RE: 110 & 112 NW 16th Street Duplex
Window Replacements Application

Dear HP Commission:

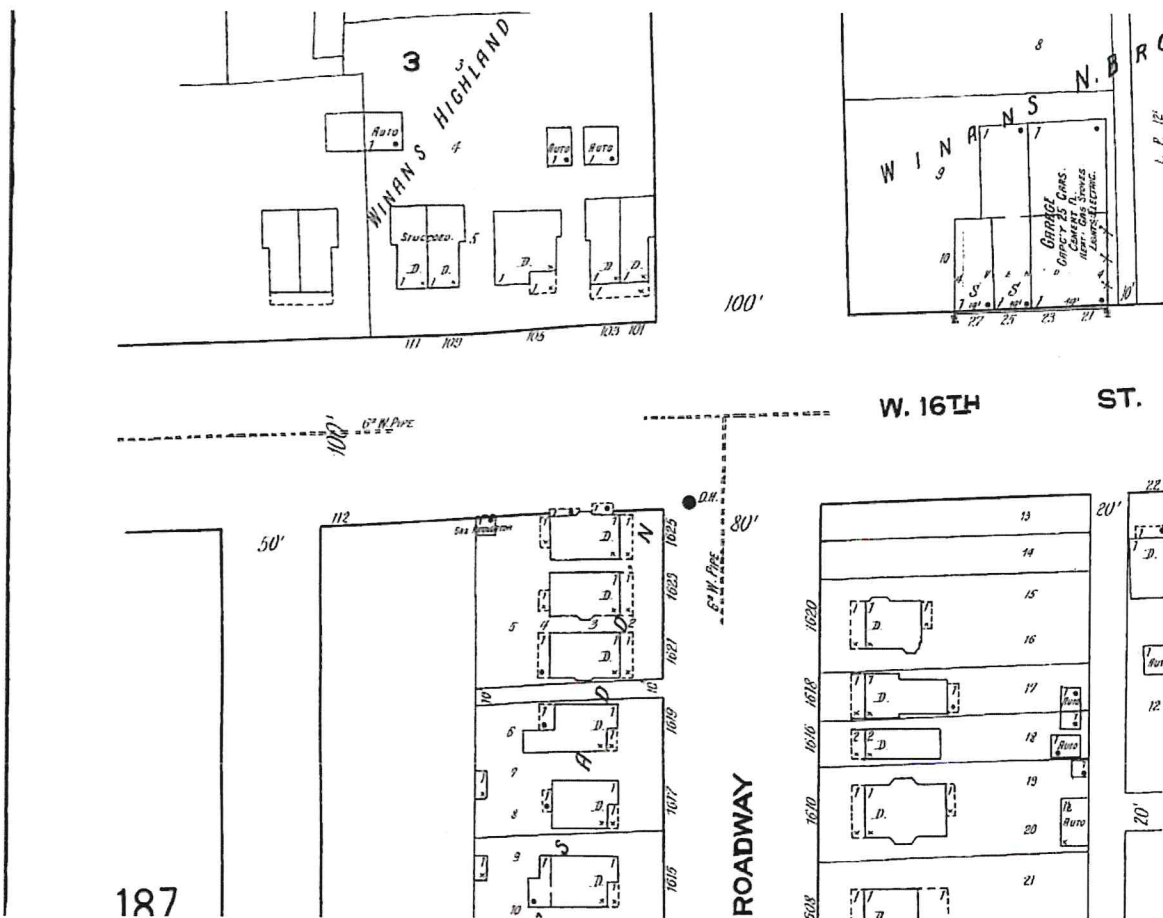

The single pain windows in both sides of this duplex were inoperable and beyond repair due to rotted stiles and rails, broken glass and tenants driving screws and painting them shut thinking they were protecting themselves from intrusion. I have recently taken this property back from a management company and upon inspection learned of the condition of the windows and thought it would be safer for tenants to have them replaced so they would be operable. I looked at the next door neighbor to the west, saw the vinyl windows on that property and decided to match that existing window standard assuming this was appropriate and best upgrade. I did not realize that vinyl windows needed to be approved until I found the Correction Notice on one of the windows. When the last tenants moved out, we replaced the windows on 110 NW 16th side, but have not yet replaced the windows on the 112 NW 16th side. I ask for approval to replace the window on both sides of the duplex with the RB Reliable Low E Insulated glass vinyl windows shown in the attached pictures.

Sincerely,

Steve Prentice
