided into three power-switchable subsections from 2 ft 8 in to 7 ft 9 in / 0.82 to 2.36 m. The output quantity at a transport speed of 1.2 mph / 2 km/h is approx. 0.6 lb/ft² to 8.6 lb/ft² / 3 to 42 kg/m² (assuming a bulk weight of 8.3 lbs per gal / 1.00 kg per liter). (S032798)	Standard	2351768	USD	0.00
<b>Additional devices</b>				
The vehicle is delivered without fenders. Please note that fenders must be fitted if an approval for driving on public roads is planned. (S047241)	Standard	2671293	USD	0.00
Long fenders for tandem axle with fixation parts. These are required, for example, for the authorization for driving on public roads. The wheel cover is also used as splash protection for the machine (S015794)	Option	2078256	USD	3,203.00
<b>Equipment Options</b>				
<b>Exhaust air filter</b>				
Dust collection system with compressor for filtering the waste air and reducing dust levels during the filling process. The system consists of 6 filter elements for a total air flow rate of 20,400 m³/h , an automatic purification system with electromagnetic control as well as a lockable, folding cover panel. - Compressed air is supplied via a separate compressor mounted on the binder spreader (HK450) (S041150)	Standard	2542341	USD	0.00
<b>Machine lighting</b>				
Working headlights with LED technology (4 pcs.) for illuminating the complete working area. All headlights are switched using the control terminal in the cab of the carrier or tractor vehicle. 2 headlights are mounted on the rear wall of the container and 1 headlight each on the right and left sides of the container. (S018581)	Standard	2173033	USD	0.00

<b>Printer</b>				
The needle printer is used for printing out all important working values. The data can be printed conveniently at adjustable intervals. (S015755)	Option	2078248	USD	1,276.00
<b>Camera system</b>				
The monitor system mounted on the rear of the vehicle is used for monitoring the working area at the rear. The pictures from the camera are displayed on a separate 7-inch color monitor in the cab. (S015819)	Option	2125804	USD	3,501.00
<b>Weighing system</b>				
Equipment of the machine with the active weighing device "Weightronic". For highly precise application of binder. Consisting of 4 weighing cells mounted between the frame and the binder container. The required spreading quantity is set using a separate control display. With the Weightronic, there is a continuous comparison between the actual and nominal values during spreading. Subsequent control of the spreading quantity is performed continuously and fully automatically. This means incorrect operation is almost excluded. (S032780)	Standard	2349725	USD	0.00
<b>Compressed air system</b>				
High-performance air compressor (8,000 liters/minute / 2113 gal/minute at max. 2 bar) incl. 15-meter / 50 ft high-pressure hose, hose roller and compressed air lance. For filling the binder spreader from an upright silo without its own compressor system, or for cleaning purposes. Drive via the machine hydraulics of the binder spreader. Not in conjunction with water misting system and compressor HK450. (S036499)	Option	2418729	USD	25,256.00
<b>Other devices</b>				
The storage compartments on the side with 3 lockable sheet metal doors on each side of the container offer enough room for carrying tools and implements for daily on-site operation securely and close to hand on the binder spreader. Gas springs support the opening and closing of the doors. (S015821)	Standard	2125806	USD	0.00
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	Option		USD	68.00

<sup>1</sup>Option must be ordered from headquarters.

Date: 3/6/2019

## Price list

### W 100 Xfi - FCS

#### Scope of supply – basic machine

- Engine: 6-CYLINDER DIESEL ENGINE TYPE CUMMINS QSL9 C-300
- Rated engine power 2100 r.p.m.: 248 kW / 333 HP / 337 PS
- Maximum power at 1900 r.p.m.: 257 kW / 345 HP / 350 PS
- Exhaust standard: US Tier 4f
- Standard milling width: 3 ft 3 in / 1000 mm
- Theoretical milling depth: 1 ft 1 in / 330 mm

#### STANDARD EQUIPMENT

- Basic machine with engine
- Mechanically opening engine cowling with noise insulation
- Radiator with temperature-dependent fan speed
- Highly effective noise insulation throughout the engine compartment
- Automatic engine speed control depending on driving situation
- Elastically mounted engine station with low vibration and low noise

#### MILLING DRUM HOUSING

- The right side of the milling drum housing can easily be folded down for maintenance or milling drum change
- Hydraulically operated scraper with mechanical locking

#### LOADING OF MILLED MATERIAL

- Discharge conveyor slewing angle left 60 degrees – right 60 degrees
- Two slewing speeds on the hydraulically foldable discharge conveyor with an adjustable conveying speed for precise loading

#### MACHINE CONTROL AND LEVELLING SYSTEM

- Digital milling depth indicator in the machine control display
- LEVEL PRO PLUS leveling system right and left
- RAPID SLOPE cross-slope sensor for LEVEL PRO ACTIVE leveling system
- Precise machine height adjustment in 1 or 5 mm steps on the main control panel of the machine
- Digital load control, manual engageable, hydraulic differential lock (by flow distributor)

#### OPERATOR'S PLATFORM

- Hydraulically extending operator's platform for optimum visibility of the working area
- Steering console with adjustable rake and reach for ideal adaptation of the operator's platform to the operator
- Slender machine design permits unobstructed view of the milled edge as well as the working area in front of the milling drum on the right

- Conveniently accessible ladder/footstep to the operator's platform with night-time lighting and especially low bottom edge of the latter/footstep
- Robust anti-vandalism protection for the controls
- Mirror package comprising rear-view mirrors at front left and right as well as a forward-pointing mirror at the left of the operator's platform
- Reversing horn with clear audible signal
- Illuminated control panel / nighttime design
- Scraper height is shown on the display

#### CHASSIS AND HEIGHT ADJUSTMENT

- Hydraulic height adjustment of the front and rear track units at two speeds

#### MISCELLANEOUS

- Large tool package
- Device for towing away
- Generously sized water and diesel tanks
- Extensive safety package with several EMERGENCY STOP switches
- Pre-fitting for installing the WITOS FleetView control unit
- European design type certification, EuroTest mark and CE conformity

<b>List price ex subsidiary Wirtgen America</b>	<b>USD</b>	<b>581,861.00</b>
---	------------	-------------------

#### Mandatory Options

##### Exhaust Gas After Treatment

Exhaust after-treatment by diesel oxidation catalytic converter DOC in exhaust emissions category EU Stage 4 / US Tier 4f. Without diesel particulate filter.	<b>Standard</b>	<b>2490138</b>	<b>USD</b>	<b>0.00</b>
Exhaust after-treatment by diesel oxidation catalyst DOC in exhaust emissions category EU Stage 4 / US Tier 4f. Additionally equipped with diesel particulate filter (DPF) for operation e.g. in halls or in environmental zones with limited fine dust emission.	<b>Option</b>	<b>2490139</b>	<b>USD</b>	<b>13,504.00</b>

##### Crawler units

Configuration with 4 driven track units. The two front track units are steered. The track unit at the rear right is hydraulically slewing and also steers. Traveling speed max. 3.6 mph / 5.8 km/h.	<b>Standard</b>	<b>2777141</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

<b>Milling drum housing</b>				
Wear-resistant milling drum housing FB1000 (3 ft 3 in) FCS with pre-fitting enabling a quick and easy change of the milling drums with varying spacings and milling widths, without milling drum.	Standard	2336166	USD	0.00
<b>Milling drums / milling units</b>				
FCS milling drum with milling width 1000 mm / 3 ft 3 in, tool spacing 15 mm / 19/32 in, equipped with quick-change toolholder system HT22 and 99 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.	Standard	2308062	USD	0.00
<b>OPERATOR'S PLATFORM</b>				
Standard operator's seat with shock absorption and lengthways adjustment	Standard	2412488	USD	0.00
<b>Hydraulic connection</b>				
Machine with hydraulic pre-fitting for a discharge conveyor with screw coupling. Each contains the coupling element on the machine side and the discharge conveyor side.	Standard	2412477	USD	0.00
<b>Material transport</b>				
Discharge conveyor 26 ft 9 in / 8,150 mm long with conveyor belt width 2 ft / 600 mm and hydraulic folding device for shortening the transport length or simplified maneuvering in narrow fields.	Standard	2336175	USD	0.00
<b>Paint</b>				
Painting in cream RAL 9001 with orange stripes. The complete lower part of the machine is painted in slate grey RAL 7015.	Standard	2336172	USD	0.00
Monocolor special painting. Cream white color is replaced by a special color (RAL according to customer). The complete lower part of the machine is painted in slate grey RAL 7015.	Option	2335240	USD	1,561.00
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	Standard	2456347	USD	0.00
<b>Service documentation</b>				
Spare part and application documentation English (EN)	Standard	2456404	USD	0.00
<b>Warranty</b>				
Standard warranty 12 months or 1000 engine operational hours	Standard	100772	USD	0.00

<b>Telematics</b>				
WITOS FleetView includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	Standard	2483436	USD	0.00
<b>Machine lighting</b>				
Lighting system consisting of 4 halogen and 8 LED working lights. The headlights illuminate the area in front of the machine, both machine sides, the area in front of the milling drum unit, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 19,500 lumen in total.	Standard	2487614	USD	0.00
High-performance lighting system consisting of 1 halogen and 14 LED working lights. The headlights illuminate the area in front of and behind the machine, both machine sides, the area in front of the milling drum unit, the loading area, the weather canopy, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 26,300 lumen in total. LED working lights are extremely bright, shock-resistant and durable.	Option	2487615	USD	936.00
<b>Equipment Options</b>				
<b>Exhaust air filter</b>				
VCS - Vacuum Cutting System on the discharge conveyor, for extraction of fine material particles and water vapor from the sealed milling unit.	Option	2336913	USD	8,251.00
<b>Advance drive</b>				
Equipment of the machine with precision steering. Pushbuttons on the multi-function armrests with a proportional response permit more precise steering of the machine.	Standard	2478488	USD	0.00
<b>Equipment operator's platform</b>				
Operator's platform with weather canopy. The weather canopy is hydraulically adjustable in height and provides additional comfort during on-site operation. Including LED working light for illuminating the footstep. (Only in conjunction with electrohydraulic unit.)	Option	2336173	USD	8,156.00

<b>Milling drum assembly options</b>				
Overload sensor on the scraper FB1000 for automatic lifting function in case of obstacles. Effectively prevents the scraper from sinking into the loose sub-base, as well as getting stuck on obstacles.	Option	2478485	USD	2,701.00
Active floating position on the side plate right and left by continuous comparison between the milling depth and position of the side plate. If required, the side plate is lifted briefly to prevent tilting or sinking into a soft sub-base. (Only possible in conjunction with LEVEL PRO PLUS.)	Standard	2478486	USD	0.00
<b>Side milling ring</b>				
Pre-fitting for using a deep milling unit, including all necessary electro, hydraulic and water connections.	Option	2596465	USD	2,076.00
<b>Device for milling drum change</b>				
Milling drum assembly trolley for milling drums up to FB1300 (4 ft 3 in), for straightforward milling drum change	Option	105240	USD	2,633.00
<b>Additional milling units</b>				
FCS tandem scraper FB1000 (39") with necessary hydraulic and electrical systems. For the use of milling drums smaller than FB1000 (39"). The min. milling width for material loading onto the loading belt is FB600 (24")	Standard	2351463	USD	0.00
FCS milling unit FB300 (12") LA15, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 61 RS picks, including scraper bottom part FB300 (12")	Option	2308611	USD	14,983.00
FCS milling unit FB600 (24") LA12, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 80 picks, including scraper bottom part FB600 (24")	Option	2308615	USD	24,225.00
<b>Cold-start device</b>				
Electrical preheating of the fuel filter for maintaining free-flow properties of the fuel at low outside temperatures. Used for ensuring operating capability at temperatures below 32 degrees Fahrenheit / 0 degrees Celsius.	Option	2377357	USD	746.00

<b>Options for belt conveyor</b>				
Signal lights on the loading conveyor for a visual truck stop-and-go control without using the horn. The signal lights can be folded in hydraulically from the operator's platform.	Option	2409818	USD	6,392.00
<b>Leveling</b>				
Expansion of the LEVEL PRO PLUS leveling system by a SONIC SKI sensor. Ideal for contact-free wire and soil scanning. Including connection cable and holder.	Option	2352878	USD	5,727.00
<b>Leveling</b>				
Expansion of the leveling system for multiplex system package 3-way right, including 2 x ultrasonic sensors, and connection cable. (FB1000/1200)	Option	2544246	USD	3,651.00
Expansion of the leveling system to make multiplex system package 3-way right and 3-way left, including 4 x ultrasonic sensors and connection cable. (FB1000/1200)	Option	2544249	USD	7,288.00
<b>Leveling</b>				
The pre-fitting 3D laser leveling includes the required mechanical and electrical components for adaptation of a 3D laser leveling system on the machine. The exact positioning and robust configuration of the sensor masts form the basis for optimum working results. The supplied connection box provides for a simple and safe connection of the 3D system, without 3D system.	Option	2544251	USD	4,479.00
Expansion leveling system with basic equipment laser leveling, including holder and laser receiver, without laser transmitter	Option	2544252	USD	15,227.00
<b>Attachments</b>				
Battery-operated electro-hydraulic unit for operation of the machine hydraulics with the diesel engine switched off. (e.g. height adjustment of weather canopy, milling drum rotation device and hydraulic pick extractor drift)	Standard	2412494	USD	0.00
<b>Water system</b>				
Hydraulically operated high-pressure water cleaner with a maximum performance of 15 l/min at 150 bar pressure. Ideal for daily cleaning of the machine.	Option	2336231	USD	3,909.00

<b>Pick changing aids</b>				
Integrated air compressor system with pressure accumulator and filling points. Precondition for operation of compressed air tools (e.g. pneumatic hammers).	Option	2353106	USD	6,216.00
Hydraulically driven pick extractor drift, complete with holder and corresponding electrical and hydraulic connectors. Ideal for convenient and quiet pick change.	Option	2352889	USD	3,461.00
Milling drum rotation device with electrohydraulic milling drum drive for slowly turning the milling drum during pick replacement.	Standard	2352893	USD	0.00
<b>Wirtgen information and diagnostic system</b>				
Equipment of the machine with job data acquisition. The information is shown in the control display.	Standard	2410294	USD	0.00
<b>Camera system</b>				
Monitor system as maneuvering aid with 2 cameras and screen. A camera is mounted on the discharge conveyor and displays the loading of the truck. The 2nd camera shows the area in front of the milling drum housing. The camera images are displayed on the screen.	Option	2487637	USD	5,496.00
<b>Other devices</b>				
License plate holder with LED lighting to comply with country-specific regulations.	Option	2659037	USD	434.00
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	Option		USD	81.00

<sup>1</sup>Option must be ordered from headquarters.

<b>Cold-start device</b>				
Electrical preheating of the fuel filter for maintaining free-flow properties of the fuel at low outside temperatures. Used for ensuring operating capability at temperatures below 32 degrees Fahrenheit / 0 degrees Celsius.	Option	2377357	USD	746.00
<b>Options for belt conveyor</b>				
Signal lights on the loading conveyor for a visual truck stop-and-go control without using the horn. The signal lights can be folded in hydraulically from the operator's platform.	Option	2409818	USD	6,392.00
<b>Leveling</b>				
Expansion of the LEVEL PRO PLUS leveling system by a SONIC SKI sensor. Ideal for contact-free wire and soil scanning. Including connection cable and holder.	Option	2352878	USD	5,727.00
<b>Leveling</b>				
Expansion of the leveling system for multiplex system package 3-way right, including 2 x ultrasonic sensors, and connection cable. (FB1000/1200)	Option	2544246	USD	3,651.00
Expansion of the leveling system to make multiplex system package 3-way right and 3-way left, including 4 x ultrasonic sensors and connection cable. (FB1000/1200)	Option	2544249	USD	7,288.00

<b>Leveling</b>				
The pre-fitting 3D laser leveling includes the required mechanical and electrical components for adaptation of a 3D laser leveling system on the machine. The exact positioning and robust configuration of the sensor masts form the basis for optimum working results. The supplied connection box provides for a simple and safe connection of the 3D system, without 3D system.	Option	2544251	USD	4,479.00
Expansion leveling system with basic equipment laser leveling, including holder and laser receiver, without laser transmitter	Option	2544252	USD	15,227.00
<b>Attachments</b>				
Battery-operated electro-hydraulic unit for operation of the machine hydraulics with the diesel engine switched off. (e.g. height adjustment of weather canopy, milling drum rotation device and hydraulic pick extractor drift)	Standard	2412494	USD	0.00
<b>Water system</b>				
Hydraulically operated high-pressure water cleaner with a maximum performance of 15 l/min at 150 bar pressure. Ideal for daily cleaning of the machine.	Option	2336231	USD	3,909.00
<b>Pick changing aids</b>				
Integrated air compressor system with pressure accumulator and filling points. Precondition for operation of compressed air tools (e.g. pneumatic hammers).	Option	2353106	USD	6,216.00
Hydraulically driven pick extractor drift, complete with holder and corresponding electrical and hydraulic connectors. Ideal for convenient and quiet pick change.	Option	2352889	USD	3,461.00
Milling drum rotation device with electrohydraulic milling drum drive for slowly turning the milling drum during pick replacement.	Standard	2352893	USD	0.00
<b>Wirtgen information and diagnostic system</b>				
Equipment of the machine with job data acquisition. The information is shown in the control display.	Standard	2410294	USD	0.00

Camera system				
Monitor system as maneuvering aid with 2 cameras and screen. A camera is mounted on the discharge conveyor and displays the loading of the truck. The 2nd camera shows the area in front of the milling drum housing. The camera images are displayed on the screen.	Option	2487637	USD	5,496.00
Other devices				
License plate holder with LED lighting to comply with country-specific regulations.	Option	2659037	USD	434.00
Documentation				
Additional set of technical documentation - North America country version (US)	Option	USD		81.00
	Option	USD		14.00
¹Option must be ordered from headquarters.

- Precise machine height adjustment in 1 or 5 mm steps on the main control panel of the machine
- Digital load control, manual engageable, hydraulic differential lock (by flow distributor)

#### OPERATOR'S PLATFORM

- Hydraulically extending operator's platform for optimum visibility of the working area
- Steering console with adjustable rake and reach for ideal adaptation of the operator's platform to the operator
- Slender machine design permits unobstructed view of the milled edge as well as the working area in front of the milling drum on the right

<ul style="list-style-type: none"> <li>• Conveniently accessible ladder/footstep to the operator's platform with night-time lighting and especially low bottom edge of the latter/footstep</li> <li>• Robust anti-vandalism protection for the controls</li> <li>• Mirror package comprising rear-view mirrors at front left and right as well as a forward-pointing mirror at the left of the operator's platform</li> <li>• Reversing horn with clear audible signal</li> <li>• Illuminated control panel / nighttime design</li> <li>• Scraper height is shown on the display</li> </ul>		
<b>CHASSIS AND HEIGHT ADJUSTMENT</b>		
<ul style="list-style-type: none"> <li>• Hydraulic height adjustment of the front and rear track units at two speeds</li> </ul>		
<b>MISCELLANEOUS</b>		
<ul style="list-style-type: none"> <li>• Large tool package</li> <li>• Device for towing away</li> <li>• Generously sized water and diesel tanks</li> <li>• Extensive safety package with several EMERGENCY STOP switches</li> <li>• Pre-fitting for installing the WITOS FleetView control unit</li> <li>• European design type certification, EuroTest mark and CE conformity</li> </ul>		
<b>List price ex subsidiary Wirtgen America</b>		<b>USD 581,861.00</b>

<b>Mandatory Options</b>				
<b>Exhaust Gas After Treatment</b>				
Exhaust after-treatment by diesel oxidation catalytic converter DOC in exhaust emissions category EU Stage 4 / US Tier 4f. Without diesel particulate filter.	<b>Standard</b>	<b>2490138</b>	<b>USD</b>	<b>0.00</b>
Exhaust after-treatment by diesel oxidation catalyst DOC in exhaust emissions category EU Stage 4 / US Tier 4f. Additionally equipped with diesel particulate filter (DPF) - for operation e.g. in halls or in environmental zones with limited fine dust emission.	<b>Option</b>	<b>2490139</b>	<b>USD</b>	<b>13,504.00</b>
<b>Crawler units</b>				
Configuration with 4 driven track units. The two front track units are steered. The crawler unit at the rear right is hydraulically slewing and also steers. Traveling speed max. 3.6 mph / 5.8 km/h.	<b>Standard</b>	<b>2490142</b>	<b>USD</b>	<b>0.00</b>
<b>Milling drum housing</b>				
Wear-resistant milling drum housing FB1000 (3 ft 3 in) FCS with pre-fitting enabling a quick and easy change of the milling drums with varying spacings and milling widths, without milling drum.	<b>Standard</b>	<b>2336166</b>	<b>USD</b>	<b>0.00</b>

<b>Milling drums / milling units</b>				
FCS milling drum with milling width 1000 mm / 3 ft / 3 in, tool spacing 15 mm / 19/32 in, equipped with quick-change toolholder system HT22 and 99 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.	Standard	2308062	USD	0.00
<b>Operator's platform</b>				
Standard operator's seat with shock absorption and lengthways adjustment	Standard	2412488	USD	0.00
<b>Hydraulic connection</b>				
Machine with hydraulic pre-fitting for a discharge conveyor with screw coupling. Each contains the coupling element on the machine side and the discharge conveyor side.	Standard	2412477	USD	0.00
<b>Material transport</b>				
Discharge conveyor 26 ft 9 in / 8,150 mm long with conveyor belt width 2 ft / 600 mm and hydraulic folding device for shortening the transport length or simplified maneuvering in narrow fields.	Standard	2336175	USD	0.00
<b>Paint</b>				
Painting in cream RAL 9001 with orange stripes. The complete lower part of the machine is painted in slate grey RAL 7015.	Standard	2336172	USD	0.00
Monocolor special painting. Cream white color is replaced by a special color (RAL according to customer). The complete lower part of the machine is painted in slate grey RAL 7015.	Option	2335240	USD	1,561.00
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	Standard	2456347	USD	0.00
<b>Service documentation</b>				
Spare part and application documentation English (EN)	Standard	2456404	USD	0.00
<b>Warranty</b>				
Standard warranty 12 months or 1000 engine operational hours	Standard	100772	USD	0.00
<b>Telematics</b>				
WITOS FleetView includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	Standard	2483436	USD	0.00

<b>Machine lighting</b>				
Lighting system consisting of 4 halogen and 8 LED working lights. The headlights illuminate the area in front of the machine, both machine sides, the area in front of the milling drum unit, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 19,500 lumen in total.	<b>Standard</b>	<b>2487614</b>	<b>USD</b>	<b>0.00</b>
High-performance lighting system consisting of 1 halogen and 14 LED working lights. The headlights illuminate the area in front of and behind the machine, both machine sides, the area in front of the milling drum unit, the loading area, the weather canopy, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 26,300 lumen in total. LED working lights are extremely bright, shock-resistant and durable.	<b>Option</b>	<b>2487615</b>	<b>USD</b>	<b>936.00</b>
<b>Equipment Options</b>				
<b>Exhaust air filter</b>				
VCS - Vacuum Cutting System on the discharge conveyor, for extraction of fine material particles and water vapor from the sealed milling unit.	<b>Option</b>	<b>2336913</b>	<b>USD</b>	<b>8,251.00</b>
<b>Advance drive</b>				
Equipment of the machine with precision steering. Pushbuttons on the multi-function armrests with a proportional response permit more precise steering of the machine.	<b>Standard</b>	<b>2478488</b>	<b>USD</b>	<b>0.00</b>
<b>Equipment operator's platform</b>				
Operator's platform with weather canopy. The weather canopy is hydraulically adjustable in height and provides additional comfort during on-site operation. Including LED working light for illuminating the footstep. (Only in conjunction with electrohydraulic unit.)	<b>Option</b>	<b>2336173</b>	<b>USD</b>	<b>8,156.00</b>
<b>Milling drum assembly options</b>				
Overload sensor on the scraper FB1000 for automatic lifting function in case of obstacles. Effectively prevents the scraper from sinking into the loose sub-base, as well as getting stuck on obstacles.	<b>Option</b>	<b>2478485</b>	<b>USD</b>	<b>2,701.00</b>
Active floating position on the side plate right and left by continuous comparison between the milling depth and position of the side plate. If required, the side plate is lifted briefly to prevent tilting or sinking into a soft sub-base. (Only possible in conjunction with LEVEL PRO PLUS.)	<b>Standard</b>	<b>2478486</b>	<b>USD</b>	<b>0.00</b>

<b>Side milling ring</b>				
Pre-fitting for using a deep milling unit, including all necessary electro, hydraulic and water connections.	Option	2596465	USD	2,076.00
<b>Device for milling drum change</b>				
Milling drum assembly trolley for milling drums up to FB1300 (4 ft 3 in), for straightforward milling drum change	Option	105240	USD	2,633.00
<b>Additional milling units</b>				
FCS tandem scraper FB1000 (39") with necessary hydraulic and electrical systems. For the use of milling drums smaller than FB1000 (39"). The min. milling width for material loading onto the loading belt is FB600 (24")	Standard	2351463	USD	0.00
FCS milling unit FB300 (12") LA15, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 61 RS picks, including scraper bottom part FB300 (12")	Option	2308611	USD	14,983.00
FCS milling unit FB600 (24") LA12, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 80 picks, including scraper bottom part FB600 (24")	Option	2308615	USD	24,225.00
<b>Cold-start device</b>				
Electric preheating of the fuel filter for maintaining free-flow properties of the fuel at low outside temperatures. Used for ensuring operating capability at temperatures below 32 degrees Fahrenheit / 0 degrees Celsius.	Option	2377357	USD	746.00
<b>Options for belt conveyor</b>				
Signal lights on the loading conveyor for a visual truck stop-and-go control without using the horn. The signal lights can be folded in hydraulically from the operator's platform.	Option	2409818	USD	6,392.00
<b>Leveling</b>				
Expansion of the LEVEL PRO PLUS leveling system by a SONIC SKI sensor. Ideal for contact-free wire and soil scanning. Including connection cable and holder.	Option	2352878	USD	5,727.00
<b>Leveling</b>				
Expansion of the leveling system for multiplex system package 3-way right, including 2 x ultrasonic sensors, and connection cable. (FB1000/1200)	Option	2544246	USD	3,651.00
Expansion of the leveling system to make multiplex system package 3-way right and 3-way left, including 4 x ultrasonic sensors and connection cable. (FB1000/1200)	Option	2544249	USD	7,288.00

<b>Leveling</b>				
The pre-fitting 3D laser leveling includes the required mechanical and electrical components for adaptation of a 3D laser leveling system on the machine. The exact positioning and robust configuration of the sensor masts form the basis for optimum working results. The supplied connection box provides for a simple and safe connection of the 3D system, without 3D system.	Option	2544251	USD	4,479.00
Expansion leveling system with basic equipment laser leveling, including holder and laser receiver, without laser transmitter	Option	2544252	USD	15,227.00
<b>Attachments</b>				
Battery-operated electro-hydraulic unit for operation of the machine hydraulics with the diesel engine switched off. (e.g. height adjustment of weather canopy, milling drum rotation device and hydraulic pick extractor drift)	Standard	2412494	USD	0.00
<b>Water system</b>				
Hydraulically operated high-pressure water cleaner with a maximum performance of 15 l/min at 150 bar pressure. Ideal for daily cleaning of the machine.	Option	2336231	USD	3,909.00
<b>Pick changing aids</b>				
Integrated air compressor system with pressure accumulator and filling points. Precondition for operation of compressed air tools (e.g. pneumatic hammers).	Option	2353106	USD	6,216.00
Hydraulically driven pick extractor drift, complete with holder and corresponding electrical and hydraulic connectors. Ideal for convenient and quiet pick change.	Option	2352889	USD	3,461.00
Milling drum rotation device with electrohydraulic milling drum drive for slowly turning the milling drum during pick replacement.	Standard	2352893	USD	0.00
<b>Wirtgen information and diagnostic system</b>				
Equipment of the machine with job data acquisition. The information is shown in the control display.	Standard	2410294	USD	0.00
<b>Camera system</b>				
Monitor system as maneuvering aid with 2 cameras and screen. A camera is mounted on the discharge conveyor and displays the loading of the truck. The 2nd camera shows the area in front of the milling drum housing. The camera images are displayed on the screen.	Option	2487637	USD	5,496.00
<b>Other devices</b>				
License plate holder with LED lighting to comply with country-specific regulations.	Option	2659037	USD	434.00
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	Option		USD	81.00
<sup>1</sup> Option must be ordered from headquarters. Date: 3/9/2019				

**Price list****W 100 Cfi - non FCS****Scope of supply – basic machine**

- Engine: 6-CYLINDER DIESEL ENGINE TYPE CUMMINS QSL9 C-300
- Rated engine power 2100 r.p.m.: 248 kW / 333 HP / 337 PS
- Maximum power at 1900 r.p.m.: 257 kW / 345 HP / 350 PS
- Exhaust standard: EU Stage 4 / US Tier 4f
- Standard milling width: 3 ft 3 in / 1000 mm
- Theoretical milling depth: 1 ft 1 in / 330 mm

**STANDARD EQUIPMENT**

- Basic machine with engine
- Mechanically opening engine cowling with noise insulation
- Radiator with temperature-dependent fan speed
- Highly effective noise insulation throughout the engine compartment
- Automatic engine speed control depending on driving situation
- Elastically mounted engine station with low vibration and low noise

**MILLING DRUM HOUSING**

- The right side of the milling drum housing can easily be folded down for maintenance or milling drum change
- Hydraulically operated scraper with mechanical locking

**LOADING OF MILLED MATERIAL**

- Discharge conveyor slewing angle left 60 degrees – right 60 degrees
- Two slewing speeds on the hydraulically foldable discharge conveyor with an adjustable conveying speed for precise loading

**MACHINE CONTROL AND LEVELLING SYSTEM**

- Digital milling depth indicator in the machine control display
- LEVEL PRO PLUS leveling system right and left
- RAPID SLOPE cross-slope sensor for LEVEL PRO ACTIVE leveling system
- Precise machine height adjustment in 1 or 5 mm steps on the main control panel of the machine
- Digital load control, manual engageable, hydraulic differential lock (by flow distributor)

#### **OPERATOR'S PLATFORM**

- Hydraulically extending operator's platform for optimum visibility of the working area
- Steering console with adjustable rake and reach for ideal adaptation of the operator's platform to the operator
- Slender machine design permits unobstructed view of the milled edge as well as the working area in front of the milling drum on the right
- Conveniently accessible ladder/footstep to the operator's platform with night-time lighting and especially low bottom edge of the latter/footstep
- Robust anti-vandalism protection for the controls
- Mirror package comprising rear-view mirrors at front left and right as well as a forward-pointing mirror at the left of the operator's platform
- Reversing horn with clear audible signal
- Illuminated control panel / nighttime design
- Scraper height is shown on the display

#### **CHASSIS AND HEIGHT ADJUSTMENT**

- Hydraulic height adjustment of the front and rear track units at two speeds

#### **MISCELLANEOUS**

- Large tool package
- Device for towing away
- Generously sized water and diesel tanks
- Extensive safety package with several EMERGENCY STOP switches
- Pre-fitting for installing the WITOS FleetView control unit
- European design type certification, EuroTest mark and CE conformity

**List price ex subsidiary Wirtgen America**

<sup>1</sup> Option must be ordered from headquarters. Date: 3/9/2019				

## Price list

## W 100 Ri

### Scope of supply – basic machine

- Engine: 6-CYLINDER DIESEL ENGINE TYPEDEUTZ TCD 6.1 L6 AG 4f
- Rated engine power 2300 r.p.m.: 160 kW / 214.6 HP / 217.5 PS
- Exhaust standard: EU Stage 4 / US Tier 4f
- Standard milling width: 3 ft 3 in / 1000 mm
- Theoretical milling depth: 1 ft / 300 mm

### SCOPE OF SUPPLY OF THE BASIC MACHINE

- Engine cover with noise insulation and flexibly decoupled engine mounting for especially quiet running and low noise emissions

### MILLING DRUM UNIT

- Automatically activating, hydraulic drive belt tensioner for reliable power transmission to the milling drum
- Hydraulically lifting side plate right and left
- Round milling drum housing and straight left side plate for optimum material transport, making for low left-over amounts when lifting out the milling drum
- The right side of the milling drum housing can easily be folded down for maintenance or milling drum change
- Optimized for quick change of the milling drum, including by using centering pins with the side door of the milling drum housing
- With automatic electrical safety shut-off for the milling drum

### LOADING OF MILLED MATERIAL

- Machine prepared for optional material loading by discharge conveyor
- Conveyor speed continuously variable
- Conveyor slewing angle right/left 25 degrees each for significantly improved loading procedures

### OPERATOR'S PLATFORM

- Operator's platform with ergonomically arranged operator's seat, control panel arranged on the right and digital milling depth indicator in the control display
- Steering console with adjustable rake and reach for ideal adaptation of the operator's platform to the operator
- 3 mirrors
- Machine design permits unobstructed view of the milled edge at the right and left as well as the working area in front of the milling drum on the right
- Conveniently accessible ladder/footstep to the operator's platform with night-time lighting and especially low, folding bottom edge of the latter/footstep
- Robust anti-vandalism protection for the controls

### CHASSIS AND HEIGHT ADJUSTMENT

- Precise machine height adjustment in 0.04 or 0.2 in / 1 or 5 mm steps from the machine control panel
- Infinitely variable, hydraulic all-wheel drive with three speed ranges
- Digital load control, manual engageable, hydraulic differential lock (by flow distributor)
- Wide solid rubber tires for the lowest ground pressures and optimum traction
- For milling along curb edges, the rear right support wheel can be swiveled hydraulically from the operator's platform in front of the milling drum.

- Hydraulic spring-loaded brake
- Proportional height adjustment at rear

#### **MISCELLANEOUS**

- Flexible weight concept by optional additional weights
- Particularly low machine center of gravity for high stability of the machine
- Robust and easily maintained machine chassis with optimum ground clearance and short overhangs
- Device for towing away
- Reversing horn
- Large tool package with lockable tool box and additional storage space for two pick containers
- Pre-fitting for installing the WITOS FleetView control unit
- European design type certification, EuroTest mark and CE conformity

**List price ex subsidiary Wirtgen America**

**USD 351,622.00**

Mandatory Options				
Milling drum housing				
Wear-resistant milling drum housing FB1000 (3 ft 3 in) without milling drum	Standard	2365918	USD	0.00
Wear-resistant milling drum housing FB1000 (3 ft 3 in) FCS-Light, with pre-fitting for quick and easy milling drum changes with different tool spacings while keeping the same working widths, without milling drum.	Option	2365919	USD	7,193.00
Wear-resistant milling drum housing FB600 (3 ft 3 in) FCS with pre-fitting enabling a quick and easy change of the milling drums with varying spacings and milling widths, without milling drum.	Option	2459677	USD	9,581.00
Milling drums / milling units				
Milling drum with milling width 1000 mm / (3 ft, 3 in) milling depth max. 300 mm / 1 ft, tool spacing 15 mm / 0.6 in, equipped with quick-change toolholder system HT22 and 100 picks. For a wide range of applications, e.g. removal of surface and binder layer or complete removal of road surfaces.	Standard	2311420	USD	0.00
Material depressor / milling unit seal front				
Front milling drum unit seal FB1000 (3 ft 3 in) with hydraulic height and contact pressure adjustment. An overload sensor with lifting function lifts the seal briefly in case of a collision and thus prevents damage.	Standard	2365926	USD	0.00
Operator's platform				
Standard operator's seat with shock absorption and lengthways adjustment	Standard	2365928	USD	0.00
Comfort operator's seat incl. seat heating. The operator's seat has shock absorption, lengthways adjustment and can be swiveled through 20 degrees.	Option	2365929	USD	1,031.00
Operator's platform				
Flexibly mounted operator's platform, without weather canopy.	Standard	2365930	USD	0.00
Operator's platform with weather canopy and lateral weather protection elements. The weather canopy can be adjusted in height hydraulically. The transparent weather protection elements on the side on the roof and the right of the operator's platform protect the operator against the effects of weather driving in from the sides, and ensure additional comfort when working. (FB1000)	Option	2436568	USD	8,564.00
Operator's platform with weather canopy and lateral weather protection elements. The weather canopy can be adjusted in height hydraulically. The transparent weather protection elements on the side on the roof and the right of the operator's platform protect the operator against the effects of weather driving in from the sides, and ensure additional comfort when working. (FB1200)	Option	2523456	USD	8,564.00
Milling depth regulation				
LEVEL PRO PLUS leveling system. The measurement is made using cylinder sensors on the side plate right and left. The milling depth is displayed and set intuitively on the LEVEL PRO PLUS control display. The milling depth is regulated automatically. Incl. pre-fitting for additional sensors (e.g. Rapid Slope).	Standard	2365933	USD	0.00

<b>Hydraulic connection</b>				
Machine with hydraulic pre-fitting for a discharge conveyor with screw coupling. Each contains the coupling element on the machine side and the discharge conveyor side.	<b>Standard</b>	<b>2370564</b>	<b>USD</b>	<b>0.00</b>
Machine with hydraulic pre-fitting for a discharge conveyor with quick-change coupling. For quick change of the discharge conveyor. Each contains the coupling element on the machine side and the discharge conveyor side.	<b>Option</b>	<b>2370565</b>	<b>USD</b>	<b>1,086.00</b>
<b>Material transport</b>				
Discharge conveyor 7,350 mm / 24 ft 1 in long with conveyor belt width 500 mm / 1 ft 8 in and hydraulic folding device for shortening the transport length or simplified maneuvering in narrow fields. Including an LED working light for illuminating the ejection area. Discharge conveyor including mechanical installation and removal assistance.	<b>Standard</b>	<b>2370568</b>	<b>USD</b>	<b>0.00</b>
<b>Paint</b>				
Painting in cream RAL 9001 with orange stripes. The complete lower part of the machine is painted in slate grey RAL 7015.	<b>Standard</b>	<b>2370429</b>	<b>USD</b>	<b>0.00</b>
Monocolor special painting. Cream white color is replaced by a special color (RAL according to customer). The complete lower part of the machine is painted in slate grey RAL 7015.	<b>Option</b>	<b>2370430</b>	<b>USD</b>	<b>1,561.00</b>
Two-color special painting. Cream color is replaced by two special colors (each RAL acc. to customer request). The complete lower part of the machine is painted in slate gray RAL 7015.	<b>Option</b>	<b>2370431</b>	<b>USD</b>	<b>10,029.00</b>
Multi-color special painting. Cream color is replaced by a maximum of two special colors (RAL acc. to customer request). In addition, the lower part of the machine is painted in one special color (RAL acc. to customer request).	<b>Option</b>	<b>2370432</b>	<b>USD</b>	<b>15,756.00</b>
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	<b>Standard</b>	<b>2456347</b>	<b>USD</b>	<b>0.00</b>
<b>Service documentation</b>				
Spare part and application documentation English (EN)	<b>Standard</b>	<b>2456404</b>	<b>USD</b>	<b>0.00</b>
<b>Warranty</b>				
Standard warranty 12 months or 1000 engine operational hours	<b>Standard</b>	<b>100772</b>	<b>USD</b>	<b>0.00</b>
<b>Telematics</b>				
WITOS FleetView includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	<b>Standard</b>	<b>2483436</b>	<b>USD</b>	<b>0.00</b>

<b>Machine lighting</b>				
Lighting system consisting of 1 LED strip, 3 halogen and 8 LED working lights. The headlights illuminate the area in front of the machine, the left machine side, the area in front of the milling drum unit, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 16,700 lumen in total.	Standard	2487612	USD	0.00
High-performance lighting system consisting of 2 LED strips, 1 halogen and 12 LED working lights. The headlights illuminate the area in front of the machine, the rear of the machine, the left machine side from the front and rear, the area in front of the milling drum unit, the wheel arch, the weather canopy, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 23,300 lumen in total. LED working lights are extremely bright, shock-resistant and durable.	Option	2487613	USD	923.00
<b>Crawler units</b>				
The machine is equipped with a front axle for using a milling unit with a width of 1.000 mm / 1.200 mm.	Standard	2589208	USD	0.00
<b>Equipment Options</b>				
<b>Additional weight</b>				
Additional weight 400 kg / 881 lb for four-wheel machine. 100 kg / 220 lb additional weight can be mounted in each rim. The additional weight can improve working under extreme conditions, although does increase the transport weight of the machine.	Option	2462950	USD	5,374.00
<b>Advance drive</b>				
Machine (FB1000 / FB1200) equipped for increased transfer speed with more powerful hydraulic components (up to 7,5 km/h / 4,5 mph). Construction site operations are significantly faster due to the increased transfer speed of the machine.	Standard	2370563	USD	0.00
Machine equipped with precision steering (FB1000/1200). Proportional push-buttons on the multi-function armrest enable the machine to be steered more precisely.	Standard	2478483	USD	0.00
<b>Milling drum assembly options</b>				
Overload sensor on the scraper FB1000/1200 for automatic lifting function in case of obstacles. Effectively prevents the scraper from sinking into the loose sub-base, as well as getting stuck on obstacles.	Option	2478481	USD	1,751.00
Active floating position on the side plate right and left by continuous comparison between the milling depth and position of the side plate. If required, the side plate is lifted briefly to prevent tilting or sinking into a soft sub-base. (Only possible in conjunction with LEVEL PRO PLUS.)	Option	2478486	USD	1,656.00
<b>Device for milling drum change</b>				
Milling drum assembly trolley for milling drums up to FB1300 (4 ft 3 in), for straightforward milling drum change	Option	105240	USD	2,633.00
Assembly aid for the fast milling drum change	Option	101056	USD	1,276.00
<b>Additional milling units</b>				

FCS milling unit FB400 (15,75") LA15, with quick-change toolholder system HT22, milling depth max. 0 ft 11 in / 300 mm, equipped with 59 RS picks, including scraper bottom part FB400 (15,75")	Option	2478482	USD	17,589.00
FCS milling unit FB500 (20") LA15, with quick-change toolholder system HT22, milling depth max. 0 ft 11 in / 300 mm, equipped with 65 RS picks, including scraper bottom part FB500 (20")	Option	2478484	USD	18,403.00
<b>Cold-start device</b>				
Electric preheating of the fuel filter for maintaining free-flow properties of the fuel at low outside temperatures. Used for ensuring operating capability at temperatures below 32 degrees Fahrenheit / 0 degrees Celsius.	Option	2468568	USD	394.00
<b>Options for belt conveyor</b>				
Hydraulic coupler on conveyor side for mounting on an additional discharge conveyor. For use on a machine pre-equipped with screw coupling.	Option	2370616	USD	163.00
<b>Lateral slope control</b>				
Expansion of the LEVEL PRO PLUS leveling system by a RAPID SLOPE sensor. Ideal, for example for aligning the machine in a defined lateral tilt on a one-sided reference.	Option	2370620	USD	4,004.00
Expansion of the LEVEL PRO PLUS leveling system by a leveling boom that can be moved out on the left side. The boom can be moved out hydraulically if required by up to 43 in / 1,080 mm and mechanically by a further 40 in / 1,020 mm. Including sensor and cable as well as LED position lights for indicating the moved-out boom.	Option	2417339	USD	5,496.00
<b>Water system / spraying agent system</b>				
Hydraulically driven water filler pump. For rapid filling of the water tank. The filler pump is located in an easily accessible position and is protected in the storage compartment at the ladder/footstep to the operator's platform.	Option	2511836	USD	2,701.00
<b>Pick changing aids</b>				
Hydraulically driven pick extractor with holder and corresponding electrical and hydraulic connectors. Ideal for a convenient, fast and quiet cutting tool replacement.	Option	2370621	USD	3,461.00
<b>Wirtgen information and diagnostic system</b>				
Equipment of the machine with job data acquisition. The information is shown in the control display.	Standard	2410294	USD	0.00
<b>Camera system</b>				
Monitor system as maneuvering aid with two cameras and screen. A camera is mounted on the discharge conveyor and displays the loading of the truck. The 2nd camera shows the area in front of the milling drum housing. The camera images are displayed on the screen.	Option	2487627	USD	4,967.00
<b>Other devices</b>				
License plate holder with LED lighting to comply with country-specific regulations.	Option	2655778	USD	434.00
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	Option		USD	81.00
Date: 3/6/2019				

## Price list

# W 120 Xfi - FCS

### Scope of supply – basic machine

- Engine: 6-CYLINDER DIESEL ENGINE TYPE CUMMINS QSL9 C-300
- Rated engine power 2100 r.p.m.: 248 kW / 333 HP / 337 PS
- Maximum power at 1900 r.p.m.: 257 kW / 345 HP / 350 PS
- Exhaust standard: US Tier 4f
- Standard milling width: 3 ft 11 in / 1200 mm
- Theoretical milling depth: 1 ft 1 in / 330 mm

### STANDARD EQUIPMENT

- Basic machine with engine
- Mechanically opening engine cowling with noise insulation
- Radiator with temperature-dependent fan speed
- Highly effective noise insulation throughout the engine compartment
- Automatic engine speed control depending on driving situation
- Elastically mounted engine station with low vibration and low noise

### MILLING DRUM HOUSING

- The right side of the milling drum housing can easily be folded down for maintenance or milling drum change
- Hydraulically operated scraper with mechanical locking

### LOADING OF MILLED MATERIAL

- Discharge conveyor slewing angle left 60 degrees – right 60 degrees
- Two slewing speeds on the hydraulically foldable discharge conveyor with an adjustable conveying speed for precise loading

### MACHINE CONTROL AND LEVELLING SYSTEM

- Digital milling depth indicator in the machine control display
- LEVEL PRO PLUS leveling system right and left
- RAPID SLOPE cross-slope sensor for LEVEL PRO ACTIVE leveling system
- Precise machine height adjustment in 1 or 5 mm steps on the main control panel of the machine
- Digital load control, manual engageable, hydraulic differential lock (by flow distributor)

### OPERATOR'S PLATFORM

- Hydraulically extending operator's platform for optimum visibility of the working area
- Steering console with adjustable rake and reach for ideal adaptation of the operator's platform to the operator
- Slender machine design permits unobstructed view of the milled edge as well as the working area in front of the milling drum on the right
- Conveniently accessible ladder/footstep to the operator's platform with night-time lighting and especially low bottom edge of the latter/footstep

- Robust anti-vandalism protection for the controls
- Mirror package comprising rear-view mirrors at front left and right as well as a forward-pointing mirror at the left of the operator's platform
- Reversing horn with clear audible signal
- Illuminated control panel / nighttime design
- Scraper height is shown on the display

#### CHASSIS AND HEIGHT ADJUSTMENT

- Hydraulic height adjustment of the front and rear track units at two speeds

#### MISCELLANEOUS

- Large tool package
- Device for towing away
- Generously sized water and diesel tanks
- Extensive safety package with several EMERGENCY STOP switches
- Pre-fitting for installing the WITOS FleetView control unit
- European design type certification, EuroTest mark and CE conformity

<b>List price ex subsidiary Wirtgen America</b>	<b>USD</b>	<b>591,144.00</b>
---	------------	-------------------

Mandatory Options				
Exhaust Gas After Treatment				
Exhaust after-treatment by diesel oxidation catalytic converter DOC in exhaust emissions category EU Stage 4 / US Tier 4f. Without diesel particulate filter.	Standard	2490140	USD	0.00
Exhaust after-treatment by diesel oxidation catalyst DOC in exhaust emissions category EU Stage 4 / US Tier 4f. Additionally equipped with diesel particulate filter (DPF) for operation e.g. in halls or in environmental zones with limited fine dust emission.	Option	2490141	USD	13,504.00
Crawler units				
Configuration with 4 driven track units. The two front track units are steered. The track unit at the rear right is hydraulically slewing and also steers. Traveling speed max. 3.6 mph / 5.8 km/h.	Standard	2777141	USD	0.00

<b>Milling drum housing</b>				
Wear-resistant milling drum housing FB1200 (3 ft 11 in) FCS, with pre-fitting for quick and easy milling drum change, without milling drum	Standard	2336168	USD	0.00
<b>Milling drums / milling units</b>				
FCS milling drum with milling width 1200 mm / 3 ft / 11 in, tool spacing 15 mm / 19/32 in, equipped with quick-change toolholder system HT22 and 112 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.	Standard	2308142	USD	0.00
<b>OPERATOR'S PLATFORM</b>				
Standard operator's seat with shock absorption and lengthways adjustment	Standard	2412488	USD	0.00
Comfort operator's seat incl. seat heating. The operator's seat has shock absorption, lengthways adjustment and can be swiveled through a total of 50 degrees.	Option	2412489	USD	1,154.00
<b>Hydraulic connection</b>				
Machine with hydraulic pre-fitting for a discharge conveyor with screw coupling. Each contains the coupling element on the machine side and the discharge conveyor side.	Standard	2412477	USD	0.00
<b>Material transport</b>				
Discharge conveyor 26 ft 9 in / 8,150 mm long with conveyor belt width 2 ft / 600 mm and hydraulic folding device for shortening the transport length or simplified maneuvering in narrow fields.	Standard	2336175	USD	0.00
<b>Paint</b>				
Painting in cream RAL 9001 with orange stripes. The complete lower part of the machine is painted in slate grey RAL 7015.	Standard	2336244	USD	0.00
Monocolor special painting. Cream white color is replaced by a special color (RAL according to customer). The complete lower part of the machine is painted in slate grey RAL 7015.	Option	2336246	USD	1,561.00

<b>Technical documentation</b>				
Technical documentation - North America country version (US)	Standard	2456347	USD	0.00
<b>Service documentation</b>				
Spare part and application documentation English (EN)	Standard	2456404	USD	0.00
<b>Warranty</b>				
Standard warranty 12 months or 1000 engine operational hours	Standard	100772	USD	0.00
<b>Telematics</b>				
WITOS FleetView includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	Standard	2483436	USD	0.00
<b>Machine lighting</b>				
Lighting system consisting of 4 halogen and 8 LED working lights. The headlights illuminate the area in front of the machine, both machine sides, the area in front of the milling drum unit, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 19,500 lumen in total.	Standard	2487614	USD	0.00
High-performance lighting system consisting of 1 halogen and 14 LED working lights. The headlights illuminate the area in front of and behind the machine, both machine sides, the area in front of the milling drum unit, the loading area, the weather canopy, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 26,300 lumen in total. LED working lights are extremely bright, shock-resistant and durable.	Option	2487615	USD	936.00
<b>Equipment Options</b>				
<b>Exhaust air filter</b>				0.00
VCS - Vacuum Cutting System on the discharge conveyor, for extraction of fine material particles and water vapor from the sealed milling unit.	Option	2336913	USD	8,251.00

<b>Advance drive</b>				
Equipment of the machine with precision steering. Pushbuttons on the multi-function armrests with a proportional response permit more precise steering of the machine.	Standard	2478488	USD	0.00
<b>Equipment operator's platform</b>				
Operator's platform with weather canopy. The weather canopy is hydraulically adjustable in height and provides additional comfort during on-site operation. Including LED working light for illuminating the footstep. (Only in conjunction with electrohydraulic unit.)	Option	2336173	USD	8,156.00
<b>Milling drum assembly options</b>				
Active floating position on the side plate right and left by continuous comparison between the milling depth and position of the side plate. If required, the side plate is lifted briefly to prevent tilting or sinking into a soft sub-base. (Only possible in conjunction with LEVEL PRO PLUS.)	Standard	2478486	USD	0.00
<b>Device for milling drum change</b>				
Milling drum assembly trolley for milling drums up to FB1300 (4 ft 3 in), for straightforward milling drum change	Option	105240	USD	2,633.00
<b>Additional milling units</b>				
FCS tandem scraper FB1200 (3 ft 11 in) with necessary hydraulic and electrical systems. For the use of milling drums smaller than FB1200 (3 ft 11 in). The min. milling width for material loading onto the loading belt is FB750	Standard	2351465	USD	0.00
FCS milling unit FB300 (12") LA15, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 61 RS picks, including scraper bottom part FB300 (12")	Option	2308611	USD	14,983.00
FCS milling unit FB600 (24") LA12, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 80 picks, including scraper bottom part FB600 (24")	Option	2308615	USD	24,225.00
FCS milling unit FB900 (2 ft 11 in) LA15, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 102 RS picks, including scraper bottom part FB900 (2 ft 11 in)	Option	2308616	USD	37,864.00

<b>Cold-start device</b>				
Electrical preheating of the fuel filter for maintaining free-flow properties of the fuel at low outside temperatures. Used for ensuring operating capability at temperatures below 32 degrees Fahrenheit / 0 degrees Celsius.	Option	2377357	USD	746.00
<b>Options for belt conveyor</b>				
Signal lights on the loading conveyor for a visual truck stop-and-go control without using the horn. The signal lights can be folded in hydraulically from the operator's platform.	Option	2409818	USD	6,392.00
<b>Leveling</b>				
Expansion of the LEVEL PRO PLUS leveling system by a SONIC SKI sensor. Ideal for contact-free wire and soil scanning. Including connection cable and holder.	Option	2352878	USD	5,727.00
<b>Leveling</b>				
Expansion of the leveling system for multiplex system package 3-way right, including 2 x ultrasonic sensors, and connection cable. (FB1000/1200)	Option	2544246	USD	3,651.00
Expansion of the leveling system to make multiplex system package 3-way right and 3-way left, including 4 x ultrasonic sensors and connection cable. (FB1000/1200)	Option	2544249	USD	7,288.00
<b>Attachments</b>				
Battery-operated electro-hydraulic unit for operation of the machine hydraulics with the diesel engine switched off. (e.g. height adjustment of weather canopy, milling drum rotation device and hydraulic pick extractor drift)	Standard	2412494	USD	0.00
<b>Water system</b>				
Hydraulically operated high-pressure water cleaner with a maximum performance of 15 l/min at 150 bar pressure. Ideal for daily cleaning of the machine.	Option	2336231	USD	3,909.00
<b>Pick changing aids</b>				
Integrated air compressor system with pressure accumulator and filling points. Precondition for operation of compressed air tools (e.g. pneumatic hammers).	Option	2353106	USD	6,216.00
Hydraulically driven pick extractor drift, complete with holder and corresponding electrical and hydraulic connectors. Ideal for convenient and quiet pick change.	Option	2352889	USD	3,461.00
Milling drum rotation device with electrohydraulic milling drum drive for slowly turning the milling drum during pick replacement.	Standard	2352893	USD	0.00

<b>Wirtgen information and diagnostic system</b>				
Equipment of the machine with job data acquisition. The information is shown in the control display.	<b>Standard</b>	<b>2410294</b>	<b>USD</b>	<b>0.00</b>
<b>Camera system</b>				
Monitor system as maneuvering aid with 2 cameras and screen. A camera is mounted on the discharge conveyor and displays the loading of the truck. The 2nd camera shows the area in front of the milling drum housing. The camera images are displayed on the screen.	<b>Option</b>	<b>2487637</b>	<b>USD</b>	<b>5,496.00</b>
<b>Other devices</b>				
License plate holder with LED lighting to comply with country-specific regulations.	<b>Option</b>	<b>2659037</b>	<b>USD</b>	<b>434.00</b>
<b>Additional milling drums</b>				
FCS milling drum with milling width 1200 mm / 3 ft / 11 in, milling depth max. 100 mm / 3 15/16 in, tool spacing 8 mm / 5/16 in, equipped with quick-change toolholder system HT22 and 174 picks. For applications with a high requirement on macro and micro-profile of the road surface, e.g fine milling with increased evenness or correction milling work.	<b>Option</b>	<b>2308216</b>	<b>USD</b>	<b>47,961.00</b>
FCS milling drum, with milling width 1200 mm / 3 ft / 11 in, milling depth max. 50 mm / 1 31/32 in, tool spacing 6x2 mm / 15/64 x / 5/64 in, equipped with welded holder system HT5 and 410 picks. For applications with the maximum requirement on macro and micro-profile of the road surface, e.g. increase in grip by roughening, preparatory milling for thin-layer coverings or removal of markings on the road surface.	<b>Option</b>	<b>2061125</b>	<b>USD</b>	<b>56,566.00</b>
FCS milling drum with milling width 1200 mm / 3 ft / 11 in, tool spacing 25 mm / 63/64 in, equipped with quick-change toolholder system HT22 and 87 picks. For applications with high requirements for milling volume, e.g. complete removal of road surfaces or concrete milling work.	<b>Option</b>	<b>2308286</b>	<b>USD</b>	<b>22,542.00</b>
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	<b>Option</b>		<b>USD</b>	<b>81.00</b>
Spare part and application documentation English (EN)	<b>Option</b>		<b>USD</b>	<b>14.00</b>

<sup>1</sup>Option must be ordered from headquarters.

Date: 10/1/2019

## Price list

# W 120 Xfi - Non FCS

### Scope of supply – basic machine

- Engine: 6-CYLINDER DIESEL ENGINE TYPE CUMMINS QSL9 C-300
- Rated engine power 2100 r.p.m.: 248 kW / 333 HP / 337 PS
- Maximum power at 1900 r.p.m.: 257 kW / 345 HP / 350 PS
- Exhaust standard: US Tier 4f
- Standard milling width: 3 ft 11 in / 1200 mm
- Theoretical milling depth: 1 ft 1 in / 330 mm

### STANDARD EQUIPMENT

- Basic machine with engine
- Mechanically opening engine cowling with noise insulation
- Radiator with temperature-dependent fan speed
- Highly effective noise insulation throughout the engine compartment
- Automatic engine speed control depending on driving situation
- Elastically mounted engine station with low vibration and low noise

### MILLING DRUM HOUSING

- The right side of the milling drum housing can easily be folded down for maintenance or milling drum change
- Hydraulically operated scraper with mechanical locking

### LOADING OF MILLED MATERIAL

- Discharge conveyor slewing angle left 60 degrees – right 60 degrees
- Two slewing speeds on the hydraulically foldable discharge conveyor with an adjustable conveying speed for precise loading

### MACHINE CONTROL AND LEVELLING SYSTEM

- Digital milling depth indicator in the machine control display
- LEVEL PRO PLUS leveling system right and left
- RAPID SLOPE cross-slope sensor for LEVEL PRO ACTIVE leveling system
- Precise machine height adjustment in 1 or 5 mm steps on the main control panel of the machine
- Digital load control, manual engageable, hydraulic differential lock (by flow distributor)

### OPERATOR'S PLATFORM

- Hydraulically extending operator's platform for optimum visibility of the working area
- Steering console with adjustable rake and reach for ideal adaptation of the operator's platform to the operator
- Slender machine design permits unobstructed view of the milled edge as well as the working area in front of the milling drum on the right
- Conveniently accessible ladder/footstep to the operator's platform with night-time lighting and especially low bottom edge of the latter/footstep

- Robust anti-vandalism protection for the controls
- Mirror package comprising rear-view mirrors at front left and right as well as a forward-pointing mirror at the left of the operator's platform
- Reversing horn with clear audible signal
- Illuminated control panel / nighttime design
- Scraper height is shown on the display

#### CHASSIS AND HEIGHT ADJUSTMENT

- Hydraulic height adjustment of the front and rear track units at two speeds

#### MISCELLANEOUS

- Large tool package
- Device for towing away
- Generously sized water and diesel tanks
- Extensive safety package with several EMERGENCY STOP switches
- Pre-fitting for installing the WITOS FleetView control unit
- European design type certification, EuroTest mark and CE conformity

<b>List price ex subsidiary Wirtgen America</b>	<b>USD</b>	<b>570,977.00</b>
---	------------	-------------------

#### Mandatory Options

##### Exhaust Gas After Treatment

Exhaust after-treatment by diesel oxidation catalytic converter DOC in exhaust emissions category EU Stage 4 / US Tier 4f. Without diesel particulate filter.	<b>Standard</b>	<b>2490140</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

Exhaust after-treatment by diesel oxidation catalyst DOC in exhaust emissions category EU Stage 4 / US Tier 4f. Additionally equipped with diesel particulate filter (DPF) for operation e.g. in halls or in environmental zones with limited fine dust emission.	<b>Option</b>	<b>2490141</b>	<b>USD</b>	<b>13,504.00</b>
---	---------------	----------------	------------	------------------

##### Crawler units

Configuration with 4 driven track units. The two front track units are steered. The track unit at the rear right is hydraulically slewing and also steers. Traveling speed max. 3.6 mph / 5.8 km/h.	<b>Standard</b>	<b>2777141</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

##### Milling drum housing

Wear-resistant milling drum housing FB1200 (3 ft 11 in) without milling drum	<b>Standard</b>	<b>2336167</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

##### Milling drums / milling units

Milling drum with milling width 1200 mm / 3 ft / 11 in, tool spacing 15 mm / 19/32 in, equipped with quick-change toolholder system HT22 and 115 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.	<b>Standard</b>	<b>2308578</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

<b>OPERATOR'S PLATFORM</b>				
Standard operator's seat with shock absorption and lengthways adjustment	Standard	2412488	USD	0.00
Comfort operator's seat incl. seat heating. The operator's seat has shock absorption, lengthways adjustment and can be swiveled through a total of 50 degrees.	Option	2412489	USD	1,154.00
<b>Hydraulic connection</b>				
Machine with hydraulic pre-fitting for a discharge conveyor with screw coupling. Each contains the coupling element on the machine side and the discharge conveyor side.	Standard	2412477	USD	0.00
<b>Material transport</b>				
Discharge conveyor 26 ft 9 in / 8,150 mm long with conveyor belt width 2 ft / 600 mm and hydraulic folding device for shortening the transport length or simplified maneuvering in narrow fields.	Standard	2336175	USD	0.00
<b>Paint</b>				
Painting in cream RAL 9001 with orange stripes. The complete lower part of the machine is painted in slate grey RAL 7015.	Standard	2336244	USD	0.00
Monocolor special painting. Cream white color is replaced by a special color (RAL according to customer). The complete lower part of the machine is painted in slate grey RAL 7015.	Option	2336246	USD	1,561.00
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	Standard	2456347	USD	0.00
<b>Service documentation</b>				
Spare part and application documentation English (EN)	Standard	2456404	USD	0.00
<b>Warranty</b>				
Standard warranty 12 months or 1000 engine operational hours	Standard	100772	USD	0.00

<b>Telematics</b>				
WITOS FleetView includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	<b>Standard</b>	<b>2483436</b>	<b>USD</b>	<b>0.00</b>
<b>Machine lighting</b>				
Lighting system consisting of 4 halogen and 8 LED working lights. The headlights illuminate the area in front of the machine, both machine sides, the area in front of the milling drum unit, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 19,500 lumen in total.	<b>Standard</b>	<b>2487614</b>	<b>USD</b>	<b>0.00</b>
High-performance lighting system consisting of 1 halogen and 14 LED working lights. The headlights illuminate the area in front of and behind the machine, both machine sides, the area in front of the milling drum unit, the loading area, the weather canopy, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 26,300 lumen in total. LED working lights are extremely bright, shock-resistant and durable.	<b>Option</b>	<b>2487615</b>	<b>USD</b>	<b>936.00</b>
<b>Equipment Options</b>				
<b>Exhaust air filter</b>				
VCS - Vacuum Cutting System on the discharge conveyor, for extraction of fine material particles and water vapor from the sealed milling unit.	<b>Option</b>	<b>2336913</b>	<b>USD</b>	<b>8,251.00</b>
<b>Advance drive</b>				
Equipment of the machine with precision steering. Pushbuttons on the multi-function armrests with a proportional response permit more precise steering of the machine.	<b>Standard</b>	<b>2478488</b>	<b>USD</b>	<b>0.00</b>

<b>Equipment operator's platform</b>				
Operator's platform with weather canopy. The weather canopy is hydraulically adjustable in height and provides additional comfort during on-site operation. Including LED working light for illuminating the footstep. (Only in conjunction with electrohydraulic unit.)	Option	2336173	USD	8,156.00
<b>Milling drum assembly options</b>				
Active floating position on the side plate right and left by continuous comparison between the milling depth and position of the side plate. If required, the side plate is lifted briefly to prevent tilting or sinking into a soft sub-base. (Only possible in conjunction with LEVEL PRO PLUS.)	Standard	2478486	USD	0.00
<b>Device for milling drum change</b>				
Milling drum assembly trolley for milling drums up to FB1300 (4 ft 3 in), for straightforward milling drum change	Option	105240	USD	2,633.00
<b>Cold-start device</b>				
Electrical preheating of the fuel filter for maintaining free-flow properties of the fuel at low outside temperatures. Used for ensuring operating capability at temperatures below 32 degrees Fahrenheit / 0 degrees Celsius.	Option	2377357	USD	746.00
<b>Options for belt conveyor</b>				
Signal lights on the loading conveyor for a visual truck stop-and-go control without using the horn. The signal lights can be folded in hydraulically from the operator's platform.	Option	2409818	USD	6,392.00
<b>Leveling</b>				
Expansion of the LEVEL PRO PLUS leveling system by a SONIC SKI sensor. Ideal for contact-free wire and soil scanning. Including connection cable and holder.	Option	2352878	USD	5,727.00
<b>Leveling</b>				
Expansion of the leveling system for multiplex system package 3-way right, including 2 x ultrasonic sensors, and connection cable. (FB1000/1200)	Option	2544246	USD	3,651.00
Expansion of the leveling system to make multiplex system package 3-way right and 3-way left, including 4 x ultrasonic sensors and connection cable. (FB1000/1200)	Option	2544249	USD	7,288.00

<b>Attachments</b>				
Battery-operated electro-hydraulic unit for operation of the machine hydraulics with the diesel engine switched off. (e.g. height adjustment of weather canopy, milling drum rotation device and hydraulic pick extractor drift)	Standard	2412494	USD	0.00
<b>Water system</b>				
Hydraulically operated high-pressure water cleaner with a maximum performance of 15 l/min at 150 bar pressure. Ideal for daily cleaning of the machine.	Option	2336231	USD	3,909.00
<b>Pick changing aids</b>				
Integrated air compressor system with pressure accumulator and filling points. Precondition for operation of compressed air tools (e.g. pneumatic hammers).	Option	2353106	USD	6,216.00
Hydraulically driven pick extractor drift, complete with holder and corresponding electrical and hydraulic connectors. Ideal for convenient and quiet pick change.	Option	2352889	USD	3,461.00
Milling drum rotation device with electrohydraulic milling drum drive for slowly turning the milling drum during pick replacement.	Standard	2352893	USD	0.00
<b>Wirtgen information and diagnostic system</b>				
Equipment of the machine with job data acquisition. The information is shown in the control display.	Standard	2410294	USD	0.00
<b>Camera system</b>				
Monitor system as maneuvering aid with 2 cameras and screen. A camera is mounted on the discharge conveyor and displays the loading of the truck. The 2nd camera shows the area in front of the milling drum housing. The camera images are displayed on the screen.	Option	2487637	USD	5,496.00
<b>Other devices</b>				
License plate holder with LED lighting to comply with country-specific regulations.	Option	2659037	USD	434.00
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	Option		USD	81.00
Spare part and application documentation English (EN)	Option		USD	14.00

<sup>1</sup>Option must be ordered from headquarters.

Date: 10/1/2019

## Price list

### W 120 Cfi - FCS

#### Scope of supply – basic machine

- Engine: 6-CYLINDER DIESEL ENGINE TYPE CUMMINS QSL9 C-300
- Rated engine power 2100 r.p.m.: 248 kW / 333 HP / 337 PS
- Maximum power at 1900 r.p.m.: 257 kW / 345 HP / 350 PS
- Exhaust standard: EU Stage 4 / US Tier 4f
- Standard milling width: 3 ft 11 in / 1200 mm
- Theoretical milling depth: 1 ft 1 in / 330 mm

#### STANDARD EQUIPMENT

- Basic machine with engine
- Mechanically opening engine cowling with noise insulation
- Radiator with temperature-dependent fan speed
- Highly effective noise insulation throughout the engine compartment
- Automatic engine speed control depending on driving situation
- Elastically mounted engine station with low vibration and low noise

#### MILLING DRUM HOUSING

- The right side of the milling drum housing can easily be folded down for maintenance or milling drum change
- Hydraulically operated scraper with mechanical locking

#### LOADING OF MILLED MATERIAL

- Discharge conveyor slewing angle left 60 degrees – right 60 degrees
- Two slewing speeds on the hydraulically foldable discharge conveyor with an adjustable conveying speed for precise loading

#### MACHINE CONTROL AND LEVELLING SYSTEM

- Digital milling depth indicator in the machine control display
- LEVEL PRO PLUS leveling system right and left
- RAPID SLOPE cross-slope sensor for LEVEL PRO ACTIVE leveling system
- Precise machine height adjustment in 1 or 5 mm steps on the main control panel of the machine
- Digital load control, manual engageable, hydraulic differential lock (by flow distributor)

#### OPERATOR'S PLATFORM

- Hydraulically extending operator's platform for optimum visibility of the working area
- Steering console with adjustable rake and reach for ideal adaptation of the operator's platform to the operator

<ul style="list-style-type: none"> <li>Slender machine design permits unobstructed view of the milled edge as well as the working area in front of the milling drum on the right</li> <li>Conveniently accessible ladder/footstep to the operator's platform with night-time lighting and especially low bottom edge of the latter/footstep</li> <li>Robust anti-vandalism protection for the controls</li> <li>Mirror package comprising rear-view mirrors at front left and right as well as a forward-pointing mirror at the left of the operator's platform</li> <li>Reversing horn with clear audible signal</li> <li>Illuminated control panel / nighttime design</li> <li>Scraper height is shown on the display</li> </ul>
<b>CHASSIS AND HEIGHT ADJUSTMENT</b>
<ul style="list-style-type: none"> <li>Hydraulic height adjustment of the front and rear track units at two speeds</li> </ul>
<b>MISCELLANEOUS</b>
<ul style="list-style-type: none"> <li>Large tool package</li> <li>Device for towing away</li> <li>Generously sized water and diesel tanks</li> <li>Extensive safety package with several EMERGENCY STOP switches</li> <li>Pre-fitting for installing the WITOS FleetView control unit</li> <li>European design type certification, EuroTest mark and CE conformity</li> </ul>
<b>List price ex subsidiary Wirtgen America</b> <div>USD 591,144.00</div>

Mandatory Options				
Exhaust Gas After Treatment				
Exhaust after-treatment by diesel oxidation catalytic converter DOC in exhaust emissions category EU Stage 4 / US Tier 4f. Without diesel particulate filter.	Standard	2490140	USD	0.00
Exhaust after-treatment by diesel oxidation catalyst DOC in exhaust emissions category EU Stage 4 / US Tier 4f. Additionally equipped with diesel particulate filter (DPF) - for operation e.g. in halls or in environmental zones with limited fine dust emission.	Option	2490141	USD	13,504.00
Crawler units				
Configuration with 4 driven track units. The two front track units are steered. The crawler unit at the rear right is hydraulically slewing and also steers. Traveling speed max. 3.6 mph / 5.8 km/h.	Standard	2490142	USD	0.00

<b>Milling drum housing</b>				
Wear-resistant milling drum housing FB1200 (3 ft 11 in) FCS, with pre-fitting for quick and easy milling drum change, without milling drum	Standard	2336168	USD	0.00
<b>Milling drums / milling units</b>				
FCS milling drum with milling width 1200 mm / 3 ft 11 in, tool spacing 15 mm / 19/32 in, equipped with quick-change toolholder system HT22 and 115 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.	Standard	2308142	USD	0.00
<b>Operator's platform</b>				
Standard operator's seat with shock absorption and lengthways adjustment	Standard	2412488	USD	0.00
Comfort operator's seat incl. seat heating. The operator's seat has shock absorption, lengthways adjustment and can be swiveled through a total of 50 degrees.	Option	2412489	USD	1,154.00
<b>Hydraulic connection</b>				
Machine with hydraulic pre-fitting for a discharge conveyor with screw coupling. Each contains the coupling element on the machine side and the discharge conveyor side.	Standard	2412477	USD	0.00
<b>Material transport</b>				
Discharge conveyor 26 ft 9 in / 8,150 mm long with conveyor belt width 2 ft / 600 mm and hydraulic folding device for shortening the transport length or simplified maneuvering in narrow fields.	Standard	2336175	USD	0.00
<b>Paint</b>				
Painting in cream RAL 9001 with orange stripes. The complete lower part of the machine is painted in slate grey RAL 7015.	Standard	2336244	USD	0.00
Monocolor special painting. Cream white color is replaced by a special color (RAL according to customer). The complete lower part of the machine is painted in slate grey RAL 7015.	Option	2336246	USD	1,561.00

<b>Technical documentation</b>				
Technical documentation - North America country version (US)	Standard	2456347	USD	0.00
<b>Service documentation</b>				
Spare part and application documentation English (EN)	Standard	2456404	USD	0.00
<b>Warranty</b>				
Standard warranty 12 months or 1000 engine operational hours	Standard	100772	USD	0.00
<b>Telematics</b>				
WITOS FleetView includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	Standard	2483436	USD	0.00
<b>Machine lighting</b>				
Lighting system consisting of 4 halogen and 8 LED working lights. The headlights illuminate the area in front of the machine, both machine sides, the area in front of the milling drum unit, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 19,500 lumen in total.	Standard	2487614	USD	0.00
High-performance lighting system consisting of 1 halogen and 14 LED working lights. The headlights illuminate the area in front of and behind the machine, both machine sides, the area in front of the milling drum unit, the loading area, the weather canopy, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 26,300 lumen in total. LED working lights are extremely bright, shock-resistant and durable.	Option	2487615	USD	936.00
<b>Equipment Options</b>				
<b>Exhaust air filter</b>				
VCS - Vacuum Cutting System on the discharge conveyor, for extraction of fine material particles and water vapor from the sealed milling unit.	Option	2336913	USD	8,251.00
<b>Advance drive</b>				
Equipment of the machine with precision steering. Pushbuttons on the multi-function armrests with a proportional response permit more precise steering of the machine.	Standard	2478488	USD	0.00

<b>Equipment operator's platform</b>				
Operator's platform with weather canopy. The weather canopy is hydraulically adjustable in height and provides additional comfort during on-site operation. Including LED working light for illuminating the footstep. (Only in conjunction with electrohydraulic unit.)	Option	2336173	USD	8,156.00
<b>Milling drum assembly options</b>				
Active floating position on the side plate right and left by continuous comparison between the milling depth and position of the side plate. If required, the side plate is lifted briefly to prevent tilting or sinking into a soft sub-base. (Only possible in conjunction with LEVEL PRO PLUS.)	Standard	2478486	USD	0.00
<b>Device for milling drum change</b>				
Milling drum assembly trolley for milling drums up to FB1300 (4 ft 3 in), for straightforward milling drum change	Option	105240	USD	2,633.00
<b>Additional milling units</b>				
FCS tandem scraper FB1200 (3 ft 11 in) with necessary hydraulic and electrical systems. For the use of milling drums smaller than FB1200 (3 ft 11 in). The min. milling width for material loading onto the loading belt is FB750	Standard	2351465	USD	0.00
FCS milling unit FB300 (12") LA15, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 61 RS picks, including scraper bottom part FB300 (12")	Option	2308611	USD	14,983.00
FCS milling unit FB600 (24") LA12, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 80 picks, including scraper bottom part FB600 (24")	Option	2308615	USD	24,225.00
FCS milling unit FB900 (2 ft 11 in) LA15, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 102 RS picks, including scraper bottom part FB900 (2 ft 11 in)	Option	2308616	USD	37,864.00
<b>Cold-start device</b>				
Electric preheating of the fuel filter for maintaining free-flow properties of the fuel at low outside temperatures. Used for ensuring operating capability at temperatures below 32 degrees Fahrenheit / 0 degrees Celsius.	Option	2377357	USD	746.00
<b>Options for belt conveyor</b>				
Signal lights on the loading conveyor for a visual truck stop-and-go control without using the horn. The signal lights can be folded in hydraulically from the operator's platform.	Option	2409818	USD	6,392.00

<b>Leveling</b>				
Expansion of the LEVEL PRO PLUS leveling system by a SONIC SKI sensor. Ideal for contact-free wire and soil scanning. Including connection cable and holder.	Option	2352878	USD	5,727.00
<b>Leveling</b>				
Expansion of the leveling system for multiplex system package 3-way right, including 2 x ultrasonic sensors, and connection cable. (FB1000/1200)	Option	2544246	USD	3,651.00
Expansion of the leveling system to make multiplex system package 3-way right and 3-way left, including 4 x ultrasonic sensors and connection cable. (FB1000/1200)	Option	2544249	USD	7,288.00
<b>Attachments</b>				
Battery-operated electro-hydraulic unit for operation of the machine hydraulics with the diesel engine switched off. (e.g. height adjustment of weather canopy, milling drum rotation device and hydraulic pick extractor drift)	Standard	2412494	USD	0.00
<b>Water system</b>				
Hydraulically operated high-pressure water cleaner with a maximum performance of 15 l/min at 150 bar pressure. Ideal for daily cleaning of the machine.	Option	2336231	USD	3,909.00
<b>Pick changing aids</b>				
Integrated air compressor system with pressure accumulator and filling points. Precondition for operation of compressed air tools (e.g. pneumatic hammers).	Option	2353106	USD	6,216.00
Hydraulically driven pick extractor drift, complete with holder and corresponding electrical and hydraulic connectors. Ideal for convenient and quiet pick change.	Option	2352889	USD	3,461.00
Milling drum rotation device with electrohydraulic milling drum drive for slowly turning the milling drum during pick replacement.	Standard	2352893	USD	0.00
<b>Wirtgen information and diagnostic system</b>				
Equipment of the machine with job data acquisition. The information is shown in the control display.	Standard	2410294	USD	0.00

<b>Camera system</b>				
Monitor system as maneuvering aid with 2 cameras and screen. A camera is mounted on the discharge conveyor and displays the loading of the truck. The 2nd camera shows the area in front of the milling drum housing. The camera images are displayed on the screen.	Option	2487637	USD	5,496.00
<b>Other devices</b>				
License plate holder with LED lighting to comply with country-specific regulations.	Option	2659037	USD	434.00
<b>Additional milling drums</b>				
FCS milling drum with milling width 1200 mm / 3 ft / 11 in, milling depth max. 100 mm / 3 15/16 in, tool spacing 8 mm / 5/16 in, equipped with quick-change toolholder system HT22 and 174 picks. For applications with a high requirement on macro and micro-profile of the road surface, e.g fine milling with increased evenness or correction milling work.	Option	2308216	USD	47,961.00
FCS milling drum, with milling width 1200 mm / 3 ft / 11 in, milling depth max. 50 mm / 1 31/32 in, tool spacing 6x2 mm / 15/64 x / 5/64 in, equipped with welded holder system HT5 and 410 picks. For applications with the maximum requirement on macro and micro-profile of the road surface, e.g. increase in grip by roughening, preparatory milling for thin-layer coverings or removal of markings on the road surface.	Option	2061125	USD	56,566.00
FCS milling drum with milling width 1200 mm / 3 ft / 11 in, tool spacing 25 mm / 63/64 in, equipped with quick-change toolholder system HT22 and 87 picks. For applications with high requirements for milling volume, e.g. complete removal of road surfaces or concrete milling work.	Option	2308286	USD	22,542.00
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	Option		USD	81.00
<sup>1</sup> Option must be ordered from headquarters. Date: 3/6/2019

Operator's platform with weather canopy. The weather canopy is hydraulically adjustable in height and provides additional comfort during on-site operation. Including LED working light for illuminating the footstep. (Only in conjunction with electrohydraulic unit.)	<b>Option</b>	<b>2336173</b>	<b>USD</b>	<b>8,156.00</b>

<b>Milling drum assembly options</b>				
Active floating position on the side plate right and left by continuous comparison between the milling depth and position of the side plate. If required, the side plate is lifted briefly to prevent tilting or sinking into a soft sub-base. (Only possible in conjunction with LEVEL PRO PLUS.)	<b>Standard</b>	<b>2478486</b>	<b>USD</b>	<b>0.00</b>
<b>Device for milling drum change</b>				
Milling drum assembly trolley for milling drums up to FB1300 (4 ft 3 in), for straightforward milling drum change	<b>Option</b>	<b>105240</b>	<b>USD</b>	<b>2,633.00</b>
<b>Cold-start device</b>				
Electric preheating of the fuel filter for maintaining free-flow properties of the fuel at low outside temperatures. Used for ensuring operating capability at temperatures below 32 degrees Fahrenheit / 0 degrees Celsius.	<b>Option</b>	<b>2377357</b>	<b>USD</b>	<b>746.00</b>
<b>Options for belt conveyor</b>				
Signal lights on the loading conveyor for a visual truck stop-and-go control without using the horn. The signal lights can be folded in hydraulically from the operator's platform.	<b>Option</b>	<b>2409818</b>	<b>USD</b>	<b>6,392.00</b>
<b>Leveling</b>				
Expansion of the LEVEL PRO PLUS leveling system by a SONIC SKI sensor. Ideal for contact-free wire and soil scanning. Including connection cable and holder.	<b>Option</b>	<b>2352878</b>	<b>USD</b>	<b>5,727.00</b>
<b>Leveling</b>				
Expansion of the leveling system for multiplex system package 3-way right, including 2 x ultrasonic sensors, and connection cable. (FB1000/1200)	<b>Option</b>	<b>2544246</b>	<b>USD</b>	<b>3,651.00</b>
Expansion of the leveling system to make multiplex system package 3-way right and 3-way left, including 4 x ultrasonic sensors and connection cable. (FB1000/1200)	<b>Option</b>	<b>2544249</b>	<b>USD</b>	<b>7,288.00</b>

<b>Attachments</b>				
Battery-operated electro-hydraulic unit for operation of the machine hydraulics with the diesel engine switched off. (e.g. height adjustment of weather canopy, milling drum rotation device and hydraulic pick extractor drift)	Standard	2412494	USD	0.00
<b>Water system</b>				
Hydraulically operated high-pressure water cleaner with a maximum performance of 15 l/min at 150 bar pressure. Ideal for daily cleaning of the machine.	Option	2336231	USD	3,909.00
<b>Pick changing aids</b>				
Integrated air compressor system with pressure accumulator and filling points. Precondition for operation of compressed air tools (e.g. pneumatic hammers).	Option	2353106	USD	6,216.00
Hydraulically driven pick extractor drift, complete with holder and corresponding electrical and hydraulic connectors. Ideal for convenient and quiet pick change.	Option	2352889	USD	3,461.00
Milling drum rotation device with electrohydraulic milling drum drive for slowly turning the milling drum during pick replacement.	Standard	2352893	USD	0.00
<b>Wirtgen information and diagnostic system</b>				
Equipment of the machine with job data acquisition. The information is shown in the control display.	Standard	2410294	USD	0.00
<b>Camera system</b>				
Monitor system as maneuvering aid with 2 cameras and screen. A camera is mounted on the discharge conveyor and displays the loading of the truck. The 2nd camera shows the area in front of the milling drum housing. The camera images are displayed on the screen.	Option	2487637	USD	5,496.00
<b>Other devices</b>				
License plate holder with LED lighting to comply with country-specific regulations.	Option	2659037	USD	434.00
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	Option		USD	81.00
<sup>1</sup> Option must be ordered from headquarters. Date: 3/6/2019				

## Price list

### W 120 XT*i*

#### Scope of supply – basic machine

- Engine: 6-CYLINDER DIESEL ENGINE TYPE CUMMINS QSL9 C-300
- Rated engine power 2100 r.p.m.: 248 kW / 333 HP / 337 PS
- Maximum power at 1900 r.p.m.: 257 kW / 345 HP / 350 PS
- Exhaust standard: EU Stage 4 / US Tier 4f
- Standard milling width: 3 ft 11 in / 1200 mm
- Theoretical milling depth: 1 ft 1 in / 330 mm

#### STANDARD EQUIPMENT

- Basic machine with engine
- Mechanically opening engine cowling with noise insulation
- Radiator with temperature-dependent fan speed
- Highly effective noise insulation throughout the engine compartment
- Automatic engine speed control depending on driving situation

#### MILLING DRUM HOUSING

- The right side of the milling drum housing can easily be folded down for maintenance or milling drum change
- Hydraulically operated scraper with mechanical locking

#### LOADING OF MILLED MATERIAL

- Discharge conveyor slewing angle left 60 degrees – right 60 degrees
- Two slewing speeds on the hydraulically foldable discharge conveyor with an adjustable conveying speed for precise loading

#### MACHINE CONTROL AND LEVELLING SYSTEM

- Digital milling depth indicator in the machine control display
- LEVEL PRO PLUS leveling system right and left
- RAPID SLOPE cross-slope sensor for LEVEL PRO ACTIVE leveling system
- Precise machine height adjustment in 1 or 5 mm steps on the main control panel of the machine
- Digital load control, manual engageable, hydraulic differential lock (by flow distributor)

#### OPERATOR'S PLATFORM

- Hydraulically extending operator's platform for optimum visibility of the working area
- Slender machine design permits unobstructed view of the milled edge as well as the working area in front of the milling drum on the right
- Mirror package comprising rear-view mirrors at front left and right as well as a forward-pointing mirror at the left of the operator's platform
- Reversing horn with clear audible signal
- Scraper height is shown on the display

**CHASSIS AND HEIGHT ADJUSTMENT**

- Hydraulic height adjustment of the front and rear track units at two speeds

**MISCELLANEOUS**

- Large tool package
- Device for towing away
- Extensive safety package with several EMERGENCY STOP switches
- European design type certification, EuroTest mark and CE conformity

**List price ex subsidiary Wirtgen America****USD****505,427.00****Mandatory Options****Exhaust Gas After Treatment**

Exhaust after-treatment by diesel oxidation catalytic converter DOC in exhaust emissions category EU Stage 4 / US Tier 4f. Without diesel particulate filter.	<b>Standard</b>	<b>2490140</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

Exhaust after-treatment by diesel oxidation catalyst DOC in exhaust emissions category EU Stage 4 / US Tier 4f. Additionally equipped with diesel particulate filter (DPF) - for operation e.g. in halls or in environmental zones with limited fine dust emission.	<b>Option</b>	<b>2490141</b>	<b>USD</b>	<b>13,504.00</b>
---	---------------	----------------	------------	------------------

**Crawler units**

Configuration with 4 driven track units. The two front track units are steered. The track unit at the rear right is hydraulically slewing and also steers. Traveling speed max. 3.6 mph / 5.8 km/h.	<b>Standard</b>	<b>2777141</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

**Milling drum housing**

Wear-resistant milling drum housing FB1200 (3 ft 11 in) without milling drum	<b>Standard</b>	<b>2336167</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

**Milling drums / milling units**

Milling drum with milling width 1200 mm / 3 ft / 11 in, tool spacing 15 mm / 19/32 in, equipped with quick-change toolholder system HT22 and 115 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.	<b>Standard</b>	<b>2308578</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

**Operator's platform**

Standard operator's seat with shock absorption and lengthways adjustment	<b>Standard</b>	<b>2412488</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

Comfort operator's seat incl. seat heating. The operator's seat has shock absorption, lengthways adjustment and can be swiveled through a total of 50 degrees.	<b>Option</b>	<b>2412489</b>	<b>USD</b>	<b>1,154.00</b>
--	---------------	----------------	------------	-----------------

**Hydraulic connection**

Machine with hydraulic pre-fitting for a discharge conveyor with screw coupling. Each contains the coupling element on the machine side and the discharge conveyor side.	<b>Standard</b>	<b>2412477</b>	<b>USD</b>	<b>0.00</b>
--	-----------------	----------------	------------	-------------

**Material transport**

Discharge conveyor 26 ft 9 in / 8,150 mm long with conveyor belt width 2 ft / 600 mm and hydraulic folding device for shortening the transport length or simplified maneuvering in narrow fields.	<b>Standard</b>	<b>2336175</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

<b>Paint</b>				
Painting in cream RAL 9001 with orange stripes. The complete lower part of the machine is painted in slate grey RAL 7015.	Standard	2764944	USD	0.00
Monocolor special painting. Cream white color is replaced by a special color (RAL according to customer). The complete lower part of the machine is painted in slate grey RAL 7015.	Option	2764945	USD	1,561.00
Film coating in cream RAL 9001 with orange stripes. The complete lower part of the machine is foiled in slate grey RAL 7015.	Option	2763472	USD	2,348.00
The film coating is done in RAL colours according to the customer's wishes. Film coating provides protection against mechanical and weather-related conditions and can be removed, if necessary, without leaving any marks.	Option	2763473	USD	3,162.00
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	Standard	2456347	USD	0.00
<b>Service documentation</b>				
Spare part and application documentation English (EN)	Standard	2456404	USD	0.00
<b>Warranty</b>				
Standard warranty 12 months or 1000 engine operational hours	Standard	100772	USD	0.00
<b>Telematics</b>				
WITOS FleetView includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	Standard	2483436	USD	0.00
<b>Machine lighting</b>				
Lighting system consisting of 4 halogen and 8 LED working lights. The headlights illuminate the area in front of the machine, both machine sides, the area in front of the milling drum unit, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 19,500 lumen in total.	Standard	2487614	USD	0.00
High-performance lighting system consisting of 1 halogen and 14 LED working lights. The headlights illuminate the area in front of and behind the machine, both machine sides, the area in front of the milling drum unit, the loading area, the weather canopy, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 26,300 lumen in total. LED working lights are extremely bright, shock-resistant and durable.	Option	2487615	USD	936.00
<b>Equipment Options</b>				
<b>Exhaust air filter</b>				
VCS - Vacuum Cutting System on the discharge conveyor, for extraction of fine material particles and water vapor from the sealed milling unit.	Option	2336913	USD	8,251.00

<b>Advance drive</b>				
Equipment of the machine with precision steering. Pushbuttons on the multi-function armrests with a proportional response permit more precise steering of the machine.	Option	2478488	USD	1,710.00
<b>Equipment operator's platform</b>				0.00
Operator's platform with weather canopy. The weather canopy is hydraulically adjustable in height and provides additional comfort during on-site operation. Including LED working light for illuminating the footstep. (Only in conjunction with electrohydraulic unit.)	Option	2336173	USD	8,156.00
<b>Milling drum assembly options</b>				
Overload sensor on the scraper FB1200 for automatic lifting function in case of obstacles. Effectively prevents the scraper from sinking into the loose sub-base, as well as getting stuck on obstacles.	Option	2478959	USD	2,701.00
Active floating position on the side plate right and left by continuous comparison between the milling depth and position of the side plate. If required, the side plate is lifted briefly to prevent tilting or sinking into a soft sub-base. (Only possible in conjunction with LEVEL PRO PLUS.)	Standard	2478486	USD	0.00
<b>Cold-start device</b>				
Electrical preheating of the fuel filter for maintaining free-flow properties of the fuel at low outside temperatures. Used for ensuring operating capability at temperatures below 32 degrees Fahrenheit / 0 degrees Celsius.	Option	2377357	USD	746.00
<b>Options for belt conveyor</b>				
Signal lights on the loading conveyor for a visual truck stop-and-go control without using the horn. The signal lights can be folded in hydraulically from the operator's platform.	Option	2409818	USD	6,392.00
<b>Leveling</b>				
Expansion of the LEVEL PRO PLUS leveling system by a SONIC SKI sensor. Ideal for contact-free wire and soil scanning. Including	Option	2352878	USD	5,727.00
<b>Leveling</b>				
Expansion of the leveling system for multiplex system package 3-way right, including 2 x ultrasonic sensors, and connection cable. (FB1000/1200)	Option	2544246	USD	3,651.00
Expansion of the leveling system to make multiplex system package 3-way right and 3-way left, including 4 x ultrasonic sensors and connection cable. (FB1000/1200)	Option	2544249	USD	7,288.00
Expansion of the leveling system for multiplex system package 3-way right, including 2 x ultrasonic sensors, and connection cable. (FB1300)	Option	2603878	USD	3,651.00
Expansion of the leveling system to make multiplex system package 3-way right and 3-way left, including 4 x ultrasonic sensors and connection cable. (FB1300)	Option	2603881	USD	7,288.00

<b>Leveling</b>				
The pre-fitting 3D laser leveling includes the required mechanical and electrical components for adaptation of a 3D laser leveling system on the machine. The exact positioning and robust configuration of the sensor masts form the basis for optimum working results. The supplied connection box provides for a simple and safe connection of the 3D system without 3D system	Option	2544251	USD	4,479.00
Expansion leveling system with basic equipment laser leveling, including holder and laser receiver, without laser transmitter	Option	2544252	USD	15,227.00
<b>Attachments</b>				
Battery-operated electro-hydraulic unit for operation of the machine hydraulics with the diesel engine switched off. (e.g. height adjustment of weather canopy, milling drum rotation device and hydraulic pick extractor drift)	Option	2412494	USD	3,379.00
<b>Water system</b>				
Hydraulically operated high-pressure water cleaner with a maximum performance of 15 l/min at 150 bar pressure. Ideal for daily cleaning of the machine.	Option	2336231	USD	3,909.00
<b>Pick changing aids</b>				
Integrated air compressor system with pressure accumulator and filling points. Precondition for operation of compressed air tools (e.g. pneumatic hammers).	Option	2353106	USD	6,216.00
Pneumatic hammer with two pick extractor and inserter tools each as well as 5.00 m / 16 ft 5 in hose.	Option	60604	USD	461.00
Hydraulically driven pick extractor drift, complete with holder and corresponding electrical and hydraulic connectors. Ideal for convenient and quiet pick change.	Option	2352889	USD	3,461.00
Milling drum rotation device with electrohydraulic milling drum drive for slowly turning the milling drum during pick replacement.	Option	2352893	USD	3,379.00
<b>Wirtgen information and diagnostic system</b>				
Equipment of the machine with job data acquisition. The information is shown in the control display.	Option	2410294	USD	1,113.00
<b>Camera system</b>				
Monitor system as maneuvering aid with 2 cameras and screen. A camera is mounted on the discharge conveyor and displays the loading of the truck. The 2nd camera shows the area in front of the milling drum housing. The camera images are displayed on the screen.	Option	2487637	USD	5,496.00
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	Option		USD	81.00

<sup>1</sup>Option must be ordered from headquarters.

Date: 8/28/2019

## Price list

### W 120 Ri

#### Scope of supply – basic machine

- Engine: 6-CYLINDER DIESEL ENGINE TYPE DEUTZ TCD 6.1 L6 AG 4f
- Rated engine power 2300 r.p.m.: 160 kW / 214.6 HP / 217.5 PS
- Exhaust standard: EU Stage 4 / US Tier 4f
- Standard milling width: 3 ft 11 in / 1200 mm
- Theoretical milling depth: 1 ft / 300 mm

#### SCOPE OF SUPPLY OF THE BASIC MACHINE

- Engine cover with noise insulation and flexibly decoupled engine mounting for especially quiet running and low noise emissions

#### MILLING DRUM UNIT

- Automatically activating, hydraulic drive belt tensioner for reliable power transmission to the milling drum
- Hydraulically lifting side plate right and left
- Round milling drum housing and straight left side plate for optimum material transport, making for low left-over amounts when lifting out the milling drum
- The right side of the milling drum housing can easily be folded down for maintenance or milling drum change
- Optimized for quick change of the milling drum, including by using centering pins with the side door of the milling drum housing
- With automatic electrical safety shut-off for the milling drum

#### LOADING OF MILLED MATERIAL

- Machine prepared for optional material loading by discharge conveyor
- Conveyor speed continuously variable
- Conveyor slewing angle right/left 25 degrees each for significantly improved loading procedures

#### OPERATOR'S PLATFORM

- Operator's platform with ergonomically arranged operator's seat, control panel arranged on the right and digital milling depth indicator in the control display
- Steering console with adjustable rake and reach for ideal adaptation of the operator's platform to the operator
- 3 mirrors
- Machine design permits unobstructed view of the milled edge at the right and left as well as the working area in front of the milling drum on the right
- Conveniently accessible ladder/footstep to the operator's platform with night-time lighting and especially low, folding bottom edge of the ladder/footstep
- Robust anti-vandalism protection for the controls

#### CHASSIS AND HEIGHT ADJUSTMENT

- Precise machine height adjustment in 0.04 or 0.2 in /1 or 5 mm steps from the machine control panel
- Infinitely variable, hydraulic all-wheel drive with three speed ranges
- Digital load control, manual engageable, hydraulic differential lock (by flow distributor)
- Wide solid rubber tires for the lowest ground pressures and optimum traction
- For milling along curb edges, the rear right support wheel can be swiveled hydraulically from the operator's platform in front of the milling drum.
- Hydraulic spring-loaded brake
- Proportional height adjustment at rear

#### MISCELLANEOUS

- Flexible weight concept by optional additional weights
- Particularly low machine center of gravity for high stability of the machine
- Robust and easily maintained machine chassis with optimum ground clearance and short overhangs
- Device for towing away
- Reversing horn
- Large tool package with lockable tool box and additional storage space for two pick containers
- Pre-fitting for installing the WITOS FleetView control unit
- European design type certification, EuroTest mark and CE conformity

List price ex subsidiary Wirtgen America

USD 359,765.00

Mandatory Options				
Milling drum housing				
Wear-resistant milling drum housing FB1200 (3 ft 11 in) without milling drum	Standard	2365921	USD	0.00
Wear-resistant milling drum housing FB1200 (3 ft 11 in) FCS-Light, with pre-fitting enabling a quick and easy change of milling drums with varying spacings and equal milling widths, without milling drum.	Option	2365922	USD	7,193.00
Milling drums / milling units				
Milling drum with milling width 1200 mm / (3 ft 11 in), tool spacing 18 mm / 45/64 in, equipped with quick-change toolholder system HT22 and 101 picks. For a wide range of applications, e.g. removal of surface and binder layer or complete removal of road surfaces.	Standard	2371942	USD	0.00
Material depressor / milling unit seal front				
Front milling drum unit seal FB1200 (3 ft 11 in) with hydraulic height and contact pressure adjustment. An overload sensor with lifting function lifts the seal briefly in case of a collision and thus prevents damage.	Standard	2365927	USD	0.00
Operator's platform				
Standard operator's seat with shock absorption and lengthways adjustment	Standard	2365928	USD	0.00
Comfort operator's seat incl. seat heating. The operator's seat has shock absorption, lengthways adjustment and can be swiveled through 20 degrees.	Option	2365929	USD	1,031.00
Operator's platform				
Flexibly mounted operator's platform, without weather canopy.	Standard	2365930	USD	0.00
Operator's platform with weather canopy and lateral weather protection elements. The weather canopy can be adjusted in height hydraulically. The transparent weather protection elements on the side on the roof and the right of the operator's platform protect the operator against the effects of weather driving in from the sides, and ensure additional comfort when working. (FB1000)	Option	2436568	USD	8,564.00
Operator's platform with weather canopy and lateral weather protection elements. The weather canopy can be adjusted in height hydraulically. The transparent weather protection elements on the side on the roof and the right of the operator's platform protect the operator against the effects of weather driving in from the sides, and ensure additional comfort when working. (FB1200)	Option	2523456	USD	8,564.00
Milling depth regulation				
LEVEL PRO PLUS leveling system. The measurement is made using cylinder sensors on the side plate right and left. The milling depth is displayed and set intuitively on the LEVEL PRO PLUS control display. The milling depth is regulated automatically. Incl. pre-fitting for additional sensors (e.g. Rapid Slope).	Standard	2365933	USD	0.00

<b>Hydraulic connection</b>				
Machine with hydraulic pre-fitting for a discharge conveyor with screw coupling. Each contains the coupling element on the machine side and the discharge conveyor side.	<b>Standard</b>	<b>2370564</b>	<b>USD</b>	<b>0.00</b>
Machine with hydraulic pre-fitting for a discharge conveyor with quick-change coupling. For quick change of the discharge conveyor. Each contains the coupling element on the machine side and the discharge conveyor side.	<b>Option</b>	<b>2370565</b>	<b>USD</b>	<b>1,086.00</b>
<b>Material transport</b>				
Discharge conveyor 7,350 mm / 24 ft 1 in long with conveyor belt width 500 mm / 1 ft 8 in and hydraulic folding device for shortening the transport length or simplified maneuvering in narrow fields. Including an LED working light for illuminating the ejection area. Discharge conveyor including mechanical installation and removal assistance.	<b>Standard</b>	<b>2370568</b>	<b>USD</b>	<b>0.00</b>
<b>Paint</b>				
Painting in cream RAL 9001 with orange stripes. The complete lower part of the machine is painted in slate grey RAL 7015.	<b>Standard</b>	<b>2459686</b>	<b>USD</b>	<b>0.00</b>
Monocolor special painting. Cream white color is replaced by a special color (RAL according to customer). The complete lower part of the machine is painted in slate grey RAL 7015.	<b>Option</b>	<b>2459688</b>	<b>USD</b>	<b>1,561.00</b>
Two-color special painting. Cream color is replaced by two special colors (each RAL acc. to customer request). The complete lower part of the machine is painted in slate gray RAL 7015.	<b>Option</b>	<b>2459690</b>	<b>USD</b>	<b>10,029.00</b>
Multi-color special painting. Cream color is replaced by a maximum of two special colors (RAL acc. to customer request). In addition, the lower part of the machine is painted in one special color (RAL acc. to customer request).	<b>Option</b>	<b>2459691</b>	<b>USD</b>	<b>15,756.00</b>
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	<b>Standard</b>	<b>2456347</b>	<b>USD</b>	<b>0.00</b>
<b>Service documentation</b>				
Spare part and application documentation English (EN)	<b>Standard</b>	<b>2456404</b>	<b>USD</b>	<b>0.00</b>
<b>Warranty</b>				
Standard warranty 12 months or 1000 engine operational hours	<b>Standard</b>	<b>100772</b>	<b>USD</b>	<b>0.00</b>
<b>Telematics</b>				
WITOS FleetView includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	<b>Standard</b>	<b>2483436</b>	<b>USD</b>	<b>0.00</b>

<b>Machine lighting</b>				
Lighting system consisting of 1 LED strip, 3 halogen and 8 LED working lights. The headlights illuminate the area in front of the machine, the left machine side, the area in front of the milling drum unit, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 16,700 lumen in total.	Standard	2487612	USD	0.00
High-performance lighting system consisting of 2 LED strips, 1 halogen and 12 LED working lights. The headlights illuminate the area in front of the machine, the rear of the machine, the left machine side from the front and rear, the area in front of the milling drum unit, the wheel arch, the weather canopy, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 23,300 lumen in total. LED working lights are extremely bright, shock-resistant and durable.	Option	2487613	USD	923.00
<b>Crawler units</b>				
The machine is equipped with a front axle for using a milling unit with a width of 1.000 mm / 1.200 mm.	Standard	2589208	USD	0.00
<b>Equipment Options</b>				
<b>Additional weight</b>				
Additional weight 400 kg / 881 lb for four-wheel machine. 100 kg / 220 lb additional weight can be mounted in each rim. The additional weight can improve working under extreme conditions, although does increase the transport weight of the machine.	Option	2462950	USD	5,374.00
<b>Advance drive</b>				
Machine (FB1000 / FB1200) equipped for increased transfer speed with more powerful hydraulic components (up to 7,5 km/h / 4,5 mph). Construction site operations are significantly faster due to the increased transfer speed of the machine.	Standard	2370563	USD	0.00
Machine equipped with precision steering (FB1000/1200). Proportional push-buttons on the multi-function armrest enable the machine to be steered more precisely.	Standard	2478483	USD	0.00
<b>Milling drum assembly options</b>				
Overload sensor on the scraper FB1000/1200 for automatic lifting function in case of obstacles. Effectively prevents the scraper from sinking into the loose sub-base, as well as getting stuck on obstacles.	Option	2478481	USD	1,751.00
Active floating position on the side plate right and left by continuous comparison between the milling depth and position of the side plate. If required, the side plate is lifted briefly to prevent tilting or sinking into a soft sub-base. (Only possible in conjunction with LEVEL PRO PLUS.)	Option	2478486	USD	1,656.00
<b>Device for milling drum change</b>				
Milling drum assembly trolley for milling drums up to FB1300 (4 ft 3 in), for straightforward milling drum change	Option	105240	USD	2,633.00
Assembly aid for the fast milling drum change	Option	101056	USD	1,276.00

<b>Cold-start device</b>				
Electric preheating of the fuel filter for maintaining free-flow properties of the fuel at low outside temperatures. Used for ensuring operating capability at temperatures below 32 degrees Fahrenheit / 0 degrees Celsius.	Option	2468568	USD	394.00
<b>Options for belt conveyor</b>				
Hydraulic coupler on conveyor side for mounting on an additional discharge conveyor. For use on a machine pre-equipped with screw coupling.	Option	2370616	USD	163.00
<b>Lateral slope control</b>				
Expansion of the LEVEL PRO PLUS leveling system by a RAPID SLOPE sensor. Ideal, for example for aligning the machine in a defined lateral tilt on a one-sided reference.	Option	2370620	USD	4,004.00
Expansion of the LEVEL PRO PLUS leveling system by a leveling boom that can be moved out on the left side. The boom can be moved out hydraulically if required by up to 43 in / 1,080 mm and mechanically by a further 40 in / 1,020 mm. Including sensor and cable as well as LED position lights for indicating the moved-out boom.	Option	2417339	USD	5,496.00
<b>Water system / spraying agent system</b>				
Hydraulically driven water filler pump. For rapid filling of the water tank. The filler pump is located in an easily accessible position and is protected in the storage compartment at the ladder/footstep to the operator's platform.	Option	2511836	USD	2,701.00
<b>Pick changing aids</b>				
Hydraulically driven pick extractor with holder and corresponding electrical and hydraulic connectors. Ideal for a convenient, fast and quiet cutting tool replacement.	Option	2370621	USD	3,461.00
<b>Wirtgen information and diagnostic system</b>				
Equipment of the machine with job data acquisition. The information is shown in the control display.	Standard	2410294	USD	0.00
<b>Camera system</b>				
Monitor system as maneuvering aid with two cameras and screen. A camera is mounted on the discharge conveyor and displays the loading of the truck. The 2nd camera shows the area in front of the milling drum housing. The camera images are displayed on the screen.	Option	2487627	USD	4,967.00
<b>Other devices</b>				
License plate holder with LED lighting to comply with country-specific regulations.	Option	2655778	USD	434.00
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	Option		USD	81.00
Date: 3/6/2019				

## Price list

### W 130 Xfi - FCS

#### Scope of supply – basic machine

- Engine: 6-CYLINDER DIESEL ENGINE TYPE CUMMINS QSL9 C-300
- Rated engine power 2100 r.p.m.: 248 kW / 333 HP / 337 PS
- Maximum power at 1900 r.p.m.: 257 kW / 345 HP / 350 PS
- Exhaust standard: US Tier 4f
- Standard milling width: 4 ft 3 in / 1300 mm
- Theoretical milling depth: 1 ft 1 in / 330 mm

#### STANDARD EQUIPMENT

- Basic machine with engine
- Mechanically opening engine cowling with noise insulation
- Radiator with temperature-dependent fan speed
- Highly effective noise insulation throughout the engine compartment
- Automatic engine speed control depending on driving situation
- Elastically mounted engine station with low vibration and low noise

#### MILLING DRUM HOUSING

- The right side of the milling drum housing can easily be folded down for maintenance or milling drum change
- Hydraulically operated scraper with mechanical locking

#### LOADING OF MILLED MATERIAL

- Discharge conveyor slewing angle left 60 degrees – right 60 degrees
- Two slewing speeds on the hydraulically foldable discharge conveyor with an adjustable conveying speed for precise loading

#### MACHINE CONTROL AND LEVELLING SYSTEM

- Digital milling depth indicator in the machine control display
- LEVEL PRO PLUS leveling system right and left
- RAPID SLOPE cross-slope sensor for LEVEL PRO ACTIVE leveling system
- Precise machine height adjustment in 1 or 5 mm steps on the main control panel of the machine
- Digital load control, manual engageable, hydraulic differential lock (by flow distributor)

#### OPERATOR'S PLATFORM

- Hydraulically extending operator's platform for optimum visibility of the working area
- Steering console with adjustable rake and reach for ideal adaptation of the operator's platform to the operator
- Slender machine design permits unobstructed view of the milled edge as well as the working area in front of the milling drum on the right

- Conveniently accessible ladder/footstep to the operator's platform with night-time lighting and especially low bottom edge of the latter/footstep
- Robust anti-vandalism protection for the controls
- Mirror package comprising rear-view mirrors at front left and right as well as a forward-pointing mirror at the left of the operator's platform
- Reversing horn with clear audible signal
- Illuminated control panel / nighttime design
- Scraper height is shown on the display

#### CHASSIS AND HEIGHT ADJUSTMENT

- Hydraulic height adjustment of the front and rear track units at two speeds

#### MISCELLANEOUS

- Large tool package
- Device for towing away
- Generously sized water and diesel tanks
- Extensive safety package with several EMERGENCY STOP switches
- Pre-fitting for installing the WITOS FleetView control unit
- European design type certification, EuroTest mark and CE conformity

<b>List price ex subsidiary Wirtgen America</b>	<b>USD</b>	<b>607,281.00</b>
---	------------	-------------------

#### Mandatory Options

##### Exhaust Gas After Treatment

Exhaust after-treatment by diesel oxidation catalytic converter DOC in exhaust emissions category EU Stage 4 / US Tier 4f. Without diesel particulate filter.	<b>Standard</b>	<b>2490140</b>	<b>USD</b>	<b>0.00</b>
Exhaust after-treatment by diesel oxidation catalyst DOC in exhaust emissions category EU Stage 4 / US Tier 4f. Additionally equipped with diesel particulate filter (DPF) for operation e.g. in halls or in environmental zones with limited fine dust emission.	<b>Option</b>	<b>2490141</b>	<b>USD</b>	<b>13,504.00</b>

##### Crawler units

Configuration with 4 driven track units. The two front track units are steered. The track unit at the rear right is hydraulically slewing and also steers. Traveling speed max. 3.6 mph / 5.8 km/h.	<b>Standard</b>	<b>2777141</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

##### Milling drum housing

Wear-resistant milling drum housing FB1300 (4 ft 3 in) FCS with pre-fitting enabling a quick and easy change of the milling drums with varying spacings and milling widths, without milling drum.	<b>Standard</b>	<b>2336170</b>	<b>USD</b>	<b>0.00</b>
---	-----------------	----------------	------------	-------------

<b>Milling drums / milling units</b>				
FCS milling drum with milling width 1300 / 4 ft / 3 in, tool spacing 15 mm / 19/32 in, equipped with quick-change toolholder system HT22 and 121 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.	Standard	2308218	USD	0.00
<b>OPERATOR'S PLATFORM</b>				
Standard operator's seat with shock absorption and lengthways adjustment	Standard	2412488	USD	0.00
<b>Hydraulic connection</b>				
Machine with hydraulic pre-fitting for a discharge conveyor with screw coupling. Each contains the coupling element on the machine side and the discharge conveyor side.	Standard	2412477	USD	0.00
<b>Material transport</b>				
Discharge conveyor 26 ft 9 in / 8,150 mm long with conveyor belt width 2 ft / 600 mm and hydraulic folding device for shortening the transport length or simplified maneuvering in narrow fields.	Standard	2336175	USD	0.00
<b>Paint</b>				
Painting in cream RAL 9001 with orange stripes. The complete lower part of the machine is painted in slate grey RAL 7015.	Standard	2336323	USD	0.00
Monocolor special painting. Cream white color is replaced by a special color (RAL according to customer). The complete lower part of the machine is painted in slate grey RAL 7015.	Option	2336324	USD	1,561.00
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	Standard	2456347	USD	0.00
<b>Service documentation</b>				
Spare part and application documentation English (EN)	Standard	2456404	USD	0.00
<b>Warranty</b>				
Standard warranty 12 months or 1000 engine operational hours	Standard	100772	USD	0.00

<b>Telematics</b>				
WITOS FleetView includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	Standard	2483436	USD	0.00
<b>Machine lighting</b>				
Lighting system consisting of 4 halogen and 8 LED working lights. The headlights illuminate the area in front of the machine, both machine sides, the area in front of the milling drum unit, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 19,500 lumen in total.	Standard	2487614	USD	0.00
High-performance lighting system consisting of 1 halogen and 14 LED working lights. The headlights illuminate the area in front of and behind the machine, both machine sides, the area in front of the milling drum unit, the loading area, the weather canopy, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 26,300 lumen in total. LED working lights are extremely bright, shock-resistant and durable.	Option	2487615	USD	936.00
<b>Equipment Options</b>				
<b>Exhaust air filter</b>				
VCS - Vacuum Cutting System on the discharge conveyor, for extraction of fine material particles and water vapor from the sealed milling unit.	Option	2336913	USD	8,251.00
<b>Advance drive</b>				
Equipment of the machine with precision steering. Pushbuttons on the multi-function armrests with a proportional response permit more precise steering of the machine.	Standard	2478488	USD	0.00

<b>Equipment operator's platform</b>				
Operator's platform with weather canopy. The weather canopy is hydraulically adjustable in height and provides additional comfort during on-site operation. Including LED working light for illuminating the footstep. (Only in conjunction with electrohydraulic unit.)	Option	2336173	USD	8,156.00
<b>Milling drum assembly options</b>				
Active floating position on the side plate right and left by continuous comparison between the milling depth and position of the side plate. If required, the side plate is lifted briefly to prevent tilting or sinking into a soft sub-base. (Only possible in conjunction with LEVEL PRO PLUS.)	Standard	2478486	USD	0.00
<b>Device for milling drum change</b>				
Milling drum assembly trolley for milling drums up to FB1300 (4 ft 3 in), for straightforward milling drum change	Option	105240	USD	2,633.00
<b>Additional milling units</b>				
FCS tandem scraper FB1300 (4 ft 3 in) with necessary hydraulic and electrical systems. For the use of milling drums smaller than FB1300 (4 ft 3 in). The min. milling width for material loading onto the loading belt is FB750	Standard	2351477	USD	0.00
FCS milling unit FB300 (12") LA15, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 61 RS picks, including scraper bottom part FB300 (12")	Option	2308611	USD	14,983.00
FCS milling unit FB600 (24") LA12, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 80 picks, including scraper bottom part FB600 (24")	Option	2308615	USD	24,225.00
FCS milling unit FB900 (2 ft 11 in) LA15, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 102 RS picks, including scraper bottom part FB900 (2 ft 11 in)	Option	2308621	USD	37,864.00

<b>Cold-start device</b>				
Electrical preheating of the fuel filter for maintaining free-flow properties of the fuel at low outside temperatures. Used for ensuring operating capability at temperatures below 32 degrees Fahrenheit / 0 degrees Celsius.	Option	2377357	USD	746.00
<b>Options for belt conveyor</b>				
Signal lights on the loading conveyor for a visual truck stop-and-go control without using the horn. The signal lights can be folded in hydraulically from the operator's platform.	Option	2409818	USD	6,392.00
<b>Leveling</b>				
Expansion of the LEVEL PRO PLUS leveling system by a SONIC SKI sensor. Ideal for contact-free wire and soil scanning. Including connection cable and holder.	Option	2352878	USD	5,727.00
<b>Leveling</b>				0.00
Expansion of the leveling system for multiplex system package 3-way right, including 2 x ultrasonic sensors, and connection cable. (FB1000/1200)	Option	2544246	USD	3,651.00
Expansion of the leveling system to make multiplex system package 3-way right and 3-way left, including 4 x ultrasonic sensors and connection cable. (FB1000/1200)	Option	2544249	USD	7,288.00
<b>Attachments</b>				
Battery-operated electro-hydraulic unit for operation of the machine hydraulics with the diesel engine switched off. (e.g. height adjustment of weather canopy, milling drum rotation device and hydraulic pick extractor drift)	Standard	2412494	USD	0.00
<b>Water system</b>				
Hydraulically operated high-pressure water cleaner with a maximum performance of 15 l/min at 150 bar pressure. Ideal for daily cleaning of the machine.	Option	2336231	USD	3,909.00
<b>Pick changing aids</b>				
Milling drum rotation device with electrohydraulic milling drum drive for slowly turning the milling drum during pick replacement.	Standard	2352893	USD	0.00
<b>Wirtgen information and diagnostic system</b>				
Equipment of the machine with job data acquisition. The information is shown in the control display.	Standard	2410294	USD	0.00

<b>Camera system</b>				
Monitor system as maneuvering aid with 2 cameras and screen. A camera is mounted on the discharge conveyor and displays the loading of the truck. The 2nd camera shows the area in front of the milling drum housing. The camera images are displayed on the screen.	Option	2487637	USD	5,496.00
<b>Other devices</b>				
License plate holder with LED lighting to comply with country-specific regulations.	Option	2659037	USD	434.00
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	Option		USD	81.00

Standard operator's seat with shock absorption and lengthways adjustment	Standard	2412488	USD	0.00
<b>Hydraulic connection</b>				
Machine with hydraulic pre-fitting for a discharge conveyor with screw coupling. Each contains the coupling element on the machine side and the discharge conveyor side.	Standard	2412477	USD	0.00
<b>Material transport</b>				
Discharge conveyor 26 ft 9 in / 8,150 mm long with conveyor belt width 2 ft / 600 mm and hydraulic folding device for shortening the transport length or simplified maneuvering in narrow fields.	Standard	2336175	USD	0.00
<b>Paint</b>				
Painting in cream RAL 9001 with orange stripes. The complete lower part of the machine is painted in slate grey RAL 7015.	Standard	2336323	USD	0.00
Monocolor special painting. Cream white color is replaced by a special color (RAL according to customer). The complete lower part of the machine is painted in slate grey RAL 7015.	Option	2336324	USD	1,561.00
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	Standard	2456347	USD	0.00
<b>Service documentation</b>				
Spare part and application documentation English (EN)	Standard	2456404	USD	0.00
<b>Warranty</b>				
Standard warranty 12 months or 1000 engine operational hours	Standard	100772	USD	0.00

<b>Telematics</b>				
WITOS FleetView includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	<b>Standard</b>	<b>2483436</b>	<b>USD</b>	<b>0.00</b>
<b>Machine lighting</b>				
Lighting system consisting of 4 halogen and 8 LED working lights. The headlights illuminate the area in front of the machine, both machine sides, the area in front of the milling drum unit, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 19,500 lumen in total.	<b>Standard</b>	<b>2487614</b>	<b>USD</b>	<b>0.00</b>
High-performance lighting system consisting of 1 halogen and 14 LED working lights. The headlights illuminate the area in front of and behind the machine, both machine sides, the area in front of the milling drum unit, the loading area, the weather canopy, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 26,300 lumen in total. LED working lights are extremely bright, shock-resistant and durable.	<b>Option</b>	<b>2487615</b>	<b>USD</b>	<b>936.00</b>
<b>Equipment Options</b>				
<b>Exhaust air filter</b>				
VCS - Vacuum Cutting System on the discharge conveyor, for extraction of fine material particles and water vapor from the sealed milling unit.		<b>2336913</b>	<b>USD</b>	<b>8,251.00</b>
<b>Advance drive</b>				
Equipment of the machine with precision steering. Pushbuttons on the multi-function armrests with a proportional response permit more precise steering of the machine.	<b>Standard</b>	<b>2478488</b>	<b>USD</b>	<b>0.00</b>
<b>Equipment operator's platform</b>				
Operator's platform with weather canopy. The weather canopy is hydraulically adjustable in height and provides additional comfort during on-site operation. Including LED working light for illuminating the footstep. (Only in conjunction with electrohydraulic unit.)	<b>Option</b>	<b>2336173</b>	<b>USD</b>	<b>8,156.00</b>
<b>Milling drum assembly options</b>				
Active floating position on the side plate right and left by continuous comparison between the milling depth and position of the side plate. If required, the side plate is lifted briefly to prevent tilting or sinking into a soft sub-base. (Only possible in conjunction with LEVEL PRO PLUS.)	<b>Standard</b>	<b>2478486</b>	<b>USD</b>	<b>0.00</b>

<b>Device for milling drum change</b>				
Milling drum assembly trolley for milling drums up to FB1300 (4 ft 3 in), for straightforward milling drum change	Option	105240	USD	2,633.00
<b>Additional milling units</b>				
FCS tandem scraper FB1300 (4 ft 3 in) with necessary hydraulic and electrical systems. For the use of milling drums smaller than FB1300 (4 ft 3 in). The min. milling width for material loading onto the loading belt is FB750	Standard	2351477	USD	0.00
FCS milling unit FB300 (12") LA15, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 61 RS picks, including scraper bottom part FB300 (12")	Option	2308611	USD	14,983.00
FCS milling unit FB600 (24") LA12, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 80 picks, including scraper bottom part FB600 (24")	Option	2308615	USD	24,225.00
FCS milling unit FB900 (2 ft 11 in) LA15, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 102 RS picks, including scraper bottom part FB900 (2 ft 11 in)	Option	2308621	USD	37,864.00
<b>Cold-start device</b>				
Electric preheating of the fuel filter for maintaining free-flow properties of the fuel at low outside temperatures. Used for ensuring operating capability at temperatures below 32 degrees Fahrenheit / 0 degrees Celsius.	Option	2377357	USD	746.00
<b>Options for belt conveyor</b>				
Signal lights on the loading conveyor for a visual truck stop-and-go control without using the horn. The signal lights can be folded in hydraulically from the operator's platform.	Option	2409818	USD	6,392.00
<b>Leveling</b>				
Expansion of the LEVEL PRO PLUS leveling system by a SONIC SKI sensor. Ideal for contact-free wire and soil scanning. Including connection cable and holder.	Option	2352878	USD	5,727.00

<b>Leveling</b>				
Expansion of the leveling system for multiplex system package 3-way right, including 2 x ultrasonic sensors, and connection cable. (FB1000/1200)	Option	2544246	USD	3,651.00
Expansion of the leveling system to make multiplex system package 3-way right and 3-way left, including 4 x ultrasonic sensors and connection cable. (FB1000/1200)	Option	2544249	USD	7,288.00
<b>Attachments</b>				
Battery-operated electro-hydraulic unit for operation of the machine hydraulics with the diesel engine switched off. (e.g. height adjustment of weather canopy, milling drum rotation device and hydraulic pick extractor drift)	Standard	2412494	USD	0.00
<b>Water system</b>				
Hydraulically operated high-pressure water cleaner with a maximum performance of 15 l/min at 150 bar pressure. Ideal for daily cleaning of the machine.	Option	2336231	USD	3,909.00
<b>Pick changing aids</b>				
Milling drum rotation device with electrohydraulic milling drum drive for slowly turning the milling drum during pick replacement.	Standard	2352893	USD	0.00
<b>Wirtgen information and diagnostic system</b>				
Equipment of the machine with job data acquisition. The information is shown in the control display.	Standard	2410294	USD	0.00
<b>Camera system</b>				
Monitor system as maneuvering aid with 2 cameras and screen. A camera is mounted on the discharge conveyor and displays the loading of the truck. The 2nd camera shows the area in front of the milling drum housing. The camera images are displayed on the screen.	Option	2487637	USD	5,496.00
<b>Other devices</b>				
License plate holder with LED lighting to comply with country-specific regulations.	Option	2659037	USD	434.00
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	Option		USD	81.00

<sup>1</sup>Option must be ordered from headquarters.

Date: 3/6/2019

**Price list****W 130 Cfi - Non FCS****Scope of supply – basic machine**

- Engine: 6-CYLINDER DIESEL ENGINE TYPE CUMMINS QSL9 C-300
- Rated engine power 2100 r.p.m.: 248 kW / 333 HP / 337 PS
- Maximum power at 1900 r.p.m.: 257 kW / 345 HP / 350 PS
- Exhaust standard: EU Stage 4 / US Tier 4f
- Standard milling width: 4 ft 3 in / 1300 mm
- Theoretical milling depth: 1 ft 1 in / 330 mm

**STANDARD EQUIPMENT**

- Basic machine with engine
- Mechanically opening engine cowling with noise insulation
- Radiator with temperature-dependent fan speed
- Highly effective noise insulation throughout the engine compartment
- Automatic engine speed control depending on driving situation
- Elastically mounted engine station with low vibration and low noise

**MILLING DRUM HOUSING**

- The right side of the milling drum housing can easily be folded down for maintenance or milling drum change
- Hydraulically operated scraper with mechanical locking

**LOADING OF MILLED MATERIAL**

- Discharge conveyor slewing angle left 60 degrees – right 60 degrees
- Two slewing speeds on the hydraulically foldable discharge conveyor with an adjustable conveying speed for precise loading

**MACHINE CONTROL AND LEVELLING SYSTEM**

- Digital milling depth indicator in the machine control display
- LEVEL PRO PLUS leveling system right and left
- RAPID SLOPE cross-slope sensor for LEVEL PRO ACTIVE leveling system
- Precise machine height adjustment in 1 or 5 mm steps on the main control panel of the machine
- Digital load control, manual engageable, hydraulic differential lock (by flow distributor)

**OPERATOR'S PLATFORM**

- Hydraulically extending operator's platform for optimum visibility of the working area
- Steering console with adjustable rake and reach for ideal adaptation of the operator's platform to the operator

<ul style="list-style-type: none"> <li>Slender machine design permits unobstructed view of the milled edge as well as the working area in front of the milling drum on the right</li> <li>Conveniently accessible ladder/footstep to the operator's platform with night-time lighting and especially low bottom edge of the latter/footstep</li> <li>Robust anti-vandalism protection for the controls</li> <li>Mirror package comprising rear-view mirrors at front left and right as well as a forward-pointing mirror at the left of the operator's platform</li> <li>Reversing horn with clear audible signal</li> <li>Illuminated control panel / nighttime design</li> <li>Scraper height is shown on the display</li> </ul>
<b>CHASSIS AND HEIGHT ADJUSTMENT</b>
<ul style="list-style-type: none"> <li>Hydraulic height adjustment of the front and rear track units at two speeds</li> </ul>
<b>MISCELLANEOUS</b>
<ul style="list-style-type: none"> <li>Large tool package</li> <li>Device for towing away</li> <li>Generously sized water and diesel tanks</li> <li>Extensive safety package with several EMERGENCY STOP switches</li> <li>Pre-fitting for installing the WITOS FleetView control unit</li> <li>European design type certification, EuroTest mark and CE conformity</li> </ul>
<div> <div>List price ex subsidiary Wirtgen America</div> <div>USD</div> <div>586,720.00</div> </div>

Mandatory Options				
Exhaust Gas After Treatment				
Exhaust after-treatment by diesel oxidation catalytic converter DOC in exhaust emissions category EU Stage 4 / US Tier 4f. Without diesel particulate filter.	Standard	2490140	USD	0.00
Exhaust after-treatment by diesel oxidation catalyst DOC in exhaust emissions category EU Stage 4 / US Tier 4f. Additionally equipped with diesel particulate filter (DPF) - for operation e.g. in halls or in environmental zones with limited fine dust emission.	Option	2490141	USD	13,504.00
Crawler units				
Configuration with 4 driven track units. The two front track units are steered. The crawler unit at the rear right is hydraulically slewing and also steers. Traveling speed max. 3.6 mph / 5.8 km/h.	Standard	2490142	USD	0.00

<b>Milling drum housing</b>				
Wear-resistant milling drum housing FB1300 (4 ft 3 in) without milling drum	Standard	2336169	USD	0.00
<b>Milling drums / milling units</b>				
Milling drum with milling width 1300 / 4 ft / 3 in, tool spacing 15 mm / 19/32 in, equipped with quick-change toolholder system HT22 and 121 picks. For a wide range of applications, e.g. removal of surface and binder layer, complete removal of road surfaces or concrete milling work.	Standard	2308581	USD	0.00
<b>Operator's platform</b>				
Standard operator's seat with shock absorption and lengthways adjustment	Standard	2412488	USD	0.00
<b>Hydraulic connection</b>				
Machine with hydraulic pre-fitting for a discharge conveyor with screw coupling. Each contains the coupling element on the machine side and the discharge conveyor side.	Standard	2412477	USD	0.00
<b>Material transport</b>				
Discharge conveyor 26 ft 9 in / 8,150 mm long with conveyor belt width 2 ft / 600 mm and hydraulic folding device for shortening the transport length or simplified maneuvering in narrow fields.	Standard	2336175	USD	0.00
<b>Paint</b>				
Painting in cream RAL 9001 with orange stripes. The complete lower part of the machine is painted in slate grey RAL 7015.	Standard	2336323	USD	0.00
Monocolor special painting. Cream white color is replaced by a special color (RAL according to customer). The complete lower part of the machine is painted in slate grey RAL 7015.	Option	2336324	USD	1,561.00
<b>Technical documentation</b>				
Technical documentation - North America country version (US)	Standard	2456347	USD	0.00
<b>Service documentation</b>				
Spare part and application documentation English (EN)	Standard	2456404	USD	0.00

<b>Warranty</b>				
Standard warranty 12 months or 1000 engine operational hours	<b>Standard</b>	<b>100772</b>	<b>USD</b>	<b>0.00</b>
<b>Telematics</b>				
WITOS FleetView includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	<b>Standard</b>	<b>2483436</b>	<b>USD</b>	<b>0.00</b>
<b>Machine lighting</b>				
Lighting system consisting of 4 halogen and 8 LED working lights. The headlights illuminate the area in front of the machine, both machine sides, the area in front of the milling drum unit, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 19,500 lumen in total.	<b>Standard</b>	<b>2487614</b>	<b>USD</b>	<b>0.00</b>
High-performance lighting system consisting of 1 halogen and 14 LED working lights. The headlights illuminate the area in front of and behind the machine, both machine sides, the area in front of the milling drum unit, the loading area, the weather canopy, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 26,300 lumen in total. LED working lights are extremely bright, shock-resistant and durable.	<b>Option</b>	<b>2487615</b>	<b>USD</b>	<b>936.00</b>
<b>Equipment Options</b>				
<b>Exhaust air filter</b>				
VCS - Vacuum Cutting System on the discharge conveyor, for extraction of fine material particles and water vapor from the sealed milling unit.		<b>2336913</b>	<b>USD</b>	<b>8,251.00</b>
<b>Advance drive</b>				
Equipment of the machine with precision steering. Pushbuttons on the multi-function armrests with a proportional response permit more precise steering of the machine.	<b>Standard</b>	<b>2478488</b>	<b>USD</b>	<b>0.00</b>
<b>Equipment operator's platform</b>				
Operator's platform with weather canopy. The weather canopy is hydraulically adjustable in height and provides additional comfort during on-site operation. Including LED working light for illuminating the footstep. (Only in conjunction with electrohydraulic unit.)	<b>Option</b>	<b>2336173</b>	<b>USD</b>	<b>8,156.00</b>

<b>Milling drum assembly options</b>				
Active floating position on the side plate right and left by continuous comparison between the milling depth and position of the side plate. If required, the side plate is lifted briefly to prevent tilting or sinking into a soft sub-base. (Only possible in conjunction with LEVEL PRO PLUS.)	<b>Standard</b>	<b>2478486</b>	<b>USD</b>	<b>0.00</b>
<b>Device for milling drum change</b>				
Milling drum assembly trolley for milling drums up to FB1300 (4 ft 3 in), for straightforward milling drum change	<b>Option</b>	<b>105240</b>	<b>USD</b>	<b>2,633.00</b>
<b>Cold-start device</b>				
Electric preheating of the fuel filter for maintaining free-flow properties of the fuel at low outside temperatures. Used for ensuring operating capability at temperatures below 32 degrees Fahrenheit / 0 degrees Celsius.	<b>Option</b>	<b>2377357</b>	<b>USD</b>	<b>746.00</b>
<b>Options for belt conveyor</b>				
Signal lights on the loading conveyor for a visual truck stop-and-go control without using the horn. The signal lights can be folded in hydraulically from the operator's platform.	<b>Option</b>	<b>2409818</b>	<b>USD</b>	<b>6,392.00</b>
<b>Leveling</b>				
Expansion of the LEVEL PRO PLUS leveling system by a SONIC SKI sensor. Ideal for contact-free wire and soil scanning. Including connection cable and holder.	<b>Option</b>	<b>2352878</b>	<b>USD</b>	<b>5,727.00</b>
<b>Leveling</b>				
Expansion of the leveling system for multiplex system package 3-way right, including 2 x ultrasonic sensors, and connection cable. (FB1000/1200)	<b>Option</b>	<b>2544246</b>	<b>USD</b>	<b>3,651.00</b>
Expansion of the leveling system to make multiplex system package 3-way right and 3-way left, including 4 x ultrasonic sensors and connection cable. (FB1000/1200)	<b>Option</b>	<b>2544249</b>	<b>USD</b>	<b>7,288.00</b>
<b>Attachments</b>				
Battery-operated electro-hydraulic unit for operation of the machine hydraulics with the diesel engine switched off. (e.g. height adjustment of weather canopy, milling drum rotation device and hydraulic pick extractor drift)	<b>Standard</b>	<b>2412494</b>	<b>USD</b>	<b>0.00</b>
<b>Water system</b>				
Hydraulically operated high-pressure water cleaner with a maximum performance of 15 l/min at 150 bar pressure. Ideal for daily cleaning of the machine.	<b>Option</b>	<b>2336231</b>	<b>USD</b>	<b>3,909.00</b>

<b>Pick changing aids</b>				
Milling drum rotation device with electrohydraulic milling drum drive for slowly turning the milling drum during pick replacement.	<b>Standard</b>	<b>2352893</b>	<b>USD</b>	<b>0.00</b>
<b>Wirtgen information and diagnostic system</b>				
Equipment of the machine with job data acquisition. The information is shown in the control display.	<b>Standard</b>	<b>2410294</b>	<b>USD</b>	<b>0.00</b>
<b>Camera system</b>				
Monitor system as maneuvering aid with 2 cameras and screen. A camera is mounted on the discharge conveyor and displays the loading of the truck. The 2nd camera shows the area in front of the milling drum housing. The camera images are displayed on the screen.	<b>Option</b>	<b>2487637</b>	<b>USD</b>	<b>5,496.00</b>
<b>Other devices</b>				
License plate holder with LED lighting to comply with country-specific regulations.	<b>Option</b>	<b>2659037</b>	<b>USD</b>	<b>434.00</b>
<b>Documentation</b>				
Additional set of technical documentation - North America country version (US)	<b>Option</b>		<b>USD</b>	<b>81.00</b>
<p><sup>1</sup>Option must be ordered from headquarters.</p> <p>Date: 3/6/2019</p>				

**Price list****W 150 Cfi - 1200 mm****Scope of supply – basic machine**

- Engine: 6-CYLINDER DIESEL ENGINE: CUMMINS QSL 9 C-380 AG4f
- Rated engine power 2100 r.p.m.: 283 kW / 380 HP / 385 PS
- Maximum power at 1900 r.p.m.: 298 kW / 400 HP / 405 PS
- Exhaust standard: EU Stage 4 / US Tier 4f
- Standard milling width: 4ft 11 in / 1,500 mm
- Theoretical milling depth: 1 ft 1 in / 330 mm

**STANDARD EQUIPMENT**

- Basic machine with engine
- Machine chassis with wasp waist on the right side (zero edge)
- Electrohydraulically opening engine cowling
- Radiator with temperature-dependent fan speed
- Additional control switch for scraper blade, bottom right
- Elastically mounted engine station with low vibration and low noise
- Three milling drum rotation speeds with electric on/off function 106 r.p.m. - 96 r.p.m. - 86 r.p.m.
- Air compressor system

**MILLING DRUM HOUSING**

- The right side of the milling drum housing can easily be folded down for maintenance or milling drum change
- Hydraulic material depressor with conveyor lifting function
- Hydraulically opening scraper plate with convenience locking
- Exchangeable wearing segments on the side plate

**LOADING OF MILLED MATERIAL**

- Discharge conveyor slewing angle left 60 degrees - right 60 degrees
- Two slewing speeds on the hydraulically foldable discharge conveyor with an adjustable conveying speed for precise loading

**MACHINE CONTROL AND LEVELLING SYSTEM**

- LEVEL PRO PLUS leveling system right and left
- RAPID SLOPE cross-slope sensor for LEVEL PRO ACTIVE leveling system
- Jog mode for height adjustment
- Load-dependent advance control
- 4-track drive with manually activated, electronic anti-slip control
- 4 selectable steering modes

- Automatic water management
- Automatic engine speed control

#### **OPERATOR 'S PLATFORM**

- Convenient control panel with practical switches
- Multi-function armrest including color operating display for one-handed operation of most machine functions.
- Digital multi-function display for all important operating conditions
- Scraper height is shown on the display
- Operating panel nighttime lighting
- Robust anti-vandalism protection for the controls
- Adjustable steering wheel position
- Optimally positionable operator's seat
- Footstep right and left with conveniently folding ladder
- Two mirrors front, one mirror middle and one mirror in rear area of the machine

#### **CHASSIS AND HEIGHT ADJUSTMENT**

- Fourfold full-floating axle for high machine stability
- PTS – automatic alignment of the machine parallel to the pavement surface
- ISC – intelligent track speed control including hydraulic four-track drive
- Reversing with the milling drum rotating. Simple and fast maneuvering
- Equipped with extremely wear-resistant 2-piece polyurethane track pads

#### **MISCELLANEOUS**

- Large tool package
- Generously sized water and diesel tanks
- Total of 3 EMERGENCY STOP switches at sensible positions on the machine
- "Welcome" and "Go home" lights feature including LED lighting in the area of the operator's platform and access
- Pre-fitting for installing the WITOS FleetView control unit
- European design type certification, EuroTest mark and CE conformity

**List price ex subsidiary Wirtgen America**

**USD 627,407.00**

Mandatory Options				
Exhaust Gas After Treatment				
Exhaust after-treatment by diesel oxidation catalytic converter DOC in exhaust emissions category EU Stage 4 / US Tier 4f. Without diesel particulate filter.	Standard	2400773	USD	0.00
Exhaust after-treatment by diesel oxidation catalyst DOC in exhaust emissions category EU Stage 4 / US Tier 4f. Additionally equipped with diesel particulate filter (DPF) - for operation e.g. in halls or in environmental zones with limited fine dust emission.	Option	2400774	USD	14,549.00
Milling drum housing				
Wear-resistant milling drum housing FB1500 (4 ft 11 in), with pre-fitting enabling a quick and easy change of the milling drums with varying spacings and milling widths, without milling drum.	Standard	2400857	USD	0.00
Milling drums / milling units				
FCS milling unit FB1200 (3 ft 11 in) LA15, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 115 picks, including scraper bottom part FB1200 (3 ft 11 in)	Standard	2409827	USD	0.00
Operator's platform				
Standard operator's seat with shock absorption and lengthways adjustment	Standard	2412488	USD	0.00
Hydraulic connection				
Machine with hydraulic pre-fitting for a discharge conveyor with screw coupling. Each contains the coupling element on the machine side and the discharge conveyor side.	Standard	2412477	USD	0.00
Material transport				
Discharge conveyor 26 ft 9 in / 8,150 mm long with conveyor belt width 2 ft / 600 mm and hydraulic folding device for shortening the transport length or simplified maneuvering in narrow fields.	Standard	2336175	USD	0.00
Paint				
Painting in cream RAL 9001 with orange stripes. The complete lower part of the machine is painted in slate grey RAL 7015.	Standard	2400780	USD	0.00
Single-color special paint. Cream color is replaced by a special color (RAL acc. to customer request). The complete lower part of the machine is painted in slate gray RAL 7015.	Option	2400782	USD	1,547.00
Technical documentation				
Technical documentation - North America country version (US)	Standard	2456347	USD	0.00
Service documentation				
Spare part and application documentation English (EN)	Standard	2456404	USD	0.00

<b>Warranty</b>				
Standard warranty 12 months or 1000 engine operational hours	<b>Standard</b>	<b>100772</b>	<b>USD</b>	<b>0.00</b>
<b>Telematics</b>				
WITOS FleetView includes a control unit (TCU) with a GPS receiver and the usage rights for the web application WITOS FleetView. The web access function offers a compact overview of the machine status including consumption data, working times, position data, error messages and service intervals. (The actual amount of data available depends on the machine type). The availability of WITOS FleetView is guaranteed for 3 years from the date of delivery.	<b>Standard</b>	<b>2483436</b>	<b>USD</b>	<b>0.00</b>
<b>Machine lighting</b>				
Lighting system consisting of 8 halogen and 6 LED working lights. The headlights illuminate the area in front of and behind the machine, both machine sides, the area in front of the milling drum unit and on the chassis unit, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 21,100 lumens in total.	<b>Standard</b>	<b>2450350</b>	<b>USD</b>	<b>0.00</b>
High-performance lighting system consisting of 1 halogen and 17 LED working lights. The headlights illuminate the area in front of and behind the machine, both machine sides, the area in front of the milling drum unit and on the chassis unit, the area of the wasp waist, the loading area, the ladder/footstep and the operator's platform. The light output of the working lights is approx. 29,900 lumens in total. LED working lights are extremely bright, shock-resistant and durable.	<b>Option</b>	<b>2450351</b>	<b>USD</b>	<b>2,104.00</b>
<b>Additional devices</b>				
Battery-operated electro-hydraulic unit. Weather canopy and engine cowlings can be lifted with the hydraulic unit.	<b>Standard</b>	<b>2400778</b>	<b>USD</b>	<b>0.00</b>
Battery-operated electro-hydraulic unit for milling drum rotation device and hydraulic pick extractor drift. Weather canopy and engine cowlings can be lifted with the hydraulic unit. Moreover, emergency functions such as lifting the chassis units, releasing the parking brake and other cylinder functions can also be operated when the engine is switched off.	<b>Option</b>	<b>2400779</b>	<b>USD</b>	<b>1,737.00</b>
<b>Equipment Options</b>				
<b>Exhaust air filter</b>				
VCS - Vacuum Cutting System on the discharge conveyor, for extraction of fine material particles and water vapor from the sealed milling unit.	<b>Option</b>	<b>2441379</b>	<b>USD</b>	<b>8,251.00</b>

<b>Advance drive</b>				
Equipment of the machine with precision steering. Pushbuttons on the multi-function armrests with a proportional response permit more precise steering of the machine.	<b>Standard</b>	<b>2400798</b>	<b>USD</b>	<b>0.00</b>
<b>Equipment operator's platform</b>				
Operator's platform equipped with weather canopy as well as windscreen and rear window. The side parts of the roof shell can be pulled out and the windows are movable. The complete roof can be folded in electro-hydraulically using a battery operated hydraulic pump for simplified machine transport. In addition, operation with a hand pump is possible. The operator's seat is surrounded by impact and abrasion-resistant Plexiglas panels.	<b>Option</b>	<b>2400795</b>	<b>USD</b>	<b>13,178.00</b>
Additional control unit for ground operation of the machine. Enables the ground crew to control important machine functions on the left side of the machine additionally.	<b>Standard</b>	<b>2400803</b>	<b>USD</b>	<b>0.00</b>
Heating with fan and air outlet openings in the footwell of the operator's platform.	<b>Option</b>	<b>2400791</b>	<b>USD</b>	<b>1,031.00</b>
<b>Milling drum assembly options</b>				
Overload sensor on the scraper for automatic lifting function in case of obstacles. Effectively prevents the scraper from sinking into the loose sub-base, as well as getting stuck on obstacles.	<b>Standard</b>	<b>2483584</b>	<b>USD</b>	<b>0.00</b>
<b>Device for milling drum change</b>				
Milling drum assembly trolley for milling drums up to FB1500 (4 ft 11 in), for straightforward milling drum change	<b>Option</b>	<b>2125929</b>	<b>USD</b>	<b>5,049.00</b>
<b>Additional milling units</b>				
FCS milling unit FB600 (24") LA12, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 80 picks, including scraper bottom part FB600 (24")	<b>Option</b>	<b>2417852</b>	<b>USD</b>	<b>26,424.00</b>
FCS milling unit FB900 (2 ft 11 in) LA15, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 102 RS picks, including scraper bottom part FB900 (2 ft 11 in)	<b>Option</b>	<b>2417854</b>	<b>USD</b>	<b>31,269.00</b>
FCS milling unit FB1200 (3 ft 11 in) LA15, with quick-change toolholder system HT22, milling depth max. 11 in / 280 mm, equipped with 115 picks, including scraper bottom part FB1200 (3 ft 11 in)	<b>Option</b>	<b>2409827</b>	<b>USD</b>	<b>36,249.00</b>

<b>Cold-start device</b>				
Electric preheating of the fuel filter for maintaining free-flow properties of the fuel at low outside temperatures. Used for ensuring operating capability at temperatures below 32 degrees Fahrenheit / 0 degrees Celsius.	Option	2400772	USD	746.00
<b>Options for belt conveyor</b>				
Signal lights on the loading conveyor for a visual truck stop-and-go control without using the horn. The signal lights can be folded in hydraulically from the operator's platform.	Option	2458620	USD	6,392.00
<b>Leveling</b>				
Expansion of leveling system by one Sonic-Ski sensor for scanning in front of the milling drum right or left. Including connection cable and holder.	Option	2410276	USD	5,659.00
<b>Leveling</b>				
Expansion of the leveling system for scanning the surface in front of the milling drum unit. A ski in a mobile mounting scans the height using a position measuring system. The surface shortly ahead of the milling drum unit can thus be taken as a reference if scanning using the side plate is not possible. The scanning can be hydraulically activated from the operator's seat.	Standard	2400801	USD	0.00
<b>Additional control unit LEVEL PRO</b>				
Expansion LEVEL PRO PLUS with an additional operating display, including required connection cable and holder.	Option	2400802	USD	2,769.00

<b>Leveling</b>				
Multiplex pre-fitting comprising 4 sensor sockets and holder for expanding the leveling system with one or two multiplex systems. Permits trouble-free connection of at most 2 multiplex sensors per machine side at a later point.	Option	2459795	USD	1,371.00
Expansion of the leveling system for multiplex system package 3-way right, including 2 x ultrasonic sensors, and connection cable.	Option	2410282	USD	3,651.00
Expansion of the leveling system to make multiplex system package 3-way right and 3-way left, including 4 x ultrasonic sensors and connection cable.	Option	2410283	USD	7,288.00
<b>Water system</b>				
Hydraulically operated high-pressure water cleaner with a maximum performance of 15 l/min / 3 gall 8 pt/min at 150 bar / 2175 psi pressure. Ideal for daily cleaning of the machine, including high pressure lance and 15 m / 50 ft hose.	Option	2438190	USD	2,443.00
<b>Pick changing aids</b>				
Milling drum rotation device with electrohydraulic milling drum drive for slowly turning the milling drum during pick replacement.	Option	2410287	USD	2,931.00
Pneumatic hammer with two pick extractor and inserter tools each as well as 5 m / 16 ft 5 in hose and holder.	Standard	2400775	USD	0.00
Additional folding seat on the rear right chassis unit for additional comfort during the pick change. The entire milling drum can easily be reached from a sitting position.	Option	2411373	USD	936.00
<b>Wirtgen information and diagnostic system</b>				
The actual milling depth is measured by a differential method between sensors on the side plate and sensors on the scraper. The actual milling depth is displayed in the Info menu of the LEVEL PRO PLUS display.	Option	2410291	USD	1,018.00
Equipment of the machine with job data acquisition. The information is shown in the control display.	Option	2410294	USD	1,113.00

<b>Camera system</b>
