Re: Amendment No. 2 and Change Order No. 3
Project No. SE-0048
Emergency Sanitary Sewer Repairs
SW 12th St. and S Lee Ave.

Honorable Chairman and Trustees:

I. **SCOPE**

Amendment No. 2 is the final amendment to reconcile all the quantities installed in the field. Change Order 3 adds new pay items and time extension to the contract.

II. **JUSTIFICATION**

Amendment No. 2 reconciles all differences between the estimated and actual quantities used during the construction of this project. Additional 36" sanitary sewer pipe, trenching, and embedment were needed to connect to the existing sanitary sewer pipe. Additional curb and gutter, and sods were used to restore surface conditions due to the unstable subsurface that required additional excavation and safe shoring during the construction. The pavement cut and permanent repair was deleted in lieu of the full street 6-inch concrete pavement. Change Order No. 3 adds new pay items to restore the surface conditions, which consist of 6-inch concrete payment, concrete driveway approach, and hydro mulch. The 6-inch concrete pavement was needed during the construction excavation for safety shoring due to subsurface conditions, existing utilities, and depth of the sanitary sewer lines. The concrete driveway approach was replaced due to the work of lowering of the 6-inch water line to facilitate the sanitary sewer repair. The hydro mulch was used to restore the disturbed surface conditions during the construction. This change order adds 14 calendar days to complete all the works described above.
