

MEMORANDUM

OCAT Agenda  
Item No. VIII. F  
4/27/2023

TO: Trustees, Oklahoma City Airport Trust

FROM: Jeff Mulder, Director of Airports

Permanent Water Easement to The City of Oklahoma City for a fire hydrant system. WRWA.

**Background:**

The City of Oklahoma City has requested an easement on Airport property for the purpose of repairing, expanding, and replacing a fire hydrant and associated facilities, connections, utilities, and appurtenances, which is necessary for the City's provision of water services to the leased premises of the Oklahoma Air National Guard and will better support this area of the Airport in the event of a fire.

By providing an easement to the City for water services, the Trust will provide benefits to the Airport and increase the marketability of the property for development with no negative impact on the aeronautical activities of the Airport.

**Recommendation:** Easement be approved.
